Meteorological Reporter to the
Government of India.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of previous advertisements, on and from the 1st January, 1885, the terms of subscription and sale will be as follows:—

Terms of subscription, payable annually in advance.

For the complete Series, including postage

	Without postage.	With postage.
For the Calcutta Series	R10 0	R12 8

" each of the Madras, Bombay and Allahabad Series	" 6 0	" 7 0
---	-------	-------

" a part of the Calcutta Series purchased separately inclusive of postage in India	"	" 2 0
--	---	-------

" a part of the Madras, Bombay and Allahabad Series purchased separately inclusive of postage in India	"	" 1 0
--	---	-------

Persons desiring to subscribe for, or purchase, the Report should apply to—

Messrs. Thacker, Spink & Co., Calcutta.

" Thacker & Co., Bombay.

" Higginbotham & Co., Madras.

The Government Central Book Depot, Bombay.

" Curator of Government Books, North-Western Provinces and Oudh.

" Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1885 should be at once remitted

NOTICE.

PROMISSORY NOTES.

Lost

The Government Promissory Note No. A005079, dated 16th January, 1879, of the 4 per cent. (reduced) loan of 1879, for Rs500, originally standing in the name of Srimati Sawdhamini Dassi, the proprietress, by whom it was never endorsed to any other person. Payment of the above note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of a duplicate in favour of the proprietress.

SUPPLEMENT TO
The Gazette of India.

No. 14.} CALCUTTA, SATURDAY, APRIL 2, 1887.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the Editor of the GAZETTE must be looked to.

E.—STATEMENT of NET REVENUE and EXPENDITURE—ENGLAND and INDIA	649

FINANCIAL STATEMENT for 1887-88.

1. The Accounts for the year 1885-86 correspond very closely with the *Accounts : 1885-86..* figures of the Revised Estimates given in the Financial Statement for last year. The deficit in that year was then calculated at £2,290,800; the actual figure as now finally shewn in the Accounts is £2,801,726.

2. The Revenue Estimates for the year 1886-87 have not in any material *Revenue Estimates : 1886-87.* degree been modified by the results of the year. It will be seen from figures furnished in a later page of this Statement that the revenue taken in the Revised Estimates of 1886-87 exceeds that shewn in the Budget Statement of the same year by £273,000.

3. The Estimates of Expenditure have been disturbed by two causes which, *Expenditure Estimates : 1886-87.* at the time they were under preparation, were known to threaten uncertainty, but in other respects they are borne out by the result shown in the Revised Estimates. There has been a greater charge on the expenditure side than was provided under the head of Exchange, the difference being £474,600; and events in Upper Burma have compelled the Government to maintain a strong force there throughout the year, and to carry out the active operations necessary to secure and preserve order. The extra cost on this head for the year 1886-87 may be put at £860,000. The combined excess expenditure under these two heads during the year 1886-87 for which the Government has had to make provision amounts to £1,334,600.

4. The revision of the engagements with Provincial Governments has occupied the attention of the Government during the year. The five-year con- *Enumeration of questions of importance under consideration during 1886-87.* tracts with the Provincial Governments, which expire on 31st March 1887, have been renewed, during the year now closing, with the assistance of the Finance Committee. In the renewal of these contracts opportunity has been taken to submit the revenue and expenditure of the several Local Governments to the scrutiny to which the Government of India has subjected departments subordinate to itself. The matter is fully dealt with in the following pages; but it may be stated here that, after allotting to Provincial Governments the sums necessary for the services assigned to them, the revenues of the Government of India through the re-arrangement of the Provincial Contracts have been strengthened by a maximum sum of £640,100, though in the ensuing year the amount taken on the estimates is, for reasons which will be explained, £490,000 only. The Finance Committee's recommendations, and those of Sir Charles Elliott and his colleagues who were appointed when the Finance Committee had separated to carry to a conclusion certain inquiries, will for a considerable time continue to occupy the attention of the Government, extending as they do to a variety of subjects, and dealing with them in great detail. It is impossible to estimate at present what the net result may be of the decisions ultimately to be taken by the Government on the various suggestions of the Finance Committee; to whom, meanwhile, the Government is greatly indebted for their discharge of the task entrusted to them. The yield of the Income Tax during the year is taken in the Revised Estimates at £1,348,100 against £1,458,100, the figure entered in the Budget Estimates. Measures have come into force during the year for carrying into effect what is known as Article III of the Chefoo Convention. By that Article opium entering the treaty ports in China will in future pay a consolidated sum of taels 110 per picul, and

will be free of all the further inland duties known as lekin, instead of paying, as hitherto, 30 taels per picul duty, and whatever lekin might be imposed upon it in the course of its transit inland. The Convention came into force on February 1st, and is now in full vigour.

Estimates: 1887-88. 5. Turning to the ensuing year and taking as a guide the results shewn in the Estimates of the closing year, we find that the main points in the revenues and expenditure of the year which is commencing may be thus summarised. An addition has been made to Imperial revenues of £490,000 by the revision of the Provincial Contracts; but of this, £400,000 was anticipated in the receipts of 1886-87 in the form of contributions from certain Local Governments. A further sum of £256,300 has been taken as the estimated increase in the revenue of Upper Burma, and £625,600 has been added to the Railway revenue; a net total of £971,900 on the revenue side, to which must be added an item of £359,100 explained in paragraph 18 as taken on exchange; on the Expenditure side this is balanced by the additional charge of £285,400 in the expenditure necessary for Upper Burma and by £781,300 increased railway expenditure, debitable to revenue. Provision is made in the Estimates of 1887-88 for £344,984 for giving further effect to the increase to the effective strength of the army, decided upon in 1885-86. The excess of revenue on the above accounts is nearly the same as the excess of expenditure.

Taxation not proposed.

6. These remarks exhibit the main results of the past year, and the general outcome of the anticipations for the coming year. It may be added here that, in view of the causes which have led to an increase of expenditure, and to the other considerations which present themselves in connection with the financial situation, it is not the intention of the Government to add to existing taxation. The growth of expenditure in the Estimates of 1886-87 and 1887-88 arises in part from war charges and in part from a further fall in the exchange; and the Government is of opinion that it would be undesirable to seek to meet the deficit at present arising from these causes by the imposition of further burdens. The attention of Her Majesty's Government has, during the year now closing, been turned to the difficulties caused to the Government of India by the fall in silver, and the question of gold and silver currency has been submitted to a Royal Commission, the result of whose deliberations must be awaited. The present military expenditure in Upper Burma is of a temporary nature; and although considerable sums must be expended during the next two or three years in opening up communications in Upper Burma, and in providing the public buildings necessary for the accommodation of the garrison and for the conduct of business, it may be expected that with the return of order the revenues of Upper Burma will expand, and that its resources will become in an increasing degree available. For the present, therefore, until the outcome of present difficulties is seen more clearly, the Government considers that in providing for the necessary expenditure arising from its administrative needs, it should avail itself of resources which, in times of surplus, are assigned from its revenues to the construction of railways or to the diminution of the amount which it borrows annually for railways. Having thus indicated the outlines of the financial situation of the two years, 1886-87 and 1887-88, I proceed to a statement of the results shewn on the accounts of 1885-86, the Revised Estimates of 1886-87, and the Estimates of 1887-88, and of the measures to which the Government has had recourse in order to maintain equilibrium.

Accounts of 1885-86.

7. In the last Financial Statement the Revised Estimates of 1885-86 were given as Revenue, £73,598,100; Expenditure, £76,488,900; Deficit, £2,890,800. The Accounts closely correspond with the above result, and are—

	£
Receipts	74,464,197
Expenditure	77,265,923
Deficit	2,801,726

The deficit, as explained last year, was entirely due to the excess expenditure caused by the military preparations of the year, in anticipation of war, to increased political expenditure, and to the cost of the expedition to Burma. There is nothing in the Accounts which calls at this late date for further explanation.

8. As the Budget provided for a surplus of £646,600, the final result was worse than the Budget by £3,448,300. The main items of this difference were as follows:—

	Better +.	Worse—.
<i>Imperial—</i>		
Opium	661,000
Delimitation Commission, Rawalpindi Durbar, and Political subsidies	412,900
Army—Quetta Force	2,116,500
„ Burma Expedition	604,900
Exchange	709,700
Railway Revenue Account	789,600	...
Reduction of Expenditure under Buildings and Roads	278,500	...
TOTAL	1,068,100	4,505,000
Net worse	3,436,900

Full explanation was given in the Financial Statement of 1886-87 under each of the above heads.

9. The Budget Estimates for 1886-87 were Revenue £75,798,700; Expenditure, £75,616,500; the estimated surplus was therefore £182,200. On the Revised Estimates for that year, after taking from the Famine Insurance Grant, as explained in paragraphs 68 *et seq.*, the amount necessary to obtain equilibrium the figures stand:—

	£
Revenue	76,071,700
Expenditure	76,071,200
Surplus	500

10. The Estimates of 1886-87 have been very materially modified during the course of the year, and the result above arrived at is due, as will be seen, to the adoption of measures which were not contemplated when the Estimates for the year were framed. Excess expenditure on account of military operations in Burma, to the amount of £860,000, was incurred during the course of the year. The Civil Estimates for Upper Burma were increased by £289,300, mainly on account of Police. Opium gave £328,700 less; the charge on account of exchange was increased by £474,600. There were other items of increased expenditure of less importance, but the total of the four items above enumerated amounts to £1,952,600.

11. The Revenues in the Revised Estimate, on the other hand, amounted to £76,071,700, against £75,798,700 taken in the Estimates, or an excess of £273,000 only. The following table shews the causes of difference between the Budget Estimates of 1886-87, and the Revised Estimates as now presented. As shewn in the foot-note of the Statement on page 53, the final result is reduced from a surplus of £182,200 to one of £500 only, a deterioration of £181,700. The details of this are shown in the difference columns of the statement, but they may be grouped as follows:—

	Better.	Worse.	
	£	£	
Decrease of Imperial Revenue	63,400	} Total worse 181,700.
Increase of Imperial Expenditure	118,300	
Increase of Provincial Revenue	336,400	...	} 336,400
Increase of Provincial Expenditure } Alteration of Provincial Adjustment }	...	336,400	

The two last entries necessarily counterbalance, as an improvement or deterioration in the Provincial accounts merely increases or diminishes the Estimate of the Provincial balances left at their credit at the end of the year.

12. The minuter details of the four amounts last stated will be seen from the following statement, the Imperial columns being those with which we are immediately concerned. Explanations regarding the more important differences will be found at a later page:—

*Revised Estimate,
1886-87, compared
with Budget Esti-
mate, 1886-87.*

TOTAL	—63,400	+336,400	+118,300	+336,400

13. It is explained in the course of this Statement that the Government had before it, in connection both with the year 1886-87 and 1887-88, the alternatives of deficit, fresh taxation, or temporarily withholding of the grant from Revenue to railways, and reduction of debt, under the head of Famine Insurance. For reasons which will be presently given, the latter step having been determined upon, the sum of £1,049,400 thereby made available to meet other expenditure has obviated deficit. Explanation will be given hereafter of the main items of difference between the Budget and the Revised Estimates of the year 1886-87; but these remarks will sufficiently shew what were the chief causes of unforeseen disturbance, and what is the character of the measures by the aid of which it has been decided to cope with them.

*Temporary
suspension of
Famine Insurance
Railway Grant.*

14. The Estimates for the ensuing year, in which again equilibrium has been obtained by means of the surplus revenues otherwise assignable to the Famine Insurance Grant, are: *Results of Budget Estimates, 1887-88.*

	£
Revenue	77,460,200
Expenditure	77,443,500
	<hr/>
Surplus	16,700
	<hr/>

15. Compared with the Revised Estimates of the present year the receipts are £1,388,500 and the expenditure £1,372,300 in excess. If we take the Estimates in detail, the main items of increase of revenue under the several heads such as Railways are balanced by corresponding increase of expenditure. In the same way the increase in the revenues in Upper Burma nearly meets the increase of expenditure on account of the combined military and civil expenditure in that province. The net charge in the Estimates of 1887-88 under this head amounts to £1,770,500 distributed over charges in respect of Collection, Law and Justice, Police, Marine, Civil and Military Works, and Army, as against £1,741,400 in the Revised Estimates of 1886-87. The excess of expenditure over revenue on account of Upper Burma in the Estimates of 1887-88 will be seen from the following figures:— *Excess expenditure, Upper Burma.*

Upper Burma Receipts—	£	Upper Burma Expenditure—	£
Revenue Heads	551,600	Police	737,000
Public Works Receipts	2,100	Other Civil Charges	321,200
	<hr/>	Irrigation Works	24,000
	553,700	Civil Works	156,000
	<hr/>	Military Works	300,000
(Revised Estimate, 1886-87)	£297,400	Extra Army Charges	720,000
		Marine ditto	66,000
			<hr/>
			2,324,200
			<hr/>
		(Revised Estimate, 1886-87)	£2,038,800

16. An additional charge of £344,984 is included in the Estimates of 1887-88 under Army, being the sum provided to meet increased expenditure consequent on the prosecution of the measures for increasing the strength of the army determined on in 1885. The total estimate under Army is, however, only £126,400 in excess of last year, owing to a diminution in the military charges for Upper Burma in 1887-88 as compared with the present year. After deducting the contribution of £400,000 last year, there is a further net gain of £90,000 under various heads in connection with the revision of the Provincial Contracts. Minor items of increase in receipts or decrease in expenditure bring about the balance of the Budget which is shewn on the Estimates: as will be seen from the statement below. *Gain on Provincial Contracts.*

17. The Budget Estimates for 1887-88 work out to a surplus of £16,700 or £16,200 more than the Revised Estimates of 1886-87. The detail of this is as follows:— *Comparison of Budget Estimates of 1887-88 with Revised Estimates of 1886-87.*

	Increase.	Decrease.	
	£	£	
Imperial Revenue	967,500	...	} £16,200 Better.
„ Expenditure	951,300	
Provincial Revenue	421,000	...	
„ Expenditure	}	}	
„ adjustment	}	421,000	

The details of these increases and decreases are shown in the annexed statement:—

*Budget Estimate,
1887-88, compared
with Revised Esti-
mate, 1886-87.*

TOTAL	+967,500	+421,000	+951,300	+421,000

18. On the Revenue side the Land Revenue is on the whole better by £327,100—mainly in Upper Burma £209,900, and Bombay £134,100. Salt, which is almost entirely an Imperial Revenue, is estimated to give six or seven lakhs better returns, part of which is in Madras, and part in Upper India, where the opening of the Jhelum Bridge will improve the sales of Punjab Mine Salt. Both Stamps and Excise are estimated a little lower than the figures of the Revised Estimate of 1886-87. But a quarter of the revenue passes in the new Provincial Contract from Imperial to Provincial in the first case, and from Provincial to Imperial in the second. The figures against other Heads are affected by a similar transfer, but there is a net gain of £120,600, of which part is under Assessed Taxes and part is a payment of arrears under Tributes. Under Miscellaneous in the Imperial column there is an increase of £359,100, entirely due to the entry against Exchange. It represents for the most part the gain to the Government by its contracts with Railway Companies in accordance with which they make their remittances to this country at a rate which involves the payment to them in India of amounts smaller than those which at the exchange equivalent at present rates would have to be paid. There is a similar large receipt in the Accounts of 1886-87, but it is there counterbalanced by the exchange charge borne by Government in remitting money to pay off £1,128,800 of the Stock Receipt Loan of 22nd April 1854. In the Railway Revenue Account the total improvement is £625,600, which is mostly in the revenue of State Railways, as the returns of Guaranteed Railways are not estimated so high as those of 1886-87.

*Remarks on
financial situation
and prospects.*

19. Before entering into further examination of the measures proposed in 1887-88 in connection with the Budget, we may make a brief estimate of the present position and prospects of the finances, viewed, so far as at present we can see them, as a whole. It will be seen from the General Statement at page 54 that the Indian revenues have increased from £74,464,197 in the accounts of 1885-86 to £77,460,200 in the Estimates of 1887-88, or, in round figures, by

£3,000,000. Of this we may say that £1,680,000 are due to what are known as the "Principal heads of Revenue," in which are included £553,700 on account of the estimated revenue of Upper Burma, and £902,966 on account of Assessed Taxes; while £1,200,000 arise from increased Railway Receipts, and £100,000 from Irrigation, a total of £2,980,000, or, in round numbers, three millions. The year 1885-86 was a year of abnormal expenditure, and is therefore somewhat inconvenient for purposes of comparison on this side of the account. The expenditure, however, in that year is shewn at £77,265,923, the estimated expenditure of 1887-88 being £77,443,500. Eliminating in 1885-86 £3,050,000, on account of the net extraordinary expenditure connected with military preparations, and deducting similarly £1,770,000 in 1887-88, being the net excess of expenditure in Upper Burma, we have, in 1885-86, an expenditure of £74,215,923 against £75,673,500 in 1887-88; an excess of £1,457,577 in the latter year, to which must be added £1,406,000 on account of the Famine Insurance Grant, which has not been charged against Revenue in the Estimates of 1887-88. The net increased expenditure in the latter year, as compared with 1885-86, will then be £2,863,577. The chief items contributing to this are (a) excess expenditure (largely composed of the increased charge for interest) on the Railway Revenue Account, the figures of which, excluding exchange, are for 1885-86 £12,820,911, and for 1887-88 £14,490,300, a difference of £1,669,389 (these charges are abnormally high in 1887-88), (b) Exchange (£1,104,912), and (c) charges arising from the increase to the strength of the army. Against the £3,000,000 increased receipts we thus have £2,863,577 net increase shewn above *plus* £1,770,000 extraordinary charges, or £4,613,577, the difference, roughly speaking, being the amount which we have met by the transfer of the charges under Railway Famine Insurance to Loan.

20. The net addition since 1885-86 to Imperial Revenues, as distinguished from Provincial, may be put in round numbers at £880,000 on account of Income Tax, and £640,000 by the revision of the Provincial Contracts, or £1,520,000. We are engaged in examining further projects of retrenchment, though we shall not, for some time to come, be able to say what will be the amount of our further economies. On the other hand, we shall have brought upon our estimates before long the total addition to military charges consequent on the increase to our forces. We may expect that this will be more than provided for by the additions to Revenue just indicated. We may also consider that, with the exercise of prudence, the growing receipts of our railways will about equal the future increase of expenditure on railways debitable to revenues, including interest on debt incurred for construction of State Railways and Payment of surplus profits on Guaranteed Railways. To the growth of other heads of receipt we may look for an equivalent to the interest charges on account of such capital outlay as that for defence works. Apart from war or famine there remains, so to speak, uncovered, the future growth of expenditure connected with exchange, a source of gravest anxiety regarding which I have no desire to modify the remarks recorded last year. This item has increased from £4,411,437 in the Accounts of 1885-86 to £5,500,500 in the Estimates for the year 1887-88. It is impossible to foresee what will be the future increase; but it may be said that, so far as an unfavourable exchange is due to larger drawings by the Secretary of State owing to increased purchases of material for railway construction, the ratio of increase will be lessened in proportion as the railways now in course of active construction by the State approach completion. It must also be remembered that the net surplus of railway receipts will become more considerable, on the one hand as the lines now in course of construction are opened and as capital at present unproductive yields returns, and on the other hand as the expenditure remaining on account of construction diminishes. In both these directions some set-off may be looked for against increasing charges on account of exchange. The excess military expenditure

on account of Upper Burma will disappear, it may be hoped, in next year's estimates. But the Civil expenditure will probably, for the next two or three years, be in excess of the revenues of that Province, and so long as this proves to be the case, it must continue to be of the nature of an extraordinary charge, for which some special provision such as that of this year may have to be made. Apart from the question of silver, there would seem, therefore, to be no grounds for anxiety greater than those here indicated. Much caution is needed for the present, because we cannot look forward to relief through the immediate increase of our net receipts in any material degree from the opening of new railways, or the slackening of construction; and because in proportion as we utilise our surplus revenues for administrative needs we draw upon resources which form the first reserve in the event of an outbreak of famine. But, (excepting silver), among the elements of calculation which I have enumerated there are as many favourable to increase of revenue as to growth of expenditure; and it may be added that while the latter, such as we know them to be, will gradually, from the nature of the case, become less onerous, the former are expansive and elastic. It may be added in this connection that £53,343,790 India 4 per cent. sterling stock are redeemable in 1888, and that, on the redemption of this stock, some relief to the finances may be expected.

*Necessity
of explanation
regarding course
pursued in respect
of Provincial
Contracts and
Famine Insurance
Grant.*

21. I now go on to explain the considerations by which the Government has been guided in dealing with the revision of the Provincial Contracts and the Famine Insurance Grant, measures which occupy a prominent place in connection with the Budget of 1887-88, and in regard to which its policy will be fully stated. The decision taken in regard to these two heads has largely contributed to bring about the balance between receipts and expenditure. The former has added to the Imperial Revenues a sum of about £550,000 annually for the next five years; the latter, though a measure temporary in character, has decreased the charges against Revenue by the sum of £1,248,000. I hope not to be tedious if I examine at some length the character of the financial relations established between the Government of India and the Local Governments by the successive arrangements which have been concluded since 1870, as well as the nature of the obligations imposed upon the Government under the present form of the Famine Insurance scheme. It is necessary to do this in order to explain why the Government has felt free to avail itself of the resources existing in either of these directions. It was inevitable that, on the expiry of the five years' term of the late contracts, at a time when the finances of the Government of India are subjected to excessive strain, the assignments made to Provincial Governments for a fresh term of years to enable them to meet the charges of provincial administration should be reviewed with special regard to economy. The result of the arrangements concluded between the Provincial Governments and the Government of India has been to reduce the Provincial revenues at the time existing, and the circumstances in which reductions have been made, no less than the system under which they have been made, may have been temporarily lost sight of. In a Resolution published in the *Government Gazette* of 28th January 1887, the Government of India has already stated, in general terms, the principles by which it was guided in the arrangements recently concluded with Provincial Governments. I shall have occasion to return presently to that Resolution; but my object at present is to recal the past history of the measures which have been the outcome of what is known as the policy of decentralisation, and to prove that our procedure in the late revisions has been identical with the procedure laid down in past times. I believe that if we had dealt with the question in any manner other than that in which we have disposed of it, we should have made ourselves justly liable to the charge of introducing

*Proposed review of
past measures in
connection with
provincial finance.*

elements into the policy destructive to its stability, and inconsistent with the security of the finances of the Government of India, which are the only serious guarantee for the independence of Provincial finance.

22. I shall, in the first place, recal the fact that in 1870 it was as much the aim of the Government of India to strengthen its own finances as to improve the relations existing in financial matters between itself and Provincial Governments. To that end, I shall explain, the Government of India not only required Provincial Governments to make good from their own resources the balance between the expenditure allotted to them and the funds assigned to meet this expenditure, but, at a later date, when the matter had passed into a further stage, it reserved to itself, with certain exceptions, all increase of revenue accruing during the term of what are known as the "Contracts." It will be then shown that the Government of India has refused to recognise any claim against it to furnish funds except those allotted simultaneously with given heads of expenditure to meet the further growth of expenditure, in the branches of administration assigned to Local Governments; and that, on the contrary, it has repeatedly referred to its discharge from all obligations under this head as one of the principal objects which it has had in view. While the Government of India has left to Local Governments the use of their share in the increase, during the contract term, of the revenues assigned, it will be explained that it has, in specific terms, and on successive occasions,—in 1882, as in previous years—laid down and acted upon its claim to review and revise its share in the common revenues when the term of contract expired. It has been compelled again, on the present occasion, to act in accordance with this last reserve, because, important though they unquestionably are, the interests of the Local Governments in matters of finance are second to those of the Supreme Government, upon which rests the sole responsibility for the maintenance of the financial credit of India. The only question, therefore, which can arise out of the measures recently taken in connection with provincial finance is in connection with the extent to which the Government of India has used its powers. On this point the necessary information will be given, and the resources left at the disposal of Provincial Governments will be stated.

Object of the following remarks stated.

23. I propose to shew that the following four positions, in pursuance of which we conducted the late revisions, have in past years been established in the course of the arrangements connected with the Provincial Contracts. They are as follows:

First: That the amount of the funds assigned to Provincial Governments need not exceed, or equal, the amount of the expenditure assigned at the time when the contracts are made; Provincial Governments being expected to provide by their own resources the difference between the assigned revenue and expenditure.

Enumeration of four positions established in past years in connection with Provincial Finance.

Second: That the growth of provincial expenditure during the term of a contract must be met from growth of provincial revenue; except in cases where considerable expenditure is undertaken by Local Governments to meet the wishes of the Government of India, and to carry into execution projects which are pressed upon it by that Government.

Third: That the Imperial Government reserves its claim, at the expiry of a term of contract, to such share as the circumstances of the time may make necessary in the increase of revenues which have accrued to the Province during the term of the contract, but which were reserved to the Provincial Government during such term.

Fourth: That the power of enforcing reduction, on the occasion of a new Contract, of the assignments of revenue made at the previous contract, is a condition implied in the system of Provincial Contracts, and has been uniformly acted on.

24. The orders in accordance with which these four several conditions have been laid down more or less overlap one another in point of time, and it is not very easy precisely to separate the circumstances in which each was determined. But they may be grouped more or less exactly round the successive arrangements of 1870, 1877, and 1882, and it is in that order that I will take them. I begin with 1870. The Resolution of December 14th, 1870, which was the first embodiment of the views and intentions of the Government of India on this subject, commenced by declaring that it was desirable to enlarge the powers and responsibilities of the Governments of Presidencies and Provinces, in respect to the public expenditure in some of the Civil Departments. It developed the reasons which had led the Government of Lord Mayo to that decision; and in paragraph 8 it indicated the liability to which, under its provisions, Provincial Governments would be required to subscribe in order to obtain the enlargement of powers and responsibility which it was the object of the Government of India to assure to them;

*Measures of 1870
in regard to the
first of the above
four positions.*

"It would have been satisfactory had His Excellency in Council been able to propose the enlargement of the power and responsibility of the Local Governments without charging upon local resources any part of the existing Imperial expenditure. This cannot be done; but it has been determined to make as small a demand upon these resources as possible. At the same time, it should be remembered that the relief of the Imperial finances has been a principal object in the discussion of such measures on former occasions."

*Resolution of
December 14, 1870.*

That paragraph shews the important reserve as to the relief of the Imperial Finances with which, at its inception, the system of decentralisation was accompanied. The grants assigned, with certain branches of expenditure, to the several Local Governments were less than the grants made in the previous year for the same services; the balance was to be found, whether by economy or by local taxation, by Local Governments themselves. It was declared to be impossible to introduce the system without making an initial demand on the resources of Local Governments, though it was desired that the demand should be as small as possible. The amount by which the expenditure of the several branches of the administration assigned exceeded the revenues allotted to meet it was £330,800, or 6 per cent. on the whole arrangement. It was expected that the Local Governments would furnish themselves, not only with this sum, but, which is of no less importance, with all further sums necessary to meet the growth of expenditure in the departments assigned to them. In the course of his Financial Statement for 1871-72, Sir R. Temple wrote—

*Reserves established
therein, and
reductions made
in funds assigned
for expenditure.*

Sir R. Temple.

"The Local Governments are to have a fixed annual allotment from the General Exchequer for these particular Services, and are to appropriate as Local Income all Receipts connected therewith. They are to regulate (subject to certain General Rules) all the Expenditure on those Services. If the existing income, namely, Imperial Allotment plus Departmental Receipts, shall suffice for the requirements of that Expenditure, then that is well; if it shall not suffice, then the Local Governments are not to apply to the Government of India for increased Grants. They must raise what they need by Local Taxation, or by such like means (subject to our central control) if they fairly can. But if they find that they cannot fairly manage this, then they must necessarily do without the increased expenditure. However much the necessity for doing without the increase may be regretted, there is no help for it. This is the only way of following the good old rule of cutting coat according to cloth. However important progress and improvement may be, financial safety is more important still.

* * * * *

"These allotments have been fixed on the basis of the Budget Grants for 1870-71 (after the deduction of the £331,038 rateably distributed). The objections which might be urged in detail against this mode of fixing the allotments have not, indeed, been overlooked. But certainly any other method that could be devised would have stirred up controversies and difficulties which might never be determined, and which would have caused an indefinite postponement of the whole measure.

"If it were urged, too, that the Grants for 1870-71, having been very economically fixed, afford too low a standard for future Allotments, we should reply that these Grants were really as much as we could possibly afford; and that we are not likely to be able to afford more for some time to come.

* * * * *

"How the several Local Governments will deal with their respective shares in the retrenchment of £331,038 from the grants of 1871-72, and how they will provide whatever additional sums may be required for the finance of the services now entrusted to them, is more than I can say, at present. It is, however, clear that they have, to some extent, already made up, or are making up, their quotas of the retrenchment by savings and reductions of expenditure—a method, in my opinion, the most satisfactory of all."

Lord Mayo, on the 18th March 1871, said:—

"Then under the *eight* Heads, it is proposed to entrust administration, under a few *Lord Mayo.* general conditions, to Provincial Governments, and that a fixed contribution will be made from Imperial Revenue every year. I shall have something to say, hereafter, as to the amount of that contribution. It is intended by the Supreme Government (and I think that there should be no doubt on this point) that that sum should for some time, at all events, be a fixed sum. It is impossible to prophesy or say, at present, what can be done in the far future; but I should be misleading the Local Governments if I were not to say that it is our opinion that these sums are now fixed at an amount which cannot be exceeded for, at least, a number of years. I think it desirable that this should be perfectly understood, because one of our objects is the attainment of as great an amount of financial certainty as is possible. We believe that, in justice to other public claims which are certain hereafter to be made on Imperial Revenue, in view of increased charges for the payment of Interest and other objects, we cannot without recourse to large additional Imperial Taxation increase this sum as now fixed to any very considerable amount. We know that, if it is necessary, the sums which have been hitherto allotted for this purpose can be increased by Local Taxation in a manner much less burdensome and much less offensive to the people than they could be by Imperial Taxation. If it is necessary or desirable to spend money, that money must come from some source. It is possible that the wants of the Local Governments may increase, and I dare say they will; but if they do, we believe, after the most mature consideration, that these wants can better be supplied within the limits of the Provinces themselves, than they can be by adding to the Imperial Taxation of the Empire and the general burdens of the people."

25. It is evident from these extracts that in the minds of those who introduced the Resolution of 1870, and the policy which it embodied, the assignments of revenue to Local Governments were not to be necessarily equal to the present expenditure in the several branches of administration assigned to them. The system introduced in 1870 has been since that date developed, and on three subsequent occasions, *vis.*, in 1877, in 1879, and in 1882, new arrangements have been entered into with Local Governments. We shall see that in 1877, when the system was developed, the practice adopted in 1870 was followed, and that on the second, as on the first occasion, Local Governments were expected to make good for themselves the excess of assigned expenditure over assigned revenue. Financial circumstances, on the latter of the three occasions referred to, *vis.*, in 1882, enabled the Supreme Government to deal at its discretion on terms exceptionally favourable to some of the Local Governments; but it has never in any way intimated that, in the future exercise of such discretion, it would follow the precedent of 1882 rather than that of 1870. If, on the present occasion, the assignments of revenue under specific heads of expenditure have been reduced, it has been done only in the proportion which the enquiries of the Finance Committee have shewn that expenditure itself could be cut down.

*Remarks on the
above extracts.*

*Second position
established in past
years.*

26. I pass now to the second of the four heads indicated in a preceding paragraph, *vis.*, that the growth of provincial expenditure during the term of a contract must be met from Provincial revenue, so far as considerable expenditure is not undertaken by Local Governments to meet the wishes of the Government of India, and to carry into execution projects pressed upon them by that Government. The Government of India has at all times, as, for example, in the extracts already quoted, declined to recognise its liability for any addition to the assignments made to Provincial Governments, on the ground of the increase of provincial expenditure in the departments assigned. Not infrequently during the recent discussions in respect of the revised contracts, there has been much misconception as to the claims of Provincial Governments for assignments of revenue sufficient to meet, not existing expenditure only, but increases of expenditure contemplated by Local Governments during the ensuing five years of the contract. The following explanation will shew that any such claims have never been on previous occasions, whether in 1870 or subsequent to 1870, in any way recognised, and that to have admitted them now would have been quite inconsistent with the spirit of the whole system.

*Modifications
introduced in 1877
into the system.*

27. It is necessary to say here that in 1877, the next occasion on which the provincial arrangements came under consideration, an important advance was made in the system of decentralization. The advance was in two directions *firstly*, some additional heads of expenditure were transferred; and *secondly*, some heads of receipt were made wholly or partially provincial, the amount of which took the place of a portion of the fixed assignment of 1870. Before discussing the latter, which was the more important, I will notice the advance made in the way of transferring additional heads of expenditure, an extension of the system which was carried out in precisely the same direction and on the same lines as the measure of 1870, which has been above dealt with.

*Reductions made in
funds assigned for
expenditure in
1877.*

28. In calculating the amounts for the several heads of the expenditure then for the first time made provincial, the figures were taken as nearly as possible at what were believed at the time to be the normal amounts. But from the total of the expenditure under the new heads then for the first time transferred a retrenchment of about 5 per cent. was made. In the case of the North-Western Provinces the amount of this retrenchment was Rs. 3,54,000; in other words, the Local Government was expected to undertake the management of the new expenditure with an initial grant about $3\frac{1}{2}$ lakhs less than the Imperial grants hitherto assigned for the services. The difference in the assigned departments between the total expenditure after this reduction and the Provincial receipts was to be the net Imperial assignment to the Provincial Government, which was to make good, by such methods as it thought fit, the deduction of 5 per cent. above indicated. In Oudh the retrenchment for the newly transferred services was also at 5 per cent., amounting to Rs. 73,000. In Bengal the 5 per cent. retrenchment was similarly made, amounting to Rs. 5,90,000. Sir John Strachey, in his Financial Statement of March 1877, thus described the result of the arrangements made with the North-Western Provinces, Oudh, and Bengal:—

"Altogether the immediate saving to the Imperial Treasury by the arrangements entered into with Bengal, the North-Western Provinces, and Oudh is £101,780, beside guarantee of normal increments to the transferred revenues amounting to £44,000. The estimates of the year are thus better by £145,700 than they otherwise would have been. I hope that, when it becomes possible to enter into similar arrangements in other Provinces, equally satisfactory results may be obtained."

In the course of the year 1877-78 similar arrangements were concluded with the Governments of the Central Provinces, Bombay, and the Punjab. The retrenchments made from the newly transferred heads were respectively, in the case of each Province, Rs. 90,000, Rs. 73,000, and Rs. 2,41,000. Besides the direct retrench-

ments referred to above, the Imperial Government also benefited by the arrangement made in some Provinces for the transfer of productive public works to Provincial control, and by guarantees of increased revenue under some of the transferred heads. The total benefit to the Imperial Finances was stated to be about £400,000 in the Financial Statement for 1878-79 (para. 21):—

"The measures taken during the past year for increasing the powers and responsibilities of the Local Governments, the nature of which was described in the Financial Statement for 1877-78, will, it is believed, when they are complete, improve the financial position of the Government of India by an annual sum of nearly £400,000. No part of this improvement is due to fresh taxation. It is the result of the administrative changes and improvements to which the policy of decentralization has led. The original measures taken in 1870 by the Government of Lord Mayo had previously led to a saving of £330,000, and this policy, which has given increased efficiency to almost every branch of the Administration, has thus added to the Imperial Revenues a sum of about £700,000 a year, without the imposition of any fresh burdens on the people. These measures of decentralization have now been more or less completely carried out in Bengal, in the North-Western Provinces and Oudh, in the Punjab, the Central Provinces, and in Bombay, and in all cases with the complete approval of the Local Governments. The only great province in regard to which no satisfactory arrangement has hitherto been found practicable is Madras."

29. The second and more important advance made in 1877 was, as I have said, the transfer to Provincial Governments of Revenue. In 1870, the only Receipts which were made Provincial were the departmental receipts corresponding to the head of expenditure transferred. These were comparatively unimportant in amount. All the main heads of Revenue were retained as Imperial. In 1877, the Local Governments were given an interest in some of the main heads of Revenue. Sir John Strachey, in his Financial Statement of March 15, 1877, said (para. 5)—

Further changes effected in 1877. Transfer of Revenue.

"The weak point in those measures (the measures of 1870) was this, that, while they transferred to the Local Governments the responsibility for meeting charges which had an undoubted tendency to increase, the income of which the Local Governments had to dispose, although not quite a fixed amount, had little room for development. The difficulty has perhaps not, hitherto, been generally felt to a serious extent, because it has been met by economy and good management: it must, however, be felt hereafter; and, for this and for still more important reasons, I have always maintained that the system of Provincial Assignments established in 1871 ought to be applied not only to expenditure but to income. What we have to do is, not to give to the Local Governments fresh powers of taxation, but, on the contrary, to do all that we can to render fresh taxation unnecessary, and to give to those Governments direct inducements to improve those sources of existing revenue which depend for their productiveness on good administration."

Sir John Strachey

"How is this better administration to be obtained? The answer seems to me simple: it can be obtained in one way only; not by any action which gentlemen of the Financial Department, or any other Department of the Supreme Government, can take while sitting hundreds or thousands of miles away in their offices in Calcutta or Simla; not by examining figures and writing circulars; but by giving to the Local Governments, which have in their hands the actual working of these great branches of the revenue, a direct and, so to speak, a personal interest in efficient management. It may be very wrong, but it is true, and will continue to be true while human nature remains what it is, that the local authorities take little interest in looking after the financial affairs of that abstraction, the Supreme Government, compared with the interest which they take in matters which immediately affect the people whom they have to govern. When Local Governments feel that good administration of the Excise and Stamps and other branches of revenue will give to them, and not only to the Government of India, increased income and increased means of carrying out the improvements which they have at heart, then, and not till then, we shall get the good administration which we desire; and with it, I am satisfied, we shall obtain a stronger and more real power of control on the part of the Central Government than we can now exercise."

Reserves with which the transfer of revenue was accompanied.

30. It is not necessary to dwell on the reasons which led to the adoption of the measures of 1877 further than to call attention to the safeguards to the Imperial Revenues with which the change was accompanied. In the first place, an amount, corresponding to the average at which the revenues transferred had increased in the past, was, as a rule, reserved during the currency of the contract to Imperial Revenues. In the second place, the right of the Imperial Revenues was also laid down to share during the period of the contract, in accordance with the terms thereof, in any increase over and above what was estimated to be the figure of average increase, which might be caused by the greater care in the control and management of the revenues. In the case of Bengal, the Local Government was allowed to retain during the term of the contract the whole increase in consideration of the fact that a considerable burden was then being imposed on that Province in order to guarantee to the Imperial Revenues the interest on the capital spent on the construction of canals and railways.

Remarks on the above.

31. It will be seen, therefore, that in 1877, as in 1870, the funds assigned from the Imperial to the Provincial Governments fell short of the scale of expenditure existing at the time of transfer; and the balance had to be made good from their own resources by Provincial Governments. It will also be observed that not only was no provision made by the Imperial Government for the assignment of any further grant to meet increase of expenditure during the term of the contract, but a guarantee was taken from Provincial Governments for the payment during the term of contract to the Imperial Government of increased revenues under certain heads. For increase of expenditure over the initial scale the Local Governments had to depend only on such improvement over and above the estimated ordinary increase in the revenues made provincial as they might by good management be able to secure. In later times the Provincial Governments have been allotted a share in all increase whatever of the assigned revenues.

Fixing of definite term of Contract.

32. In addition to the two safeguards to the Imperial Revenues abovementioned a third was the fixing of a term for the duration of the contracts. The periods fixed for the duration of the contracts of 1877 from 1887-88 were as under:—

North-Western Provinces	Two years.
Oudh	One year.
Bengal	Five years.
Bombay	Five "
Central Provinces	Three "
Punjab	Three "

The contracts with Burma and Assam were made for five years from 1878-79. The above periods were subsequently either extended or shortened, with the consent of the Local Governments, so as to end in March 31, 1882.

Third and fourth positions established in past years.

33. All the contracts of 1877 were therefore made for definite limited periods, at the close of which the terms were to be open to revision, and in particular the division of the increase of revenue under the transferred heads between Imperial or Provincial was to be re-adjusted. This last mentioned condition attached to the transfer of receipts to Provincial Governments brings us to the third and fourth of the four positions to which I have referred as having been established between the Government of India and Provincial Governments, *vis.*, the claim of the former on the expiry of the contract to a share in the increased revenue enjoyed by Provincial Governments during the term of a contract, and the liability of the latter to a reduction in the amount of Revenue assigned to them under the contract preceding. In 1877 it was declared to be the intention of the Imperial Government under the Provincial system to revise the terms of a contract on conditions which would be financially less lucrative to a Local Government if, on the expiry of the period fixed for the contract, circumstances

should so require. To show that this was an essential condition attached to the Provincial system from the time when main heads of receipt were first made provincial, I quote two paragraphs from the letters embodying the contract made in 1877 with the North-Western Provinces and Bengal.

First, as to the North-Western Provinces—

The conditions to be annexed to the proposed transfer to the Local Government of the Revenue from *Excise, Stamps, and Law and Justice* are as follows. These items of Revenue have, for some time past, grown satisfactorily, year by year: the net Revenue in 1875-76 from these sources, throughout India, was more by Rs 52,20,000 than the corresponding net Revenue in 1870-71: the Government of India is not in a position to part with this normal growth of these Revenues. On the other hand, while it is, perhaps, too much to expect that these Revenues should continue, without more special attention than is now bestowed upon them, to increase at the rate of upwards of Rs 10,00,000 a year, excellent results may, doubtless, be anticipated from the added care of the Local Governments when they have a particular interest in the development of these Revenues. In the North-Western Provinces, however, these Revenues have grown less, and fluctuated more, than elsewhere; and the Government of India will, therefore, be satisfied if, for the next two years, the Government of the North-Western Provinces will give to the Imperial Treasury half of any net increase that may result from its management of these Revenues: the Government of India undertaking, on its part, to bear half of any deficit that may appear. At the end of two years this arrangement will be open to revision. While the Government of India is most desirous that the Local Government should share largely in any increase of Revenue to which improved administration may lead, it is evidently reasonable and necessary that the Imperial Revenues should share in this increase. It must also be understood, as already stated, that the Government of India does not propose to surrender any portion of that normal growth of these Revenues which might have been expected to continue if no change of system had been made. (*Government of India No. 852, dated 10th February, 1877, to Government, North-Western Provinces.*)

Secondly, as to Bengal:—

The revenue from *Excise, Stamps, and Law and Justice* will be thus surrendered for the next five years: thereafter, the whole arrangement will be subject to revision; and the Governor General in Council must then probably claim for the Imperial Revenues a share of any improvement which may ensue under the management of the Local Government in excess of the stipulated annual increments belonging to the Imperial Treasury. While the Government of India is most desirous that the Local Government should benefit largely by any increase of revenue to which improved administration may lead, it is evidently reasonable and necessary that the Imperial Revenues should eventually share in such increases. But, inasmuch as a considerable burden is being now imposed upon the Province of Bengal, in order to guarantee to the Imperial Revenues the interest on the capital spent in Bengal on the construction of canals and railways, the Government of India has consented, for the present, to abstain from claiming any part of the further increase which may be expected to these revenues in consequence of the greater attention that they will now doubtless receive from the Local Government. (*Government of India No. 1899, dated 29th March, 1877, to the Government of Bengal.*)

34. The quotations which I shall make in noticing the contracts of 1882 will show that the principle was re-affirmed and acted on in that year; the last occasion on which, previously to the present year, the contracts have come under revision.

35. The arrangements with Burma and Assam, it may be added here, were not completed till later in March 1879. They involved a further expansion of the system. The new feature in these two contracts was that the equilibrium between the Provincial revenue and expenditure was secured, not by the grant of a lump assignment to make good the difference between the expenditure and revenue made Provincial, but by the grant of a share in the reserved Imperial revenues—one-fifth of net Land Revenue in Assam and one-sixth of Land Revenue, Forest Revenue, Rice Duty, and Salt receipts in Burma. In other respects these contracts were similar to those of 1877-78 with other Governments.

*Proceedings of
1882.*

36. We come now to 1882. The arrangements then made were embodied in Resolutions dated 30th September 1881 and 17th January 1882. The principles on which the settlement of 1881-82 was effected may be best described in the words of the Resolution of September 30, 1881:—

"In the first place, it is now proposed to apply to the whole of India the principle upon which the most recent settlement, namely, that with Burma in 1879, was framed. That principle is that, instead of giving Local Governments a fixed sum of money to make good any excess of provincialised expenditure over provincialised receipts, a certain proportion of the Imperial revenue of each Province should be devoted to this object. Certain heads, as few in number as possible, are wholly, or with minute local exceptions only, reserved as Imperial; others are divided, in proportions for the most part equal, between Imperial and Provincial; the rest are wholly, or with minute local exceptions only, made Provincial. The balance of transfers, being against the Local Governments, is rectified for each Province by a fixed percentage on its Land Revenue (otherwise reserved as Imperial), except in Burma where the percentage is extended to the Imperial rice export duty and salt revenue also. The advantage of this system over that which now generally prevails is that the Provincial Governments will be given a direct interest, not only in the provincialised revenue, but also in the most important item of Imperial revenue raised within their own Province."

37. In the contracts of 1882 the reservation of the estimated increase of receipts to Imperial was not separately continued. The reservations of the estimated increase and of the excess over and above the increase estimated were run together by providing in certain proportions for a division of the actual receipts between Imperial and Provincial.

38. It will be remembered that in 1881-82 the finances were considered to be in such a flourishing condition that measures were adopted having for their end the remission of large amounts at that time yielded by taxation. The sum remitted when the Budget of 1882-83 was brought forward was nearly £3,000,000. In these circumstances it was to be anticipated that the Provinces would be enabled to share in the general prosperity. The revenues assigned to them were equivalent to the expenditure, as at that time existing, and additional grants were in some cases allowed. In the Provincial Statement of 1882-83, the general result of the new Contracts was summed up to the following effect. The Imperial Government might have resumed £470,000 a year as being in excess of what was needed to cover Provincial expenditure. Of this sum it gave back to the Provincial Government £77,900 for improving the position of the Subordinate Civil Services, for general purposes in the Central Provinces, &c.; £20,000 to the Madras Government for Provincial Public Works, and £326,000 to the North-Western Provinces and Oudh, of which £10,000 was for additional kanungos in Oudh, and the remainder (£316,000) was in the form of remission of taxation. It further remitted a lump sum of £360,000 equivalent to £72,000 a year for five years, on account of the first year of the new settlements by means of a transfer to the Provincial Accounts of Bengal (£285,000), Burma (£20,000), and the North-Western Provinces (£55,000) to be effected before the close of the current year 1881-82. The total grants and remissions amounted to £496,000 a year. The net result was a loss to the Imperial Government of £26,000 for five years.

39. While the Imperial Government considered itself justified, in the state of its finances as then existing, in remitting £326,000 provincial taxation in the North-Western Provinces and Oudh,—taxation which had for its object the provision of wages to village accountants, a new charge which from that time the Government voluntarily transferred to its own shoulders,—it was careful both in its declarations and in its practice to maintain its right at the end of the five years' term, then commencing, to reconsider in its own favour the assignments to Provincial Governments. In the following words it deliberately repeated the reserves which it had established in 1877: "It is to be distinctly

*Reserves embodied
in Resolution
dated 17th
January 1882.*

understood," the Government of India wrote in its Resolution dated 17th January 1882, "that the Imperial Government reserves to itself, on the expiration of the term, the power to revise the settlement, and to withdraw from any Local Government such portion of its grant as cannot then be continued, without injustice to other Provinces whose means are straitened, or limitation of Imperial undertakings which need early development. To the Local Governments such revision will afford no cause for complaint, because the inducements now offered for entering into an agreement are the freedom to administer their own resources and to apply at will (subject to the general standing orders) any increase reaped during the period of settlement alone. On the other hand, while the Local Governments will undertake, for the term of the settlement, all ordinary fluctuations in their revenues and expenditure, and to make such increases in the latter as may be necessary on the existing basis of administration, due allowance will be made, by modification of the fixed percentage of land revenue or otherwise, for any material alterations in the nature of their income, resulting from legislation or organic change of financial system effected for Imperial reasons."

40. This reserve was again laid down in addressing the Bengal Government :—

"The Regular Estimate being thus recognised as the basis, the question as to the terms upon which the new settlement is to be effected may next be considered. The principle that a Local Government is not entitled to receive, as of right or even in equity, a continuation during a new settlement of the whole increase in its Provincialised receipts which has occurred during the preceding one, is beyond serious dispute. By the nature of the case all such settlements are provisional, and must always be so. The financial administration of India is necessarily a whole. For the sake of diminution of friction and other well-known objects which need not be specified, the Imperial Government delegates a share in this administration to Local Governments. It makes a rough calculation that a certain portion of the general income, together with the increment thereon, will suffice to meet the expenditure which it retains under its own control, and it hands the rest over to Governments, with the obligation to meet out of it certain necessary expenditure and with leave to spend in addition, and as they please, any increment in the assigned income which they can manage to create. But it cannot bind itself to this proportion for ever, because the calculation must necessarily be a rough one, and is liable to be vitiated by unforeseen failure of resources, or growth of charges, whether in the share of financial administration which it retains or in that which it delegates. An examination of the apportionment at convenient periods, and a re-adjustment of it in any particular found necessary, are indispensable. A surrender of the right to this would be analogous in nature and effects to the Permanent Settlement of Bengal. To the Local Government, such a periodical revision involves no hardship, because it has enjoyed, during the whole expired term, the freedom to administer its own resources and to apply at will any increase reaped from them, which were the inducements under which it entered into the contract." (*Secretary to Government of India, Financial Department, to Secretary to Government of Bengal, No. 284, dated 14th January, 1882.*)

in letter to Bengal Government dated 14th January 1882 ;

41. In the Financial Statement for 1882-83 Sir Evelyn Baring expressed similar views :—

"I need hardly say that when the contracts, which are about to close, were made, the Government of India reserved to itself the right of revising them on expiry. It is, indeed, obvious, that in view of the manifold demands on the Imperial Treasury, and the necessity for affording relief to Provinces whose means are straitened, the Government of India cannot forego all its claims on the increments of Revenue which arise from the growing wealth and prosperity of the country. We have, however, wished to approach this question in a liberal spirit, and not to make any revision which will be favourable to the Imperial at the expense of the Provincial Revenues, except in cases where this course can be adopted without embarrassing Provincial Finance or checking the growth of the material prosperity of the Province."

and in Financial Statement, 1882-83.

42. Practical effect was given to these conditions by the ruling of the Government of India that the province of Bengal could, from the com-

Reductions of assignments in the case of Bengal and the North-West Provinces.

mencement of the year 1882-83, afford to relinquish to the Imperial Government its surplus of 30 lakhs of rupees per annum. An annual increment of 6 lakhs, and probably more, it was explained, would still remain to the Province; it would start, moreover, with the abnormally large balance (including the restored contribution) of 39½ lakhs of rupees. If this did not suffice for its expanding wants the resource of local taxation remained. It was subsequently arranged that the net reduction should be 20½ lakhs; the precise figure taken is, however, unimportant; what is important to the present purpose is to shew how, in 1881-82, both in the reserves which it laid down and in the effect which it at the time gave them, the Government of India re-affirmed and put into execution the principle that a Local Government is not entitled to receive as of right, or even in equity, a continuation during a "new Settlement of the whole increase in its Provincialised receipts which has occurred during the preceding one." The principle was also applied in the case of the North-Western Provinces and Oudh, from which province a sum of 13 lakhs was taken.

Resumé of preceding remarks.

43. The above *resumé* of the arrangements entered into between the Imperial and Provincial Governments during the last 17 years will, I hope, enable us to approach the examination of the arrangements recently effected with a clear understanding of the claims which, on the one hand, Provincial Governments may confidently put forward, and on the other of the reserves and limitations with which the Government of India, under the sense of its ultimate responsibility for the conduct of the Indian finances, has from the commencement thought it necessary to safeguard its concessions. It shews that at no time has the Government of India contemplated relaxing its control over the revenues when the period of resettlement came round. Although it has desired and still desires to give every possible encouragement and liberty of action to Provincial Governments during the currency of their contracts, it has never lost sight of the fact that the revenues assigned them are the revenues of India, though alienated for a term to Provincial uses with a view to their better and more economical administration. While allowing to the Provincial Governments considerable latitude and discretion in the disposal of the revenues assigned them, while ensuring them the revenues necessary to their expenditure, a guarantee against all serious difficulties, and a substantial share in the increase of the revenues allotted them during the period of the settlements, the Government of India has never admitted that on the expiry of such period the settlements must remain undisturbed, and that no regard should be paid in recasting them to the obligations, or to the financial prospects of one of the parties to the settlement. It may be urged that the necessity of exercising its powers of revision by the Government of India in a sense possibly favourable to itself lessens the interest of Provincial Governments in their finances, and diminishes the advantages of the present system. If this is so, it has been so since 1870; while in 1882, on the last occasion on which the contracts were renewed, the exercise of this power of revision, although less called for than at present, was made use of, and was specially cited as not lessening in any way the importance of the advantages which accrue to Local Governments from the system: "To the Local Governments such revision will afford no cause for complaint, because the inducements now offered for entering into an agreement are the freedom to administer their own resources, and to apply at will (subject to the general standing orders) any increase reaped during the period of settlement alone." In the present revision, the Government of India has proceeded upon lines fully indicated to Provincial Governments on the last occasion when the contracts were under consideration, and has exercised no powers other than those with which it is known and acknowledged to be provided. The circumstances of the time must decide the extent to which those powers

are, on any particular occasion, used; that is a secondary matter, on which the explanation about to be given as to the details of the recent revisions will throw light. But the truth is that concessions of the nature made in 1870 can only be made subject to the conditions by which the Government of India or Local Governments are bound, from the nature of the circumstances in which they severally exist. Any arrangement inconsistent with those conditions must break down; and no arrangement is more inconsistent, because more prejudicial to that elasticity of the Indian finances which is the sheet anchor of the whole, than one which should proscribe the Government of India from modifying from time to time the proportions of the general revenues allotted to Local Governments, or reserved to its own uses.

44. As the recent revision of the Provincial Contracts has been carried out, on the one hand, in accordance with the reserves and conditions in force, it follows, on the other, that nothing has been done which should lessen the advantages secured by the arrangements of 1870 and following years to Provincial Governments. The freedom of Provincial action within the limits of the revenues assigned; the exclusive claim of Local Governments to the enjoyment of a prescribed share in the increase of those revenues during a given term; and the absence of interference on the part of the Government of India, during the term of the contract, in the financial affairs of Local Governments; all the conditions, in other words, which have brought about the success of the system have been maintained. The question resolves itself to a mere consideration of the adequacy of the sums assigned on the present occasion for the conduct of Provincial Administration, and on this point there could be no better guide than the conclusions arrived at, after exhaustive enquiry, by the Finance Committee, weighed as they carefully have been by the Government of India, after receiving the criticisms of the Local Governments, and adopted only after all necessary allowances have been made with respect to the points where local Governments have shewn that the views of the Finance Committee were open to correction.

Advantages secured to Provincial Governments have been carefully maintained.

45. There remain two subjects to be noticed before passing to a consideration of the effect of the revision of contracts which have recently been brought to a conclusion. In the Financial Statement of 1884-85 it was mentioned that Her Majesty's Secretary of State had approved the proposals of the Government of India, that in order to guard against results of possible neglect, or of too sanguine expectations, a minimum reserve balance should be fixed for each Provincial Government or Administration. In other words, each Province or Administration was to keep to its credit a minimum sum to be drawn against in the event of pressure, such, for example, as the opening up of works in time of scarcity for the employment of public labour. The subject is thus explained in paragraph 8 of the Resolution of 17th January 1882:—

Provincial minimum reserve balances.

"The new terms on the subject of famine relief, contained in the Resolution, supersede any obligations which may have been imposed upon the Governments of the North-Western Provinces and Oudh, the Punjab, and the Central Provinces, of setting aside such amount as the Governor General in Council may direct, for the purpose of increasing the revenues available for defraying expenditure incurred, or to be incurred, for the relief and prevention of famine in their respective territories. Any amounts hitherto so set aside will hereafter be at the disposal of the Local Governments for ordinary Provincial expenditure. Moreover, as a consequence of the new principles laid down in the Resolution of 30th September last, and of the separate provision in the Imperial Budget of a permanent annual allotment of one crore and a half of rupees for "Famine Relief and Insurance" the Local Governments, while always needing a moderate reserve, over and above the mere "working balance," of sufficient amount to meet scarcity and distress not indisputably amounting to severe famine or other temporary exigencies, will no longer find it necessary to accumulate a great Provincial reserve fund, out of which the demands of severe famine could

Remarks thereon in Resolution, 17th January 1882.

in future be largely met. His Excellency in Council is of opinion that, subject to the moderate reserve just referred to, the Provincial resources can be best utilised by being invested to the full, from year to year, in works of a productive or protective character."

Amount to be maintained.

46. The total of the minimum balance for the eight Governments concerned amounted to £1,090,000; and that amount was accordingly a deduction from the effective balance left at their disposal for the ordinary purposes of administration when the contracts were made in 1882. It was admitted, when in 1883 the actual amount of the balance for each Government was fixed, that it would not be possible, in each case, that the Province should at once be able to attain the minimum figure then fixed; but where without undue sacrifice it would not at once be attained, every effort was to be made to reach it in the briefest time possible. With the exception of Burma and Bengal, the prescribed balances have been maintained, and in some cases there have formed considerable accumulation of balances, which, as will be presently shown, still exist in part to the credit of the several Governments possessed of them, and which were utilised in part by the Government of India at the opening of the present financial year, when the necessity of making continued provision for military operations in Burma and a further fall in exchange compelled it to have recourse to the powers which, in the event of necessity, had been reserved in regard to Provincial Revenues in 1881. This reserve is the first of the two points which I have above noted, as requiring to be dealt with before passing to the consideration of the new contracts.

47. In paragraph 5 of the Resolution of the Government of India of 30th September 1881, the previous and proposed arrangements are thus described—

Resolution, September 30, 1881, in respect to the claims of the Government of India on the reserve balances.

"Another important change which is contemplated requires somewhat fuller explanation. In the Resolution No. 3334, dated 14th December 1870, the Imperial Government, speaking broadly, announced a policy of divesting itself of both responsibility and control within certain limits, but a reservation was made (paragraph 17) of power to modify the resources granted, in the event of 'some fiscal misfortune, such as heavy loss in the opium revenue, or national disaster, such as war or severe famine.' On two occasions already within a decade this reservation has been acted on. On the occasion of the great famine of 1876-77 in Western and Southern India, the Supreme Government necessarily came to the rescue of the Local Governments in meeting the enormous outlay involved; but it directed that all Provincial and Local resources must be exhausted before Imperial aid could be supplied. This decision was unexceptionable in the sense in which it was meant; but it may have led to developments which were not altogether intended. The second occasion on which the reservation has been acted on is that of the Afghan war. The Local Governments were called upon, during the years 1879-80 and 1880-81, to contribute £670,000 from the resources made their own by the decentralisation policy, and in the Financial Statement of 1880-81 (paragraph 170) the hope was expressed that they had been able "to afford this timely help to the general finances with little apparent difficulty." The circumstances of the time were, without doubt, peculiar, and the strain upon the finances was undoubtedly severe. But the sudden suspension of improvements in progress, the starvation of public works, and the discouragement of care and economy by requiring a surrender of their results could not, in themselves, be otherwise than prejudicial.

"In modification, therefore, of the reservation hitherto in force, it is proposed to declare, on the one hand, that the Local Governments must look for no special aid from the Imperial Government except in the case of severe famine (and then only within limits to which allusion will presently be made); and on the other, that the Imperial Government will make no demand on them except in the case of disaster so abnormal as to exhaust the Imperial reserves and resources, and to necessitate a suspension of the entire machinery of public improvement throughout the empire."

48. This condition, formulated in 1882, was accepted provisionally only by Her Majesty's Secretary of State. He wrote as follows:—

Criticisms of the Secretary of State, 1882.

"The first point to which your letter refers is the suggestion which I made regarding the assistance to be rendered by the Local Administrations to the Central Government in

the case of an abnormal strain on its resources. Your proposal was to declare that such assistance would not be required unless the Imperial reserves should be exhausted, and a suspension of the entire machinery of public improvement throughout the Empire were rendered necessary. As I thought it not desirable that your Government should have to prove the existence of such a state of affairs before requiring the assistance of the Local Administrations, I suggested that it would be sufficient to undertake not to call on them to surrender a portion of their revenues, unless you saw no other alternative than the imposition of taxes which were not considered expedient. To this Your Excellency replies that my despatch reached you too late to admit of your proposing such a condition pending the preliminary negotiations; and you enquire whether I still desire it to be promulgated, observing that you consider it highly inexpedient, save where absolutely unavoidable, to change any of the conditions on which the contracts with the Local Governments were concluded.

"You express an opinion that, though theoretically open to the objection taken to it, the original condition is not, in practice, likely to cause inconvenience; and I am willing, accordingly, to waive the question for the present, though I should desire to have it borne in mind when the time arrives for the next revision of the contracts, and that an explanation of this view should be given to the Provincial Governments."

49. At a later date, writing on July 29th, 1886, the Secretary of State again drew attention to the subject, and expressed a hope that, in the new arrangements which were to be made in 1887 with the Local Governments, some means would be devised by which, in the case of emergency, they might be called upon to contribute a proportionate share towards meeting the necessities of the Empire, according to some well-established principle.

Desire of Secretary of State in 1886 for modification of existing stipulations on the point.

50. It has been seen that the Government of India found it necessary to exercise the powers which it had reserved on previous occasions, and to avoid estimating for a deficit which threatened the Estimates of 1886-87 by utilising in part the accumulated balances of the Provinces when framing the Budget for that year. That deficit was due to the combined results of a further fall in exchange, and to military operations in Upper Burma. It did not amount to the abnormal disaster contemplated in 1882; but if, on the other hand, a call on Provincial balances was not necessary to avoid the necessity of taxation, that was not because taxation was not needed to produce equilibrium, but because, for reasons with which I am not now concerned, it would not have been expedient to impose the amount of taxation necessary to provide against deficit. The Government of India therefore, in the presence of the reserves with which the Secretary of State had agreed to the formula of 1882, considered itself justified in calling on Provincial Governments for some assistance in presence of the difficulties which threatened it in 1886. The action then taken by this Government was approved by the Secretary of State; but in expressing his concurrence he, for the second time, drew attention in the following words to the necessity of making some more satisfactory provision in the matter:—

Course pursued in 1886, in accordance with views of Secretary of State.

"I must, however, express a hope that, in the new arrangements which will be made next year with the Local Governments, some means will be devised by which, in the case of emergency, they may be called upon to contribute a proportionate share towards meeting the necessities of the Empire, according to some established principle."

It became necessary, therefore, for the Government of India to consider, in connection with the revision of the contracts on the present occasion, how the instructions of the Secretary of State were to be met.

51. Experience has shewn that when the Government of India has turned to the Provincial Governments for assistance, the only means by which it has been enabled to adjust its demand has been the power of each Provincial Government to pay. One Government may have spent large balances in productive works, or in civil buildings, or in increase of establishment; another, with smaller balances at its disposal, may have allowed them to accumulate; a third may find its revenues barely equal to its current expenditure. When the pressure comes, it is

Decision arrived at by the Government in this respect, and the grounds thereof.

from those who have balances to hand that assistance must be taken; and no arrangement can be devised which, in the contract term of five years, could equitably give relief to those who contribute, by a transfer of a share of the liability discharged by them to those who, from whatever cause, have been exempted. But the alternative to which at present recourse must be had is obviously inequitable. Whatever arrangement might be established, nothing is more to be regretted than the necessity of applying to Local Governments, during the term of the current contract, for aid from their accumulated revenues. The step is inconsistent with that sense of security during the term of the contracts which is no less essential to the success of the system than the growth of what may be termed *mesne revenue*. It has seemed therefore a lesser evil that large balances should not accrue than that the accumulation of large balances should expose provincial finances to claims for contributions. The Government has not modified the conditions in which it reserves to itself the right to claim assistance from Local Governments; but it has endeavoured, with the aid of the Finance Committee, to adjust more closely than has been hitherto possible the revenues assigned to the requirements of each Province; and further so to re-arrange the apportionment of the increase of revenue during the term of settlement between itself and Provincial Governments as to leave them a fair share in the increase of the revenues, but to lessen the probabilities of their being called upon for exceptional assistance.

Share reserved to Provincial Governments in Stamp, Excise, and Land Revenue, in the new Contracts.

52. In the new Provincial contracts, each Local Government will receive three-fourths of the increase in Stamp Revenue, and one-fourth of that in the Excise Revenue, the Government of India receiving one-fourth of the Stamp and three-fourths of the Excise Revenue, and the expenditure under the heads of Excise and Stamps will be divided between the Local Government and the Imperial Government in the same proportion in which the revenue is divided. In the case of the Land Revenue, in the four larger Governments, one-fourth of the future increase will be received by the Local Government and three-fourths by the Government of India. The shares assigned to Provincial Governments at the last contract varied somewhat; but broadly it may be said that Stamps and Excise were divided in equal proportions between the Imperial and the Local Governments, and that the Land Revenue was divided in proportions which were different in the different Provinces, and which were not fixed with reference to the necessity of securing each Province a particular share of the increase. It will be seen presently that, in the case of most of the Provincial Governments, substantial balances still exist at their credit; these balances have not been interfered with on the occasion of the present revision.

Question as to the powers of Local Governments to dispose during the currency of a year of balances, expenditure from which has not been entered in their Estimates.

53. Reference has been already made to the Resolution of 28th January 1887, here quoted, and before leaving the subject attention may be called to paragraph 15 of that Resolution, dealing, as it does, with the second of the two points spoken of in paragraph 45 as remaining to be disposed of. Exception has been taken in 1886, as, in 1881, exception had previously been taken, to the fact that sums not provided in the Provincial Estimates of a given year cannot, without the sanction of the Government of India, be expended during that year. The balances are the balances of the Local Governments, it is said; why should they not spend them when they desire to spend them? The balances, it is true, are the balances of the Local Governments. But they are balances standing at their credit upon an account in which the payments have to be carefully and with great labour adjusted to the incomings. The Government of India relieves the Local Governments entirely of all responsibility for resource operations: of all concern in finding, at the time and place where they are wanted, the actual funds for carrying on their expenditure; and it is necessary to impose upon them the condition that notice shall be

given before it is demanded that these balances be produced in hard cash at any given place. At the commencement of each financial year the Government of India ascertains the requirements of each Province as entered in its Estimates; it reckons up its own requirements for the coming year, and it makes provision for ways and means accordingly. But if a Local Government has neglected to enter in its Estimates considerable sums which, during the currency of the year, it finds that it desires to expend, it is obvious that the calculations of the Government of India, which were made on the data furnished to it in the Estimates, may be very seriously vitiated, and its ways and means may be subjected to no little derangement. All that is asked of Provincial Governments is, that they should forecast and enter their requirements in their Estimates, and this is merely requiring them to observe a well-known rule of public finance, a rule the importance of which local authorities may be led to overlook in consequence of their freedom from the responsibilities involved in providing for ways and means. All that is reserved by the Government of India is, that in the event of Provincial Governments failing to give the intimation required it will not undertake, as a matter of course, to find supplementary ways and means wherewith to meet, during the currency of a given year, the requirements of which it was not warned at the prescribed time.

54. I pass to an examination of the results of the recent revision. It should be premised that this revision has been preceded by enquiries on the part of the Finance Committee of a far more searching nature than those which accompanied previous settlements. The Committee had time and opportunities for enquiry which were beyond the reach of the Government of India on previous occasions, and the ability and local knowledge of the members of the Finance Committee enabled them to make the fullest use of the opportunities furnished them, and to throw light upon the details of Provincial administration which in the interests of efficient and economical government will be of the greatest use in future. If any of the new contracts prove difficult to work, there should be no difficulty in ascertaining where the weak point lies, and in disposing of it more summarily and effectively than was possible under former contracts.

Results of the recent revision of the Provincial Contracts.

55. The principal heads of revenue, under which increases have accrued to the Local Governments, are Land Revenue, Stamps and Excise. The following figures compare the standard at which the Land Revenue was calculated in 1882 and the standard which it is now estimated to have reached :—

	Amount in 1882.	Amount in 1887.	Increase.	Provincial Proportion of assigned revenue.	Provincial Increase.
	£	£	£		£
Central Provinces	607,300	611,800	4,500	'49	2,200
Burma	1,140,000	1,154,200	14,200	'33	4,700
Assam	387,600	423,000	35,400	'63	22,300
Bengal	3,765,000	3,825,000	60,000	'32	19,200
North-Western Provinces	5,765,000	5,797,000	32,000	'25	8,000
Punjab	2,100,000	2,180,000	80,000	'41	32,800
Madras	4,510,000	4,536,700	26,700(a)	'29	7,750
Bombay	3,115,000	3,280,000	165,000	'60	99,000
TOTAL	21,389,900	21,807,700	417,800	...	195,950

Comparative Statement of Land Revenue in 1882 and 1887.

(a) This cannot be taken as an accurate statement of the increase of Land Revenue in Madras, as the estimate £4,510,00 for 1882 includes at least £50,000 a year of arrears of which the collection has now come to an end.

56. Under Stamps and Excise, the following figures compare the totals of the revenue of 1881-82 and of 1886-87 :—

Comparative Statement of Stamps and Excise, 1882 and 1887.

	1881-82.			1886-87.			IMPROVEMENT.	
	Stamps.	Excise.	Total.	Stamps.	Excise.	Total.	Total.	Provincial Share.
	£	£	£	£	£	£	£	£
Central Provinces	113,505	185,748	299,253	140,000	250,000	390,000	91,000	45,500

TOTAL	3,223,997	3,112,747	6,336,744	3,666,800	4,153,700	7,820,500	1,483,800	741,900

57. Under other heads there are similar though smaller increases of revenue, of which it is not necessary to give any detail; but of the whole increased resources of the Local Governments, a considerable amount has been appropriated during the currency of the expiring contracts to growing Provincial demands, and there remained to be dealt with only the balance which, on investigation, was deemed to be not required for local needs. Leaving out of consideration the special contributions in 1886-87 from the Governments of the Central Provinces, Assam, Madras, and Bombay, the amount resumed is in all the annual sum of £640,100, and the following statement compares the resumption with the increase coming in under the main heads of Revenue :—

Comparative Statement of Annual Revenue, 1882-87, and effect of the recent revision on Provincial resources.

	INCREASE OF ANNUAL RESOURCES UNDER THE PRINCIPAL REVENUE HEADS AS ESTIMATED ON COMPARISON OF 1882 AND 1887.			Amount by which annual Provincial resources are reduced by revision.
	Land Revenue.	Stamps and Excise.	TOTAL.	
	£	£	£	£
Central Provinces	2,200	45,500	47,700	15,600
Burma	4,700	9,200	13,900
Assam	22,300	21,300	43,600	24,600
Bengal	19,200	171,530	190,750	103,600
North-Western Provinces	8,000	130,150	138,150	100,000
Punjab	32,800	23,100	55,900
Madras	7,750	142,550	150,300	174,400
Bombay	90,000	198,550	297,550	221,900
TOTAL	195,950	741,900	937,850	640,100

Assignment of increase of annual resources between 1882 and 1887 between Imperial and Provincial Governments.

58. The figure of £174,400 resumed in the case of Madras should be reduced, for purposes of comparison, by £50,000, which represents the resumption in the present arrangements, according to agreement between the Government of India and the Madras Government of a special grant made to the latter for special purposes and for a limited time, some time after the first contract was concluded. Besides this, as explained in the note under the first of the two statements on the preceding page, the annual increase of the Provincial share of Land Reve-

nue in Madras is itself much understated in the above figures. Of the total increase, therefore, it may be said that less than two-thirds have gone to the Imperial and the rest to Provincial Governments.

59. It will be observed that no resumption has been made in the case of Lower Burma or of the Punjab. In the last case the revenues, for reasons which need not be dwelt upon here, but which have been pressed on the attention of the local Government, have not made the same advance as in other Provinces, and the Government of India has conceded during the term of the late contract an increase of about £30,000 to the original assignment. In Burma the contract of 1882 has not worked successfully; the expenditure soon began to overpass the limits of the revenue; and during the last three or four years the Government of India has had to supplement the provincial resources by grants of four or five lakhs a year. No new contract is made with Burma in the same sense as with other provinces, its present somewhat abnormal condition rendering it inadvisable to conclude at this time financial arrangements which will necessarily affect the administration for the next five years. The Government of India has added to the existing provincial resources of Burma a grant of four lakhs, which may be considered to represent its present condition of deficit, and another lakh out of the surplus it has obtained from the revision of the contracts of other provinces. During the ensuing year, it is hoped that the terms of a new contract, to commence from 1888-89, may be concluded.

No resumption of Revenue in the case of Lower Burma and the Punjab.

60. By the revision of the Provincial Contracts therefore the financial position of the Government of India has been improved by £640,100, subject to the deduction of £10,000 conceded to Burma, and also to some other reservations, which will not, however, greatly diminish the ultimate measure of the gain. Local Governments, on the other hand, will have the benefit of their allotted share in the increase of revenue during the term of the contract above the amounts estimated above, and, with some reserves, of the retrenchments of expenditure which have been suggested to them by the Finance Committee.

Amount of increase to Imperial Revenues through revision of Provincial Contracts.

61. The reservations to which, as just observed, the amount of £630,000 is subject are as follows. First of all, the break-down of an important aqueduct in the canals of the North-Western Provinces at present diminishes the irrigation revenue of that province of about £60,000 a year, and two years more will pass before by restoration of the aqueduct, the revenue of the provinces reaches its proper standard. For the first year of the contract therefore the Government of India has to forego £60,000, for the second £50,000, and for the third £10,000 of the full demand of £630,000. To Bengal also special grants have to be made of £30,000 for the completion of the Orissa Coast Canal, and a further amount for the purchase of a new Pilot Brig. On these and other accounts therefore the gross amount of £630,000 may be said to be liable to deduction of an amount which spread over the five years of the contract may average £60,000 or £70,000 a year.

Deductions from the above increase.

62. The comparative statement of the results under the principal heads of Provincial expenditure which I now give will shew what is the amount at which under those heads expenditure has been calculated for the purposes of the new Provincial Contracts, and what was the scale in previous years. The comparison proves that, except as regards Public Works, there has been no reduction. It is obvious that if, as cannot be questioned, a revised scale of expenditure is necessary under the new contracts, it is in Original Public Works that it may, in the first place, be sought with the least inconvenience to administration.

Comparative expenditure under certain heads, 1882-83 and 1887-88.

In Land Revenue (District administrative charges)—

1882-83.	1883-84.	1884-85.	1885-86.	1886-87, (Revised).	New Contract.
£ 2,464,946	£ 2,670,234	£ 2,688,012	£ 2,691,676	£ 2,712,400	£ 2,789,100

This last figure includes Survey charges, aggregating £110,000, which have been transferred to Provincial Governments, and deducting these the scale of expenditure under the new contracts, stated for comparison with the former scale, would be £2,679,100.

Under the general administrative heads, *vis.*, Administration, Law, Justice, Police, and Marine, the figures are as follows:—

1882-83.	1883-84.	1884-85.	1885-86.	1886-87, (Revised).	New Contract.
£	£	£	£	£	£
6,232,766	6,351,171	6,473,199	6,496,452	6,578,300	6,534,600
In Medical, Scientific and Minor Departments, we have—					
£	£	£	£	£	£
694,111	710,485	718,503	724,810	702,000	729,400
In Education—					
£	£	£	£	£	£
733,579	757,997	801,202	795,089	840,800	803,600

But in addition to this last grant of £803,600, a further assignment has been made, in the case of Bombay, which enables it to increase its educational grants to Local Funds from £22,000 to £30,700; so that the grants under the new Contract should, for purposes of comparison with former figures, be stated at £812,300 rather than at £803,600.

The expenditure under Public Works shews considerable contemplated reduction. But, in judging of these reductions, it must be borne in mind that the first years of the late contract were those in which the refunds to Provincial Governments of the contributions made to the Government of India during the Afghan war, and the balances which had accumulated during the period of enforced economy necessitated by the continuance of that war, permitted a scale of expenditure very largely beyond what the normal annual Provincial resources could have provided. On the other hand, 1885-86 was a year of restricted expenditure, and was the commencement of the time of retrenchment in which we are likely for some time to find ourselves. For comparison, therefore, with the circumstances of the present time it gives a more appropriate standard than earlier years. The expenditure of the past five years and the assignment on which the new contract has been based are shewn below; but the latter amount takes no account of the further resources available from balances which, as I shall explain, stand to the credit of the majority of the Local Governments:—

£	£	£	£	£	£
2,304,798	2,131,812	2,001,168	1,708,305	1,963,900	1,604,100

Balances remain-
ing to credit
of Local
Governments.

63. The following statement shews the balances of unspent revenue of past years which the various Provincial Governments will have at their credit on April 1st, 1887, and which are available for expenditure subject to the orders quoted in the Financial Statement for 1884-85, paragraph 109 requiring them not to reduce their available balances below a certain prescribed minimum:—

	Estimated Ba- lance on April 1887.	Prescribed Minimum.	Available Excess.
	£	£	£
Central Provinces	162,600	80,000	82,600
Burma	...	60,000	...
Assam	60,400	50,000	10,400
Bengal	126,300	200,000	...
North-Western Provinces	330,400	200,000	130,400
Punjab	134,700	100,000	34,700
Madras	387,800	200,000	187,800
Bombay	496,800	200,000	296,800

64. We have also, in connexion with these proceedings, made a supplementary contract with the Central Provinces for the conduct of its settlement operations, a new and productive kind of expenditure which we should have had to provide for in any case. The grant is £40,000 the first year and £25,000 the last year, and averages £30,000. *Special grant to Central Provinces for settlement operations.*

65. The amount resumed during the first year of the contract may therefore be taken as follows :— *Amount resumed during first year of Contract.*

	Total amount	£ 630,000
Deduct grants as follows :—		
To Bengal for Orissa Coast Canal	£ 30,000	
For new Pilot Brig	10,000	
To North-Western Provinces; for deficiency of Irrigation Revenue	60,000	
To Central Provinces for Settlement	40,000	
		140,000
Net amount		490,000

66. The following statement showing an Imperial gain under Revenue heads of £215,000, and under Expenditure heads of £395,000 (Total £610,000) may be set forth as the general effect of the Revision upon the Imperial column in the Budget account of 1887-88: the omission of some smaller items accounts for the difference between this total and the whole amount of £630,000.

REVENUE.	IMPERIAL SHARE.	
	Increased.	Decreased.

67. It has, I trust, been made clear, in the course of these pages, that in the .

Detail of Imperial gain under Revenue and Expenditure.

recent settlement of the contracts the Government of India has scrupulously maintained itself within the lines laid down in 1870, 1877, and in 1882. It has exercised no powers which were not then indicated; it has claimed no concession which it then abandoned. At a time of financial difficulty, it has been compelled to use its powers with more discretion than was necessary on the last occasion; but it has not had recourse to any which at that time were not exercised. If it has apportioned the assignments of revenue to the several Provinces on the basis of past experience and on an estimate of their immediate requirements rather than on a review of what are believed by local authorities to be the special claims or conditions or future needs of each Province, it has done so upon grounds laid down on previous occasions as being those only which the limits of its finances permit. The words of Lord Mayo and Sir John Strachey, in their speeches of April 6th, 1871, and July 27th, 1872, are as applicable now as they were at the time they were spoken. "Had we entered on a minute inquiry," Lord Mayo said, "as to the precise amount which should be given to each Government in proportion to their revenue and population, or in respect to the area or requirements of each Province, such an enquiry must last for a considerable time; and we were not at all convinced that, even if such an enquiry had been entered upon, the result would be more satisfactory than the basis which we adopted, *vis.*, that of grants for the past year. These grants have ever been made on the consideration only of our power to give, and of the wants of each Province; and I believe that any more minute enquiry than that would have only led to failure." "The Empire," Sir John Strachey added, "must be treated as a whole; not as a collection of separate and semi independent States." It was necessary that, on the present occasion, the past history of the whole question should be traced and made clear, because it may be held, in view of the measures of economy associated with the late settlements, that in some indefinite way the Government of India has, on the present occasion, entered on a retrograde policy. So far is this from being the case, that the Government has sought, and is still engaged in the effort, further to increase the number of the branches of the administration the revenues and expenditure of which are assigned to Provincial Governments. The Government of India has dealt with the present occasion under the influence wholly of the considerations explained in the foregoing pages. One direction in which it seems possible that the system might with advantage be modified, should experience show that the new contracts work well, is in extending the term of five years, which at present prevails. It would be premature to express as yet any very positive opinion upon this point. It is one on which the experience gained during the contracts should enable definite conclusions to be formed, to which effect can be given at any time during the next five years.

Famine Insurance Grant

68. The second measure, to which we have had recourse in order to maintain the equilibrium of our finances, has been the debiting to loan, either wholly or in part, of that portion of the expenditure incurred in the direct construction of railways, which in late years has ordinarily been charged to our revenues; and the withholding of the grant, which has been similarly assigned from revenues in reduction of the sum which it is necessary for us annually to borrow for the construction of railways. The entry under the head of Famine Insurance Grant has been greatly reduced, both in the Revised Estimates of 1886-87, and in the Budget Estimates of 1887-88, in the former it has not been necessary to devote to other expenditure the entire sum available under the head of Railways, but in the latter year (excepting the portion allotted to Irrigation), the grant has been entirely absorbed.

69. It is necessary in the first place to shew what has been effected by the

operation of the funds assigned from revenues to the construction of railways and the extinction of loan. The following paragraphs are repeated from the Financial Statement for 1886-87, the figures being altered so as to be brought up to date :—

"The portion of the revenue set aside to meet the cost, direct and indirect, of famine was first devoted to specific purposes, and shewn separately in the accounts, in the year 1881-82. From 1881-82 to the close of the current financial year 1886-87 the aggregate of the sums spent under Famine Relief and Insurance, comes to £7,946,928, which has been devoted to the following objects :—

	£
Famine Relief	114,836
Protective Railways	2,933,979
" Irrigation	1,233,268
Reduction of Debt	3,664,845
TOTAL	7,946,928

"A more important question, however, than the specific allotment of the grant in recent years is the extent to which the Government has in practice succeeded in reducing the charge for debt since the policy of increasing the revenues for the purpose of meeting the cost of famine was first originated. The increase of the revenues necessarily improves the position of the finances *pro tanto*, but in judging of the general effect of the policy of Government many other considerations require to be taken into account. A deficit sooner or later increases the charge for debt, a surplus reduces it.

"The fall in exchange has tended steadily to increase the burden of the gold debt on the revenues of India, the construction of Productive Railways and Irrigation Works from Revenue practically reduces the burden of the ordinary debt. The vital question is whether the burden of the debt to balance which great Public Works of a permanent nature cannot be shewn, has increased or diminished. The publication of the accounts of past years in the new form enables us to answer this question with comparative ease.

"In 1877-78 the total interest charge on debt of all kinds stood as follows, including exchange :—

	£
Interest on ordinary debt uncovered by Public Works	4,799,448
" on debt balanced by capital expenditure of a corresponding amount on Railways	703,753
" on debt balanced by capital expenditure of a corresponding amount on great Irrigation Works	621,822
TOTAL	6,125,023

For 1886-87 the account is as follows :—

Interest on ordinary debt uncovered by Public Works	3,943,600
" on debt balanced by capital expenditure of a corresponding amount on Railways	3,189,200
" on debt balanced by capital expenditure of a corresponding amount on great Irrigation Works	994,300
TOTAL	8,127,100

"These figures shew that, notwithstanding the fact that the fall in exchange has added largely to the burden of the interest charge on the gold debt of India, the charge for debt, which is uncovered by great Public Works, has been reduced since 1877-78 by £855,848 "

70. It will in the next place be seen from the figures in the margin that since

ernments, or have been constructed by the aid of Provincial balances. Besides this length actually completed, 1,254½ are in course of active construction on behalf of the State by Companies, including 361 which will be opened within a few months. The total mileage, therefore, for construction of which, in one form or another, obligations have been incurred in pursuance of the policy of protection of the country against the risk or effects of famine since 1877, is 5,554. The years in which the Famine Insurance Grant has been employed in furthering the construction of Famine Railways, whether directly or indirectly, have contributed from that source the amount shewn in paragraph 69, *viz.*, £6,598,824 to the results above exhibited.

71. We are now in a position to approach the immediate question before us with adequate information as to the results achieved since 1877 with the aid of the Famine Insurance grant. The decision to which we have come has, from a purely Resource point of view, no importance whatever. Apart from peculiar considerations to which I will refer, it is admittedly a mere question of account. This is obvious on a moment's consideration. If for example, in 1886-87 we maintain the contribution from our revenues towards the construction of railways, our expenditure on account of administrative requirements exceeds our receipts by £1,049,400, and that is the deficit which we must provide from borrowed money. If, on the other hand we omit from the charges against Revenue this sum of £1,049,400 on ac-

the commencement of the year 1877, when the Famine Insurance Scheme was introduced, there have been completed (apart from frontier lines, and from railways in Burma) either by the Imperial or Local Governments directly, or through the agency of construction and working Companies, 4,199½ miles of State Railway, for the most part running through provinces exposed to famine. Of this mileage, 2,924½ are under the control of the Central Government; 1,275½ miles have been constructed in whole or in part from Imperial Funds and made over to the control of Provincial Gov-

count of railways, we have an equivalent sum available to meet administrative charges, and we have no deficit; but, in such case, we must debit an equivalent charge for construction of railways to loan. In either case it will be seen that the amount which we have to borrow is precisely the same; whether on the one hand we borrow on account of our railways, or, on the other hand, to make good the sum of a deficit. We have had to ask ourselves therefore—Is it more expedient to enter in our accounts under the head of Famine Insurance Grant the expenditure of late years customarily so shewn, and thereby to encounter the risk of exhibiting a deficit; or is it better to avoid or to lessen the amount of deficit, by debiting to loan the amounts hitherto debited to revenue under the head of Famine Insurance Grant? I do not think that, in ordinary circumstances, there could have been any hesitation in excluding grants for railway construction from charges against our revenues, when we have no surplus of revenue wherewith to meet them. But there are considerations connected in the present instance with this particular question, to which I have referred above, and which may lead some to think that, in following on the present occasion the more obvious course, we are evading obligations which were formerly undertaken, and are breaking faith with the public in a matter which preceding Governments have surrounded with certain pledges and guarantees. It is necessary that I should explain why the Government has come to the decision which I have stated, and the reasons for which it believes that any other would have been inconsistent with the public interests.

Nature of the question.

72. No useful end would be gained for our present purpose by entering into a discussion of the views and objects with which the Famine Insurance Scheme was originally launched in 1877. During the nine years which have elapsed, experience has thrown its light on the merits of the scheme, which has passed through various phases. A variety of explanations have been given as to the modes in which it might be considered to be effective, but our immediate business is with that form alone in which we now find it, and in which, for the last five years, it has existed. The scheme aims at present (apart from the question of funds devoted to Irrigation, with which we do not propose to interfere) at providing from surplus revenues £500,000 annually for the construction of what are known as famine railways, and a further annual sum of £750,000 in reduction of the total sum which, under existing arrangements, we annually borrow for the completion of our famine railways. The scheme is therefore based on the assumption that we have a surplus. But a surplus cannot be used unless it exists; and if our current expenditure exceeds our revenue, the surplus is wanting. We have then before us the choice of three courses. We may impose fresh taxation or enforce retrenchments, in order to reproduce the required surplus; or we may put a stop altogether to the expenditure to which we have been devoting the surplus; or we may debit to Loan the expenditure which has been met from our surplus. So far as the first of these courses is concerned, it is well known that we have used and are likely for some considerable time to be engaged in every effort of which we are capable. What we have done in regard to Provincial finance has been explained in this Statement. A great body of enquiry and suggestion emanating from the Finance Committee and connected with expenditure in the Departments of the Government of India is before us, and will continue throughout at least the ensuing financial year to occupy our best attention. But whatever effort we may have made or may make in this direction will not produce the requisite surplus, either in 1896-87 or in 1887-88, and if it is considered necessary to provide the revenues required for the Famine Insurance Grant there is no way of providing them other than by increase of taxation. It is very desirable that we should have a surplus which we may employ in railway construction; but to raise fresh taxes at present in order to create a

Present form of the Famine Insurance Grant alone to be dealt with.

Surplus necessary to the assignment of the grant

surplus with the especial object of granting it to railway construction is a course to which there is obviously great objection. On whatever other points difference of opinion may exist, on the expediency of increasing taxation there is probably little or no disagreement. Whatever strength, moreover, there might be in the arguments for increase of taxation may be said to disappear before the consideration that loss of the requisite surplus does not arise from circumstances inherent in or inseparable from the condition of our finances themselves. We may, on the contrary, (with all necessary reserves as to the course of exchange,) hope that when the necessity ceases for making extraordinary provision for the operations in Upper Burma now on our hands, the surplus from which we desire to continue, directly or indirectly, to furnish funds in aid of railway construction will re-appear. In the circumstances inseparable from British rule in India, it will be probably admitted by all to be inexpedient to impose fresh taxation solely with the object of providing the surplus contemplated by the Famine Insurance scheme, during a period of deficit which may in great measure be traced to temporary war expenditure.

Provision of surplus by taxation inexpedient, and impracticable from retrenchment

73 Assuming, therefore, that neither by retrenchment nor taxation is it practically possible to us to provide the desired surplus, there is the alternative of putting a stop altogether to expenditure to which that surplus has been applied. The expenditure, it is well known, is incurred in the construction of railways, having for their primary and special object the prevention of famine, or the mitigation of the disastrous consequences both to human life and to the public revenues arising from famine. To have checked the works in progress in 1886-87 and in 1887-88 because we could not furnish the necessary sums from revenue, and must in a corresponding measure have recourse to loan, would have been to subordinate our end to our means, and in the event of our being overtaken by a fresh famine such a decision would contribute to bring about, in greater measure, the evils which we are seeking to avoid. I have shown that considerable progress has been of late years made in the construction, whether directly by Government or under guarantee, of famine railways. The necessity imposed, however, on the Government of vigorously pushing forward its scheme of frontier railways has in a measure interfered with the prosecution of famine lines; and it is the more important that the work now in course of execution on these lines should not be interrupted. There remains the third course, *viz.*, to debit temporarily to loan, until our surplus is reassured, the expenditure which, under the head of Famine Insurance, has been met from our surplus revenues. This is the alternative which the Government, on a careful review of all the circumstances of the case, has decided to adopt. Rejecting, for the reasons above given, the two former of the courses which have been indicated, the Government has decided to debit to loan, during the years 1886-87 and 1887-88, so much of the sums which, under the ordinary operation of the Famine Insurance scheme, would be provided from Revenue for purposes of railway expenditure as it required to meet charges of administration. But it is not on that account prepared to delay the execution of the projects in which it is at this time engaged. In 1886-87 we have taken £1,049,400 from the Famine Insurance Grant, and in 1887-88 £1,248,000, which amounts will practically be added to the annual borrowings otherwise necessary.

Discontinuance of railway construction to the amount furnished by the Famine Insurance grant—why inadvisable

Course actually adopted, and reasons for adoption thereof.

Examination of argument for maintaining the Famine Insurance Grant in the Estimates, though there is no surplus

74 There is a point of view from which it has been urged that the scheme of famine insurance continues to be in force, although we have no surplus, but a deficit. If we have not, for example, the surplus sum necessary for the direct operation of the scheme, we have at least the sums which, if they no longer provide surplus, diminish *pro tanto* our deficit, and therefore the amount which at the end of the year we should require to make good from loan. It may, in accordance with this line of reasoning, be contended that, although

financially considered it makes no difference what course we pursue, it would be desirable, although at the cost of a deficit, to continue to shew in our accounts the customary charges under the head of Famine Insurance Grant. The revenues especially raised in a state of surplus with the object of providing for the extinction of debt are, it may be said, although we are in deficit, still operating to diminish the increase of debt; by preserving, therefore, the entry in our accounts we obviate the charge of seeking to evade our engagements. If we examine carefully, however, this way of looking at the matter, we find that we gain no practical end by maintaining the Famine Insurance Grant on the grounds indicated, other than that of being in a position to affirm that because the Famine Insurance Grant, though not directly operative, operates indirectly in reduction of debt, it is retained in our Estimates. The question is whether, although no financial gain is to be got by so doing, it is desirable, under pain of shewing deficit, to prove that we may be considered as holding to the letter of what is believed to be our engagements. There are circumstances in which a bolder and more direct course of action, although it may at first sight expose us to misapprehension, is, in the interests of the tax-payer himself, preferable; among them, for example, the circumstances in which we now find ourselves. The more we become involved in deficit, the greater becomes the pressure on us for adopting means of putting an end to it; and it seems, to say the least, doubtful whether, in the absence of any financial gain, we shall be held by the tax-payer rigorously to that method of account which may be thought most consistent with our engagements, if the first result of our complying with his wishes is to bring him within appreciable distance of further taxation. The conclusion of the whole matter seems to be that when we have surplus revenues to devote to railway construction, we should so employ them; but that when we have no surplus revenues, and do not consider it desirable to adopt measures to procure them, we have, as a matter of fact, to fall back upon loan, for the construction of new railways, if we determine to proceed with them; and we shew the facts more accurately by removing the charge to the debt or capital part of our accounts, than by exhibiting it as actually met out of our revenue. The aim of the Government will be to obtain again as soon as possible the necessary surplus, or so much of it as may be available, and to devote it to the purposes to which, under the Famine Insurance scheme, it is assigned.

75. The Government of India, towards the close of 1885-86, when it was evident that a considerable deficit was impending in consequence of the war preparations which had been made in the course of that year, had occasion to consider the expediency of adopting the decision which it has since thought necessary to take. But it could not foresee, when the Revised Estimates of 1885-86 were framed, that the course of events would materially add, during two succeeding years, to our expenditure. Considerations, therefore, which apply to the circumstances of the present time were of less force when considered in connection with the situation as it appeared in 1885-86. It would have been inconvenient, because it would have exposed us to misconstruction, if we had hastened on the circumstances of a single exceptional year to make a change in our accounts. An important element in the treatment of this question has been the greater or less period during which we might expect to be in deficit. Arrangements, therefore, which it was decided not to adopt in the presence of what seemed the temporary difficulties in 1885-86, required to be reviewed and modified, when the strain upon our finances becomes, from circumstances at that time unforeseen, more prolonged. To have left matters alone for a succession of two or three years might have led, as has been explained, to misconception as to the true nature of our financial position, and to the probability of the extent and importance of its difficulties being exaggerated.

*Reasons for not
adopting in
1885-86 the deci-
sion now taken*

76. The following figures give the results, so far as the Revised Estimates shew, of the assessment of the Income Tax, to which I now turn :

Income Tax.	1885-86.	1886-87, Budget.	1886-87, Revised.	1887-88.
	£	£	£	£
India	106	274,200	197,000	200,400
Central Provinces	23,207	38,400	38,400	40,000
Burma
Assam	5	18,000	19,000	20,000
Bengal	153,385	360,000	361,400	379,600
North-Western Provinces	119,326	205,000	220,000	231,000
Punjab	37,999	90,000	93,900	99,000
Madras	43,368	130,000	123,400	126,000
Bombay	125,638	342,500	295,000	310,000
TOTAL	503,034	1,458,100	1,348,100	1,406,000

77. It will be seen that the receipts are £1,348,100 against an estimate of £1,458,100, the difference being mainly due to a decision of the Secretary of State by which Income Tax is assessed on the surplus profits of Guaranteed Railways and not on their net earnings. The Budget Estimate for 1886-87 included £185,600 under Assessed Taxes for Income Tax on net earnings of Guaranteed and other Railways, but in the Revised Estimates £14,800 only are taken as Income Tax on surplus profits of Guaranteed Railways, the difference, £170,800, may therefore be said to have been written off in 1886-87. As, however, the share of the Government in the Income Tax on the net earnings of the Guaranteed and State Railways is £131,980, the loss on account of Income Tax as the figures below shew is merely nominal to this extent ; the real loss is merely the excess of £53,620, the share of Income Tax falling upon Companies over the £14,806 which they have had to pay.

	Government.	Company.	TOTAL.
	£	£	£
East Indian	63,200	15,800	79,000
Oudh and Rohilkhand	5,000	5,000
Madras	8,500	8,500
South Indian	4,000	4,000
Great Indian Peninsula	23,500	23,500	47,000
Bombay, Baroda and Central India	10,000	10,000	20,000
Rajputana-Malwa	16,000	4,000	20,000
Patna and Gya	688	172	860
Sindia	528	132	660
Ghazipur-Dildarnagar	64	16	80
Southern Mahratta	500	500
	131,980	53,620	185,600

78. No further particulars can be given at present as to the working of the Tax, but care will be taken to obtain full reports during the ensuing year. It will be seen that in Bombay and Madras the decrease is rather considerable, but in the case of Bombay it is due to the ruling about railways above referred to. There will be some reduction next year in the expenditure on account of the working of the Tax which is shewn in the Budget Estimate of 1887-88 at £19,100, the total estimated cost being £33,600 against £52,700.

79. In the following statement are shewn the net gain and loss on State and

Guaranteed Railways from 1885-86 to 1887-88, and the expenditure on Railways on State responsibility during the same period:—

Net Gain and Loss on State and Guaranteed Railways, from 1885-86 to 1887-88:

	Actuals, 1885-86.	Budget Estimate, 1886-87.	Revised Estimate, 1886-87.	Budget Estimate, 1887-88.	
STATE RAILWAYS.					
Net Revenue	£ 5,252,756	£ 5,489,900	£ 5,681,400	£ 5,729,000	State and Guaranteed Railways.
Less—Interest and annuity	4,661,916	5,849,800	5,922,000	6,145,900	
„ Surplus profits	195,957	217,500	245,000	241,500	
Net gain	394,883	—577,400	—485,600	—658,400	
GUARANTEED RAILWAYS.					
Net Revenue	3,725,075	3,133,500	3,552,500	3,515,000	
Less—Interest and surplus profits	4,628,836	4,008,400	4,244,800	4,240,300	
Net loss	903,761	874,900	692,300	725,300	
Net loss to State	508,878	1,452,300	1,177,900	1,383,700	

NOTE.—Excludes Mysore Railway.

Expenditure on Railways from 1885-86 to 1887-88 on State responsibility.

	Actuals, 1885-86.	Revised Estimate, 1886-87.	Budget Estimate, 1887-88.
(1)—DIRECTLY EXPENDED BY GOVERNMENT.			
Expenditure on Railways not charged against Revenue	£ 4,71,28,261	£ 5,17,15,000	£ 4,29,42,000
Construction of Protective Railways	50,00,000	20,00,000 *
Construction of Railways (charged against Revenue in addition to that under Famine Insurance)	63,20,555	18,79,000	7 50,000
Total	5,84,48,816	5,55,94,000	4,36,92,000
(2).—EXPENDITURE BY COMPANIES ON THE RESPONSIBILITY OF GOVERNMENT.†			
Guaranteed Railways	1,67,25,362	59,61,000	1,66,97,000
Southern Mahratta Railway	1,22,43,684	1,65,09,000	78,23,500
Indian Midland Railway	80,98,585	1,63,27,000	2,32,42,500
Nagpur-Bengal Railway	75,00,000‡
Total	3,70,67,631	3,87,97,000	5,52,63,000
GRAND TOTAL	9,55,16,447	9,43,91,000	9,89,55,000

NOTE.—This statement excludes the Mysore Railway.

* The grant under this head has been suspended for 1887-88, a corresponding increase being allowed under the head "Capital Expenditure on Railways not charged against Revenue."

† The final estimates of expenditure in England received from the India Office give the estimated outlay in a lump sum. An approximate distribution has been made here.

‡ This is a rough estimate of the outlay likely to be incurred by the Company during the year. It does not provide for the refund to the State of the outlay incurred to close of 1886-87, and it is not known on what terms the Company will take over the existing line.

Sterling has been converted at the rates used in the estimates in all the above figures.

80 The net loss of £485,600 in the Revised Estimates of 1886-87 has, in the Budget Estimate of 1887-88, increased to £658,400 on account of State Railways, the net loss on Guaranteed Railways being slightly increased also. As long as State Railways are being actively constructed net loss must be expected; this formed the subject of remarks in the Financial Statement of last year, which it is unnecessary to repeat. It may be hoped, however, that, with the opening of fresh railways and the gradual completion of those which it is desired to construct, each year will, in future, diminish the ratio of loss.

Army. 81. The Estimates for the Army Services in India are as follows:—

	Revised	Budget
Ordinary effective	12,047,930	12,423,697
Non-effective	860,770	866,303
	12,908,700	13,290,000
Add Burma	1,160,000	720,000
	14,068,700	14,010,000

The total Army Estimates, including English charges and exchange, are £19,197,000 against £19,070,600 in the Revised Estimates of 1886-87.

The Budget shews increase under the first head (effective) of £375,767, and under the second (non-effective) of £5,533. Of this increase the sum of £344,984 is part of the £656,900 mentioned in paragraph 36 of the Financial Statement for 1886-87 as being the sum then remaining to be provided for in connection with the increase to the Army.

Opium. 82. In respect to Opium there is little to be said beyond the fact that the crop this year, although apparently a good average, does not promise to be so exceptional as was the case last year, and the expenditure in India on account of opium has accordingly been reduced from £2,782,400 in the Revised Estimates to £2,504,000 in the Budget Estimate of the ensuing year. The reserve at the close of 1887 is expected to stand at 35,705 chests. The price during the ensuing year has been taken at Rs. 1,100 per chest. 4,750 chests will be sold each month during 1887; the amount to be sold in the first three months of 1888 will be notified hereafter.

Oscillations of
exchange during
1886-87. Rate of
exchange taken in
1887-88

83. It is needless to dwell on the subject of silver. At the present time, a Royal Commission is appointed to inquire into the question, and, among other matters connected therewith, into the difficulties which the uncertainty in the ratio of silver to gold causes to the Indian Government. During the course of the year the instability of exchange was forcibly illustrated. From 1s. 6d., the rate taken in the Budget, it had fallen five months later to 1s. 4½d., since when it rose to 1s. 6d., and is now below 1s. 5½d. It was estimated in the Budget of 1886-87 that £4,778,000 would be the net additional charge on account of exchange. It seemed probable shortly before the six months' estimates were prepared that little less than £1,750,000 would be added. The amount which has actually been charged is £5,252,600, an increase of £474,600. The rate of exchange taken for 1887-88 is 1s. 5½d.

84. The following passage from a memorandum on the loss to the Government of India from a fall in the rate of exchange, prepared last year at my request by Mr. Barbour, Secretary to the Government of India in the Financial Department, explains what would have been the direct effect upon the estimates of 1886-87 of a fall in exchange from 1s. 6d. to 1s. 5d. It will be seen that the conclusion is that the additional burden amounts to not less than Rs. 1,11,00,783. The calculation does not in any way whatever deal with the consideration of what may or may not be held to be the indirect advantage or disadvantage to the Indian Revenue of a fall in exchange, but confines itself to the direct effect upon the expenditure shewn in the estimates of a fall of from 1s. 6d. to 1s. 5d.

"If the Government of India incurs an obligation to pay away every year a certain amount of gold, the extra number of rupees which it may have to give for this gold on any particular date as compared with the number of rupees it would have had to give if exchange had remained the same as when the obligation was incurred, appears to me to be the true measure of the loss by exchange. The Government of India contracts an obligation to find so much gold when that amount of gold can be procured for so many rupees. The relative value of gold and silver alters, and it finds that it takes a larger number of rupees to purchase the gold. The increase in the number of rupees required to meet an obligation contracted under different circumstances is the true measure of the real loss by exchange. To ascertain the total real loss in any year from the fall in exchange, it would be necessary to deal separately with each permanent gold obligation of the Government of India, and to ascertain the additional number of rupees required to meet it, as compared with the number of rupees required for that purpose when the obligation was first contracted. A calculation of this nature would be extremely elaborate and complicated, if not impossible; but we know that the loss by exchange must be very large, as the permanent gold obligations of the Government of India are of great magnitude, and the fall in the rate of exchange has been very great.

*Direct effect on the
Estimates of the
fall of 1d. in
Exchange.*

"There is, however, no special difficulty in calculating the additional burden imposed on the finances of India by any further fall in the rate of exchange, and if we know what the additional burden is when the rupee falls from (say) 1s. 6d. to 1s. 5d., we shall have a sufficiently accurate means of determining the disturbing effect on Indian finance of fluctuations in the value of the rupee. For the purposes of the calculation in question it is only necessary to ascertain the total net amount of the permanent gold obligations of the Government of India on any date, and to calculate the extra number of rupees required to meet them when the rupee is worth 1s. 5d. as compared with the number required when exchange is at 1s. 6d. As the basis of the calculation, the Estimates of the current financial year 1886-87 may conveniently be taken, but in the first instance a few remarks may be made regarding the cost of stores purchased in England. When the rate of exchange is two shillings for the rupee, the Government of India can purchase stores for fewer rupees than it has to pay when the rate of exchange is 1s. 6d., provided always that the price of stores does not vary with the rate of exchange. If it be the fact that the prices of English stores vary with the rate of exchange, the lower gold price of commodities in England is *pro tanto* a compensation for the fall in exchange. We know, as a fact, that the gold prices of commodities have fallen more than exchange has fallen, and that the Government of India now obtains English stores for fewer rupees than it used to pay when the rate of exchange was two shillings for the rupee. On the hypothesis that the same cause which has produced the fall in exchange has also produced the fall in gold prices, we may balance the gain from low gold prices against the loss by low exchange, and omit from our calculation the question of loss by exchange in the case of stores.

"The gold expenditure of the Government of India is shewn in the Estimates of 1886-87 at £14,512,900, and deducting the gold receipts (£178,900), we get a balance of £14,334,000 payable in gold. Before calculating the additional number of rupees that must be paid when a fall in the value of the rupee takes place, there should be deducted from this sum the amount payable on account of leave allowances and pensions fixed in rupees, as there is no increase to the number of rupees paid on account of them, no matter what the exchange value of the rupee may be. The cost of stores should also be deducted, if it be assumed that the fall in exchange is balanced by a fall in the gold price of stores. In some instances stores (*e.g.*, stamps) are provided under a contract extending over seven years, and during the period of such contract there can be no reduction in the cost of these stores to Government. We will not, however,

include loss by exchange on these stores, because it may be held that, on the assumption as to gold prices already made, there will be a reduction in the gold payments under any new contract which may hereafter be made.

"The statement in the margin shews that, excluding the expenditure shewn

STORES (EXCLUDING STORES PURCHASED ON ACCOUNT OF THE WORKING AND MAINTENANCE OF RAILWAYS).

Land Revenue	£ 200
Opium	1,600
Stamps	51,000
Forest	100

Marine	140,500
Political	30 0
Scientific and Other Minor Departments	7,000
Stationery and Printing	85 300
Irrigation	2,100
Military Works	2,300
Public Works Stores	500
Army Stores	714,100
TOTAL	1,150,400

LEAVE ALLOWANCES AND PENSIONS
(Approximate figures.)

Telegraph Department	£ 7,000
Leave Allowances fixed in rupees	150,000
Superannuation Allowances and Pensions	90,000
Public Works Leave Allowances	31,000
Army Leave Allowances	14,000
TOTAL	451,000
GRAND TOTAL	1,601,400

under the Railway Revenue Account, the total sum to be deducted on these two accounts is £1,636,400, and the expenditure on which loss is incurred is thereby reduced to £12,697,600. Of this amount no less than £5,270,800 appears under the Railway Revenue Account, and the loss by exchange on it must, owing to the contract relations that exist between the Government and the different Railway Companies, be calculated separately. There remains the sum of £7,426,800 on which loss by exchange may be directly calculated. The loss on this amount due to a fall in the rate of ex-

change from 1s. 6d. to 1s. 5d. per rupee is Rs58,24,941. The loss on the Railway Revenue Account by this fall of 1d. in the rupee has been separately calculated, the details are given below.* The additional cost in rupees comes

* Taking the items first on the expenditure side of the Budget for the year 1886-87 *mutatis mutandis* and revising the figures in accordance with a supposed fall of 1d. the consequent loss is shewn as follows:—

	Original Figures.	Revised Figures.	Loss
State Railways, Working Expenses—			
Imperial	4,868,500	4,011,020	(a) 13,420
Provincial	700,600	701,500	(a) 1,200
State Railways—Interest—			
Imperial	2,019,400	2,022,223	(b) 2,823
Exchange	172,600	213,253	(c) 40,653
Annuities in purchase of Railways (Exchange)	575,300	710,624	135,324
Interest on Capital deposited by Companies (Exchange)	103,000	127,555	24,235
Guaranteed Companies, surplus profits, &c.	407,500	495,150	(d) 2,350
Guaranteed Companies, Interest (Exchange)	896,900	1,107,894	210,994
Subsidized Companies, Interest (Exchange)	9,100	11,324	(e) 2,224
Total Loss			458,523

Turning to the Receipts, the only alteration is in—

XXVII. - *Guaranteed Companies Net Traffic Receipts*, under which the figure, £3,133,500, becomes £3,107,200—Loss £26,300

The loss is due to the increased rupee price of stores issued to revenue, but as it is calculated on the difference between the actual rate of exchange and the contract rate, and as the difference is paid into the Civil Department, the loss is nominal only.

The total loss caused by a fall of exchange of 1d. below 1s. 6d. is therefore £458,523.

But of this £44,620 under Working expenses represents increased loss by exchange on English stores consumed during the year.

This loss is to a certain extent compensated by the greater purchasing value of the £ sterling

If we may assume that prices fall sufficiently in England to cover the fall in exchange, the real loss would be reduced to £413,903

(a) The increase represents the increased rupee value of stores issued on Revenue Account.

(b) The loss of £2,823 is due to the larger rupee debit to the Capital Account during the year calculated on outlay in England.

(c) The loss of 40,653 is due to the larger remittances to cover interest on the debentures of the East Indian Railway, the Eastern Bengal Railway, and the Sind, Punjab and Delhi Railway

(d) This gain is consequent on the increased charge to working expenses.

(e) This loss may eventually be recovered from the Companies.

to Rs. 41,39,030, or to Rs. 45,85,230 if English gold prices do not fall in proportion to the fall in exchange.

"The pay of the European troops serving in India is fixed in sterling by Royal Warrant, but is paid in rupees, the amount of each sterling payment being converted into rupees at, approximately, the current rate of exchange. The calculation below* shows that the loss on this account due to a fall in exchange from 1s. 6d. to 1s. 5d. amounts to Rs. 11,36,812.

"There will also be found in the Estimates of 1886-87 under the head '31, Exchange' an item of expenditure amounting to Rs. 13,77,000. This item represents the net result in connection with exchange transactions on account of (1) Capital of Guaranteed Railways; (2) Capital of the Southern Mahratta and Indian Midland Railways; (3) Remittance on account of Railway stores, and Civil and Military transactions; and (4) the 4 per cent. Loan of 1854. The gain by exchange under (1) and (2) arises from the fact that capital provided in sterling by the Companies concerned is brought to account in rupees at certain contract rates, instead of at the actual rate of the year. The capital has also to be repaid at, practically, the contract rates, and the gain on the capital when received may be balanced against the probable loss when repaid, and the item omitted altogether from the calculation.

"The same course may be followed as regards (3). The loss or gain is mainly due to the actual rate of the year differing from the rate taken at the beginning of the year, and in a series of years we may take the loss to balance the gain. The loss under (4) is of a special nature, and arises from the fact that a loan of Rs. 1,18,81,000 raised in 1854 was, under the conditions on which it was raised, repayable in England at a fixed rate of exchange. The loss by exchange on the repayment is increased by the fall in the rate of exchange that has occurred this year, but similar transactions will not recur in the future, and it might be misleading to show any loss on this account in a calculation which is intended to bring out the permanent yearly loss to the Government of India by a fall in the rate of exchange from 1s. 6d. to 1s. 5d. per rupee.

"Taking the sum of the items given in paragraphs 9 and 10, it will be seen that the additional burden imposed on the finances of India by the fall in

* The pay of British soldiers in India is now issued at the rate of exchange fixed annually by Her Majesty's Government for the payment of troops serving in the colonies. For the year 1884-85, this rate of exchange was fixed at 1s. 8d. the rupee, which involved an addition of 12½ per cent to the soldiers' pay and an estimated increase of Rs. 18,43,000 per annum to the military expenditure in India.

The rate of exchange for the conversion of the pay of British soldiers in India for 1885-86 was fixed at 1s. 7½d. the rupee. The expense thus caused [i.e., by the fall of one halfpenny the rupee] amount to Rs. 4,00,000.

The continued fall in 1886-87 to 1s. 7d. the rupee, being the rate fixed for the conversion of the soldiers' pay, resulted in a further increase of Rs. 5,15,000 to the military estimates in India, a portion of which, however, is due to an increase in the establishment of British troops.

• The addition made to the military estimates in India in consequence of falling rates of exchange has been as follows:—

Year.	Rate of exchange fixed for issue of soldiers' pay.												Increase to military estimates.		
	Per rupee.												Rs.		
	s. d.														
1874-75	1	10½	6,40,000
1884-85	1	8	18,43,000
1885-86	1	7½	4,00,000
1886-87	1	7	5,15,000
													Total	.	31,98,000

The rate of exchange for next year, 1887-88, is not yet known, but, judging from the present market rates of exchange, a further increase to the military estimates on this account must be anticipated.

The total amount to be converted into rupees in 1886-87 was £1,440,437 sterling which, at 1s. 7d. per rupee, came to Rs. 1,83,08,678. At 1s. 6d. the total rupee payment would have come to Rs. 1,93,25,826, and at 1s. 5d. to Rs. 2,04,62,638.

exchange from 1s. 6d. to 1s. 5d. in the present day amounts to $\text{Rs. } 1,11,00,783$. If the gold price of stores should not fall, as assumed in the above calculation, a further sum of $\text{Rs. } 13,72,004$ would have to be added to the loss by exchange. It may be mentioned that no account has been taken of any possible loss, from a fall in exchange, on the purchase of stores used on Railway Capital Account.

"A further fall in exchange from 1s. 5d. to 1s. 4d. per rupee would more than double the loss, as the loss due to a fall from 1s. 5d. to 1s. 4d. is about one-eighth more than the loss due to a fall from 1s. 6d. to 1s. 5d."

85. Passing to Salt, we find that the consumption during the eleven months ending with 31st January 1887 compares as follows with the corresponding figures of the previous year:—

		Consumption, March 1st 1885 to 31st January 1886.	Consumption, March 1st 1886 to 31st January 1887.	Increase+ Decrease—
		Maunds.	Maunds	Maunds
Salt Increase in consumption in 1886-87	Bengal . . .	9,382,000	9,374,000	— 8,000
	Northern India . .	4,996,000	6,213,000	+ 1,217,000
	Bombay . . .	6,282,000	5,878,000	— 404,000
	Sind . . .	206,000	210,000	+ 4,000
	Madras . . .	6,965,000	7,097,000	+ 132,000
	TOTAL . . .	27,831,000	28,772,000	+ 941,000

The increase in the eleven months of the last four years has been—

Eleven months from 1st March 1882 to 31st January 1883	1,603,000
Ditto ditto ditto ditto 1883-84	973,000
Ditto ditto ditto ditto 1884-85	693,000
Ditto ditto ditto ditto 1885-86	64,000
Ditto ditto ditto ditto 1886-87	941,000

86. The Provincial figures for the last four years are as follows —

	1st March 1882 to 31st January 1883	Increase+ Decrease—	1st March 1883 to 31st January 1884	Increase+ Decrease—	1st March 1884 to 31st January 1885	Increase+ Decrease—	1st March 1885 to 31st January 1886	Increase+ Decrease—	1st March 1886 to 31st January 1887	Increase+ Decrease—
	Mds	Mds	Mds	Mds	Mds	Mds	Mds	Mds	Mds	Mds
Bengal . . .	8,723,000	+516,000	8,450,000	+27,000	9,128,000	+548,100	9,382,000	— 16,000	9,374,000	— 8,000
Northern India	6,213,000	—66,000	6,155,000	+147,000	6,581,000	+122,000	6,213,000	— 1,585,000	6,213,000	+1,217,000
Bombay . . .	4,675,000	+334,000	4,790,000	+94,000	4,810,000	+21,000	5,878,000	+1,478,000	5,878,000	—404,000
Sind . . .	166,000	+18,000	1,60,000	+10,000	189,000	+13,000	210,000	+17,000	210,000	+4,000
Madras . . .	6,405,000	+801,000	6,800,000	+305,000	6,789,000	—11,000	6,965,000	+176,000	7,097,000	+132,000
TOTAL . . .	26,101,000	+1,603,000	27,071,000	+973,000	27,757,000	+693,000	27,831,000	+64,000	28,772,000	+941,000

87. It will be seen that the check in the consumption of salt which was pointed out in the Financial Statement last year, has proved to be, as was at the time surmised, temporary. The total increase in the period of four years from the year 1882 when the salt duty was lowered has been for the eleven months from 1st March to 31st January from 26,101,000 in 1882-83 to 28,772,000 maunds in 1886-87, an increase of 2,671,000 maunds for the eleven months, or (at Rs per maund) of $\text{Rs. } 53,42,000$ or $\text{£}534,200$ conventional sterling, or, say, $\text{£}583,000$ for twelve months. The annual amount of Revenue abandoned when the Salt Tax was lowered was estimated, it will be remembered, at $\text{£}1,400,000$.

88. The net import of gold into India has continued to fall off very greatly in 1886-87; silver also shewing decrease, even compared with ordinary preceding years :—

YEAR	GOLD.			<i>Imports of gold and silver.</i>
	Imports.	Exports.	Net imports.	
	<i>R</i>	<i>R</i>	<i>R</i>	
1881-82	4,85,63,920	1,24,078	4,84,39,842	
1882-83	5,09,51,354	16,42,639	4,93,08,715	
1883-84	5,46,94,568	69,517	5,46,25,051	
1884-85	4,77,81,724	10,62,359	4,67,19,365	
1885-86	3,09,15,409	32,86,062	2,76,29,347	
1886-87 (10 months)	1,99,46,131	63,63,771	1,35,84,360	

YEAR	SILVER		
	Imports.	Exports.	Net imports.
	<i>R</i>	<i>R</i>	<i>R</i>
1881-82	6,46,63,889	1,08,73,390	5,37,90,499
1882-83	8,35,80,218	87,77,949	7,48,02,269
1883-84	7,40,85,065	1,00,33,554	6,40,51,511
1884-85	9,11,00,254	1,86,43,941	7,24,56,313
1885-86	12,38,02,599	77,90,314	11,60,66,285
1886-87 (10 months)	6,27,47,044	1,01,98,011	5,25,49,033

89 On the 31st March 1886, the number of depositors in District and Presidency Savings Banks was 80,718 with £2,471,180 at their credit. On the corresponding date of the previous year there were 95,366 depositors, the balance at whose credit was £3,058,998, or showing a decrease on 31st March 1886 of 14,648 depositors and £587,818 in the balance at their credit. The decrease in the number of depositors occurred as under—

	Europeans and Eurasians.	Natives.	Total.
31st March 1885	20,330	75,036	95,366
„ . 1886	17,270	63,448	80,718
	—3,060	11,588	14,648

and was due to the abolition, under the orders of Government,* of the District Savings Banks at the close of the year 1885-86, with a view to their absorption in the Post Office Banks. To facilitate this measure it was arranged that from the date of the order no new accounts should be received in the District Savings Banks, and that depositors who had accounts therein should be encouraged to transfer their balances to the Post Office Banks as soon as possible. Many depositors availed themselves of this offer, and sums held in District Savings Banks were gradually made over to the Post Office Banks.

* Financial Department Resolution No. 33, dated 4th January 1886.

Post Office
Savings Banks.

90. From the statement below it will be noticed that the number of accounts and the balance at credit of depositors rose from 122,599 accounts, and £1,344,200 on the 31st March 1885 to 155,009 accounts, and £2,254,590 on the same date of the following year, or more by 32,410 accounts and £910,390 at their credit. The proportion in which this increase occurred among Europeans and Eurasians and Natives of the country is shown below:—

	NUMBER OF ACCOUNTS.			BALANCE AT CREDIT OF DEPOSITORS.		
	Europeans and Eurasians.	Natives.	Total.	Europeans and Eurasians.	Natives.	Total.
	No.	No.	No.	£	£	£
On 31st March 1885	13,355	109,244	122,599	233,500	1,110,700	1,344,200
" " 1886	20,213	134,796	155,009	441,856	1,812,734	2,254,590
Increase	6,858	25,552	32,410	208,356	702,034	910,390

The above improvement was due partly to the transfer from the District Banks, as explained previously, and to the Postal Department having begun to receive deposits at the rural Post Offices, thereby extending operations into parts of the country where heretofore the people had no facilities for investing their small earnings.

The balances in the Presidency Savings Banks have been declining for some years, in consequence probably of the greater convenience offered by the Post Office; and it has been decided that, while in the Presidency towns they may be continued, the Banks opened in the interior of Madras and Bombay should be superseded from June 1886 by those belonging to the Post Office.

The total balances in Savings Banks of all classes on the 31st March 1886 was £5,081,183.

Post Office Life
Insurance.

91. The Director General of the Post Offices' report on the operations of the Postal Life Insurance scheme for the year 1885-86, which is the second complete year of its existence, shows that 170 new policies were issued, representing a total assured amount of ₹1,91,850, as compared with 398 policies, aggregating ₹5,63,225 taken out during the 14 months ending with the 31st March 1885.

The abstract below contrasts the progress of the scheme in the years 1884-85 and 1885-86:—

	To 31st March 1885.	To 31st March 1886.
Number of lives insured	398	568
Amount of insurance	₹ 5,63,225	7,55,075
" received in premia	" 14,890	39,567
" of claims met	" 1,500	5,773

The statement shows that the total number of policies effected up to 31st March 1886 was 568 of the total value of ₹7,55,075 or an average of ₹1,330 for each policy. Deducting lapses or policies surrendered or cancelled, the aggregate amount assured stood at ₹7,04,125. Of the total number of policies effected 16 were for Europeans and Eurasians and 512 for Natives of the country. The scheme continued to make progress in the Postal Circles of Bengal, Madras, Bombay, and Assam. The number of policies taken out in these circles during, and to the end of the year 1885-86 are as under:—

	Bengal.	Madras.	Bombay.	Assam.
In 1885-86	40	35	36	15
To end of 1885-86	131	108	88	58

The table in the margin shews the distribution of policies among the principal

	No on 31st March 1887	NUMBER OF LIFE INSURANCE POLICIES TAKEN OUT.			Percentage of lives insured.
		Up to 31st March 1885	During 1885-86.	Total.	
Superintendents and Inspectors	346	38	7	45	13
Postmasters, Sub-Postmasters, and Village Postmasters	4,677	123	64	187	3.49
Schoolmasters and Extraneous Agents	1,060	.	1	1	.05
Clerks	5,080	177	65	242	4.75
Postmen and Village Postmen	17,820	44	23	67	.48
Road Establishment	12,771	11	6	17	.13
Signallers, &c, in Combined Offices	654	5	4	9	.137
	38,929	398	170	568	1.15

classes of postal officials since the scheme was introduced, with the percentage of lives insured in each class. Out of a total of 38,829 employees, 568, or a little less than 1½ per cent., have availed themselves of the advantages of State Life Insurance, and

more than 26,000 of these employees belong to the poorly paid class of postmen, runners, and boatmen.

From 1st April 1886 to 31st December 1886, 106 additional policies were issued of the aggregate value of Rs 2,400.

92. The following explanations cover the main causes of increase or decrease in 1886-87 and in the ensuing year. In the former case the comparison is between the Budget Estimates and the Revised Estimates of 1886-87; in the latter between the Budget Estimates of 1887-88 and the Revised Estimates of 1886-87:—

Revenue	Increase	Decrease.	Expenditure	Increase.	Decrease.	Comparison of Revised with Budget Estimates of 1886-87.
	£	£		£	£	
Land Revenue	149,800	Opium	134,400	...	
Opium	328,700	Police	233,000	...	
Salt	146,100	.	Marine	159,300	...	
Excise	130,800	.	State Railways (Working Expenses)	291,100	
Assessed Taxes	110,000	Guaranteed Companies	109,500	...	
State Railways— Gross Earnings	127,100	Army	804,600	..	
Guaranteed Companies— Net Traffic Receipts	410,000	..				

93. *Land Revenue (I)*—Decrease £149,800.—In Upper Burma alone the decrease is £304,600, and is due partly to the defective information on which the first estimates were based, and partly to the unsettled state of the country. In other provinces, the Land Revenue was, as will be seen from the Provincial figures, better than the Estimate.

Opium (II)—Decrease £328,700.—There is a decrease of £522,108 in the receipts from Bengal opium, and an increase of £197,500 in those from Malwa opium; besides small differences in the receipts from excise opium in other provinces. The Budget Estimate provided for a sale of 55,500 chests of Bengal opium at Rs 1,200 a chest = £6,660,000, plus excise opium and miscellaneous receipts, £70,000, or a total of £6,730,000. The total number of chests sold during the year was 54,750, which resulted in a decrease of £513,000, owing to an average rate of Rs 1,122-11-9 a chest having been realised. There is, besides, a net decrease of £9,100 on account of excise opium and miscellaneous receipts. The increase in Bombay is due to the number of chests of Malwa opium exported during the year having been somewhat larger than was anticipated in the Budget.

Salt (III)—Increase £146,100.—This occurs chiefly in Bombay and the Central Provinces, and is due to the more extended sale of Baragora salt during the first three months of the year, during which a high price was maintained on the Sambhar salt, as explained in paragraph 47 of last year's Statement.

Excise Increase—£130,800.—The increase of Excise revenue is general.

Assessed Taxes.—Decrease £110,000.—The decrease of £110,000 is chiefly due to the decision to levy Income-tax upon the surplus profits, and not upon the net earnings of the Guaranteed Railways. As explained in paragraph 77 the effect on the Government account was more nominal than real.

Railways.—Under this head State Railways show a decrease of £127,100, and Guaranteed an increase of £419,000.

The main factors on the first of these figures are :—

	£
East Indian Railway—Decrease	55,000
North-Western Railway—ditto	164,500
Rajputana-Malwa Railway, Imperial portion—Increase	32,500
Southern Mahratta Railway—Increase	22,500
Provincial Railways—increase	44,400

The decrease in the East Indian Railway receipts is due to the grain traffic during the earlier months of the year having been below the expectations formed when the Budget Estimates for the year were framed. The large decrease in the North-Western Railway is due to the falling off in the receipts from the carriage of materials for frontier railways and to a great falling off in the usual export wheat traffic from the Punjab. In the Southern Mahratta Railway, the increase is due to an increase in the open mileage.

Under Provincial State Railways the principal contributors to the increase are Burma Railway £25,000, Northern Bengal £30,000, Tirhoot £17,500.

In the Burma Railway the increase is due to the country having become quieter and to movement of troops to Upper Burma, and in the Northern Bengal Railway to general increase of traffic. The increase in the Tirhoot line is the result of the reduction of third class fares, the benefit of which is being gradually appreciated, and of the opening for traffic of a portion of the Kosi extension.

The increases under Guaranteed Railways (Net Traffic Receipts) are as follow :—

	Increase. £
Madras Railway	55,000
South Indian Railway	6,500
Bombay, Baroda and Central India Railway	25,000
Great Indian Peninsula Railway	270,000
Oudh and Rohilkhand Railway	62,500
TOTAL	<u>419,000</u>

£84,500 of this is due to the exclusion from working expenses of the charge for payment of Income-tax; the rest arises from improved traffic.

94. On the Expenditure side, the first noteworthy difference is—

Expenditure. —

Opium (4)—Increase £134,800.—This increase occurs almost wholly in Bengal, and is due to the outturn of the Benares Agency for the season 1885-86 having proved larger than was anticipated when the Budget Estimate was framed.

Police (20) and Marine (21).—The principal items here included are £195,000 on account of increased Police charges in Upper Burma, £139,000 under Marine, on account of transport charges connected with operations in Upper Burma.

Famine Relief—Decrease £1,049,000.—It has been explained in paragraph 73 that the absence of a surplus has prevented our carrying out the intention, provided for in the Budget, of setting apart £749,000 for reduction of debt; and that, for the same reason, of the original grant of £500,000 for the

construction of Protective Railways, we can afford to give only £200,000 from Revenue.

State Railway Working Expenses (38) £291,100, counterbalanced by an increase, £109,500, for payments of surplus profits to *Guaranteed Railway Companies*, the necessary accompaniment of increased earnings. The principal items of the first are—East Indian Railway, £185,000, and North-Western Railway, £54,000. Of the first of these decreases about £79,000 is in consequence of the decision to levy Income-tax on the surplus profits instead of basing it on the net earnings, and including the amount in working expenses; £50,000 is due to the write-back to Capital of the value of stores issued to Revenue, but not used; and the balance to renewals of way and stock not having been carried out to the extent anticipated.

The decrease on the North-Western Railway is accounted for by the reduced traffic during the year already noticed on the receipt side.

Against the foregoing decreases, there is a large increase of £34,000 in the working expenses of the Eastern Bengal Railway caused by extensive renewals of permanent-way and repairs to rolling stock, &c.

The provincial State Railways also shew a small decrease in working expenses which occurs mostly on the Nagpur-Chhatisgarh Railway. This is due to a large provision for ballast not being required, as the expenditure on this head has been charged to Capital, to less outlay in repairing culverts, and to the return of materials to store.

Army, Effective, (46).—Increase £673,700. Non-effective, increase £21,400=Total £780,300.—This increase arose in consequence of the necessity for adding, during the year, to the garrison to be maintained in Upper Burma, and to the movements of troops there. The other principal items which have contributed to this increase are (1) the raising of two additional Goorkha Battalions; (2) purchase of mules for the Artillery; (3) provision of a greater number of medical officers and subordinates; and (4) additional purchases of land to meet military requirements. On the other hand there have been savings due to the postponement of the arrival of a portion of the sanctioned additional number of British troops, and also to the instructions issued in the early part of the year to ensure the observance of strict economy in all branches of the army.

95. The principal items of difference between the Budget Estimates of 1887-88 and the Revised Estimate of 1886-87 are—

Revenue.	Increase. £	Decrease £	Expenditure	Increase. £	Decrease £	
Land Revenue	327,000	.	Land Revenue	153,200	.	<i>Comparison of Budget Estimates of 1887-88 with Revised Estimates of 1886-87.</i>
State Railways (gross earnings) .	614,400	.	Opium	270,200	
Military Works	152,400	Police	463,800	.	
.	.	.	Political	120,200	
.	.	.	Construction of Railways	112,900	
.	.	.	Railways—	.	.	
.	.	.	State Railways (working expenses)	553,300	.	
.	.	.	Military Works	170,000	.	

96. *Land Revenue (1)*—Increase £327,100.—Of this increase a sum of Revenue £209,900 is anticipated from Upper Burma and the balance from Bombay. The increase in the latter case is due to a considerable extent to the postponement, till next year, of £50,000 due in 1886-87.

State Railways (Gross Earnings) (XXVI)—Increase £604,400.—This increase is general, and is due in many cases to increased open mileage. With the exception of the Northern Bengal Railway and a few other minor lines, all the railways are expected to earn more in 1887-88 than in the previous year.

The main intzeases are—

Rajputana-Malwa Railway	50,000
Umeria Colliery	21,500
Indian Midland Railway	23,100
Lucknow-Sitapur-Kheri Railway (Provincial)	26,200
Cuddapah-Nellore and Bellary-Kistna (new lines)	35,000
North-Western Railway	335,000
Southern Mahratta Railway	117,500
TOTAL	608,300

The largest of these—that on the North-Western Railway—is principally a recovery from the low figures of the current year, but is also partly due to the opening of the frontier lines.

It has already been explained that there is a considerable alteration in the distribution of the railways between Imperial and Provincial, and that the Provincial share of the increase under this head, which is £282,700, arises not from improvement of revenue upon Provincial Railways, but from the transfer to Provincial of the Eastern Bengal Railway, and the transfer to Imperial of some lines that have hitherto been Provincial.

The decrease of receipts under Military Works (XXXI) is due to the exceptional recovery in 1886-87 of £150,000 from His Highness the Maharaja Sindia on account of the Morar Cantonment and the Gwalior Fort.

Expenditure. 97. On the Expenditure side there is under *Land Revenue* (3), a net increase of expenditure of £153,600.

The chief increases occur in the following Provinces:—

Central Provinces	£ 21,600
Upper Burma	48,700
Punjab	13,200
Madras	43,700

In the Central Provinces and Punjab the increases are on account of extended settlement operations. In Madras, it is due to the proposed revision of subordinate revenue establishments. In Upper Burma the increase has been provided for in view of the anticipated realisation of revenue on the pacification of the province. As a good deal of expenditure under this head, which was formerly partly Imperial, has in the new Contracts been made wholly Provincial, the result on the whole is a diminution of Imperial expenditure, but an increase of Provincial by more than the whole £153,600.

Under *Opium* (4) we estimate for smaller expenditure by £279,200 than that of this year, as we do not anticipate the recurrence of the recent very favourable crops.

The changes in the expenditure under the remaining revenue heads are mostly transfers of expenditure between Imperial and Provincial.

Under *Civil Departments*, we have a gross increase of expenditure in India £407,400, which comes mainly under two heads—namely, Police (20), increase £463,800, almost entirely in Upper Burma (where the police is estimated to cost £737,000 altogether), and Political (25), decrease £116,300 owing to cessation of charges for the Afghan Boundary Commission and the Thibet Mission.

Under *Railway Revenue Account* we provide for a gross increase of £553,300 in State Railway working expenses (38) and £147,700 under State Railway interest account.

Of the former the principal increases are as follow:—East Indian Railway £70,000. (This apparent increase is explained by the write-back in 1886-87.)

North-Western Railway £380,000. (This is to provide for extensive renewals of permanent-way chiefly on the late Sind, Punjab and Delhi Railway and for working the Sind-Sagar State Railway and the Bolan and Sind-Pishin lines, which will be opened during the year.)

Southern Mahratta Railway £52,500. (In 1887-88 the line will probably be opened throughout.)

The increase, £170,000, on account of Military Works, is entirely on account of Upper Burma, where the expenditure is estimated at £300,000.

98. In the Financial Statement for 1886-87, it was estimated that the year ^{Ways and means.} would open with a balance on the Indian Treasuries of £12,401,932, that the Secretary of State would draw (five sterling) £13,331,400 during the year, and that the balance of March 31st, 1887, would be £10,617,432. The actual opening balance was £12,754,478; Council Bills have fallen short considerably the total for the year being now put down at £12,000,000, and the closing balance at £13,016,578.

Commencing with this balance on 31st March 1887, we find that after providing for the contemplated amount of drawings £16,250,000, we are left at the end of the year with an estimated balance of only £5,604,678. This is due to the heavy expenditure on Capital outlay £3,953,800, and special defence works £130,300, not charged to Revenue, and to the heavy payments (net £1,673,200) we have to make to Railway Companies, against their payments into the Home Treasury.

We have been assisted in meeting the demands which will fall upon the Indian Treasuries next year by the circumstance that the Gwalior Council of State has intimated its desire, through the Agent to the Governor General, Sir Lepel Griffin, to invest three and a half crores of the late Maharaja's hoarded treasure in Government securities. We also propose to place in the market a loan of 200 lakhs; but it will be understood that according to the usual custom, no pledge is, or can be, given regarding the time or the amount of borrowing. It has been decided not to raise any sterling loan for Public Works during the year.

With these loans our balance at the end of the year is estimated at £11,104,678.

Of our other transactions, under the head of Ways and Means, it remains only to note that we expect to get £660,000 by Savings Banks' deposits, but about the same amount will be required on the disbursement side, for the advance promised to the Calcutta and Bombay Port Trusts, out of the last year's loan of £1,200,000.

99. The following is a summary of the chief points in the foregoing Statement.

The Accounts for 1885-86 shew the following:—

Receipts	£	
Expenditure	74,464,197	
	77,265,923	<u>Recapitulation.</u>
Deficit	2,801,726	

The Revised Estimates of 1886-87 shew—

Revenue	76,071,700
Expenditure	76,071,200
Surplus	500

The Estimates for 1887-88 shew—

Revenue	77,460,200
Expenditure	77,443,500
Surplus	16,700

The deficit which would have otherwise occurred in the Revised Estimates of 1886-87 and the Estimates of 1887-88 has been met by transfer to loan charges against the Famine Insurance Grant the sum of £1,049,400 and £1,248,000 in those two years respectively.

The net charge in 1886-87, on account of Upper Burma Civil and Military Expenditure, is £1,741,400 and in 1887-88 £1,770,500.

The ultimate gain to the Imperial Government on the Provincial Contracts is £640,100, the gain on the estimates for the ensuing year, however, being £490,000 only. The recommendations of the Finance Committee, in other directions cover a very wide field, and must for some considerable time continue to occupy the attention of the Government.

The Income Tax receipts in the Revised Estimates of 1886-87 are put at £1,348,100 against £1,458,100 in the Budget of that year; the difference being mainly due to a decision to assess the Income Tax on the surplus profits of Guaranteed Railways, and not on their net earnings. As the share of the Government in the Income Tax on the net earnings of the Guaranteed and State Railways is £131,980, the loss on account of Income Tax is merely nominal to this extent. The estimate for the next year on account of Income Tax is £1,406,000.

The net loss to the State on State and Guaranteed Railways in the Revised Estimates of 1886-87 is £1,177,900 and in the Budget Estimates of 1887-88 £1,383,700.

The Army Estimates for 1887-88, including Burma, amount to £19,197,000 against £19,070,600 in the Revised Estimates of the preceding year. £344,984 are included in the Estimates of 1887-88 as increased expenditure on account of additions to the strength of the Army.

The Opium prospects are good, but as they are not so exceptional as last year, the expenditure on account of opium has been reduced from £2,785,300 in the Revised Estimates to £2,506,100 in the Budget Estimates for next year. The reserve at the close of 1886-87 is expected to stand at 36,705 chests. The price during the ensuing year has been taken at Rs. 1,100 per chest. 4,750 chests will be sold each month during 1887-88; the amount to be sold in the first three months of 1887-88 will be notified hereafter.

The additional charge in the Revised Estimates of 1886-87 on account of Exchange is £474,600. Exchange for 1887-88 has been taken at 17½d.

The consumption of Salt has increased, in the eleven months ending with January 31, 1887, by 941,000 maunds.

The import, both of gold and silver, has decreased, the former having fallen to £135,84,360 for 10 months of 1886-87 from £27,629,347 in 1885-86 (12 months), £46,719,365 in 1884-85 (12 months), and £54,625,051 in 1883-84 (12 months).

The District and Post Office Savings Banks have been amalgamated. The total balances in Savings Banks of all classes on 31st March 1886 was £5,081,183.

The Post Office Life Insurance Scheme makes progress.

The opening balance of 1887-88 in India is expected to be £13,016,578 and the closing balance £11,104,678. Provision has been made for drawings by the Secretary of State to the amount of £16,250,000 (true sterling).

The annual loan for Public Works will amount to 5½ crores, and will be raised in India. Of this amount 3½ will be obtained by the investment in Government securities, at the desire of the Gwalior Council of Regency, of treasure hoarded by the late Maharaja Scindiah. No Public Works Sterling Loan will be raised this year.

A. COLVIN.

March 26, 1887.

Weather Review of India for the Week ending 26th March 1887.

Except in the south of the Peninsula where the weather has been unsettled, the prevailing conditions have been on the whole similar to those of the preceding week.

High pressures in the Western Punjab, Sind and Rajputana, continued until the 23rd, when a rapid fall set in and increased during the next two days; resulting in the Punjab in a depression, at first slight, but afterwards developing to a well marked disturbance. This disturbance was accompanied by a cyclonic circulation of the winds throughout North-Western India, and slightly increased the amount of cloud, but brought no rain. In the Peninsula the barometric change was of the opposite character. On the 20th and 21st Deccan was the seat of the lowest pressure, but on the 22nd a brisk fall of the barometer accompanied by north-easterly winds and heavy rain took place in the extreme south. After the 22nd, the barometer rose briskly in the Peninsula and reached its highest about the same time that it reached its lowest in the Punjab. In Western Bengal and the Central Provinces there were indications at the close of the week of the formation of a small subsidiary barometric depression. Otherwise the barometric changes elsewhere call for little remark.

In the Karnatic the temperature was lower than in the preceding week, but with this exception, it has been everywhere higher. In the Western Punjab the rise amounted to 10° and in Sind to 7° . In general, and excepting a slight break on the 23rd, the temperature has steadily risen during the week and at its close the 10 A. M. readings exceeded that at the beginning—

At Mooltan	by 7° .
" Lahore	" 8
" Lucknow	" 6
" Allahabad	" 8°
" Gaya	" 12
" Jubbulpore	" 2

At Jypore	by 5° .
" Kurachee	" 1°
" Secunderabad	" 2°
" Bellary	" 3°
" Cuddipa	" 1°
" Madras	" 0°

The highest reading recorded during the week was 108° at Masulipatam, *viz.*, on the 26th. This was 1° higher than any recorded during the preceding seven days.

Notwithstanding the cyclonic circulation and rather cloudy weather, which prevailed at the close of the week in the North-West, the air all over Northern and Central India was much drier than usual. To the Peninsula, however, the storm, in the extreme south on the 22nd and 23rd, brought much moisture and the relative humidity of the Karnatic, Mysore, the Deccan and Konkan exceeded the normal.

There has been more rain in the past seven days than for many weeks past, but almost the whole fell in Southern India, to the south of a line running from Belgaum south-eastward to Madras. South of this limit there was an average of two wet days at most stations. The largest total was $3\frac{1}{2}$ inches at Negapatam, the smallest $0\cdot02$ inch at Mercara.

The rainfall statement given below shows that the fall of the season is still deficient over Northern India except at one or two stations. At Peshawar, Rawalpindi, and Lahore it is serious.

Stations.	Actual rainfall since 1st November 1886.	Average rainfall since 1st November 1886.	Difference.
Multan	0'64	1'30	—0'66
Peshawar	1'79	5'30	—3'51
Murree	8'69	8'89	—0'20
Rawalpindi	4'79	7'06	—3'17
Lahore	0'61	3'00	—2'39
Simla	8'50	7'14	+1'36
Delhi	2'40	2'63	—0'23
Mussorie	8'78	9'04	—0'26
Roorkee	2'99	5'16	—2'17

Stations.	Actual rainfall since 1st Novem- ber 1886.	Average rainfall since 1st November 1886.	Difference.
Meerut	2'68	3 17	—0'49
Bareilly	3'30	2 89	+0'41
Agra	1'06	1'44	—0'38
Lucknow	1 04	1'46	—0'42
Allahabad	4'31	1'55	+2'76
Darjeeling	3 40	3'35	+0'05
Calcutta	1'60	3'65	—2'05

The table of barometric, thermometric, and humidity anomalies shows that pressure has been below the average of the month throughout India. In the west of the Punjab, in Behar, the Berars, Sind, Guzerat and the Deccan, the deficiency is about a twentieth of an inch, and is less in some parts of the North-Western Provinces and Bengal. Temperature exceeds the general average of the month except in Northern Bengal and the Peninsula, where it is somewhat below the average. The humidity varies in the opposite direction, the means being above the average over the Peninsula and below it elsewhere.

Districts.	Difference of Barometer from mean, March 10th to 6th	Difference of Temperature from mean, March 10th to 6th	Difference of Humidity from mean, March 10th to 6th.	Total Rainfall in week, March 10th to 20th

W. L. DALLAS,

Simla, the 30th March 1887.

for Meteorological Reporter to the Govt. of India.

The following extract from a letter of the Superintendent of the Kailang Observatory, Lahoul, shows that the winter snow-fall has so far been light, to the north of the Rotang Pass --

"Since the 1st October 1886 up to this (7th March) we have had scarcely 5 feet of snow, while during the same period the year before (1st October 1885 to 7th March 1886) about 8½ feet had fallen. At present the southern hill slopes in the neighbourhood of Kailang to the height of about 12,500 feet are completely free of snow and so are most of the fields. The station diary shows that fifteen years ago the winter (from 1872-73) was almost exactly the same. Then March and April were nearly dry months, but in May and June heavy falls of snow occurred."

Deputy Secretary to the Government of India.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 7th APRIL, 1887

GENERAL REMARKS.—The rainfall has been general throughout Madras, Bengal, and Assam. Slight showers have also occurred in parts of the North-Western Provinces and Oudh, the Central Provinces, Central India, Mysore and Coorg. No rain fell in Bombay, the Punjab, and Berar during the week.

No report has been received from Burma for the week under notice.

The *rabi* harvest is in progress in Bombay, Bengal, the North-Western Provinces and Oudh, the Central Provinces, and in Rajputana and Central India. The crop have been injured by insects and frost in two districts of Bombay, and in the Punjab the crops throughout the Province have suffered for want of rain and the prospects are unfavourable. With these exceptions, the *rabi* harvest promises fairly.

In Madras, Mysore and Coorg the standing crops are good, but rain is wanted in some parts.

The *rice* harvest gives a yield below average in Madras. In Bengal the spring rice is being reaped, and the early rice, jute, and indigo are being sown. The sowing of the early rice in Assam is in progress.

Opium collection has been nearly completed in Bengal and the North Western Provinces and Oudh, and is going on in Central India.

Cotton in one district in Madras has been affected by disease. The harvest yield is below average.

Small-pox and fever are still prevalent in Madras, Bombay, the Central Provinces, and Mysore and Coorg. Cholera exists in Bengal and the North-Western Provinces and Oudh. Generally the public health is good.

Cattle-disease is reported in Madras, Bombay and Mysore.

Prices are falling in two districts of the Punjab fluctuating in the North Western Provinces and Oudh, and rising in two districts of the Central Provinces elsewhere they are stationary.

Presidency or Province and District	Rainfall for week under report	State of agricultural prospects
Madras—(April 6th)		
Bellary	Average 65	Standing crops generally fair but cotton affected by disease in one taluk. Heavy rain to yield average crops of wheat, rice, &c. Fever in one and cattle-disease in one taluk.
Kurnool		Standing crop good. Harvest cotton yield below average. Small-pox in three and cattle-disease in two taluks.
Ganjam	Average for week since revised, 14, this week, 47	Small-pox in three and fever in five divisions and cattle-disease in one.
Kistna	Average 61	Standing crops generally good. Cholera decreasing in five and cattle-disease in three taluks.
Chingleput (Madras)	Average 69	Standing crops but wheat withered to some extent for want of rain. Harvest paddy, autumn wheat, &c. Small-pox in one and cattle-disease decreasing in two taluks.
Comblator	Average 45	Standing crops generally good. Harvest paddy, <i>cholum</i> and <i>ragi</i> cotton above average. Fever in two and cattle-disease in three taluks.
Tanjore	Average 64	Standing crops generally good, but in parts of three taluks in want of rain. Harvest wet and dry season, outturn up to average.
Madura	Average last week since revised, 154, this week, 61	Outturn of crops, where harvested below average. Small-pox in two taluks. Cattle-disease decreasing in one.
Milabar	Average 61	Third crop cultivation progressing in one taluk. Fever in two and slight small-pox in one taluk.
Travancore		Preparation for next cultivation continuing. Small-pox and fever in places.
<i>General Remarks</i> —General prospects fair		
Bombay—(April 6th)		
Karachi	Nil	River at Kotri on 4th, 4 feet 10 inches against 7 feet 11 inches on same date last year. <i>Rabi</i> harvesting completed in Sujawal taluka. <i>Rabi</i> crops injured by crickets in Mirpur. But no and by <i>mahl</i> insect in Kotri taluka. Fever in six and cattle-disease in two talukas. A case of small-pox in Ghoribari taluka. Wheat, red rice, and <i>bari</i> in Karachi 22, 23 and 32 and in Sehwan 25, 33 and 40 pounds per rupee, respectively.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Bombay—contd.		
Hyderabad	<i>Nil</i>	<i>Rabi</i> crops damaged by frost in Hyderabad, Bago Taluk, and Kandiaro talukas. <i>Rabi</i> harvest continues in nine talukas. Fever in five, small-pox in one, and cattle-disease in two talukas. River at Kotri on 4th, 4 feet 10 inches against 7 feet 11 inches on same date last year. Wheat 22, <i>bajri</i> 38, <i>jowari</i> 40, white rice 20 and red rice 30 pounds per rupee.
Ahmedabad	<i>Nil</i>	Reaping of <i>rabi</i> crops continues. Public health good. Wheat 29 and <i>bajri</i> 30 pounds per rupee.
Baroda	<i>Nil</i>	Public health good. Crops in good condition. <i>Bajri</i> 29, wheat 19 and rice 23 pounds per rupee.
Surat	<i>Nil</i>	<i>Rabi</i> reaping continues. Fever and small-pox in Bardoli taluka. <i>Jowari</i> 39 and <i>ugli</i> 44 pounds per rupee.
Nasik	<i>Nil</i>	Public health generally good. Small-pox in Igatpuri. Wheat 28½, <i>bajri</i> 36½, and rice 20½ pounds per rupee.
Colaba (Bombay) . .	<i>Nil</i>	Abnormal temperature 1° cool on 30th, 2° cool on 31st, 1° cool on 1st, and <i>nil</i> from 2nd to 5th. Vapour in air excessive on 2nd and 3rd. Normal on all other days. Abnormal wind southerly on 30th, 2nd, and 3rd. Northerly on 5th. Wind normal on all other days.
Poona	<i>Nil</i>	Reaping completed. Threshing of <i>jowari</i> and wheat in progress in Indapur and Bhimthari talukas. Public health generally good. Slight cattle-disease in Indapur and Haveli talukas. <i>Bajri</i> 44 and <i>jowari</i> 56 pounds in the district, and <i>bajri</i> 37 and <i>jowari</i> 43 pounds per rupee in Poona city.
Ahmednagar	<i>Nil</i>	Health good. <i>Bajri</i> 56 and <i>jowari</i> 65 pounds per rupee.
Sholapur	<i>Nil</i>	Lands being prepared for <i>kharrif</i> crops. Public health good. <i>Jowari</i> 63½ and <i>bajri</i> 55½ pounds per rupee.
Dharwar	<i>Nil</i>	Harvesting of wheat and gram completed and that of late <i>jowari</i> in progress. Scarcity of fodder in Nawalgund and of drinking-water in Gadag, Karajgi, and Kod talukas. Public health generally good. Rice 25 and <i>jowari</i> 59½ pounds per rupee.
Kanara	<i>Nil</i>	Second rice crop harvest and sugarcane planting continue. Preparing and manuring ground for monsoon crop. Public health good. Slight cattle-disease in Siddapur. Weather hot. Common rice in Karwar and district average 13 seers per rupee.
Rajkot	<i>Nil</i>	Weather hot. Health generally good. Measles in Rajkot, Morvi, Virpur, Godka, Sagani, Padhra, Bagasra, Balkha, and Manakwara. Cattle-disease called <i>kharrva</i> or hoof-disease in the villages of Porbandar and Vadia. Wheat 25, <i>bajri</i> 25, and <i>jowari</i> 30 pounds per rupee.
General Remarks. —Reaping of <i>rabi</i> crops still progressing in some districts. Standing crops injured by insects in parts of Karachi and by frost in parts of Hyderabad. Fever in parts of eight, cattle-disease in parts of ten and small-pox in parts of five districts.		
Bengal—(April 6th)		
Chittagong (April 5th)	0.76	Weather hot. Prospects of crops fair. Public health good, notwithstanding a few sporadic cases of cholera.
Dacca	1.80	Sowing of <i>aus</i> paddy going on. Prospects good. <i>Boro</i> paddy flowering. Chillies and tobacco doing well. Public health good.
24-Pergunnahs (Calcutta).	3.31	Prospects favourable. No crops on the ground, except sugarcane, which promises well. Lands being ploughed for cultivation of early crops. Public health generally good, but a few cases of cholera reported.
Khoolna	2.85	Weather getting warm. Ploughing continues. <i>Boro</i> paddy coming on well. Public health good.
Moorshedabad	3.51	Rain has kept the air cool, but has somewhat injured <i>rabi</i> crops still on the ground. Ploughing for <i>aus</i> rice commenced.
Pubna	1.88	Prospects of crops fair. Some isolated cases of cholera.
Dinapore	2.04	Rain on one day almost all over the district. Cultivation for <i>bhadai</i> crops going on. Cholera reported from some stations and cattle-disease from two.
Rungpore	1.82	Rain has done much good, and prospects of crops greatly improved. Tobacco being cut and <i>aus</i> and jute being sown. Sadr station sickly.
Midnapore	1.27	Rain general all over the district. Tillage in active progress. Prospects good. Public health good.
Burdwan	4.22	Prospects good. Public health fair.
Bhagulpore	0.72	<i>Rabi</i> harvest in progress. Wheat is the worst of the crops. Castor seed plant not doing well. Sporadic cholera in north.
Purneah	0.60	All crops doing well. Ploughing in progress. Rivers low. Health of people and cattle fair.
Durbhanga	0.15	<i>Rabi</i> harvest continues. Some cases of cholera reported from head-quarters; public health otherwise generally good.
Chumparun	0.22	<i>Rabi</i> crops being cut, good outturn expected. Opium collection and indigo sowing in progress. Prices stationary. Cholera reported from the interior of Bettiah sub-division.
Patna	0.42	<i>Rabi</i> crops still being reaped. New gram and barley being brought into the market. Castor seeds being gathered. Collection of opium finished, with favourable outturn. Public health good.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Bengal—contd.		
Gya Hazareebagh	0 38 Nil	Rabi being harvested. Fever reported. Harvesting of rabi nearly completed, outturn fair. Opium all gathered. Mango prospects bad. Mahua dropping. Public health good.
Cuttack	0 14	Dalu rice being reaped. Ploughing commenced. Public health generally good.
		General Remarks. —Rain with high winds over the whole Province. Rain very heavy in Central and South-Western Bengal. Ploughing well forward, and sowings of early rice, jute and indigo are proceeding. Boro rice being reaped in places. Rabi harvest generally gives a good outturn. Opium nearly all gathered in. Mahua has begun to fall. General health continues fair.
N.-W. Provinces and Oudh—(April 6th)		
Benares (April 5th)	.	Weather seasonable. Rabi crops nearly all cut, outturn fair. Supplies plentiful. Prices generally fallen, owing to imports of new grain. Rather fewer cases of cholera, otherwise public health good. There is no cattle-disease in the district.
Ballia (" 4th)	.	Weather somewhat cloudy at times. Strong easterly wind. Harvesting operations progressing. Supplies sufficient. General health good.
Gorakhpore (" ")	.	Weather clear. Harvesting in full progress. Slight rise in prices. Health fair.
Fyzabad (" 5th)	.	Weather seasonable. Harvesting of rabi and opium collection completed. Supplies sufficient. Prices high. Health good.
Lucknow (" 4th)	Slight rain in two tahsils	Weather hot during the day, but slightly cold at night. Threshing and winnowing in progress. Opium collection continues. Markets well supplied. Prices steady. No cattle-disease.
Rae Bareilly (" ")	.	Weather somewhat cloudy. Harvesting of rabi crops in progress. Supplies sufficient. Price falling. Cholera and small-pox about two tahsils, but not in epidemic form.
Partabgarh (" 5th)	10 to 40 on the 30th	West winds. Clear weather. Harvesting of the rabi crops is completed, and the market appears to be well stocked with grain. Prices fluctuating. Health generally good.
Allahabad (" ")	Slight rain in four tahsils	A little hail in places, but not enough to do much harm. Weather unusually cool. Crop being harvested. Prospects good. Markets well supplied. Prices show a slight fall. Sporadic cholera still continues, otherwise health fair.
Cawnpore (" ")	Rain in three tahsils from 20 to 1'00	Sky cloudy at times. Slight hail reported in two tahsils, but injury very little. Harvesting operations in progress. Slight fall in prices.
Farakhabad (" ")	Slight rain and hail on 29th	Little injury to standing crops in two tahsils. Reaping nearly completed. Threshing in progress. Health fair. No cattle-disease.
Sitapur (" ")	.	The cutting of crops is in progress, the outturn is said to be slight. Collection of poppy drug is nearly over, the drug collected is reported of good quality, but light in amount.
Bareilly (" ")	.	Harvest proceeding rapidly. Prices slightly lower. Health of cattle good.
Banda (" ")	Some hail on 29th	Weather warm during the day and cool at night. Rabi harvest in progress. Prices rising. Sixty cases of cholera in two tahsils. General condition of people good. Cattle-disease in five villages.
Kumaon (" ")	.	Weather fine. Rabi crops done well, but require more rain. Prices stationary. Cholera still lingering in Kali Kumaon. Cattle disease on decrease.
Agra (" 4th)	Nil	Rabi being harvested. Prices steady. Health good.
Jhansi (" ")	Slight rain at Sadr on 29th	Harvesting and threshing in progress. Prices steady. A few cases of small-pox. Condition of cattle good.
Meerut (" 5th)	Nil	Hot west winds. Nights still cool. Rabi harvest in full progress. Prospects fair. Prices a little lower. Health good.
		General Remarks. Rabi harvesting continues. Prospects good and markets well supplied. Slight rain and hail in a few districts. With the exception of cholera and small-pox in some places, the public health is good.
Punjab—(April 6th)		
Delhi (April 5th)	.	Health good. Prices fluctuating. Rabi expected to yield below average.
Hissar	.	Health good. Prices high, but stationary. Rabi yield a failure, except on irrigated land.
Umballa	.	Health good. Prices stationary. Rabi yield bad and below average.
Jullundur	.	Health good. Prices high. Rabi prospects indifferent.
Amritsar	.	Health good. Prices stationary. Rabi average.
Sialkot	.	Health good. Prices stationary. Rabi prospects unimproved.
Ferozepore	.	Health good. Prices stationary. Rabi crops being reaped.
Lahore	.	Health good. Prices stationary. Rabi prospects bad.

Presidency or Province and District.	Rainfall for week under report	State of agricultural prospects.
Punjab—contd		
Rawalpindi	.	Health good Prices rising <i>Rabi</i> below average
Multan	.	Health good Price falling. <i>Rabi</i> crops on land irrigated from wells and Sidhnai canal excellent, elsewhere withering
Dera Ismail Khan	.	Health good Price rising <i>Rabi</i> crops suffering for want of rain
Peshawar	.	Health good Prices rising. <i>Rabi</i> prospects very poor.
Shahpur	.	Health good Prices high, but falling <i>Rabi</i> crops withering for want of rain
		<i>General Remarks</i> —No rain fell last week, and crop prospects are generally unfavourable throughout the Province Health good Prices falling in the Multan and Shahpur districts, elsewhere high and stationary
Central Provinces— (April 6th)		
Nagpur		Weather cloudy, occasional dust-storms Threshing almost completed Fever, small-pox and cattle-disease in places Prices steady
Jubbulpore		Weather cloudy Harvesting progressing, outturn reported not good Health good Price high
Saugor	Sprinkling of rain	Early part of week cloudy, since clear and warm <i>Rabi</i> harvest continue Health good Prices unchanged
Sconi	02	Weather cloudy and hot <i>Rabi</i> threshing in progress <i>Khairif</i> ploughing commenced 32 cases of small-pox, 2 deaths Prices falling
Hoshangabad		Weather warm <i>Rabi</i> harvest almost completed Fever in places Prices stationary
Khandwa		Weather warm Threshing continues 1-7 cases of small-pox, 9 deaths Price steady
Raipur	34	Threshing continue Small-pox and cattle disease in places Prices stationary Occasional storms
Bilaspur		Weather cloudy Prospects favourable Harvesting continues Sugarcane doing well Cattle-disease prevalent Prices stationary

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, APRIL 9, 1887

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, &c

GAZETTE OF INDIA.

NOTICE.

The 19th March 1887.

From the 2nd April next, till further notice, Parts I, IV, V, and VI of the *Gazette of India*, and the Weather and Crop Reports, will be published at Simla. After the 26th instant, all Notifications and other matter intended for publication in those Parts, should be addressed to the Officiating Publisher at Simla.

Revised rates from 1st January, 1887.

	Per annum.
	R s p
Subscription for <i>Gazette</i> and Supplement	15 0 0
Postage	5 8 0
Subscription for Parts I, II, and III, or any of them.	6 0 0
Postage	2 8 0
Subscription for Parts IV, V, and VI, or any of them.	4 0 0
Postage	2 8 0
Subscription for Supplement only	5 0 0
Postage	0 0 0
Subscription for Supplement and Part VI	6 0 0
Postage	2 0 0
For a single copy of the <i>Gazette</i> and Supplement	0 8 0
For a single copy of Parts I, II, and III, or IV, V, and VI, or Supplement	0 4 0
Postage on single copies varies according to weight.	

By order of Government, all subscriptions must be paid *in advance*.

Applications for the supply of the *Gazette* on the public service should be addressed to the Home Department.

Complaints regarding non-receipt of any number of the *Gazette* should be forwarded within a week after the date on which it is due.

Attention is invited to the Circular Memo of the Government of India, Home Department, of February 1870, directing that all Notifications or other matter intended for insertion in the *Gazette of India* should be delivered at the Publisher's Office not later than 2 P.M. on Friday afternoon, and that matter sent after that hour must be certified to be extremely urgent in order to ensure its appearance in the next day's *Gazette*.

Matter intended for publication in the Supplement should reach the Press not later than Thursday.

E. J. DEAN,

Publisher, Gazette of India.

SURVEY OF INDIA DEPARTMENT— TRIGONOMETRICAL BRANCH.

NOTIFICATION

Dohra Dún, the 31st March, 1887

No. 3.—Mr. J. Bond, Surveyor, 4th grade, is granted privilege leave for one month and fourteen days under the provisions of Section 138, Chapter X of the Civil Leave Code, with effect from the noon of the 5th February, 1887.

C. T. HAIG, Colonel, R.E.,

*Offg. Deputy Surveyor General,
In charge Trigonometrical Surveys.*

SURVEY OF INDIA.

NOTIFICATION.

Calcutta, the 1st April, 1887.

The following rules and regulations for the issue and receipt of instruments from the Calcutta Mathematical Instrument Office, and revised Priced List of Instruments, are published for the information and guidance of Public Officers.

By Order,

D. MACDONALD, Colonel, S.C.,

Assistant Surveyor-General,

In charge Surveyor General's Office.

Rules and Regulations of the Mathematical Instrument Office, Survey of India Department.

The Mathematical Instrument Office, Survey of India Department, supplies new and serviceable instruments, &c., and repairs, examines and adjusts, &c., old ones, on book-debit, for all branches of the public service. *As a general rule new instruments are not supplied if serviceable instruments of the class required are available for issue.*

2. All applications for instruments on the public service must be submitted on the following indent form, *which is not required in duplicate*, the specification of instruments and particular purposes for which required being made as full as possible. Indent forms may be had on application being made to the Mathematical Instrument Office

Indent No. *on the Calcutta Mathematical Instrument Office, S. I. Dept., Calcutta, for*
Instruments required for the use of *dated* *188*

Description of Instruments.	Quantity or number in use or in store.	Quantity or number indented for.	Purpose for which required	Average cost as per printed list.		How and where to be despatched.
				R	a	
						The address which should be affixed to the parcels or cases to be distinctly given in full. Abbreviations sometimes lead to mistakes.

I do hereby certify that the articles specified in this indent are indispensably necessary for the purposes set forth, according to the best of my knowledge and belief, after the most careful examination.

Recommended.

Countersignature of approving authority.

Signature of Indenting Officer, with designation of appointment in full.

3 All indents must be duly approved and countersigned by the heads of departments, or of the Government under which indenting officers may be serving, before they can be supplied, *vis. :-*

Survey of India Dept., Trig. Branch, by Deputy Surveyor General	} or by Surveyor General.

Other Departments, " Heads of Departments.	

and they should be addressed to the *Officer in charge Government Mathematical Instrument Office, No. 9 Part Street, Calcutta.*

4. The mode of transit, and address, or station to which the instruments are to be consigned, must invariably be specified on indents in the proper column. Indents should not be accompanied with forwarding letters, unless more explanation is necessary than can be given on the face of the indent.

5. All officers, to whom instruments and other stores are issued on public service, have to account for them to the officer to whom their accounts are rendered, in such manner as may be by him directed.

6. All instruments, and component parts of instruments, when no longer required, should be at once returned to the Mathematical Instrument Office, *except when the Officer in charge considers that their transit charges may nearly equal, or exceed, their actual value as material*; in which case, he should refer to the Officer in charge Mathematical Instrument Office for instructions as to their disposal. No unused instruments should be allowed to accumulate in any office, as, if returned, they can be utilised for re-issue.

7. When instruments are considered unserviceable by any officer, a survey should be held on them by a committee of Government officers, whose report should be forwarded to the Assistant Surveyor General, in charge of Mathematical Instrument Office, who will issue instructions as to which of the articles are to be forwarded to the depôt, Calcutta, and which should be sold by public auction to the best advantage. The proceeds of all articles sold by auction must be deposited in the nearest treasury, and the treasury receipt, with auction account sale, and copy of the committee report, should be attached to the next cash account current, in which the transaction should appear both on the debit and credit sides.

8. When instruments are received for final deposit in store, a valuation receipt will be granted for them by the Officer in charge Mathematical Instrument Office, to enable officers, from whom received, to remove them from their debit, by forwarding the receipt to the Comptroller of India Treasuries, with the half-yearly or other returns of stores submitted to him.

9. All Government instruments, &c., requiring repair, &c., should be forwarded with an official letter or repair indent.

10. All instruments, &c., received from England and issued on book-debit on the public service, will be charged at their invoice cost, *plus* a percentage to cover freight, insurance, loss by exchange, &c.

11. Instruments made in the workshops, and those purchased locally for issue on book-debit will be charged at cost rates. Instruments purchased locally for officers not entitled to receive them on book-debit will be charged at cost price *plus* 5 to 10 per cent. for examining, testing, and incidental charges.

12. Instruments, when they can be spared, are sometimes sold to officers in the service of Government on payment of their value, *plus* from 5 to 10 per cent.; and instruments, the private property of officers, are repaired, if necessary, on like terms. In such cases the amount must be remitted to the Officer in charge Mathematical Instrument Office, before the instruments can be despatched.

13. Instruments returned into store will be valued according to their condition on arrival at the Mathematical Instrument Office.

14. It should be distinctly stated in the forwarding letters, or on the face of delivery vouchers advising despatch of consignments to the Mathematical Instrument Office, whether the articles forwarded are "for repair" or "for deposit."

15. All consignments for the Mathematical Instrument Office should be forwarded "*prepaid*."

16. In the event of instruments indented for by Government officers not being available from the Mathematical Instrument Office stock, they can, if urgently required, be usually purchased in the local market. In such cases, however, the Government have ruled as follows:— "When instruments are purchased by the Mathematical Instrument Office in the local market at the request of any Department, they shall be paid for by the Department, concerned by Remittance Transfer Receipt on presentation of the Bills (letter No. 430 S., dated 29th September 1883, from Revenue and Agricultural Department, to Surveyor General of India.)"

17. Officers and Departments entitled to issue of instruments on *book-debit* should never remit the price in cash or by Transfer Receipt, unless especially asked to do so by the Officer in charge Mathematical Instrument Office. The transfer of issues from book-debit to cash, and *vice versa*, causes great trouble in the adjustment of the accounts.

18. It is particularly requested that the size and description of instruments, length of scales, how divided, and purposes for which required, and generally any information, which will guide this Office in knowing, without further reference, the exact wants of the indenting officer, be entered, as far as possible, on the face of the indent, instead of in covering letters.

19. The following list shows the nomenclature of the various descriptions of instruments ordinarily kept in store in this Office for issue on public service. This nomenclature should be strictly adhered to in all indents.

20. To enable the indenting officer, as well as the officer who countersigns and finally passes an indent, to know the cost involved thereby, the average ordinary price of each description of instrument is also given in the annexed list. Indenting officers must invariably enter the value of all instruments required by them in the column of the indent allotted for that purpose.

21. The supply should be regulated, not according to what an officer would like to have, but by what is absolutely necessary.

D. MACDONALD, Colonel, S.C.,

Assistant Surveyor General,
In charge M. I. O., Survey of India Dept.

* Stands for these instruments are rated separately on page 168.

† Size to be stated on the face of the indent.

‡ Many scales require a careful description. If there is the least doubt as to the correct denomination of a scale, the indenting officer should specify the number of divisions and sub-divisions in a given measurement, and the method of numbering, for instance 12" divided into 60 parts, numbered successively from 1 to 60, each part to be sub-divided into two.

B SIMPSON, M.D.,

Surgeon General with the Govt of India

TELEGRAPH DEPARTMENT.

NOTIFICATION.

Simla, the 31st March, 1887

No. 27.—The ten days' extension of leave sanctioned in Telegraph Department Gazette Notification No. 20 dated 28th January, 1887, to Mr F. T. Rickards Assistant Superintendent, 1st grade, is hereby cancelled.

A J. LEPPOC-CAPPEL,

Director-General of Telegraphs in India

AGENT TO THE GOVERNOR GENERAL IN BALUCHISTAN.

NOTIFICATION.

Quetta, the 1st April, 1887.

Under Section 69 of the Indian Registration Act (III of 1877), as extended to the Cantonment and Town of Quetta, and with reference to paragraph (1) of the Notification cited marginally,

By the Government of India in the Foreign Department, No. 593 E., dated the 11th March, 1887, the Agent to the Governor-General in Baluchistan, with the approval of the

Governor-General in Council, directs that the rules made under Section 69 of the said Act, which were published in the *Punjab Gazette* of the 16th December, 1880, shall, so far as they may be applicable, be deemed to be in force in the Cantonment and Town of Quetta, with

effect from the 1st April, 1887, and subject to the modifications specified below, namely:—

(1) For Rule 8 the following shall be read—

"8. With reference to Section 19 of the Act it is declared that the languages deemed to be commonly in use in the Cantonment and Town of Quetta are English, Urdu, and Persian"

(2) Rule 9 shall be omitted

(3) In Rule 27, for the words "Chief Court for the Civil Courts of the Province," the words "Agent to the Governor-General in Baluchistan" shall be read.

(4) Rule 66 shall be omitted

(5) In Rule 67, after the word "Urdu" the words 'or Persian' shall be read.

By Order,

L. MACIVOR *Captain*

1st Asst to the Govt. Genl's Agent in Baluchistan.

AGENT TO THE GOVERNOR GENERAL, BALUCHISTAN, P. W. D.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such Official Papers and information as the Government of India may deem to be of interest to the Public, not men as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be introduced in the SUPPLEMENT. For all Orders and Notifications the body of the GAZETTE must be looked to.

*Yearly Examination for Fourth Grade
Accountants.*

The yearly examination of candidates for the fourth Grade of Accountant, Public Works Department, will be held at the Government Engineering College, Secbpur, on Monday and Tuesday, June 6th and 7th, 1887, at 10-30 A.M.

Vide Rules below.

SUBJECTS.

	Full marks.	Minimum passing marks.
Writing (neatness, clearness and rapidity)	100	50
Dictation (spelling, punctuation, &c.)	100	50
Arithmetic (whole course)	240	160
Mensuration (a) (whole book)	60	30
Book-keeping (b) (mercantile)	100	50
TOTAL	600	400

Minimum required in all papers collectively.

(a) Todhunter's Mensuration for Beginners.

(b) 1. "Book-keeping" by Ball and Hamilton

2. "Book-keeping" by Double and Single Entry, by W. Inglis (Chambers' Educational Course).

The marks gained by candidates who fail will not be published.

1. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam and Burma only. Candidates will not be examined in any of the Calcutta Offices.

2. Candidates not in Government employ who wish to be examined at the College must forward their applications direct to the Principal; those employed in Government Offices, through the head of their office, who will forward the application to the Principal. All applications must reach the Principal before the 7th May, 1887.

3. The candidate should apply to an Examiner of Public Works Accounts not later than 7th May, 1887, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must be forwarded by the candidate not direct to the Principal, but through the Examiner.

EXAMINER OF MEDICAL AND FUND ACCOUNTS.

The Gazette of India.

No. 16.]

CALCUTTA, SATURDAY, APRIL 16, 1887.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

Weather Review of India for the Week ending 2nd April, 1887.

During the first five days of the present week, a large part of Northern India was visited by very unsettled weather occasioned by two barometric depressions, one affecting the Punjab and neighbouring parts of North-Western India, the second lying over the Central Provinces and giving rise to unsettled weather in Bengal.

The cyclonic storm which had formed over the Punjab at the close of the preceding week and which, up to that time, had been comparatively slight and had but little affected the weather of that Province, developed during the next three days. On Sunday the centre lay apparently to the north-west of Sirsa, on Monday the lowest reading was reported from Lahore, and on Tuesday, from Sialkot. On Sunday, Monday, and Tuesday, duststorms accompanied by strong winds were experienced in most parts of the Punjab, but the only rainfall was in the hills, where a thunderstorm occurred on the afternoon of Tuesday.

The disturbance in the Central Provinces was slighter. It produced southerly winds in Lower Bengal and easterly winds in North Bengal and far up the Gangetic plain. The former brought up much moisture and heavy rain fell in Bengal Proper and snow on the Sikkim-Himalaya and slighter showers in Behar and the North-Western Provinces.

On Wednesday, March 30th, a rapid barometric rise occurred over the whole of Northern and Central India, and continued with a slight interruption until the close of the week.

In the Peninsula, except just at the close of the week, when a comparatively brisk rise took place, the barometer was fairly steady throughout, and the weather calls for little remark, north-westerly winds with clear or nearly clear skies prevailing on the western side and southerly to south-easterly winds with rather cloudy weather on the eastern side.

The temperature in the Karnatic was higher than in the preceding week, but was lower in all other places. In North-Western India, Behar, North Bengal, Assam, Lower Bengal and the Berars, the mean readings of the week are from 4° to 5° below those of the previous week. The lowest temperatures occurred generally on the 29th or 30th in Northern India, on which dates the following differences from the normal temperature of the month were recorded :—

Murree	— 5°	Silchar	— 9°
Lahore (29th)	— 8°	Patna	—10°
Simla	— 7°	Dacca	—14°
Lucknow (29th)	— 9°	Chittagong	—13°
Benares (29th)	—13°	Calcutta	—11°

In Sind, a warm period occurred at the beginning of the week and the highest recorded temperature was 107° at Jacobabad on the 27th.

The humidity means show that all over North-Western India the amount of moisture in the atmosphere was much below the average. The same, in a modified degree, was the case in Malabar and the Konkan owing to the north-west winds which prevailed there on most days, but in Bengal, Ganjam, and the Karnatic, owing to the southerly winds, the moisture was excessive

The following figures show the difference of the present season's rainfall from the normal .—

Stations	Actual rainfall since 1st November, 1886	Average rainfall since 1st November, 1886.	Difference.
Multan	0·64	1 38	—0·74
Peshawar	1·79	5 63	—3 84
Murree	8 72	9 62	—0 90
Rawalpindi	4·79	8 46	—3 67
Lahore	0 61	3·08	—2·47
Simla	8 72	8·08	+0·64
Delhi	2·40	2·77	—0 37
Mussoorie	8 81	10 73	—1·92
Roorkee	3·04	5·26	—2·22
Meerut	2 68	3 29	—0·61
Bareilly	3 54	3 06	+0·48
Agra	1·13	1·51	—0·38
Lucknow	1·26	1·55	—0·29
Allahabad	4·39	1 59	+2·80
Darjeeling	4·99	4·20	+0·79
Calcutta	4·74	3 85	+0·89

The table of barometric, thermometric and humidity anomalies shows that pressure has been below the average of the month throughout the whole of India, the greatest deficiency being in the Punjab. Temperature has also been below the normal except in the Indus Valley, Gujerat, and the Karnatic, where there has been a slight excess. The humidity differences are less regular, but the principal variations are a deficiency

all over North-Western India, and an excess in the east and centre of the Peninsula and in Bengal. Elsewhere the variations are slight and unimportant.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

Weather Summary of India for the Week ending the 9th April 1887.

Though local disturbances of barometric pressure have caused some sporadic rainfall, the general weather throughout the country has been quiet and settled.

The highest readings of the barometer have been chiefly in Assam and the Eastern Peninsula, and the pressure has been relatively low in the Deccan and some part of North-Western India. The only well marked disturbance during the week was formed between Sutna and Allahabad on the 6th. It caused a fall of the barometer of over one-tenth of an inch at Allahabad and a well defined cyclonic circulation of the wind around that station. There were dust-storms in the neighbourhood of the disturbance (slight rain falling at Sutna) and the sky became more cloudy with a brisk increase of moisture, but the disturbance was only temporary and the weather cleared on the 7th without any important fall of rain.

In the Panjab, and more particularly in the North-Western Himalaya, the weather has been slightly unsettled throughout the week. On the 3rd and 4th it was cloudy, but on the 5th rain fell at Murree, Simla, Chakrata and Mussorie; on the 7th these

showers of rain and hail were repeated and extended to several stations on the neighbouring plains, and by the 9th unsettled showery weather had spread eastward down the Gangetic plain as far as Behar.

Throughout the week the temperature has been changeable. The oscillations have been greatest in Northern and least in Southern India, but even in the latter there have been changes of as much as 5° in the 24 hours. At some stations in the North-West Himalaya, and in Northern and Central India the mean temperature of the week has been from 6° to 12° below the average of the month. The greater part of this deficiency is attributable to the cold and unsettled weather.

At Simla the total rainfall since November 1st is now 1·6 inches above the average. At Delhi, Mussorie, and Roorkee the deficiency has been reduced, but there is an average deficit of nearly 50 % of the total amount at the Panjab plains stations, and of 16 % at the North-West Provinces stations. At Peshawar, Rawalpindi and Lahore the total of the season is only 31, 52 and 20 % respectively of the normal rainfall.

Stations.	Actual rainfall since 1st November, 1886.	Average rainfall since 1st November, 1886.	Difference.
	Ins	Ins	Ins.
Mooltan	0·64	1·41	—0·77
Peshawar	1·79	5·85	—4·06
Murree	9·35	10·62	—1·27
Rawalpindi	4·85	9·25	—4·40
Lahore	0·62	3·14	—2·52
Simla	10·26	8·64	+1·62
Dehli	2·49	2·77	—0·28
Mussorie	8·88	10·73	—1·85
Roorkee	3·91	5·32	—1·41
Meerut	2·76	3·40	—0·64
Bareilly	3·54	3·16	+0·38
Agra	1·13	1·54	—0·41
Lucknow	1·28	1·58	—0·30
Allahabad	4·58	1·61	+2·97
Darjeeling	5·92	5·20	+0·72
Calcutta	4·74	4·22	+0·52

The following table of barometric, thermometric and humidity anomalies shows that pressure has been above the average throughout the whole of India and the Eastern Peninsula. The excess is least (about 0·015 in to 0·025 in.) in Sind and Guzerat on the one hand and the Malabar coast on the other. From these two regions the difference gradually increased and amounts to over one-tenth in Assam and Bengal. The temperature, on the contrary, has been everywhere below the general average. In the Western Panjab, Sind and Assam the depression is less than 1°, but in most other places it is more considerable, and, over the greater part of the North-West Provinces and Behar, exceeds 6°. In the amount of moisture in the atmosphere the variations from the average have been less uniform. In nearly all the peninsular districts and in Sind, Berar and the Central Provinces the mean humidity of the week is above the average, while in Northern India excepting Behar and part of the North-West Provinces the atmosphere has been drier than usual.

Districts.	Difference of Barometer from mean, April 3rd to 9th.	Difference of Temperature from mean, April 3rd to 9th.	Difference of Humidity from mean, April 3rd to 9th.	Total Rainfall in week, April 3rd to 9th.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

Summary of the Weather Report for March 1887.

During a great part of last month, the distribution of pressure over a large part of India and the direction of the wind have been such as are usual at a somewhat later season. Throughout the country the pressure has been much below the normal; the greatest deficiency being in the Panjab; and this province, instead of forming as usual an area of high pressure, has been as a rule the seat of the lowest barometer.

From the 1st to the 4th pressure was lowest in the Panjab and highest over the Peninsula, so that while westerly (N.-W. to S.-W.) winds prevailed generally, the winds were easterly up the Gangetic plain and under the mountains. On the 5th, however, the seat of lowest pressure was transferred to Western Bengal and the usual north-westerly winds prevailed in North-Western India. This lasted two or three days; but on the 8th the previous conditions were restored and east winds blew right up to Peshawar. With some modifications this state of things continued to the 15th. On the 13th, the slight barometric depression in the Panjab became intensified and strong winds accompanied with rain blew at all the more northern stations of the Panjab on the 13th, 14th and 15th. On this last date the barometer rose quickly in the extreme north-west, and up to the 24th the pressure was highest in North-Western India, the normal north-westerly winds again took possession of the Gangetic plain, and easterly winds the central parts of the country. On the 25th pressure again fell in the Panjab and by the 27th, 28th, and 29th a disturbance had developed giving rise to dust-storms and very unsettled weather in all parts of the Panjab and on the N.-W. Himalaya.

In the Peninsula there has been little calling for remark. The barometer has been fairly steady and the weather generally fine with north-westerly and westerly winds on the west and south to south-east winds on the East Coast; but on the 22nd and 23rd the wind shifted to north-east in the south and rather heavy rain fell at several stations in the south of the Peninsula.

The atmosphere has been dry throughout North-Western India but not in Assam, Bengal and a large part of the Peninsula. The distribution of rain has been similar, as will be seen from the following table. In Assam, Bengal and the south of the Peninsula the general average of the month has been exceeded, but in other provinces there has been a deficiency. Over the whole region extending eastward from Sind and Guzerat across Rajputana, the Berars, Khandesh, &c., as far as the south of the Central Provinces, there has been practically no rain. The greatest excess was in Lower Bengal where more than twice the normal amount fell.

SUPPLEMENT No 16

PART I.

Government of India Notifications, Appointments, Promotions, &c.

HOME DEPARTMENT.

NOTIFICATIONS—ESTABLISHMENTS.

Simla, the 15th April, 1887.

No. 136.—The Hon'ble Sir C. U. Aitchison, K.C.S.I., C.I.E., H.D., D.O.I., an Ordinary Member of the Council of the Governor-General of India, reported his departure from Bombay by the *S. S. Ganges*, on the afternoon of the 8th instant, on the leave granted to him under Home Department Notification No. 125, dated the 7th idem.

No. 137.—The Hon'ble Sir Steuart Colvin Bayley, K.C.S.I., C.I.F., received charge of the office of Lieutenant-Governor of the Bengal Division of the Presidency of Fort William from the Hon'ble Sir Augustus Rivers Thompson, K.C.S.I., C.I.E., on the afternoon of the 2nd instant.

MEDICAL.

The 14th April, 1887.

No. 182.—Lala Gokal Chand, Uncovenanted Medical Officer, is reappointed to the Medical charge of the junior grades of the Secretariat Establishments of the Government of India at Simla, with effect from the 11th March, 1887.

The 15th April, 1887

No. 186.—Sir Benjamin Simpson, K.C.I.E., M.D., Surgeon-General and Sanitary Commissioner with the Government of India, has obtained privilege leave of absence for two months and twenty-one days, with effect from the 15th instant, or any subsequent date on which he may avail himself of it.

No. 187.—Deputy Surgeon-General W. Walker, M.D., Inspector-General of Civil Hospitals, North-Western Provinces and Oudh, is appointed to officiate as Surgeon-General and Sanitary Commissioner with the Government of India, during the absence on leave of Surgeon-General Sir Benjamin Simpson, or until further orders.

No. 188.—Brigade Surgeon W. I. Rice, M.D., is appointed to officiate as Inspector-General of Civil Hospitals, North-Western Provinces and Oudh, during the deputation of Deputy Surgeon-General Walker, or until further orders.

JUDICIAL.

The 14th April, 1887.

No. 636.—Under the provisions of Section 4 of Act XVIII of 1884 (The Punjab Courts Act, 1884), the Governor-General in Council is pleased to appoint Mr. C. A. Roe, B.A., C.S., to

officiate as a Judge of the Punjab Chief Court, *vice* Mr. T. W. Smyth, M.A., C.S., proceeding on furlough.

The 15th April, 1887.

No. 639.—The Hon'ble Arthur Wilson, a Judge of the High Court of Judicature at Fort William in Bengal, has obtained privilege leave for two months from the 22nd June, 1887, or from any subsequent date on which he may avail himself thereof.

POLICE.

The 15th April, 1887.

No. 182.—The following appointments are made to the Burma Police:

Mr. A. G. Mayne, officiating District Superintendent of Police, 4th grade, Punjab, to be a Supernumerary District Superintendent of Police, 4th grade.

Mr. A. H. Tucker, Assistant District Superintendent of Police, 1st class, 3rd grade, Punjab, to be a Supernumerary District Superintendent of Police, 5th grade.

Mr. G. T. C. Plowden, Assistant District Superintendent of Police, 1st class, 3rd grade, (sub. *pro tem.*), Punjab, to be a Supernumerary District Superintendent of Police, 5th grade.

Mr. R. H. Greenstreet, officiating Assistant District Superintendent of Police, Punjab, to be a Supernumerary District Superintendent of Police, 5th grade.

A. P. MACDONNELL,

Secretary to the Government of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Simla, the 13th April, 1887.

No. 617 G.—Surgeon-Major R. Caldecott, Medical Officer, 2nd Regiment, Central India Horse, is granted privilege leave from the 30th March to the 20th May, 1887.

The 14th April, 1887.

No. 631 G.—Consequent on the return to duty of Mr. H. M. Durand, C.S.I., C.S., Secretary to the Government of India in the Foreign Department, Mr. W. J. Cunningham, Bombay C.S., Officiating Secretary, is reappointed to be Under-Secretary to the Government of India in the Foreign Department, sub. *pro tem.*, with effect from the 30th March, 1887.

No. 632 G.—Mr. W. J. Cunningham, Bombay C.S., Under-Secretary, substantive *pro tempore*, to the Government of India in the Foreign Department, is granted privilege leave for three months, with effect from the 30th March, 1887, or the subsequent date on which he may avail himself of it.

The 15th April, 1887.

No. 638 G.—With reference to Foreign Department Notification No. 2321 G. of the 16th

December, 1886, the recognition of the appointment by the Government of India of Mr. Hugh Williams as Consular Agent for Italy at Bassein, has been confirmed by Her Majesty's Government.

The 13th April, 1887.

No. 1652 I.—In exercise of the powers conferred by Act XIV of 1882, as extended to the Civil and Military Station of Bangalore the Governor-General in Council is pleased to declare that decrees of the Civil and Revenue Courts of Mysore may be executed in the Civil and Military Station of Bangalore as if they had been made by the Courts in that station.

No. 1653 I.—In exercise of the powers conferred by Section 650A of Act XIV of 1882 as extended to the Civil and Military Station of Bangalore, the Governor-General in Council is pleased to declare that the provisions of that section apply to the Civil Courts of Mysore.

The 14th April, 1887.

No. 1713 I.—Under Section 8 of Act XV of 1872 (The Indian Christian Marriage Act, 1872), the Governor-General in Council is pleased to appoint the Reverend T. E. F. Morton, of the Methodist Episcopal Church at Mhow, to be a Marriage Registrar in respect of all places under the Central India Agency.

G. S. FORBES,

for Secretary to the Government of India.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 14th APRIL, 1887

GENERAL REMARKS.—Rain in varying quantities has fallen generally throughout Madras, Bengal, the North-Western Provinces and Oudh, and Assam. Slight showers have also occurred in parts of Bombay, the Central Provinces, Rajputana and Mysore and Coorg.

The rainfall was general in Lower Burma during the week ending 2nd April.

The *rabi* harvest is approaching completion in Bombay, Bengal the North Western Provinces and Oudh, Hyderabad, and Rajputana, and has been completed in the Central Provinces and Berar. The prospects of the harvest are on the whole, favourable, except in the Punjab, where the yield is expected to be below the average.

Operations for the *kharif* harvest have commenced in parts of Bombay and the Central Provinces.

The standing crops are good in Madras, Mysore and Coorg but rain is still wanted in some parts of Madras.

In Bengal the spring rice harvest has begun and cultivation for the autumn crops is in progress. In Assam the early rice sowings are still going on.

Indigo and sugarcane prices well in Bengal and sowings for these crops have also commenced in the North Western Provinces and Oudh.

The public health in all Provinces is generally good.

Prices are rising in three districts of the Punjab and falling in three districts of the Central Provinces. Elsewhere they are steady.

Presidency or Province and District	Rainfall week ending	State of agricultural prospects
Madras—(April 13th)		
Bellary	Average 16	Standing crops generally fair. Harvest sugarcane, cotton, and other rice, good on whole below average. Fever in one and cattle-disease increasing in three taluks.
Kurnool	Average 10	Standing crops good. Harvest cotton, outturn below average. Small-pox in three and cattle-disease increasing in four taluks.
Ganjam	Average 1st week since revised, 50	Small-pox and fever in three taluks. Slight cholera. Cattle disease decreasing in one.
Kistna	Average 1st week since revised, 13, 2nd week, 21	Standing crops generally good. Slight fever. Cholera decreasing in four and cattle-disease in two taluks.
Chingleput (Madras)		Standing crops fair but in part withered to some extent for want of rain. Harvest paddy, outturn average. Cattle-disease increasing in two taluks.
Combatore	Average 43	Standing crops generally good. Harvest paddy and <i>rabi</i> , outturn generally above average. Fever in one, small-pox in two, and cattle-disease in one taluk.
Tanjore		Standing crops generally good but in parts of two taluks not flourishing for want of rain. Harvest wet and dry crops, outturn up to average. Cattle disease increasing in three taluks.
Madura	Average 21	Small-pox in two taluks and cattle disease increasing in one.
Malabar	Average 43	Operations for third crop cultivation over in two taluks. Fever in two and small-pox in nine taluks.
Travancore	191	Preparations for next cultivation progressing. Small-pox and fever in places.
General Remarks —General prospects fair		
Bombay—(April 13th)		
Karachi	Nil	River at Kotri on 8th, 14 feet 10 inches against 12 feet 7 inches on same date last year. Fever in four and cattle-disease in one taluk. Wheat, red rice and <i>bajra</i> in Karachi 22, 30 and 32 and in Tutta 21, 40 and 40 pounds per rupee, respectively.
Hyderabad	Nil	<i>Rabi</i> harvested in nine taluks. River at Kotri on 14th 4 feet 10 inches against 10 feet 10 inches on same date last year. Fever in two taluks. Prices low.
Ahmedabad	Nil	Harvest of <i>rabi</i> under cultivation progressing. Public health good. Wheat 20 and <i>bajra</i> 30 pounds per rupee.

Presidency or Province and District.	Rainfall for week under report	State of agricultural prospects.
Bombay—contd.		
Baroda	Nil	Public health good. Cotton-picking and reaping of gram, wheat, tobacco, and castor oil seeds in progress. <i>Bijri</i> 27, wheat 18 and rice 23 pounds per rupee.
Surat	Nil	<i>Rabi</i> reaping almost completed. <i>Jowari</i> 39 and <i>nagli</i> 44 pounds per rupee.
Nasik	Nil	Small-pox in two talukas—Igatpur and Niphad, otherwise public health good. Prices stationary.
Colaba (Bombay)	Nil	Abnormal temperature nil on 6th and 12th and 1° cool from 7th to 11th. Vapour in air excessive from 9th to 11th. Normal on all other days. Abnormal wind northerly on 6th. Wind normal from 7th to 12th.
Poona	Rainfall 04 in Surat taluka and slight rain in Poona	Reaping completed. Threshing of <i>jowari</i> and wheat in progress in Indapur and Bhimthari talukas. Public health generally good. Slight cattle-disease in Indapur and Haveli talukas. <i>Bijri</i> 44 and <i>jowari</i> 55 pounds in the district, and <i>bijri</i> 34 and <i>jowari</i> 43 pounds per rupee in Poona city.
Ahmednagar	Nil	Harvesting of <i>rabi</i> crops in progress. Health good. <i>Bijri</i> 57 and <i>jowari</i> 65 pounds per rupee.
Sholapur	Sholapur, 01; Bhusur, 06; Kurnool, 01; Pindharpur, 03	Inds being prepared for <i>kharif</i> crops. No cholera cases at Pandharpur, 21; at <i>Torani</i> 01 and <i>bijri</i> 53½ pounds per rupee.
Dharwar	Mugud, 03; Nalgund, 30	Harvesting of <i>kharif</i> and cotton-picking in progress. Scarcity of fodder in Nawal, and in 10 drinking-water in Gadag, Kurnool and Belgaum. Public health generally good. Rice 24 and <i>jowari</i> 65 pounds per rupee.
Kanara	Nil	Threshing and clearing second crop paddy. Sugarcane planting in progress. Field operations continue for monsoon crop. Public health good. Weather hot. Slight cattle-disease in two talukas. Common rice in Kurnool 15, and district average 14 seers per rupee.

R. C. B. PEMBERTON, *Colonel, R.E.,*

Deputy Secretary to the Government of India.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 21st APRIL, 1887

GENERAL REMARKS.—Slight rain has fallen generally in most parts of Madras, Bombay, Mysore, Bengal, and Assam, and showers are also reported from a few places in the North-Western Provinces and Oudh, the Punjab, Central Provinces, Central India, and Rajputana.

In Burma there was general rain during the week ending the 9th instant, but during the week ending the 10th idem the falls were confined to a few districts in Lower Burma only.

The *rabi* crops have been nearly gathered in all Provinces, and threshing operations are now in general progress. Prospects show no improvement in the Punjab, where the harvest, which is advancing, is anticipated to yield below the average.

Preparations for the *kharif* have begun in parts of Bombay, the Central Provinces, and Berar, where the land is being ploughed.

Except that the crops need rain in one or two districts, agricultural prospects in the Madras Presidency are fair. In Mysore and Coorg the outlook continues satisfactory.

The spring rice harvest is progressing in Bengal and Assam, and promises to yield excellently in Sylhet. Lowland paddy is being sown in Bengal, and the *ahu* paddy is coming up well in Assam.

Sugarcane is doing well in Bengal, the North-Western Provinces and Oudh, and the Central Provinces, it is being planted in Bombay and is being harvested in Madras.

Cotton-picking is in progress in Madras and Bombay.

Indigo-sowing has commenced in the North-Western Provinces and Oudh, and the crop promises favourably in Bengal.

The public health is generally satisfactory in all Provinces.

Cattle-disease is chiefly prevalent in Madras and Bombay.

Prices are fluctuating in the Punjab. Elsewhere they are generally stationary.

Presidency or Province and District	Rainfall for week under report	State of agricultural prospects.
Madras—(April 20th)

BOMBAY,

The 14th April, 1887.

GOVERNMENT ENGINEERING COLLEGE.

Yearly Examination for Fourth Grade Accountants.

The yearly examination of candidates for the fourth Grade of Accountant, Public Works De-

partment, will be held at the Government Engineering College, Seebpur, on Monday and Tuesday, June 6th and 7th, 1887, at 10-30 A.M.

Vide Rules below.

SUBJECTS.

	Full marks.	Minimum passing marks.
Writing (neatness, clearness and rapidity)	100	50
Dictation (spelling, punctuation, &c.)	100	50
Arithmetic (whole course)	240	160
Mensuration (a) (whole book)	60	30
Book-keeping (b) (mercantile)	100	50
TOTAL	600	400

Minimum required in all papers collectively.

(a) Todhunter's Mensuration for Beginners
(b) 1. "Book-keeping" by Ball and Hamilton
2. "Book-keeping" by Double and Single Entry, by W. Inglis (Chambers' Educational Course).

The marks gained by candidates who fail will not be published.

1. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam and Burma only. Candidates will not be examined in any of the Calcutta Offices.

2. Candidates not in Government employ who wish to be examined at the College must forward their applications direct to the Principal, those employed in Government Offices, through the head of their office, who will forward the application to the Principal. All applications must reach the Principal before the 7th May, 1887.

3. The candidate should apply to an Examiner of Public Works Accounts not later than 7th May, 1887, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must be forwarded by the candidate not direct to the Principal, but through the Examiner.

4. All applications must be accompanied by a fee of Rs 10, and the following certificates. Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but no certificates will be returned.

(1) Certificate of good character signed by applicant's immediate official superior, by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate that candidate is, under 25 years of age (Not required if candidate is in permanent Government employ.)

(3) Certificate that the application is in candidate's handwriting.

It will rest with the Principal of the College, on a consideration of these certificates, to decide whether the candidate should be registered for the examination or whether his application should be rejected.

5. Copies of examination papers are not procurable except those that are issued for examination. These need not be returned.

6. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination, and furnish a fresh fee and certificates.

7. Passed candidates should apply, not to the Principal of the College, nor to the Accountant General, Public Works Department, but direct to the Examiner of Public Works Accounts in the Province or Railway under whom they may desire to be employed.

8. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons who are already employed in the Department.

J. H. GILLILAND,

Professor, in Charge Government
Engineering College.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY

The Indian Law Reports, published under the authority of the Governor General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, the copies for subscribers registered by Messrs Thacker, Spink & Co are distributed by that firm and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of previous advertisements, on and from the 1st January, 1887, the terms of subscription and sale will be as follows —

Terms of subscription, payable annually in advance.

For the complete Series, including postage Rs 2 8

	Without postage	With postage
For the Calcutta Series	Rs 10 0	Rs 12 0
each of the Madras, Bombay and Allahabad Series	Rs 6 0	Rs 7 0
a part of the Calcutta Series purchased separately inclusive of postage in India		Rs 2 0
a part of the Madras Bombay and Allahabad Series purchased separately inclusive of postage in India		Rs 1 0

Persons desiring to subscribe for, or purchase, the Report should apply to—

Messrs Thacker, Spink & Co, Calcutta

Thacker & Co, Bombay

Higginbotham & Co, Madras

The Government Central Book Depot, Bombay

Curator of Government Books, North-Western Provinces and Oudh

Superintendent of Government Printing, Bengal

Orders and subscriptions for 1887 should be at once remitted

NOTICE.

SUPPLEMENT TO
The Gazette of India.

No. 17.]

CALCUTTA, SATURDAY, APRIL 23, 1887

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the public, such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor-General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT gratis on a payment of five Rupees per annum, delivered in Calcutta, or eight Rupees if sent by post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees eight if sent by post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the back of the GAZETTE must be looked to.

E. J. DEAN,

Publisher, Gazette of India.

HIGH COURT—Original Side.

NOTIFICATION.

Calcutta, the 27th April, 1887.

The Honorable the Chief Justice of the High Court of Judicature at Fort William in Bengal has appointed Mr. Thomas Robert Penington, of No 1, Crosshall Street, Liverpool, England, Solicitor, a Commissioner within all parts of England for the purpose of taking, under the law in force in British India, the acknowledgments of married women of deeds to be executed by them in respect of property in British India.

By Order,

R. BELCHAMBERS,

Registrar.

GOVERNMENT ENGINEERING COLLEGE.

Yearly Examination for Fourth Grade Accountants.

The yearly examination of candidates for the fourth Grade of Accountant, Public Works Department, will be held at the Government Engineering College, Seebpur, on Monday and Tuesday, June 6th and 7th, 1887, at 10-30 A.M.

Vide Rules below.

SUBJECTS.

	Full marks.	Minimum passing marks.
Writing (neatness, clearness and rapidity)	100	50
Dictation (spelling, punctuation, &c.)	100	50
Arithmetic (whole course)	240	160
Mensuration (a) (whole book)	60	30
Book-keeping (b) (mercantile)	100	50
TOTAL	600	400

Minimum required in all papers collectively.

(a) Todhunter's Mensuration for Beginners.

(b) 1. "Book-keeping" by Ball and Hamilton

2. "Book-keeping" by Double and Single Entry, by W. Inglis (Chambers' Educational Course).

The marks gained by candidates who fail will not be published.

1. The examination will be conducted either at the College or by an Examiner, Public Works Accounts (including Railway and Telegraph), in Bengal, Assam and Burma only. Candidates will not be examined in any of the Calcutta Offices.

2. Candidates not in Government employ who wish to be examined at the College must forward their applications direct to the Principal; those employed in Government Offices, through the head of their office, who will forward the application to the Principal. All applications must reach the Principal before the 7th May, 1887.

3. The candidate should apply to an Examiner of Public Works Accounts not later than 7th May, 1887, and obtain his consent to conduct the examination, if examination at the College is not convenient. The application must be forwarded by the candidate not direct to the Principal, but through the Examiner.

4. All applications must be accompanied by a fee of ₹10, and the following certificates. Certificates may be submitted in original, or true copies attested by an officer of the Engineer or Accounts Branch, but no certificates will be returned.

(1) Certificate of good character signed by applicant's immediate official superior, by the instructor under whom he has been educated, or by some other superior under whom he may have been brought up or employed, or to whom he may be well known. (This certificate must have special reference to the two years immediately preceding the application.)

(2) Certificate that candidate is under 25 years of age. (Not required if candidate is in permanent Government employ.)

(3) Certificate that the application is in candidate's handwriting.

It will rest with the Principal of the College, on a consideration of these certificates, to decide whether the candidate should be registered for the examination or whether his application should be rejected.

5. Copies of examination papers are not procurable except those that are issued for examination. These need not be returned.

6. Each examination is complete in itself. A candidate who has failed in an examination, and presents himself for examination on a subsequent occasion, must undergo the full examination, and furnish a fresh fee and certificates.

7. Passed candidates should apply, not to the Principal of the College, nor to the Accountant General, Public Works Department, but direct to the Examiner of Public Works Accounts in the Province or Railway under whom they may desire to be employed.

8. It must be distinctly understood that the passing of this examination does not give any claim to an appointment, and that in making appointments preference will be given to qualified persons who are already employed in the Department.

J. H. GILLILAND,

Professor, in Charge Government Engineering College.

SEEBPUR,

13th April, 1887.

GOVERNMENT ENGINEERING COLLEGE, SEEBPUR.

Candidates for admission to the Engineer Department should apply to the Principal before the 25th May, 1887. The Session begins on Monday, the 6th June, 1887. Candidates must furnish proof that they have passed the Calcutta University Entrance Examination, and that they are under 19 years of age. This limit will be raised to 21 years of age in the case of candidates who have passed the F. A. Examination of the University.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of junior scholarships. The scholarships will be awarded with general reference to the place taken by candidates at the Entrance Examination.

Students who have passed the University Entrance Examination in April are eligible for admission to the Mechanical Apprentice Department up to the 6th June, 1887. They must send in their applications before 25th May, 1887.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour, and eye-sight.

Further particulars will be supplied on application to the Principal.

S. F. DOWNING,

Principal,

Government Engineering College,

SEEBPUR,

The 25th April, 1887.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY

The Indian Law Reports, published under the authority of the Governor General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad and comprise four series,—one for the Calcutta High Court a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series. The Calcutta Series is distributed by the Bengal Secretariat, the copies for subscribers registered by Messrs Thacker, Spink & Co. are distributed by that firm, and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of previous advertisements, on and from the 1st January, 1885, the terms of subscription and sale will be as follows —

Terms of subscription, payable annually in advance

For the complete Series, including postage Rs 8

	Without postage	With postage
For the Calcutta Series	R 10 0	R 12 0
" each of the Madras, Bombay and Allahabad Series	" 6 0	" 7 0
" a part of the Calcutta Series purchased separately inclusive of postage in India	"	" 2 0
" a part of the Madras, Bombay and Allahabad Series purchased separately inclusive of postage in India	"	" 1 0

Persons desiring to subscribe for, or purchase, the Report should apply to—

Messrs Thacker, Spink & Co, Calcutta

" Thacker & Co, Bombay

" Higginbotham & Co, Madras

The Government Central Book Depot, Bombay

" Curator of Government Books, North-Western Provinces and Oudh

" Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1885 should be at once remitted

NOTICE.

SUPPLEMENT TO
The Gazette of India.

No. 18.]

CALCUTTA, SATURDAY, APRIL 30, 1887

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

Weather Review of India for the Week ending the 23rd April, 1887.

The most important feature in the meteorology of the past week has been the establishment of hot dry north-westerly and westerly winds (characteristic of the hot season) down the Gangetic plain. From the 20th until the close of the week they blew steadily over the south of the Panjab, the North-Western Provinces, Behar and as far east as Lower Bengal. They were attended with a rapid rise of temperature and great dryness.*

The distribution of pressure has been comparatively stable. On most days the pressure was lowest in Western Bengal and Chutia Nagpur; and the pressure has been high in the Indus region and down the west coast.

In the earlier part of the week there were two minima, one lying over Rajputana, the second in Western Bengal. The general aerial circulation was also simple. North to north-west winds prevailed at most stations in Western India and southerly to south-westerly winds on the east coast, with north-west winds down the Gangetic Valley. In Central and North-Western India and the Deccan, the northing of the winds has been very striking.

Any rainfall has been restricted to three well defined areas, viz, the North-West Himalaya and the neighbouring plains stations, where slight rain fell locally on five out of the seven days; second, Assam and parts of North and East Bengal where rain fell on the 17th, 18th and 19th, and again slightly on the 22nd and 23rd, and third, the south of the Peninsula and Ceylon where light sporadic rain occurred throughout the week.

Throughout Northern India, with the single exception of Roorkee, the rain has been even less than the average; and the following table shows, therefore, an increase of the

seasonal deficiency as compared with that of last week. At Darjeeling and Calcutta the rainfall of the seven days was half an inch less than the normal average :—

Stations.	Actual rainfall from 1st Novem- ber, 1886, to 23rd April, 1887.	Average rainfall from 1st Novem- ber, 1886, to 23rd April, 1887.	Difference.
	In.	In.	
Multan	0'64	1'69	—1'05
Peshawar	2'43	6'88	—4'45
Murree	10'24	13'65	—3'41
Rawalpindi	4'08	10'18	—5'20
Lahore	0'62	3'48	—2'86
Simla	10'83	10'67	+0'16
Delhi	2'49	2'96	—0'47
Roorkee	4'06	5'59	—1'53
Meerut	2'76	3'75	—0'99
Bareilly	3'54	3'36	+0'18
Agra	1'13	1'64	—0'51
Lucknow	1'28	1'70	—0'42
Allahabad	4'58	1'72	+2'86
Darjeeling	9'69	7'05	+2'64
Calcutta	5'24	5'14	+0'10

The temperature returns exhibit a general rise during the week, the increase being most marked in Northern India. The day temperatures especially rose considerably during the last few days, and readings between 109° and 110° were registered in the central parts of the country from the 21st to the 23rd.

The weather generally has been clear or nearly so; except in the north of the Panjab, during the first part of the week, when overcast skies were reported locally.

The final table shows that the mean pressure of the week was above the normal average in the Panjab, part of the North-Western Provinces and Sind, but below it elsewhere; the greatest deficiency within India being in Behar. The temperature was above the monthly average except along the west coast of the Peninsula, where there was a slight deficiency. The excess was considerable over the central parts of the country and in Assam. The amount of moisture in the atmosphere was generally below the average, but in Behar, North Bengal, Assam, Guzerat, Malabar and the Carnatic there was a slight excess.

Districts.	Difference of Barometer from mean, April 17th to April 23rd.	Difference of Temperature from mean, April 17th to April 23rd.	Difference of Humidity from mean, April 17th to April 23rd.	Total Rainfall in week, April 17th to April 23rd.

No. 909 E.—The following Order of Her Majesty in Council, published in the *London Gazette* of the 11th March, 1887, is republished for general information

At the Court at Windsor, the 7th day of March, 1887.

PRESENT :

The QUEEN's Most Excellent Majesty.

Lord President.

Lord Chamberlain.

Lord John Manners.

WHEREAS by the Extradition Acts, 1870 and 1873, it was amongst other things enacted that, where an arrangement has been made with any foreign State with respect to the surrender to such State of any fugitive criminals, Her Majesty may, by Order in Council, direct that the said Acts shall apply in the case of such foreign State; and that Her Majesty may, by the same or any subsequent Order, limit the operation of the Order, and restrict the same to fugitive criminals who are in or suspected of being in the part of Her Majesty's dominions specified in the Order, and render the operation thereof subject to such conditions, exceptions, and qualifications as may be deemed expedient; and that if, by any law made after the passing of the Act of 1870 by the Legislature of any British possession, provision is made for carrying into effect within such possession the surrender of fugitive criminals who are in or suspected of being in such British possession, Her Majesty may, by the Order in Council applying the said Acts in the case of any foreign State, or by any subsequent Order, suspend the operation within any such British possession of the said Acts, or of any part thereof, so far as it relates to such foreign State, and so long as such Law continues in force there and no longer

And whereas in accordance with section 18 of "The Extradition Act, 1870," the Legislature of the Dominion of Canada has, by laws passed in the years 1877 and 1882, and respectively styled "The Extradition Act, 1877," and "An Act to Amend the Extradition Act, 1877," made provision for carrying into effect within the Dominion the surrender of fugitive criminals who are in, or are suspected of being in, the Dominion.

No. 703 G.—Mr. A. H. T. Martindale, M.C.S., Political Agent of the 3rd Class and First Assistant and Secretary for Berar to the Resident at Hyderabad, is posted as Political Agent in Quetta and Pishin, with effect from the date of joining, *vice* Mr. H. S. Barnes, on furlough.

No. 705 G.—Captain H. M. Temple, Officiating Political Agent of the 3rd Class and Political Agent at Kalat, is posted as Political Agent in South-Eastern Baluchistan, with effect from the date of joining, *vice* Colonel E. S. Reynolds on furlough.

The 26th April, 1887.

No. 711 G.—With reference to Foreign Department Notification No. 1926G, of the 7th October, 1886, Mr. F. Myrelles do Canto, Consul for Portugal in British India at Bombay, resumed charge of his office on the 7th April, 1887.

The 28th April, 1887.

No. 732 G.—With reference to Foreign Department Notification No. 532G, dated the 25th March, 1887, the Governor-General in Council is pleased to recognize the appointment of Mr. A. Wingate to act as Consular Agent for Italy at Bassein, *vice* Mr. J. J. Cooper.

No. 735 G.—It is hereby notified for general information that the Austro-Hungarian Consul at Bombay has been raised to the rank of Consul-General, with powers extending over all the Austro-Hungarian Consulates in British India, Aden, Ceylon, and Burma.

No. 1953 I.—Captain Norman Franks is appointed to be a Political Assistant on special duty with Sir Lepel Griffin until further orders.

And whereas a Treaty was concluded on the twenty-fourth day of November, one thousand eight hundred and eighty-six, between Her Majesty and His Majesty the Emperor of Russia, for the mutual extradition of fugitive criminals, which Treaty is in the terms following —

"HER Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, and His Majesty the Emperor of All the Russias, having judged it expedient, with a view to the better administration of justice and to the prevention of crime within the two countries and their jurisdictions, that persons charged with or convicted of the crimes hereinafter enumerated, and being fugitives from justice, should, under certain circumstances, be reciprocally delivered up; their said Majesties have named as their Plenipotentiaries to conclude a Treaty for this purpose, that is to say.

"Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, the Right Honourable Stafford Henry Earl of Iddesleigh, Viscount St. Cyres, a Peer of the United Kingdom, and a Baronet of Great Britain, Knight Grand Cross of the Most Honourable Order of the Bath, a Member of Her Majesty's Most Honourable Privy Council, Her Majesty's Principal Secretary of State for Foreign Affairs, &c., &c.,

"And His Majesty the Emperor of All the Russias, M. Georges de Staal, Privy Councillor, Grand Cross of several Russian and foreign Orders, his Ambassador Extraordinary and Plenipotentiary to Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, &c., &c.,

"Who, having communicated to each other their respective full powers, found in good and due form, have agreed upon and concluded the following Articles

"ARTICLE I.

"The High Contracting Parties engage to deliver up to each other those persons who, being accused or convicted of a crime or offence committed in the territory of the one Party, shall be found within the territory of the other Party, under the circumstances and conditions stated in the present Treaty.

"ARTICLE II.

"The crimes or offences for which the extradition is to be granted are the following

"1. Murder, or attempt, or conspiracy to murder.

"2. Manslaughter.

"3. Counterfeiting or altering money, or uttering counterfeit or altered money.

"4. Forgery, counterfeiting, or altering or uttering what is forged, or counterfeited, or altered.

"5. Embezzlement or larceny.

"6. Malicious injury to property if the offence be indictable.

"7. Obtaining money or goods by false pretences.

"8. Crimes against bankruptcy law.

"9. Fraud by a bailee, banker, agent, factor, trustee, or director, or member or public officer of any Company, made criminal by any law for the time being in force.

"SA Majesté la Reine du Royaume-Uni de la Grande-Bretagne et d'Irlande, Impératrice des Indes, et Sa Majesté l'Empereur de Toutes les Russies, ayant jugé convenable, en vue d'une meilleure administration de la justice, et pour prévenir les crimes dans les deux pays et leurs juridictions, que les individus accusés ou convaincus des crimes ci après énumérés, et qui se seraient soustraits par la fuite aux poursuites de la justice fussent, dans certaines circonstances, réciproquement extradés, les dits Majestés ont nommés pour leurs Plénipotentiaires, à l'effet de conclure un Traité dans ce but, savoir

"Sa Majesté la Reine du Royaume-Uni de la Grande-Bretagne et d'Irlande, Impératrice des Indes, le Très Honorable Stafford Henry Comte d'Iddesleigh, Vicomte St. Cyres, Pair du Royaume-Uni, Baronnet de la Grande-Bretagne, Chevalier Grand-Croix du Très Honorable Ordre du Bain, Membre du Très Honorable Conseil Privé de Sa Majesté, Principal Secrétaire d'Etat de Sa Majesté pour les Affaires Étrangères, &c., &c.,

"Et Sa Majesté l'Empereur de Toutes les Russies, M. Georges de Staal, Conseiller Privé Actuel, Grand-Croix de plusieurs Ordres Russes et étrangers, son Ambassadeur Extraordinaire et Plénipotentiaire près la Cour de Sa Majesté la Reine du Royaume-Uni de la Grande-Bretagne et d'Irlande, Impératrice des Indes, &c., &c.,

"Lesquels, après s'être communiqués leur pleins pouvoirs respectifs, trouvés en bonne et due forme, ont arrêté et conclu les Articles suivants

"ARTICLE I.

"Les Hautes Parties Contractantes s'engagent à se livrer réciproquement les individus qui, poursuivis ou condamnés pour un crime ou un délit commis sur le territoire de l'une des Parties, seraient trouvés sur le territoire de l'autre, dans les circonstances et sous les conditions prévues par le présent Traité.

"ARTICLE II.

"Les crimes et délits pour lesquels l'extradition sera accordée sont les suivants

"1. Meurtre, ou tentative de meurtre, ou complot ayant ce crime pour but

"2. Homicide sans préméditation ou guet-apens.

"3. Contrefaçon ou altération de monnaie, mise en circulation de monnaie contrefaite ou altérée.

"4. Faux, contrefaçon, ou altération, ou mise en circulation de ce qui est falsifié, ou contrefait, ou altéré.

"5. Détournement frauduleux, ou vol.

"6. Destruction ou dégradation de toute propriété, lorsque le fait incriminé est punissable de peines criminelles ou correctionnelles.

"7. Escroquerie d'argent, ou d'autres objets, sous de faux prétextes.

"8. Crimes contre les lois sur la banqueroute.

"9. Fraude (abus de confiance) par un administrateur, banquier, agent, commissionnaire, curateur, ou directeur, ou membre ou fonctionnaire d'une Société quelconque, pour autant que le fait est puni par les lois en vigueur.

- " 10. Perjury, or subornation of perjury.
- " 11. Rape.
- " 12. Carnal knowledge, or any attempt to have carnal knowledge, of a girl under 16 years of age.
- " 13. Indecent assault.
- " 14. Administering drugs or using instruments with intent to procure the miscarriage of a woman.
- " 15. Abduction.
- " 16. Child stealing.
- " 17. Kidnapping and false imprisonment.
- " 18. Burglary or housebreaking.

- " 19. Arson.
- " 20. Robbery with violence.
- " 21. Maliciously wounding or inflicting grievous bodily harm.
- " 22. Threats by letter, or otherwise, with intent to extort.
- " 23. Piracy by law of nations.

" 24. Sinking or destroying a vessel at sea, or attempting or conspiring to do so.

" 25. Assaults on board a ship on the high seas, with intent to destroy life, or to do grievous bodily harm.

" 26. Revolt, or conspiracy to revolt, by two or more persons on board a ship on the high seas against the authority of the master.

" 27. Dealing in slaves in such a manner as to constitute a criminal offence against the laws of both States.

" Extradition is also to be granted for participation in any of the aforesaid crimes, provided such participation be punishable by the laws of both the Contracting Parties.

" Extradition may also be granted, at the discretion of the State applied to, in respect of any other crime for which, according to the laws of both the Contracting Parties for the time being in force, the grant can be made.

" ARTICLE III.

" Either Government may, in its absolute discretion, refuse to deliver up its own subjects to the other Government.

" ARTICLE IV.

" The extradition shall not take place if the person claimed on the part of the British Government, or the person claimed on the part of the Russian Government has already been tried and discharged or punished, or is still under trial, within the Russian or British dominions respectively, for the crime for which his extradition is demanded.

" If the person claimed on the part of the British Government, or if the person claimed on the part of the Russian Government should be under examination, or is undergoing sentence under a conviction, for any other crime within the Russian or British dominions respectively, his extradition shall be deferred until after he has been discharged, whether by acquittal or on expiration of his sentence, or otherwise.

" ARTICLE V.

" The extradition shall not take place if, subsequently to the commission of the crime, or the institution of the penal prosecution, or the con-

- " 10. Faux serment ou subornation de témoins.
- " 11. Viol.
- " 12. Commerce charnel avec une jeune fille âgée de moins de 16 ans, ou tentative à ce fait.

- " 13. Attentat à la pudeur avec violence.
- " 14. Administration de substances ou emploi d'instruments dans l'intention de provoquer l'avortement.

- " 15. Enlèvement.
- " 16. Vol d'enfants.
- " 17. Sequestration ou détention illégale.
- " 18. Effraction ou escalade d'une habitation et de ses dépendances dans le but de commettre un crime.

- " 19. Incendie volontaire.
- " 20. Vol avec violence.
- " 21. Blessures ou graves injures corporelles infligées avec mauvaise intention.
- " 22. Menaces écrites ou autres faites en vue d'extorsion.

" 23. Piraterie considérée comme crime par le droit des gens.

" 24. Submersion, échouement ou destruction d'un navire en mer, ou tentative ou complot ayant ce crime pour but.

" 25. Attaque à bord d'un navire en haute mer dans le but d'homicide ou afin de porter de graves lésions corporelles.

" 26. Révolte ou complot de révolte par deux ou plusieurs personnes à bord d'un navire en haute mer, contre l'autorité du capitaine.

" 27. Traite des Esclaves telle qu'elle est punie par les lois des deux pays.

" L'extradition aura également lieu pour complicité à un des crimes ci-dessus mentionnés, pourvu que la complicité soit punissable par les lois des deux Parties Contractantes.

" Il dépendra de l'État requis d'accorder également l'extradition pour tout autre crime à raison duquel l'extradition peut avoir lieu d'après les lois en vigueur des deux Parties Contractantes.

" ARTICLE III.

" Chacun des deux Gouvernements aura liberté pleine et entière de refuser à l'autre l'extradition de ses propres sujets.

" ARTICLE IV.

" L'extradition ne sera pas accordée si l'individu réclamé par le Gouvernement du Royaume-Uni ou par celui de l'Empire de Russie, a déjà été jugé, acquitté ou puni, ou se trouve encore sous jugement, soit dans l'Empire de Russie, soit dans le Royaume-Uni, pour le crime à raison duquel l'extradition est demandée.

" Si la personne réclamée par le Gouvernement du Royaume-Uni ou par celui de l'Empire de Russie est en état de prévention ou si ayant été condamnée elle subit la peine qui lui a été infligée dans l'Empire de Russie ou dans le Royaume-Uni, pour un autre crime, son extradition sera différée jusqu'à sa remise en liberté, soit qu'elle ait été acquittée, soit qu'elle ait purgé sa peine ou pour toute autre raison.

" ARTICLE V.

" L'extradition n'aura pas lieu si depuis la perpétration du crime les poursuites ou la condamnation, la prescription des poursuites ou de

viction thereon, exemption from prosecution or punishment has been acquired by lapse of time, according to the laws of the State applied to.

"ARTICLE VI.

"A fugitive criminal shall not be surrendered if the offence in respect of which his surrender is demanded is one of a political character, or if he prove that the requisition for his surrender has in fact been made with a view to try or punish him for an offence of a political character.

"ARTICLE VII.

"A person surrendered can in no case be kept in prison, or be brought to trial in the State to which the surrender has been made, for any other crime or on account of any other matters than those for which the extradition shall have taken place, until he has been restored or had an opportunity of returning to the State by which he has been surrendered.

"This stipulation does not apply to crimes committed after the extradition.

"ARTICLE VIII.

"The requisition for extradition shall be made through the Diplomatic Agents of the High Contracting Parties respectively.

"The requisition for the extradition of an accused person must be accompanied by a warrant of arrest issued by the competent authority of the State requiring the extradition, and by such evidence as, according to the laws of the place where the accused is found, would justify his arrest if the crime had been committed there.

"If the requisition relates to a person already convicted, it must be accompanied by the sentence of condemnation passed against the convicted person by the competent Court of the State that makes the requisition for extradition.

"A sentence passed in contumacium is not to be deemed a conviction, but a person so sentenced may be dealt with as an accused person.

"ARTICLE IX.

"If the requisition for extradition be in accordance with the foregoing stipulations, the competent authorities of the State applied to shall proceed to the arrest of the fugitive.

"ARTICLE X.

"If the fugitive has been arrested in the British dominions, he shall forthwith be brought before a competent Magistrate, who is to examine him and to conduct the preliminary investigation of the case, just as if the apprehension had taken place for a crime committed in the British dominions.

"In the examinations which they have to make in accordance with the foregoing stipulations the authorities of the British dominions shall admit as valid evidence the sworn depositions or the affirmations of witnesses taken in Russia, or copies thereof, and likewise the warrants and sentences issued therein, and certificates of, or judicial documents stating the fact of, a conviction, provided the same are authenticated as follows :

"1. A warrant must purport to be signed by a Judge, Magistrate, or officer of the Russian State.

la peine est acquise d'après les lois du pays auquel la demande est adressée.

"ARTICLE VI.

"Le criminel fugitif ne sera pas extradé si le délit pour lequel l'extradition est demandée, est considéré comme un délit politique, ou si l'individu prouve que la demande d'extradition a été faite en réalité dans le but de le poursuivre ou de le punir pour un délit d'un caractère politique.

"ARTICLE VII.

"L'individu qui aura été livré ne pourra en aucun cas, dans le pays auquel l'extradition a été accordée, être maintenu en état d'arrestation ou poursuivi pour aucun crime ou faits autres que ceux qui avaient motivé l'extradition à moins qu'il n'ait été réintégré ou n'ait eu l'occasion de retourner de lui-même dans l'État qui l'avait extradé.

"Cette stipulation n'est pas applicable aux crimes commis après l'extradition.

"ARTICLE VIII.

"L'extradition sera demandée par l'organe des Agents Diplomatiques respectifs des deux Hautes Parties Contractantes.

"La demande d'extradition d'un prévenu devra être accompagnée d'un Mandat d'Arrêt décerné par l'autorité compétente de l'État requérant, et des preuves qui, d'après les lois de l'endroit où le prévenu a été trouvé, justifieraient son arrestation, si l'acte punissable y avait été commis.

"Si la demande d'extradition concerne une personne déjà condamnée, elle doit être accompagnée de l'Arrêt de Condamnation qui a été rendu contre le coupable par le Tribunal compétent de l'État requérant.

"Un Arrêt rendu par contumace ne sera pas considéré comme une condamnation, mais une personne ainsi condamnée pourra être traitée comme une personne poursuivie.

"ARTICLE IX.

"Si la demande d'extradition s'accorde avec les stipulations précédentes, les autorités compétentes de l'État requis procéderont à l'arrestation du fugitif.

"ARTICLE X.

"Si le fugitif est arrêté sur territoire Britannique, il sera aussitôt amené devant un Magistrat compétent qui devra l'entendre et procéder à l'examen préliminaire de l'affaire de la même manière que si l'arrestation avait eu lieu pour un crime commis sur territoire Britannique.

"Les autorités de la Grande-Bretagne quand elles procéderont à l'examen établi par les stipulations précédentes devront admettre comme preuves entièrement valables les dépositions assermentées ou les affirmations faites en Russie, ou les copies de ces pièces, de même que les Mandats d'Arrêt et les sentences rendues dans ce pays, ainsi que les certificats de condamnation ou les pièces judiciaires constatant le fait d'une condamnation, pourvu que ces documents soient rendus authentiques de la manière suivante :

"1. Un mandat doit être signé par un Juge, Magistrat, ou officier de l'Empire Russe.

"2. Depositions or affirmations or the copies thereof must purport to be certified under the hand of a Judge, Magistrate, or officer of the Russian State, to be the original depositions or affirmations, or to be true copies thereof, as the case may require.

"3. A certificate of or judicial document stating the fact of a conviction must purport to be certified by a Judge, Magistrate, or officer of the Russian State.

"4. In every case such warrant, deposition, affirmation, copy, certificate, or judicial document must be authenticated either by the oath of some witness, or by being sealed with the official seal of the Minister of Justice, or some other Minister of the Russian State; but any other mode of authentication for the time being permitted by the law of the British dominion, where the examination is taken, may be substituted for the foregoing.

" ARTICLE XI.

"If the fugitive has been arrested in Russia his surrender shall be granted if upon examination by a competent authority it appears that the documents furnished by the British Government furnish sufficient *prima facie* evidence to justify the extradition.

"The Russian authorities shall admit as valid evidence records drawn up by the British authorities of the depositions of witnesses, or copies thereof, and records of conviction or other judicial documents or copies thereof. Provided that the said documents be signed or authenticated by an authority whose competence shall be certified by the seal of a Minister of State of Her Britannic Majesty.

" ARTICLE XII.

"The extradition shall not take place unless the evidence be found sufficient, according to the laws of the State applied to, either to justify the committal of the prisoner for trial, in case the crime had been committed in the territory of the said State, or to prove that the prisoner is the identical person convicted by the Courts of the State which makes the requisition, and that the crime of which he has been convicted is one in respect of which extradition could, at the time of such conviction, have been granted by the State applied to. And the fugitive criminal shall not be surrendered until the expiration of fifteen days from the date of his being committed to prison to await his surrender.

" ARTICLE XIII.

"If the individual claimed by one of the two High Contracting Parties in pursuance of the present Treaty should be also claimed by one or several other Powers, on account of other crimes or offences committed upon their respective territories, his extradition shall be granted to that State whose demand is earliest in date.

" ARTICLE XIV.

"If sufficient evidence for the extradition be not produced within two months from the date of the apprehension of the fugitive, or within such further time as the State applied to, or the proper Tribunal thereof shall direct, the fugitive shall be set at liberty.

"2. Les dépositions ou affirmations ou les copies de ces pièces doivent porter la signature d'un Juge, Magistrat, ou officier de l'Empire Russe, constatant que ces dépositions ou ces affirmations se trouvent être en expédition originale ou en copie vidimée selon le cas.

"3. Un certificat de condamnation ou un document judiciaire constatant le fait d'une condamnation doit être certifié par un Juge, Magistrat, ou officier de l'Empire Russe.

"4. Ces mandats, dépositions, affirmations, copies, certificats, ou documents judiciaires doivent être rendus authentiques dans chaque cas, soit par le serment d'un témoin, soit par l'apposition du sceau officiel du Ministre de la Justice, ou de tout autre Ministre de l'Empire Russe; cependant, les pièces susénoncées pourront être rendues authentiques de toute autre manière qui serait reconnue par les lois locales en vigueur dans la partie du territoire Britannique, où l'examen de l'affaire aura lieu.

" ARTICLE XI.

"L'extradition d'un fugitif arrêté en Russie sera accordée, s'il résulte de l'examen qui en sera fait par une autorité compétente que les documents fournis par le Gouvernement Britannique contiennent des preuves *prima facie* suffisantes pour justifier l'extradition.

"Les autorités Russes devront admettre comme preuves entièrement valables les procès-verbaux des dépositions de témoins dressés par les autorités Britanniques, ou les copies de ces procès-verbaux; ainsi que les procès-verbaux des condamnations ou autres documents judiciaires, ou les copies de ces actes pourvu que ces documents soient signés ou rendus authentiques par une autorité dont la compétence sera certifiée par le sceau d'un Ministre d'État de Sa Majesté Britannique.

" ARTICLE XII.

"L'extradition n'aura lieu que dans le cas où les preuves fournies auront été trouvées suffisantes, d'après les lois de l'État requis, soit pour justifier la mise sous jugement du prisonnier dans le cas où le crime aurait été commis sur le territoire du dit État, soit pour constater l'identité du prisonnier avec l'individu condamné par les Tribunaux de l'État requérant et prouver que le crime dont il a été reconnu coupable aurait pu causer son extradition par l'État requis à l'époque de sa condamnation. L'extradition du fugitif n'aura lieu qu'à l'expiration d'un terme de quinze jours à dater de son emprisonnement en vue de l'extradition.

" ARTICLE XIII.

"Si l'individu réclamé par l'une des Hautes Parties Contractantes en exécution du présent Traité est aussi réclamé par une ou plusieurs autres Puissances, du chef d'autres crimes ou délits commis sur leurs territoires respectifs, son extradition sera accordée à l'État dont la demande est la plus ancienne en date.

" ARTICLE XIV.

"Le fugitif sera mis en liberté si les preuves suffisantes à l'appui de la demande en extradition ne sont pas produites l'espace de deux mois à partir du jour de l'arrestation ou de tel autre terme plus éloigné qui aura été indiqué par l'État requis ou le Tribunal compétent de cet État.

"ARTICLE XV.

"All articles seized which were in the possession of the person to be surrendered, at the time of his apprehension, shall, if the competent authority of the State applied to for the extradition has ordered the delivery thereof, be given up when the extradition takes place; and the said delivery shall extend not merely to the stolen articles, but to everything that may serve as a proof of the crime.

"ARTICLE XVI.

"All expenses connected with extradition shall be borne by the demanding State.

"ARTICLE XVII.

"When, for the purposes of a criminal matter, not being of a political character, pending in any of its Courts or Tribunals, either Government shall desire to obtain the evidence of witnesses residing in the other State, a 'Commission Rogatoire' to that end shall be sent through the diplomatic channel, and which shall be executed in conformity with the law of the State where the evidence is to be taken.

"The Government which sends the 'Commission Rogatoire' will, however, take all necessary steps and pay all expenses for finding and procuring the attendance before the Magistrate of the witnesses named for examination in such Commission.

"ARTICLE XVIII.

"The stipulations of the present Treaty shall be applicable to the Colonies and foreign possessions of Her Britannic Majesty, so far as the laws for the time being in force in such Colonies and foreign possessions respectively will allow.

"The requisition for the surrender of a fugitive criminal who has taken refuge in any of such Colonies or foreign possessions may be made to the Governor or chief authority of such Colony or possession by the Chief Consular Officer of the Russian Empire in such Colony or possession.

"Such requisitions may be disposed of, subject always, as nearly as may be, and so far as the law of such Colony or foreign possession will allow, to the provisions of this Treaty, by the said Governor or chief authority, who, however, shall be at liberty either to grant the surrender, or to refer the matter to his Government.

"Her Britannic Majesty shall, however, be at liberty to make special arrangements in the British Colonies and foreign possessions for the surrender of Russian criminals who may take refuge within such Colonies and foreign possessions, on the basis, as nearly as may be, and so far as the law of such Colony or foreign possession will allow, of the provisions of the present Treaty.

"Requisitions for the surrender of a fugitive criminal emanating from any Colony or foreign possession of Her Britannic Majesty shall be governed by the rules laid down in the preceding Articles of the present Treaty.

"ARTICLE XV.

"Les objets saisis en la possession de l'individu réclamé au moment de son arrestation seront, si l'autorité compétente de l'État requis en a ordonné la remise, livrés lorsque l'extradition aura lieu; cette remise ne comprendra pas seulement les objets volés, mais encore tout ce qui peut servir de pièce de conviction.

"ARTICLE XVI.

"Toutes les dépenses occasionnées par une demande d'extradition seront à la charge de l'État requérant.

"ARTICLE XVII.

"Lorsque dans la poursuite d'une affaire pénale non politique, l'un des deux Gouvernements jugera nécessaire l'audition de témoins domiciliés dans l'autre État, une Commission Rogatoire sera envoyée à cet effet par la voie diplomatique et il y sera donné suite en observant les lois du pays où l'audition des témoins devra avoir lieu.

"L'État requérant s'engage à faire les démarches nécessaires et de pourvoir aux dépenses pour la recherche et la citation devant le Magistrat des témoins indiqués dans la Commission Rogatoire.

"ARTICLE XVIII.

"Les stipulations du présent Traité seront applicables aux Colonies et possessions étrangères de Sa Majesté Britannique pour autant que faire se pourra d'après les lois en vigueur dans ces Colonies et possessions étrangères respectivement.

"La demande d'extradition d'un criminel qui s'est réfugié dans une de ces Colonies ou possessions étrangères pourra être faite au Gouverneur ou à l'autorité supérieure de cette Colonie ou possession par l'autorité Consulaire principale de l'Empire de Russie dans cette Colonie ou possession.

"Le Gouverneur ou l'autorité supérieure mentionné ci-dessus, décidera à l'égard de telles demandes, en se conformant, autant que faire se pourra, d'après les lois de ces Colonies ou possessions étrangères, aux stipulations du présent Traité. Il sera toutefois libre d'accorder l'extradition ou de soumettre le cas à son Gouvernement.

"Il est réservé toutefois à Sa Majesté Britannique de faire, en se conformant autant que faire se pourra, d'après les lois de ces Colonies ou possessions étrangères, aux stipulations du présent Traité, des arrangements spéciaux dans les Colonies ou possessions étrangères pour l'extradition de criminels Russes qui auraient trouvé un refuge dans ces Colonies ou possessions étrangères.

"Les demandes concernant l'extradition de criminels qui se sont échappés d'une des Colonies ou possessions étrangères de Sa Majesté Britannique seront traitées suivant les dispositions des Articles précédents du présent Traité.

"ARTICLE XIX.

"The present Treaty shall come into force ten days after its publication, in conformity with the forms prescribed by the laws of the High Contracting Parties. It may be terminated by either of the High Contracting Parties at any time on giving to the other six months' notice of its intention to do so.

"The Treaty shall be ratified, and the ratifications shall be exchanged at London as soon as possible.

"In witness whereof the respective Plenipotentiaries have signed the same, and have affixed thereto the seal of their arms.

"Done at London, the twenty-fourth day of November, 1886.

"(L.S.) IDDESLEIGH
(L.S.) STAAL."

"ARTICLE XIX.

"La présente Convention sera exécutoire à dater du dixième jour après sa promulgation, dans les formes prescrites par les lois des deux pays. Chacune des Hautes Parties Contractantes pourra en tout temps mettre fin au Traité en donnant à l'autre six mois à l'avance avis de son intention.

"Elle sera ratifiée, et les ratifications en seront échangées à Londres, aussitôt que faire se pourra.

"En foi de quoi, les Plénipotentiaires respectifs ont signé la présente Convention, et y ont apposé le cachet de leurs armes.

"Fait à Londres, le vingt-quatre Novembre 1886.

And whereas the ratifications of the said Treaty were exchanged at London on the second day of February, one thousand eight hundred and eighty-seven.

Now, therefore, Her Majesty, by and with the advice of Her Privy Council, and in virtue of the authority committed to Her by the said recited Acts, doth order, and it is hereby ordered that from and after the twenty-first day of March, one thousand eight hundred and eighty seven, the said Acts shall apply in the case of Russia, and of the said Treaty with His Majesty the Emperor of Russia.

Provided always, and it is hereby further ordered that the operation of the said Acts shall be suspended within the Dominion of Canada so far as relates to the Russian Empire and to the said Treaty, and so long as the provisions of the Canadian Acts aforesaid continue in force, and no longer.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 28th APRIL, 1887

GENERAL REMARKS.—Rain was heaviest during the past week in Assam. In Madras, Mysore, Bombay, and Barma there were showers in parts. Elsewhere the week has been practically rainless.

The *rabi* harvest has been completed in all the Provinces, with the exception of a few places in Bombay, the Central Provinces, and the Punjab, and threshing operations are now in general progress. Rain still holds off in the Punjab, where prospects show no improvement and where the *rabi* harvest is yielding an outturn below the average in most districts.

Threshing for the *kharif* is in progress in Bombay, the Central Provinces, and Berar, and sowings have begun in Bombay.

Agricultural prospects in Madras are fair, but rain is still wanted in one or two places. The outlook in Mysore and Coorg is satisfactory. The spring rice is promising and is being reaped in Bengal. The early rice sowings are in progress in Bengal and Assam.

Sugarcane is doing well in Bengal, the North-Western Provinces and Oudh, and the Central Provinces, and is being planted in Bombay and Assam.

Indigo is being irrigated in the North-Western Provinces and Oudh, and the crop is coming up well in Bengal. Cotton is being planted in Rajputana and is being picked in Bombay and Madras.

The public health is generally good in all Provinces.

Cattle-disease is chiefly prevalent in Madras, Bombay, and the Central Provinces.

Prices are falling in four districts of the Punjab and in three districts of Mysore. Elsewhere they are generally steady.

Presidency or Province and District	Rainfall for week under report	State of agricultural prospects
Madras—(April 27th)		
Bellary	Average 1	Standing crop generally good. Harvest of rice and cotton yield average. Fever in one and cattle disease increasing in five taluks.
Kurnool		Standing crop good. Harvest cotton outturn below average.

MILITARY SECRETARY'S OFFICE

NOTIFICATION.

Simla, the 4th May, 1887.

His Excellency the Viceroy and Governor-General will hold a *Levée* at the "Viceregal Lodge," at 9-45 P.M., on Tuesday, the 24th May, 1887, in celebration of Her Majesty's Birthday.

All Civil and Military Officers and the Native Officers of the Detachment of the 1st Goorkhas are invited to attend

Gentlemen who have not already been presented at the Court of St James or at the Viceregal Court are requested to send their names and addresses to the Aide-de-Camp in waiting not later than Thursday, the 19th May, 1887, and, in doing so, to add the names of the Gentlemen who will present them, and who must themselves attend the *Levée*. Presentation cards will then be forwarded to them

All Officers and Gentlemen attending the *Levée* are requested to bring with them two cards, with their names *legibly* written thereon—one card to be delivered on entering the "Viceregal Lodge," and the other to the Aide-de-Camp in waiting at the time of presentation

Gentlemen wearing uniform will appear in full dress.

Gentlemen not entitled to wear uniform will appear in evening dress

By Command,

WILLIAM BERESFORD, *Major,*

Military Secretary to the Viceroy.

No. 694.—In continuation of the Notification issued by the Legislative Department, No. 16, dated 7th October, 1886, the following translations of (a) a Convention concerning the creation of an International Union for the Protection of Literary and Artistic Works, and (b) the Final Protocol and Procès-Verbal of Signature subsidiary thereto, are published for general information:—

(a)

Convention concerning the creation of an International Union for the Protection of Literary and Artistic Works.

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India; His Majesty the German Emperor, King of Prussia; His Majesty the King of the Belgians; Her Majesty the Queen Regent of Spain, in the name of His Catholic Majesty the King of Spain; the President of the French Republic; the President of the Republic of Haiti; His Majesty the King of Italy; the President of the

Republic of Liberia; the Federal Council of the Swiss Confederation; His Highness the Bey of Tunis,

Being equally animated by the desire to protect effectively, and in as uniform a manner as possible, the rights of authors over their literary and artistic works,

Have resolved to conclude a Convention to that effect, and have named for their Plenipotentiaries, that is to say :

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Empress of India, Sir Francis Ottiwell Adams, Knight Commander of the Most Distinguished Order of St. Michael and St. George, Companion of the Most Honourable Order of the Bath, her Envoy Extraordinary and Minister Plenipotentiary at Berne; and John Henry Gibbs Bergne, Esquire, Companion of the Most Distinguished Order of St. Michael and St. George, Director of a Department in the Foreign Office at London.

His Majesty the German Emperor, King of Prussia, M. Otto von Bulow, Privy Councillor of Legation, and Chamberlain of His Majesty, his Envoy Extraordinary and Minister Plenipotentiary to the Swiss Confederation.

His Majesty the King of the Belgians, M. Maurice Delfosse, his Envoy Extraordinary and Minister Plenipotentiary to the Swiss Confederation

Her Majesty the Queen Regent of Spain, in the name of His Catholic Majesty the King of Spain; the Count de la Almina, Senator, Envoy Extraordinary and Minister Plenipotentiary to the Swiss Confederation; M. Don José Villa-Amil y Castro, Chief of the Section of Intellectual Property in the Ministry of Public Instruction, Doctor of Civil and Canon Law, Member of the Facultative Corps of Archivists, Librarians, and Archaeologists, and of the Academies of History, of the Fine Arts of St. Ferdinand, and of the Academy of Sciences at Lisbon.

The President of the French Republic, M. François Victor Emmanuel Arago, Senator, Ambassador from the French Republic to the Swiss Confederation.

The President of the Republic of Haiti, M. Louis Joseph Janvier, Doctor of Medicine of the Faculty of Paris, Prizeman of the Faculty of Medicine of Paris, bearing Diplomas from the School of Political Sciences of Paris (Administrative and Diplomatic Sections), decorated with the Haitian Medal of the third class.

His Majesty the King of Italy, M. Charles Emmanuel Becaria des Marquis d'Incisa, Chevalier of the Orders of Saints Maurice and Lazarus, and of the Crown of Italy, his Chargé d' Affaires to the Swiss Confederation

The President of the Republic of Liberia, M. William Kœntzer, Imperial Councillor Consul-General, Member of the Chamber of Commerce of Vienna.

The Federal Council of the Swiss Confederation, M. Numa Droz, Vice-President of the Federal Council, Head of the Department of Commerce and Agriculture; M. Louis Ruchonnet, Federal Councillor, Chief of the Department of Justice and Police; M. A. d'Orelli, Professor of Law at the University of Zurich.

His Highness the Bey of Tunis, M. Louis Renault, Professor to the Faculty of Law of Paris, and to the Free School of Political Sciences, Chevalier of the Order of the Legion of Honour, and Chevalier of the Order of the Crown of Italy.

Who, having communicated to each other their respective full powers, found in good and due form, have agreed upon the following Articles :—

ARTICLE I

The contracting States are constituted into an Union for the protection of the rights of authors over their literary and artistic works.

ARTICLE II.

Authors of any of the countries of the Union, or their lawful representatives, shall enjoy in the other countries for their works, whether published in one of those countries or unpublished, the rights which the respective laws do now or may hereafter grant to natives.

The enjoyment of these rights is subject to the accomplishment of the conditions and formalities prescribed by law in the country of origin of the work, and cannot exceed in the other countries the term of protection granted in the said country of origin.

The country of origin of the work is that in which the work is first published ; or, if such publication takes place simultaneously in several countries of the Union, that one of them in which the shortest term of protection is granted by law.

For unpublished works the country to which the author belongs is considered the country of origin of the work.

ARTICLE III.

The stipulations of the present Convention apply equally to the publishers of literary and artistic works published in one of the countries of the Union, but of which the authors belong to a country which is not a party to the Union.

ARTICLE IV.

The expression "literary and artistic works" comprehends books, pamphlets, and all other writings ; dramatic or dramatico-musical works, musical compositions with or without words ; works of design, painting, sculpture, and engraving, lithographs, illustrations, geographical charts ; plans, sketches, and plastic works relative to geography, topography, architecture, or science in general, in fact, every production whatsoever in the literary, scientific, or artistic domain which can be published by any mode of impression or reproduction.

ARTICLE V.

Authors of any of the countries of the Union, or their lawful representatives, shall enjoy in the other countries the exclusive right of making or authorizing the translation of their works until the expiration of ten years from the publication of the original work in one of the countries of the Union.

For works published in incomplete parts ("livraisons"), the period of ten years commences from the date of publication of the last part of the original work.

For works composed of several volumes published at intervals, as well as for bulletins or collections ("cahiers") published by literary or scientific Societies, or by private persons, each volume, bulletin, or collection is, with regard to the period of ten years, considered as a separate work.

In the cases provided for by the present article, and for the calculation of the period of protection, the 31st December of the year in which the work was published is admitted as the date of publication.

ARTICLE VI.

Authorized translations are protected as original works. They consequently enjoy the protection stipulated in Articles II and III as regards their unauthorized reproduction in the countries of the Union.

It is understood that, in the case of a work for which the translating right has fallen into the public domain, the translator cannot oppose the translation of the same work by other writers.

ARTICLE VII.

Articles from newspapers or periodicals published in any of the countries of the Union may be reproduced in original or in translation in the other countries of the Union, unless the authors or publishers have expressly forbidden it. For periodicals it is sufficient if the prohibition is made in a general manner at the beginning of each number of the periodical.

This prohibition cannot in any case apply to articles of political discussion, or to the reproduction of news of the day or *current topics*.

ARTICLE VIII.

As regards the liberty of extracting portions from literary or artistic works for use in publications destined for educational or scientific purposes, or for chrestomathies, the matter is to be decided by the legislation of the different countries of the Union, or by special arrangements existing or to be concluded between them.

ARTICLE IX.

The stipulations of Article II apply to the public representation of dramatic or dramatico-musical works, whether such works be published or not.

Authors of dramatic or dramatico-musical works, or their lawful representatives, are, during the existence of their exclusive right of translation, equally protected against the unauthorized public representation of translations of their works.

The stipulations of Article II apply equally to the public performance of unpublished musical works, or of published works in which the author has expressly declared on the title-page or commencement of the work that he forbids the public performance

ARTICLE X.

Unauthorized indirect appropriations of a literary or artistic work of various kinds, such as *adaptations, arrangements of music, &c.*, are specially included amongst the illicit reproductions to which the present Convention applies, when they are only the reproduction of a particular work, in the same form, or in another form, with non-essential alterations, additions, or abridgments, so made as not to confer the character of a new original work.

It is agreed that, in the application of the present article, the tribunals of the various countries of the Union will, if there is occasion, conform themselves to the provisions of their respective laws.

ARTICLE XI.

In order that the authors of works protected by the present Convention shall, in the absence of proof to the contrary, be considered as such, and be consequently admitted to institute proceedings against pirates before the Courts of the various countries of the Union, it will be sufficient that their name be indicated on the work in the accustomed manner.

For anonymous or pseudonymous works, the publisher whose name is indicated on the work is entitled to protect the rights belonging to the author. He is, without other proof, reputed the lawful representative of the anonymous or pseudonymous author.

It is, nevertheless, agreed that the tribunals may, if necessary, require the production of a certificate from the competent authority to the effect that the formalities prescribed by law in the country of origin have been accomplished as contemplated in Article II.

ARTICLE XII.

Pirated works may be seized on importation into those countries of the Union where the original work enjoys legal protection.

The seizure shall take place conformably to the domestic law of each State.

ARTICLE XIII.

It is understood that the provisions of the present Convention cannot in any way derogate from the right belonging to the Government of each country of the Union to permit, to control, or to prohibit, by measures of domestic legislation or police, the circulation, representation, or exhibition of any works or productions in regard to which the competent authority may find it necessary to exercise that right.

ARTICLE XIV.

Under the reserves and conditions to be determined by common agreement,* the present Convention applies to all works which at the moment of its coming into force have not yet fallen into the public domain in the country of origin.

ARTICLE XV.

It is understood that the Governments of the countries of the Union reserve to themselves respectively the right to enter into separate and particular arrangements between each other, provided always that such arrangements confer upon authors or their lawful representatives more extended rights than those granted by the Union, or embody other stipulations not contrary to the present Convention.

ARTICLE XVI.

An International Office is established, under the name of "Office of the International Union for the Protection of Literary and Artistic Works."

* See para. 4 of Final Protocol, p. 224.

This office, of which the expenses will be borne by the Administrations of all the countries of the Union, is placed under the high authority of the superior Administration of the Swiss Confederation, and works under its direction. The functions of this office are determined by common accord between the countries of the Union.

ARTICLE XVII.

The present Convention may be submitted to revisions in order to introduce therein amendments calculated to perfect the system of the Union.

Questions of this kind, as well as those which are of interest to the Union in other respects, will be considered in Conference to be held successively in the countries of the Union by Delegates of the said countries.

It is understood that no alteration in the present Convention shall be binding on the Union except by the unanimous consent of the countries composing it.

ARTICLE XVIII.

Countries which have not become parties to the present Convention, and which grant by their domestic law the protection of rights secured by this Convention, shall be admitted to accede thereto on request to that effect.

Such accession shall be notified in writing to the Government of the Swiss Confederation, who will communicate it to all the other countries of the Union.

Such accession shall imply full adhesion to all the clauses and admission to all the advantages provided by the present Convention.

ARTICLE XIX.

Countries acceding to the present Convention shall also have the right to accede thereto at any time for their Colonies or foreign possessions.

They may do this either by a general declaration comprehending all their Colonies or possessions within the accession, or by specially naming those comprised therein, or by simply indicating those which are excluded.

ARTICLE XX.

The present Convention shall be put in force three months after the exchange of the ratifications, and shall remain in effect for an indefinite period until the termination of a year from the day on which it may have been denounced.

Such denunciation shall be made to the Government authorized to receive accessions, and shall only be effective as regards the country making it, the Convention remaining in full force and effect for the other countries of the Union.

ARTICLE XXI.

The present Convention shall be ratified, and the ratifications exchanged at Berne, within the space of one year at the latest.

In witness whereof, the respective Plenipotentiaries have signed the same, and have affixed thereto the seal of their arms.

Additional Article.

The Plenipotentiaries assembled to sign the Convention concerning the creation of an International Union for the Protection of Literary and Artistic Works have agreed upon the following additional Article, which shall be ratified together with the Convention to which it relates:

The Convention concluded this day in no wise affects the maintenance of existing Conventions between the contracting State, provided always that such Conventions confer on authors, or their lawful representatives, rights more extended than those secured by the Union, or contain other stipulations which are not contrary to the said Convention.

In witness whereof, the respective Plenipotentiaries have signed the present additional Article.

(b)*Final Protocol.*

In proceeding to the signature of the Convention concluded this day, the undersigned Plenipotentiaries have declared and stipulated as follows:

1. As regards Article IV, it is agreed that those countries of the Union where the character of artistic works is not refused to photographs engage to admit them to the benefits of the Convention concluded to-day, from the date of its coming into effect. They are, however, not bound to protect the authors of such works further than is permitted by their own legislation, except in the case of international engagements already existing, or which may hereafter be entered into by them.

It is understood that an authorized photograph of a protected work of art shall enjoy legal protection in all the countries of the Union, as contemplated by the said Convention, for the same period as the principal right of reproduction of the work itself subsists, and within the limits of private arrangements between those who have legal rights.

2. As regards Article IX, it is agreed that those countries of the Union whose legislation implicitly includes choreographic works amongst dramatico-musical works expressly admit the former works to the benefits of the Convention concluded this day.

It is, however, understood that questions which may arise on the application of this clause shall rest within the competence of the respective tribunals to decide.

3. It is understood that the manufacture and sale of instruments for the mechanical reproduction of musical airs which are copyright shall not be considered as constituting an infringement of musical copyright.

4. The common agreement alluded to in Article XIV of the Convention is established as follows:—

The application of the Convention to works which have not fallen into the public domain at the time when it comes into force shall operate according to the stipulations on this head which may be contained in special Conventions either existing or to be concluded.

In the absence of such stipulations between any countries of the Union, the respective countries shall regulate, each for itself, by its domestic legislation, the manner in which the principle contained in Article XIV is to be applied.

5. The organization of the International Office established in virtue of Article XVI of the Convention shall be fixed by a Regulation which shall be drawn up by the Government of the Swiss Confederation.

The official language of the International Office will be French.

The International Office will collect all kinds of information relative to the protection of the rights of authors over their literary and artistic works. It will arrange and publish such information. It will study questions of general utility likely to be of interest to the Union; and, by the aid of documents placed at its disposal by the different Administrations, will edit a periodical publication in the French language treating questions which concern the Union. The Governments of the countries of the Union reserve to themselves the faculty of authorizing, by common accord, the publication by the office of an edition in one or more other languages if experience should show this to be requisite.

The International Office will always hold itself at the disposal of members of the Union, with the view to furnish them with any special information they may require relative to the protection of literary and artistic works.

The Administration of the country where a Conference is about to be held will prepare the programme of the Conference with the assistance of the International Office.

The Director of the International Office will attend the sittings of the Conferences, and will take part in the discussions without a deliberative voice. He will make an annual report on his Administration, which shall be communicated to all the members of the Union.

The expenses of the Office of the International Union shall be shared by the contracting States. Unless a fresh arrangement be made, they cannot exceed a sum of 60,000 francs a year. This sum may be increased by the decision of one of the Conferences provided for in Article XVII.

The share of the total expense to be paid by each country shall be determined by the division of the contracting and acceding States into six classes, each of which shall contribute in the proportion of a certain number of units, *viz.* :—

1st class	25 units.
2nd „	20 „
3rd „	15 „
4th „	10 „
5th „	5 „
6th „	3 „

These coefficients will be multiplied by the number of States of each class, and the total product thus obtained will give the number of units by which the total expense is to be divided. The quotient will give the amount of the unity of expense.

Each State will declare, at the time of its accession, in which of the said classes it desires to be placed.

The Swiss Administration will prepare the Budget of the office, superintend its expenditure, make the necessary advances, and draw up the annual account; which shall be communicated to all the other Administrations.

6. The next Conference shall be held at Paris between four and six years from the date of the coming into force of the Convention.

The French Government will fix the date within these limits after having consulted the International Office.

7. It is agreed that, as regards the exchange of ratifications contemplated in Article XXI, each Contracting Party shall give a single instrument, which shall be

deposited, with those of the other States, in the Government archives of the Swiss Confederation. Each party shall receive in exchange a copy of the *procès-verbal* of the exchange of ratifications signed by the Plenipotentiaries present.

The present Final Protocol, which shall be ratified with the Convention concluded this day, shall be considered as forming an integral part of the said Convention, and shall have the same force, effect, and duration.

In witness whereof the respective Plenipotentiaries have signed the same.

Done at Berne, the 9th day of September 1886.

Procès-verbal of Signature.

The undersigned Plenipotentiaries, assembled this day to proceed with the signature of the Convention with reference to the creation of an International Union for the Protection of Literary and Artistic Works, have exchanged the following declarations :

1. With reference to the accession of the Colonies or foreign possessions provided for by Article XIX of the Convention :

The Plenipotentiaries of His Catholic Majesty the King of Spain reserve to the Government the power of making known His Majesty's decision at the time of the exchange of ratifications.

The Plenipotentiary of the French Republic states that the accession of his country carries with it that of all the French Colonies.

The Plenipotentiaries of Her Britannic Majesty state that the accession of Great Britain to the Convention for the Protection of Literary and Artistic Works comprises the United Kingdom of Great Britain and Ireland, and all the Colonies and foreign possessions of Her Britannic Majesty.

At the same time, they reserve to the Government of Her Britannic Majesty the power of announcing at any time the separate denunciation of the Convention by one or several of the following Colonies or possessions, in the manner provided for by Article XX of the Convention, namely :—

India, the Dominion of Canada, Newfoundland, the Cape, Natal, New South Wales, Victoria, Queensland, Tasmania, South Australia, Western Australia, and New Zealand.

2. With respect to the classification of the countries of the Union having regard to their contributory part to the expenses of the International Bureau (No. 5 of the Final Protocol) :

The Plenipotentiaries declare that their respective countries should be ranked in the following classes, namely :

- Germany in the 1st class.
- Belgium in the 3rd class.
- Spain in the 2nd class.
- France in the 1st class.
- Great Britain in the 1st class.
- Haiti in the 5th class.
- Italy in the 1st class.
- Switzerland in the 3rd class.
- Tunis in the 6th class.

The Plenipotentiary of the Republic of Liberia states that the powers which he has received from his Government authorize him to sign the Convention, but that he has not received instructions as to the class in which his country proposes to place itself with respect to the contribution to the expenses of the International Bureau. He therefore reserves that question to be determined by his Government, who will make known their intention on the exchange of ratifications.

In witness whereof, the respective Plenipotentiaries have signed the present *procès-verbal*.

Done at Berne, the 9th day of September 1886.

(Signed)

For Great Britain	F. O. ADAMS.
			J. H. G. BERGNE.
For Germany	OTTO von BULOW.
For Belgium	MAURICE DELFOSSE.
For Spain	ALMINA.
			VILLA-AMIL.
For France	EMMANUEL ARAGO.
For Haiti	LOUIS JOSEPH JANVIER.
For Italy	E. DI BECCARIA.
For Liberia	KÖNTZER.
For Switzerland	DROZ.
			L. RUCHONNET.
			A. D'ORELLI.
For Tunis	L. RENAULT.

A. P. MACDONNELL,

Secretary to the Government of India.

REVENUE AND AGRICULTURAL DEPARTMENT.

GOVERNMENT OF INDIA
HOME DEPARTMENT

REVIEW OF THE REGISTRATION REPORTS OF THE SEVERAL PROVINCES FOR THE
YEAR 1885-86

No. 91—49

*Extract from the Proceedings of the Government of India in the Home Department (Public),—
under date Simla, the 29th April, 1887*

Read—

Home Department Resolution No. 19¹³ dated the 4th June 1886, reviewing the
Registration Reports of the several Provinces for the year 1881-85

Read also—

The Registration Reports of the several Local Governments and Administrations for the
year 1885-86

R E S O L U T I O N .

OBSERVATIONS.—The Governor-General in Council is again glad to observe that the reports of the year under review testify to a satisfactory advance in the operations of the Department. The total number of registrations during the year, compared with the figures of the previous year, are shown in the

1881-85	1,627,610	margin.
1885-86	1,752,622	appended statement is general to all Provinces, with the exception of Punjab and

Cooch, where the operations of the Department were of a stationary character, and of Burma, where they were slightly retrograde, owing to the disturbances during the year. The gross receipts of the Department increased in all Provinces, except in Cooch, where the decline was nominal. The expenditure rose in seven Provinces and declined in four. On the whole, the development of registration in the several Provinces is regarded by the Government of India as indicative of the increasing popularity of the Department. The following observations on the various Provincial reports will show the extent to which progress has been made, and its more salient features in each Province.

2. *Madras*.—Registrations which in the year 1876-77 amounted in the Madras Presidency to 251,405 have risen year by year until they numbered 584,224 in the year under report. The increase was common to all districts in the Presidency, except the Nilgiris, where there was a decline from 1,158 to 999, which is attributed to the collapse of speculations in gold-mining and to the failure of the coffee crops. The percentage of increase of compulsory registrations was 10.7, and of optional registrations 15.2. The percentage of optional to total registrations advanced from 51.5 to 53.3—a rise which is said to be largely due to the reduction in May 1881 of the fees for registering documents of small value.

The financial results also continue satisfactory. The receipts and expenditure of the Department were respectively Rs. 8,38,455 and Rs. 6,59,850, compared with Rs. 7,45,550 and Rs. 6,99,182 in the preceding year. The charges were less owing to a reduction in the expenditure on buildings from Rs. 1,27,284 to Rs. 40,318. The surplus revenue of the year, amounting to Rs. 1,78,605, was the largest net revenue hitherto realized.

3. *Bombay*.—In the Bombay Presidency the number of registrations increased by 1,380 transactions, or about 1.29 per cent., the increase being, it is said, mainly due to the large number of Hindu marriages and thread ceremonies which took place. The decline which occurred in eleven districts is attributed to recent legislation exempting notices of relinquishment of land from registration:

717 transactions only of this class were registered as compared with 4,132 in the preceding year. The receipts of the Department were greater and the expenditure less than in the previous year. The system of registration by a peripatetic agency, which was in force in four districts, has been extended so as to include the jurisdiction of three more sub-registrars in the districts of Ahmedabad, Poona, and Belgaum. In the last two districts the experiment is said to have been attended with unqualified success. It has since been extended to one more office in the Thana district.

4. *Bengal*.—In the Lower Provinces of Bengal there has again been an increase in the number of registrations under all the principal heads. Compulsory registrations increased from 371 730 to 386,632, or by 3.01 per cent, and optional registrations from 313,650 to 337,869, or by 7.72 per cent. The percentage of optional to total registrations was 46.67, or 1.11 per cent, higher than in the year 1884-85. In the orders on the report for the year 1881-85 special attention was directed to the marked increase in registration of deeds of sale of petty holdings and leases of agricultural land. In the year under review deeds recording 120,381 such transactions were registered as compared with 115,540 in the previous year. The Lieutenant-Governor maintains the opinion that the increase is probably due to a greater appreciation of the benefits of registration rather than to pressing necessity or agricultural depression. The operations under the Muhammadan Marriage Registration Act were only slightly in excess of those in the previous year, being 7,524 against 7,110 in 1881-85—a fact which seems to show that the Act has not yet come to be greatly appreciated. Rules for the regulation of registration in connection with the Tenancy Act have been sanctioned since the close of the year, and the effect of the working of that Act upon the Registration Department will, as remarked by the Government of Bengal, require close attention.

5. *North-Western Provinces and Oudh*.—In the North-Western Provinces and Oudh there was a moderate increase under each class of document registered, the total increase amounting to 7,817 for the united Provinces. The increase in compulsory registrations was proportionally far greater (7.8 per cent) in Oudh than (1.2 per cent) in the North-Western Provinces; while, on the other hand, the increase in optional registrations affecting both movable and immovable property was most marked in the North-Western Provinces. The rise in optional registrations in the North-Western Provinces is satisfactory as indicative of some recovery from the downward tendency of past years. An examination of the statistics relating to the sale and mortgage of land shows that in respect to the number of mortgages, whether compulsory or optional, there is no material difference between the North-Western Provinces and Oudh; but execution sales are far more rare in Oudh than in the sister Province. The reasons ascribed by the Inspector General of Registration for this difference are, as noticed by the Lieutenant-Governor, inconclusive, and the matter should continue to receive attention. The large increase in the number of sales and mortgages, both of the optional and compulsory class, in the Family Domains of the Maharaja of Benares has attracted the notice of the Local Government, and the attention of the Board of Revenue has been drawn to the subject with a view to ascertaining whether the inference of the Deputy Superintendent of the Domains is in point of fact correct, that “an already heavily indebted body of cultivators are becoming still more hopelessly involved.”

The gross receipts of the Department increased by Rs. 9,077, and the expenditure was less than in the previous year.

6. *Punjab*.—In the Punjab the results of the year under review did not differ materially from those of the preceding year. There was again a slight decline in the total number of registrations, due to a falling off in the number of registrations belonging to the optional class. This decline was, however, counter-balanced by an increase in the number of compulsory registrations. Special registrations under the provisions of Section 89 of the Registration Act fell off from 3,446 to 2,388, owing to a smaller amount having been advanced as *takari* compared with the previous year. The income and expenditure of the year

were respectively Rs. 1,77,661 and Rs. 1,00,842 against Rs. 1,74,564 and Rs. 1,00,147 in the year 1884-85. The new Revenue Rules, whereby mutations of possession of land are recorded by tahsildars on the spot on the oral admission of the parties, together with the fact that the Transfer of Property Act is not in force in the Punjab, will, the Inspector-General of Registration considers, have the effect of gradually diminishing the registration of deeds relating to land. Sir Charles Aitchison does not share in this apprehension, and observes that there is nothing new in the principle of the new Revenue Rules, which are mainly intended to carry out more efficiently than has hitherto been done the arrangements for mutations of names in the Revenue record. The principle of replacing official by non-official agency was further extended during the year; but the Inspector General is not hopeful of the success of the measure unless the non-official sub-registrars are carefully selected and the work properly supervised. The Lieutenant-Governor has drawn the attention of district officers to this point, and has impressed upon them the necessity of sparing no effort in order to improve the efficiency of the offices of non-official sub-registrars. The system of employing tahsildars at district head-quarters as joint sub-registrars was continued throughout the year, but did not prove satisfactory, as sadr tahsildars have very little leisure to attend properly to registration duties. Measures are therefore being taken to gradually relieve them of such work.

7. *Central Provinces*.—The results of the operations in the Central Provinces indicate a satisfactory increase of business compared with the preceding year. The total number of documents registered was 21,695 against 22,289 in the previous year, showing an increase of 10 per cent. Of this increase nearly one-half occurred in the registration of documents of the optional class, and was for the most part confined to the districts of Chhindwara, Nagpur, Narsinghpur, and Hoshangabad. The largest increase in the registration of such documents occurred in Chhindwara, where it amounted to 1,336, owing to the abnormally large number of leases presented for registration. Excluding Chhindwara, the districts in which the business of the Department was relatively large are those situated on the railway line, where there is a greater demand for document stamps, and where written contracts appear to be more popular than elsewhere. One of the most important reforms carried out during the year was the substitution of special for *ex-officio* sub-registrars in places where there is a considerable amount of business. Owing to the increase of expenditure due to reforms effected in the Department from 35,766 to 41,530, the net receipts of the Department (Rs. 30,995) are smaller than those in the preceding year (Rs. 32,288).

8. *Burma*.—In Lower Burma there was a slight falling off in the total number of registrations. The decline was due to slackness of trade and the disturbances consequent on the war in Upper Burma. The decrease occurred principally in compulsory registrations affecting immovable property. Optional registrations affecting immovable property and movable property increased from 17.9 per cent. in 1884-85 to 20.8 per cent. in the year under review. The proportion of compulsory registrations affecting immovable property was 78.9 per cent. compared with 81.6 in the preceding year. The receipts of the Department rose slightly, but were balanced by a corresponding rise in expenditure incurred in connexion with the establishment of 25 new sub-registration offices. Since the beginning of the year 1886-87, a revised table of fees has been brought into force, the effect of which is to lower the fees paid on documents of small value and to raise those on documents of high value. This change will, it is hoped, encourage optional registrations. The Chief Commissioner has rightly impressed upon district officers the necessity of inspecting the registration offices within their districts, and the Governor-General in Council trusts that the current year's report will show an improvement in this respect.

9. *Assam*.—There was an increase in the total number of registrations in Assam as compared with the previous year. This advance was due to the rise from 12,101 to 13,206 in the total number of documents registered in the Sylhet district. In all the other districts, except at Sibsagar, where

there was some increase, the number of registration remained almost the same as in the previous year. Of the total registrations (numbering 21,213), 18,188 were contributed by the Surma Valley districts of Cachar and Sylhet, and 2,948 by the Assam Valley districts. In the former registration operations has doubled in extent since the year 1881-82, while in the latter they have remained stationary for some years, the explanation for this being the difference in the tenures of land which prevail in the two valleys. The number of registrations affecting immovable property rose from 15,598 to 18,650. This rise is said to be due mainly to the effect of the Transfer of Property Act, 1882, the provisions of which are gradually becoming known, and partly to a growing appreciation of the advantages of registration. The Chief Commissioner considers that the land revenue registration proceedings to be taken under the Assam Land and Revenue Regulation, 1886, will probably lead to a further expansion of business under this head.

10. *Coorg*.—In Coorg there was a slight decrease in the total number of registrations, due to a falling off in the number of documents relating to immovable property registered in the Mercara taluk, which has suffered from the failure and abandonment of coffee gardens. A satisfactory feature of the report is the steady increase in the number of optional registrations, the percentage of which on total registrations amounted to 30.63 during the year.

11. *Hyderabad Assigned Districts*.—In the Hyderabad Assigned Districts the total number of registrations increased from 25,049 to 26,652, or by 6.3 per cent. Every district contributed to this increase, except Bassim, where there was a slight decline in optional registrations affecting both immovable and movable property. The provincial increase chiefly occurred under the head of "compulsory registrations," which advanced in every district. Optional registrations relating to immovable property increased in every district except Bassim, while registrations of the same class relating to movable property advanced in three and declined in the same number of districts. The Inspector-General of Registration is of opinion that the increase in the registration of documents affecting movable property will not keep pace with the growth of registration of documents affecting immovable property, as in his opinion in which the Resident concurs, the advantages that registered documents of the former class have over unregistered documents of the same kind hardly afford sufficient inducement to registration. The receipts and expenditure of the Department amounted respectively to Rs. 59,838 and Rs. 36,788 compared with Rs. 56,836 and Rs. 35,466 in the year 1884-85.

In the cantonment of Secunderabad the number of documents registered was 636 against 516 in the previous year. The receipts amounted to Rs. 2,053 and the expenditure to Rs. 776.

ORDER.—Ordered, that a copy of this Resolution be forwarded to the Local

HOME DEPARTMENT.

ARRANGEMENTS MADE WITH THE FIRM OF MESSRS THOMAS COOK AND SON FOR
THE CONVEYANCE OF PILGRIMS FROM INDIA TO THE HEDJAZ AND BACK

No. 102-111

*Extract from the Proceedings of the Government of India in the Home Department (Sanitary),
—under date Simla, the 31st May 1887.*

Read—

Home Department Resolution No. 21,377, dated the 21st January 1886, on the subject of the arrangements made with the firm of Messrs. Thomas Cook & Son for the conveyance of pilgrims from India to Jeddah and back.

R E S O L U T I O N .

In paragraph 3 of the Resolution cited in the preamble, it was announced that the Government of India contemplated the appointment of Messrs. Thomas Cook & Son to be pilgrim agents for the whole of India, and the outlines of the scheme then adopted for the improvement of arrangements for the conveyance of pilgrims to and from the Hedjaz were sketched. The Government of India has recently been in personal communication with Mr. F. H. Cook, the representative of the firm of Messrs. Thomas Cook & Son, who has come to India with the object of carrying the proposed arrangements into effect. The Governor-General in Council is now pleased to notify, for the information of the public, the arrangements which have been completed with that firm for the better ordering of the pilgrim traffic.

2. The understanding upon which Messrs. Thomas Cook & Son have been appointed pilgrim agents is that the arrangements shall last for three years from the beginning of 1887, and shall be terminable at the end of that period at the option of either the Government or Messrs. Cook & Son. In the event of Government withdrawing after three years from the arrangement Messrs. Cook & Son will be at liberty to continue it as a private enterprise. It is, of course, understood that, though Government gives its countenance and assistance to Messrs. Cook & Son's enterprise, it has no desire to constitute a monopoly in favour of the firm. As, however, the firm engages to convey pilgrims to Jeddah at a fair charge, to protect them while on the journey from extortion and ill-treatment, and to provide them with such comforts and facilities in the way of supplies of food and banking arrangements as may be found desirable and practicable, the Government is satisfied that pilgrims will do well to take advantage of the firm's arrangement. The charges to pilgrims will consist of (1) railway fare; (2) steamship fare; (3) landing charge at Jeddah. The railway fares will be fixed sums; and as they will follow the railway tariffs, the amount will depend upon the distance of the place of departure from Bombay. The steamship fare will also be a fixed sum, which has been settled for the current season by the Government of India on the representation of Mr. F. H. Cook and the advice of the Government of Bombay as follows :

			Rs
Single tickets from Bombay to Jeddah, 1st class	...		60
Ditto ditto 2nd class	...		40
Ditto ditto 3rd class	...		30
Return tickets from Bombay to Jeddah and back, 1st class	...		90
Ditto ditto 2nd class	...		60
Ditto ditto 3rd class	...		45

Tickets, which will include the railway and steamer fares either to Jeddah or to Jeddah and back, and passports [which can be *vised* by Messrs. Cook & Son at Bombay] will be kept for sale at the office of the Collector (or Deputy Commissioner) of every district in India, who will be supplied by the firm through the Local Governments and Administrations with a requisite supply of tickets and passports for issue. A register will be kept up in the office of issue in the form appended to this Resolution in order to facilitate the refund of the cost of tickets in cases in which they

are not availed of. A copy of the entries in the first three columns of this register will be sent monthly by each district officer to Messrs. Thomas Cook & Son at Bombay, and the amount realized by the sale of tickets, which may in the meantime be deposited in the Treasury, will at the same time be remitted to Messrs. Thomas Cook & Son by means of a transfer receipt issued at par.

3. It has been arranged with Messrs. Thomas Cook & Son that the cost of tickets shall be refunded to the purchasers, or in case of their death to their heirs, should the holders of them be unable to start on the pilgrimage owing to illness or any other cause. Should a pilgrim die on the pilgrimage while under the charge of Messrs. Cook & Son's agents, the unused portion of the steamer ticket held by him will be recovered by such agents, and its value refunded by the firm through the Treasury and the District Officer to the pilgrim's heirs. If a pilgrim does not wish to return to India, he may, by delivering the unused portion of his steamer ticket to Messrs. Cook & Son's agent at Jeddah, obtain a refund of the price of such unused portion. The question of refunding the value of the unused portion of tickets for the railway journey is still under discussion; but Messrs. Thomas Cook & Son hope to be able to establish a system by which refunds of the price of unused railway tickets may, in the circumstances alluded to above, be also introduced.

4. Messrs. Cook & Son have engaged to send a Muhammadan employé of the firm on each steamer to see that the pilgrims are properly taken care of; and a Muhammadan doctor will accompany each steamer. The firm will be prepared to send at ten days' notice from any district a Muhammadan to accompany any party of pilgrims to Bombay, provided that the party consists of at least 30 persons. Arrangements have been made to enable pilgrims to deposit cash at a small charge at Messrs. Cook & Son's agency at Bombay, and to draw it at the firm's agency at Jeddah; and it is in contemplation to make provision whereby pilgrims will be able with full regard to religious customs to purchase food on board steamer at moderate rates.

5. Messrs. Thomas Cook & Son have agreed to submit their accounts for audit during the years for which Government has granted to them a guarantee against actual loss in the execution of these arrangements up to £2,000 for the first year and £1,000 for each of the two following years. It has been arranged that the audit of accounts shall be undertaken in the office of the Accountant-General, Bombay; and the Government of Bombay is requested to issue the necessary instructions to that officer, who may, if necessary, decide under its instructions in what form the accounts of the firm should be kept. The result of the audit will be communicated through the Government of Bombay to the Government of India.

6. Messrs. Cook & Son have prepared a prospectus, which has been approved by the Government of India, regarding the arrangements which are summarized above. Copies of this prospectus are herewith forwarded in order that they may be circulated as widely as possible. Local Governments and Administrations are requested to notify to this office, with as little delay as practicable, the number of additional copies that may be required.

7. The Governor-General in Council now leaves it to the Local Governments and Administrations to issue the subsidiary orders necessary to ensure that every facility is afforded to pilgrims who wish to provide themselves with tickets and passports. He also desires that district officers should be instructed to give the widest possible publicity to the advantages which will be secured by the purchase of return tickets. In fine, no effort should be spared to make known and explain the objects which His Excellency in Council has in view, and to facilitate the issue of tickets and passports in order that a full and fair trial may be given to the scheme as now made public.

ORDER.—Ordered, that a copy of this Resolution be forwarded to all Local Governments and Administrations and to the Foreign and Financial Departments for information and guidance, and for the issue of such subsidiary orders as may be necessary.

Ordered also, that a copy of this Resolution be published in the Supplement to the *Gazette of India*.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

Weather Review of India for the week ending the 30th April, 1887.

The general distribution of pressure over India during the present week has been very similar to that prevailing during the preceding seven days. During the whole period readings have been relatively low over the central parts of Northern India and relatively high over the Indus Valley, the Coasts of the Peninsula, Assam and Arakan. Within the central area of relative depression two distinct minima were shown on most days, one overlying the south of the Punjab, the second the Central Provinces and Western Bengal. The positions of these minima occasioned an important modification in the direction of the winds over the Gangetic plain, which changed from north west and west to south-east and east at the majority of stations—more particularly at those in the eastern half of the plain. This alteration occasioned a brisk increase in the relative humidity which considerably exceeded the average in North Bengal, Behar, and the Trans-Gangetic divisions of the North-West Provinces. With this exception, the general aerial circulation was similar to that of the preceding week; north-westerly to westerly winds prevailing in Western India, south-south-easterly winds in the Carnatic, and southerly strong winds over the head of the Bay. During Thursday the 28th a southerly gale was blowing at Saugor Island with a very rough sea, and on the same day strong southerly winds and unsettled weather were reported from the neighbourhood of Ceylon.

The rainfall of the week was more or less confined to Assam and Lower Bengal on the one hand and the Peninsula on the other, within which limits the amount received was fully equal to the average. A slight shower fell at Murree and Bareilly on the 29th and a few drops at Amraoti on the 30th, but with these exceptions there was no rain throughout the week over the whole of Upper and Central India, Sind, Guzerat, Khandesh, and the greater part of the Deccan. At Darjeeling and the Assam stations rain fell on every day throughout the week—in Lower Bengal on the 29th and 30th; in some parts of Burma on every day except the 29th and 30th; and in the Peninsula and Ceylon on every day of the week. On the morning of the 28th as much as 6 inches of rain was reported from Colombo, and moderately heavy showers fell all over the south of the Peninsula on the succeeding day. On the 29th and 30th dusthaze and duststorms prevailed very generally throughout Northern India.

The table of seasonal rainfall shows a steady increase in the amount of deficiency over Northern India. At Peshawar, Lahore, Sirsa and Meerut the total rainfall received between the 1st of November 1886 and the 30th of April 1887 amounts to only 35, 17, 28, and 72 per cent. respectively of the average. The following table gives the actual and average rainfall up to date:

Stations.				Actual rainfall from 1st November 1886 to 30th April 1887.	Average rain- fall from 1st November 1886 to 30th April 1887	Difference.
Multan	0 64	1 75	—1 11
Peshawar	2 13	6 99	—4 56
Murree	10 37	13 92	—3 55
Rawalpindi	4 95	10 30	—5 32
Lahore	0 62	3 53	—2 91
Simla	10 83	11 04	—0 21
Delhi	2 19	3 08	—0 59
Roorkee	4 06	5 66	—1 60
Meerut	2 76	3 82	—1 06
Bareilly	3 62	3 13	+ 0 19
Agra	1 13	1 09	—0 56
Lucknow	1 25	1 76	—0 48
Allahabad	4 58	1 79	+ 2 79
Darjeeling	10 84	8 11	+ 2 23
Calcutta	5 42	5 97	—0 55

The final table shows that the mean pressure of the week was below the average of the month in all places except North Bengal, Assam and Ceylon, where there was a trifling excess. The deficiency was greater in Upper India, Sind and Rajputana than in the Peninsula, and was least in Burma. The variations of temperature from the normal average were, at least over Northern India, the reverse of those of pressure, there being a deficit in North Bengal and Assam and an excess elsewhere. In the south of the Peninsula, however, there was also a deficiency. The day temperatures during the week were high all over Northern India, the maximum being 111° at Agra on the 27th.

Districts	Difference of Baromet. from mean April 1st to April 30th	Difference of Temperature from mean April 1st to April 30th	Difference of Humidity from mean April 1st to April 30th	Total Rainfall in week, April 24th to April 30th

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 5th MAY, 1887

GENERAL REMARKS—Rain has been heavy in Assam, and a fair amount has also fallen in most districts of Bengal. Slight showers have occurred in parts of the Deccan and Southern Mahratta Country and the North-Western Provinces and Oudh. Elsewhere the week has been rainless.

No reports have been received from Madras, Mysore and Coorg, Berar, and Burma for the week under notice.

The *rabi* harvest still continues in Hyderabad and a few places in Bombay, the Central Provinces, and the Punjab, and threshing operations are in active progress everywhere. The outlook is still unsatisfactory in the Punjab, where there was no rain again during the week under review.

Kharif operations have commenced in the North-Western Provinces and Oudh, and continue in Bombay and the Central Provinces. The spring rice harvest is being reaped in Bengal, and the sowings for the early rice are progressing in Bengal and Assam.

Sugarcane is in good condition in Bengal and the Central Provinces, and is being planted in Assam and the North-Western Provinces and Oudh.

Indigo prospects are favourable in Bengal, and the crop is being irrigated in the North-Western Provinces and Oudh. Cotton picking is approaching completion in Bombay.

The public health is generally good, except in Bengal, where cholera is reported from several districts.

Cattle-disease exists chiefly in Bombay and the Central Provinces. In the Shahpur district of the Punjab the cattle are reported to be starving.

Prices are falling in four and rising in three districts of the Punjab, and are fluctuating in the North-Western Provinces and Oudh. Elsewhere they are generally steady.

Presidency or Province and District	Rainfall for week under report	State of agricultural prospects
Bombay—(May 4th)		
Karachi	Nil	River at Kotri on 2nd, 7 feet against 8 feet 4 inches on same date last year. <i>Kharif</i> sowings commenced in Sakro, Tatta and Sujawal talukas. Crop injured by salt-water freshets in Ghorabari taluka. Fever in even and cattle disease in one taluka. Wheat, red rice and <i>hijri</i> in Karachi 30, 50 and 32 and in Mirpur Buto 20, 40 and 40 pounds per rupee, respectively.
Hyderabad	Nil	Weather warm. <i>Rabi</i> crops in progress in five talukas. <i>Kharif</i> cultivation is in progress. Fever in four, small-pox in three, and cattle disease in two talukas. River at Kotri on 2nd, 7 feet against 8 feet 4 inches on same date last year. Wheat 22, <i>bajri</i> 37½, <i>jowari</i> 40, white rice 25 and red rice 23 pounds per rupee.
Ahmedabad	Nil	<i>Rabi</i> harvesting and cotton-picking nearly completed. Public health good. Small-pox among cattle in Dhoka taluka. Wheat 20 and <i>hijri</i> 31 pounds per rupee.
Baroda	Nil	Public health good. Small-pox in Padra taluka and measles in Aher. <i>Rabi</i> crops in fair condition. <i>Bajri</i> 27, wheat 18 and rice 21 pounds per rupee.
Surat	Nil	Cotton-picking continues. Other crops reaped. Fever in Bardoli taluka. <i>Jowari</i> 36 and <i>naghi</i> 44 pounds per rupee.
Nasik	Nil	<i>Rabi</i> threshing nearly completed. Land being prepared in most of the talukas for <i>kharif</i> sowing. Public health good, except in Igatpur and Nandgaon, in parts of which small-pox continues. Slight fever in Peint. Prices stationary.
Colaba (Bombay)	Nil	Abnormal temperature nil on 27th, 29th and 30th, 1° warm on 28th and 1st, and 2° warm on 2nd and 3rd. Vapour in air excessive, except on 29th, when it was normal. Wind normal from 27th to 30th. Abnormal wind southerly from 1st to 3rd.
Poona	Indapur, 66, Baramati, Petha, 10	Harvesting of <i>jowari</i> , wheat, &c., almost completed in Bhimthar taluka and Baramati Petha. In the latter reaping of <i>khapla</i> wheat in progress. Land being prepared for cultivation in Indapur and Purnandhar talukas. Public health generally good. Slight cattle-disease in Indapur and small-pox in Haveli talukas. <i>Bajri</i> 44 and <i>jowari</i> 56 pounds in the district, and <i>bajri</i> 37 and <i>jowari</i> 43 pounds per rupee in Poona city.
Ahmednagar	Nil	Cattle-disease in Shrigonda. <i>Bajri</i> 57 and <i>jowari</i> 67 pounds per rupee.
Sholapur	Pandharpur, 09	Land being prepared for <i>kharif</i> crops. Cattle-disease in Sholapur and Pandharpur and cholera in Madha and Pandharpur talukas, 72 cases, 25 fatal. <i>Jowari</i> 63 and <i>bajri</i> 59 pounds per rupee.

Presidency or Province and District.	Rainfall for week under report.	State of Agricultural prospects.
Bombay—contd.		
Dharwar	Nawalgund, 25, Mugud, 170, Naigund, Gadag and Ranibennur, nearly 10; and slight in six other talukas.	Cotton-picking nearly completed. Ground being prepared for early crops. Sowing of rice commenced in Mugud. Scarcity of fodder in Nawalgund and of drinking-water in Gadag, Karajgi and Kod talukas. Public health generally good. Slight fever in Gadag and cattle-disease in Nawalgund. Rice 25 and <i>jowar</i> 56½ pounds per rupee.
Kanara	Kanara, 20; Ankoli, 21; Honawar, 09, Sirsi, 11, Halval, 34, Bhatkal, 07, Mundgod, 10, Yelapur, 32.	Field operations continue. Slight fever above Ghats. Weather hot and cloudy. Wind southerly. Common rice in Karwar and district average 13 seers per rupee.
Rajkot	<i>Nil</i>	Weather hot. Meisles in Godka, Manakwara, Manavadar, Mendard, Bigasri and Bukha. Fever in Rajkot, Poriandar, and Dedin. Wheat 25, <i>bajra</i> 25 and <i>jowar</i> 31 pounds per rupee.
		<i>General Remarks</i> —Rain in parts of the Deccan and Southern Mithatta Country. Preparation for <i>khair</i> sowing going on in ten districts. Scarcity of drinking-water and fodder continues in parts of Dharwar. Fever in parts of ten, cattle-disease in part of eleven, small-pox in parts of seven, and cholera in parts of four districts.
Bengal—(May 4th)		
Chittagong (May 3rd)	0.14	Weather sultry. More rain wanted. Prices steady. Cholera in Cox's bazaar, but general health good.
Dacca	<i>Nil</i>	<i>Boro</i> paddy being cut. Sowings being pushed on. Prospects good. Many cases of cholera in Munshiganj and Manickganj subdivisions.
24-Pergunnahs (Calcutta).	0.40	Ploughing continues. Sugarcane doing well. Isolated cases of cholera and fever. Public health generally good. An epidemic of anthrax among horses in Butuckpur Cantonment.
Khoolna	3.25	Rain and hail on night of 2nd. Weather hot. <i>Boro</i> rice harvest continues. Prospects good. Public health good.
Moorshedabad	<i>Nil</i>	Weather warm and cloudy occasionally. <i>Boro</i> rice being harvested. <i>Bhadra</i> promising. Cholera prevailing in parts of Jangipore subdivision.
Pubna	0.23	Weather hot. Rain and hail on 29th. Rice sowing proceeding. Cholera reported.
Dinagapore	0.25	Rain throughout the district. Sowing of <i>bhadra</i> and jute continues. Cholera reported from three and cattle-disease from one thana.
Rungpore	4.61	Weather cool. Violent storm with heavy rain and occasional hail. Crops promising. Cholera very prevalent.
Midnapore	0.35	Few malarial fevers. Prospects of crops and public health good.
Burdwan	0.13	Weather seasonable. Prospects good. Public health fair.
Bhagulpore	<i>Nil</i>	Sugarcane doing well. Prospects of paddy and <i>moong</i> on lowlands good. Cholera prevalent in north.
Purneah	0.32	All crops doing well. Jute rice and jute cultivation in progress. Prices low. Public health fair.
Dutbhangha	1.44	<i>Rabi</i> thrashing in progress. Jute rice, <i>chena</i> and <i>moong</i> doing well. Fields being prepared for <i>bhadra</i> sowings. Cholera tabular.
Chumparun	<i>Nil</i>	Harvesting of <i>rabi</i> crops almost finished. Opium weighments going on. Indigo prospect favourable. <i>Bhadra</i> and <i>aghani</i> sowings on lowland commenced. Prices stationary. Cholera has appeared both in town and interior.
Patna	0.14	Atmosphere not clear, since last three days very strong east wind blowing. A storm of wind followed by rain, on night of 1st. <i>Rabi</i> produce still in thrashing floors. Opium weighment going on. Sugarcane growing well. Cholera prevails in Patna city.
Gya	Slight rain	<i>Rabi</i> being threshed. Sugarcane coming on well. Cholera, small-pox and fever reported.
Hazareebagh	<i>Nil</i>	Weather seasonable. Sugarcane doing well. Mango indifferent. <i>Mahma</i> below average. General health good.
Cuttack		Weather hot, but cloudy. Ploughing in progress, but requires rain. <i>Dalua</i> rice harvest nearly completed. Public health good.
		<i>General Remarks</i> —Weather sultry with storms. Showers fell in many districts, but rain is wanted in Orissa and some of the eastern districts. Ploughing and <i>aus</i> and <i>bhadra</i> sowings in full swing. Sugarcane in good condition. <i>Boro</i> rice harvest proceeding. <i>Rabi</i> thrashing and opium weighment still going on. Public health indifferent. Cholera prevalent in several districts.
N.-W. Provinces and Oudh—(May 4th)		
Benares (May 3rd)		Weather seasonable. Harvest completed. Supplies ample. Prices steady. Some cholera in the district, otherwise health good. No cattle-disease.
Ballia (" 2nd)		Weather clear. Duststorm on the night of 30th April. <i>Rabi</i> operations progressing. Health good.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
N.-W. Provinces and Oudh—contd.		
Gorakhpore (May 2nd)	Threshing nearly completed. Prices stationary. Epidemic cholera in some tahsils.
Fyzabad („ 3rd)	Harvest completed. Sugarcane and indigo being irrigated. Markets well supplied. Cholera in three tahsils.
Lucknow („ 2nd)	A severe hurricane on the evening of 30th April, attended with slight fall of rain and hail.	The hail injured to some extent the melon crops. Markets well supplied. Prices steady. Health good. Condition of cattle fair.
Rai Bareilly („ „)	Weather seasonable. Prices slightly rising. Cholera prevailing. Some cases of cattle-disease reported from Sadr.
Partabgarh („ 3rd)	East wind prevailing. Prices steady. Cholera in epidemic form. Small-pox continues.
Allahabad („ „)	Strong hot winds blowing. Rabi harvest completed. Markets well supplied. Prices steady. Sporadic cholera reported, otherwise health good.
Cawnpore („ 2nd)	20 in one tahsil	Winnowing in progress. Indigo and sugarcane being irrigated. Prices stationary. Fever in three and small-pox in one pergunnah.
Banda („ „)	Heat increasing. Markets full. Prices slightly falling. Cholera in two tahsils, 11 attacks and 5 deaths. Cattle-disease in two villages.
Farakhabad („ 3rd)	Moderate fall of rain and hail in four tahsils on 30th April.	Fruit and vegetable crops somewhat injured. Threshing and irrigating continue. Markets well supplied. Prices steady. Itch and fever still linger. No cattle-disease.
Sitapur („ „)	Weather stormy, with easterly winds. People engaged in threshing. Prices keep steady. A few cases of small-pox reported.
Bareilly („ „)	Extra crops doing well. Markets steady. No sickness.
Kumaon („ „)	Weather fair, with passing clouds. Rabi crops being cut. Kharif operations commenced. Prices stationary. Cholera still in district. Cattle-disease on the decrease.
Agra („ „)	Nil	Sugarcane being irrigated. Prices steady. Slight fever and small-pox in city and two tahsils, otherwise general health good.
Jhansi („ 2nd)	Weather hot. Rabi operations nearly completed. Prices stationary. Small-pox continues. Condition of cattle good.
Meerut („ 3rd)	Nil	Wind westerly and easterly. Sugarcane and indigo being sown. Price of wheat falling, that of other grains rising or stationary. Supplies ample. Small-pox reported in Meerut and Baghpat, otherwise health good.
		<i>General Remarks.</i> —Weather somewhat unsettled. Storms accompanied by rain and hail reported from some places. Slight injury done to crops. Rabi harvesting generally completed and prospects good. Supplies ample. Prices fluctuating. Public health fair. Cases of cholera, small-pox and fever continue to be reported.
Punjab—(May 4th)		
Delhi (April 3rd)	Health good. Prices fluctuating. Rabi reappings finished, yield below average.
Hissar	Fever still prevalent. Prices stationary. Rabi harvested.
Umballa	Health good. Prices rising. Rabi reappings completed. Threshing operations in progress, yield below average.
Jullundur	Health good, but small-pox and cattle-disease in some villages of Nawashahr and Phillour tahsils. Prices stationary. Rabi crops harvested and below average.
Amritsar	Health good. Prices falling. Rabi produce satisfactory.
Sialkot	Health good. Prices stationary. Rabi harvest retarded by cloudy and windy weather.
Ferozepore	Health good. Prices falling with incoming harvest.
Lahore	Health good. Prices slightly fallen. Rabi crops being garnered.
Rawalpindi	Slight rain	Health good. Prices rising. Rabi outturn below average.
Shahpur	Health good. Prices high and almost stationary. Rabi being harvested, outturn much below average.
Multan	Health good. Prices falling. Rabi being threshed.
Dera Ismail Khan	Health fair. Prices rising. Rabi harvest commenced, expected outturn below average.
Peshawar	Health good. Prices almost stationary. Rabi harvest poor.
		<i>General Remarks.</i> —Slight rain has fallen in the Rawalpindi district. Fever still prevalent in the Hissar district. Small-pox and cattle-disease in some of the villages of the Nawashahr and Phillour tahsils, otherwise general health good. Prices falling in the Ferozepore, Amritsar, Lahore and Multan districts; rising in the Umballa, Rawalpindi and Dera Ismail Khan districts; fluctuating in the Delhi district; elsewhere stationary. Harvesting completed in most districts, crop outturn below average. Cattle starving in the Shahpur district.
Central Provinces—		
(May 4th)		
Nagpur	Weather hot. Threshing in progress. Small-pox and cattle-disease prevalent. Prices steady.
Jubbulpore	Weather cloudy and hot. Winnowing continues. Small-pox prevalent. Prices unchanged.

Presidency or Province and District.	Rainfall for week under report	State of agricultural prospects.
Central Provinces—contd		
Saugor	Weather hot and stormy. Harvest continue. General health good. Prices undisturbed.
Seoni	Weather cloudy and hot. <i>Rabi</i> thrashing in progress. <i>Kharif</i> ploughings continue. Small-pox prevalent.
Hoshangabad	Weather hot and stormy. <i>Kharif</i> harvest in progress. Fever prevalent. Prices stationary.

HIGH COURT—Original Side.

NOTIFICATION.

Calcutta, the 3rd May, 1887.

The Honorable the Chief Justice of the High Court of Judicature at Fort William in Bengal has appointed Frederick William Walker, of No. 48, Castlereagh Street, Sydney, New South Wales, Solicitor, a Commissioner within all parts of New South Wales for the purpose of taking under the law in force in British India the acknowledgments of married women of deeds to be executed by them in respect of property in British India.

By Order,

R. BELCHAMBERS,

Registrar.

AGENT TO THE GOVERNOR-GENERAL FOR CENTRAL INDIA.

NOTIFICATIONS.

Indore Residency, the 29th April, 1887.

In exercise of the power delegated to him by the Governor-General in Council under Act II of 1886, and Notification by the Government of India in the Department of Finance and Commerce, No. 593, dated 5th February, 1886, the Agent, Governor-General, for Central India is pleased to sanction the following rules under the said Act:—

1. The Annual Return of Income to be submitted by Companies under Section 11 of the Act shall be in Form E annexed to the Rules, and the notice to be served on them under Section 12, Sub-Section 1, shall be in Form F.

2. The list and Notification referred to in Section 16 of the Act shall be prepared in Form G in English, Urdu and Hindi, and copies thereof shall be posted in the walls of the assessing officer's court. Copies of such list shall also be posted in the principal bazars or other places of public resort in the cantonment of

3. The special notice to be served on persons assessed under Section 17 of the Act shall be in Form H.

4. All persons whose vernacular is English shall be served with a notice under Section 17, instead of being included in a list under Section 16.

5. Under Section 18, Sub-Section 1, clause (a), the Collector is authorized to cause a notice under Section 17 to be served on any person whose name is for the first time included in the list published under Section 16.

6. The Cantonment Magistrate exercising the powers of a Collector under the Act is authorized to publish a general notice in Form K, inviting all persons whose incomes are not below Rs. 2,000 to submit returns of their incomes under Section 18, clause (b).

The date to be specified in the notice as that before which the return should be made, shall be a date not less than 30 days from that on which the notice is published. The returns should be treated as confidential communications and should remain in the special custody of the assessing officers or their responsible subordinates. A public servant committing a breach of this rule will be deemed to have committed an offence under Section 166, Indian Penal Code, and may be prosecuted with the previous sanction of the Agent to the Governor-General.

7. The notice to be issued under the provisions of Sections 42 and 43 to Trustees, Agents, &c.—

(1) To furnish information regarding the names of beneficiaries and principals, and

(2) To submit return of income, shall be in Forms N and O and should be made returnable within thirty days.

8. The amount assessed under Part IV, Schedule II of the Act, may be paid in one sum.

9. The receipt referred to in Section 32 of the Act will be in Form P.

10. The powers of the Local Government to declare under Section 47 which of several places of business or residence shall be considered to be the principal place of business or residence for the purposes of the Act, are hereby delegated to the First Assistant Agent to the Governor-General for Central India.

11. The following is prescribed regarding composition for the tax under Section 31 of the Act:—

(a) Any person desirous of compounding shall apply to the Collector for composition before his assessment has been fixed by the Collector.

(b) The period of composition shall not exceed three years.

(c) The composition allowed by the Collector shall be subject to the sanction of the First Assistant Agent to the Governor-General for Central India exercising powers of a Commissioner of Division.

(d) The contract of composition shall cease to have force on the death or insolvency of the person entering into the contract, except as regards payment on account of composition already due.

(e) Fraud on the part of the person entering into contract in stating his income or otherwise shall render the contract void.

12. The Collector shall submit to the First Assistant Agent to the Governor-General for Central India, at the end of each year of assessment, a full report on the working of the Act, accompanied by the necessary returns, together with a statement showing the number of prosecutions under the Act in Form R.

Form E.

Annual Return of net profits to be delivered by the Principal Officer of a Company under Section 11.

1	2	3	4	5
Name of Company.	Place of business.	Source of income.	Amount of income derived from each of these sources mentioning the period during which the income from each source has been derived.	REMARKS

SUBSCRIPTION.

I do declare that the income stated in this return is truly estimated on all the sources of income therein mentioned, that it has actually accrued within the period stated, and that the Company has no other sources of income

INSTRUCTIONS.

1. If the Company making the return has several places of business, they should all be mentioned in column 2, the principal place of business being specified.

2. In column 3 should be entered in detail every separate source of income accruing and arising in British India

3. In column 4 should be entered the income accruing and arising during the year ending on the day on which the Company's accounts have been last made up, or if the Company's accounts have not been made up within the year ending 31st January, 1887, then during the year ending on the 31st January, 1888

4. Against gross receipts no deductions should be made on account of disbursements or expenses not wholly or exclusively incurred in respect of the profits returned, nor on account of any public or local rates or taxes.

5. Deductions from the gross receipts may be allowed on account of the following items:—

(a) In the case of trades or professions —

(1) Sums expended in the repairs of implements, utensils or articles used solely for the purpose of the profession or trade

(2) Sums expended for insuring or keeping insured the buildings, machinery, implements and stock used for the purposes of the profession or trade, and the rent paid for any premises used for such profession or trade provided that if such premises shall not have been exclusively used for such profession or trade, a fair proportion only of such rent shall be deducted from the gross receipts

(3) Ten per cent. on the rack rent of such premises on account of repairs, if such repairs are at the cost of the Company, whether it has or has not been actually expended during the year of assessment.

(4) Sums expended in the payment of persons employed solely in such profession or trade

(5) The amount of any losses of the stock in trade. The excess loss sustained in any or more professions or trades over and above the profits thereof may be set against the excess profits of any other profession or trade exercised by the same Company.

(6) The amount of any bad debts for the first time ascertained and written off as such during the year

(7) Interest paid on money borrowed for the purpose of the trade or profession.

(b) In the case of incomes from houses:—

(1) Any rent paid on account of such houses, but not taxes or local rates.

(2) Sums expended for insuring and keeping insured such houses

(3) Ten per cent. on the rack rent of the houses on account of repairs, if such repairs are at the cost of the Company.

(4) Annual interest payable to a mortgagee not in possession

(c) In the case of buildings owned and occupied by the Company one-sixth of the gross annual rent at which they may be reasonably expected to let, and, in the case of dwelling-houses, may be expected to let unimproved provided that where five-sixths of the gross rental of such buildings exceeds 10 per cent of the income of the Company from all sources, a further deduction shall be made equal in amount to the excess.

No. 1501.—In accordance with Foreign Department Notification No 657 G, dated the 16th April, 1887, Lieutenant L. S. Newmarch made over charge of the Office of Second Assistant Agent to the Governor-General in Central India, on the forenoon of the 27th idem

By Order,
F. L. PETRE,
*First Asst Agent to the Govr-Genl
for Central India*

CHIEF COMMISSIONER OF AJMERE-MERWARA.

NOTIFICATIONS.

Abu, the 27th April, 1887.

No. 466-648.—The Chief Commissioner of Ajmere-Merwara is pleased to extend the provisions of Section 34 of Act V of 1861 to the town of Pisangan in the Ajmere District.

The 2nd May, 1887.

No. 480-96 III.—Captain J. A. Bell is appointed to officiate as Cantonment Magistrate at Deoli, *vice* Colonel F. W. Boileau, proceeding on sixty days' privilege leave (*vide* Notification by the Agent to the Governor-General, Rajputana, No. 848 G., dated 21st April, 1887.)

Captain Bell is invested with the powers of a Magistrate of the 2nd class as described in Section 32, Act X of 1882 (Criminal Procedure Code), with effect from the date of assuming charge, to be exercised during the time he may act as Cantonment Magistrate.

By Order,

C. HERBERT.

*for First Asst. Agent to the Govr.-Genl.,
Rajputana.*

CHIEF COMMISSIONER OF AJMERE-MERWARA IN THE P. W. DEPT.

NOTIFICATION.

Mount Abu, the 26th April, 1887.

No. 907 A.S.—The following rules which the Chief Commissioner of Ajmere-Merwara proposes to make under the authority vested in him by Section 10, Clause 1 of the Ajmere Municipalities Regulation, 1886, are published as required by Section 150, Clause 1, of that Regulation for general information.

These rules will be taken into consideration on or after the 20th May, 1887.

All persons interested are therefore invited to consider them and submit in writing any objections or suggestions that they may have to make regarding them to this Office through the Commissioner, Ajmere-Merwara, before the date above specified.

By Order,

G. F. L. MARSHALL, *Major, R.E.,*

*Offg. Secy. to the Chief Commr., Ajmere-Merwara,
in the P. W. Dept.*

Draft of Rules proposed to be made under Section 10, Clause 1, of the Ajmere Municipalities Regulation, 1886, for the Municipality of Ajmere.

I. For the purposes of representation the Ajmere Municipality shall be divided into four wards which shall respectively return the number of Representatives named below:—

- (a) The City Proper, including Inderkot,—twelve representatives, of whom eight shall be Hindus and four Muhammadans.

- (b) The Kaisarganj, including Cavendishpura,—four representatives, of whom two at least shall be Hindus and one at least shall be a Muhammadan.

- (c) The Railway,—four representatives, of whom three at least shall be Europeans or Eurasians.

- (d) The Suburbs,—four representatives, of whom three at least shall be Europeans or Eurasians.

II. Every male inhabitant of the Municipality who is not less than twenty-one years of age and who can read or write any one or more of the following languages, that is to say, English, Hindi, or Urdu, shall be qualified to vote for the election of representatives for the ward in which he is registered as an elector. Provided that he is—

- (a) the owner of house property situate within the limits of the Municipality of which the value is not below Rs. 1,500 or,
- (b) the occupier of premises for which he pays rent not less than Rs. 150 annually, and has been a resident of the Ajmere Municipality for at least six months previous to the date of the preparation or annual revision of the electoral list, or
- (c) an advocate or certificated pleader or a certificated *mukhtar*, or
- (d) a graduate of any university or
- (e) a servant or pensioner of the Government of India or the servant of any Railway Company whose monthly salary or pension exceeds one hundred rupees:

and provided further that such person has not been convicted of any offence or subjected to any order of a Criminal Court which in the opinion of the District Magistrate implies a defect of character which unfits him to be an elector.

III. Every person qualified to vote shall be termed an elector.

IV. No person shall be an elector for more than one ward. Any person who is qualified under the terms of Rule II to be an elector in more than one ward shall be at liberty to choose in respect of which of the wards for which he is qualified to vote he will exercise his privilege.

V. The District Magistrate shall appoint such persons as he may think fit to superintend subdivisions of wards and to be the officer in charge of wards for the purpose of the rules.

VI. The existing lists of electors shall be amended by the Superintendents of sub-divisions of wards to bring them as far as possible into accordance with Rules II and IV; when so amended they shall be revised by the officers in charge of wards. Copies of the revised lists shall be published under the signature of the District Magistrate by being posted at the District Cutcherry, the Municipal Office, the City Police Station and conspicuous places in each ward. With the list shall be published a notice stating that the lists will be finally settled on a specified date, not being later than fourteen days from the date of publication of the notice, and inviting persons desiring the addition to, or removal from, the list of any name or names to present applications to that effect accompanied by the reasons upon which the applications are

based, not later than the day previous to the date in question.

VII. On the date fixed under the last preceding rule, the District Magistrate or some officer appointed by him shall take into consideration all petitions which may have been presented and shall amend the list as may appear necessary with reference to the above rules.

VIII. It shall be open to the District Magistrate, for reasons to be recorded by him, at any time to remove any name from the list of electors.

IX. All orders passed by the District Magistrate under Rules VII and VIII shall be final. An appeal shall lie to the District Magistrate from any order passed under Rule VII by any officer appointed by him.

X. The list of electors shall be revised annually in a manner similar to that prescribed for the revision of the original list.

XI. Every elector shall be qualified to be elected as a representative of the ward for which he is an elector.

XII. As soon as possible after the lists have been settled by the District Magistrate, that officer shall cause a copy of the list relating to each ward to be furnished to each elector for that ward, together with a copy of Rule XV of these rules and full information as to the places and time of election.

XIII. The date upon which the elections are to take place shall be fixed by the District Magistrate, and shall not be later than one week after the distribution of the lists prescribed by the last preceding rule. The District Magistrate shall further fix one or more polling places for each ward and shall appoint one or more officers to conduct the elections at each polling place. Such officers shall be called polling officers.

XIV. The polling places shall be open on the day of the election from 7-11 A.M. and from 3-6 P.M.

XV. On the day fixed for the elections every elector desiring to vote for any person or persons shall bring or send to the polling place of his ward a list, verified by his signature, of the persons for whom he desires to vote. Every elector shall be at liberty to vote for any number of persons not exceeding the number of representatives fixed for his ward. The polling officer shall ascertain that the person claiming to vote is borne on the register of electors for the ward in which he claims to vote, and that the voting paper is prepared in the manner prescribed by this rule, and shall receive the voting paper and place it in a sealed receptacle.

XVI. At the close of the day's voting the receptacles shall be brought to the District Magistrate by whom they shall be opened on the following morning and in whose presence the votes shall be counted.

XVII. When the votes have been counted the District Magistrate shall declare the result of the elections.

Draft of Rules proposed to be made under Section 10, Clause 1, of the Ajmer Municipalities Regulation, 1886, for the Municipality of Beawar.

1. For the purposes of representation the Beawar Municipality shall not be divided into

wards but shall be treated as a whole with special reference to the requirements of three classes, *viz.*, Hindus, Muhammadans and Christians.

The number of representatives for the whole Municipality shall be fifteen, of whom not less than nine shall be Hindus, not less than four Muhammadans, and not less than two Christians.

2. The qualifications of electors and candidates for election to be as follows:—

Electors.—All male inhabitants who are not less than twenty-one years of age paying a minimum rent of ₹3 per mensem or in possession of immoveable property situate within Municipal limits to the value of not less than ₹500.

Candidates for election.—All male inhabitants who are not less than twenty-one years of age paying a minimum rent of ₹6 per mensem or in possession of immoveable property situate within the limits of the Municipality to the value of not less than ₹1,000.

Provided, in the case of the latter, (1) they are able to read and write English, Hindi or Urdu, and (2) and that they shall have resided within the limits of the Municipality for a term not less than one year.

Provided also, in the case of both electors and elected, that such person has not been convicted of any offence or subjected to any order of a Criminal Court which in the opinion of the Assistant Commissioner implies a defect of character which unfits him to be an elector or member of the Municipal Committee.

3. The existing lists of electors and of candidates eligible for election shall be amended under the orders of the Assistant Commissioner so as to bring them into accordance with the above rule.

Copies of the revised lists shall be published under the signature of the Assistant Commissioner by being posted at the District Cutchery, the Police Chowkies and other places of public resort.

With the lists shall be published a notice stating that the lists will be finally settled on a specified date not being later than fourteen days from the date of publication of the notice, and inviting persons desiring the addition to or removal from the lists of any name or names to present application to that effect accompanied by the reasons on which the applications are based not later than the day previous to the date in question.

4. On the date fixed under the last preceding rule the Assistant Commissioner or some other officer appointed by him shall take into consideration all petitions which may have been presented and shall amend the lists as may appear necessary with reference to the above rules.

5. It shall be open to the Assistant Commissioner, for reasons to be recorded by him, at any time to remove any name from the lists of electors or candidates eligible for election.

6. All orders passed by the Assistant Commissioner under rules 4 and 5 shall be final.

An appeal shall lie to the Assistant Commissioner from any order passed under Rule 4 by any officer appointed by him.

7. The lists of electors and of candidates eligible for election shall be revised annually in the manner herein prescribed.

8. As soon as possible after the lists have been settled by the Assistant Commissioner, that officer 'shall cause copies' of them to be posted up at the District Cutchery, Police Chowkies and other places of public resort as may be determined by the Assistant Commissioner.

In like manner he shall cause to be published a copy of Rule 9 of these rules with full information as to the places and times of election and the manner to be regulated by the Assistant Commissioner in which votes are to be taken.

9. On the day fixed by the Assistant Commissioner for the election, every elector desiring to vote for any person or persons shall bring or send to such officer as the Assistant Commissioner shall appoint for this purpose a list verified by his signature of the persons for whom he desires to vote. Every elector shall be at liberty to vote for any number of persons not exceeding the number fixed for his community under Rule 1.

10. The voting papers shall be scrutinized and may be amended under the orders of the Assistant Commissioner so as to bring them into conformity with these rules, and within two days after the date fixed for the election shall be brought to that officer in whose presence the votes shall be counted.

11. When the votes have been counted the Assistant Commissioner shall declare the result of the election.

GOVERNMENT ENGINEERING COLLEGE, SEEBPUR.

Candidates for admission to the Engineer Department should apply to the Principal before the 25th May, 1887. The Session begins on Monday, the 6th June, 1887. Candidates must

furnish proof that they have passed the Calcutta University Entrance Examination, and that they are under 19 years of age. This limit will be raised to 21 years of age in the case of candidates who have passed the F. A. Examination of the University.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of junior scholarships. The scholarships will be awarded with general reference to the place taken by candidates at the Entrance Examination.

Students who have passed the University Entrance Examination in April are eligible for admission to the Mechanical Apprentice Department up to the 6th June, 1887. They must send in their applications before 25th May, 1887.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour, and eye-sight.

Further particulars will be supplied on application to the Principal.

S F DOWNING,

Principal,

Government Engineering College.

SEEBPUR,

The 25th April, 1887.

HENRY F. BLANCK,

Meteorological Reporter to the
Government of India

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY

The Indian Law Reports, published under the authority of the Governor General in Council, appear in monthly part, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series, — one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs Thacker, Spink & Co are distributed by that firm and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of previous advertisements on and from the 1st January, 1885, the terms of subscription and sale will be as follows —

Terms of subscription, payable annually in advance

For the complete Series, including postage Rs 22 8

	Without postage	With postage
For the Calcutta Series	R 10 0	R 12 0

Isamberchak, Zillah Midnapore.

Destroyed.

The Government Promissory Notes, Nos. 227104, 227105, 227106, 227107, 234771, 234772 and 234773, at 4 per cent, loan of 1865, for Rs1,000 each, originally standing in the name of the Bank of Bengal, and last endorsed to T. Lutchmana Pillai of Secunderabad, the proprietor, by whom they were never endorsed to any other person. Payment of the above notes and the interest thereupon have been stopped at the Public Debt Office Bank of Bengal, and application is to be made for accrued interest, and for the issue of duplicates in favour of the proprietor, after two years from the date of last advertisement.

T. LUTCHMANA PILLAI,

17th Regt., Madras Native Infantry

Brar Street,

Secunderabad Deccan

SECUNDERABAD,

The 3rd March, 1887

CALCUTTA, SATURDAY, MAY 7, 1887.

No. 992 E.—The following Order of Her Majesty the Queen in Council is republished from the *London Gazette* of the 15th March, 1887, for general information:

“AT THE COURT AT WINDSOR,

The 7th day of March, 1887.

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY
IN COUNCIL.

WHEREAS by the “Foreign Deserters Act, 1852,” it is provided that, whenever it is made to appear to Her Majesty that due facilities are or will be given for recovering and apprehending seamen who desert from British merchant ships in the territories of any foreign power, Her Majesty may by Order in Council stating that such facilities are, or will be given, declare that seamen, not being slaves, who desert from

merchant ships belonging to a subject of such power, when within Her Majesty's dominions, shall be liable to be apprehended, and carried on board their respective ships, and may limit the operation of such order, and may render the operation thereof subject to such conditions and qualifications, if any, as may be deemed expedient :

And whereas it has been made to appear to Her Majesty that due facilities will be given for recovering and apprehending seamen who desert from British merchant ships in the dominions of His Highness the Sultan of Zanzibar :

NOW THEREFORE, Her Majesty, by virtue of the power vested in Her by the said "Foreign Deserters Act, 1852," and by and with the advice of Her Privy Council, is pleased to order and declare, and it is hereby ordered and declared, that from and after the publication hereof in the London Gazette, seamen, not being slaves, and not being British subjects, who, within Her Majesty's dominions, desert from merchant ships belonging to subjects of His Highness the Sultan of Zanzibar, shall be liable to be apprehended and carried on board their respective ships: Provided always, that if any such deserter has committed any crime in Her Majesty's dominions, he may be detained till he has been tried by a competent Court, and until his sentence, if any, has been carried into effect.

And the Secretary of State for the Home Department, the Secretary of State for the Colonies, and the Secretary of State for India in Council, are to give the necessary directions herein accordingly.

C. L. PEEL.

- No. 2167 I.—In exercise of the powers conferred by Section 9 of the Indian Christian Marriage Act, 1872, the Governor-General in Council is pleased to license the Reverend C. P. Hard, M.A., Pastor of the Methodist Episcopal Church at Ajmere, to grant Certificates of Marriage between Native Christians in the Native States of the Rajputana Agency.

H. M. DURAND,

Secretary to the Government of India.

DEPARTMENT OF FINANCE AND COMMERCE.

Nos. 715-716.

ORDER.—Ordered, that this Resolution be communicated to the Government of the Punjab and to the Revenue and Agricultural Department,* and that it be published in the Supplement to the *Gazette of India*.

* Papers returned

A. P. MACDONNELL,
Secretary to the Government of India

GOVERNMENT OF INDIA:

REVENUE AND AGRICULTURAL DEPARTMENT.

Weather Review of India for the week ending the 11th May, 1887.

During the past week the meteorological conditions prevailing over India have been practically constant. The area of high pressure has been shown steadily over the west of the Peninsula. On some days it was confined to Malabar, on others it extended up the west coast as far as Bombay, but throughout the whole week it occupied some portion of this region. At the same time the Punjab has been equally steadily the seat of the lowest pressures, though on several occasions relatively low readings were also shown over the east of the Central Provinces, Chutia Nagpur, South-West Bengal, and Orissa. The general wind circulation was in consequence equally steady. Westerly to north-westerly winds (the northing in the direction varying with the northward extension of the high pressure area on the west coast) have prevailed over the greater part of North-Western and Western India and a large portion of Central India, the Deccan, and the Karnatic, south-westerly to southerly winds over the head of the Bay and the coasts of Lower Bengal, and easterly winds in Central and Northern Bengal and Assam. In the Gangetic plain the winds were more unsteady. From the 5th to the 9th the prevailing movement was from south-east, but on the 10th and 11th there was, more particularly in the northern half, a large admixture of winds from north-west. Over Behar and as far west as Allahabad easterly winds were very steady throughout. On the 11th the weather became unsettled over the Bay and in Eastern Bengal; one small disturbance lying off the Circars Coast and, a second between Calcutta and Dacca. The former occasioned only north-easterly winds on the Circars Coasts, but the latter was accompanied with heavy showers over a large part of Bengal and Assam. This rainfall was the most important which fell within the period under discussion, but during the week showers occurred in parts of the Central Provinces, Central India, and at all stations in both Peninsulas. None fell in Upper India and, as will be seen by the following table, the seasonal deficiency in that region has undergone further increase:

Stations				Actual rainfall from 1st November 1886 to 11th May 1887.	Average rainfall from 1st Novem- ber 1886 to 11th May 1887	Difference.
Multan	0.64	1.98	-1.34
Peshawar	2.43	7.29	-4.86
Murree	10.37	14.74	-4.37
Rawalpindi	4.98	10.78	-5.80
Lahore	0.62	3.73	-3.11
Simla	10.83	12.50	-1.67
Delhi	2.49	3.45	-0.96
Roorkee	4.06	5.98	-1.92
Meerut	2.76	4.11	-1.35
Bareilly	3.06	3.67	-0.61
Agra	1.13	1.76	-0.63
Lucknow	1.40	1.97	-0.57
Allahabad	4.58	2.04	+2.54
Darjeeling	12.16	10.62	+1.54
Calcutta	7.38	7.86	-0.48

The final table shows that a considerable barometric depression prevailed over the Punjab and a relative depression over the east of the Central Provinces, Orissa, and Chutia Nagpur, but that in all other places pressure was above the average, in some places—more particularly in the west—considerably so. The temperature of the week has been below the average of the month in Behar,

Lower Bengal, Orissa, the central parts of the country, and the whole of the Peninsula, but above it in Upper India. In the Punjab West the excess exceeded 9° , and in the Punjab East and Assam 5° . The day temperatures were high in Upper India, the maximum being 122° at Jacobabad on the 6th. Humidity has been below the monthly average, except in Lower Bengal, the Central Provinces, Rajputana, Guzerat, the Konkan, Deccan, and Mysore.

Districts	Difference of Barometer from mean, May 5th to May 11th	Difference of Temperature from mean, May 5th to May 11th	Difference of Humidity from mean, May 5th to May 11th	Total rainfall in week, May 5th to May 11th

GOVERNMENT OF INDIA.
REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE
WEEK ENDING 12th MAY, 1887.

GENERAL REMARKS.—Except in the North-Western Provinces and Oudh, the Punjab, Central Provinces, and Central India, and Rajputana, there has been a fair amount of rain throughout the country during the week under report. The falls were heaviest in Bengal, Assam, and Lower Burma.

The *rabi* harvest now only proceeds in Hyderabad and the Punjab.

Kharif operations are extending to most parts of the country, and are now in progress in Bombay, the Central Provinces, the Punjab, and Berar.

The outlook is generally satisfactory in Madras, Mysore and Coorg.

The spring rice has been nearly reaped in Bengal, and the early rice is doing well there and in Assam.

Sugarcane has yielded an average outturn in Madras, it is being planted in Assam and Rajputana, and the crop promises well in Bengal, the North-Western Provinces and Oudh and the Central Provinces.

The condition of indigo in Bengal and the North-Western Provinces and Oudh is favourable.

Cotton-picking is approaching completion in Bombay.

The public health is generally good everywhere except in Bengal, where it is but indifferent, owing to the prevalence of cholera in many places.

Prices are fluctuating in the North-Western Provinces and Oudh, and rising in three and falling in two districts of the Punjab. A slight rise has also occurred in three districts in Mysore.

Elsewhere prices are fairly steady.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Madras—(May 4th)		
Bellary	Average '14	Standing crops generally good. Harvest sugarcane, yield average. Fever in one taluk. Cholera slight. Cattle-disease increasing in five taluks.
Kurnool	Average '07	Standing crops good. Harvest second crop paddy and cotton, outturn below average. Small-pox in four and cattle-disease decreasing in seven taluks.
Ganjam	Average last week since revised, '22.	Small-pox slight in three, fever in five, and cattle-disease decreasing in two divisions. Cholera slightly increasing.
Kistna	Nil	Standing crops good. Fever slight. Cholera decreasing in four and cattle-disease increasing in three taluks.
Chingleput (Madras) .	Nil	Standing crops fair, but in parts withered to some extent for want of rain. Harvest paddy and <i>ragi</i> , outturn below average. Small-pox in two, and cattle-disease increasing in two taluks.
Coimbatore	Average 1'69	Standing crops good. Harvest paddy, outturn generally above average. Fever in one, small-pox in two, and cattle-disease decreasing in one taluk.
Tanjore	Average '84	Standing crops generally good. Harvest paddy, <i>cholum</i> and gingelly, outturn up to average. Cattle-disease slight in one taluk.
Madura	Average 2'27	Fever and small-pox in one taluk.
Malabar	Average 1'42	Standing third crop paddy ripening. Fever in two and small-pox in nine taluks.
Travancore	7'36	Harvest second crop paddy, yield average. Lands being ploughed and sown for next crop. Small-pox and fever in places.
Madras—(May 11th)		
Bellary	Average '62	Standing crops generally good. Harvest paddy and sugarcane, yield average. Fever in one taluk. Slight cholera. Cattle-disease increasing in five taluks.
Kurnool	Average '88	Standing crops good. Harvest second crop paddy, yield below average. Small-pox in five, and cattle-disease decreasing in four taluks.
Ganjam	Average 1'06	Small-pox in three, fever in five, and cattle-disease increasing in two divisions. Cholera exists.
Kistna	Average '08	Standing crops good. Slight fever. Cholera decreasing in three and cattle-disease also decreasing in four taluks.
Chingleput (Madras) .	Average '58	Standing crops fair, but in parts withered to some extent for want of rain. Harvest paddy, outturn below average. Fever in one taluk. Small-pox prevalent. Cattle-disease decreasing in two taluks.

General Remarks.—General prospects fair.

Presidency or Province and District.	Rainfall for week under report	State of agricultural prospects
Madras—contd.		
Coimbatore	Average 43	Standing crops good. Harvest paddy, outturn about average. Fever prevalent. Small-pox in two taluks.
Tanjore	Average 72	Standing crops generally good. Harvest wet and dry crops, outturn up to average.

THE INDIAN LAW REPORTS

PUBLISHED UNDER AUTHORITY

The Indian Law Reports, published under the authority of the Governor General in Council, appear in monthly parts published as far as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from the Privy Council in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, the copies for subscribers registered by Mr. Thacker, Spink & Co. are distributed by that firm, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of previous advertisements on and from the 1st January 1885, the terms of subscription and sale will be as follows—

Terms of subscription, payable annually in advance.

For the complete Series, including postage R. 9

For the Calcutta Series

" each of the Madras, Bombay and Allahabad Series R. 7 0

" a part of the Calcutta Series purchased separately inclusive of postage in India R. 2 0

" a part of the Madras, Bombay and Allahabad Series purchased separately inclusive of postage in India R. 1 0

Persons desiring to subscribe for, or purchase, the Report should apply to—

Messrs Thacker, Spink & Co., Calcutta

" Thacker & Co., Bombay

" Higginbotham & Co., Madras.

The Government Central Book Depot, Bombay

" Curator of Government Books, North-Western Provinces and Oudh

" Superintendent of Government Printing, Bengal

Orders and subscriptions for 1885 should be at once remitted

NOTICE.

SUPPLEMENT TO
The Gazette of India.

No. 20.} CALCUTTA, SATURDAY, MAY 14, 1887.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Notices and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Decisions of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Order or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the laws of the GAZETTE must be looked to.

REVENUE REPORT OF IRRIGATION WORKS IN SIND FOR 1885-86.

No 751., dated Simla, May 4, 1887

RESOLUTION—By the Government of India, Public Works Department

Read—

Letter from the Government of Bombay, No 28W.L.-55, dated 18th February 1887 submitting the Revenue Report of the Irrigation Department in Sind for 1885-86, and the Resolution of the Government of Bombay thereon

The capital expenditure during 1885-86 was Rs4,53,803 from "Loan" and Rs2,567 from "Ordinary" funds. The total capital outlay up to the close of the year amounted to Rs1,10,87,784, of which Rs78,76,600 had been spent on Productive Public Works.

2. The gross revenue from all sources was by assessments Rs35,77,341 and by collections Rs36,32,014. The gross revenue assessed on works for which capital and revenue accounts are kept amounted to Rs14,51,029; the maintenance charges to Rs7,00,132; the net revenue by assessments was, therefore, Rs7,50,897, giving a return of 6.77 per cent. on the capital outlay. In the previous year the percentage of profit was 8.75.

3. The area cultivated by the aid of irrigation works during 1885-86 was 1,739,919 acres, of which 207,197 acres situated in jaghir estates are assessed at low rates. The total revenue from all sources assessed during the year amounted to Rs35,77,341, which is Rs1,95,825 less than the similar figure for the

previous year. There was a decrease in the total area as compared with the previous year of 43,254 acres; but with the single exception of the previous year, 1885-86, the year under review is the most successful year on record and the rabi area is the largest area measured. That the kharif did not show an equal advance was due to the set of the Indus on to the head of the Ghar canals. It is mentioned in paragraph 18 of the report that for years past the tendency of the river has been to eat away its right bank after passing the gorge at Sukkur, and in the year under review the Fordwah sluice was washed away and the upper length of the Ghar was blocked with silt. There was an early rise of the river, and the high level was maintained, with few variations, up to the 5th September. The policy of giving an increased grant for the maintenance of the Sind canals, which was instituted in 1881, has been most successful. The average increase in the outlay during the five years 1881 to 1886 has been Rs. 1,45,304, whilst the increase in revenue has averaged Rs. 4,86,716 per annum.

4. There had been a considerable reduction in the balance of water revenue due from the Khelat State at the date when the report was submitted, and there was a prospect that the balance still due might be realized at an early date.

5. The outlay on maintenance and collection charges for the year under review amounted to Rs. 13,95,887, which gives a percentage of 39.02 on the revenue and a rate of Rs. 0.80 on each acre irrigated.

In addition to the above figure, the outlay on extensions and improvements amounted to Rs. 1,63,241. As noted in paragraph 4 of the Resolution on the report of these canals for the year 1884-85, no comparison can fairly be made between the rates of revenue and expenditure on the Sind canals and those of inundation canals in the Punjab. In the Punjab each series of canals is administered on its own system, and on none of them is the system at all similar to that employed in Sind.

6. The irrigation duty of water in the canals varied from 51.55 acres per cubic foot on the Mithrau canal to 16.29 acres on Sherwah. In the previous year the duty on the Desert canal was 72.39 acres. In the former year, however, the crops were principally millets, whilst in the year under review rice was cultivated to the extent of 73 and 97 per cent., respectively, on the Mithrau and Sherwah canals.

7. The river embankments are reported to have given no trouble during the year, but, owing to the set of the river, it was found necessary to commence the construction of a loop in rear of a part of the Kashmor bund; and the Superintending Engineer mentions that, owing to the rise in the river-bed, it will be advisable to add to the height of the embankments to the south of Jerruck.

8. The Government of India again urges the necessity for an earlier submission of this report.

ORDER.—Ordered, that a copy of this Resolution be forwarded to the Government of Bombay, in the Public Works Department, for information.

Also, that a copy of this Resolution, of the Report, and of the Resolution by the Government of Bombay be forwarded for information to the Governments of Madras, Bengal, the North-Western Provinces and Oudh, and the Punjab.

Also, that a copy of this Resolution, of the Report, and of the Resolution by the Government of Bombay, be forwarded to the Department of Finance and Commerce and to the Revenue and Agricultural Department, for information.

Also, that a copy of this Resolution, the Resolution by the Local Government, and the memorandum by the Commissioner in Sind, together with the general abstract of financial results, be forwarded to the Publisher of the *Gazette of India* for publication in the Gazette Supplement.

Also, that a copy of this Resolution be forwarded to Her Majesty's Secretary of State.

R. HOME, Colonel, R.E.,
Deputy Secretary to the Government of India.

Enclosure to Public Works Department Resolution No. 75 I. of 1887.

No: 28W.1.—56, dated 18th February 1887.

RESOLUTION—By the Government of Bombay, Public Works Department.

Letter from the Superintending Engineer for Irrigation in Sind, No. 2603, dated 14th December 1886. Forwards the Annual Irrigation Revenue Report for 1885-86, with the usual tables, General Revenue Accounts, charts and index-map of Sind.

Memorandum from the Commissioner in Sind, No. 4928, dated 20th December 1886. Submits the Report with his remarks.

RESOLUTION.—The early and sudden rise of the river Indus in April and the fluctuations of its level later on in July caused some losses; but, taking it generally, the inundation was a most favourable one, and the consequent increase both of area irrigated and of revenue realised would have been far above the average had not an unfortunate failure of supply occurred in the Ghár system through the encroachments of the river.

2. The remark of the Commissioner in Sind regarding the causes of this failure in the Ghár's supply calls for further enquiry, and a letter has been addressed to the Superintending Engineer on the subject.

3. A new regulator has since been built across the Fordwah to replace that which was washed away, and the Superintending Engineer for Irrigation is sanguine that the river will now bear away from its right bank, and that next year will see a full restoration of revenue on all the canals.

4. The rainfall was small and had no appreciable effect on the cultivation.

5. The total area of cultivation for the year was 1,739,919 acres including 207,117 acres of jághir. The total canal revenue was ₹35,77,341. The increase under these two heads was, respectively, 121,529 acres and ₹2,35,574 on the averages for the previous five years.

6. The irrigation share of the net consolidated revenue was ₹34,33,190, giving a rate of 1.97 per acre on the average. This head shows a decrease of ₹1,83,180 on the previous year, which is explained by the loss on the Ghár canals.

7. The several items of Maintenance and Repairs, with the exception of Establishment, show a satisfactory decrease of expenditure. The excess of ₹34,807 on Establishment, however, reduces the total saving to ₹8,200 only.

8. The percentage of the Maintenance and Repair charges on the Revenue is 39.02, and the charge per acre of cultivation is 0.80, comparing favourably with the averages of past years.

9. The report as regards the recovery of outstandings is satisfactory.

10. Remissions given exceed the average by ₹54,049, but this is due to the losses on the Ghár; otherwise the amount remitted would have been comparatively small.

11. The percentage of expenditure on the revenue was 37.60, or almost the same as last year, being 2.68 below the average; but the establishment percentage was 5.88 higher than the previous year.

12. Efforts must be made to provide funds to render more secure the protective embankments in Lower Sind, the growing necessity for which is pointed out by the Superintending Engineer for Irrigation and emphasized by the Commissioner. The encroachment of the river at the 40th mile of the Kashmor bund, mentioned in the body of the report, has proved a serious matter and has necessitated an expenditure of nearly 1½ lakhs of rupees, a special grant for which has been asked and obtained from the Government of India.

13. Government concur with the Commissioner in Sind in regretting the approaching termination of Colonel LeMesurier's long and valuable services in connection with the Irrigation in Sind.

14. Copies of the report and the memorandum thereon by the Commissioner in Sind should be forwarded as usual, with the review of this Government, to the Government of India and Secretary of State for India.

No. 4928 OF 1886.

PUBLIC WORKS DEPARTMENT.

*Commissioner's Office,**Camp Jacobabad, 20th December 1886.*

In forwarding this report to Government there is not much that calls for remark by the Commissioner. The facts are so clearly and concisely stated that detailed review would serve no useful purpose.

2. The inundation of 1885 was a favourable one, an "exceptionally good one" the Superintending Engineer for Irrigation terms it, but in spite of this the area under canal cultivation and share of Government revenue due to irrigation is less than in the year 1884-85. The principal cause for this decrease was the unfortunate failure of supply in the Ghar, one of the most important canals in the Province, a failure due partly to erosion by the river Indus at the mouth of the canal and partly also to the delay in selecting a site for the new regulating bridge on the Fordwah, a feeder of the Ghar, and in the erection of the regulator to control the supply. This delay undoubtedly resulted in a large loss of revenue and loss also to the cultivators. The falling off in the revenue from this cause was certainly over two lakhs of rupees, for the actual loss to Government exceeded the amount of revenue remitted as owing to the state of the canal a good deal of land along a part of its course was left uncultivated, which, had the supply been better, would have been brought under the plough. But for this loss the revenue of the year would have shown a satisfactory increase.

3. With regard to the water-rate levied on cultivation in Baluchistan it appears from the table in paragraph 4 that the collections are still very irregular. The water-rate on Khelat lands for the year amounted to Rs60,155, while the actual realizations were Rs48,000. Steps are, it is stated, being taken by the Khelat authorities to levy the outstanding balances. With regard to the hakaba or clearance rate levied on cultivation in jaghir lands there is nothing in the figures given that calls for remark.

4. It is unnecessary for the Commissioner to follow Colonel LeMesurier who gives details for the different groups of canals and districts, but he would draw attention to that officer's remarks in paragraph 28 in connection with the protective embankments in Lower Sind. The urgent need of improving these has more than once been brought to the notice of Government, and it is to be hoped that money may be granted for the purpose at an early date, as it is hardly too much to say that the prosperity of the agricultural classes in Lower Sind depends on this work being carried out.

5. The results for the year reported on are on the whole very satisfactory. Fluctuations in revenue there ever must be in dealing with canals fed by the Indus, which, as explained in Colonel LeMesurier's 18th paragraph, has, by the variations in its course, seriously affected the working of several of the canals, but there can be no question that if sufficient grants are given to enable the officers of the Irrigation Department to maintain the canals in good working order, the increased area brought under cultivation during the past few years will not only be maintained but a still very marked further increase both in area under cultivation and in revenue may confidently be expected.

6. It is with regret that the Commissioner has learnt that there is a probability that Sind may very shortly be deprived of the services of Colonel J. LeMesurier, the Superintending Engineer for Irrigation. Such an event will be a serious loss to the Province, as by his intimate acquaintance with the canals and their requirements Colonel LeMesurier has been able to do much to improve the efficiency of the Department he has so long and ably controlled.

H. N. B. ERSKINE,

Commissioner in Sindh

SUPPLEMENT No. 21.

PART I.

Government of India Notifications, Appointments, Promotions, &c.

LEGISLATIVE DEPARTMENT.

NOTIFICATIONS

Simla, the 20th May, 1887.

No. 13.—His Excellency the Governor-General, under the authority vested in him by the Statute 24 and 25 Vic., Cap. 67, Section 10, has been pleased to nominate Lieutenant-Colonel E. G. Wace, Financial Commissioner, Punjab, to be an Additional Member of the Council of the Governor-General for the purpose of making Laws and Regulations, *vice* Colonel Sir W. G. Davies, K C S.I., resigned.

No. 14.—In exercise of the power conferred by the Statute 24 and 25 Vic., Cap. 67, Section 17, the Governor-General in Council has been pleased to appoint Wednesday, the 25th instant, at 11 A.M., as the time, and the Council Chamber in the Viceregal Lodge, Simla, as the place, for a meeting of the Council of the Governor-General for the purpose of making Laws and Regulations.

S. HARVEY JAMES,

Offg. Secretary to the Government of India

HOME DEPARTMENT.

NOTIFICATIONS.—PUBLIC.

Simla, the 16th May, 1887

No. 1065.—The following Notice published in the *London Gazette* of the 11th February, 1887, is republished for general information

“FOREIGN OFFICE, *February 10th, 1887*

On the 17th January, 1887, Her Majesty's Secretary of State for Foreign Affairs gave notice to the Belgian Minister at this Court, in accordance with the terms of Article 15 of the Copyright Convention between Great Britain and Belgium of the 12th of August, 1854, that the said Convention will terminate on the 17th of January, 1888

The said notice has been accepted by the Belgian Government, and the Convention will therefore terminate on that date.”

ESTABLISHMENTS.

The 20th May, 1887.

No. 128.—Lieutenant F. J. B. Priestley, 3rd Punjab Cavalry, is appointed, on probation, to be an Assistant Commissioner of the 4th Grade in Burma.

MEDICAL.

The 19th May, 1887.

No. 249.—Consequent on the abolition of the appointment of Medical Officer, North-Western Railway, the services of Surgeon S. Little, M.D., are replaced at the disposal of the Military Department.

JUDICIAL.

The 19th May, 1887.

No. 811.—The Hon'ble Ramesh Chunder Mitter, B.L., a Judge of the High Court of Judicature at Fort William in Bengal, has obtained privilege leave for two months from the 25th instant, or from any subsequent date on which he may avail himself thereof.

ECCLESIASTICAL.

The 18th May, 1887.

No. 170.—The Reverend Alfred Neville-Rolfe, B.A., has been appointed a Junior Chaplain on the Bengal (Calcutta) Ecclesiastical Establishment to fill an existing vacancy.

PATENTS.

The 16th May, 1887.

No. 677.—Specifications of the undermentioned inventions have been filed, under the provisions of Act XV of 1859, in the Office of the Secretary to the Government of India in the Home Department. Copies have been sent to one of the Secretaries to each of the Governments of Bengal, Fort St. George, Bombay, and the North-Western Provinces. A copy of every specification is open to public inspection, at all reasonable hours, at the Office of the Secretary to the Government of India in the Home Department at the Presidency, upon payment of a fee of one Rupee. A certified copy of any specification will be given to any person requiring the same on payment of the expense of copying.—

No. 13 of 1887.—John Saxby and John Stinson Farmer, of the Firm of Saxby and Farmer of Canterbury Road, Kilburn, in the County of Middlesex, England, for an improvement in supporting guides for rods to work railway points, signals, gates, and the like.

No. 80 of 1887.—Cottlieb Daimler, of Cannstadt, Württemberg, in the Empire of Germany, Engineer, for apparatus for effecting marine propulsion by gas or petroleum motor engines.

A. P. MACDONNELL,

Secretary to the Government of India.

REVENUE AND AGRICULTURAL DEPARTMENT.

NOTIFICATIONS.—EMIGRATION.

Simla, the 14th May, 1887.

No. 60—20-7 E.—With reference to Notification No. 39, dated the 29th March, 1887, the following amendments in the Rules under the

Indian Emigration Act, XXI of 1883, are published under Section 81 (4) of that Act for general information:

- (1) Omit the *Nota Bene* at foot of the Scale of Boats in Schedule A (page 82).
- (2) Under the heading "Crew of Emigrant vessel" in Schedule A (page 84), substitute the word "three" for "four" in the two paragraphs following clause (c).

The 20th May, 1887.

No. 901 G.—Surgeon A. H. C. Dane, M.D., Medical Officer of the Bhopal Battalion and Agency, is granted privilege leave for forty-five days, with effect from the 15th May, 1887.

The 16th May, 1887.

No. 1012 E.—The following correspondence, embodying an agreement with the Siamese Government for reciprocal free trade on the Burma-Siam frontier, is published for general information:

Dated Bangkok, the 28th January, 1887.

From—Her Britannic Majesty's Minister-Resident and Consul-General in Siam,

To—The Siamese Minister for Foreign Affairs.

A representation reached me a short time ago from certain British traders, who are in the habit of importing goods across the frontier from Burma into Raheng, stating that they have been called upon by the Governor of that Province to pay import duty at the rate of three per cent. in accordance with the Bangkok tariff, and asking me to instruct them whether they should comply with this demand.

I may observe to Your Royal Highness that although this frontier trade has existed for many years past, it has not, to my knowledge, been the practice hitherto to levy any duties. The trade itself is probably of no great magnitude; but such as it is, it no doubt is productive of benefit and convenience to the inhabitants of Raheng and the neighbouring provinces of Northern Siam, who are thus enabled to supply themselves less circuitously than by the river route from Bangkok.

I do not desire to contest the right of the Siamese Government to levy such duties, if they think it desirable, after giving the usual public notice to the trade; but I would beg to observe that, while the annual amount accruing to the Royal Treasury from such duties would probably form an insignificant item of revenue, their imposition would probably have the effect of disproportionately restricting a trade which is without doubt advantageous to both Siam and Burma.

I have now the honor to inform Your Royal Highness that I am empowered by His Excellency the Viceroy of India to propose to enter into an agreement that the overland trade shall be permitted to remain free as heretofore, with the exception, however, of the duties on salt and articles liable to excise when produced in India, and maintaining the freedom of both Governments with regard to the imposition of restrictions on the importation of arms and ammunition.

Under such an agreement all merchandise from Siam would pass freely into Burma, with the above exceptions, and *vice versa*. It is not proposed, however, to include in this arrangement the territories affected by the Treaty of 3rd September, 1883, unless the Government of His Majesty the King of Siam should desire it.

Translation of a letter from the Siamese Minister for Foreign Affairs to Her Britannic Majesty's Minister-Resident and Consul-General in Siam,—dated Foreign Office, Bangkok, the 2nd February, 1887.

I have the honor to acknowledge the receipt of your note of the 28th of January, relating to the import duty on goods across the frontier from Burma to Raheng, in which you inform me that you have been empowered by His Excellency the Viceroy of India to enter into an agreement with His Majesty's Government for the mutual regulation of the overland trade, the basis of which is fully given by you.

I have submitted your note to my Sovereign and His Majesty's Government; and I am directed to state in reply that the object of the proposed establishment of customs stations on the frontier is to obtain accurate statistics of the trade of the kingdom, which have heretofore been very incompletely kept, and further, that His Majesty's Government is willing to agree with you upon the following:

The overland trade between Burma and Raheng shall remain free as heretofore, and only on salt and such articles as are liable to inland duty when produced in Siam an excise duty shall be levied.

Both Governments reserve to themselves the right to make regulations for the importation of arms and ammunition.

His Majesty's Government is not prepared at present to include in this arrangement the territories affected by the Treaty of 1883.

His Majesty's Government desires further that all traders should declare the value of the merchandise they carry on passing the frontier station, in order that complete statistics may be kept.

The 20th May, 1887.

No. 1016 E.—With reference to Foreign Department Notification No. 81-E., dated the 11th January, 1887, it is hereby notified—

(1) that Her Majesty's Secretary of State for India by Resolution in Council, dated the 10th September, 1884, declared the provisions of the first section of an Act passed in the thirty-third year of Her Majesty's reign, chapter 3, entitled "An Act to make better provision for making Laws and Regulations for certain parts of India, and for certain other purposes relating thereto," to be, from and after the 10th September, 1884, applicable to the island of Perim in the Red Sea, being part of the territories on that date under the government of the Governor in Council of Bombay; and

(d) that the Resolution of the Secretary of State in Council, notified by the Foreign Department Notification No. 81-E., dated 11th January, 1887, above referred to, was passed in continuation of the Resolution hereby notified, as also of the Resolution of the Secretary of State in Council, dated the 30th September, 1885, relating to Aden, which was notified by Foreign Department Notification No. 1898-E., dated the 16th December, 1885.

The 17th May, 1887.

No. 885 F.—His Excellency the Viceroy and Governor-General is pleased to confer upon Mirza Yakub Ali Khan, late Mr. Munshi of the Baluchistan Agency, Quetta, the title of 'Khan Bahadur,' as a personal distinction.

H. M. DURAND,

Secretary to the Government of India.

SUPPLEMENT TO

The Gazette of India.

No. 21.]

SIMLA, SATURDAY, MAY 21, 1887.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and Notifications as the Government of India may deem to be of interest to the Public, and which may not be made known by the Department or the Legislative Council of His Excellency the Governor-General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA
REVENUE AND AGRICULTURAL DEPARTMENT.

SUMMARY OF THE WEATHER REPORT FOR APRIL, 1887

Extract from the Proceedings of the Government of India in the Revenue and Agricultural Department (Meteorology), No 74 Met 247, dated Simla, the 16th May, 1887

Read the following.

Summary of the Weather Report for April, 1887.

During April Meteorological conditions throughout India have been comparatively settled. No serious depression has disturbed the weather, and though the distribution of pressure and the circulation of the winds in Northern India have been somewhat abnormal, the result has been that on the whole greater serenity than usual has been experienced. Pressure has ranged above the average, except at a few places in the Punjab, Sind, Guzerat, the Berars, the Malabar Coast, and Burma, where there has been a trifling deficiency. The average excess was greater in Northern than in Southern India and was greatest in Assam. As a rule, throughout the month the lowest pressures were found extending north-westward from Chutia Nagpur across the Central Indian plateau and the south of the Gangetic plain as far as the south of the Punjab, with slightly higher pressures over the plain to the north of the Ganges and the submontane districts of the Punjab. In consequence of this distribution, the prevailing wind was over Bengal from south, up the Gangetic valley from east and south-east, over Rajputana, Central India, Khandesh, and the Konkan from north-west, and over the central parts of the country from west. In the Peninsula the wind was variable between south-east and south-west, though on some occasions the north-westerly winds of the Konkan Coast extended southward into Malabar. The southerly winds over Bengal and the Peninsula occasioned rather cloudy skies in those regions and rain was not infrequent. In the Peninsula the showers were on some occasions rather heavy, and the total amount received in Malabar, Mysore, and the Carnatic was in excess of the average. In Bengal on the contrary they were light and scattered, and except to the north of the Ganges the month's fall was below the average. In the North-Western Provinces owing to rather heavy thunderstorms during the first half of the month there was a trifling excess of rain, but with these exceptions the general rainfall of India was deficient.

In Ceylon owing principally to heavy downpours on the 6th and 28th of April there was a large excess.

Temperature was subject to considerable oscillations during the month. In Bengal, the east of the Central Provinces, a large part of the North-Western Provinces, and in the south of the Peninsula the mean temperature, owing to the frequent showers mentioned above, was below the average, but in all other parts of the country, more particularly in the North-West, it was above. At Rawalpindi the mean was at 7° , at Peshawar 5° , and at Mooltan and Lahore 4° higher than usual.

The variations of relative humidity were irregular, but in the Punjab the amount of moisture in the atmosphere was much below the normal.

The following table shows the amount of rain and the difference from the average during the month of April, 1887, according to districts, as far as is indicated by the telegraphic reports.

Districts.				No. of Stations.	Average rainfall for April	Difference from the average in April 1887
Punjab, West	7	1'70	—1'28
" East	4	1'13	—0'47

W. L. DALLAS,

METEOROLOGICAL OFFICE,

Simla, 5th May, 1887.

Assistant Meteorological Reporter

to the Government of India.

RESOLUTION.—Resolved, that the Summary be published in the Supplement to the *Gazette of India*.

GOVERNMENT OF INDIA.
REVENUE AND AGRICULTURAL DEPARTMENT.

Weather Review of India for the week ending the 18th May, 1887.

During the week under discussion, the weather over India has progressed steadily from a somewhat abnormal and unsettled state towards more normal and settled conditions. The principal abnormal feature was the relative depression of pressure which has existed throughout almost the whole week over Orissa, the eastern parts of the Central Provinces and Southern Behar. This depression has occasioned more or less strong southerly winds to blow from the head of the Bay across the Bengal coasts into Lower Bengal and an unusual amount of easterly in the winds of Bengal generally and Assam. The highest pressures throughout the whole week have been shown over the west coast and the lowest over the Punjab. Within the low pressure area over the Punjab numerous duststorms have been formed, and as a consequence dusthaze has been reported almost uninterruptedly from the Punjab stations both on the hills and plains. Quite at the close of the week an alteration occurred in the position of the low pressure area, which was transferred to the foot of the hills from the Punjab to Behar. With this change the easterly (south-east to north-east) winds which had prevailed, to a large extent, over the Gangetic plain disappeared and were replaced by the north-westerly winds, characteristic of the hot season, under the influence of which temperature rose and the air became intensely dry all over Upper India.

During the earlier part of the week rain was fairly general and frequent in Lower Bengal and Assam. In Bengal the fall ceased on the 15th, but in Assam slowly diminishing showers lasted until quite the close of the period. In the west of the Peninsula slight sporadic rainfall has occurred throughout, but here also the amount of the rainfall diminished towards the close of the week. In Ceylon rain fell on the 12th and 13th and again on the 18th. On the last date the weather was overcast over that island, and south-westerly winds were strengthening, apparently indicating an advance of the south-west monsoon current in the extreme south of the Indian region. As there has been no rain in Upper India, the following table shows a still further increase in the seasonal deficiency. At Peshawar, Lahore, Susa, and Agra the total rainfall since November 1st, 1886, equals only 33, 15, 24, and 60 per cent. respectively of the normal amount.

Stations				Actual rainfall from 1st November, 1886, to 18th May, 1887.	Average rainfall from 1st November, 1886, to 18th May, 1887.	Difference.
Multan	0.64	2.02	—1.38
Peshawar	2.43	7.41	—4.98
Murree	10.37	15.78	—5.41
Rawalpindi	4.99	11.17	—6.18
Lahore	0.62	4.02	—3.40
Simla	10.92	13.97	—3.05
Delhi	2.49	3.72	—1.23
Roorkee	4.06	6.25	—2.19
Meerut	2.76	4.29	—1.53
Bareilly	3.66	3.86	—0.20
Agra	1.13	1.86	—0.73
Lucknow	1.40	2.12	—0.72
Allahabad	4.58	2.19	+2.39
Darjeeling	12.48	12.02	+0.46
Calcutta	8.64	8.95	—0.31

The temperatures of the past week call for little remark. The mean temperature of Northern India has been decidedly above the normal and that of the Peninsula equally decidedly below, but the extremes during the day have been generally about the average. Both Rajahmundry and Masulipatam have experienced very high day temperatures. The highest reading recorded during the week was 115° at Agra on the 12th.

The final table shows that pressure was below the average in the Punjab, North-West Provinces, Bengal, Assam, the Central Provinces, Rajputana, Sind, the Karnatic, and Burma, and above it in the Berars, Guzerat, and over the west and centre of the Peninsula. Temperature was 5° above the normal in the Punjab, North-West Provinces, and Behar, and 2° or 3° above in other parts of Bengal, Assam, and the Circars. Elsewhere the mean was below the normal. The air was very dry over Upper India, but elsewhere the departures from the normal were small.

Districts	Difference of Barometer from mean, May 12th to May 18th	Difference of Temperature from mean, May 12th to May 18th	Difference of Humidity from mean, May 12th to May 18th	Total Rainfall in week, May 12th to May 18th.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE
WEEK ENDING 19th MAY, 1887

GENERAL REMARKS—The rainfall has been general throughout Madras, Bengal, Burma, and Assam, and a fair amount of rain has also fallen in parts of Bombay. Elsewhere the week has been practically rainless.

Kharif operations are in general progress in Bombay, the Central Provinces, and Berar, and have commenced in the North-Western Provinces and Oudh and the Punjab. Sowings have begun in parts of Bombay and the Punjab.

The prospects of the standing crops in Madras and Mysore continue satisfactory, but in Coorg coffee has been damaged by rain and hail.

The early rice is coming up well in Bengal and Assam.

Sugarcane is doing well in Bengal, the North-Western Provinces and Oudh, and the Central Provinces.

Indigo is thriving in Bengal and the North-Western Provinces and Oudh.

Cotton-picking has been completed in Bombay, and the land is being prepared for the sowing of the crop in Rajputana.

Except in Bengal, where cholera is still prevalent in several districts, the public health is generally satisfactory.

Cattle-disease chiefly prevails in Madras and Bombay.

Prices show a tendency to rise in the North-Western Provinces and Oudh, and are rising in three districts of the Punjab. Elsewhere they are fairly steady.

Presidency or Province and District	Rainfall for week under report	State of agricultural prospects
Madras—(May 18th)		
Bellary	Average 11	Standing crops generally good. Harvest sugarcane, yield average. Fever in one taluk. Cholera increasing and cattle-disease decreasing in two taluks.
Burnool	Average last week since revised, 90, this week, 97	Standing crops good. Harvest second crop paddy, outturn below average. Small-pox in four, and cattle-disease increasing in six taluks.
Ganjam	Average last week since revised, 121, this week, 19	Small-pox and fever in four, and cattle-disease increasing in two divisions. Cholera decreasing.
Kistna	Average 12	Standing crops good. Slight fever prevalent. Cholera increasing and cattle-disease also increasing in three taluks.
Chingleput (Madras)	Average 61	Standing crops fair but withered to some extent for want of rain. Harvest paddy and <i>ragi</i> , outturn below average. Small-pox in one, and cattle-disease increasing.
Coimbatore	Average 24	Standing crops generally good, but second crop paddy withering in one taluk. Harvest paddy, outturn above average. Fever, small-pox, and cattle-disease increasing in two taluks.
Tanjore	Average 13	Standing crops generally good. Harvest dry crop, outturn up to average. Cattle-disease in two taluks.
Madura	Average since revised for week ending 30th April, 255, last week, 13, this week, 66	Cattle-disease in one taluk.
Malabar	Average 69	Standing third crop paddy ripening. Fever in two and small-pox in nine taluks.
Travancore	75	Harvest second crop paddy, yield average. Lands being ploughed and sown for next crop. Small-pox and fever in places.
Bombay—(May 18th)		
Karachi	Nil	Strong monsoonish winds. River at Kotri on 16th, 9 feet 5 inches against 14 feet 9 inches on same date last year. <i>Kharif</i> transplanting commenced in Ghorabari and Shahbandar talukas. <i>Rabi</i> crop (<i>moong</i> and pulse) injured by dews in Sakro taluka. Fever in seven and cattle-disease in one taluka. Wheat, red rice and <i>bajra</i> in Karachi 22, 30 and 32 and in Fatta 22, 42 and 40 pounds per rupee, respectively.

Presidency or Province and District	Rainfall for week under report	State of agricultural prospects
Bombay—contd.		
Hyderabad	33	<i>Rabi</i> harvesting continued in six talukas. <i>Aharif</i> cultivation in progress. Run accompanied by hailstones in Hila. Fever in three and small-pox in one taluka. River at Kott on 16th, 9 feet 3 inches against 14 feet 9 inches on same date last year. Wheat 22, <i>bajra</i> 37½, <i>jowari</i> 40, white rice 20, and red rice 30 pounds per rupee.
Ahmedabad	<i>Nil</i>	<i>Rabi</i> harvesting and cotton-picking completed. Land being manured in two talukas. Public health good. Wheat 28 and <i>bajra</i> 31 pounds per rupee.
Baroda	<i>Nil</i>	Public health good. Measles in Amreli. Land under preparation for cultivation. <i>Rajra</i> 28, wheat 16 and rice 18 pounds per rupee.
Surat	<i>Nil</i>	Land being prepared for <i>harif</i> . Fever and small-pox in Bardoli taluka. <i>Rajra</i> 36 and <i>ajra</i> 44 pounds per rupee.
Nasik	Rain in six talukas, maximum in Niphad, 1.47 and minimum in Sinhar, .26	<i>Rabi</i> threshing nearly completed. Land being prepared for <i>harif</i> sowing. Run has slightly damaged winter husbandry crops. Small-pox at Yeloli, otherwise public health good. Prices stationary.
Colaba (Bombay) . .	<i>Nil</i>	Abnormal temperature 1° warm from 11th to 14th afterwards <i>nil</i> . Vapour in air normal. Wind normal from 11th to 15th. At normal wind northwesterly on 16th and 17th.
Poona	Indapur, 1.06	Land under preparation for cultivation in Indapur, Purandhar, and Bhimthar talukas. Public health generally good. Cattle-disease in village in Purandhar taluka. <i>Bajra</i> 44 and <i>jowari</i> 56 pounds in the district, and <i>bajra</i> 37 and <i>jowari</i> 45 pounds per rupee in Poorba city.
Ahmednagar	Slight rain in Newa	<i>Bajra</i> 56 and <i>jowari</i> 65 pounds per rupee.
Sholapur	Sholapur 1.65, Bursi, 6, Karmali, 20, Singoli, .25	Land being prepared for <i>harif</i> crops. Cattle-disease in Sholapur and Pandharpur talukas. Cholera in Sholapur, Bursi, Midha, Pandharpur and Singoli talukas. <i>Bajra</i> 64 and <i>jowari</i> 54 pounds per rupee.
Dharwar	Mundargi, 1.12, Nurgund, .84, and slight rain in two talukas	Ground being prepared for early crops. Sowing of rice commenced in Mugad and extended in some places for winter. Survey of fodder in Newalgund and of drinking water in Gadag, Karig and Kodli talukas. Public health generally good. Slight fever in Gadag and small-pox in Newalgund. Rice 24 and <i>jowari</i> 56½ pounds per rupee.
Kanara	Honwar 46, Karwar, 2.44, Kumpti 1.26	Sowing continues in Honwar, Saldipur and Supra talukas. Slight fever in Sisa and Halvad. Common rice in Karwar and district average 15.50 pounds per rupee.
Rajkot	<i>Nil</i>	Weather warm and cloudy. Measles in Duro, Dhurphi and Gadki. Small-pox in Dhurphi. Wheat 47 and <i>bajra</i> 34 pounds per rupee.
General Remarks. More or less rain in parts of three districts. Land being prepared for <i>harif</i> cultivation everywhere and early <i>harif</i> sowings commenced in five districts. Fever and cattle-disease in parts of one, small-pox in parts of eight, and cholera in parts of four districts.		
Bengal—(May 18th)		
Chittagong (May 17th)	3.14	Weather hot. Prospects of crop fair. Prices steady. Cholera continues.
Dacca	3.73	<i>Amrit</i> , <i>mus</i> and jute being sown. Prospects good. Harvesting of <i>boro</i> rice nearly finished. Public health good.
24-Pargunnas Calcutta	1.46	Sugarcane promises well. Ploughing in progress. Public health fair.
Khoolna	0.27	Weather very hot. Yield of <i>boro</i> rice fair. Ploughing and sowing of <i>aus</i> continue. Mango disease. Public health good.
Moorshedabad	1.13	Weather very hot. <i>Amrit</i> largely sown. Harvesting of <i>boro</i> still going on. Indigo thriving well. Public health good.
Pubna	0.34	Weather hot. Crop coming on well. Cholera abating. General health good.
Dinagapore	0.47	About 12 annas of jute and 10 annas of <i>bhidi</i> sown. Cholera in three thans and cattle-disease in two.
Rungpore	1.54	Cholera prevalent.
Midnapore	0.8	Ploughing just commenced. Public health good.
Burdwan	0.73	Intense heat. Prospects of crop good. Fever has appeared.
Bhagulpore	<i>Nil</i>	<i>Bhidi</i> sowings begun. Run wanted in north. Sugarcane doing well. Cholera spreading slightly.
Purneah	<i>Nil</i>	All crops doing well. Run would do good. Early rice and jute sowings and sugarcane planting in progress. Rivers low. Public health fair.
Durphanga	1.65	Early rice, <i>soong</i> and indigo greatly benighted by rain. Mango considerably injured by hail. Lands being prepared for <i>bhados</i> sowings. Cholera has abated.
Chumparun	0.07	Early rice, <i>moong</i> and <i>cheena</i> doing well. Sowing of <i>bhados</i> and <i>aghani</i> progressing in Baliali subdivision. Prices stationary. Cholera very prevalent in every part of the district.
Patna	<i>Nil</i>	Prospects of crops favourable. Cholera prevalent in different parts of the district.

Presidency or Province and District	Rainfall for week under report	State of agricultural prospects
Bengal—contd.		
Gya	<i>Nil</i>	Weather intensely hot. Sugarcane and <i>chitra</i> doing well. Cholera in all parts of the district, except Nowada subdivision, where fever and small-pox reported.
Hazareebagh	<i>Nil</i>	Weather very hot. Sugarcane doing well. Ploughing going on. General health good. Cholera and small-pox in some villages.
Cuttack	<i>Nil</i>	Weather extremely hot. Ploughing in progress. Sowing commenced in many places, but requires rain. Price of rice unchanged. Public health generally good.
<i>General Remarks.</i> Weather hot and sultry. Rain fell in all the Bengal districts, but in Behar scanty showers fell only in the districts north of the Ganges, and in Orissa and Churia Nigapur the fall was almost nil. General prospects are favourable. Ploughing and sowing are in good progress, but more rain is wanted in parts of the Burhwa Rajhara and Bhagulpore divisions, and in Cuttack <i>betwa</i> have this sowing on. General health has improved, but cholera is prevalent in several districts.		
N-W Provinces and Oudh (May 18th)		
Benares (May 17th)		Weather very hot. Markets well supplied and prices steady. Some cholera in the district, otherwise public health good.
Bithur (" 10th)		Weather clear. Heat intense. <i>Kharif</i> harvest nearly over. Supplies ample. Public health good.
Gorakhpore (" ")		Harvest completed, output below average. Prices stationary. Epidemic cholera in some districts.
Fazabad (" 17th)		Weather hot and hot. Wind chiefly from east. Markets well supplied. Sporadic cholera in three taluks and small-pox in one.
Lucknow (" 10th)		Hot wet wind since 15th. <i>Sarab</i> being cut. Sugarcane being watered. Supplies ample. Prices almost stationary. Public health and condition of cattle good.
Raebareilly (" ")		Intense heat. Westerly wind. Supplies abundant. Prices steady. Cholera in some districts. Some cases of cattle disease reported from taluk Raebareilly.
Partabgarh (" 17th)		Prices steady. Cholera in epidemic form in district. Small-pox continues to be reported. Condition of cattle good.
Allahabad (" ")		Strong hot winds blowing. Sugarcane being irrigated. Markets full. Prices show a tendency to rise. Cholera has increased somewhat, otherwise health good.
Cawnpore (" ")		Weather calm. In high temperature being increased. Extra crop in good condition. Prices stationary. Small-pox in one and fever in two taluks. Cattle disease in seven villages.
Farakhabad (" ")		Weather hot but several showers. Thrashing and winnowing continue. Sugarcane and indigo thriving. Supplies ample. Prices rising. Health fair.
Sitapur (" ")		Hot westerly winds prevail. Thrashing flour for the most part cleared. Prices remain steady. Public health good.
Barilly (" ")		Heat great. Prices still showing rising. Health of men and cattle good.
Banda Kumaon (May 17th)		No report received. Weather dry and hot. High westerly winds occasionally. <i>Kharif</i> crops being harvested. <i>Kharif</i> operations in progress. Prices rising. Cholera in Kumaon and Bhadrar. Cattle-disease continues.
Agra (" 16th)		Great heat. Sugarcane and indigo being irrigated. Prices steady. Small-pox continues in city and two taluks.
Jhansi (" ")		Weather reasonable. Extra crop doing well. Prices rising. Cholera during. Shikri small-pox and cattle-disease reported.
Meerut (" 17th)		Hot westerly wind. Prices steady. A few cases of small-pox reported.
<i>General Remarks.</i> Weather very hot with high westerly winds. Sugarcane and indigo crop promising well and the rain watered. Supplies sufficient though prices show a tendency to rise. Cases of cholera and small-pox continue to be reported, the former and the epidemic in the two districts. Some cattle-disease reported from four districts, elsewhere condition of cattle is good.		
Punjab (May 18th)		
Delhi (May 17th)	<i>Nil</i>	Health good. Prices slightly rising.
Hissar	<i>Nil</i>	Health fair. Prices stationary.
Umballa	Slight	Health good. Prices stationary. <i>Rabi</i> thrashing completed, yield below average.
Jullundur	<i>Nil</i>	Health good. Prices stationary. <i>Kharif</i> below average.
Amritsar	<i>Nil</i>	Health good. Prices stationary. <i>Kharif</i> sowings in progress.
Sialkot	<i>Nil</i>	Health good. Prices stationary. <i>Kharif</i> sowings progressing.
Ferozepore	20	Health good. Prices rising.
Lahore	<i>Nil</i>	Health good. Prices almost stationary.
Rawalpindi	<i>Nil</i>	Health good. Prices rising. <i>Kharif</i> below average.
Multan	<i>Nil</i>	Prices stationary. <i>Kharif</i> sowing commenced. <i>Rabi</i> nearly harvested.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Punjab—contd.		
Dera Ismail Khan	<i>Nil</i>	Health good. <i>Rabi</i> below average.
Peshawar	<i>Nil</i>	Health fair. Prices almost stationary. <i>Rabi</i> harvested, yield below average.
Shahpur	<i>Nil</i>	Health good. Prices high and stationary. <i>Rabi</i> being harvested, outturn poor.
		<i>General Remarks.</i> —Slight rain has fallen in the Umballa and Ferozepore districts. Health fair in Hissar and Peshawar, elsewhere good. Except in Delhi, Ferozepore and Rawalpindi, where they are rising, prices are stationary. <i>Kharif</i> sowings are in progress in the Amritsar, Sialkot and Multan districts. In the Umballa, Jullundur, Rawalpindi, Shapur and Peshawar districts the <i>rabi</i> harvest has been below the average.
Central Provinces— (May 18th)		
Nagpur	33	Weather hot. Land being prepared for <i>kharif</i> . Fever, cattle-disease and small-pox prevalent. Prices steady.
Jubbulpore		Weather hot, sometimes cloudy. <i>Kharif</i> ploughings commenced. Slight cholera. Prices steady.
Saugor (May 17th)		Weather hot and windy. Winnowing continues. Small-pox and cattle-disease prevalent. Prices unchanged.
Seoni		Days hot; nights cool. Weather sometimes cloudy. <i>Kharif</i> ploughings in progress. Some small-pox. Prices falling.
Hoshangabad		Weather windy, warm and dusty. Sky occasionally cloudy. Winnowing continues. Fever prevalent. Prices stationary.
Khandwa	18	Days warm; nights cool. Land being prepared for sowings. Small-pox continues. Prices steady.
Raipur		Weather hot and sometimes cloudy. Manuring of fields continues. Cattle-disease decreasing. Prices of wheat fallen.
Bilaspur		<i>Rabi</i> threshing almost completed. Fields being manured. Sugarcane doing well. Cattle-disease in Mungeli.
Sambalpur (May 14th)		Weather very warm. Sugarcane being irrigated. 9 deaths from cholera. Prices steady.
		<i>General Remarks.</i> —Weather hot and sometimes cloudy. Lands being prepared for <i>kharif</i> sowings. Fever, small-pox and cattle-disease in places. Prices generally steady.
Burma—(May 18th)		
Akyab (May 14th)	10.19 (Total rainfall to date 15.93).	Some cases of cholera in district. Cattle healthy.
Bassein	52 (Total rainfall to date 4.12).	Public health and health of cattle good.
Rangoon	11	Public health and health of cattle good.
Amherst (Moulmein)	2.16 (Total rainfall to date 11.35).	Public health good. Cattle healthy.
Tavoy	5.51	Health of men and cattle good.
Pegu	1.0	Public health good. Slight cattle-disease.
Henzada	56 (Total rainfall to date 56).	Public health and health of cattle good.
Prome	29 (Total rainfall to date 1.45).	Public health and health of cattle good.
Toungoo	1.14 (Total rainfall to date 5.08).	Public health good. 8 deaths from cattle-disease.
Thayetmayo	39 (Total rainfall to date 1.17).	Public health and health of cattle good.
Minbu	1.38	Health good. Food-supply sufficient and prices normal.
Yamethen	2.16	Health good. Spring crops progressing.
Kyaukse	1.30	Public health good. Prospects of early crop good.
Myingyan		Some cases of measles and small-pox. Food-supply sufficient and prices ordinary.
Mandalay	4.65 (Total rainfall to date 6.01).	Public health and health of cattle good. Food-supply sufficient.
		<i>General Remarks.</i> —Slight cholera in parts of Lower Burma. Some cattle-disease in parts. Reports received from six Upper Burma districts. Some cases of measles and small-pox in Myingyan. Crops doing well.
Assam—(May 18th)		
Gauhati (May 17th)	3.53	Weather rainy. Public health fair. <i>Boro dhan</i> reported to have been infested with <i>sihu</i> insects in Pati Darrang. Cattle-disease is also reported from this tahsil. Prospects of crops in other parts good.
Sylhet	2.99	State and prospects of the crops good. Cattle-disease still prevalent in Karimganj.

Presidency or Province and District	Rainfall for week under report	State of agricultural prospects.
Assam contd		
Cachar	2 41	Weather cloudy with rain. Ploughing and sowing of <i>dum</i> and <i>musal</i> crops nearly finished. Cultivation of <i>adil</i> crops commenced. Common rice 15½ seers per rupee. 8 deaths from cholera from Hailikandi reported. General health good.
Dibrugarh	6 07	Heavy rain. <i>Kathia</i> being sown. Prospects of <i>ahu</i> good. Tea not doing well. Public health fair.
Mysore and Coorg— (May 18th)		
Bangalore	Slight rain in parts 20	Standing crops in good condition. Prospects of season favourable. Public health good. Small-pox and cattle-disease continue in affected parts. No material change in prices. Coffee prospects have suffered in South Coorg from rain and hail. Prices stationary.
Mysore Merritta		
Berar and Hyderabad— (May 18th)		
Amraoti	Weather hot, with high winds and occasional storms. Ploughing for <i>khush</i> continues. Slight sickness in the Amraoti taluk. Cattle healthy. Wheat 15 and <i>jeera</i> 25 seers per rupee.
Akola		Weather very warm. <i>Khush</i> preparations going on vigorously. Isolated cases of small-pox. Foot-disease among cattle. Prices steady.
Hyderabad	Nil	Rain, <i>khush</i> crops continue. Cholera still prevails at Hyderabad and in the taluks. Prices wheat 13½, coarse rice 14, white <i>jeera</i> 10½, yellow <i>jeera</i> 10½ and <i>tur</i> 14 seers per current seer rupee.
Central India States— (May 18th)		
Indore	Nil	Weather cool.
Maur (Gwalior)		Small-pox still in Lucknow. Heat intense.
Nagpur		Weather warm. High wind. Health good. Prices rising.
Gondia		Small-pox still continues otherwise health good. Prices rising.
Surguja		Weather hot. Health good.
Amrit	Slight rain	Health and prospects fair.
Shore	05	Weather very hot. Crop and health good.
Nagpur	01	Weather hot and dry. Health fair. Prices steady.
Bhopalwar		Prospects good. Prices moderate. Health good. Heat increasing.
Rajputana (May 18th)		
Alwar (May 18th)	Nil	Weather reasonable, windy and cool.
Sikar (" 18th)	Nil	Tanks dry, wells good. Health good. Weather cool for time of year. Cool winds and clear.

GOVERNMENT ENGINEERING COLLEGE, SEEBPUR.

Candidates for admission to the Engineer Department should apply to the Principal before the 25th May, 1887. The Session begins on Monday, the 6th June, 1887. Candidates must furnish proof that they have passed the Calcutta University Entrance Examination, and that they are under 19 years of age. This limit will be raised to 21 years of age in the case of candidates who have passed the F. A. Examination of the University.

Ten scholarships will be awarded to students entering the Engineer Department not being already holders of junior scholarships. The scholarships will be awarded with general reference to the place taken by candidates at the Entrance Examination.

Students who have passed the University Entrance Examination in April are eligible for admission to the Mechanical Apprentice Department up to the 6th June, 1887. They must send in their applications before 25th May, 1887.

Every applicant, before admission to the College, will be examined by the College Surgeon as to his physical strength, fitness for manual labour, and eye-sight.

Further particulars will be supplied on application to the Principal.

S. F. DOWNING,

Principal,

Government Engineering College.

SEEBPUR,

The 25th April, 1887.

PROMISSORY NOTES.

Lost.

On 4th May, between Soortee Bagan and New China Bazar, a Government Promissory Note, No. 132109, of the 4 per cent. loan of 1842-43, for ₹1,000, originally standing in the name of Bonomally Chatterjee, and last endorsed to Mohendranath Sett, the proprietor, by whom it was never endorsed to any other person. Payment of the above note and of the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of a duplicate in favour of the proprietor.

MOHENDRANATH SETT,
1, Halliday Street.

Lost.

The Government Promissory Note No. A029389, of the reduced 4 per cent. loan of 1879, for ₹2,000, originally issued in the name of V. Krishnama Chariar, by whom it was never endorsed to any person, was lost some time in December, 1885. Payment of the above, and of all interest due thereupon, has been since stopped at the Loan Office, Madras Bank, and application is about to be made to Government for the issue of a duplicate in favour of the proprietor.

PART V.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA LEGISLATIVE DEPARTMENT

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 25th May 1887

No 5 OF 1887

A Bill to amend the Indian Stamp Act, 1879

WHEREAS it is expedient to amend certain provisions of the Indian Stamp Act, 1879, relating to policies of insurance;

It is hereby enacted as follows

1 For clause (15) of section 3 of that Act the Amendment of which following shall be substituted, namely

"(15) 'Policy of insurance' means any instrument by which one person, in consideration of a premium, engages to indemnify another against loss, damage or liability arising from an unknown or contingent event, and it includes any writing evidencing the renewal of any such instrument for the purpose of keeping the engagement in force

"It includes a life policy"

2. For article 19 of the first schedule to that Act the following shall be substituted, namely

DESCRIPTION OF INSTRUMENT	INDIAN STAMP DUTY	
	If drawn locally	If drawn abroad
	Rs. A. P.	Rs. A. P.
(1) In the case of sea insurance— When the amount insured does not exceed 1,000 And for every further sum of Rs. 1,000 or part thereof in excess of 1,000	0 1 0 0 1 0	0 2 0 0 2 0
(2) In the case of fire insurance— In respect of an original policy for a month or any shorter term— When the amount Rs. insured does not exceed 1,000 And for every further sum of Rs. 1,000 or part thereof in excess of 1,000	0 2 0 0 2 0	0 1 0 0 1 0
(3) In respect of an original policy for more than one month but not more than three months— When the amount Rs. insured does not exceed 1,000	0 3 0	0 2 0

49 POLICY OF INSURANCE

See Exemption Schedule II
(No 11 (a))

DESCRIPTION OF INSTRUMENT	PROPER STAMP-DUTY					
	If drawn singly			If drawn in duplicate for each part		
	Rs	A	P	Rs	A	P.
And for every further sum of Rs 1000 or part thereof in excess of 1,000						
iii In respect of an original policy for more than three months but not more than six months—						
When the amount insured does not exceed 1000	0	3	0	0	2	0
And for every further sum of Rs 1000 or part thereof in excess of 1000						
When the amount insured does not exceed 1000	0	4	0	0	3	0
iv In respect of an original policy for a year or any longer term—						
When the amount insured does not exceed 1000	0	6	0	0	3	0
And for every further sum of Rs 1000 or part thereof in excess of 1000						
v In respect of renewing for the purpose of keeping in force a policy granted for any shorter term than one year						
<p>The same duty as would be payable in respect of an original policy for the amount and term to which the renewal extends</p> <p>Provided that duty shall not be payable in respect of the renewal when the duty already paid in respect of the original policy or in respect of the original policy and previous renewals so renewal thereof is equal to or exceeds the duty which would be payable in respect of an original policy for the amount aforesaid for a year, and that, where the duty payable in respect of the renewal would, when added to the duty already paid in respect of the original policy, or in respect of the original policy and previous renewals thereof, exceed the duty payable in respect of an original policy for the amount aforesaid for a year, the duty payable in respect of the renewal shall not exceed the difference between the duty already paid and the duty payable in respect of an original policy for the amount aforesaid for a year.</p>						
(c) In the case of any other insurance—						
When the amount insured does not exceed 1,000	0	6	0	0	3	0
And for every further sum of Rs 1,000 or part thereof in excess of 1,000	0	6	0	0	3	0

40 POLICY OF INSURANCE—*contd*

STATEMENT OF OBJECTS AND REASONS.

In the Resolution of the Department of Finance and Commerce, No. 1016, dated the 5th March, 1886, published in the *Gazette of India* of 6th March, 1886, opinion was invited on certain proposals of the Government of Bengal for the reduction of the stamp-duty payable on policies of fire-insurance for short terms.

Those proposals having been generally accepted as fair and equitable, this Bill has been prepared for the purpose of giving effect to them.

2. One Insurance Company, while recommending the reduction of stamp-duty on annual fire-policies, proposes to solve the difficulty of levying duty on renewals of fire-policies for short terms by prohibiting such renewals altogether, and asserts that this course would be productive of no inconvenience to the public, and of no appreciable inconvenience to Insurance Companies. The Government of India is not prepared to adopt this proposal unless it is assured by the almost unanimous opinion of those engaged in fire-insurance business that the prohibition of renewals would not lead to inconvenience. If such an assurance is forthcoming, it will be considered by the Select Committee to which this Bill is to be referred.

3. It is proposed so to amend the definition of "policy of insurance" as to make section 65 of the Indian Stamp Act, 1879, clearly applicable as well to contracts of renewal or continuance of insurance as to original policies.

4. Insurance Companies are invited to state, in their opinions on the Bill, the mode which will be most convenient to them of paying stamp-duty on renewals of policies of insurance.

The 25th May, 1887.

PART VI.

Debates of the Legislative Council of His Excellency the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR
GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING
LAWS AND REGULATIONS UNDER THE PROVISIONS OF
THE ACT OF PARLIAMENT 24 AND 25 VIC, CAP 67

The Council met at Viceregal Lodge, Simla, on Wednesday, the 25th May,
1887.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.P., G.C.B.,
G.C.M.G., G.M.S.I., G.M.I.E., P.C., *presiding*.
His Honour the Lieutenant-Governor of the Punjab.
His Excellency the Commander-in-Chief, Bart., R.A., V.C., G.C.B., K.C.I.E.
The Hon'ble Sir T. C. Hope, K.C.S.I., C.I.E.
The Hon'ble Sir A. Colvin, K.C.M.G., C.I.E.
The Hon'ble Major-General G. T. Chesney, R.E., C.S.I., C.I.E.
The Hon'ble A. R. Scoble, Q.C.
The Hon'ble J. B. Peile, M.A., C.S.I.
The Hon'ble J. W. Quinton, C.S.I.
The Hon'ble Lieutenant-Colonel E. G. Wace,

NEW MEMBER.

The Hon'ble LIEUTENANT-COLONEL WACE took his seat as an Additional
Member.

PUNJAB TENANCY BILL.

The Hon'ble MR. SCOBLE moved that the Hon'ble Lieutenant-Colonel
Wace be substituted for Colonel Sir W. G. Davies as a member of the Select
Committee on the Bill to amend the law relating to the Tenancy of Land in
the Punjab.

The Motion was put and agreed to.

PUNJAB LAND-REVENUE BILL.

The Hon'ble MR. SCOBLE also moved that the Hon'ble Lieutenant-Colonel Wace be substituted for Colonel Sir W. G. Davies as a member of the Select Committee on the Bill to declare and amend the Land-revenue Law of the Punjab.

The Motion was put and agreed to.

INDIAN STAMP ACT, 1879, AMENDMENT BILL.

The Hon'ble SIR AUCKLAND COLVIN moved for leave to introduce a Bill to amend the Indian Stamp Act, 1879. He said :—

" The proposal to amend the Indian Stamp Act arose from certain proposals laid before us by the Bengal Government, which, in their turn, led to the issue of the Resolution in the Financial Department dated the 6th March, 1886, afterwards published in the Gazette, in which we pointed out that, with regard to policies of insurance against loss by fire, under the present law the duty is independent of the period in which the policy continues in operation, as also of the amount of the premium paid ; that is to say, that the policy, whether taken out for a year or a fraction of a year, at present pays the same amount. The existing duty is, roughly, six annas per one thousand rupees, whatever the duration of the policy, and, as many policies are renewed during the currency of a year, this duty has to be paid on them as often as they are renewed. By the proposed arrangement the duty for renewals of policies for short periods will be reduced, so that persons who take out policies for a month, or three months, will pay duty proportionately. One of the Insurance Companies wrote to suggest that renewals of policy should be prohibited altogether, but we did not feel that in the present state of affairs we were in a position to endorse this proposal. The several Insurance Companies, however, will have the opportunity of furnishing us with their advice in regard to this matter while the Bill is under consideration, and we shall be, I doubt not, mainly guided by the advice so received."

" It is not proposed at present to amend the Stamp Act in any other particular."

The Motion was put and agreed to.

The Hon'ble SIR AUCKLAND COLVIN also introduced the Bill

The Hon'ble SIR AUCKLAND COLVIN also moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The Motion was put and agreed to.

The Council adjourned to Wednesday, the 8th June, 1887.

S. HARVEY JAMES,

REVENUE AND AGRICULTURAL DEPARTMENT.

Weather Review of India for the week ending the 25th May, 1887.

Throughout India the general conditions prevailing have remained unchanged during the present week, but over the Bay the weather has undergone a gradual but steady change towards unsettled conditions.

Over India the barometer has been continuously high along the west coast of the Peninsula, while areas of relatively low pressure have occupied the Punjab and the east of the Central Provinces. As a consequence of the positions occupied by these two low pressure areas there has been formed a shoulder of relatively high pressure over Guzerat, Rajputana, and Central India, while, owing to the relation between the high pressure area in the west and the low pressure area over the Central Provinces, the isobars running over the Peninsula have preserved a steady north and south direction. This distribution of pressure has been accompanied with strongly marked north-westerly winds all over North-Western, Central, and Western India, which have occasioned high temperatures and low humidities throughout the whole of that region. For several days in the first part of the week many stations in North-Western India recorded humidities of less than 10 per cent.

The temperature has been considerably above the average over nearly the whole of Central and Northern India during the week, the greatest excess having been in the Punjab and North-West Provinces, but on most days the maximum temperature throughout India was recorded at Jacobabad, where 117° was registered on the 21st. Maximum temperatures of 112° and upwards have, however, been frequently recorded over Upper India during the week, the hottest places having apparently been Agra and Jhansi.

Over the Bay the weather began to show signs of disturbance on the 21st, when there occurred a rapid fall of the barometer at Diamond Island, accompanied with an increase in the force of the south-easterly wind at that station and general rain over Burma. On the 22nd, beyond apparently a slight northward movement of the storm, there was very little change in the weather over the Bay. The same may be said of the 23rd, except that a further increase of wind had occurred at Diamond Island and Akyab. On the 24th, though the storm had not apparently increased in intensity, its influence had enlarged, and there was a general cyclonic circulation of the wind around the upper part of the Bay. By the morning of the 25th a largish barometric fall had occurred on the Orissa and South-West Bengal coasts, and the centre of the storm was approaching those coasts. Rather heavy rain was falling around the head of the Bay, and the winds were increasing in force and the sea rising. It is with small cyclonic storms such as the above that the rains are usually ushered up the Gangetic plain; and though it is at present almost too early in the season to anticipate the regular rains, it is by no means improbable that the present disturbance will occasion rain to some considerable distance up the Gangetic plain and mitigate the heat over the greater part of Northern India.

In Ceylon there has been all the week a moderately strong south-westerly wind, accompanied with rain and an overcast sky; but there has been little or no extension of the south-westerly current towards the Travancore coast.

There has been hardly any rain in North-Western India, so that the seasonal deficiency, as the following table shows, has still further increased:

Stations.				Actual rainfall from 1st November, 1886, to 25th May, 1887.	Average rainfall from 1st November to 25th May.	Differences.
Multan	0.67	2.08	—1.41
Peshawar	2.48	7.69	—5.21
Murree	10.44	16.73	—6.29
Rawalpindi	5.00	11.58	—6.58
Lahore	0.76	4.11	—3.35
Simla	10.94	14.79	—3.85
Delhi	2.49	3.85	—1.36
Roorkee	4.06	6.52	—2.46
Meerut	2.76	4.49	—1.73
Bareilly	3.66	4.08	—0.42
Agra	1.13	2.03	—0.90
Lucknow	1.40	2.32	—0.92
Allahabad	4.58	2.20	+2.38
Darjeeling	12.81	14.09	—1.28
Calcutta	8.64	10.04	—1.40

The final table shows that pressure has been below the average of the month in all districts, except Mysore and along the west coast of the Peninsula, where there has been a trifling excess. Temperature has been much above the monthly average over Northern India and slightly above in the Central districts; but in both Peninsulas it has been deficient. The humidity has been very low in Northern India.

Districts.				Difference of Barometer from mean, May 19th to May 25th.	Difference of Temperature from mean, May 19th to May 25th.	Difference of Humidity from mean, May 19th to May 25th.	Total Rainfall in week, May 19th to May 25th.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE
WEEK ENDING 26th MAY, 1887.

GENERAL REMARKS.—Slight rain has fallen in parts of Madras, Mysore, Bengal, and Assam, and showers are reported from a few places in Bombay, the Punjab, and the Central Provinces.

No report has been received from Burma for the week under notice.

Kharif operations are in active progress throughout Bombay, the Central Provinces, and Berar, and have commenced in some districts in the North-West Provinces and Oudh and the Punjab. Sowings have begun in parts of Bombay and the Punjab.

Agricultural prospects in Madras and Mysore and Coorg continue satisfactory.

The early rice is coming up well in Bengal and Assam, but rain is generally wanted in the former Province.

Sugarcane is under cultivation in Bengal, Assam, the North-West Provinces and Oudh, the Central Provinces, and Rajputana.

Indigo in Bengal needs rain; in the North-West Provinces and Oudh the crop is being irrigated.

Cholera has diminished in Bengal, but is prevalent in a sporadic type in several districts of the North-West Provinces and Oudh. Elsewhere the public health is generally good.

Cattle-disease is increasing in Madras and prevails in Bombay.

Prices are rising in three districts of the Punjab, and have slightly risen in Mysore and Coorg. Elsewhere they are steady.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Madras—(May 25th)		
Bellary	Standing crops generally good. Harvest paddy and sugarcane, yield about average. Cholera increasing in two and cattle-disease also increasing in five taluks.
Kurnool	Harvest second crop paddy, yield below average. Small-pox in four and cattle-disease decreasing in six taluks.
Ganjam	Average '81	Small-pox in four and fever in seven divisions. Cholera and cattle-disease increasing.
Kistna	Average '07	Standing crops good. Slight fever in three and cattle-disease increasing in five taluks.
Chingleput (Madras)	Average '01	Standing crops fair, but withered to some extent for want of rain. Harvest paddy and <i>ragi</i> , outturn below average. Small-pox in one and cattle-disease decreasing in three taluks.
Coimbatore	Average 1'39	Standing crops good. Harvest paddy, outturn above average. Fever in one, small-pox in two, and cattle-disease in one taluk.
Tanjore	'46	Standing crops generally good. Harvest gingelly and cotton, outturn up to average. Cattle-disease slightly increasing in two taluks.
Madura	Average last week since revised, '08; this week, '32.	Health of people and cattle generally good.
Malabar	Average '03	Standing third crop paddy ripening. Harvest paddy, outturn above average. Fever in two and small-pox in nine taluks.
Travancore	1'21	Paddy lands being sown for next crop. Small-pox and fever in places.
<i>General Remarks.</i> —General prospects good.		
Bombay—(May 25th)		
Karachi	Nil	Weather cloudy. River at Kotri on 23rd, 11 feet against 11 feet 5 inches on same date last year. Fever in six talukas. Wheat, red rice and <i>bajri</i> in Karachi 22, 30 and 32 and in Sehwan 30, 40 and 40 pounds per rupee, respectively.
Hyderabad	Nil	<i>Rabi</i> harvesting continues in eight talukas. <i>Kharif</i> cultivation in progress. Fever in three and small-pox in two talukas. River at Kotri on 22nd, 11 feet 2 inches against 11 feet 7 inches on same date last year. Wheat 22, <i>bajri</i> 38, <i>jowari</i> 40, white rice 20 and red rice 30 pounds per rupee.
Ahmedabad	Nil	<i>Rabi</i> harvesting completed. Land prepared for cultivation in some talukas. Public health good. Wheat 28 and <i>bajri</i> 31 pounds per rupee.
Baroda	Nil	Public health good. Land being prepared for cultivation. Standing crops in good condition. Rice 21, <i>bajri</i> 28 and wheat 18 pounds per rupee.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Bombay—contd.		
Surat	<i>Nil</i>	Lands being prepared for <i>kharif</i> . Fever and small-pox in Bardoli taluka. <i>Jowari</i> 36 and <i>nagli</i> 44 pounds per rupee.
Nasik	<i>Nil</i>	<i>Rabi</i> threshing completed. Preparation for <i>kharif</i> sowing in progress. <i>Rabi</i> being collected in Igatpuri and Peint talukas. Cholera at Manmad and Chandor taluka, 9 attacks, 4 deaths. Small-pox in Yeola and Nandgaon talukas. Public health good. Prices stationary.
Colaba (Bombay) . .	<i>Nil</i>	Abnormal temperature 1° cool on 18th, afterwards <i>nil</i> . Vapour in air defective from 18th to 20th. Normal from 21st to 24th. Wind normal.
Poona	<i>Nil</i>	Land being prepared for cultivation. Public health generally good. Cattle-disease in a village in the Parandhar taluka. <i>Bajri</i> 44 and <i>jowari</i> 56 pounds in the district, and <i>bajri</i> 37 and <i>jowari</i> 48 pounds per rupee in Poona city.
Ahmednagar	<i>Nil</i>	Cattle-disease in Shrigonda and Janikhed. <i>Bajri</i> 58 and <i>jowari</i> 66 pounds per rupee.
Sholapur	<i>Nil</i>	Land being improved for <i>kharif</i> crops. Cattle-disease in Sholapur and Pandharpur talukas. Cholera in Sholapur, Barsi, Madha, Pandharpur, Sangola, and Malsiras talukas. <i>Jowari</i> 62 and <i>bajri</i> 52 pounds per rupee.
Dharwar	Ranibennur, '60	Ground being prepared for early crops. Sowings of rice retarded for want of rain. Scarcity of fodder in Nawalgund and of drinking-water in Nawalgund, Gadag, Ranibennur, and Kod talukas. Public health generally good. Slight fever in Gadag and small-pox in Nawalgund. Cattle-disease in Nawalgund. Rice 24 and <i>jowari</i> 56 pounds per rupee.
Kanara	Karwar, '13; Akola, '54.	Ploughing and sowing continue. Slight cattle-disease and fever in Sirsi. Weather hot. Common rice in Karwar and district average 13 seers per rupee.
Rajkot	<i>Nil</i>	Weather warm and cloudy. Measles at Manakwara, Bagasra and Limri. Wheat 25, <i>bajri</i> 25 and <i>jowari</i> 32 pounds per rupee.
Bengal—(May 25th)		<i>General Remarks.</i> —Slight rain in parts of the Dharwar, Kanara, and Shikarpur districts. Preparations for <i>kharif</i> sowings continue everywhere. Fever and small-pox in parts of eight, cattle-disease in parts of twelve, and cholera in parts of five districts.
Chittagong (May 24th)	0·82	Weather hot. Prospects of crops fair, as being transplanted. Cholera yet lingers. Public health good. Prices steady.
Dacca	<i>Nil</i>	Weather very hot. Sowing of <i>aus</i> and <i>amun</i> continues. Rain wanted. Cutting of <i>boro</i> paddy nearly finished. Public health generally good.
24-Pergunnahs (Calcutta).	<i>Nil</i>	Weather very hot. Sugarcane promises well. Ploughing continues. Sowing of <i>aus</i> and jute begun. Public health fairly good.
Moorshedabad . . .	0·41	Weather very hot, occasional squalls at evening. <i>Bhadoi</i> prospects good. <i>Boro</i> paddy harvested. Sugarcane transplanting in progress in Kandi subdivision. Public health good.
Pubna	0·20	Weather hot and sultry. Crops doing well. Cholera dying out. Public health good.
Dinagapore	1·89	Heavy rain on 21st. Weather hot. Sowing of <i>bhadoi</i> and jute nearly completed. Public health fair. Cholera reported from two thanas and cattle-disease from one.
Rungpore	0·61	Prospects of crops good. Cholera diminishing.
Midnapore	<i>Nil</i>	Ploughing going on. Public health good.
Burdwan	Cutwa, 1·10	Intense heat. Prospects good, but more rain wanted. Fever has appeared.
Khoolna	<i>Nil</i>	Weather hot. Ploughing for <i>aus</i> continues. Cattle-disease in Bagirhat. Public health good.
Bhagulpore	<i>Nil</i>	Weather excessively hot. Rain much wanted for early sowings and indigo and <i>moong</i> . Sugarcane good. Cholera still bad in north.
Purneah	0·29	Crops doing well. Rain desirable. Sowing of early rice and jute continues. Public health fair. Rivers low.
Durbhanga	0·75	Weather very hot. Early rice, <i>moong</i> and indigo look very promising. Mango considerably injured by storm. Lands being prepared for <i>bhadoi</i> sowings. Prices stationary. Public health generally good.
Chumparun	0·47	Weather very hot. Sowing of <i>bhadoi</i> and <i>aghani</i> in progress. Early rice, <i>moong</i> and <i>cheena</i> coming up well. Cholera prevalent.
Patna	<i>Nil</i>	Weather hot. Prospects of crops continue favourable. Cholera still prevailing in different parts of the district.
Gya	<i>Nil</i>	Weather very hot. Cholera reported from all parts of the district. Fever and small-pox also reported.
Hazareebagh	<i>Nil</i>	Weather very hot. Sugarcane doing well. Preparations being made for sowing paddy. General health good.
Cuttack	<i>Nil</i>	Weather very hot. Sowing of rice in progress, but rain urgently needed. Price of rice unchanged. Public health good.
		<i>General Remarks.</i> —Weather hot and close. Showers fell in some districts of Bengal Proper, but no rain is reported from Orissa, Chota Nagpur, and the greater part of Behar. Rain is generally wanted. Ploughing and sowing are going on. Early rice and jute are coming up well. Sugarcane is promising. <i>Boro</i> rice harvest is nearly got in. General health is better, cholera having diminished.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
N.-W. Provinces and Oudh—(May 25th)		
Benares (May 23rd)	Weather still hot. Supplies plentiful. Prices steady. Some cholera in district, otherwise public health good.
Ballia (" ")	Weather clear. <i>Rabi</i> harvesting completed. Markets steady. Some cholera in district, otherwise public health good.
Gorakhpore (" ")	Great heat. Variable winds. Prices stationary. Cholera in several tahsils.
Fyzabad (" 24th)	Heat increasing. Opium weighments nearly finished. Markets well supplied. Prices stationary. Cholera epidemic in places.
Lucknow (" 23rd)	Heat increasing. Variable winds. Sugarcane and summer crops bring watered. Markets well supplied. Prices stationary. Public health good.
Rai Bareilly (" ")	Weather very hot. Wind westerly. Markets well supplied. Prices almost stationary. Cholera continues.
Partabgarh (" 24th)	Prices stationary. Cholera still prevails.
Allahabad (" ")	Weather very hot. Markets well supplied. Prices show a tendency to rise. Sporadic cholera continues, but has not increased.
Cawnpore (" ")	Weather oppressive. Indigo and sugarcane being irrigated; extra crops flourishing. Prices steady. Small-pox in one pargana. Cattle-disease in one village.
Banda (" 23rd)	Heat great. Markets full. Prices stationary. Cholera in four tahsils, 123 attacks and 59 deaths. Cattle-disease continues.
Farakhabad (" 24th)	Heat great. Indigo and sugarcane being irrigated. Supplies ample. Prices rising. Health fair.
Sitapur (" ")	Winds varying during the week. Prices slightly risen. Health of people and cattle generally good.
Bareilly (" ")	Weather unusually hot. Prices continue to rise. General health good.
Kumaon (" 23rd)	Weather dry. Occasional clouds and high winds. <i>Rabi</i> crops being harvested. <i>Kharif</i> operations in progress. Prices falling. Cholera in district. Cattle-disease continues.
Agra (" ")	Weather very hot. Sugarcane and indigo being irrigated. Prices steady. Small-pox continues in city and two tahsils.
Jhansi (" ")	Weather hot, with strong westerly winds. Prices almost stationary. Cholera and small-pox continue. Condition of cattle fair.
Meerut (" 24th)	Duststorms, with sprinkling of rain.	Supplies sufficient. Prices steady. Health good. Some cattle-disease reported.
General Remarks. —Weather seasonable. Duststorms, with slight sprinkling of rain reported in a few places. Sugarcane and indigo crops promise well. Supplies ample and prices generally steady. Small-pox continues in some, and cholera, for the most part of a sporadic type, in several districts. Cattle-disease lingers in a few districts.		
Punjab—(May 24th)		
Hissar	Nil	Health good. Prices stationary.
Dellhi	Nil	Health good. Prices fluctuating.
Umballa	Slight shower	Health good. Prices slightly rising. <i>Rabi</i> crops harvested.
Jullundur	Nil	Health good. Prices slightly falling. <i>Rabi</i> crops below average.
Ferozepore	'20	Health good. Prices stationary.
Amritsar	'10	Health good. Prices stationary.
Sialkot	Health good. Prices stationary. Harvest progressing favourably.
Lahore	1 14	Health good. Prices stationary.
Multan	'10	Health good. Prices stationary. <i>Rabi</i> nearly harvested. <i>Kharif</i> sowings in progress.
Rawalpindi	Nil	Health good. Prices rising. <i>Rabi</i> crops reaped, outturn below average.
Shahpur	Nil	Health good. Prices high and almost stationary. <i>Rabi</i> crops harvested, outturn poor.
Dera Ismail Khan	Nil	Health good. <i>Rabi</i> outturn much below average.
Peshawar	Slight rain	Health fair. Prices rising. <i>Kharif</i> sowings commenced.
General Remarks. —Slight rain has fallen in the Umballa and Peshawar districts; two-tenths in Ferozepore, one-tenth in Amritsar, and one-tenth in Multan. Health in Peshawar is fair, elsewhere good. Prices are stationary in Hissar, Ferozepore, Amritsar and Multan, fluctuating in Dellhi, rising in Umballa, Rawalpindi and Peshawar, slightly falling in Jullundur, and high and almost stationary in Shahpur. <i>Rabi</i> crops below average in Jullundur, Rawalpindi and Dera Ismail Khan and poor in Shahpur. <i>Kharif</i> sowings in progress in Multan and Peshawar. In Shahpur fodder is scarce and cattle are suffering.

CALCUTTA, SATURDAY, MAY 28, 1887

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART III.

Advertisements and Notices by Private Individuals and Corporations.

PROMISSORY NOTES.

Lost.

On 4th May, between Soortee Bagan and New China Bazar, a Government Promissory Note, No 132109, of the 4 per cent loan of 1842-43, for Rs 1,000, originally standing in the name of Bonomally Chatterjee, and last endorsed to Mohendranath Sett, the proprietor, by whom it was never endorsed to any other person. Payment of the above note and of the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of a duplicate in favour of the proprietor.

MOHENDRANATH SETT,
1, Halliday Street

Lost

The Government Promissory Note No A029389, of the reduced 4 per cent loan of 1879, for Rs 2,000, originally issued in the name of V. Krishnama Chariar, by whom it was never endorsed to any person, was lost some time in December, 1885. Payment of the above, and of all interest due thereupon, has been since

stopped at the Loan Office, Madras Bank and application is about to be made to Government for the issue of a duplicate in favour of the proprietor.

V. KRISHNAMA CHARIAK

MADRAS,
The 18th April, 1887.

Lost or Stolen.

The Government Promissory Note No 225114 of the 4 per cent loan of 1865, for Rs 500, originally standing in the name of the Bank of Bengal, and last endorsed to Dhunjeebhoy Merwanjee Jeejeebhoy, and Peroshaw Merwanjee Jeejeebhoy, the proprietors, by whom it was never endorsed to any other person. Payment of the above note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of a duplicate in favour of the proprietors.

SUPPLEMENT TO
The Gazette of India.

No. 22.}

CALCUTTA, SATURDAY, MAY 28, 1887.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

SALARIES, ESTABLISHMENTS, &c. Administration

The 3rd June, 1887.

No. 2952.

RESOLUTION—By the Government of India, Department of Finance and Commerce.

RESOLUTION.

The Finance Committee appointed by Resolution No. 649, dated 10th February 1886, to enquire into public expenditure has submitted its Report to the Government of India. The Report of the Financial Commissioner with the Government of India, who, when the Finance Committee was dissolved, was nominated by Government Resolution No. 4821 of the 24th December 1886 to bring to a conclusion certain enquiries, has also been submitted.

The recommendations contained in these Reports are, for the most part, now under the consideration of the Government, and will continue for a considerable time to occupy its attention; but the Government does not desire to delay acknowledgment of the labours of the Finance Committee and of the Financial Commissioner until its examination of their Reports has been concluded.

The researches of the Committee have already resulted in an increase of over 50 lakhs of Rupees to Imperial Revenues on the revision of the Provincial Contracts—an increase which, it is believed, will be obtained without injury to Provincial Finances. This result has been attained entirely by the judgment and industry of those members of the Committee who were deputed to work out the basis of the new Provincial Contracts, with the assistance of the local members nominated by the several Provincial Governments to consult with them. The Notes which have been recorded by Sir Charles Elliott and his colleagues, Mr. Westland, Colonel Filgate, and Mr. Bliss, will prove of the greatest assistance to the several Local Governments during the ensuing five years, and at the next revision of the Contracts will furnish an invaluable standard of comparison. They have thrown light upon the administration of Provincial Finance which it had never received before, and have placed it in the power of Provincial Governments to introduce extensive economies into their administration without prejudice to its efficiency. This result alone would have entitled the Finance Committee to the best thanks of the Government. It is not possible at present to say what

may be the result of the decisions taken on the various other matters submitted for the consideration of the Government of India in connection with its own expenditure. Questions of policy are necessarily in many cases involved which may override considerations of economy; but in all Departments with which they have dealt the Committee have examined the details of administration in a manner which, so far as the considerations referred to do not intervene, will enable the Government to deal with their recommendations without difficulty or delay. The Government desires to return to Sir Charles Elliott, and to the various members of the Committee, but more especially to the members charged with the duty of reporting on the Provincial Finances, its thanks and acknowledgments for the admirable manner in which they have carried out the instructions conveyed to them. The best thanks of the Government are also due to the officers who successively represented the Provincial Governments on the Committee. The objects which the Government had in view in appointing the Committee have been entirely fulfilled. Nothing but the most untiring industry, guided by great experience and sound judgment, could have ensured the completion of these enquiries and the preparation of these Reports within the comparatively brief space of one year. The Reports are, and must for a time remain of a confidential nature, dealing, as they do, with a variety of questions, the public discussion of which would prove at present inconvenient, but at a later stage, when the views of the Secretary of State have been obtained, His Excellency in Council will consider what steps should be taken towards their publication.

ORDERED, that a copy of this Resolution be communicated to each of the following members of the Finance Committee.

Sir C. A. Elliott, K.C.S.I., *President*.

J. WESTLAND,

Offg. Secretary to the Government of India.

MILITARY DEPARTMENT.

Simla, the 3rd June, 1887.

APPOINTMENTS.

No. 395.—MEDICAL DEPARTMENT—

Brigade-Surgeon J. Davis, Medical Staff, to officiate on the Administrative Medical Staff of the Army, with the temporary rank of Deputy Surgeon-General, *vice* Deputy Surgeon-General G. M. Slaughter, on sick leave. Dated 14th May, 1887.

No. 397.—ORDNANCE DEPARTMENT—

Captain E. F. Nelson, R.A., officiating Ordnance Officer, 3rd Class, to be Ordnance Officer, 4th Class, *vice* Lieutenant L. G. Watkins, R.A., appointed Assistant to the Director-General of Ordnance in India. Dated 4th April, 1887.

Captain S. V. Thornton, R.A., Ordnance Officer, 4th Class (3rd Class additional), to be Ordnance Officer, 3rd Class.

Lieutenant H. B. Stanford, R.A., officiating Ordnance Officer, 4th Class, is confirmed in that appointment,—

with effect from the 30th April, 1887, *vice* Captain J. S. Frith, R.A., Ordnance Officer, 3rd Class, resigned.

Lieutenant N. S. Bartie-Cly, R.A., to officiate as Ordnance Officer, 4th Class, with effect from the 6th May, 1887, *vice* Lieutenant E. S. F. Walker, R.A., promoted.

STAFF CORPS.

No. 398.—Lieutenant Elliot Brownlow Lang, R.A., officiating Squadron Officer, 5th Bengal Cavalry, is admitted to the Bengal Staff Corps, from the 14th May, 1886, subject to the confirmation of the Secretary of State for India.

No. 399.—The undermentioned officers, having completed eighteen months from date of appointment, on probation, are admitted to the Bengal Staff Corps, with effect from the dates specified, subject to the confirmation of the Secretary of State for India :

Lieutenant Richard Stuart Alexander, Connaught Rangers, Squadron Officer, 7th Bengal Cavalry—28th February, 1885.

Lieutenant Charles William Field, South Wales Borderers, Wing Officer, 26th Bengal Infantry.—27th May, 1885.

No. 400.—The undermentioned officers, appointed by the Secretary of State for India probationers for the Indian Staff Corps, are posted as follows, with effect from the dates of their arrival in India :

Bengal Staff Corps.

Lieutenant A. B. H. Drew, Northamptonshire Regiment.

Lieutenant D. Herbert, Lincolnshire Regiment.

Lieutenant A. Grant, Dorsetshire Regiment.

Lieutenant R. E. Foley, Shropshire Light Infantry.

Madras Staff Corps.

Lieutenant F. G. Batten, Middlesex Regiment.

Lieutenant G. F. W. Curtis, Royal Inniskilling Fusiliers.

Lieutenant G. A. L. Buchanan, Royal Inniskilling Fusiliers.

Lieutenant H. R. S. Maitland, Yorkshire Regiment.

Lieutenant J. H. Lowry, Royal Irish Rifles.

Lieutenant G. B. Pouden, South Lancashire Regiment.

Lieutenant R. G. Burton, 1st West India Regiment.

Lieutenant A. W. N. Taylor, Royal Scots.

Lieutenant R. M. Bell, Dorsetshire Regiment.

Bombay Staff Corps.

Lieutenant H. Lowther, Northamptonshire Regiment.

Lieutenant H. C. B. Dann, 2nd West India Regiment.

Lieutenant P. T. Bell, Duke of Cornwall's Light Infantry.

Lieutenant R. Stewart, Duke of Cornwall's Light Infantry.

No. 401.—VOLUNTEER CORPS—

Oudh Volunteer Rifle Corps.

Lieutenant J. T. Carter, 2nd Battalion, Leicestershire Regiment, to be Adjutant, with effect from the 21st May, 1887, *vice* Major H. O. Woodhouse, who has vacated the appointment on promotion to the rank of Major.

FURLOUGH AND LEAVE.

No. 402.—The undermentioned officers are granted furlough out of India, with the necessary subsidiary leave :

Lieutenant J. R. B. Sergeant, R.E., Company Officer, Bengal Sappers and Miners, (m. c.) for 182 days, under rule IX, note 2, of the Regulations of 1868. (This cancels the furlough granted to him in G. G. O. No. 332 of 1887.)

Surgeon-Major W. E. B. Moynan, M.D., 40th Bengal Infantry, (m. c.) for one year, under rules IX and XV of the Regulations of 1868.

No. 403.—Major R. Patch, Bengal S. C., Assistant Commissary-General, 2nd Class, is granted leave out of India (m. c.) for 150 days, with effect from the 2nd February, 1887,—the first fifty days under rules IX and XV and rule XIV, clause 2, of the Regulations of 1868, and the remaining period under the leave rules for the Staff Corps. (This cancels the leave granted to him in G. G. O. No. 263 of 1887.)

No. 404.—The undermentioned officers are granted leave out of India under the leave rules for the Staff Corps, with effect from the dates on which they are respectively struck off duty :

Colonel A. Conolly, Bengal S. C., Meywar Blue Corps, (p. a.) for one year. Pension service,—28th year, commenced 11th June, 1886.

Lieutenant C. Davidson, Bengal S. C., 2nd Punjab Infantry, Punjab Frontier Force, (p. a.) for one year. Pension service,—8th year, commenced 14th January, 1887.

No. 405.—The undermentioned officers have been granted extensions of furlough by the Secretary of State for India :

Captain W. A. D. O'Mealy, Bengal S. C., (p. a.) for seventy-one days.

Lieutenant W. H. Simpson, Bengal S. C., (u. p. a.) for one month.

Surgeon-Major J. H. Newman, M.D., (m. c.) for six months.

Surgeon-Major J. McConaghey, M.D., (m. c.) for six months.

No. 406.—Lieutenant A. W. Cripps, Probationer, Bengal S. C., 20th Bengal Infantry, has been granted by the Secretary of State for India three months' extension (m. c.) of the leave allowed him in G. G. O. No. 137 of 1887.

No. 407.—With reference to G. G. O. No. 717 of 1886, Captain B. Briscoe, Bengal S. C., 40th Bengal Infantry, has been granted by the Secretary of State for India leave out of India (m. c.) from the 25th April, 1886, to 11th July, 1887, under the leave rules for the Staff Corps.

No. 408.—Surgeon J. T. W. Leslie has been granted by the Secretary of State for India leave out of India (m. c.) for one year, under the leave rules for the Staff Corps, with effect from the 7th December, 1886. Pension service,—3rd year, commenced 4th December, 1886. (G. G. O. No. 863 of 1886 is cancelled.)

No. 409.—Colonel W. C. Chowne, Infantry, is permitted to reside out of India.

Mr E. T. Faulkner, Assistant Engineer, 1st Grade.

No. 187.—The following is published for general information :

No 537 R.C., dated 1st June, 1887.

RESOLUTION—By the Government of India, Public Works Department.

North-Western Railway —Ferozepore Bridge over the River Sutlej

RESOLUTION.—His Excellency the Governor-General in Council having formally authorized the opening for public traffic on the 30th April, 1887, of the permanent railway bridge across the river Sutlej at Ferozepore, which establishes through railway communication between the North-Western and Rajputana-Malwa Railways, desires to record his great satisfaction at the able and expeditious manner in which this important engineering work has been brought to completion.

2. The following is a brief description of the bridge, which has been constructed on a design prepared by Mr. R. T. Mallet, M.I.C.E. The total length over all is 4,250 feet, comprising 27 spans of 150 feet girders, supported on piers, with well foundations sunk to an average depth of 80 feet below the bed of the river.

The height of rails above the low water level of the river is 26.5 feet. The girders are partly of steel and partly of iron. The railway track is on the lower boom of the girders, and an overhead roadway is provided for cart traffic.

3. A special feature in connection with this bridge is the extensive system of river training works that have been constructed as a part of the undertaking. These have been formed on both banks of the river over a distance of nearly 3 miles upstream from the bridge, and consist of earthen bunds and spurs protected by heavy pitching. By these works the course of the river is controlled and the flood channel gradually confined, till at the bridge site it is limited to the width between the abutments. The successful execution of these works has only been arrived at by much skill and care and perfect arrangements in the supply of material, &c.

4. Work was commenced on the pier foundations during October 1885, and at the end of March 1886 all except three piers were in progress. The erection of the girders was commenced in November 1886, and the first train for public traffic crossed on the 8th May 1887, the opening ceremony having been performed under the auspices of His Honor the Lieutenant-Governor of the Punjab on the 30th April.

5. The rapid construction of this important bridge, which was completed within eighteen months of the date of commencement of operations, reflects the greatest credit on the officers concerned; and His Excellency the Governor-General in Council has much pleasure in recording his special thanks to Mr. R. T. Mallet for the talent displayed by him in the preparation of the design for the bridge, and for his labors in the preliminary construction operations, as also to Mr. J. R. Bell, M.I.C.E., under whose able and energetic supervision, already exhibited on more than one important work, the erection of the bridge has been brought to a successful completion.

6. His Excellency in Council at the same time desires to cordially acknowledge the services of the other officers who have from time to time been employed on the Bridge Works as enumerated in the margin, as also the labors of the Sub-ordinate Staff.

Lieutenant-Colonel C. E. Shepherd, Executive Engineer, 1st Grade.
Mr. J. H. Oddie, Executive Engineer, 4th Grade, sub. *pro tem*.
Mr. E. Baker, Executive Engineer, 4th Grade, sub. *pro tem*.
Mr. F. Reilly, Executive Engineer, 4th Grade, *temporary*.
Mr. V. E. deBroe, Executive Engineer, 4th Grade, *temporary*.
Baboo Preonath Ghose, Executive Engineer, 4th Grade, *temporary*.
Mr. J. H. Smith, Assistant Engineer, 2nd Grade.

The 3rd June, 1887.

No. 188.—With reference to Public Works Department Notification No. 162, dated the 16th May, 1887, Mr. S. Finney, Assistant Manager, Eastern Bengal State Railway, is appointed to act as Manager, in addition to his own duties, during the absence of Major G. F. O. Boughey, R.E., on leave, until relieved by Major R. A. Sargeant, R.E., or until further orders.

No. 189.—The services of Mr. P. W. Dangerfield, Executive Engineer, 2nd Grade, State Railways, are placed at the disposal of the Indian Midland Railway Company, with effect from 3rd June, 1887.

No. 190.—The Governor-General in Council is pleased to order the following promotions of Chief and Superintending Engineers, with effect from the dates specified :

Names.	From	To	With effect from	Nature of promotion.
Bell, H. . . .	Superintending Engineer 1st class, sub. <i>pro tem</i> .	Superintending Engineer, 1st class.	26th November, 1886	Permanent.
Home, Lieut.-Colonel F. J., R.E.	Superintending Engineer, 2nd class, and Chief Engineer, 3rd class, <i>temporary rank</i> .	Superintending Engineer, 1st class.	26th November, 1886	Sub. <i>pro tem</i> - <i>pore</i> .
Rhind, R. H. . .	Superintending Engineer, 2nd class, sub. <i>pro tem</i> .	Superintending Engineer, 2nd class.	26th November, 1886	Permanent.
Storey, H. F. . .	Superintending Engineer, 3rd class.	Superintending Engineer, 2nd class.	26th November, 1886	Sub. <i>pro tem</i> - <i>pore</i> .
Higham, T. . . .	Superintending Engineer, 3rd class, sub. <i>pro tem</i> .	Superintending Engineer, 3rd class.	1st January, 1887	Special.
Ward, Colonel D., R.E.	Chief Engineer, 2nd class, <i>temporary rank</i> .	Chief Engineer, 2nd class	19th February, 1887	Permanent.
Izat, A.	Superintending Engineer, 2nd class.	Superintending Engineer, 1st class.	19th February, 1887	Permanent.
Harrison, Lieut.-Colonel C. W. L., R.E.	Superintending Engineer, 2nd class, and Chief Engineer, 3rd class, <i>temporary rank</i> .	Superintending Engineer, 1st class.	19th February, 1887	Sub. <i>pro tem</i> - <i>pore</i> .
Wicke, T. H. . . .	Superintending Engineer, 2nd class, sub. <i>pro tem</i> .	Superintending Engineer, 2nd class.	19th February, 1887	Permanent.
Walker, F. B. . .	Superintending Engineer, 3rd class, sub. <i>pro tem</i> , and 2nd class, <i>temporary rank</i> .	Superintending Engineer, 3rd class.	19th February, 1887	Special.
Shepherd, Major W., R.E.	Superintending Engineer, 3rd class, <i>temporary rank</i> .	Superintending Engineer, 3rd class.	19th February, 1887	Sub. <i>pro tem</i> - <i>pore</i> .
Forbes, Colonel J. G., R.E.	Chief Engineer, 1st class, <i>temporary rank</i> .	Chief Engineer, 1st class	28th March, 1887	Permanent.
Sanford, Colonel G. E. L. S., C.S., R.E.	Chief Engineer, 2nd class, <i>temporary rank</i> .	Chief Engineer, 2nd class	28th March, 1887	Permanent.
Lindsay, Colonel J. G., R.E.	Superintending Engineer, 1st class.	Chief Engineer, 3rd class	28th March, 1887	Special.
LeMessurier, Colonel A., C.I.E., R.E.	Superintending Engineer, 1st class.	Chief Engineer, 3rd class	28th March, 1887	Sub. <i>pro tem</i> - <i>pore</i> .
Browne, Colonel J., C.S., C.I.E., R.E.	Superintending Engineer, 1st class, sub. <i>pro tem</i> .	Superintending Engineer, 1st class.	28th March, 1887	Permanent.
Lovett, Colonel B., C.S.I., R.E.	Superintending Engineer, 2nd class, <i>temporary rank</i> .	Superintending Engineer, 2nd class.	28th March, 1887	Permanent.
Buyers, J. W. . .	Superintending Engineer, 3rd class, sub. <i>pro tem</i> .	Superintending Engineer, 3rd class.	28th March, 1887	Special.
Ramsay, J. . . .	Superintending Engineer, 3rd class, <i>temporary rank</i> .	Superintending Engineer, 3rd class.	28th March, 1887	Sub. <i>pro tem</i> - <i>pore</i> .

No. 191.—The Governor-General in Council is pleased to order the following *temporary* promotions and *reversions* to and in the classes of Chief and Superintending Engineers, with effect from the dates specified.

Names.	From	To	With effect from
Anley, G. A. D. . . .	Superintending Engineer, 1st Class	Superintending Engineer, and Class	7th January, 1887.
Nicholson, Major W. G., R.E.	Superintending Engineer, 2nd Class	Superintending Engineer, 3rd Class	Ditto.
Forbes, Colonel J. G., R.E.	Chief Engineer, 2nd Class	Chief Engineer, 1st Class	27th February, 1887
Sanford, Colonel G. E. L. S., C.B., R.E.	Chief Engineer, 3rd Class	Chief Engineer, 2nd Class	Ditto
O'Callaghan, F. L. . . .	Superintending Engineer, 1st Class	Chief Engineer, 3rd Class	Ditto
Anley, G. A. D. . . .	Superintending Engineer, and Class	Superintending Engineer, 1st Class	Ditto
Lovett, Colonel B., C.S.I., R.E.	Superintending Engineer, 3rd Class	Superintending Engineer, 2nd Class	Ditto

R. C. B. PEMBERTON, Colonel, R.E.,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
REVENUE AND AGRICULTURAL DEPARTMENT.

PRELIMINARY REPORT ON THE METEOROLOGY FOR THE YEAR 1886, PREPARED
IN THE METEOROLOGICAL OFFICE, GOVERNMENT OF INDIA.

Extract from the Proceedings of the Government of India in the Revenue and Agricultural Department (Meteorology), No. 83 Met.—45-2, dated Simla, the 1st June, 1887.

Read the following:

Preliminary Report on the Meteorology for the year 1886.

January.—The relatively warm weather, which prevailed over the greater part of the country during the closing months of last year, lasted into January 1887 at many stations in Northern India, at a few in the south of the Peninsula, and over Ceylon and the Bay Islands, within which region the thermometer was on the average about 0.5° above the normal. Throughout the whole of the intervening region, comprising Sind, Guzerat, the Central Indian plateau, the Deccan, the West Coast as far as Belgaum, and the East as far as Negapatam, temperature was below the average. The amount of the deficiency varied from 1.8° at Chikalda and Akola to 0.1° in Sind. In Lower Burma also, with the exception of Akyab and Bassein, the weather was cooler than usual, the deficiency being greater in Tenasserim than in Burma proper.

Pressure was below the average, except at some of the hill stations and at a few places in the Peninsula.

This was a damp month over the greater part of India. In Sind, parts of Assam, and East Bengal there was a slight deficiency in the relative humidity, but elsewhere there was an excess, which was most marked in the north of the Punjab and south of the Peninsula.

The sky generally was more cloudy than usual. In the eastern parts of the North-Western Provinces and some stations in North Bengal serenity slightly exceeded the average.

Several disturbances appeared over the Punjab during January, that on the 19th being exceptionally intense, and the generally unsettled conditions which had prevailed over India during December 1886 continued over Northern India during January 1887. In all parts of the Punjab and the Meerut and Bareilly Districts of the North-Western Provinces the rainfall of the month was above the average, the excess being greater in the hills than on the plains and greatest at Kilba. In Rajputana, Central India, Oudh, and the eastern half of the North-Western Provinces, on the contrary, the weather was more settled and the rainfall short of the average. In Bengal the rainfall was deficient, except at a few stations, generally in Lower Bengal. In Assam, the Central Provinces, the Berars, and nearly the whole of the Peninsula the rainfall was also deficient, the only important exception being a tract of country stretching from Negapatam to the Shevaroy Hills, where there was a slight excess. Western India from Guzerat to the Deccan was rainless throughout. In Ceylon there was a deficiency at Hambantola, Anuradhapura, and Colombo, and an excess elsewhere. In Burma there was a general deficiency, while in the Bay Islands there was an excess at Nancowry and deficiency at Port Blair.

February.—In February, temperature, relatively to the average, fell very considerably over Northern India, and the month was cool throughout almost the whole country. The greatest deficiency (4°) was at Murree, but all over the north temperature was from 1.5° to 3° below the normal. The principal exception to this general coolness in Northern India was the Assam Valley, where there was a slight excess; but over the Peninsula the variations from the

normal were less regular, and in the extreme south there was, as in the preceding month, a slight excess of temperature. In Ceylon the variations were irregular. In Arakan and the valley of the Irrawaddy the weather was cooler, while in Tenasserim and the Bay Islands it was warmer than the average.

At the hill stations, as well as over Assam, the greater part of Bengal, at several stations in the Indian Peninsula, and at most stations in Ceylon and the Eastern Peninsula pressure was below the normal, but, elsewhere it was above, the excess being greatest in Sind.

In the north of the Punjab, the south of the Peninsula, and in Burma, the relative humidity remained above the average; but elsewhere there had been a brisk decrease in the amount of moisture since the previous month, and the relative humidity was generally below the mean.

The sky, relatively to the average, was much clearer than during January; only in the Punjab, the east of the Central Provinces, and Burma was the normal cloudiness exceeded. In all other regions the serenity was greater than usual.

In February, the only disturbance affecting Northern India was on the 16th, so that there occurred a marked improvement in the weather over Northern India. The amount of rainfall was below the average in the Punjab and the North-Western Provinces (both on the hills and in the plains), in Rajputana, Central India, Bengal, Assam, the Central Provinces, the Berars, and the whole of the Peninsula except parts of the Carnatic. In Ceylon there was a deficiency except on the north-west coast, but in Burma the rainfall was heavier than usual, except on the Arakan coast and in parts of Tenasserim. In the Bay Islands the variations were again irregular, but in this month the excess was at Port Blair, the deficiency at Nancowry.

March.—The relative coolness which had characterized the weather during February continued, except in the south, during March. The deficiency was rather greater on the hills than the plains; but all over Northern and Central India the mean temperature was from 1° to 2° below the normal. In Bombay and the Deccan this deficiency sensibly decreased, and further to the southward entirely disappeared, being replaced by an excess of from 0.5° to 1.5° . In Ceylon, Burma, and the Bay Islands there was everywhere an excess.

In this month the variations of pressure from the normal were irregular, an excess being reported from the North-Western Provinces, Bengal, and at one or two stations in the Peninsula and Ceylon, and a deficiency from all other parts.

In this month the relative humidity was generally above the average, except in Ceylon and on the Arakan Coast.

The general serenity which had characterized the weather during February disappeared during March, the sky being more cloudy than usual over the greater part of India. At most stations on the West Coast and in Ceylon, at a few stations in the south of the Peninsula, and over the central parts of the country the normal serenity was maintained or exceeded—these were the only exceptions to the generally excessive cloudiness.

Unsettled conditions again made their appearance over Northern India, and there was a large excess of rain over the Punjab* (except the stations in the extreme south and south-east), the North-Western Provinces (except between Saharanpur and Muzaffarnagar), and Oudh, and a slight excess in Sind, Central India, and East and South Rajputana. In other parts of Rajputana there was a deficiency of rainfall. In Bengal the rainfall compared with the average was irregularly distributed, generally in Behar, Western, South-Western and Lower Bengal, Orissa, and the Sikkim-Himalayas there was an excess, but in Northern Bengal, Durbhanga, Chyebassa, and Mymensingh there was a deficiency. The Assam reports showed an excess at Sylhet, Cachar, Dhubri, and Dibrugarh, and a deficiency elsewhere. In the Central Provinces the variations from the normal were irregular, but in the Berars and generally throughout the Peninsula rainfall was either deficient or altogether absent. In the Circars,

* A good deal of snow fell on the lower ranges of the North-Western Himalaya on the 7th and 8th.

however, there was a slight excess. In Ceylon the rainfall was considerably short of the normal. In Burma even the small amount which usually falls in this month was not received, and in the Bay Islands the fall was deficient.

April.—Cooler weather than usual continued to prevail over a large part of Northern and Central India. The principal exceptions were the south of the Punjab, Rajputana, Sind, Guzerat, and parts of Central India, where there was an excess. In the Peninsula, except at the station of Madras, in Burma, the Bay Islands, and in East Ceylon the mean was above the normal average. In other parts of Ceylon there was a slight deficiency.

Pressure had risen above the average over the greater part of the country; but the excess was not greater in the North-Western Provinces and Bengal than it had been during the preceding month.

With few exceptions, the amount of moisture in the atmosphere was below the normal, the greatest relative dryness being reported from Rajputana and the central parts of the country.

In April the sky cleared again and, except in some parts of Ceylon, the normal serenity was exceeded.

In April the rainfall was very short in the Punjab,* no rain falling over a large part of the Province. In Rajputana, Central India, and the North-Western Provinces there was practically no rain. Over the greater part of Bengal rainfall was very deficient, but in parts of Eastern Bengal there was a slight excess. In Assam the variations were irregular, an excess being reported from Sylhet, Silchar, and the south slope of the Garo hills, and a deficiency elsewhere. In the Central Provinces little or no rain fell, and this was likewise the case in the Berars and in Hyderabad. In the Bombay Presidency the rain was either deficient or altogether wanting. In Madras, though some rain fell over a large part of the Presidency, the amount received was almost everywhere below the average. This was also the case in Mysore, Ceylon, Burma, and the Bay Islands.

May.—In May relatively cool weather continued at the hill stations in the Punjab, at nearly all stations (both hill and plain) in the North-Western Provinces, and Bengal, and also extended to most parts of the Peninsula; on the plains of the Punjab and over Rajputana, Sind, Guzerat, and the whole of the Central Indian plateau, temperature, on the contrary, rose above the average after some months of relative coolness. The excess was greatest (nearly 4°) at Pachbudra and Jacobabad; but throughout the whole of the western desert, Sind and Guzerat, the thermometer was generally about 2° above the normal. In Ceylon and the Bay Islands the variations were irregular, but in Burma, except at Akyab and Thayetmyo, there was a slight deficiency.

Pressure remained above the average over the Punjab, the North-Western Provinces, and Bengal, but fell below it over Sind, Rajputana, the central parts of the country, the Peninsula, and Ceylon. In Burma the variations were irregular, though, on the whole, pressure was low.

Except in the Punjab, Rajputana, and Assam, the relative humidity was generally above the normal. The most general excess was over the North-Western Provinces, the other Provinces showing irregular variations.

In May the amount of cloud, relatively to the average, was generally excessive; but the variations were irregular, and in some regions the sky was much clearer than usual. This was particularly the case in the north of the Punjab, Rajputana, and Sind.

The variations in the rainfall of this month were irregular. In the Punjab there was an excess at most of the hill stations and in the north-west of the Province, and a deficiency elsewhere. In Rajputana rain fell generally, but not heavily, except in the eastern districts, where it was above the average. In Central India there was less than the normal rain in Rewah, Bundelkund, and Gwalior, and more elsewhere. In the North-Western Provinces the rainfall was abnormally heavy, more particularly on the hills; and in Oudh there was an excess, except at Sitapur and Bahraich. In Bengal there was a very general

* Snow again fell on the outer Himalayan range on the 1st April.

excess, but departures from this general excess were shown in different parts of the Province, the principal exceptions being parts of Behar, Northern Bengal, Mymensingh, and the Tipperah hill tracts. In Assam the rainfall was short—in some places considerably so. The Central Provinces, like Bengal, showed irregular variations from the average, but at most stations the differences were small. In the Berars the weather was slightly wetter than usual. In Hyderabad and the greater part of the Bombay Presidency the rainfall was abnormally heavy, but in Cutch and Sind there was no rain. In the Madras Presidency, except about Bellary and Kurnool, owing principally to a cyclonic storm which crossed the Madras Coast from the Bay of Bengal on the morning of the 24th, there was a large excess of rain; and, to a less extent, this was also the case in Mysore and Ceylon. In the Eastern Peninsula the rain was generally deficient, except at Tounghoo, Moulmein, and Mergui. In the Bay Islands there was an excess, which was large at Nancowry.

June.—In June the temperature of the Punjab, North-Western Provinces, Lower Bengal, Central Provinces, and Rajputana, relatively to the average, fell considerably, and cool weather was experienced throughout nearly the whole of Northern and Central India, except Assam, Northern Bengal, and the 24-Pergunnahs, where there was a slight excess of temperature. In Sind and Guzerat the weather was somewhat warmer than the normal, but in the Peninsula the temperature was slightly lower than usual. Ceylon had a slightly higher temperature than the normal, while over the Eastern Peninsula and the Bay Islands the variations from the average were irregular.

Pressure fell below the mean in Assam, and remained below it in the Central Provinces, the Berars, Sind, the two Peninsulas, and Ceylon. Elsewhere it was above the normal average, the excess being greater in the Punjab and North-Western Provinces and less in Bengal than it was during the preceding month.

This was also a generally damp month, more especially in the Central Provinces.

During June the variations in the cloud proportion were as irregular as during the preceding month. All over the central parts of the country and the greater part of Bombay and Burma the normal serenity was not reached, while in most other regions it was very generally exceeded.

On the 13th a small storm formed off the Orissa Coast, and subsequently moved, first towards Calcutta, and subsequently north-westward across Western Bengal and Central India to the south-east of the Punjab. It brought with it rather heavy rainfall, and ushered in the monsoon rains over the North-Western Provinces, Central India, and the east of Rajputana and the Punjab. At the close of the month the Punjab showed a deficiency of rain on the hills and in the west, but an excess elsewhere, more particularly in the centre and south-east, where the amount was at some stations three or four times the normal. In Rajputana there was an excess of rain over the desert and in the south and south-east districts, but a deficiency elsewhere. Central India received abundant rain at all the western stations, but less than usual in the east. In the North-Western Provinces and Oudh the rainfall at almost all stations exceeded the average. In Bengal the variations from the normal were in general moderate and irregular, but in North Bengal there was a large deficiency, the fall there averaging only about a third of the normal. Mymensingh again received a short rainfall, but the Tipperah hill tracts had a large excess. In Assam the variations were irregular and in places considerable. In the Central Provinces the rainfall was deficient, except in the valleys of the Nerbudda and Godavary, where it was heavier than usual. In the Berars, Hyderabad, and at most of the Bombay stations, except those in Sind, the rainfall of the month was excessive. In Madras and Mysore the variations were irregular, but on the west coast there was a large deficiency. In Ceylon the variations were also irregular, but generally small. In Burma there was a large deficiency in Arakan and a small deficiency at Tounghoo, Shwegyin, and Moulmein, and an excess elsewhere. The Bay Islands showed an excess at Nancowry and a deficiency elsewhere.

July.—This was a generally cool month, though the relative deficiency was on the whole less over Northern and Central India than during June. In North

Bengal, Orissa, the east of the Central Provinces, and at Rangoon, Moulmein, and Mergui there was a slight excess of temperature. The defect over Upper India was between 1° and 2° at most stations, but in the central parts of the country, Rajputana and Sind, it was generally below 1° . In the Peninsula the defect varied considerably. The Ceylon and Bay Islands averages showed but little departure from the normal; and this, with the exceptions noticed above, was equally the case in the Eastern Peninsula.

The variations of pressure from the normal over Northern India were irregular. In the east of the Punjab, Rajputana, the North-Western Provinces, and Bengal there was an excess; in the west of the Punjab, Sind, and Assam a slight deficiency. In the Central Provinces, the Peninsula, Ceylon, and the Bay Islands there was a general deficiency. In the Eastern Peninsula the variations were irregular.

The relative humidity was almost everywhere above the mean, more particularly in the Punjab, where, at some stations, the excess was large.

This was a generally cloudy month, though in Assam, North Bengal, on the Bombay Coast, and in Tenasserim the amount of cloud was less than usual.

The rainfall was rather heavier and better distributed than during June; but on the whole the variations of the rainfall from the average were similar to those in the previous month. On the hills of the Punjab there was a general excess. There was also an excess in some of the northern plain districts, such as Peshawar, Kohat, Rawal Pindi, &c. In Rajputana the average rainfall was exceeded in the west, north, and south, but not in the east, where there was a decided deficiency. In Central India the distribution of rainfall was the reverse of that in June, there being a deficiency at the western and an excess at the eastern stations. In the North-Western Provinces there was a deficiency in Rohilkund and a large part of Oudh and an excess in most other divisions. In Bengal the variations from the average were irregular. In Behar, North Bengal, West Bengal, and the Tipperah hill tracts the rain was in excess of the average; elsewhere it was generally below it. In Assam there was general excess. In the Central Provinces and the Berars the variations were irregular, but in Hyderabad the fall was everywhere heavier than the normal. In the Bombay Deccan the rainfall was short, but all other parts of the Bombay Presidency had more than their average amount. In Madras deficient rain was reported from the most northern stations and from a few places on the west coast, but generally the amounts received exceeded the normal. Mysore had also abnormally heavy rain; and this was also the case in Ceylon, except at the hill station of Newera Eliya. In Burma, except the south of Tenasserim, the rainfall was light, and in the Bay Islands the variations were irregular; Nancowry receiving more and Port Blair considerably less than the average.

August.—With the exception of the Indus Valley and one or two stations in the North-Western Provinces, this month, like July, was cooler than usual over Upper India, Assam, and the greater part of Bengal. In the 24-Pergunnahs, Orissa, the Central Provinces, and the Berars, on the contrary, temperature increased and showed a slight excess over the normal average. In Central India, Rajputana, Sind, Guzerat, the Peninsula, and Ceylon temperature remained below the normal, but in the Bay Islands and the Eastern Peninsula the weather was warmer than usual. In Northern India the deficiency was generally between $\frac{1}{2}^{\circ}$ and 1° , but in the Peninsula it was greater, varying between 1° and 2° .

The variations of pressure from the normal were again irregular, comprising a slight excess in the eastern districts of the North-Western Provinces, Bengal, Central India, Rajputana, and Khandesh, and a general deficiency elsewhere.

In Sind and the west of the Punjab, as well as over a large part of the Central Provinces, Ceylon, and the Eastern Peninsula, the relative humidity of the month was either normal or below the average, but in all other districts the normal was again exceeded.

The skies were again more than usually clouded. Only in the north of the Punjab, Sind, the West Coast, and Tenasserim did the amount of cloud fall short of the average; elsewhere there was a decided excess.

August was a relatively dry month over Western India. In the Punjab, except at one or two hill stations, at Rawal Pindi, Hoshiarpur, and Hissar, the rainfall was deficient. In Rajputana there was again an excess at all the more southern stations, but a deficiency elsewhere. In Central India, the Berars, and the Central Provinces nearly every station received less than the normal rainfall; and in Bombay, excepting some stations in Guzerat, Khandesh, and the Deccan, there was a general deficiency. In the North-Western Provinces and Oudh, except between Allahabad and Fatehpur and in the neighbourhood of Aligarh and Jhansi, the rainfall was heavy. In Bengal the variations were irregular. There was an excess in Behar, a large part of North and West Bengal, Mymensingh, and the Tipperah hill tracts; but in Orissa, and most parts of Lower Bengal the rainfall was below the average. Assam showed an excess in Cachar and Sylhet and a deficiency in the Brahmaputra Valley, except at the stations of Nowgong, Chardner, and Dibrugarh. In Hyderabad there was a deficiency in the north-western districts and an excess elsewhere. In Madras the rainfall was excessive, except on the west coast, where it was decidedly deficient. In Mysore it was also generally short of the average; but in Ceylon, with the exception of Galle, Colombo, and Pattalam, it was heavier than usual. In Burma the rainfall was on the whole deficient, though less generally so than during July. Port Blair again had less and Nancowry more than the average.

September—Owing to the early cessation of the rains, the relatively cool weather which had generally prevailed since April disappeared over the greater part of India during September, when the thermometer in most places rose above the normal average. The principal exceptions to this general excess were the eastern parts of the North-Western Provinces, the greater part of Bengal, and the western desert, where temperature remained below the normal. The excess was greatest (about 3°) in the Punjab, and exceeded 2° over a large part of the Central Provinces and the Berars. In the Peninsula the excess was smaller in amount and somewhat less general than in other parts of the country. In Burma it was very general, but comparatively slight.

In the Punjab, the western half of the North-Western Provinces, Assam, Lower Bengal, and over both Peninsulas (except the Khandesh district and the Deccan), the mean pressure of the month was below the average; elsewhere it either exceeded the normal or varied slightly and irregularly from it.

At a few stations in the North-Western Provinces and over the greater part of Assam, Bengal, and the Carnatic the humidity remained above the average, but in all other places it was less than the normal, more particularly in the Punjab.

The rains ceased early in this month, the weather cleared, and the abnormal cloudiness which had prevailed during July and August disappeared over the greater part of India. Only in Assam, Bengal, and the east of the North-Western and Central Provinces was there an excess of cloud. In all other regions there was abnormal serenity.

September was dry in all parts of India, except Bengal and the south of the Peninsula. In the Punjab the rainfall was deficient, except at the stations of Abbottabad, Shahpur, and Gurdaspur, where it was slightly in excess. In Rajputana the rainfall was everywhere deficient; and this was equally the case in Central India, except in Rewah. In the North-Western Provinces and Oudh the great majority of stations received less than their normal amount of rain, but the deficiency was less general there than further to the westward. In Bengal the month was exceptionally wet almost everywhere, but particularly so in North Bengal and Behar, where the average was considerably exceeded. The Central Provinces had abnormally dry weather in most districts, but the stations in the east participated in the excess which fell over Bengal. In the Berars, Hyderabad, and the whole of the Bombay Presidency there was a general and considerable deficiency. In Madras excessive rain was reported from the Circars, the neighbourhood of Chittoor and most stations

in the extreme south, but in all other parts of the Province the fall was deficient. Mysore and Ceylon had abnormally heavy rain; but in the Eastern Peninsula, with the exceptions of Diamond Island, Henzada, Tavoy, and Mergui, the fall was very deficient. At the Bay Islands the variations were the same as in preceding months, Port Blair having a deficient and Nancowry an excessive supply.

October.—The relative coolness which prevailed over Bengal and a part of the North-Western Provinces in September disappeared in October, and the mean temperature of the month was above the normal average over nearly the whole country, the only important exception being Bombay, the Deccan, and the north of the Madras Presidency, where there was a slight deficiency. The excess was greatest over the Indus Valley, Sind, Rajputana, and Guzerat, and averaged 3° . Over Northern and Central India the weather was very considerably warmer than usual.

Except at the hill stations, pressure was below the average throughout the whole of the Indian area. The deficiency was generally considerable, but was less in Upper India than in the centre and south. The largest defect was in Sind and Guzerat.

Except in the Indus Valley, part of Rajputana, the south of the Peninsula, and Ceylon, the amount of moisture in the atmosphere was everywhere above the average, and in the North-Western Provinces, Central India, and the Deccan very considerably so.

The clear skies which were reported during September did not continue during October, except in the Punjab, the south of the Peninsula, and part of Burma. In all other districts the sky was unusually clouded.

In October the weather was much more unsettled than during September, and the rainfall exceeded the normal in the Punjab, except in the west and north. In Rajputana the variations were irregular, but on the whole the weather was wetter than usual. In Central India every station reported a considerable excess. There was a deficiency in the western districts of the North-Western Provinces and an excess in the eastern districts, in Oudh, and on the hills. West and South-West Bengal also had abnormally heavy rain; but in other parts of the Province of Bengal the rainfall was generally below the average. In Assam there was a deficiency, except at Nowgong, Tezpur, Sibsagar, and Kohima. All over the central parts of the country and the greater portion of the Peninsula the weather was abnormally wet, and the Central Provinces, the Berars, Hyderabad, the Bombay Presidency (except Guzerat and Sind), and the Madras Presidency as far south as Cuddapah, all had excessive rainfall. In the Madras Presidency, South Cuddapah, except in the neighbourhood of Negapatam and at a few stations on the West Coast, the fall was generally deficient; and this was also the case in Mysore and Ceylon. In the Bay Islands and the Eastern Peninsula the variations from the mean were irregular.

November.—In this month not only was temperature over India higher relatively to the average than in October, but the area of excess was larger, the only region within which the means were below the normal average being the south of the Peninsula, and even there the defect was very trifling. In the Punjab, the North-Western Provinces, Bengal, and the Central Provinces, the excess, though occasionally large, was generally between 1° and 2° ; but in Rajputana, Sind, and Guzerat the average excess was much greater, and at Rajkot was as much as 4.3° . In the northern portions of the Peninsula the excess was much less, and in the south was replaced by a slight deficiency. Ceylon partook of the relative coolness of the south of the Peninsula, though the variations were everywhere small. In Burma the weather was much cooler than the normal, the defect varying between 1° and 2° . In the Bay Islands the means showed a considerable excess at Port Blair and a small defect in the Nicobars.

There was a fairly general excess of pressure during this month throughout Upper India, Rajputana, Khandesh, and Bengal, and a general deficiency over the Central Provinces, Sind, and Guzerat; but elsewhere the variations from the normal were very irregular.

November was an unusually damp month. Only in the north of the Punjab, Assam, the south of the Peninsula, and Ceylon was there any decided deficiency in the relative humidity. In all other places there was a general and large excess.

In this month skies cleared again over Upper India and Assam and remained serene in the south of the Peninsula. Elsewhere the sky, though less thickly covered relatively to the average than in the preceding month, continued abnormally cloudy.

Except in some parts of Bengal, the unsettled weather which had prevailed over Northern India during October disappeared during November. In the Punjab, the Indus Valley stations exhibited a slight excess of rain, but in all other parts of the Province the rainfall was below the average. In Rajputana little or no rain fell; and in Central India the amount was below the average. In the North-Western Provinces and Oudh there was practically no rain. At several places in North and West Bengal, in Chutia Nagpur, and Orissa more than the normal amount of rain fell; but generally throughout Bengal rain was either absent or below the average. In Assam the rainfall was everywhere deficient. In most parts of the Central Provinces there was no rain, but at the most eastern stations there was more than the usual amount. In the Berars no rain fell, and in Hyderabad considerably less than the normal amount. The Bombay returns showed an excess of rain at the station of Bombay, at some places in the Deccan and most places in Sind, but a deficiency elsewhere. In North Madras the rainfall, like that in Orissa, exceeded the average, but in other parts of the Presidency there was a very general deficiency. In Mysore the rainfall was abnormally heavy. In Ceylon the rainfall was short, except at the stations of Manaar, Batticaloa, and Hambantotta, while in the Eastern Peninsula the variations were irregular. In the Bay Islands there was a large excess.

The excessive rainfall reported from the Bay Islands and parts of the Madras Presidency was probably due to the unusual intensity of the cyclonic storms formed over the Bay during this month. The first storm was formed in the immediate neighbourhood of the Andamans on the 1st and 2nd of the month. The centre travelled slowly west-north-westward and struck the Madras coast a little to the north of Madras on the 9th, crossed the Deccan rapidly, also in a west-north-west direction, and passed out into the Arabian Sea, where it occasioned extremely rough weather. The second storm was formed in the Gulf of Martaban. It travelled first parallel to the Andamans, then passed through the South Phiparis Channel, and moved west-north-westward towards the Circars Coast, which it struck between Coconada and Vizagapatam about midnight on the 23rd and, after occasioning rather heavy rain, broke up on the 24th.

December.—The temperature was above the average over the whole of Northern and Central India. In the Peninsula (except at a few stations) and in Ceylon there was, on the contrary, a slight deficiency (averaging 1°); and over Burma there was a deficiency varying from $\frac{1}{2}^{\circ}$ to $2\frac{1}{2}^{\circ}$.

Generally pressure was below the average in the Punjab and North-Western Provinces, and above it elsewhere; but, except in Ceylon and the south of the Peninsula (where almost all stations reported an excess), the variations were very irregular.

This was a damp month over a large part of India, though less generally so than November. In the Punjab, Rajputana, Sind, the south of the Peninsula, Ceylon, and Burma, the amount of moisture continued deficient; in all other places it was in excess of the average.

Except in Ceylon and parts of the Eastern Peninsula, December was abnormally cloudy, the greatest excess being over the central parts of the country.

* The weather was unsettled in several parts of the country in December. In the Punjab the rainfall was abnormally large at most of the hill stations, as well as at Rawal Pindi and Gurdaspur, but was deficient elsewhere. In the

south-west and south of the Province, as well as in Rajputana, no rain fell. In Central India the rainfall exceeded the average. At all the more western stations in the North-Western Provinces, in Oudh, and the hills the rainfall was slight and short of the average, but at all the eastern stations there was a considerable excess. Those portions of Bengal lying to the north of the Ganges also had more than the normal amount of rain, but elsewhere in Bengal the rainfall was deficient. In Assam the variations were irregular and generally small. In the north and west of the Central Provinces the weather was abnormally wet, but in other parts as well as over the Berars the rainfall was generally lighter than usual. This was also the case in Hyderabad and over the greater part of the Bombay Presidency; but on the Ghâts and in the Bombay Deccan there was more rain than usual. In Madras all the more northern stations had excessive rain, but in the south and west and in Mysore general deficiency prevailed. The Ceylon rainfall was deficient, except at Hambantotta and Galle. In the Eastern Peninsula and the Bay Islands there was general deficiency.

On the 1st of December a storm was formed in the south of the Bay and, moving west-north-west, struck the coast some distance to the north of Madras on the 9th. The excessive rainfall at the Northern Madras stations was in part attributable to the action of this disturbance.

Year —On the mean of the year the departures from the normal temperature were very slight, seldom exceeding 1°, the warm weather at the beginning and close of the year compensating for the cool weather in the middle. In the Punjab the variations from the normal were irregular; but in the North-Western Provinces there was a general defect, and in Assam and North Bengal an excess. In other parts of Bengal and the east of the Central Provinces the variations were irregular; but in the south of the Central Provinces, the Berars, Rajputana, Sind, and Guzerat, the mean of the year was above the normal. In both Peninsulas and in Ceylon there was very little variation from the normal. In the Bay Islands there was a slight excess.

On the mean of the year there was a general excess of pressure in Bengal and a general deficiency in the Peninsula, but elsewhere there were no well-marked variations.

On the mean of all the months the amount of moisture in the atmosphere was in excess of the average over the greater part of India. The exceptions were Assam and Burma, where it was normal, and Rajputana, Sind, and Ceylon, where there was a slight deficiency.

On the mean of all the months the weather was somewhat cloudy over the greater part of the country, the excess being greater in the north than in the south. In parts of the Peninsula indeed the normal serenity was exceeded.

On the mean of all the months the rainfall of the year was in excess of the average over the Punjab (except at Simla and in the Derajat), the south of Rajputana, nearly the whole of the North-Western Provinces and Oudh, Bengal (except parts of Lower and Eastern Bengal), Assam, and Hyderabad, the Bombay Presidency (except Guzerat, Sind, and parts of the Deccan), the Madras Presidency (except the south and west), Tenasserim, and the Nicobars; and below the average in the west of the Punjab, the greater part of Rajputana and Central India, parts of Lower and East Bengal, the Central Provinces, Guzerat, and part of the Bombay Deccan, the south and west of Madras, the greater part of Ceylon, and British Burma. In the Berars, Mysore, and the Bay Islands the variations were irregular.

RESOLUTION.—Resolved, that the Report be published in the Supplement to the *Gazette of India*.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

Weather Review of India for the week ending the 31st May, 1887.

The principal meteorological feature of the past week has been the progress of the cyclonic storm which was noticed last week as approaching the South-West Bengal Coasts. The storm centre apparently crossed the Orissa Coast near Balasore in the early morning of the 26th, and by 10 A.M. had reached the Midnapore District. Excessively strong winds prevailed over the head of the Bay as the cyclone approached the Coast, False Point reporting 69 miles an hour and Saugor Island velocities of from 60 to 67 miles an hour for several hours in succession. A good deal of rain fell at the Coast stations. By the morning of the 27th the storm had travelled as far as Gya. It had considerably decreased in intensity, but was still occasioning a strong humid monsoon current throughout Bengal, which brought up much rainfall. By the morning of the 28th the storm had become exceedingly slight and the cyclonic circulation of the winds very feeble. It still, however, occasioned general rainfall throughout the Province of Bengal, very large amounts falling over Behar. By the 29th the depression had entirely disappeared, but the monsoon winds which it had initiated over Bengal continued to blow steadily, and rain continued over the greater part of Bengal. The most remarkable falls during the progress of the storm were as follows.

		Inches
Burdwan	...	4.95 + 2.00
Dar esling	...	4.02 + 8.13
Hazaribagh	...	3.82 + 1.00
Chittagong	...	2.77
False Point	...	8.75
Purneah	...	6.56 + 2.84 + 0.88
Patna	...	2.48 + 1.50 + 4.34
Saugor Island	...	1.75
Gya	...	1.72 + 1.33 + 1.20

With the disappearance of the above depression, the monsoon current fell off temporarily in strength, and the rainfall became slighter. The change was, however, only in intensity, and the general distribution remained favourable to a further and probably more widely extending influx of the monsoon current and rains.

In Upper India the influence of the above storm has been very slight, and the weather during the greater part of the week over the Punjab, Sind, Rajputana, and Central India has been hot and very dry, and the contrast between the conditions prevailing in Upper India and in Bengal has been very striking. The highest temperature recorded was 122° at Jacobabad on the 29th, while in parts of the Punjab readings of 115° to 118° were registered during the week. Towards the close of the period the humidity generally rose, and the heat was somewhat mitigated.

The winds on the west coast have, so far, been much feebler than those on the opposite side of the Peninsula, and the monsoon current there, as compared with that over Bengal, seems to be much retarded. Rain has, indeed, fallen on most days in Southern India and Ceylon, but, except perhaps at Colombo, the rain has fallen as local showers, not as general rain, due to the influx of the monsoon current.

The following table gives for Northern India the actual and average rainfall for the six months, November to May, and the difference between the fall of the present year and that of a normal year :

Stations.				Actual rainfall from 1st November 1886, to 31st May, 1887.	Average rainfall from 1st November, 1886, to 31st May, 1887.	Difference.
Mooltan	0'67	2'09	— 1'42
Peshawar.	2'48	7'84	— 5'36
Murree	10'44	17'31	— 6'87

W. L. DALLAS,

SIMLA, June 3rd, 1887.

for Meteorological Reporter to the Government of India.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 2nd JUNE, 1887.

GENERAL REMARKS—The rainfall has been general throughout Bengal, Assam, and Mysore, and the falls in some districts of the first-named Province and in one district of Assam were very heavy. Showers have also occurred in parts of Madras and in a few places in Bombay and the North-Western Provinces and Oudh. Elsewhere the week has been rainless.

In Burma there was general rain during the week ending 25th May. No report has been received for the week under notice.

Ploughing and sowing for the *kharif* continue in Bombay, the Central Provinces, and Berar, and have commenced in Rajputana and in some districts of the North-Western Provinces and Oudh and the Punjab. Sowings are advancing in parts of Bombay, the North-Western Provinces and Oudh, and the Punjab. The standing crops in Madras and Mysore and Coorg are generally good, and the outlook is favourable.

The early rice in Bengal and Assam is in good condition, but more rain is wanted in the eastern districts of the former Province. Rice sowings have also commenced in the Central Provinces.

Sugarcane cultivation is progressing in the North-Western Provinces and Oudh, Assam, and Rajputana; and the crop is doing well in Bengal and the Central Provinces.

Indigo is in good condition in Bengal, in the North-Western Provinces and Oudh the crop is being irrigated.

Cholera is still prevalent in some districts of the North-Western Provinces and Oudh, but has abated in Bengal. Elsewhere the public health is generally satisfactory. Cattle-disease chiefly exists in Madras.

Prices are rising in two districts of the Punjab and in three districts of the Central Provinces, and have slightly risen in the Bangalore and Mysore districts. They also show an upward tendency in the North-Western Provinces and Oudh. Elsewhere prices are fairly steady.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Madras—(June 1st)		
Bellary	Average 110	Standing crops generally good. Harvest paddy and sugarcane, yield about average. Cholera increasing and cattle-disease decreasing in four taluks.
Kurnool	Land being ploughed for next crops. Small-pox in two, cholera in one, and cattle-disease increasing in sixteen taluks.
Ganjam	Average 103	Small-pox in two and fever in five divisions. Cholera increasing and cattle-disease decreasing.
Kistna	Average last week since revised, 11, this week, 93	Standing crops good. Slight fever in three, cholera increasing in seven, and cattle-disease decreasing in three taluks.
Chingleput (Madras)	Standing crops fair, but withered to some extent for want of rain. Harvest paddy, yield below average. Small-pox in one and cattle-disease increasing in three taluks.
Coimbatore	Average 110	Standing dry crops generally good. Harvest paddy, outturn above average. Fever in one taluk and cattle-disease decreasing in another.
Tanjore	Standing crops generally good. Harvest paddy and gingelly, outturn up to average.
Madura	Average last week since revised, 39, this week, 10	Cattle-disease in one taluk.
Malabar	Average 148	Rain insufficient for first crop cultivation. Harvest third crop paddy, outturn below average. Fever in two and small-pox in nine taluks.
Travancore	221	Paddy sprouting. Small-pox and fever in places.
Bombay—(June 1st)		
Karachi	Nil	River at Kotri on 30th, 9 feet 7 inches against 11 feet 1 inch on same date last year. Fever in six talukas. Wheat, red rice and <i>bajri</i> in Karachi 22, 30 and 32 and in Tatta 22, 42 and 40 pounds per rupee, respectively.
Hyderabad	Nil	<i>Kharif</i> harvesting continues in three talukas. <i>Kharif</i> cultivation in progress. Fever in two, small-pox in one and cattle-disease in one taluka. River at Kotri on 30th, 9 feet 7 inches against 11 feet 1 inch on same date last year. Wheat 24, <i>bajri</i> 37, <i>jowari</i> 40, white rice 20 and red rice 30 pounds per rupee.
Ahmedabad	Nil	Land being prepared for cultivation. Public health good. Wheat 22 and <i>bajri</i> 30 pounds per rupee.
Baroda	Nil	Public health good. Standing crops in good condition. <i>Bajri</i> 28, wheat 18 and rice 21 pounds per rupee.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Bombay—contd.		
Surat	<i>Nil</i>	Field operations continue. Cattle healthy. Fever in Bardoli taluka. <i>Jowars</i> 38 and <i>mil</i> 42 pounds per rupee.
Nasik	<i>Nil</i>	Threshing is over. Preparation for <i>kharij</i> sowing continues. Burning of land for <i>kharij</i> sowing in progress in Igatpuri and Kalyan talukas. Cholera at Minmad in Chhindol taluka, 7 attacks, 6 deaths, at Yeola 9 attacks, 1 death. Small-pox in Yeola and Nindgaon talukas. With the above exceptions, public health good. Prices stationary.
Colaba (Bombay) . .	<i>Nil</i>	Abnormal temperature 1° cool on 26th and 30th, <i>nil</i> on all other days. Vapour in air normal. Abnormal wind from north-west on 25th, 29th and 30th. Wind normal on all other days.
Poona	Petha Baramati, 86, Indapur, 131, Bhimthari, 66	Sowing in places in Petha Baramati and being prepared for cultivation in Indapur, Purandhar and Bhimthari talukas. Public health generally good. Slight cattle-disease in Indapur, Purandhar and Bhimthari talukas. One fatal case of cholera in Poona city on the 25th. <i>Bajri</i> 44 and <i>jowari</i> 56 pounds in the district, and <i>bajri</i> 37 and <i>jowari</i> 48 pounds per rupee in Poona city.
Ahmednagar	<i>Nil</i>	Chorani Newasa and Kopargan. Cattle-disease in Jamkhed. <i>Bajri</i> 54 and <i>jowari</i> 63 pounds per rupee.
Dharwar	Nargund 44, Gadag, Binkapur and Halval above 10, and in Nawalgund and Ron, nearly 10, and slight rain in Hubli.	Ground being prepared for early crops. Sowing of rice retarded in some places for want of rain. Sowing of fodder in Nawalgund and of drinking-water in Nawalgund, Gadag, Rimbennur and Kad talukas. Public health generally good. Slight cattle-disease in Nargund Petha. Rice 24 and <i>jowari</i> 54 pounds per rupee.
Kanara	Siddapur, 18	Sowing continues. Seeds sprouted. Slight fever in Halval. Common rice in Kurwa and district average 14-15 pounds per rupee.
Rajkot	<i>Nil</i>	Small-pox in Virpur. Measles in Rajkot and Gadka. Small-pox affecting cattle at Morvi. Wheat 23, <i>bajri</i> 24 and <i>jowari</i> 25 pounds per rupee.
General Remarks —Run in parts of seven districts. Preparations for <i>kharij</i> cultivation still going on. Fever and small-pox in part of seven, cattle-disease in parts of ten and cholera in parts of six districts.		
Bengal—(June 1st)		
Chittagong (May 31st)	2 95	Weather seasonable. Prospects good. <i>Kharij</i> cultivation continues. Prices stationary. Cholera still reported. Public health good.
Dacca	1 14	Prospects of crops good. <i>Amul</i> being sown on highland. Rivers rising. Rain wanted. Public health good.
24-Pergunnahs (Calcutta)	2 66	Weather showery with high winds but cooler. Sugarcane doing well. Ploughing progressing. Sowing in lowlands begun. Cases of cholera and fever still reported, public health otherwise good.
Khoolna	0 79	Weather very showery. Slight rain. High tide have done some damage and have suspended ploughing. Public health good.
Moorshedabad	2 05	Weather still hot, though heavy rain fell during last two days. <i>Bhadra</i> prospects good. Sugarcane promising. <i>Bar</i> harvesting over. Public health good.
Pubna	2 00	Weather cloudy, with strong wind and some heavy showers. Crops doing well. General health good.
Dinapore	11 52	Heavy and incessant rain throughout the district. Since last five days damaging <i>bhadra</i> in lowlands. No more rain wanted for the present. Cattle-disease reported. Cholera in one thana and small-pox in two.
Rungpore	10 71	Crops promising. Cholera abating.
Midnapore	4 08	Weather cyclonic. Crop prospects excellent.
Burdwan	7 8	Weather cloudy, with strong east wind and occasional rain. Prospects of crops good. Public health good. Cattle-pox in Cutwa subdivision.
Bhagulpore	6 42	Weather stormy and cool. Prospects good. Cholera abating in north.
Purneah	13 56	Crops doing well. Present rain, if not excessive, will be highly beneficial. Rivers rising. Health of people and cattle fair.
Durbhanga	4 12	Prospects of <i>rabi</i> , rice, <i>moong</i> and indigo very promising. Fields being prepared for <i>bhadra</i> sowings. Mango considerably injured by rain. Prices stationary. Public health good.
Chumparun	1 08	Rain beneficial to cultivation. <i>Bhadra</i> and <i>aghani</i> sowing in progress. Prices stationary. Mortality from cholera increasing.
Patna	9 32	Continuous rain from evening of 26th to night of 30th. Sky not yet clear. Rain will do much good to sugarcane and facilitate paddy sowing. Some damage done to <i>rabi</i> . Corn in threshing floors. Cholera reported from Bar and Behar subdivisions.
Gya	4 25	Weather cool and cloudy. Sugarcane doing well. Cholera in all parts of the district. Fever and small-pox also reported.
Hazareebagh	5 10	Weather unsettled. Incessant rain, with strong winds, on 27th and 28th. Sugarcane doing well. Paddy sowings begun. General health fair.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Bengal—contd.		
Cuttack	3'0	Weather cloudy, with high winds. Sowing of rice in progress. Price of rice unchanged. Public health good. <i>General Remarks.</i> —General rain, accompanied with storms, had cooled the atmosphere. A cyclone struck the coast with centre near Balasore on morning of 26th and passed through Midnapur and then north-north-west. Sky still overcast, and more rain expected. Agricultural operations proceeding well. Early rice, jute, sugarcane and indigo are in good condition. More rain wanted in some of the eastern districts. Cholera has much abated, and general health is fair, except in Behar, where it is indifferent.
N.-W. Provinces and Oudh—(June 1st)		
Benares (May 31st)	07 at Sadr	Weather cooler. Supplies sufficient. Prices steady. A few cases of cholera, health otherwise good.
Ballia (" 30th)	Heavy rain during week	Weather cloudy. Sugarcane thriving well. Supplies ample. Cholera abating.
Gorakhpore (" ")	50 at Sadr	Weather cloudy. Prices stationary. Epidemic cholera continues in several tahsil.
Fyzabad (" 31st)	Weather cloudy and cool. Markets well supplied. Prices almost stationary. Cholera continues.
Lucknow (" 30th)	East wind during greater part of the week. <i>Sirani</i> cut. Fields being manured. Markets well supplied. Prices slightly rising. Public health good.
Rai Bareilly (" ")	Heavy clouds, with cool north-east wind. Prices almost stationary. Supplies abundant. Cholera spreading.
Partabgarh (" 31st)	Prices steady. Cholera prevalent.
Allahabad (" ")	Weather somewhat cooler. Wind easterly. Markets well supplied. Prices show a slight fall. Cholera in trans-Ganges and trans-Jumna chiefly.
Cawnpore (" ")	Strong easterly winds. Extra crops in good condition. Prices stationary. Small-pox and cattle-disease in places.
Banda (" 30th)	Weather hot. Supplies plentiful. Prices stationary. Cholera in six tahils. Cattle-disease in eight villages.
Farakhabad (" 31st)	Cool easterly breeze. Supplies ample. Prices moderate. Health fair.
Sitapur (" ")	Weather cloudy, with easterly winds. Ground being got ready for <i>Kharrif</i> sowings. No sickness.
Bareilly (" ")	Heat continues. Prices decidedly risen. Health good. Cholera beginning to appear in a few places.
Kumaon (" 30th)	Partial rain on 29th May	Weather cooler. <i>Rabi</i> entirely harvested. <i>Kharrif</i> sowings in progress. Prices stationary. Severe cholera in one pargana. Cattle-disease continues.
Agra (" ")	Weather hot. Irrigation of sugarcane and indigo continues. Prices rising. Small-pox in city, otherwise general health good.
Jhansi (" ")	Intense heat. Land being manured for <i>kharrif</i> crops in places. Prices generally steady. Cholera increasing in pergunnah. Moth. Some small-pox and cattle-disease reported.
Meerut (" 31st)	Cool east wind in morning, with hot west wind in afternoon. Cane and indigo flourishing. Supplies sufficient. Prices unchanged. Health good. <i>General Remarks.</i> —Easterly winds. Cloudy weather and lower temperature in the greater part of the Provinces. Rain has fallen in the Benares division. Preparation of the ground for <i>kharrif</i> sowings has commenced in some districts. Supplies ample and prices fairly steady, but with a tendency to rise. Cases of cholera continue to be reported, otherwise the public health is fair.
Punjab—(June 1st)		
Hissar	Nil	Health good. Prices stationary.
Delhi	Nil	Health good. Prices rising.
Umballa	Nil	Health fair. Prices stationary. <i>Kharrif</i> ploughing commenced in some places.
Jullundur	Nil	Health good. Prices stationary. <i>Rabi</i> harvest, yield below average.
Ferozepore	Nil	Health good. Prices stationary.
Amritsar	Nil	Health good. Prices stationary. <i>Rabi</i> yield good.
Sialkot	Nil	Health good. Prices stationary. <i>Rabi</i> harvesting nearly completed.
Lahore	Nil	Health good. Prices stationary. <i>Rabi</i> yield below average.
Multan	Nil	Health good. Prices stationary. <i>Rabi</i> crops nearly harvested. <i>Kharrif</i> crops being sown.
Rawalpindi	Nil	Health good. Prices rising. <i>Rabi</i> crops reaped, outturn below average.
Shahpur	Nil	Health good. Prices high and falling. <i>Kharrif</i> crops being sown.
Dera Ismail Khan	Nil	Health good. <i>Rabi</i> crops nearly harvested, outturn much below average.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Punjab—contd.		
Peshawar	Nil	Health fair. Prices almost stationary. <i>Kharif</i> sowings in progress. <i>General Remarks.</i> —No rain has fallen during the week, except in Umballa and Peshawar, where it is fair. Health is good. Prices are rising in Delhi and Rawalpindi, high and falling in Shahpur, almost stationary in Peshawar, stationary elsewhere. Harvesting of <i>rabi</i> crops nearly completed in Sialkot, Multan and Dera Ismail Khan, and completed in Rawalpindi. Out-turn good in Amritsar, below average in Jullundur, Lahore and Rawalpindi, and much below average in Dera Ismail Khan. <i>Kharif</i> ploughings commenced in Umballa, and sowings begun in Multan, Shahpur and Peshawar. Fodder scarce in Shahpur.
Central Provinces— (June 1st)		
Nagpur	Weather cloudy and hot. Land under preparation for <i>kharif</i> sowings. Small-pox and fever prevalent. Prices steady.
Jubbulpore	Days very hot; nights close. <i>Kharif</i> ploughings commenced. Cholera still prevalent. Prices steady.
Saugor	Weather hot and occasionally cloudy. Land being prepared for <i>kharif</i> sowings. Fever prevalent. Prices slightly rising.
Seoni	Weather cloudy and hot. Fields prepared for <i>kharif</i> sowings. Health good. Prices steady.
Hoshangabad	Weather hot. <i>Kharif</i> ploughing in progress. Fever prevalent. Three cases of cholera in Haidra. Prices stationary.
Khandwa	53	Weather windy. Preparation being made for <i>kharif</i> sowings. 281 cases of small-pox, 20 fatal. Prices rising.
Raipur	Weather hot and cloudy. Manuring of fields nearly completed. Rice sowings in progress. Cattle-disease continues. Prices steady.
Bilaspur	Weather cloudy and hot. Rice sowings commenced in places. Sugarcane doing well. Fever prevalent. Small-pox and cattle-disease continue. Prices rising.
Sambalpur (May 28th)	A slight shower on 26th May.	Weather very warm and sometimes cloudy. Sugarcane doing well. Cholera in places. <i>General Remarks.</i> Weather cloudy and hot. <i>Kharif</i> ploughings continue. Cholera in Jubbulpore, Hoshangabad and Sambalpur districts. Fever and small-pox in places. Prices rising in Saugor, Khandwa and Bilaspur, in other places steady.
Burma—(May 25th)		
Akyab (May 21st)	1'07 (Total rainfall to date 17'00)	
Bassein	2'49 (Total rainfall to date 6'61).	
Rangoon	4'61 (Total rainfall to date 12'56).	
Amherst (Moulmein)	2'53	
Tavoy	2'59	
Pegu	No report received.
Henzada	2'15	
Prome	'60 (Total rainfall to date 2'05).	Some cases of cholera and slight cattle-disease.
Toungoo	'42	
Thayetmayo	No report received.
Shwebo (May 14th)	1'39	Spring crops commenced producing grain.
Kyaukse	5'16	Crop prospects good.
Myingyan	4'88	Some cases of measles. Supplies sufficient. Prices ordinary.
Minbu	'31 (Total rainfall to date 2'28).	Food-supply sufficient. Prices normal.
Assam—(June 1st)		
Gauhati	1'69	<i>General Remarks.</i> —Slight measles and some cholera in several districts of Lower Burma and some cattle-disease, otherwise public health and health of cattle good. Weather seasonable. Reports received from six Upper Burma districts. Some measles and small-pox. Food scarce in Yeu and Shwebo. Crop prospects good.
Sylhet	2'40	
Cachar	1'60	Weather rainy. Public health fair. Cattle disease reported from Mauzah Beltola. Prospects of crops good.
		State of crops good. Prospects fair.
		Weather very warm. Ploughing and sowing of <i>dumai</i> and <i>murali</i> crops finished. Cultivation of <i>shil</i> crops continues. Common rice 13 seers 15 chittacks per rupee. Cholera and cattle-disease prevalent.
Dibrugarh	Heavy rain throughout the week 8'55.	Sugarcane being planted. Ploughing for <i>shil</i> progressing. Prospects of crops good. Public health fair.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Mysore and Coorg— (June 1st)		
Bangalore	At Civil and Military Station, 2'13 in Mysore district, 2'00; good rain throughout the State. 1'09	Standing crops in good condition. Prospects of season favourable. Public health good. Cattle-disease prevalent in parts. Prices slightly risen in the Bangalore and Mysore districts.
Mysore		
Mercara		Prospects good. Slight small-pox in three taluks. Prices unaltered.
Berar and Hyderabad— (June 1st)		
Amraoti	Sprinkling of rain	Weather cloudy and hot. <i>Kharif</i> ploughings continue. Fever in two taluks. Cattle healthy. Wheat 15 and <i>jowari</i> 27 seers per rupee.
Akola		Weather sultry and cloudy, with high winds occasionally. Preparation of land still in progress. Slight sickness. Cattle-disease continues. Prices steady.
Hyderabad	Nil	Reaping of <i>rabi</i> crops continues. Cholera abated to some extent in almost all taluks. Prices—wheat 13½, coarse rice 12½, white <i>juar</i> 1½, yellow <i>juar</i> 23½ and <i>tur</i> 13 seers per current sicca rupee.
Central India States— (June 1st)		
Indore		Weather hot, with strong westerly winds.
Morar (Gwalior)		Small-pox decreasing. Health good. Heat intense.
Neemuch		Weather warm. Health good. Prices rising. Scarcity of water.
Goona		Small-pox decreasing. Prices rising.
Sutna		Weather hot and cloudy. Health and prospects good.
Agar	64	Health and prospects fair.
Sehore		Weather very hot. Outturn of wheat below average. Health good.
Nowgong		Weather hot and sultry. Health fair. Prices steady.
Bhopawar		No report received.
Rajputana—(June 1st)		
Abu (June 1st)	Nil	Weather seasonable. Winds with dust.
Sirohi (May 29th)	Nil	Tanks dry; wells good. Health good. Weather warm and fine, with less wind.
Marwar („ 28th)	Nil	About two months' water in Jodhpur city tanks. Health good. Harvesting almost over. Weather partially cloudy. Wind strong, hot and dusty. Heat intense. Nights close and hot. Market tight.
Meywar („ „)	Nil	Tanks and wells low. Health good. Prices stationary. Weather very hot.
Harowti („ „)	Nil	Weather intensely hot. Duststorm on 24th. Health good. Prices steady.
Jhallawar („ 30th)	Nil	Weather very hot. Wells and tanks low. Health good.
Ajmere („ 31st)	08	Weather excessively hot and windy. Health good. Drinking-water diminishing. Wheat 24, barley 41 and gram 40½ pounds per rupee.
Jeypore („ „)	Nil	Weather very hot and dry. Health fair.
Dholepore („ 28th)	Nil	Wells drying; tanks almost dry. Sugarcane being irrigated. Small-pox still reported. Prices stationary. Weather very hot. Winds hot.
Bhurtapore („ 31st)		Weather intensely hot. Cholera prevails. Wells full. Prices steady.
Ulwar („ „)		Heat great. <i>Kharif</i> preparations in progress. Fever in three and small-pox in one district. Prices steady.
Kotah („ 28th)	24	Weather hot, with occasional clouds. Health good. Prices stationary.
Kherwara („ 29th)	Nil	Tanks and wells lower. Health good. Prices steady. Weather windy, with occasionally heavy clouds.
Bickanir („ 28th)	Slight rain	Fever in five districts and small-pox in one. Prices rising. Weather very hot.
Nepal—(May 26th)		
Katmandu (May 27th)	73	Thunder, showers and sultry weather seem to betoken the beginning of the rains. Prospects fair.

No. 1218 G.—With reference to Foreign Department Notification No. 589 G., dated the 7th April, 1887, Surgeon P. D. Pank assumed charge of his duties as Officiating Agency Surgeon at Ulwar, on the forenoon of the 19th May, 1887.

By Order,
C. HERBERT,

for First Asst. Agent to the Govr.-Genl.

CHIEF COMMISSIONER OF AJMERE-MERWARA.

NOTIFICATIONS.

Abu, the 21st May, 1887.

No. 577 702.—Under Section 6 (b) of the Ajmere Municipalities' Regulation, 1886, the Chief Commissioner of Ajmere-Merwara is pleased to appoint Rao Kalyan Singh of Junian to be an Additional Member of the Kekri Municipal Committee.

The 28th May, 1887.

No. 601-586.—Under Section 11 of the Ajmere Rural Boards Regulation, 1886, the Chief Commissioner is pleased to appoint the 1st day of September, 1887, as the date on which the District and Local Boards shall come into existence.

No. 611-586.—Under section 3, sub-section 1, of the Ajmere Rural Boards Regulation, 1886 the Chief Commissioner of Ajmere-Merwara is pleased to declare that, for the purposes of that Regulation, Ajmere-Merwara shall form a single District comprising the following Sub Districts, *viz.* :—

The Sub-District of Ajmere.
The Sub-District of Merwara.

No. 612-586.—Under section 5 of the Ajmere Rural Boards Regulation, 1886, the Chief Commissioner is pleased to declare—

- (1) that the District Board of Ajmere-Merwara shall consist of—
14 Tazimi Istimrardars,
6 Members nominated by the Chief Commissioner,

- 10 Members of the Ajmere Local Board,
10 Members of the Merwara Local Board;
(2) that the Local Board of the Sub-District of Ajmere shall consist of—
14 Tazimi Istimrardars,
8 Representatives elected by Jagirdars and minor Istimrardars,
10 Representatives elected by Khalsa villages,
6 Members nominated by the Chief Commissioner;
(3) that the Local Board of the Sub-District of Merwara shall consist of—
12 Representatives of Khalsa villages,
6 Members nominated by the Chief Commissioner

No. 613-586.—Under section 22, sub-section (1), of the Ajmere Rural Boards Regulation, 1886, the Chief Commissioner is pleased to frame the following rules.

By Order,
C. HERBERT,
*for First Asst. Agent to the Govr.-Genl.,
Rajputana.*

Rules framed by the Chief Commissioner of Ajmere-Merwara, under Section 22 (1), Ajmere Rural Boards Regulation, 1886

I. The persons entitled to vote at the election of Members of a Local Board shall be—

- (a) In that portion of the District which is divided into circles Nos. 1 to 8 under the Sub-District of Ajmere and into circles Nos. 1 to 12 under the Sub-District of Merwara in Appendix A—
1. Muafidars or Bhumias, each holding more than 100 bigahs of land;
2. Lamberdars;
3. Government native pensioners drawing Rs 8 or more per mensem;
4. Honorary Magistrates;
5. Subject to the numerical restriction imposed by Rule II, such other persons residing or owning landed property or carrying on trade or business in the circles as the Magistrate of the District, having regard to their wealth or to their interest or influence in the Sub-District, may consider fit persons to act as electors,

- (b) In that portion of the District which is divided into Circles Nos. 23 to 28 under the Sub-District of Ajmere in Appendix A—
1. Jagirdars;
2. Istimrardars.

II. The number of persons who may be chosen under Rule I (a) 5 to be electors for any Local Board shall be such number not exceeding one hundred or less than twenty-five as the Commissioner after consultation with the Magistrate of the District and with the approval of the Chief Commissioner may determine.

III. No person shall be eligible who—

- (a) is not a sane male of the age of 21 years or upwards, or
(b) is concerned in a contract relating to work paid for out of District Funds, or
(c) is a paid servant in the employ of a District or Local Board, or
(d) has been proscribed from Government employment, or
(e) has been convicted of any offence or subjected by a court to any order, which implies in the opinion of the Chief Com-

missioner a defect of character unfitting him to be a member of the Board :

Provided that the Chief Commissioner may exempt any person or class of persons being paid servants of the Board from the restriction contained in clause (c) of this Rule.

IV. As soon as may be after the publication of these Rules; the Magistrate of the District shall prepare and submit to the Commissioner a list of the persons qualified and chosen to be electors of the first Local Board of each Sub-District, and that list shall come into operation as soon as it has been approved by the Commissioner and shall continue in operation for a period of three years.

V. Three months at least before the date on which a list will cease to be in operation, the Magistrate of the District shall prepare a fresh list and submit it to the Commissioner with a statement of his reasons for omitting therefrom any name, which is included in the list then in operation, and the fresh list, amended in such manner as the Commissioner may direct, shall come into operation on the day following that on which the former list ceased to be in operation, and shall continue in operation for three years.

VI. The names in the lists prepared under Rules IV and V shall be serially arranged.

VII. The Magistrate of the District, with the previous sanction of the Commissioner, may, from time to time, while a list is in operation, order the removal therefrom of the name of any person who refuses to act, or is convicted of any such offence, or subjected in the course of any judicial proceeding to any such order, as implies in his opinion a defect of character which unfits the person to be an elector.

VIII. When any person whose name is included in the list resigns or dies, or when the removal of the name of any such person has been ordered, the Magistrate of the District shall expunge his name from the list, and may, without reference to the Commissioner, substitute for it the name of any fit person who possesses the qualifications described in Rule I.

IX. No list, while it continues in operation, shall, except with the sanction of the Chief Commissioner, be subject to alteration otherwise than under Rules VII and VIII.

X. Notice of his name having been included in a list and of the time during which that list will continue in operation shall, as soon as the list comes into operation, or, if his name is substituted under Rule VIII as soon as the substitution is made, be given in the following form to every person chosen to be an elector :—

"You are hereby informed that you have been chosen to be an elector of the Sub-District of _____ and that you will be entitled to vote at the election of members of the Local Board of that Sub-District till _____"

Magistrate of District.

Dated the 188 .

XI. When under Rule VIII the Magistrate of the District orders the removal of the name of any person from a list, he shall cause notice of such removal to be served on that person.

XII. The election of members of a Local Board shall be held at such place within or without the Sub-District as the Magistrate of the District may think convenient.

XIII. The election of members of the first Local Board to be established for a Sub-District

shall be held in the first week of August, 1887. The election of persons to fill the places of the elected members who will be retiring under Rule XXIX on the 31st August in every year after 1887, shall be held on such day in the preceding July as the Magistrate of the District may determine.

XIV. One month at least before the day for the election, the Magistrate of the District shall cause each elector to be supplied—

- (1) with a list of the eligible candidates for his Sub-District, and
- (2) with a notice specifying the number of persons to be elected and the place at which, and the hours during which, the poll will be taken, and calling upon all electors to attend and vote at the time and place specified.

The notice and list shall also be fixed up in conspicuous places in the Sub-District for general information.

XV. The Magistrate of the District, or any other official authorised by him in this behalf, shall act as returning officer.

XVI. Votes shall be given at the time and place specified in the notice of election by electors in person by means of the voting-papers furnished to them, each elector voting for the number of persons specified in the fourth column of his paper, and writing his name or causing it to be written in the list of electors against the names of the persons for whom he intends to vote.

The voting-papers shall be in the following form :—

"VOTING-PAPER."

1	2	3	4
Sub-District for which election is to be held.	Name and address of elector.	Serial number of elector in list.	No. of persons for whom elector may vote.

" (List of electors to be printed at length.)

"I vote for the persons in the above list against whose names my name is placed.

"(Signed)....."

"Or the mark of"

XVII. Each elector shall sign the voting-paper or affix his mark thereto in the presence of the returning officer.

XVIII. Any voting-paper which is not so signed or marked or on which votes are given to more persons than there are persons to be elected, shall be invalid.

XIX. When a person presents himself to vote, the returning officer shall satisfy himself that the person is an elector, and shall then place against his name in the copy of the list of electors a tick, which will denote that that elector has voted.

XX. The elector shall give his vote by placing his voting-paper in a receptacle hereinafter called the urn.

XXI. Just before the commencement of the poll, the returning officer shall show the urn empty to such persons as may be present at the polling-place and shall then place it in his view and keep it there till the close of the poll.

XXII. At the close of the poll, in the presence of such electors, if any, as may be in attendance, the returning officer shall—

- (a) take the voting-papers out of the urn and separate those, which he admits as valid from those, if any, which he deems invalid, endorsing on the latter the word "rejected" and the ground of rejection,
- (b) count the valid votes given to each person, and prepare and certify a return setting forth—
 - (i) the number of electors who presented themselves to vote,
 - (ii) the names of the persons for whom valid votes were given,
 - (iii) the number of valid votes given for each person, and
 - (iv) the names of the persons (to the number of the persons to be elected) to whom most such votes were given;
- (c) seal up in separate packets the voting-papers which he has admitted as valid and those which he has rejected as invalid, and endorse on each packet a description of its contents and the date of the election to which it relates and the name of the Sub-District for which the election was held; and
- (d) permit any person for whom votes have been given to take a copy of, or an extract from, the return.

XXIII. The returning officer shall then forward the return and the packets of voting-papers to the Magistrate of the District, who shall record a declaration of the result of the election and cause notice of his election to be given to each person elected.

XXIV. (1) The Magistrate of the District shall retain for a year the return and the packets of voting-papers forwarded to him by the returning officer, and shall then, unless there appear to him any reason for retaining them for a further period, cause them to be destroyed in his presence.

(2) While the return is in the custody of the Magistrate of the District, it shall be open to the inspection of any elector during office hours free of charge.

(3) While the packets are in the custody of the Magistrate of the District, they shall not be opened, and their contents shall not be inspected, except under his written order and on such conditions as he may deem fit to impose.

XXV. Where an equality of votes is found to exist between any persons, and the addition of a vote would entitle any of those persons to be declared to be elected, the returning officer may give such additional vote in writing, but shall not in any other case be entitled to vote at an election for which he is returning officer.

XXVI. If a person be elected for more than one Sub-District, the District Magistrate of Ajmere shall decide of which Local Board he shall be a member; and in the other Sub-District, or each of the other Sub-Districts, as the case may be, the person not returned as elected, to whom the largest number of votes was given, shall be deemed to have been elected.

XXVII. The returning officer, while examining the voting-papers and counting the votes, shall take all proper precautions for preventing any person from seeing the names of the elect-

ors by whom the voting-papers were severally signed or marked.

XXVIII. Each Local Board shall elect from among its own members so many persons to be members of the District Board as the Chief Commissioner has assigned as proper for its representation on that Board.

XXIX. One-third of the members of Local and District Boards shall retire by rotation at the end of every year, the members thus retiring being chosen by lot.

XXX. Casual vacancies occurring within the term of three years shall be filled by persons nominated by the Local or District Board.

XXXI. When the place of an elected member of a Local or District Board becomes vacant by his resignation, removal or death, or by the avoidance of his election or by his refusal to accept office, it shall, unless in any case the Chief Commissioner direct that it be left unfilled, be filled by the Local or District Board at a meeting out of qualified persons within six weeks after the occurrence of the vacancy or within such further period as the District Magistrate may by order allow.

XXXII. The meeting may be either ordinary or special, but if it be proposed to fill the place at an ordinary meeting, the notice to attend the meeting shall state particulars as to the vacancy which has occurred and the intention of filling it at the meeting.

XXXIII. All business in either Local or District Boards shall be conducted in either the Urdu or Hindi language as the District Board may at a special meeting decide.

XXXIV. Every meeting shall be open to the public, unless at any meeting the chairman order otherwise.

XXXV. The chairman of the meeting shall regulate the course of all business to be brought forward and preserve order.

XXXVI. Every motion or amendment shall be presented or taken down in writing.

XXXVII. The chairman may require that any motion or amendment proposed shall be seconded before it is discussed.

XXXVIII. In proposing or discussing any motion or amendment, the member shall speak from his place and address the chairman.

XXXIX. All questions from one member to another relating to the business of the meeting shall be put through the chairman.

XI. All questions shall be determined by a majority of votes. The chairman or in his absence the vice-chairman shall have a casting vote.

XLI. The chairman may by consent of the meeting adjourn any meeting from time to time.

XLII. The District Board shall meet at least four times in a year, and no interval exceeding two months shall be allowed to elapse between two successive meetings.

XLIII. Every Local Board shall meet at least eight times in a year and no interval exceeding two months shall be allowed to elapse between two successive meetings.

XLIV. The time for holding meetings of Local Boards shall be so fixed as to render it generally convenient for such members of the said Boards as are also members of the District Board to attend those meetings as well as the ordinary meetings of the District Board; and the time for holding meetings of the District Board shall, as far as possible, be so fixed as not to preclude

members from attending those meetings as well as the meetings of the Local Boards of which they are members.

XLV. Meetings may be either special or ordinary.

XLVI. Special meetings shall be held—

- (1) for taking into consideration the appointment of chairman of District or Local Board,
- (2) for taking into consideration Budget Estimates of Income and Expenditure,
- (3) for taking into consideration annual report of operations and such other matters as may be reserved for determination at such meeting by the Board.

XLVII. Seven days at least before an ordinary or a special meeting of a Local or District Board, a notice to attend the meeting signed by the secretary, or in his absence by the chairman or a member, and setting forth the place, the day and the hour of the meeting and the business proposed to be transacted thereat, shall be served on every member of the Board.

XLVIII. The chairman may call an extraordinary meeting at any time when adequate necessity for so doing seems to have arisen and shall do so when one-third of the Board require him to call such a meeting.

XLIX. The quorum necessary for the transaction of the business of a Local or District Board shall be one-third of the elected members at an ordinary, and two-thirds at a special meeting.

L. Tazimi Istimrardars may depute one of their subordinate Thakurs, or one of their own family, to attend in their stead at Local or District Boards. Such delegates shall be appointed for a period of at least one year, and their appointment shall be subject to the approval of the Commissioner.

LI. Each Local Board shall elect (subject to the confirmation of the Commissioner) one of its members to be its chairman, provided that, if the majority of the Board so desire, they may apply to the Commissioner for the Tehsildar or Deputy Magistrate to be appointed chairman; on such appointment being sanctioned, the chairman shall become a member of the Board.

LII. The vice-chairman of Local and District Boards shall be elected, under the procedure laid down in Rules XXXI and XXXII, by the members of the respective Boards.

LIII. The District Magistrate of Ajmere shall be *ex-officio* member and chairman of the District Board.

LIV. The chairman of a Local Board shall hold office for two years, or till retirement as a member, but shall be eligible for re-election or re-appointment, provided that no chairman shall be chosen for retirement by lot at the end of the first year after the constitution of Local and District Boards.

LV. The vice-chairman of a Local or District Board shall hold office for one year, but shall be eligible for re-election for re-appointment.

LVI. Every question at a meeting shall be determined by a majority of votes of the members present and voting on that question. In case of an equal division of votes the chairman shall have a second or casting vote.

LVII. Every District and Local Board shall appoint its own secretary subject to the confirmation of the Commissioner.

LVIII. The District Board and, with the previous sanction of the District Board, every Local Board may from time to time appoint

out of its own body, for any period not exceeding one year, such and so many committees either of a special or general nature and consisting of such and so many persons as it thinks fit for the cognizance of matters which in the opinion of the Board would be better regulated and managed by means of such committees.

LIX. The Board shall define the duties of every such committee, and may at any time dissolve any such committee.

LX. The proceedings of every such committee shall be submitted to the Board for its approval.

LXI. Minutes of the proceedings of every meeting shall be drawn up and fairly entered in a book kept for that purpose, and shall be signed by the chairman of the same at the next ensuing meeting.

A chairman of a Local Board shall be responsible that the minutes of that Board's proceedings at any meeting are produced at the next meeting of the District Board.

LXII. The District Board shall determine the language in which minutes of proceedings shall be recorded by itself and by the Local Boards subordinate to it.

LXIII. Copies of minutes of proceedings of District Boards shall be submitted to the Commissioner for transmission to the Chief Commissioner.

LXIV. Contracts entered into by a District Board or by a Local Board as the Agent and subject to the control of the District Board shall be reduced to writing and the provisions of the Stamp and Registration Acts shall be complied with.

LXV. Written contracts shall be signed on behalf of a District or Local Board by the chairman and by two members.

LXVI. Whenever a District Board desires to transfer by sale or otherwise any property belonging to or vested in itself, a report with a map or other general description shall be submitted by the chairman to the Commissioner, and information shall be given on the following points:—

- (a) if the property belongs to the Board, the funds by which it was acquired;
- (b) if the property is vested in the Board, the date and purpose of such investment and the conditions under which it holds good,
- (c) the reason for the proposed transfer; and
- (d) proposals for dealing with the consideration to be received for such transfer.

LXVII. No such transfer shall be made without the sanction of the Chief Commissioner, provided that leases for any period not exceeding one year may be granted with the sanction of the Commissioner.

LXVIII. The District Board shall disburse, under the countersignature of the chairman, or, in his absence, of the vice-chairman and two members—

- (1) the salaries of all fixed establishments,
- (2) contingent charges duly passed by the Board,
- (3) other expenditure (except for public works) sanctioned by the District Board.

LXIX. All cheques, except those drawn on account of establishment charges, shall bear on their face the number and date of the Board's Resolution authorising the disbursement to which they relate.

LXX. All plans and estimates for works which are to be partly or wholly constructed at

the expense of a Board shall be prepared, on the requisition of the District Board, by the Executive Engineer, Provincial Division, and shall be sanctioned in conformity to rules sanctioned in Chief Commissioner's Resolution No. 1526S., dated 7th June, 1884.

LXXI. The District Board shall keep an account of receipts and expenditure in Forms B, D and E, accompanying these rules.

LXXII. The accounts shall be audited quarterly either by a Sub-Committee or by other auditors nominated by the Board subject to the approval of the Commissioner.

LXXIII. The Boards may by resolution fix the remuneration, if any, to be paid to the auditors.

LXXIV. A statement of the accounts as audited and passed shall be submitted to the Commissioner.

LXXV. All proposals or suggestions for works, establishments, etc., shall be submitted by members not later than the 1st September to allow of the preparation of the budget by 15th October at latest.

LXXVI. The estimates of the income and expenditure shall be prepared by the District Board and considered at a meeting to be held on or before the 10th September in each year.

LXXVII. The budget estimates will be drawn up in such form as may be prescribed by the Chief Commissioner and forwarded to the Commissioner for submission to the Chief Commissioner.

LXXVIII. On no account shall the total amount of the budget grant under the several heads be exceeded by the Board, but it will be in the power of the District Board to transfer money under the same major head of account from one sub-head to another.

LXXIX. The Board shall prepare and submit through the Commissioner at the close of the financial year a consolidated report of its proceedings,

- (a) a statement of income and expenditure during the year,
- (b) a statement of all institutions and establishments kept up by the Board showing under each department the various classes and the total number under each class,
- (c) an account of the operations of the year, dealing with the charges of each department separately under the recognised heads, and showing what has been done for the outlay under each head,
- (d) general remarks on the working of the Board, on progress up to date, and any suggestions for new measures or for the improvement of existing arrangements.

LXXX. The Executive Engineer, Provincial Division, shall submit to the District Board a monthly Progress Report of all Public Works under his control.

LXXXI. A general Progress Report for all departments under local control shall be submitted monthly to the Commissioner by the officer who held the position of secretary at the last ordinary meeting, and a record of these reports shall be kept in a separate volume.

LXXXII. Funds raised within the area of a Sub-District shall ordinarily be appropriated to the purposes of that area, but they may be in part appropriated to the general purposes of the District, in accordance with the provisions of the budget as approved by the Commissioner.

LXXXIII. A Municipal or Cantonment Committee may from time to time depute any member or members to attend a District Board for the purpose of making any special representations. Such delegates will not be entitled to vote.

LXXXIV. The rules regarding expenditure by the Public Works Department sanctioned in Chief Commissioner's Resolution No. 1526S., dated 7th June, 1884, shall apply to the District Board and Local Boards.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY

The Indian Law Reports, published under the authority of the Governor General in Council appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co. are distributed by that firm; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of previous advertisements, on and from the 1st January, 1885, the terms of subscription and sale will be as follows:—

Terms of subscription, payable annually in advance.
For the complete Series, including postage

	Without postage.	With postage.

SUPPLEMENT TO
The Gazette of India.

No. 23.]

CALCUTTA, SATURDAY, JUNE 4, 1887.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

PUBLIC WORKS DEPARTMENT.
CIVIL WORKS
Irrigation.

REVENUE REPORT OF IRRIGATION WORKS IN RAJPUTANA FOR THE YEAR 1885-86.

No. 83-I., dated Simla, the 19th May 1887.

RESOLUTION—By the Government of India, Public Works Department

READ—

Letter No. 333 S., dated 18th February 1887, from the Secretary to the Agent to the Governor-General and Chief Commissioner, Rajputana, and its enclosures, the Revenue Report, and the memorandum thereon by the Chief Commissioner

OBSERVATIONS.—The Rajputana Irrigation Works, which consist entirely of large and small tanks, are classed for purposes of account under the head of Minor Works and Navigation for which Capital and Revenue Accounts are kept. Under recent orders from the Government of India, the works in each Sub-Collectorate have been formed into a separate group and are so treated in the Examiner's figured statements and in the Chief Commissioner's memorandum, but not in the Settlement Officer's report.

2. The direct and indirect expenditure on the Irrigation Works in Rajputana up to the close of the year under review amounted to ₹15,46,365. The revenue by actual receipts was ₹1,23,139 and by assessments, including ₹4,005 not brought to book during the year under review, ₹1,25,198; the working expenses amounted to ₹35,644 and the net revenue was therefore by collections ₹87,495, and by assessments ₹89,554, giving percentages of profit on capital outlay of 5·66 and 5·80 respectively.

3. There was a decrease of **₹2,594** in the outlay on maintenance whilst the area irrigated is given as **34,737** acres, an increase of **2,606** acres over that recorded in the previous year.

4. The estimated value of the crops dependent on irrigation was **₹5,71,811**, which is more than five times the water revenue assessed upon them.

5. The rainfall for the year compares unfavourably with that of 1884-85. In 1885-86, **18·41** inches were recorded at selected stations in Ajmere and **19·32** inches in Merwara, the corresponding figures for the previous year being **24·37** and **28·57** inches respectively. This deficiency of rainfall will probably diminish the supply available for the rabi of 1886-87, and a falling off in the area may be anticipated.

6. The improvement that has taken place in the financial results of the Irrigation Works in Rajputana during the last two years is partly due to the increased credits that have been given to water revenue under the new settlement, which came into force in the year 1884-85, but mainly due to improvements in administration, to careful distribution of water, and to economy in maintenance.

ORDER.—Ordered, that a copy of this Resolution be forwarded to the Agent, Governor-General, and Chief Commissioner, Rajputana, for information and guidance.

Also, that a copy of the Resolution and of the Report be forwarded to the Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab, in the Public Works Department, for information.

Also, that a copy of the Resolution and of the Report be forwarded to the Revenue and Agricultural Department and to the Department of Finance and Commerce for information.

Also, that the Resolution and the memorandum by the Agent, Governor-General, together with the statement of general financial results compiled by the Examiner of Public Works Accounts, be published in the Supplement to the *Gazette of India*.

Ordered further, that a copy of this Resolution and of the Report be forwarded to Her Majesty's Secretary of State for India for information.

R. HOME, Colonel, R E ,

Deputy Secretary to the Government of India

Memorandum by SIR EDWARD BRADFORD, K.C.S.I., Chief Commissioner of Ajmere and Merwara, on the Revenue Report on the Irrigation Works of Ajmere and Merwara, for the official year 1885-86,—dated Camp Ajmere, 18th February 1887.

FINANCIAL RESULTS

General Remarks.—The Government of India, in the Public Works Department, having in their letter No. 79A.—I. of 4th November 1885, decided to abolish the distinction hitherto maintained between the "Old" and "New" tanks, and having directed that in future all the tanks in each Sub-Collectorate should be dealt with under one head, this system has been brought into operation with effect from the year under report, and the transactions for the year accordingly exhibit the tanks under the three groups of Ajmere, Beawar, and Todgurh Sub-Collectorates only.

2. *Capital Outlay.*—On the commencement of the year 1885-86, this account stood at **₹15,45,174**, as detailed below :—

	₹
1. Ajmere Sub-Collectorate	8,32,880
2. Beawar "	5,99,798
3. Todgurh "	1,12,496
	<u>15,45,174</u>

The expenditure during the year was ₹1,191, being merely the result of an increase in the suspense balances charged to Makrera tank in the Ajmere Sub-Collectorate. No other Capital expenditure was incurred during the year. This outlay of ₹1,191 raised the total Capital outlay at the end of the year 1885-86 to ₹15,46,365, inclusive of the indirect charges amounting to ₹58,923, as follows :—

	₹
I.—Capitalization of Land Revenue	19,992
II.—Loss by Exchange	167
III.—Leave and Pension Allowances	38,764
	<u>58,923</u>

3. The total Capital outlay of ₹15,46,365 to end of 1885-86 has been distributed in the table given below, on each group of tanks and on each project of tank :—

Names of Groups and Projects of Tanks		CAPITAL OUTLAY, INCLUSIVE OF INDIRECT CHARGES		
		To end of 1884-85.	During 1885-86.	To end of 1885-86
		₹	₹	₹
AJMERE SUB-COLLECTORATE	Old and small new tanks	4,28,140	.	4,28,140
	Bheer tank	2,11,336	.	2,11,336
	Ladpura „	62,134	..	62,134
	Makrera „	91,230	1,191	92,421
	Rajaosi „	40,040	...	40,040
	TOTAL	8,32,880	1,191	8,34,071
BEAWAR SUB-COLLECTORATE	Old and small new tanks	1,73,247	...	1,73,247
	Balad tank	1,03,080	...	1,03,080
	Jalia „	2,97,918	.	2,97,918
	Chitar „	25,553	..	25,553
	TOTAL	5,99,798	.	5,99,798
TODGURH SUB-COLLECTORATE	Old and small new tanks	1,12,496	.	1,12,496
	GRAND TOTAL	15,45,174	1,191	15,46,365

4. The number of tanks assessed with water rates was 366, the same as reported for the previous year, 1884-85.

5. The gross working expenses of the year were ₹35,644 or ₹2,594 less than in the year preceding it—the percentage of less expenditure being 6.78.

6. The total assessment of the year was ₹1,21,193 and the collections (including previous balances and ₹704 realized by the Public Works Department) amounted to ₹1,27,144, *viz.* :—

Ajmere	54,787
Merwara	72,357
	<u>1,27,144</u>

The Examiner of Public Works Accounts, Rajputana, in his General Statement No. 1 shows the total receipts during the year at ₹1,23,139, leaving a difference of ₹4,005 to be accounted for. This difference is explained below :—

1. On account of the difference between dry and wet rates of Merwara, omitted by mistake from the statement submitted by the Commissioner of Ajmere and Merwara to the Examiner of Public Works Accounts, Rajputana	₹ 3,890
2. Amount excluded by the Examiner of Public Works Accounts, Rajputana, from under the head "Indirect" which was credited to "Direct" after close of the financial year	115
	<u>4,005</u>

The omission of the sum of **₹3,890**, on being brought to the notice of the Examiner, formed the subject of a reference from him to the Accountant General, Public Works Department, and it has been decided by the latter officer to carry out the necessary adjustment in the accounts of the Public Works Department during the current year 1886-87.

7. After deducting the working charges, *vis.*, **₹35,644**, from the actual revenue realizations of **₹1,27,144** of the year, the net receipts obtained during the year from the Irrigation Works was **₹91,500**.

These figures no doubt represent better results and give a more favourable comparison than those of the preceding years as given in the table at paragraph 7 of the Chief Commissioner's memo. on the Revenue Report for 1884-85.

8. The remissions amounted to **₹483**. The balance outstanding at the close of the year was **₹281**. The rabi harvest assessment, which did not fall due till June 1886, amounted to **₹37,182**.

9. The total area assessed was **34,737** acres, being **2,606** acres more than in the year previous. The increase is due to a sufficiency of water after the spring crop of 1885 for extensive cotton sowings.

10. The rainfall of the year in the whole district averaged **18.41** inches in Ajmere and **19.30** in Merwara. A break in August rendered irrigation necessary from our tanks, and this also is a cause for the increase in the area assessed.

11. The double cropped area was **4,901** acres, showing a decrease of **4,171** acres as compared with the preceding year.

12. The total estimated value of crops dependent on the Irrigation Works was **₹5,71,811**, and the percentage of water revenue on the value of crops was **21.19**, or under one-fifth of the gross produce.

13. The prescribed comparative statement of the rainfall registered at the principal centres of irrigation in Ajmere and Merwara is appended hereto.

14. In conclusion, the reasons which have led to the exclusion of the different statistical statements prescribed by the Government of India to accompany the Revenue Reports of Irrigation Works, in their Public Works Department letter No. 167 I. of 11th July 1885, may be briefly noticed. In that letter the Government of India, whilst suggesting the adoption of these uniform statements, state that, although these forms "are not obligatory in Rajputana in their entirety, they should be used so far as they are applicable to the Irrigation Works of the Province."

These statements consist of 13 forms in number, and the Commissioner of Ajmere and Merwara was consulted as to the suitability of these statements for Ajmere and Merwara. After some correspondence and a reference to the Settlement Officer, it has been decided to omit these statements from the Revenue Reports on Irrigation Works in Ajmere and Merwara, the reasons which have led to this decision being that (I) most of the forms being intended for canals and for the larger systems of Irrigation Works, and as such, pertaining more to other provinces than to these districts, are not applicable to the latter; (II) that some of the forms, though likely to afford useful information, were that information available in these districts in the form required, could not be made use of in consequence of the different mode of accounting and of the different system prevailing in these districts in collecting the information, which therefore is not of the nature intended to be given in these statements; and that (III) it is considered that the statements, as at present furnished by the Examiner of Public Works Accounts, Rajputana, contain all the information that is required. The Chief Commissioner trusts that in arriving at this decision, he has not in any way materially lessened the value of these Irrigation Revenue Reports.

REVENUE REPORT OF IRRIGATION WORKS IN THE NORTH-WESTERN PROVINCES
FOR 1885-86.

No 891., Simla, May 25, 1887

RESOLUTION—By the Government of India, Public Works Department

READ—

Letter from the Secretary to the Government of the North-Western Provinces and Oudh, No 2661, dated 21st February 1887, and enclosures, being the Revenue Report of Irrigation Works in the North-Western Provinces for 1885-86 and a Resolution by His Honour the Lieutenant-Governor reviewing the Report

OBSERVATIONS.—The Report on the canals in the North-Western Provinces for the year 1885-86 records an increase both in the area irrigated and in net revenue over the previous year, but owing to favourable and well distributed rainfall, the returns are still below the average of the years immediately preceding

2 The principal figures for the year under review are—total capital outlay ₹7,51,49,595, assessed revenue ₹60,33,016, working expenses ₹24,88,393; and net revenue ₹35,44,623, giving a return of 4.72 per cent. on the total capital invested. The area irrigated was 1,709,676 acres, of which 1,007,417 acres were watered for the spring crop. At the close of the year the net revenue had exceeded the interest charges by ₹4,78,345.

3. Details of the above results and a comparison with those of previous years will be found in the review of the year's operations by his Honour the Lieutenant-Governor of the North-Western Provinces, a copy of which is appended to this Resolution.

4 Careful records are now kept of the variation of spring level in the tracts through which the various canals pass, and as might have been expected from the unprecedented rainfall that occurred in July 1885, the diagrams show a considerable rise during the present year. There is no doubt that, with the complete system of drainage that now exists, the springs will, as has been the case in previous years, soon regain their normal level. The record for this year shows, if any doubt still remained on the subject, that the variation in spring level is dependent on the rainfall, and is little, if at all, affected by irrigation in tracts where the natural drainages are not obstructed.

5. Three successive days of heavy rain in the Bulandshahr, Aligarh, and Etah districts completed the destruction of the Nadrai aqueduct which carried the Lower Ganges Canal over the Kali Nadi. The flood in the Nadi was entirely unprecedented, and the aqueduct, which had been severely strained and partly destroyed by the much smaller flood of the previous year, was completely carried away on the 17th July 1885. The irrigation of the Lower Ganges Canal has since the accident been satisfactorily served from the Upper Canal, except in the case of the Bewar Branch, which has been closed

6. The opening of the Betwa Canal on the 24th September 1885 is noticed in paragraph 21 of the Review by the Lieutenant-Governor. The Government of India congratulates His Honour the Lieutenant-Governor on the completion of this important work, and endorses his encomium on the industry, experience and talent brought to bear by the officers who have been connected with the design and construction of the Canal.

7. The skill and ability displayed by Colonel J. G. Forbes and the officers under his control in the management of the important system of irrigation in the North-Western Provinces is fully recognised by the Supreme Government

ORDER.—Ordered, that a copy of this Resolution and of the Report and Resolution by the Local Government be forwarded to the Secretary of State, and to the Finance and Commerce and Revenue and Agricultural Departments of the Government of India, for information.

Also, that a copy of this Resolution be forwarded to the Government of the North-Western Provinces and Oudh, Public Works Department, for information and guidance, and to the Local Governments and Administrations noted in the margin, in the Public Works Department, for information, and to the Foreign Department for communication to the Government of Mysore.

The Governments of Madras, Bombay, Bengal, and the Punjab.
The Chief Commissioners, Central Provinces, Burma, and Assam
The Resident at Hyderabad
The Agents to the Governor General, Central India and Rajputana.

Also, that this Resolution and the Resolution of the Local Government be published in the Supplement to the *Gazette of India*.

R. HOME, COLONEL, R.E.,
Deputy Secretary to the Government of India

Accompaniment to Public Works Department Resolution No 891 of 1887.

NORTH-WESTERN PROVINCES.

Irrigation Revenue Report for the year ending 31st March 1886.

GOVERNMENT, N.-W. P. AND OUDH. PUBLIC WORKS DEPARTMENT. Irrigation Branch.

No. 257½ I., dated Allahabad, the 15th February, 1887.

RESOLUTION—By His Honour the Lieutenant-Governor, North-Western Provinces, and Chief Commissioner of Oudh.

READ—

Irrigation Revenue Report of the North-Western Provinces for the year ending 31st March 1886, by the Chief Engineer, Irrigation Works, North-Western Provinces and Oudh.

CAPITAL OUTLAY.

RESOLUTION.—The total outlay on the capital account of canals in the North-Western Provinces and Oudh for and to the end of 1885-86 is shown below :—

	CANAL.	OUTLAY ON CONSTRUCTION UNDER ALL HEADS	
		During 1885-86.	To end of 1885-86
		<i>R</i>	<i>R</i>
Capital expenditure on Public Works not charged against Revenue 48—Irrigation Works.	Upper Ganges	26,834	2,81,03,924
	Lower Ganges	9,13,674	2,84,30,533
	Agra	25,437	88,91,646
	Eastern Jumna	39,354	31,04,153
	TOTAL OUTLAY ON PUBLIC WORKS NOT CHARGED AGAINST REVENUE	10,05,299	6,85,30,256
	Carried over	10,05,299	6,85,30,256

	CANAL	OUTLAY ON CONSTRUCTION UNDER ALL HEADS	
		During 1885-86	To end of 1885-86
		R	R
	Brought forward	10,05,299	6 85,30,256
Irrigation 43—Minor Works and Navigation.	Dún	431	6,37,413
	Rohilkhand and Bijnor	3,574	17,43,579
	Bundelkhand Irrigation Works	—252	82,664
	Ditto ditto Survey	228	1,73,715
	Sardha Canal Survey	1,377	49,648
	Cawnpore Branch Extension Survey	—460	56,746
	TOTAL OUTLAY ON MINOR WORKS AND NAVIGATION	4,898	27,43,759
Famine relief and insurance 34—Construction of Protective Irrigation Works.	Betwa Canal	5,68,240	38,75,580
	GRAND TOTAL	15,78,437	7,51,49,595

The total capital expenditure of ₹15,78,437 was ₹4,80,063 less than in 1884-85. This decrease was mainly due to the completion of works on the Betwa Canal.

ASSESSMENTS

2. The gross assessments of the year amounted to ₹60,33,016, and the working expenses were ₹24,08,393. The net revenue was therefore ₹35,44,623, or 4.72 per cent. on the total capital. Excluding, however, the Betwa Canal, a "protective" work, the funds for which are debitable to "Imperial," the return is 4.95 per cent. as against 4.45 per cent. in the previous year. The interest charged on the capital amounted to ₹26,75,204, deducting which amount from the net revenue, the assessments exhibit a clear profit of ₹8,69,419, against ₹6,32,064 in the previous year and ₹25,71,285 in 1883-84.

INTEREST CHARGES

3. The total interest charges on productive and protective works to the end of the year amounted to ₹5,34,39,539, and the total net revenue realized to ₹5,39,17,884, leaving a clear surplus of ₹4,78,345. Excluding the Betwa Canal as in former years, the surplus is ₹9,11,421, against ₹4,79,318 at the end of 1884-85. In 1880-81 the *debit* against canals was ₹84,08,747. This deficit has since annually been reduced, and it is satisfactory to note that the surplus is increasing.

REALIZATIONS.

4. The actual income realized from all sources during the year was ₹54,60,668. After paying all expenses (excluding interest charges on the Betwa Canal), the *net* revenue was ₹4,34,414, against ₹22,69,209 in 1884-85.

WORKING EXPENSES

5. The working expenses amounted to ₹24,88,393, or ₹39,715 less than in the previous year. The decrease would have been considerably greater had it not been necessary to write back under this head the first instalment on account of the cost of the Nadrai aqueduct, on the Lower Ganges Canal, which was entirely destroyed by the unprecedented flood which occurred during the year.

The percentage of working expenses to revenue, as shown in the statement below, has decreased on all canals except the Lower Ganges :—

YEAR	UPPER GANGES CANAL.		LOWER GANGES CANAL.		AGRA CANAL.		EASTERN JUMNA CANAL	
	Revenue.	Percentage	Revenue.	Percentage	Revenue.	Percentage.	Revenue.	Percentage
	<i>R</i>		<i>R</i>		<i>R</i>		<i>R</i>	
1881-82	21,92,884	40.23	15,19,556	35.76	5,38,384	45.25	7,77,297	24.39
1882-83	24,42,835	36.03	15,36,089	43.73	5,82,424	39.38	8,16,577	25.89
1883-84	28,40,019	32.48	16,81,426	41.42	8,13,712	31.00	8,21,088	25.61
1884-85	21,04,551	47.11	14,04,856	62.42	4,51,040	62.35	6,02,811	34.33
1885-86	23,05,116	40.12	12,47,323	70.27	6,63,655	42.1	7,04,507	27.84

The cost of making measurements and preparing demand statements fell during the year from *R*2.22 to *R*2.06 per 100 acres.

The cost incurred by the Civil Department in collecting the water-rate was *R*1,19,508, or 3.13 per cent. on the gross collections, as against 3.07 in 1884-85.

MILEAGE OF CANALS AND DRAINAGE CUTS.

6. The total mileage that has to be maintained is detailed below.—

CANAL.	Main canal and branches	Navigation channels	Escapes	Distributaries	Drainage cuts	TOTAL
	Miles	Miles.	Miles.	Miles.	Miles.	Miles.
Upper Ganges	441	19	59	2,573	897	3,989
Lower Ganges	564	...	(a)	1,967	294	2,825
Agra	140	25	10	491	43	709
Eastern Jumna	130	...	31	640	308	1,109
Betwa	150	...	7	131	10	298
Dur	74	3	77
Rohilkhand	20	331	3	354
Bijnor	36	..	36
TOTAL	1,445	44	107	6,243	1,558	9,397

(a) Not reported.

There has been an increase during the year of 150 miles of main canal (Betwa), 153 miles of distributaries, and 10 miles of drainage cuts, or a total length of 313 miles.

IRRIGATED AREA

7. The following table gives the areas of "kharif" and "rabi" crops for 1885-86 and the previous five years—

YEAR	KHARIF.		RABI.	Total acres.	PERCENTAGE.	
	April to September.		October to March.		Kharif	Rabi
	Acres		Acres.			
1880-81		
1881-82		
1882-83		
1883-84		
1884-85		
1885-86		
					</	

During the "kharif" season the rainfall was most favourable and well distributed and was much in excess of the average. The canal-irrigated area in consequence decreased by 71,359 acres, and is less than that obtained in any year since 1880-81. The decrease has chiefly occurred on the Upper Ganges Canal.

In the lower part of the Doab the September rainfall was abundant, and there was very little demand anywhere for rabi irrigation until the middle of November. On the 11th and 12th of December good rain fell generally all over the province, and the demand for canal water afterwards was unusually light. The area irrigated is 163,730 acres in excess of the previous year, but is still below the average area irrigated during the three years preceeding 1884-85.

DOUBLE-CROPPED AREA.

8. The double-cropped area has increased by 14,685 acres, but the percentage as compared with 1884-85 has fallen from 18·37 to 18·24.

PRINCIPAL CROPS.

9. The subjoined statement compares the acreage of the principal crops during the last six years:—

CROP.		1880-81	1881-82.	1882-83.	1883-84.	1884-85.	1885-86
		Acres.	Acres.	Acres.	Acres.	Acres.	Acres.
Kharif	Sugarcane . . .	135,493	165,019	198,322	155,147	153,652	175,944
	Rice . . .	138,224	107,963	104,046	111,512	92,687	100,706
	Indigo . . .	195,001	319,627	316,145	294,429	392,302	297,314
	Cotton . . .	63,574	64,161	52,493	93,545	66,791	60,580
Rabi	Wheat . . .	545,651	727,428	728,385	824,982	512,324	550,891
	Barley . . .	262,139	261,688	266,651	286,073	108,267	118,569
	Gram . . .	34,511	49,851	48,400	61,123	16,954	42,087
	Poppy . . .	17,230	17,140	16,233	16,370	10,762	15,622

Sugarcane and rice show an increase, but the area under indigo has decreased by 93,988 acres. This falling-off is accounted for by the low prices realized for the previous year's crop and by the serious losses sustained by the heavy rainfall and floods of 1884.

There is an increase under all crops in the "rabi area." Wheat forms 54·7 per cent. of the whole, as against 60 per cent. in the previous year and 56 per cent. in 1884-85.

VILLAGES AND OUTLETS

10. During the year 8,274 villages were watered from 35,817 outlets in the distributaries of the Upper and Lower Ganges, the Agra, the Eastern Jumna, and the Betwa Canals.

VALUE OF CROPS.

11. The total value of the crops raised with canal water was Rs 4,97,91,920. The crop values as derived from data supplied by the Agricultural Department and the average incidence of the occupiers' rate for the last three years is compared below:—

YEAR.	Area irrigated.	Value of crop.	Occupiers' rate.	Value of crop per acre.	Occupiers' rate per acre.	Percentage on value of crops
	Acres.	R	R	R	R	R
1883-84 . . .	2,297,674	6,41,44,211	54,05,911	27·91	2·35	8·42
1884-85 . . .	1,617,304	4,49,52,406	40,03,058	27·80	2·47	8·85
1885-86 . . .	1,709,676	4,97,91,920	43,21,185	29·12	2·53	8·68

RAINFALL.

12. The rainfall was exceptionally heavy over nearly the whole of the tract of country commanded by the canals; in fact at many stations the fall recorded was far more than double the average of the preceding 10 years.

The most marked feature of the rainy season was the extraordinary fall which occurred between the 14th and 16th July in the Bulandshahr and Aligarh districts chiefly. At Gangaoli 18·2 inches were registered on the 15th, 14·5 inches on the same date at Gangagarh, and 11·9 on the following day; and equally exceptional falls were measured at other places.

The floods resulting from this unprecedented amount of rain were most disastrous all over the area affected, but more especially along the valley of the Kali Nadi. The Lower Ganges Canal aqueduct at Nadrai, which had been partially wrecked in the floods of the previous year, was entirely carried away, and every road or railway bridge over the stream below Bulandshahr was either totally destroyed or outflanked and seriously injured. The maximum flood volume passing down the river at Nadrai was 140,000 cubic feet per second, or considerably more than the highest flood yet recorded of the Jumna at the Okla weir near Delhi.

RIVER SUPPLIES.

13. The supply, both in the Ganges and Jumna, was more than sufficient to meet all requirements.

During the "rabi" season, owing to the destruction of the Nadrai aqueduct, the Lower Ganges Canal was dependent on the upper canal for its supply, but no difficulty was experienced in meeting the demand.

DUTY OF WATER ON THE PRINCIPAL CANALS.

14. The areas irrigated by and the value of each cubic foot of water entering the canal heads are detailed in the accompanying table:—

CANAL.	AREA IRRIGATED PER CUBIC FOOT OF WATER					VALUE OF EACH CUBIC FOOT OF WATER AT OCCUPIERS' RATE.				
	1881-82.	1882-83.	1883-84.	1884-85.	1885-86.	1881-82.	1882-83.	1883-84.	1884-85.	1885-86.
	Acres	Acres.	Acres	Acres.	Acres	R	R	R	R	R
Upper Ganges	213	232	264	213	216	550	603	644	542	578
Lower Ganges	168	180	187	167	138	371	407	415	375	320
Agra	148	155	262	165	170	415	451	674	418	493
Eastern Jumna	228	243	290	310	208	668	717	780	885	622

Considering the nature of the seasons, the results obtained are on the whole satisfactory.

MAINTENANCE CHARGES PER ACRE.

15. The maintenance charges per acre irrigated are given below:—

CANAL.	RUPEES.				
	1881-82.	1882-83.	1883-84.	1884-85.	1885-86.
Upper Ganges	1·14	1·03	·91	1·45	1·25
Lower Ganges	·86	1·11	1·06	1·64	1·89
Agra	1·60	1·47	1·02	2·20	1·58
Eastern Jumna	·74	·83	·76	1·24	0·91

Except on the Lower Ganges, there is a material decrease on all canals; but, as might be expected in a year of heavy floods and damage, the charges are still above the average.

NAVIGATION OPERATIONS.

16. The result of the year's operations under navigation are shown below:—

CANAL	1885-86.			1884-85.			1883-84.		
	Gross revenue.	Working expenses.	Deficit.	Gross revenue.	Working expenses.	Deficit.	Gross revenue.	Working expenses.	Deficit.
	R	R	R	R	R	R	R	R	R
Upper & Lower Ganges	20,026	31,924	11,898	18,698	30,845	12,147	27,068	29,714	2,646
Agra	5,674	5,321	—353	5,783	6,293	510	6,593	6,870	277
TOTAL	25,700	37,245	11,545	24,481	37,138	12,657	33,661	36,584	2,923

On the Upper and Lower Ganges Canals there is a loss of ₹11,898, against a loss of ₹12,147 in the previous year. No great improvement in the navigation revenue of these canals can be expected until the new Nadrai aqueduct is completed and constant running introduced on the Cawnpore Branch.

The Agra Canal shows a profit of ₹353, against a loss of ₹510 in 1884-85.

MINOR RECEIPTS

17. The actual receipts realized from Minor sources of income are exhibited below:—

	1882-83.	1883-84.	1884-85.	1885-86.
	₹	₹	₹	₹
Plantations	1,55,097	1,47,040	1,49,502	1,60,657
Water power	68,391	72,765	60,668	73,761
Miscellaneous	44,314	54,263	50,917	50,404

SPRING-LEVEL OBSERVATIONS.

18. On the upper part of the Upper Ganges Canal the saturation level, although higher than in the previous year, was not so high as in 1881. On the lower part, near Aligarh, it was exceptionally high in October 1885, but fell very considerably within the next three months.

On the Lower Ganges Canal the unusually heavy rainfalls of 1884 and 1885 produced an average rise of nearly 3 feet above the level of 1883; and from the same cause the spring level on the Agra Canal showed a rise varying from 2½ to 3½ feet.

DRAINAGE WORKS

19. All the drainage cuts were even more severely tried than in the previous year and acted well and efficiently. By the end of September the flood-water had been entirely drained off and a larger area than usual of rabi was sown.

The khādir drainage works on the Lower Ganges Canal resulted in a marked improvement and curtailment of the swamped area.

PROFITS OF PRODUCTIVE WORKS

20. The following statement summarizes and compares the net profits and the percentage on capital of the four productive works:—

YEAR.	UPPER GANGES.		LOWER GANGES.		AGRA		EASTERN JUMNA	
	Net profit.	Percentage on capital	Net profit.	Percentage on capital	Net profit	Percentage on capital	Net profit	Percentage on capital
	₹		₹		₹		₹	
1881-82	17,53,670	6.40	11,83,905	4.75	2,94,749	3.48	8,09,213	28.46
1882-83	20,05,684	7.21	10,72,107	4.14	3,53,028	4.15	8,26,665	28.42
1883-84	23,60,388	8.45	11,92,654	4.45	5,61,425	6.47	8,32,307	27.96
1884-85	15,55,938	5.54	7,35,746	2.67	1,69,814	1.91	6,17,349	20.14
1885-86	18,23,237	6.48	5,78,616	2.04	3,84,202	4.32	7,29,881	23.51

PROTECTIVE WORKS.

21. The Betwa Canal was opened on 24th September 1885, in time for the "rabi" irrigation.

There was at first a brisk demand for water and 12,356 acres were irrigated, but the December rainfall entirely put a stop to any further irrigation.

The capital outlay to the end of the year amounted to ₹38,75,581, and the water-rate on the area irrigated to ₹13,794. The successful construction of this

very important work—which adds greatly to our resources for the prevention of famine and for the advancement of cultivation in districts that have been hitherto much exposed to drought and scarcity—reflects great credit on the officers who accomplished it.

MINOR WORKS.

22. On the Rohilkhand Canals there has been a loss of ₹35,929, as compared with a profit of ₹16,213 in 1884-85. The heavy floods of July and August, 1885, caused the river Kicha to completely outflank the weir at the head of the canal, and the cost of repairs was necessarily very heavy.

On the Bijnor Canals the net profits were ₹15,478, against ₹11,717 in the previous year.

On the Dún Canals there was a net profit of ₹44,056, or a return of 69 per cent. on the capital outlay, as against a profit of ₹15,951 in 1884-85.

On the Bundelkhand Lakes there was a loss of ₹6,578, against a loss of ₹5,260 in 1884-85.

NET PROFITS AND PERCENTAGE ON TOTAL CAPITAL OUTLAY.

23. The net profits and the percentage on the total capital outlay derived in 1885-86 from all the canals in the North-Western Provinces is compared with the results of the previous 10 years in the following statement :—

YEAR.	Capital at end of each year.	Net profits.	Percentage on capital.
	₹	₹	₹
1875-76	3,98,56,800	24,26,186	6 08
1876-77	4,20,12,822	25,76,406	6 13
1877-78	4,34,66,488	31,55,858	7 26
1878-79	4,46,21,616	38,25,437	8 57
1879-80	4,60,35,380	28,06,249	6 09
1880-81	6,45,61,716	35,38,941	5 48
1881-82	6,62,06,214	40,82,750	6 17
1882-83	6,76,33,960	43,01,052	6 36
1883-84	6,90,92,987	50,69,145	7 33
1884-85	7,02,83,698	31,28,769	4 45
1885-86	7,51,49,595	35,44,623	4 72

Notwithstanding a second year of abnormally heavy rainfall and disastrous floods and the increase of the capital account by 48½ lakhs, due to the completion of the Betwa Canal, and commencement of work on the new Nadrai aqueduct, it will be seen that the net result is a clear profit of ₹35,44,623, or 4.72 per cent. on the total outlay of 751½ lakhs invested in the canals of the North-Western Provinces.

24. The Lieutenant-Governor takes this opportunity of again acknowledging the skill and ability with which this very important and profitable system of irrigation, the most extensive in India, continues to be administered by Colonel J. G. Forbes and the officers under him. Sir Alfred Lyall believes that no Department of the public service has better or more capable officers, and he thoroughly recognises the value, to Government, of their unfailing exertions and their experienced management.

ORDER.—Ordered that the above Resolution be submitted to the Government of India and that it be published in the *North-Western Provinces and Oudh Gazette*.

Ordered, also, that it be circulated to other Governments and Departments as usual.

J. G. FORBES, COLONEL, R.E.,
Joint Secretary.

ESTIMATES AND ACCOUNTS.*Simla, the 10th June, 1887.*

No. 3079.

RESOLUTION—By the Government of India, Department of Finance and Commerce.

Read—

The Finance and Revenue Accounts for 1885-86 and the Comptroller and Auditor-General's Appropriation Report on those Accounts.

RESOLUTION.—The following is a statement of the leading figures of the Accounts of the year 1885-86 :

				1884-85 Accounts	1885-86 Budget	1885-86 Revised.	1885-86 Accounts.
				£	£	£	£
INDIA	{ Revenue	70,371,289	72,077,000	73,267,000	74,123,574
	{ Expenditure	53,838,665	54,778,300	57,905,500	58,315,871
	{ Provincial Adjustment of Expenditure	—291,804	—721,200	+113,900	+523,862
ENGLAND	{ Revenue	256,051	197,900	257,100	259,074
	{ Expenditure	14,100,982	13,954,600	14,041,600	14,014,783
EXCHANGH	{ On Revenue	62,138	52,100	81,000	81,549
	{ On Expenditure	3,426,424	3,672,300	4,421,900	4,411,437
TOTAL	{ Revenue	70,690,681	72,327,600	73,508,100	74,464,197
	{ Expenditure	71,074,267	71,691,000	76,488,900	77,265,923
SURPLUS OR DEFICIT				—383,586	+640,600	—2,980,800	—2,801,726

2. The result of the year was, it will be seen, £3,418,300 worse than the Budget, but was nearly the same as anticipated in the Revised Estimates. Of this £3,418,300, the principal parts are—

	£
Revenue in India,	Better than Budget ... 2,046,000
Expenditure in India,	Worse than Budget ... 3,537,600
Provincial Adjustment,	Worse than Budget ... 1,248,100
Exchange on English Expenditure,	Worse than Budget ... 709,700
	<hr/>
Net Worse	3,419,100

The last of these four items may be explained in a few words. The Budget Estimate was framed on the basis of an exchange of 19*d.*, or £1 Rs. 12-6316; the rate actually realized, and at which the English net expenditure was brought to account, was 18-2541*d.*, or £1 Rs. 13-1177.

The explanation of the third item is shortly as follows. A short time after the year opened, the necessity of making large military preparations upon the North-Western Frontier caused the Government of India to issue orders to curtail, as far as possible, all expenditure of an optional character. Under these orders the Provincial Governments largely reduced their expenditure, chiefly that upon Public Works; and between this curtailment of expenditure and the Provincial share of the improvement of Revenues over the Budget, they underspent their revenues by £523,900, instead of overspending them, and drawing on past accumulations, for £721,200. In short, the fuller statement of the two first items in the list would be—

	Revenue		Expenditure
	£		£
Imperial	1,184,900	Better	4,221,600
Provincial	561,100	Better	687,000
	<hr/>		<hr/>
Total	2,046,000	Better	3,537,600
			Worse.

To say that the Provincial adjustment is, in the Accounts, worse than in the estimates means, therefore, that the comparison of Accounts with Estimates, in respect of the Imperial portion of the Revenue and Expenditure, shows a worse result than the comparison of the combined account.

It will be seen that it was mostly under Railway Receipts (£1,184,400) and under Mint (£99,300) that the Imperial Revenue improved, while Land Revenue (£301,400) and other principal heads of Revenue contributed chiefly to the improvements under Provincial Revenue.

The main element in the increase of Imperial expenditure in India was, the Army expenditure £3,085,600 in excess of estimate; Opium expenditure £577,800 in excess; and Political expenditure £478,200 in excess.

To the saving in Provincial expenditure, that on Buildings and Roads, £466,300, mainly contributed.

3. The following are the leading features of the comparison of Estimates and Accounts :

PRINCIPAL HEADS OF REVENUE.

4. *Land Revenue.*—The variations in Land Revenue from year to year are

	£
1884-85 Accounts	21,532,200
1885-86 { Budget	22,331,200
{ Revised	22,395,100
{ Accounts	22,512,100

to a large extent mere questions of the distribution of the collections between the months of March and April. Out of a total revenue of about 23 crores, 1½ come in in March and over 1½ in April, and the amounts that will actually come under realization within the official year are thus to some extent uncertain, even in the last month of the year. The revenue of the last four official years (including the portion of Land Revenue included under Irrigation) has been £22,315,100, £22,896,000, £22,298,000, and £23,155,000; but that of the four years ending 30th September, a date which divides the revenue by seasons much more accurately than the date, March 31st, has been—

	£
30th September 1883	22,333,700
" 1884	22,617,900
" 1885	22,685,000
" 1886	23,021,000

the regular sequence being disturbed only by the heavy "seasonal remissions" which were necessary in Madras in the year 1884-85. But of the increase of 1886, as compared with 1885, it will be seen from paragraph below that about £73,000 is only a nominal addition.

The year 1885-86 was, therefore, a good Land Revenue year, but the realizations were in excess of an ordinary year's standard, as they included considerable arrears from the previous year.

5. *Opium.*—The Bengal Opium Revenue followed very exactly the anticipations of the Budget Estimate providing £6,296,000 of revenue against budget estimate £6,306,500; the number of chests sold being £50,991 and the average price Rs. 1,235. The revenue of the previous year was only £6,052,000, the number of chests available for sale being only 46,698. The Bombay opium revenue was £2,449,000 from 37,677 chests, a slight falling off as compared with the two previous years, when the number of chests brought forward was 38,586 and 39,039 respectively. The revenue from excise opium was not quite up to estimate, namely, £188,100, against an estimate of £194,700.

In regard to the production of opium the season was very favourable, being the second of a series of favourable years, following a series of unfavourable ones. The last unfavourable year was 1883-84, when the outturn was only 38,214 provision chests, and the stock on April 1st, 1884, went down as low as 36,495, necessitating a curtailment of sales. With the two favourable seasons, 1884-85 and 1885-86, in which the outturn was 65,993 and 61,930 chests, the stock on April 1st, 1886, was increased to 69,726, and meantime the Government was able to enhance the number of chests offered for sale.

6. *Salt.*—The Salt Revenue of 1884-85 was unusually high, £6,507,200 against £6,115,100 of the previous year; but this was due to a large extent to the very high revenue of February and March 1885, which exceeded that of the same months of the preceding year by £160,000. This was only partially known at the time of the Budget Estimates, when the revenue was forecasted as follows:

	£	£
1884-85 Revised	...	6,350,000
1885-86 Budget	...	6,400,000
		<u>12,750,000</u>

The high revenue at the end of the former year had necessarily an effect in diminishing that of 1885-86, and the figures actually realized were—

	£	£
1884-85	...	6,507,200
1885-86	...	6,345,100
		<u>12,852,300</u>

The principal feature of the year was the transfer of a large amount of revenue, during the latter months of the year, from Northern India to Bombay. The manufacture at Sambhar largely failed, and it became necessary to preserve the stocks by raising the price to a figure which brought the Bara-gara salt of Bombay into the area usually supplied from Sambhar. The revenue of Northern India, in the last half of the year, was only £462,800 against £935,000 in 1884-85; but that of Bombay was £1,051,400 against £779,900.

7. *Stamps.*—The Stamp revenue continued to show an increase, the figures of the last four years being £3,379,700, £3,513,200, £3,606,600, £3,663,200; except Burma and the Punjab, all the Provinces showed the same features of steady progress.

8. *Excise.*—In Excise revenue the recent improvements in excise administration in the Provinces of Madras and Bombay continued to show their effect in the great advance of revenue. The Government of Bengal had also been examining its system; but the first result of the changes it introduced was, as expected, a

	£
1884-85 Accounts	4,011,900
1885-86 { Budget	4,070,000
Revised	4,119,600
Accounts	4,152,100

falling off in the revenue. The other Provinces showed a pretty steady revenue, with a tendency for the most part to increase. The figures of the past four years have been as follow :

			1882-83.	1883-84.	1884-85.	1885-86	
			£	£	£	Budget.	Accounts
						£	£
Madras and Bombay	1,846,800	1,488,500	1,594,600	1,687,500	1,783,500
Bengal	978,900	1,012,500	1,005,200	1,020,000	958,500
Other Provinces	1,283,800	1,356,000	1,112,100	1,112,500	1,410,200
Total	3,609,500	3,837,000	4,011,900	4,070,000	4,152,200

9. *Provincial Rates.*—The variations in the revenue from Provincial Rates necessarily follow those in the Land Revenue. The figures of the last four years may be thus arranged :

			£	Year ending	Year ending
				31st March.	30th September.
1884-8	Accounts	...	2,791,500	£	£
	Budget	...	2,856,800	2,683,000	2,737,400
1885-86	Revised	...	2,882,700	2,878,700	2,781,500
	Accounts	...	2,960,300	2,791,500	2,925,800
1883	2,960,300	2,958,300
1884
1885
1886

10. *Customs : Import duties.*—The Customs duties on imports since the abolition of the Cotton duties in 1882 have varied only slightly, the four years' figures after deduction of refunds being £105,600, £130,500, £411,400, and £121,000.

Export duties.—The export duties vary more largely, but mainly by reason of the fact that the active season is from February to May, and the export duties therefore come mostly into one year, or into another, according as the season is an early or a late one. Distributing the export duties by the financial year, the figures after deduction of refunds are £818,100, £706,700, £576,600, and £730,300 ; but taking the years ending September 30th, so as to bring within each period the whole of a rice season, the duties amount to—

			£	Year ending
				30th September.
1883	778,000
1884	631,300
1885	669,300
1886	695,800

11. *Assessed Taxes.*—Under Assessed Taxes the estimates were mainly based on the collections of 1884-85. The deficiency in the realizations was almost entirely in the Punjab.

12. *Forests.*—Of the Forest revenue, a considerable part is dependent upon fluctuations of trade and upon variations in the demand for Railways. The tendency is therefore to make safe estimates of revenue ; but at the same time to provide liberally in the estimates of expenditure, so that want of budget provision may not prevent any outlay necessary to take advantage of a new demand for Forest produce. It is rarely therefore that, on the net account, a considerable improvement over estimates is shown in the outturn of the year.

Up to 1883-84 the Forest revenue on the whole steadily advanced, and in that year it reached £1,052,200. The year 1884-85 showed a marked falling off, the total for the year amounting to £987,000. This was mainly owing to the diminution in the demand for teak from Burma, where the revenue fell from £250,400 in 1882-83 and £250,900 in 1883-84 to £167,100 in 1884-85. The year 1885-86 has shown a partial recovery in Burma (£202,400) ; and this,

together with the continued progress in the Bombay revenues, brought the total for the year to £1,086,100, being the highest gross revenue yet attained.

13. *Registration*.—The Registration revenue showed fair progress in nearly every Province, the realizations of the last four years having been £244,500 (a), £259,000, £286,900, and £308,000. Madras has by far the largest share in this increase, as of the whole difference, £63,500, between the first and the last of these figures, Madras claims no less than £31,800. That Province has of recent years, more than any other, extended the facilities given to the public for registration.

It will be seen that the excess of actuals over the Budget figure is practically the increase secured over last year's figures

1884-85	Accounts	..	£ 286,810
	{ Budget	..	281,400
1885-86	{ Revised	..	304,300
	{ Accounts	..	308,000

14. *Tributes*.—No remarks are called for.

1884-85	Accounts	..	£ 699,000
	{ Budget	..	691,300
1885-86	{ Revised	..	693,600
	{ Accounts	..	689,600

	{ Budget	..	221,100
1885-86	{ Revised	..	231,700
	{ Accounts	..	206,200

15. *Refunds*.—There were no large unusual items within the year, and the estimates, therefore, more than covered the ordinary charges.

16. *Assignments and Compensation*. The differences in the figures arise almost entirely in Bombay, as, apart from the Bombay figures, the charges are for the most part fixed. The main part of the charges in Bombay arose out of the system peculiar to that Presidency, whereby the alienated Land Revenue is brought in on the one side as actually realized and on the other side is charged off on account of assignments or of services. A recent revision of the Land Revenue in Sind enhanced the reckoning of this revenue from about £733,000 to about £911,000, and a large portion of this increase is added, in the actuals of 1885-86, to both the actuals of 1884-85 and the Budget Estimate of 1885-86.

17. *Land Revenue*.—The Budget Estimate provided £15,000 for revision of subordinate Revenue establishments in Madras, which financial pressure compelled the Government to put off, and, on the other hand, the actuals contained £90,000 of Patwari charges in the Punjab which in the estimates were taken under another head. With these two alterations, we should find the actuals £15,000 in excess of the estimates, but as a fact they were £30,000 less. The difference, so far as it is larger than the ordinary saving on estimates secured on a head of very considerable expenditure, may be ascribed to special efforts in the direction of economy. The revised estimates very closely corresponded with the actuals, except for a sum of £30,000 (Village Service expenditure in the Central Provinces) which was in them erroneously passed to another head.

1884-85	Accounts	..	£ 3,363,100
	{ Budget	..	3,411,400
1885-86	{ Revised	..	3,385,600
	{ Accounts	..	3,414,300

18. *Opium*.—The expenditure largely exceeded the estimate, owing to the very favourable crop which had to be paid for (see remarks on the Revenue side).

1884-85	Accounts	..	£ 2,908,800
	{ Budget	..	2,479,400
1885-86	{ Revised	..	3,110,200
	{ Accounts	..	3,057,700

19. *Salt*.—There were large savings in Northern India owing to the necessity of curtailing the operations at the Sambhar Lake (see remarks on the Revenue side). The additional expenditure on the Bombay side, which was caused by the failure of the Sambhar supplies, mostly passed into the beginning of 1886-87.

About £35,000 of the expenditure entered in the Revised Estimate represents the expenditure of the Excise Department of Madras, which was amalgamated

with the Salt Department during the year. In the actuals it was found possible to state the expenditure separately.

20. *Stamps, Customs, Assessed Taxes, Registration.*—No remarks are

		£	
1884-85	Accounts	469,700	necessary under these heads, except that
	Budget	469,000	there was an excess over estimate in the
1885-86	Revised	470,800	English expenditure on stores in the
	Accounts	470,500	first case, and that the large increase of

Revenue in Madras in the last case involved an excess of expenditure for commission.

21. *Excise.*—The variation is for the most part under Madras, where the

		£	
1884-85	Accounts	10,700	improved administration increased the
	Budget	13,000	expenditure from £23,200 in 1884-85 to
1885-86	Revised	89,100	£35,300 in 1885-86. This increase was
	Accounts	121,100	amply reimbursed in increased Revenue.

elsewhere in the revised estimates.

	Budget	...	1,322,100
1885-86	Revised	...	1,298,200
	Accounts	...	1,302,600

29. *Post Office*.—The increase is due to the progressive development of operations of the Department.

30. *Telegraph*.—There was a large saving both on Capital and on Revenue Accounts, owing to restrictions placed upon expenditure generally; part of the reduction was temporary only and will have to be made up for in future. The saving was much larger than appears from comparison of Budget and actuals, for the latter include £71,800 on account of a new Persian Gulf cable, which was not provided for in the Budget.

1884-85	Accounts	...	£ 788,400
	Budget	...	901,100
1885-86	Revised	...	811,200
	Accounts	...	872,800

31. *Mint*.—The expenditure necessarily rose in consequence of the unexpectedly larger coinage of silver.

1884-85	Accounts	...	£ 86,300
	Budget	...	90,500
1885-86	Revised	...	127,700
	Accounts	...	117,600

CIVIL DEPARTMENTS.

32. *Receipts*.—The excess over 1884-85 is mainly under the head of Law and Justice, the receipts of which were exceptionally low in that year: the general falling off had in fact been the subject of comment in the reports of the years 1883-84 and 1884-85. They were still at a comparatively low figure, mainly owing to curtailment of Jail manufactures.

The Budget was placed too high under the item of Receipts by Jail Manufactures, and the Revised Estimate was placed too high under Marine. But, apart from these two features, the estimates were generally a little more than realized.

EXPENDITURE.

33. *Administration*.—India:

1884-85	Accounts	...	£ 1,374,900
	Budget	...	1,355,700
1885-86	Revised	...	1,346,000
	Accounts	...	1,387,700

England.

1884-85	Accounts	...	£ 234,900
	Budget	...	237,100
1885-86	Revised	...	264,000
	Accounts	...	262,800

Exchange.

1884-85	Accounts	...	£ 57,100
	Budget	...	62,400
1885-86	Revised	...	83,200
	Accounts	...	82,600

There was a considerable excess over estimate in the India Secretariats and under Tour charges, the principal part being in telegraph charges and in charges connected with the Rawal Pindi Darbar. The remainder of the excess arose out of special arrangements in the Punjab and in Madras.

The expenditure under this head shows continuous increase, having been £1,359,000 in 1883-84, £1,374,900 in 1884-85, and £1,387,700 in 1885-86.

Of the excess over estimate in England, £11,600 was in telegraph charges and £11,000 in a heavy demand for Currency Note forms.

34. *Law and Justice*.—The increase over last year's expenditure was mostly in the charge for High Courts and other Civil Courts, and was provided for in the estimates. The large saving on the Budget Estimates was due to excessive estimates being made for Jail charges. They were placed at £77,200 over the charges of 1884-85, though the expenditure ultimately turned out to be £14,500 less than that year.

1884-85	Accounts	...	£ 3,806,000
	Budget	...	3,410,100
1885-86	Revised	...	3,345,100
	Accounts	...	3,352,300

35. *Police*.—The variation in the figures is comparatively small.

36. *Marine*.—The Budget provided for some increases of expenditure over 1881-85; but there were savings in most of the heads, and in the end the expenditure was slightly less than in the previous year.

1881-85	Accounts	£	1219 0
1885-86	{ Budget	5 10 0	
	{ Revised	5-7 10 0	
	{ Accounts	5-4,7 0	

37. *Education*.—The remarks under the last head may be repeated here; the orders which issued at the beginning of the year for all possible curtailment of charges prevented the realization of the increases intended at the time of the estimates.

1881-85	Accounts	£	1, 2 0 0
1885-86	{ Budget	1 2 0 0	
	{ Revised	1 1 10 0	
	{ Accounts	1, 1, 10 0	

the estimates.

1881-85	Accounts	£	16, 100
1885-86	{ Budget	170 100	
	{ Revised	16 10 0	
	{ Accounts	16 10 0	
1881-85	Accounts	£	713,700
1885-86	{ Budget	7,000 000	
	{ Revised	7 10 000	
	{ Accounts	717 000	

38. *Ecclesiastical*.—Under these two heads the general explanations are the same as under Marine and Education.

Medical.—

39. *Political*.—Excluding "Political Subsidies" and "Afghan Delimitation Commission," the figures in the margin would stand thus: £182,600, £167,900, £511,000, and £570,200, the differences being composed of numerous small and miscellaneous items.

Under Subsidies there is a large increase, which includes a special grant of 20 Lakhs to the Amir of Afghanistan; while the estimate of the expenditure of the Boundary Commission, being framed at the commencement of its operations, proved entirely inadequate to meet the charges it involved.

40. *Scientific and Minor Departments*.—The figures cover a large number of separate departments, and call for no special remark. The expenditure in almost every case was kept within the Budget provision.

1881-85	Accounts	£	457 600
1885-86	{ Budget	50 2 70 0	
	{ Revised	49 1 00 0	
	{ Accounts	47 800	

MISCELLANEOUS HEADS OF RECEIPT.

41. *Semi-annual on Receipts*.—India: The excess in the figures is compared with last year, mostly in respect of the credit on the Revenue of the Bengal Civil Fund, which was transferred to the Government.

1881-85	Accounts	£	1 0 00
1885-86	{ Budget	7 1 10 0	
	{ Revised	2 1 0 0	

1881-85	Accounts	£	18 00
1885-86	{ Budget	0 1 0	
	{ Revised	1 1 0	
	{ Accounts	12 00	

1881-85	Accounts	£	1 0 0
1885-86	{ Budget	1 0 0	
	{ Revised	1 0 0	
	{ Accounts	1 0 0	

1881-85	Accounts	£	17 10
1885-86	{ Budget	11 10	
	{ Revised	10 10	
	{ Accounts	10 10	

The English figures include £25,900, the assets of the India Office Provident Fund transferred to Government—a transfer which was not provided for in the estimates.

42. *Stationery and Printing*.—No remark.

43. *Exchange*.—The figure brought to account under this head is composed of the balances of a number of large transactions. The gain mostly arises from the remittance transactions of Guaranteed and other Railway Companies, which are carried through by the Government at contract rates. The difference between estimates and actuals arose mainly from the fact that many of the operations out of which the transactions arose were settled after the date of the estimates.

1881-85	Accounts	£	124 00
1885-86	{ Budget	185 00	
	{ Revised	20 10 0	
	{ Accounts	20 10 0	

44. *Miscellaneous*.—The Accounts, as usual, contain some extraordinary items which were not foreseen, and were therefore not included in the Budget estimates.

1881-85	Accounts	£	314 00
1885-86	{ Budget	271 50 0	
	{ Revised	306 10 0	
	{ Accounts	311,200	

EXPENDITURE

1881-85	Accounts	...	£71,500
1885-86	{ Budget	..	681,800
	{ Revised		677,000
	{ Accounts		652,700

45 *Territorial and Political Pensions*—The saving occurred mainly by casualties among the Pensioners.

46. *Superannuation, &c., Allowances*—India: The figures under this

India	Total	Estimated	Actual
1881-85	Accounts	782,000	1,810,611
	{ Budget	763,300	917,000
	{ Revised	780,900	119,011
	{ Accounts	917,000	2,100,666

head have been greatly affected by the arrangements relating to the transfer of the Bengal and Madras Civil Funds. Excluding the item of "Donations to Service Funds," the figures would stand £314,100, £668,700, £667,600, £638,100. Thus there is the usual increase of expenditure, but it was very accurately provided in the estimates.

England	Total	Estimated	Actual
1881-85	Accounts	1,118,700	311,500
	{ Budget	1,119,000	407,600
	{ Revised	1,711,000	177,100
	{ Accounts	1,700,000	171,100

The English figures (excluding Exchange) were mainly affected by the transactions connected with the Civil Funds.

17. *Stationery and Printing*.—The expenditure in India considerably

India	Total	Estimated	Actual
1881-85	Accounts	38,400	12,000
	{ Budget	71,000	1,000
	{ Revised	41,300	78,000
	{ Accounts	112,700	71,000

exceeded estimate, while that in England fell short by even more than the Indian excess. The differences in both cases were mainly under the head of Purchase of Stores, as purchases in India are largely taking the place of purchase from England.

1881-85	Accounts	£12,000
1885-86	{ Budget	20,000
	{ Revised	32,700
	{ Accounts	30,000

18 *Miscellaneous*.—No remark seems to be called for.

RAILWAYS.

NET EARNINGS.

49. (The figures in the margin take account of the payment to the

1882-83	£7,102,000
1883-84	8,000,000
1884-85	7,841,000
1885-86	{ Budget 8,021,000
	{ Revised 8,100,000
	{ Accounts 8,781,900

Last Indian Railway Company of one-fifth share of surplus profits.) The figures show a recovery from the depression caused by the falling off in the wheat trade in 1884-85. The year was a much more favourable one than anticipated at

the time of the estimates. The improvement was very general, but part of it, on the North-Western Railway, was due to expenditure upon Military preparations on the Frontier.

INTEREST AND ANNUITIES

	Indian and English	Expenditure
1882-83	£6,500,000	11,118,000
1883-84	6,090,000	11,100,000
1884-85	6,151,000	11,100,000
1885-86	{ Budget 7,100,000	1,244,000
	{ Revised 7,111,000	1,377,000
	{ Accounts 7,285,000	1,319,000

50 The figures in the margin show the charges for the same series of years as above. The increase from 1882-83 seems to be more than covered by the increase in the earnings during the same period.

IRRIGATION.

MAJOR WORKS

51 *Net Earnings, excluding Land Revenue*.—The year 1884-85 was one

1882-83	£427,100
1883-84	121,800
1884-85	503,300
1885-86	{ Budget 281,600
	{ Revised 254,100
	{ Accounts 271,600

of exceptionally high revenues, the repetition of which could not be expected. The estimates were framed for a considerable falling off even from the former standard owing to the failure of the Nadrai aqueduct, which largely diminished the water-

supply to the Ganges and Lower Ganges Canals.

It will be seen that the estimates were not realized, the receipts being less than in any of the preceding five years; the further falling off was mainly in the Western Jumna Canal, and is attributable to an abundant rain-supply diminishing the demand for water.

1881-85	Accounts	£	972,000
	Budget		921,900
1885-86	Revised		966,000
	Accounts		961,900

52. *Interest*—The increase is due to the inclusion of Protective Works among those on account of which interest is charged to Irrigation.

It will be seen that the interest charge (96½ lakhs) is about the same as the net revenue, as the latter may be stated as follows:

Actual Revenue of 1885-86	Rs.	27 lakhs
Temporary diminution of Revenue on account of Nadia aqueduct, say	14 „	
Land Revenue due to Irrigation	55 „	
Total	96 „	

MINOR WORKS

1881-85	Accounts	£	13,100
	Budget		15,100
1885-86	Revised		11,700
	Accounts		10,000
1881-85	Accounts		71,700
	Budget		70,600
1885-86	Revised		70,700
	Accounts		71,000

53. *Receipts*—The excess over the estimate of receipts was mainly due to the transfer to this head of a recovery in Bengal.

54. *Expenditure*—The estimates were insufficient to provide for urgent works in Sind and in repairing the Red Hills Tank in Madras.

BUILDINGS AND ROADS.

		Million	£	1000
		1	1	1
1881-85	Accounts	0 0	717 00	(1 11)
	Budget	1 8 0	0 1 0	7 0
1885-86	Revised	0 00	0 0 0	1 0
	Accounts	0 00	711 10	(1 00)
1881-85	Accounts		1 9 00	
	Budget		1,091 100	
1885-86	Revised		91 700	
	Accounts		(8 00)	

55. *Receipts*—The receipts were increased by exceptional revenues at the end of the year.

56. *Expenditure: Military Works*—The annual grant of one crore was slightly undispent.

57. *Expenditure: Civil Works*—The difference between the Budget Estimate and the Revised Estimate may be ascribed generally to the restrictions which the financial pressure in the earlier part of the year necessitated.

1881-85	Accounts	£	10,900
	Budget		11,000
1885-86	Revised		9,200
	Accounts		10,100

The Accounts, however, showed still smaller expenditure than the Revised. This was a most entirely in the "Local" part of the expenditure, and was due to a cause which recurs almost every year—namely, that Local Boards usually much over-estimate the expenditure they are likely to incur.

ARMY

1881-85	Accounts	£	515,200
	Budget		563,800
1885-86	Revised		501,000
	Accounts		503,900

58. The *Receipts* exceeded the estimate mainly under the head of Miscellaneous Services, and are merely set off against the large increase by expenditure presently to

be explained.

59. *Expenditure.—India*—The excess expenditure over estimate is nearly three crores, and arose entirely from the Military preparations made in the beginning of the year upon the North-Western Frontier, and from the expedition to

Burmah in the end of it. About £200,000 may be reckoned as a permanent increase of expenditure, owing to the augmentation of the Army. The rest was of a non-recurring character, so far as regards the ordinary charges of the Army.

Expenditure.—England: £174,100 (sterling) in excess of estimate was spent in the purchase of stores necessitated by the Military preparations in India. On the other hand, there was a saving of £375,200 under Retired Pay, &c., chiefly arising from the introduction of a new

method of adjustment with the War Office of the Indian share of such charges.

England		Sterling	Excess
		£	£
1881-85	Accounts	3,974,400	965,500
	Budget	3,572,900	910,200
1885-86	Revised	3,688,800	1,162,100
	Accounts	3,689,400	1,161,300

CAPITAL EXPENDITURE.

The 10th June, 1887.

No. 193—The following is published for general information.

No 556 R C, dated 8th June, 1887.

RESOLUTION—By the Government of India, Public Works Department.

Sind-Sagar State Railway—Chak Nizam Bridge over the River Jhelum.

RESOLUTION.—His Excellency the Governor-General in Council having formally authorized the opening for public traffic on the 15th May, 1887, of the

5' 6" gauge railway bridge across the river Jhelum at Chāk Nizam on the Sind-Sagar State Railway, desires to record his entire satisfaction at the skilful and expeditious manner in which this important engineering work has been brought to a successful completion.

2. This bridge over one of the great rivers of the Punjab establishes continuous communication by the aid of the Sind-Sagar State Railway, and steam ferries about to be provided across the Indus, between the northern part of the Province and the trans-Indus military stations of Dera Ismail and Dera Ghazi Khan and Mooltan. It has been completed within but little more than two years of the date of commencement of operations, in the face of many difficulties which have had to be encountered during its construction.

3. The following is a brief description of the bridge. The length over all is 2,745 feet, comprising seventeen spans of 150 feet girders, made up partly of steel and partly of iron. The railway runs between the main girders. The height of rail level over the low water level of the river is 25 feet.

Each pier and abutment has for its foundation a single well, 25 feet in diameter, sunk to a depth of 82 feet below the bed of the river.

4. Brick manufacture was begun in January 1885, and the building and sinking of the wells commenced in September of the same year, the piers being completed by March 1887.

The erection of the girders, taken in hand in October 1886, was rapidly carried on, so that the bridge was ready for opening by the middle of May 1887. The inauguration ceremony was held by His Honor the Lieutenant-Governor of the Punjab on the 16th May, 1887, the bridge being then named "The Victoria."

His Excellency in Council desires to record his special thanks to Messrs. F. L. O'Callaghan, F. R. Upcott, and J. Ramsay, who have successively held the post of Engineer-in-Chief of the Sind-Sagar State Railway, for the ability and energy displayed by them in connection with the erection of the bridge. His Excellency also desires to cordially acknowledge the services of the other officers who have from time to time been engaged on the work, *viz.*, Messrs. T. R. Wynne, Executive Engineer, 3rd Grade; J. Tait, Executive Engineer, 3rd Grade; J. E. N. Boydell, Executive Engineer, 3rd Grade; W. H. Cole, Executive Engineer, 4th Grade, sub. *pro tem.*; W. Nathan, Assistant Engineer, 2nd Grade, as well as the subordinate staff.

No. 194—The services of Mr. J. W. Wilson, Class IV of the Superior Revenue Establishment of State Railways, Stores Department, are placed at the disposal of the Indian Midland Railway Company, with effect from the forenoon of the 10th May, 1887.

No. 195—Mr. J. W. Buyers, Superintending Engineer, 3rd Class, is temporarily transferred to the Superior Revenue Establishment of State Railways in Class I, Grade 2, sub. *pro tem.*, as Manager, Burma State Railway.

Mr. H. Rigg, Superintending Engineer, 3rd Class, *temporary rank*, is temporarily transferred to the Superior Revenue Establishment of State Railways in Class I, Grade 3, sub. *pro tem.*, as Deputy Manager, Burma State Railway.

R. C. B. PEMBERTON, *Colonel, R.F.*,
Secretary to the Government of India.

PART V.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA. LEGISLATIVE DEPARTMENT.

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 6th June, 1887

NO 6 OF 1887

A Bill for the Protection of Game.

WHEREAS municipal authorities in different parts of British India have from time to time made rules for the protection of game;

And whereas it is expedient that Local Governments and cantonment-authorities as well as municipal authorities should be empowered to make such rules;

It is hereby enacted as follows:—

1. (1) This Act may be called the Game Protection Act, 1887.

Title, extent and commencement

(2) It extends to the whole of British India, and

(3) It shall come into force at once.

Definitions

2. In this Act—

(1) "municipal authority" means the commissioners, committee, board, council or person having authority over a municipality under any enactment for the time being in force:

(2) "cantonment-authority" means a cantonment-committee or, in the case of a cantonment for which such a committee has not been consti-

tuted, the commanding officer of the cantonment and

(3) "authority" means Local Government, municipal authority or cantonment-authority, as the case may be.

3. (1) The Local Government with respect to any municipality or cantonment within the territories under its administration, or the municipal authority or cantonment-authority of any municipality or cantonment, with the previous sanction of the Local Government, may from time to time make rules—

- (a) defining the word "game" for the purposes of this Act in its application to the municipality or cantonment;
- (b) defining for those purposes the breeding season of any kind of game, and
- (c) prohibiting, absolutely or subject to conditions, the possession or sale within the municipality or cantonment of any kind of game during its breeding season, or the importation into the municipality or cantonment of the fur or plumage of any kind of game during such season.

(2) The authority making a rule under clause (c) of sub-section (1) may direct that a breach of it shall be punishable with fine which may extend to five rupees for every head of game in respect of which the breach of the rule has been committed. [1 & 2 Wm. IV, c. 82, s. 4]

(3) A Magistrate shall not take cognizance of a breach of any such rule except on the complaint of the authority which made the rule, or of some person authorised by that authority in this behalf.

STATEMENT OF OBJECTS AND REASONS.

For many years past the committees of certain municipalities in Northern India have, for the purpose of preserving game from destruction, prescribed close seasons during which the possession or sale of game within municipal limits is prohibited.

2 This measure has to some extent attained its object, but its legality is open to question.

3. In these circumstances it is proposed to place beyond doubt the power of municipal committees to take such action and to confer similar powers on cantonment-authorities with respect to cantonments, and on Local Governments with respect to any municipality or cantonment within the territories respectively administered by them.

The 8th June, 1887.

• J. B. PEILE.

S. HARVEY JAMES,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 8th June, 1887:

NO. 7 OF 1887.

THE ALLAHABAD UNIVERSITY

THE SCHEDULE.

PART I.—OFFICES TO BE DEEMED TO HAVE BEEN SPECIFIED UNDER SECTION 5, SUB-SECTION (1), CLAUSE (a).

PART II.—PERSONS TO BE DEEMED TO HAVE BEEN APPOINTED, OR TO HAVE BEEN ELECTED AND APPROVED, AS FELLOWS UNDER SECTION 5, SUB-SECTION (1), CLAUSE (b) OR CLAUSE (c).

A Bill to establish a University at Allahabad.

WHEREAS it has been determined to establish a University at Allahabad; It is hereby enacted as follows:—

Title and commencement. I. (1) This Act may be called the Allahabad University Act, 1887; and

(2) It shall come into force at once.

Establishment and incorporation of University. 2. (1) A University shall be established at Allahabad, and the Governor-General for the time being shall be the Patron of the University.

(2) The University shall consist of a Chancellor, a Vice-Chancellor and such number of Fellows as may be determined in manner hereinafter provided.

(3) The University shall be a body corporate by the name of the University of Allahabad, having perpetual succession and a common seal, with power to acquire and hold property, moveable or immoveable, to transfer the same, to contract, and to do all other things necessary for or incidental to the purposes of its constitution.

(4) The University shall come into existence on such day as the Local Government may, by notification in the official Gazette, appoint in this behalf.

3. The Lieutenant-Governor of the North-Western Provinces for the time being shall be the Chancellor of the University, and the first Chancellor shall be the Honourable Sir Alfred Comyns Lyall, Knight Commander of the Most Honourable Order of the Bath, Knight Commander of the Most Eminent Order of the Indian Empire.

4. (1) The Vice-Chancellor shall be such one of the Fellows as the Chancellor may from time to time appoint in this behalf.

(2) Except as provided in sub-sections (3) and (4), he shall hold office for two years from the date of his appointment, and on the expiration of his term of office may be re-appointed.

(3) If a Vice-Chancellor leaves India with or without the intention of returning thereto, he shall thereupon cease to be Vice-Chancellor unless the Chancellor otherwise directs.

(4) shall be deemed to have been appointed the first Vice-Chancellor, and his term of office shall, subject to the provisions of sub-section (3), expire on the day of

5. (1) The following persons shall be Fellows, namely—

(a) every person who has held the office of Chancellor, and all persons for the time being holding such offices under the Government as the Local Government may, by notification in the official Gazette, specify in this behalf;

(b) persons whom the Chancellor may from time to time appoint by name as being eminent benefactors of the University, or persons distinguished for attainments in Literature, Science or Art, or for zeal in the cause of education, and

(c) such persons, if any, as may from time to time be elected by the Senate of the University and approved by the Chancellor.

Provided that—

(i) the whole number of the Fellows holding office under clauses (a), (b) and (c), exclusive of the Vice-Chancellor, shall never be less than thirty; and

(ii) the number of persons for the time being elected and approved under clause (c) shall never exceed the number for the time being appointed under clause (b).

(2) A person appointed under clause (b), or elected and approved under clause (c), of sub-section (1) does not, by succeeding to an office notified under clause (a) of that sub-section, cease to be a Fellow under clause (b) or clause (c) thereof, as the case may be.

6. (1) The offices specified in Part I of the schedule shall be deemed to have been specified in a notification issued under section 5, sub-section (1), clause (a); and

(2) The persons named in Part II of the schedule shall, except for the purposes of the second clause of the proviso to section 5, sub-section (1), be deemed to be Fellows appointed under clause (b) of sub-section (1) of section 5 or elected and approved under clause (c) of that sub-section.

7. (1) The Chancellor may, with the consent of not less than two-thirds of the members of the Senate present at a meeting specially convened for the purpose, remove any Fellow appointed under clause (b) of sub-section (1) of section 5 or elected and approved under clause (c) of that sub-section; and the Local Government may, by notification in the official Gazette, cancel or amend any notification issued under section 5, sub-section (1), clause (a).

(2) If any Fellow appointed under clause (b) of sub-section (1) of section 5 or elected and approved under clause (c) of that sub-section, and not being a person named in Part II of the schedule, leaves India without the intention of returning thereto, or is absent from India for more than four years, he shall thereupon cease to be a Fellow.

8. (1) The Chancellor, Vice-Chancellor and Fellows for the time being shall form the Senate of the University.

(2) The Senate shall have the entire management of, and superintendence over, the affairs, concerns and property of the University, and shall provide for that management and exercise that superintendence in accordance with the rules for the time being in force under this Act.

9. At every meeting of the Senate the Chancellor, or, in his absence, the Vice-Chancellor, or, in the absence of both, a Fellow chosen by a majority of the Fellows present at the meeting, shall preside as Chairman.

10. (1) Every question which comes before the Senate at a meeting shall be decided by a majority of the votes of the members present:

Provided that no question shall be decided at any such meeting unless ten members at the least, besides the Chairman, are present at the time of the decision.

(2) The Chairman at any such meeting shall have a vote, and, in case of an equality of votes, a second or casting vote.

11. Subject to the rules for the time being in force under this Act, the Senate may from time to time—

(1) appoint, or provide for the appointment of, a Syndicate;

(2) constitute Faculties of Arts, Law, Science and Engineering and, with the previous approval of the Governor-General in Council, of Medicine;

(3) appoint, suspend and remove a registrar;

(4) appoint, suspend and remove, or provide for the appointment, suspension and removal of, examiners, officers and servants of the University;

(5) appoint, or provide for the appointment of, professors and lecturers, and suspend and remove, or provide for the suspension and removal of, professors and lecturers appointed by the Senate.

12. (1) The Syndicate shall be the executive committee of the Senate, and may discharge such functions of the Senate as it may be empowered to discharge by the rules for the time being in force under this Act.

(2) The Vice-Chancellor shall be a member and the chairman of the Syndicate.

13. Subject to the rules for the time being in force under this Act, the Senate may confer on persons who have passed such examinations in the University and fulfilled such other conditions as may be prescribed under this Act—

(a) in the Faculty of Arts, the degrees of Bachelor and Master of Arts;

and, if empowered by the Governor-General in Council in this behalf,—

(b) in the Faculty of Law, the degrees of Bachelor and Doctor of Laws;

(c) in the Faculty of Science, the degrees of Bachelor and Doctor of Science;

(d) in the Faculty of Medicine, the degrees of Bachelor and Doctor of Medicine;

(e) in the Faculty of Engineering, the degrees of Bachelor and Master of Civil Engineering.

Power to confer honorary degrees. 14. In the following circumstances, namely:—

(a) if the Senate has been empowered by the Governor-General in Council to confer the degree of Doctor of Laws on persons who have passed such examinations in the University and fulfilled such other conditions as aforesaid, and

(b) if the Vice-Chancellor and not less than two-thirds of the other members of the Syndicate recommend that an honorary degree be conferred on any person, on the ground that he is, in their opinion, by reason of eminent position and attainments, a fit and proper person to receive such a degree, and their recommendation is supported by a majority of the members present at a meeting of the Senate and is confirmed by the Chancellor,

the Chancellor may, on behalf of the Senate, confer on that person the degree of Doctor of Laws without requiring him to undergo any examination.

15. (1) The Senate may charge such reasonable fees for entrance into the University and continuance therein, for admission to the examinations of the University, for attendance at any lectures or classes in connection with the University, and for the degrees to be conferred by the University, as may be imposed by the rules for the time being in force under this Act.

(2) Such fees shall be carried to a General Fee Fund for the payment of expenses of the University under the directions and regulations of the Local Government.

16. (1) The Senate shall as soon as may be after the passing of this Act, and may from time to time thereafter, make rules consistent with this Act touching—

- (a) the mode and time of convening the meetings of the Senate and of transacting business thereat;
 - (b) the appointment, constitution and duties of the Syndicate and the Faculties;
 - (c) the appointment, suspension, removal, duties and remuneration of the registrar, examiners, officers and servants;
 - (d) the appointment, duties and remuneration of professors and lecturers, and the suspension and removal of professors and lecturers appointed by the Senate;
 - (e) the previous course of instruction to be followed by candidates for the examinations of the University;
 - (f) the examinations to be passed and the other conditions to be fulfilled by candidates for degrees; and
 - (g) generally, all matters regarding the University.
- (2) All such rules shall be reduced into writing and sealed with the common seal of the University, and shall,—
- (a) in the case of rules made under clause (e) or clause (f) of sub-section (1), after they have been confirmed by the Local Government and sanctioned by the Governor-General in Council; and,
 - (b) in the case of all other rules, after they have been sanctioned by the Local Government,

be binding on all persons members of the University, or admitted thereto, and on all candidates for degrees.

(3) If, on the expiration of eighteen months from the date on which the University comes into existence, rules have not been made and sanctioned or, as the case may be, made, confirmed and sanctioned, under the foregoing provisions of this section, touching a matter mentioned in sub-section (1), the Local Government may, by notification in the official Gazette, make such rules touching that matter as it thinks fit.

(4) Subject, in the case of rules touching any matter mentioned in clause (c) or clause (f) of sub-section (1), to the sanction of the Governor-General in Council, rules made by the Local Government under sub-section (3) shall be deemed to have been made and sanctioned, or, as

the case may be, made, confirmed and sanctioned under sub-sections (1) and (2).

17. (1) The registrar and every other officer or servant appointed or remunerated by the Senate shall, for the purposes of the Indian Penal Code, be deemed to be a public servant.

(2) The word "Government" in the definition of "legal remuneration" in section 161 of that Code shall, for the purposes of sub-section (1), be deemed to include the Senate, and sections 162 and 163 of the Code shall be construed as if the words "or with any member of the Senate of the Allahabad University or any examiner of that University" were inserted after the words "with any Lieutenant-Governor."

18. It shall be the duty of the Local Government to require that the proceedings of the University shall be in conformity with this Act and the rules for the time being in force thereunder, and the Local Government may exercise all powers necessary for giving effect to its requisitions in this behalf, and may, among other things, annul, by a notification in the official Gazette, any such proceeding which is not in conformity with this Act and those rules.

19. All appointments made under section 4, all appointments made and elections approved under section 5, sub-section (1), clauses (b) and (c), all degrees conferred under sections 13 and 14, and all rules made under section 16, shall be notified in the local official Gazette, wherein also the record of the proceedings of every meeting of the Senate shall be published.

20. The accounts of the income and expenditure of the University shall be submitted once in every year to the Local Government for such examination and audit as that Government may direct.

THE SCHEDULE.

(See section 6.)

PART I.

Offices to be deemed to have been specified under section 5, sub-section (1), clause (a):—

The office of—

- Bishop of Calcutta;
- Chief Justice of the High Court of Judicature for the North-Western Provinces;
- Chief Secretary to the Government of the North-Western Provinces and Oudh;
- Secretary to the Government of the North-Western Provinces and Oudh in the Public Works Department;
- Commissioner of Allahabad;

Commissioner of Lucknow ;
 Commissioner of Agra ;
 Director of Public Instruction, North-West-
 ern Provinces and Oudh ;
 Principal of the Muir College, Allahabad ;
 Principal of the Queen's College, Benares.

PART II.

Persons to be deemed to have been appointed,
 or to have been elected and approved, as Fellows
 under section 5, sub-section (1), clause (b) or
 clause (c) —

(Names to be added hereafter.)

STATEMENT OF OBJECTS AND REASONS

THE object of this Bill is the establishment of a University at Allahabad

The great advance in higher education which has of late years taken place in the North-Western Provinces and Oudh, the number of efficient colleges situated in those Provinces which turn out a larger number of students year by year, and the serious strain thereby imposed on the resources of the Calcutta University for the effective examination and careful testing of the merits of candidates from Provinces differing perceptibly in manners, habits and social characteristics—all call for the establishment of a University with power to confer degrees at the capital of the united Provinces

The number of candidates who matriculated has risen from 60 in 1869 to 208 in 1885 and is almost double the average number that matriculated for the Bombay University during the first ten years of its existence.

The number of undergraduate studying at institutions in the North-Western Provinces and Oudh affiliated with the Calcutta University has nearly doubled within the last five years, and already exceeds that of many of the smaller Universities of Europe. The average number of both M. A. and B. A. degrees has increased by about one-third within the same period and is greater than was conferred by the Calcutta University for many years after its first establishment.

The materials for the proposed University are thus ample, and it may be expected that its foundation will be followed by a considerable if not immediate increase in the number of students who devote themselves to the higher educational course not only in the North-Western Provinces and Oudh but also in the cognate populations of the Central Provinces and Rajputana.

The 8th June, 1887

J W QUINION

S HARVEY JAMES,

Offt. Secretary to the Government of India

GOVERNMENT OF INDIA.
LEGISLATIVE DEPARTMENT.

The following Report of the Select Committee on the Bill for the better administration of Her Majesty's Indian Marine Service was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 8th June, 1887:

We, the undersigned, Members of the Select Committee to which the Bill for the better administration of Her Majesty's Indian Marine Service was referred, have considered the Bill and the papers noted in the margin, and have now the honour to submit this our Report with a copy of the Bill as revised by us annexed thereto.

From Registrar, High Court, Calcutta, No. 278, dated 4th February, 1887 [Paper No. 1].
From Acting Chief Secretary to Government, Madras, No. 273, dated 9th February, 1887, and enclosure [Papers No. 2].
From Officiating Secretary to Government, Bengal, No. 974, dated 28th February, 1887, and enclosure [Papers No. 3].
From Secretary to Chief Commissioner, Burma, No. 69-10 N, dated 25th February, 1887 [Paper No. 4].
From Acting Under Secretary to Government, Bombay, No. 1341, dated 2nd March, 1887, and enclosure [Papers No. 5].
From Acting Under Secretary to Government, Bombay, No. 1382, dated 4th March, 1887 [Paper No. 6].
Endorsement by Officiating Under Secretary to Government, Bengal, No. 1055, dated 4th March, 1887, and enclosure [Papers No. 7].

2. In the preamble we have set forth the provisions of the Indian Marine Service Act, 1881 (47 & 18 Vic., c. 38) in somewhat greater detail.

3. We have added to section 2 a sub-section providing for the contingency of new appointments of gazetted officers, warrant-officers and petty officers being created after the passing of the proposed Act.

4. As the vessels of the Indian Marine may be employed in the suppression of piracy and other like services at times when, under section 6 of the Act of 1884, their crews would not be subject to the Naval Discipline Acts, we have considered it advisable to incorporate in the Bill (sections 5 to 10 of the Bill as revised) some of the provisions of the Naval Discipline Act of 1866 respecting misconduct in the presence of the enemy and communications with the enemy.

5. We have provided (section 36 of the Bill as revised) that offences punishable by ordinary law shall, subject to the provisions of the Indian Marine Service Act, 1881, with respect to the character and severity of punishments, be as a rule punishable under the ordinary law of British India. We have further provided that such offences shall be exclusively cognizable by Criminal Courts (section 41 of the Bill as revised) unless they happen to be offences against good order and discipline punishable, if they were tried under the ordinary law of British India, with imprisonment for a term not exceeding seven years (section 32 of the Bill as revised).

6. We have made all minor breaches of discipline cognizable exclusively by Indian Marine Courts, and the more serious breaches cognizable concurrently by Indian Marine Courts and Criminal Courts (section 11 of the Bill as revised).

7. We have added to section 53 of the Bill as revised a sub-section providing for the dissolution of an Indian Marine Court when the president dies or is unavoidably absent and the next senior member of the Court is not qualified to take his place.

8. In section 58 of the Bill as revised we have provided that when two or more prisoners are being tried, and the trial of one or some only of them has to be temporarily abandoned by reason of his or their illness, the trial of the other prisoner or prisoners may be continued. We have also provided that, where the illness subsists, the Court is to proceed, as nearly as circumstances admit, as a Magistrate or Court may proceed under section 406 of the Code of Criminal Procedure.

9. We have inserted a new section (section 61) providing for the transmission of proceedings to the confirming authority, and in section 63 of the Bill as revised we have modified the description of that authority.

10. We have struck out of section 68 of the Bill as revised the words which empowered the Governor-General in Council to make rules of evidence additional to those in the Indian Evidence Act, 1872.

11. We have provided in section 82 of the Bill as revised that the Director of Prisons shall be the officer to whom the proceeds of unclaimed property of deserters, and of the property of deserters are to be remitted.

12. The other alterations are either verbal or in the arrangement of sections, and do not call for remark.

13. The publication ordered by the Council has been made as follows :—

In English.

<i>Gazette.</i>		<i>Date.</i>
Gazette of India	...	15th January, 1887.
Port Saint George Gazette	..	1st February, 1887.
Bombay Government Gazette	...	27th January, 1887
Calcutta Gazette	...	19th February, 1887
Burma Gazette	...	7th February, 1887

In the Vernaculars.

<i>Province</i>		<i>Language</i>	<i>Date.</i>
Bengal	...	Bengali	20th April, 1887.
		Hindi	22nd March, 1887.
		Uriya	10th March, 1887.

14. We do not think that the measure has been so altered as to require re-publication, and we recommend that it be passed as now amended.

G. CHESNEY.

Exemption from Process.

80. Exemption from arrest for debt.
-
81. Property which cannot be attached.

Property of Deceased Persons and Deserters.

82. Disposal of property of deceased persons and deserters.

A Bill for the better administration of Her Majesty's Indian Marine Service.

47 & 48 Vic.,
c. 38. WHEREAS by the Indian Marine Service Act, 1884, it is, among other things, enacted that the Governor-General of India in Council shall have power, subject to the provisions contained in the Indian Councils Act, 1861, as amended by subsequent Acts, at meetings for the purpose of making Laws and Regulations, to make laws for all persons employed or serving in, or belonging to, Her Majesty's Indian Marine Service

24 & 25 Vic.,
c. 67.

Provided that—

- (a) a law made under that power shall not apply to any offence unless the vessel to which the offender belongs is at the time of the commission of the offence within the limits of Indian waters, which are defined by the said Indian Marine Service Act to include, the high seas between the Cape of Good Hope on the west and the Straits of Magellan on the east, and all territorial waters between those limits; and
- (b) the punishments imposed by any such law for offences shall be similar in character to, and shall not be in excess of, the punishments which may at the time of making the law be imposed for similar offences under the Acts relating to Her Majesty's Navy, except that in the case

of persons other than Europeans or Americans imprisonment for any term not exceeding fourteen years, or transportation for life or any less term, may be substituted for penal servitude;

And whereas it is further provided by the said Indian Marine Service Act that subject to the provisions of that Act a law made thereunder shall be of the same force and effect as an Act of Parliament and shall be taken notice of by all Courts of Justice in the same manner as if it were a Public Act of Parliament;

And whereas in pursuance of the power thus conferred and of all other powers vested in the Governor-General in Council in this behalf it is expedient to make such laws as are mentioned in the said Indian Marine Service Act and to make provision in other particulars for the proper regulation of, and otherwise in relation to, the Indian Marine Service;

And whereas the Secretary of State for India in Council has given his previous approval to the passing of this Act;

It is hereby enacted as follows:—

CHAPTER I.

PRELIMINARY.

Title and commencement. 1. (1) This Act may be called the Indian Marine Act, 1887, and

(2) It shall come into force on such date as the Governor-General in Council may, by notification in the Gazette of India, appoint in this behalf

2 (1) In this Act, unless there is something repugnant in the subject or context,—

(a) "person subject to this Act" means a person who is employed or serves in, or belongs to, the Indian Marine Service, and who, if he is not a gazetted officer, has been enrolled in that service in the manner provided by this Act.

(b) "gazetted officer" means a person who by virtue of his letter of appointment is holding a position in the Indian Marine Service as—

Commander,	Chief engineer,
First grade officer,	Engineer,
Second grade officer,	Assistant engineer, or
Third grade officer,	Clerk :

(c) "warrant-officer" means a person who by virtue of his appointment is holding a position in the Indian Marine Service as—

Gunner,	Engine-driver, first class,
Apothecary,	Carpenter,
Assistant apothecary,	Hospital assistant, or
Assistant clerk,	General mess steward :

(d) "petty officer" means a person who by virtue of his appointment is holding a position in the Indian Marine Service as—

Chief syrang, first class,	Tindal of lascars, first class,
Chief syrang, second class,	Tindal of lascars, second class,
Ship's steward,	Tindal of stokers, first class,
Engine-driver, second class,	Tindal of stokers, second class,
Cook on a salary of not less than fifty rupees per mensem,	Casseub, first class,
General mess butler,	Casseub, second class, or
Syrang of lascars, first class,	Cook on a salary of less than fifty rupees per mensem :
Syrang of lascars, second class,	

*The Indian Marine Bill, 1887.**(Chapter I.—Preliminary.—Sections 3-4.)**(Chapter II.—Offences and Punishments.—Sections 5-8.)*

(e) "superior officer," used with reference to an officer of a rank mentioned in clause (b), clause (c) or clause (d) of this sub-section, means an officer of a rank mentioned before his in any of those clauses, and, used with reference to any other person subject to this Act, means an officer mentioned in any of those clauses:

(f) "commanding officer" means the officer in command of a vessel, whether by special appointment or by the rules or customs of the service, and includes, as regards any persons subject to this Act who are employed otherwise than on board the vessel to which they belong, such officer, if any, as the Governor-General in Council appoints, instead of the commanding officer of that vessel, to discharge the functions of commanding officer with respect to those persons:

(g) "enemy" includes a pirate or rebel.

(h) "Indian Marine Court" means an Indian Marine Court held under this Act.

(i) "Criminal Court" means a Court having ordinary criminal jurisdiction in British India or such a Court established elsewhere by the authority of the Governor-General in Council, and

(j) "prescribed" means prescribed by rules made by the Governor-General in Council.

(a) If an appointment in the Indian Marine Service is created after the passing of this Act, the Governor-General in Council may, by notification published in the Gazette of India at any time after the commencement of this Act, assign to the officer for the time being holding the appointment such place in clause (b), clause (c) or clause (d) of sub-section (r) as he thinks fit, and thereupon that officer shall for all the purposes of this Act be deemed to be mentioned in that place, and to be a gazetted officer, warrant-officer or petty officer, as the case may be, and to be the superior officer of any officer mentioned after him in any of the clauses aforesaid, and of any person subject to this Act who is not mentioned in any of those clauses.

3. A person to be enrolled in the Indian Marine Service shall be brought on to the quarter-deck or other suitable place on boardship or on shore, and the commanding or other prescribed officer shall cause to be read and explained to him the prescribed portions of this Act, and of the rules and conditions of service; and if the officer is satisfied that the person understands those portions he will administer to him an oath of allegiance in the prescribed form, and cause him to sign or, if he cannot write, to affix his mark to the prescribed roll.

4. In addition to any other rules which may be made under this Act, the Governor-General in Council may, by notification in the Gazette of India, make rules consistent with this Act for the guidance of officers, whether military, Indian Marine, civil or political, in all matters connected with its enforcement.

CHAPTER II.

OFFENCES AND PUNISHMENTS.

Misconduct in the Presence of the Enemy.

Misconduct of commanding-officer in action.

5. If a commanding officer—

(i) upon signal of battle, or on sight of a vessel of an enemy which it is his duty to engage, does not use his utmost exertion to bring his vessel into action, or

(ii) does not during an action, in his own person and according to his rank, encourage his inferior officers and men to fight courageously, or,

(iii) when capable of making a successful defence, surrenders his vessel to the enemy, or

(iv) in time of action improperly withdraws from the fight,

he shall,—

(a) if he has acted from cowardice, suffer penal servitude or such other punishment as is hereinafter mentioned;

(b) if he has acted from negligence, or through other default, be dismissed with disgrace from the Indian Marine Service or suffer such other punishment as is hereinafter mentioned.

6. If any officer subject to this Act—
Not pursuing the enemy or not assisting a friend in view.

(i) forbears to pursue the chase of any enemy beaten or flying, or

(ii) does not relieve and assist a known friend in view to the utmost of his power, or

(iii) improperly forsakes his station,
he shall—

(a) if he has acted from cowardice, suffer penal servitude or such other punishment as is hereinafter mentioned;

(b) if he has acted from negligence, or through other default, be dismissed with disgrace from the Indian Marine Service or suffer such other punishment as is hereinafter mentioned.

7. If any person subject to this Act,—
Delaying or discouraging action or service, or deserting post or sleeping on watch.

(i) when any action or service is commanded, presumes to delay or discourage the action or service upon any pretence whatever, or

(ii) in the presence or vicinity of the enemy, deserts his post or sleeps upon his watch,

he shall suffer penal servitude or such other punishment as is hereinafter mentioned

8. If any person subject to this Act, other than a commanding officer, does not, when ordered to prepare for action, or during an action, use his utmost exertion to carry the orders of his superior officer into execution, he shall,—

(a) if he has acted from cowardice, suffer penal servitude or such other punishment as is hereinafter mentioned;

(b) if he has acted from negligence, or through other default, be dismissed with disgrace from the Indian Marine Service or suffer such other punishment as is hereinafter mentioned.

*The Indian Marine Bill, 1887.**(Chapter II.—Offences and Punishments.—Sections 9-22.)**Communications with the Enemy.*

Corresponding, &c., 9. If any person subject with the enemy. to this Act—

- (i) treacherously holds correspondence with or gives intelligence to the enemy, or
- (ii) fails to make known to the proper authorities any information which he may have received from the enemy, or
- (iii) relieves the enemy with any supplies, he shall suffer penal servitude or such other punishment as is hereinafter mentioned.

10. If any person subject to this Act holds, without any treacherous intention, any improper communication with the enemy, he shall be dismissed with disgrace from the Indian Marine Service or suffer such other punishment as is hereinafter mentioned.

Neglect of Duty.

11. If a person subject to this Act deserts his post or sleeps upon his watch, or negligently performs the duty imposed on him, he shall suffer imprisonment or such other punishment as is hereinafter mentioned.

Mutiny.

12. Where a mutiny is accompanied by violence, a person subject to this Act who joins therein shall suffer death or such other punishment as is hereinafter mentioned; and

a person subject to this Act who does not use his utmost exertions to suppress the mutiny shall,—

- (a) if he has acted traitorously, suffer death or such other punishment as is hereinafter mentioned;
- (b) if he has acted from cowardice, suffer penal servitude or such other punishment as is hereinafter mentioned;
- (c) if he has acted from negligence, be dismissed with disgrace from the Indian Marine Service or suffer such other punishment as is hereinafter mentioned.

13. Where a mutiny is not accompanied by violence, a ringleader thereof, being a person subject to this Act, shall suffer death or such other punishment as is hereinafter mentioned; and all other persons subject to this Act who join in the mutiny, or do not use their utmost exertions to suppress it, shall suffer imprisonment or such other punishment as is hereinafter mentioned.

14. A person subject to this Act who endeavours to seduce any other person subject to this Act from his duty or allegiance to Her Majesty, or endeavours to incite him to commit any act of mutiny, shall suffer death or such other punishment as is hereinafter mentioned.

15. A person subject to this Act who makes a mutinous assembly or endeavours to make any mutinous assembly, or leads or incites any other person to join in any mutinous assembly, or utters any words of sedition or mutiny, shall suffer penal

servitude or such other punishment as is hereinafter mentioned.

16. A person subject to this Act who wilfully conceals any traitorous or mutinous practice or design, or any seditious or mutinous words spoken against Her Majesty, or any practice, design or words tending to the hindrance of the service, shall suffer penal servitude or such other punishment as is hereinafter mentioned.

17. A person subject to this Act who strikes or attempts to strike, or uses or attempts to use violence to superior officer, any violence against, his superior officer, being in the execution of his office, or otherwise, shall be dismissed with disgrace from the Indian Marine Service or suffer such other punishment as is hereinafter mentioned.

Insubordination.

18. A person subject to this Act who wilfully disobeys any lawful command of his superior officer, or uses threatening or insulting language, or behaves with contempt, to his superior officer, shall be dismissed with disgrace from the Indian Marine Service or suffer such other punishment as is hereinafter mentioned.

Desertion and Absence without Leave.

19. A person subject to this Act who—

- (i) absents himself from his vessel or from the place where his duty requires him to be, with the intention of not returning to that vessel or place; or
- (ii) at any time and under any circumstances, when absent from his vessel or place of duty, does any act which shows that he has an intention of not returning to that vessel or place;

shall be deemed to have deserted, and shall suffer penal servitude or such other punishment as is hereinafter mentioned;

and in every such case he shall forfeit all pay, bounty, salvage, prize-money and allowances which may have been earned by him, and all annuities, pensions, gratuities, medals and decorations which may have been granted to him, and also all clothes and effects which he may have left on board the vessel or at the place from which he has deserted, unless it is otherwise directed by the Court by which he is tried or by the Governor-General in Council.

20. A person subject to this Act who endeavours to seduce any other person subject to this Act to desert shall suffer imprisonment or such other punishment as is hereinafter mentioned.

21. A person subject to this Act who, without being guilty of desertion, improperly leaves his vessel or place of duty shall suffer imprisonment or such other punishment as is hereinafter mentioned.

22. A person subject to this Act who, without being guilty of desertion or of improperly leaving his

*The Indian Marine Bill, 1887.**(Chapter II.—Offences and Punishments.—Sections 23-35.)*

vessel or place of duty, is absent without leave shall suffer imprisonment for any period not exceeding ten weeks or such other punishment as the circumstances of the case may require.

Miscellaneous Offences.

23. A person subject to this Act who is guilty of Drunkenness on boardship or on duty. shall be dismissed with disgrace from the Indian Marine Service or suffer such other punishment as is hereinafter mentioned.

24. An officer subject to this Act who is guilty of cruelty, or of Cruelty or misconduct by officer. any scandalous or fraudulent conduct, or of any other conduct unbecoming the character of an officer, shall be dismissed with disgrace from the Indian Marine Service or suffer such other punishment as is hereinafter mentioned.

25. A person subject to this Act who designedly or negligently, or by any default, loses, strands or hazards, or suffers to be lost, stranded or hazarded, any vessel of the Indian Marine Service shall be dismissed with disgrace from the Indian Marine Service or suffer such other punishment as is hereinafter mentioned.

26. An officer in command of an Indian Marine Service vessel who Unlawful taking of goods on board. receives on board, or permits to be received on board, the vessel any goods or merchandise whatsoever, other than for the sole use of the vessel, except gold, silver or jewels, and except goods and merchandise, belonging to any merchant or on board any vessel, which may be shipwrecked or in imminent danger either on the sea or in some port, creek, harbour or river, for the purpose of preserving them for their proper owners, or except such goods or merchandise as he may at any time be ordered to take or receive on board by order of the Government or his superior officer, shall be dismissed from the Indian Marine Service or suffer such other punishment as is hereinafter mentioned.

27. A person subject to this Act who wastefully expends, embezzles or fraudulently buys, sells or receives any ammunition, provisions or other public stores, or knowingly permits any such wasteful expenditure, embezzlement or fraudulent purchase, sale or receipt, shall suffer imprisonment or such other punishment as is hereinafter mentioned.

28. A person subject to this Act who unlawfully sets fire to any dock-yard, victualling yard, steam-factory yard, arsenal, magazine, building or stores, or to any ship, boat or other craft or furniture thereunto belonging, not being the property of an enemy, shall suffer penal servitude or such other punishment as is hereinafter mentioned.

29. A person subject to this Act who knowingly makes or signs a false muster or record or other official document, or who commands, counsels or procures the making or signing thereof, or who aids or abets any other

person in the making or signing thereof, shall be dismissed with disgrace from the Indian Marine Service or suffer such other punishment as is hereinafter mentioned.

30. A person subject to this Act who wilfully does any act or wilfully disobeys any order, whether Malingering or misconduct in hospital. in hospital or elsewhere, with intent to produce or to aggravate any disease or infirmity or to delay his cure, or who feigns any disease, infirmity or inability to perform his duty, shall suffer imprisonment or such other punishment as is hereinafter mentioned.

31. A person subject to this Act who has any cause of complaint, either Creating disturbance upon the ground of the complaints. upon the ground of the unwholesomeness of the victuals or upon any other ground, shall quietly make the same known to his commanding officer, and that officer shall inquire into the complaint and shall, as far as he is able, cause the same to be presently remedied, or shall report the case to the Director of Marine; and any person subject to this Act who, upon any pretence whatever, attempts to stir up any disturbance on any such ground shall suffer imprisonment or such other punishment as is hereinafter mentioned.

32. A person subject to this Act who is guilty of any act, disorder or neglect, to the prejudice of good order and discipline, not otherwise specified, shall be dismissed with disgrace from the Indian Marine Service or suffer such other punishment as is hereinafter mentioned.

Provided that if such act, disorder or neglect constitutes an offence punishable under the law of British India with imprisonment for a term which may exceed seven years, the person guilty thereof shall not be tried under this Act as for an offence punishable under this section.

33. A person subject to this Act who does not use his utmost exertion to detect, arrest and bring to punishment all offenders against this Act, and does not assist the officers appointed for that purpose, shall suffer imprisonment or such other punishment as is hereinafter mentioned.

34. A person subject to this Act who, being duly summoned or ordered to attend as a witness before an Indian Marine Court or a commanding officer exercising jurisdiction under this Act, or to produce any document in his power or control before such a Court or officer, refuses or neglects to attend to give his evidence upon oath or to produce the document, or behaves with contempt to the Court or officer, shall suffer imprisonment which may extend to three months in the case of such refusal or neglect and to one month in the case of such contempt.

35. A person subject to this Act who, when examined on oath before an Indian Marine Court or a commanding officer exercising jurisdiction under this Act, intentionally gives false evidence, shall suffer imprisonment for a term which may extend to seven years.

The Indian Marine Bill, 1887.

(Chapter II.—Offences and Punishments.—Sections 36-40. Chapter III.—Jurisdiction and Powers.—Section 41.)

Offences punishable by Ordinary Law.

36. If a person subject to this Act is guilty of any criminal offence which would be punishable by the law of British India, he shall, subject to the other provisions of this Act, be liable to the same punishment as might for the time being be awarded in British India by any ordinary criminal tribunal competent to try him if the offence had been committed in British India:

Provided that, except as authorised by the Indian Marine Service Act, 1884, and by this Act, the punishment awarded for the offence shall not be dissimilar in character to or in excess of the punishment which may at the time of the passing of this Act be imposed for a similar offence under the Acts relating to Her Majesty's Navy.

Punishments.

37. (r) The following punishments may be inflicted under this Act.—

- (a) death;
- (b) penal servitude;
- (c) dismissal with disgrace from the Indian Marine Service;
- (d) imprisonment;
- (e) dismissal from the Indian Marine Service;
- (f) loss of seniority as an officer for a specified time or otherwise;
- (g) dismissal from the ship to which the offender belongs;
- (h) severe reprimand, or reprimand;
- (i) disgrating a warrant-officer or petty officer or any other person below that rank;
- (j) forfeiture of pay, bounty, salvage, prize-money and allowances earned by, and of all annuities, pensions, gratuities, medals and decorations granted to, the offender, or of any one or more of the above particulars; also, in the case of desertion, of all clothes and effects left by the deserter on board the vessel to which he belongs.

(2) Each of the above punishments shall be deemed to be inferior in degree to every punishment preceding it in the above scale.

38. The following regulations shall apply to the infliction of punishments:—

(1) The punishment of penal servitude may, except when otherwise provided by this Act, be inflicted for the term of life or for any other term not less than four years.

(2) In the case of persons other than Europeans or Americans, transportation for life or for any term not less than four years, or imprisonment for any term not exceeding fourteen years, shall be substituted for penal servitude.

(3) The punishment of penal servitude or of transportation, or of imprisonment for more than two years when substituted for penal servitude under the provisions of this Act, shall in all cases involve dismissal from the Indian Marine Service, with or without disgrace, as the prescribed authority may direct.

(4) Dismissal with disgrace shall involve in all cases forfeiture of all pay, bounty, salvage, prize-money and allowances earned by, and of all annuities, pensions, gratuities, medals and decorations granted to, the offender, and an incapacity to serve the Government again in any capacity.

(5) A sentence of dismissal with disgrace may in any case be accompanied by a sentence of imprisonment.

(6) Except as otherwise provided by this Act, a sentence of imprisonment passed otherwise than under clause (2) of this section may extend to two years.

(7) A sentence of imprisonment may be accompanied by a direction that the imprisonment shall be rigorous for the whole or any part of the term thereof.

(8) When a sentence of imprisonment is passed on a warrant-officer or petty officer or any other person below that rank, it may be accompanied by a direction disgrating the officer or person.

(9) A sentence of imprisonment shall in all cases be accompanied by forfeiture of pay and allowances during the imprisonment.

39. Subject to the foregoing regulations and the other provisions of this Act, where any punishment is specified by this Act as the penalty for an offence, and it is further declared that another punishment may be awarded in respect of the same offence, the expression "other punishment" shall be deemed to comprise any one or more of the punishments inferior in degree to the specified punishment according to the scale set forth in section 37.

40. No person, unless he is an offender who has avoided arrest or fled from justice, shall be tried or punished in pursuance of this Act for any offence committed by him unless the trial takes place within three years from the commission of the offence, or within one year after the return of the offender to British India when he has been absent from British India during that period of three years.

CHAPTER III.

JURISDICTION AND POWERS.

41 Subject to the provisions of this Act and as respects Criminal Courts, subject to the law relating to criminal procedure for the time being applicable to those Courts, Criminal Courts and Indian Marine Courts or both shall have jurisdiction in respect of the offences punishable under this Act as specified in the following table:—

Section of this Act.	Marginal note.	Courts having jurisdiction.
Section 5	Misconduct of commanding officer in action.	Criminal Courts and Indian Marine Courts.
" 6	Not pursuing the enemy or not assisting a friend in view.	
" 7	Delaying or discouraging action or service or deserting post or sleeping on watch.	
" 8	Misconduct of subordinate officers and men in action.	
" 9	Corresponding, &c., with the enemy.	
" 10	Improper communication with the enemy.	
" 11	Neglect of duty.	Indian Marine Courts.

*The Indian Marine Bill, 1887.**(Chapter III.—Jurisdiction and Powers.—Sections 42-49.)*

Section of this Act.	Marginal note.	Courts having jurisdiction.
Section 12	Mutiny accompanied by violence.	Criminal Courts and Indian Marine Courts.
" 13	Mutiny not accompanied by violence.	
" 14	Inciting to mutiny.	
" 15	Mutinous assembly or uttering seditious words.	
" 16	Concealing traitorous, mutinous or seditious practice, design or words.	
" 17	Striking or using violence to superior officer.	Indian Marine Courts.
" 18	Disobedience or using threatening language to superior officer.	
" 19	Desertion.	Criminal Courts and Indian Marine Courts.
" 20	Inducing any person to desert.	
" 21	Breaking out of vessel.	Indian Marine Courts.
" 22	Absence without leave.	
" 23	Drunkenness on board-ship or on duty.	Criminal Courts and Indian Marine Courts.
" 24	Cruelty or misconduct by officer.	
" 25	Suffering vessel to be lost or imperilled.	Indian Marine Courts.
" 26	Unlawful taking of goods on board.	
" 27	Embezzling public stores.	Criminal Courts and Indian Marine Courts.
" 28	Arson.	
" 29	Making false documents.	Indian Marine Courts.
" 30	Malingering or misconduct in hospital.	
" 31	Creating disturbance on account of complaints.	Criminal Courts and Indian Marine Courts.
" 32	Offences to the prejudice of good order and discipline not otherwise specified.	
" 33	Not assisting in arresting offenders.	Criminal Courts and Indian Marine Courts.
" 34	Contempt of Court.	
" 35	False evidence.	Criminal Courts.
" 36	Offences punishable by ordinary law.	

Power to pass sentences.

42. Subject as aforesaid—

(a) a Criminal Court may pass a sentence of death, penal servitude, transportation or imprisonment; and

(b) an Indian Marine Court may pass any sentence authorised by this Act except a sentence of death, penal servitude or transportation or of imprisonment for a term exceeding two years.

43. (r) An offence triable by an Indian Marine Court and committed by a person other than a gazetted officer may, under such regulations as the Governor-General in Council may make, be summarily tried and punished by the commanding officer of the offender.

(s) Subject to the provisions of this Act and to such restrictions as the Governor-General in Council may impose, a commanding officer may pass a sentence of imprisonment for a period not exceeding three months on an offender below the position of petty officer, and may disrate any warrant-officer or petty officer or any other person below that rank.

44. A person subject to this Act who is accused of an offence to which this Act applies may be tried and punished for the offence by a Criminal Court in any place where he may happen to be in the same manner as if the offence had been committed in that place.

45. Where such an offence has been committed by any person while subject to this Act he may be taken into custody and be tried and punished for the offence, although he has ceased to be subject to this Act, in like manner as he might have been taken into custody and tried and punished if he had continued to be so subject.

46. When a person subject to this Act is accused of an offence in respect of which a Criminal Court has jurisdiction over him under this Act or otherwise, the following rules shall apply, namely:—

(a) any person subject to this Act shall, on application made to him by the Court, assist in arresting and securing the accused, and the commanding officer shall, if so required by the Court, deliver the accused to the Court;

(b) when no requisition is made under clause (a), the commanding officer may, if he thinks fit, place the accused in custody with a view to delivering him up to such Criminal Court as appears to him most convenient in all the circumstances of the case.

47. When a person subject to this Act is accused of an offence in respect of which an Indian Marine Court or a commanding officer has jurisdiction under this Act, and that person is within the jurisdiction of any civil, political or police officer, that officer shall, upon an application to that effect made to him by the commanding officer of that person or any prescribed authority, aid in the arrest of the person and deliver him when arrested into such custody as the commanding officer or the prescribed authority may require.

48. When an Indian Marine Court or commanding officer under this Act, and a Criminal Court under this Act or otherwise, have concurrent jurisdiction in respect of an offence, and there is a difference of opinion as to the tribunal before which the person accused of the offence should be proceeded against, either tribunal shall, on the requisition of the other, stay proceedings pending a reference to the Governor-General in Council, whose order as to the tribunal before which the proceedings are to be had shall be final.

49. An offender shall not be tried by an Indian Marine Court or by his commanding officer for any offence of which he has been convicted or acquitted by a Criminal Court or an Indian Marine Court or, in exercise of the powers conferred by section 43, by his commanding officer.

*The Indian Marine Bill, 1887.**(Chapter III.—Jurisdiction and Powers.—Sections 50-51.)**(Chapter IV.—Indian Marine Courts.—Sections 52-57.)*

50. Where a person liable to be tried by an Indian Marine Court under this Act is in confinement in pursuance of a sentence of a Criminal Court, the Director of Marine or other prescribed officer may make an order in the form in Schedule B to the Prisoners' Testimony Act, 1869, directed to the officer in charge of the place in which the person is confined, and the provisions of that Act with respect to compliance with any order made thereunder shall, so far as they can be made applicable, apply in the case of any order made under this section.

51. The Governor-General in Council may suspend, annul or modify any sentence passed by an Indian Marine Court or a commanding officer under this Act, or substitute a punishment inferior in degree for the punishment involved in any such sentence, or remit the whole or any portion of the punishment involved in any such sentence, or remit the whole or any portion of any punishment into which the punishment involved in any such sentence has been commuted; and any sentence so modified shall, subject to the provisions of this Act, be valid, and shall be carried into execution as if it had been originally passed with such modification by the Court or officer but so that the punishment involved in any sentence be not increased by any such modification.

CHAPTER IV.

INDIAN MARINE COURTS.

Constitution of the Court.

52. (1) The following authorities shall have power to convene Indian Marine Courts, namely:—

- (a) the Governor-General in Council;
- (b) the Director of Marine;
- (c) an officer empowered in that behalf by warrant of the Governor-General in Council:

Provided that an Indian Marine Court assembled for the trial of a gazetted officer shall be convened only by, or with the previous sanction of, the Governor-General in Council.

(2) When a ship or ships is or are detached on separate service, and when immediate example is necessary, and without detriment to the public service reference cannot be made to superior authority, the officer in command of the ship or ships may, without warrant, convene an Indian Marine Court for the trial of any person under his command being subject to this Act and below the rank of a gazetted officer.

53. (1) An Indian Marine Court shall consist of a president and not less than two or more than four other members of rank not inferior to that of first grade officer, as may be ordered by the convening authority:

Provided that an Indian Marine Court convened under section 52, sub-section (2), may be composed of the officer convening the same as president and the two graded officers next in seniority available for the duty.

(2) The president of an Indian Marine Court for the trial of a commander shall always be a commander, and two at least of the other officers composing the Court shall be commanders.

(3) The president of an Indian Marine Court for the trial of any person below the grade of commander, except an Indian Marine Court convened under section 52, sub-section (2), shall be a commander.

(4) A person acting as prosecutor shall not be a member of the Court.

(5) An officer convening an Indian Marine Court shall not sit thereon except as permitted by the proviso to sub-section (1).

(6) The president and the other members of every Indian Marine Court shall be named by the authority convening the same.

(7) When an Indian Marine Court after the commencement of the trial is reduced to a less number than three members it shall be deemed to be dissolved.

(8) In the case of the death or unavoidable absence of the president of an Indian Marine Court the next senior member of the Court, if qualified under sub-section (2) or sub-section (3), as the case may be, shall take the place of the president without special appointment as such.

(9) If such next senior member is not qualified as aforesaid, the Court shall be deemed to be dissolved.

Procedure at the Trial.

54. An Indian Marine Court shall be held on board one of Her Majesty's Indian Marine vessels or on land.

55. As soon as an Indian Marine Court is assembled the names of the members of the Court shall be read over to the prisoner, who shall be asked if he objects to being tried by any of them; if the prisoner objects to any member, the objection shall be decided by the Court; if the objection is allowed, the place of the member objected to shall be filled up by the officer next in seniority available for the duty who is not on the Court, subject to the regulations contained in section 53, sub-sections (2), (3), (4) and (5):

Provided that where the Court is composed as in the proviso to section 53, sub-section (1), and no officer qualified under that section is available to take the place of the officer objected to, the Court shall, after recording the objection, proceed with the trial in like manner as if the objection had been disallowed.

56. (1) Before an Indian Marine Court proceeds to try a prisoner an oath shall be made by every member of the Court in the prescribed manner.

(2) An oath shall be made in the prescribed manner by any person who gives evidence or acts as an interpreter before an Indian Marine Court.

57. When no specific charge is made against any person subject to this Act for, or in respect or in consequence of, the wreck, loss, destruction or capture of any vessel in the Indian Marine Service, all the officers and crew

*The Indian Marine Bill, 1887.**(Chapter IV.—Indian Marine Courts.—Sections 58-69.)*

of the vessel may, if the authority convening the Court thinks fit, be tried together before one and the same Indian Marine Court, and any of them, when upon his trial, may be called upon to give evidence on oath touching any of the matters then under inquiry, but no person shall be obliged to give any evidence which may tend to criminate himself.

58. (1) If by reason of the illness of the prisoner before the finding it is impossible to continue the trial, an Indian Marine Court shall be deemed to be dissolved.

Provided that, where more prisoners than one are being tried and the trial of only one or some of them is rendered impossible by illness, the Court may, if it sees fit, continue the trial of the other or others, and, where the Court so continues the trial, it shall be deemed to have been dissolved only with respect to the prisoner or prisoners whose illness caused the continuance of his or their trial to be impossible.

(2) When the illness with which a prisoner is affected is insanity, the Court shall proceed, as nearly as circumstances admit, in the same manner as a Magistrate or Court may proceed, under section 466 of the Code of Criminal Procedure, 1882, when an accused person is found to be of unsound mind and incapable of making his defence.

59. Subject to the provisions of the last foregoing section, where an Indian Marine Court is dissolved under that section or section 53, sub-section (7) or sub-section (9), the proceedings are null and void, and the prisoner may be tried before another Indian Marine Court on the same charge or charges.

60. The president may, on any deliberation among the members, cause an Indian Marine Court to be cleared of all other persons.

61. Every decision of an Indian Marine Court shall be passed by a majority of votes, and where there is an equality of votes the president shall have a second or casting vote:

Provided that if there is an equality of votes on the finding the decision shall be in favour of the prisoner.

62. (1) Every person who may be required to give evidence or to produce a document before an Indian Marine Court shall be summoned in the prescribed manner.

(2) A summons issued under this section may be sent to any officer exercising magisterial powers within whose jurisdiction the person summoned may be or resides, and the officer shall give effect to the summons as if the witness were required to attend in his Court.

63. When a person subject to this Act who, being duly summoned or ordered to attend as a witness before an Indian Marine Court, behaves with contempt to the Court, the Court, if it thinks fit, instead of reserving him for trial by another Court for an offence under section 34, may, by order under the hand of the president, sentence him to imprisonment for a term which may extend to one month.

Confirmation of Findings and Sentences.

64. (1) The president of an Indian Marine Court shall date and sign the proceedings of the Court and submit them, as soon as possible after their completion, to the confirming authority.

(2) If the Court has made a recommendation to mercy, the recommendation shall be recorded and submitted to the confirming authority as part of the proceedings.

65. A finding or sentence of an Indian Marine Court shall not be valid except in so far as it may be confirmed by the confirming authority.

66. (1) The confirming authority shall ordinarily be the authority convening the Court.

(2) But if the Court was convened for the trial of a gazetted officer with the previous sanction of the Governor-General in Council, or if, in the case of a Court convened for the trial of any other person subject to this Act, the Governor-General in Council is of opinion that the authority convening the Court cannot act, or cannot conveniently act, as the confirming authority, the confirming authority shall be the Governor-General in Council.

(3) The fact that the Governor-General in Council has acted as the confirming authority with respect to any finding or sentence shall be conclusive proof that he was the proper confirming authority with respect thereto.

67. (1) The confirming authority may send back the finding and sentence of an Indian Marine Court, or either of them, for revision; and, on the finding or sentence being sent back, the Court may, if so directed by the confirming authority, receive additional evidence.

(2) Where the finding only is sent back for revision, the Court may revise the sentence also.

(3) The confirming authority may, in confirming the sentence of an Indian Marine Court,—

(a) reduce the punishment thereby awarded, or commute that punishment to any other punishment of inferior degree to which the offender might have been sentenced by the Court;

(b) suspend for such time as seems expedient the execution of the sentence;

(c) if the finding or sentence is informally expressed, vary the form thereof, or, if the sentence is invalid, substitute a valid sentence therefor.

Evidence.

68. The Indian Evidence Act, 1872, subject to such modifications therein as the Governor-General in Council may, by notification in the Gazette of India, direct, shall apply to all proceedings before Indian Marine Courts.

Preservation of Proceedings.

69. (1) The proceedings of all Indian Marine Courts shall be preserved in the office of the Director of Marine for not less than seven years in the case of

*The Indian Marine Bill, 1887.**(Chapter IV.—Indian Marine Courts.—Section 70. Chapter V.—Supplemental Criminal Provisions.—Section 71-76.)*

the trial of a gazetted officer, or than three years in the case of any other person.

(a) Any person tried by an Indian Marine Court shall be entitled, on demand at any time after the confirmation of the finding and sentence of the Court and before the proceedings are destroyed, to obtain from the officer or person having the custody of the proceedings a copy thereof, upon payment for the same at the prescribed rate.

Power to make Rules respecting Procedure.

70: (1) The Governor-General in Council may make rules to regulate the procedure of Indian Marine Courts, and for the purpose of carrying this Act into execution, so far as relates to the investigation, trial and punishment of offences triable by those Courts.

(2) The Governor-General in Council may by any such rule confer on an Indian Marine Court any power (other than a power to try an accused person or pass a sentence) conferred on a Court of original criminal jurisdiction by the Code of Criminal Procedure, 1882.

X of 1882.

CHAPTER V.

SUPPLEMENTAL CRIMINAL PROVISIONS

Procedure of Criminal Courts beyond British India.

71. The law relating to criminal procedure for the time being in force in British India shall, subject to such modifications as the Governor-General in Council, by notification in the Gazette of India, directs, apply to all proceedings under this Act in Criminal Courts beyond the limits of British India.

Arrest.

72. The following rules shall apply to persons subject to this Act when charged with offences under this Act:—

(1) Every such person shall be placed in custody, but no person shall be detained in custody longer than is necessary for the purposes of justice.

(2) "Custody" means, according to the usage of the service, the putting of the offender under arrest or the putting him in confinement.

(3) Any officer, or, if more officers than one are present, the senior of them, may order into custody any other person of inferior rank subject to this Act.

(4) The charge made against every person taken into custody shall, without unnecessary delay, be investigated by his commanding officer or other prescribed authority; and, as soon as may be, proceedings shall be taken for punishing the offender or discharging him from custody.

73. A commanding officer shall, upon an investigation being made into a charge against a person subject to this Act and under his command of having committed an offence under this Act, dismiss the charge if he thinks that it ought not to be proceeded with;

but when he thinks the charge ought to be proceeded with he shall, subject to the provisions of this Act, take steps without delay for bringing the offender to trial.

Execution of Sentences of Indian Marine Courts and Commanding Officers.

74. (1) Every term of imprisonment awarded in pursuance of the sentences of imprisonment of an Indian Marine Court or of a commanding officer exercising jurisdiction under this Act shall, except as provided in sub-section (2), be deemed to commence on the day on which the original sentence was signed by the president of the Court or pronounced by the commanding officer.

(2) When a person already undergoing a sentence of penal servitude, transportation or imprisonment is sentenced by an Indian Marine Court to imprisonment, that imprisonment shall commence at the expiration of the penal servitude, transportation or imprisonment to which he has previously been sentenced:

Provided that when, under this sub-section, at the expiration of a term of imprisonment to which such person has been sentenced by an Indian Marine Court, another term of imprisonment to which he has been similarly sentenced commences, and the aggregate term of imprisonment to which he would be thus liable would, as reckoned from the commencement of such imprisonment, exceed two years, so much of that term as is in excess of two years shall be deemed to be remitted.

75 (1) A person sentenced by an Indian Marine Court, or by a commanding officer exercising jurisdiction under this Act, to imprisonment shall be detained in the prescribed custody until he is transferred to a prison.

(2) A person sentenced as aforesaid shall, as soon as may be practicable, be transferred to a prison in British India, and shall be delivered over with a warrant of commitment in the prescribed form signed by the prescribed officer to the officer in charge of that prison.

(3) A person transferred to a prison under sub-section (2) shall thereafter be dealt with in all respects as if he were detained in that prison under a sentence of a Criminal Court:

Provided that—

(a) when he is a person sentenced to imprisonment by his commanding officer, the commanding officer, or the Director of Marine, may at any time by order in writing direct that he be discharged;

(b) the Director of Marine or any commanding officer may, by order in writing, direct that any person so transferred shall be delivered over to the prescribed custody for the purpose of being brought before an Indian Marine Court either as a witness or for trial or otherwise, and that he shall again be transferred to the prison.

Savings.

76. Except as expressly provided by this Act, nothing in this Act shall affect the jurisdiction or powers of any Court of criminal jurisdiction.

The Indian Marine Bill, 1887.

(Chapter V.—Supplemental Criminal Provisions.—Sections 77-79 Chapter VI.—Provisions of Civil Law.—Sections 80-82)

77. Nothing in this Act shall affect any rules, regulations, conditions or customs of the Indian Marine Service now or hereafter in force under which any person may be liable—

Saving of rules of service.

(a) to dismissal, loss of seniority, disrating, forfeiture or stoppages; or

(b) to any restriction not amounting to custody, or any deprivation of indulgence or additional duty, imposed in the way of discipline.

Amendment of Acts

X of 1882.

78. In the Code of Criminal Procedure, 1882, Amendment of Act X of 1882, section 54 (Arrest of Deserters), section 54, after the words "Army or Navy" the following shall be inserted namely:—

"or of belonging to Her Majesty's Indian Marine Service and being illegally absent from that service."

XLV of 1860.

Amendment of Chapter VII of the Penal Code (Offences relating to Army and Navy).

79. After section 138 of the Indian Penal Code the following section shall be inserted, namely:—

"138A. The foregoing sections of this Chapter shall apply as if Her Majesty's Indian Marine Service were comprised in the Navy of the Queen"

Application of foregoing sections to the Indian Marine Service.

CHAPTER VI.

PROVISIONS OF CIVIL LAW

Exemption from Process.

80. (1) A person below the position of gazetted officer shall not, while subject to this Act, be liable to be taken out of the Indian Marine Service by any process of execution or order of any Court of law, or otherwise, or be compelled to appear in person before any Court of law except in respect of the following matters, or one of them, that is to say:—

Exemption from arrest for debt.

(a) on account of a criminal charge or conviction;

(b) on account of a decree for money, when the amount exceeds three hundred rupees over and above the costs of the suit.

(2) The Judge of any such Court may examine into any complaint made by any such person, or his superior officer, of the arrest of the person contrary to the provisions of this section, and may by order under his hand discharge the person, and award reasonable costs to the complainant, who may recover those costs as he might have recovered costs awarded to him by a decree against the person obtaining the process.

81. The clothes, equipment or arms of a person subject to this Act shall not be seized, nor shall the pay and allow-

ances or any part thereof of any such person below the position of a gazetted officer be attached, in execution of any decree or order enforceable against him by any Court of Civil Judicature.

Property of Deceased Persons and Deserters.

82. The following rules are enacted respecting the disposal of the property of any person subject to this Act who dies or deserts:—

(1) The commanding officer shall secure all the moveable property which is on the spot and cause an inventory thereof to be made

(2) In the case of a deceased person, if his representative is on the spot and gives security for the payment of the ship and service debts of the deceased, the commanding officer shall deliver over the property to that representative.

(3) In the case of a deceased person, if the property is not dealt with under clause (2), and in the case of every deserter, the commanding officer shall cause the property to be sold by public auction, and from the proceeds of the sale shall pay the ship and service debts and, in the case of a deceased person, the expenses of his funeral ceremonies

(4) The surplus, if any, shall in the case of a deceased person be paid to his representative.

(5) In the event of no claim for the surplus of a deceased person's estate being established within twelve months after his death, and immediately after the sale of the effects of a deserter, the amount remaining in the hands of the commanding officer shall be remitted to the Director of Marine

(6) Property deliverable or money payable to the representative of a deceased person under this section may, if the value or amount thereof does not exceed one thousand rupees and the Director of Marine or the prescribed officer thinks fit, be delivered or paid to any person appearing to him to be entitled to receive it, or to administer the estate of the deceased, without requiring the production of any probate, letters of administration, certificate or other such conclusive evidence of title; and such delivery or payment shall be a full discharge to the person ordering or making the same and to the Secretary of State for India in Council from all further liability in respect of the property or money; but nothing in this section shall affect the rights of any executor or administrator or other representative or of any creditor of a deceased person against a person to whom any such delivery or payment has been made.

(7) A person shall be deemed to have deserted within the meaning of this section who has been convicted of desertion, or who has been absent without leave for a period of thirty days from the Indian Marine Service, and has not subsequently surrendered or been arrested.

PART VI.

Debates of the Legislative Council of His Excellency the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR
GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING
LAWS AND REGULATIONS UNDER THE PROVISIONS OF
THE ACT OF PARLIAMENT 24 AND 25 VIC, CAP 67.

The Council met at Viceregal Lodge, Simla, on Wednesday, the 8th June,
1887.

PRESENT

His Excellency the Viceroy and Governor General of India, K P., G.C.B.;
G.C.M.G., G.M.S.I., G.M.I.E., P.C., *presiding*.

His Honour the Lieutenant-Governor of the Punjab.

His Excellency the Commander-in-Chief, Bart, R.A., V.C., G.C.B. K.C.I.E.

The Hon'ble Sir T. C. Hope, K.C.S.I., C.I.E.

The Hon'ble Sir A. Colvin, K.C.M.G., C.I.E.

The Hon'ble Lieutenant General G. T. Chesney, R.E., C.S.I., C.I.E.

The Hon'ble A. R. Scoble, Q.C.

The Hon'ble J. B. Peile, M.A., C.S.I.

The Hon'ble J. W. Quinton, C.S.I.

The Hon'ble Lieutenant-Colonel E. G. Wace

INDIAN STAMP ACT, 1879, AMENDMENT BILL.

The Hon'ble SIR AUCKLAND COLVIN moved that the Bill to amend the
Indian Stamp Act, 1879, be referred to a Select Committee consisting of the
Hon'ble Messrs. Scoble and Peile and the Mover

The Motion was put and agreed to.

GAME PROTECTION BILL.

The Hon'ble MR. PEILE moved for leave to introduce a Bill for the Protection of Game in India. He said :—

" This Bill is not in the nature of a Game law, as might possibly be inferred from its title. The Government of India has never entertained the idea of adding the 'poacher' to the classes on whom the police keep an observant eye. The subject is one which has been frequently under consideration during the last quarter of a century, and the object in view has always been not the protection of private property in game but the protection of the wild creatures themselves from destruction in their breeding season. Even so, the establishment of a close season in a project of law emanating from the Bombay Government was vetoed on the ground that the protection of the *feræ naturæ* from harassment might involve a more serious matter in promoting the harassment of the cultivator of the soil. I believe that Madras is the only Province of the Empire which possesses anything like a game law in the Nilgiris Game Act of 1879, which protects certain game birds from being shot in that district between the 1st March and the 30th September. I am told that under that Act there have been very few convictions, and, as there exists a Nilgiri Game Association, which disregarded an invitation to express an opinion on this Bill, the necessity for further legislation is apparently not very keenly felt there. The conclusion of the Government of India has been that, although opinions vary, there is no strong case for protective legislation of a general kind. This Bill, however, is in no way designed to pursue the unlicensed sportsman on his shooting grounds. It is, in fact, an extension of municipal and cantonment law for the protection, as far as it goes, of animals, defined as game, in their breeding season, and it merely purports to close certain markets against game during that time. It proposes to empower the Local Government, with respect to any municipality or cantonment within the territories under its administration, or the municipal authority or the cantonment-authority of any municipality or cantonment, with the previous sanction of the Local Government, to make rules defining the word 'game' for the purposes of the Act in its application to the municipality or cantonment; to define the breeding season of any kind of game; and to prohibit, under penalty, the possession or sale within the municipality or cantonment of any kind of game during its breeding season. A wide discretion, which no doubt will be exercised with due regard to obvious exceptions, is left to Local Governments in making and sanctioning rules. The Bill introduces nothing new, but it gives legal sanction to a practice which has been in force for some time in Northern India without such sanction, and which would have to be discontinued if it were not made legal."

The Motion was put and agreed to.

The Hon'ble MR. PEILE also introduced the Bill.

The Hon'ble MR. PEILE also moved that the Bill and Statement of Objects and Reasons be published in the Gazette of India in English, and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The Motion was put and agreed to.

INDIAN MARINE BILL.

The Hon'ble LIEUTENANT-GENERAL CHESNEY presented the Report of the Select Committee on the Bill for the better administration of Her Majesty's Indian Marine Service.

ALLAHABAD UNIVERSITY BILL.

The Hon'ble MR. QUINTON moved for leave to introduce a Bill to establish a University at Allahabad. He said :—

" Nearly 20 years ago a large sum of money was contributed by Native noblemen and gentlemen in the North-Western Provinces for the establishment of a central college at Allahabad, the project was sanctioned by the Government of India; and the Secretary of State, to whom the correspondence was communicated,

expressed a hope that the college might thereafter expand into a university for the North-Western Provinces and the Punjab. The college was established in due course and was associated with the name of Sir William Muir, himself a distinguished scholar as well as statesman, who during his long service had been a firm supporter of the cause of education.

"For many years, however, though provided with a name, the college wanted a permanent local habitation, and was obliged to content itself with temporary lodgings in a hired house until suitable buildings could be erected for its accommodation. These were completed and formally opened last year by Your Excellency accompanied by the Lieutenant-Governor. On that occasion Your Lordship was good enough to promise on behalf of the Government of India the most favourable consideration for the proposals of the Lieutenant-Governor for the establishment of a university at Allahabad, which had been called for in connection with the Report of the Education Commission of 1883.

"That learned body held it to be a point worthy of consideration whether a new university should not then be established for the North-Western Provinces and Oudh.

"Those proposals are embodied in the Bill the subject of the present motion, and their general principles have been approved of by Your Excellency's Government and by the Secretary of State.

"Under these circumstances it will be sufficient for me to indicate very briefly and in general terms the main reasons which have led these high authorities to believe that the measure proposed is desirable and necessary.

"The North-Western Provinces and Oudh contain a population of 44 millions, to whom high English education is imparted in five colleges situated at Allahabad, Benares, Lucknow, Agra and Aligarh. The two first are Government institutions, and the three latter are supported mainly by endowments and receive grants-in-aid from the public funds. The liberality of the Taluqdars of Oudh, the intelligent and unwearied zeal and self-sacrifice of my hon'ble friend Saiyad Ahmad Khan Bahadur, and the public spirit of the inhabitants of Agra and the surrounding districts have founded or maintained the colleges at Lucknow, Aligarh and Agra. These are largely resorted to and turn out every year a considerable and increasing number of students who can only obtain the degree which is the crown of their college career by passing the examinations of the Calcutta University. The number of their students who matriculated has risen from 60 in 1869 to 208 in 1885, and is almost double the average number that matriculated for the Bombay University during the first ten years of its existence. The number of undergraduates studying at these institutions has nearly doubled within the last five years, and already exceeds that of many of the smaller universities of Europe. The average number of both M. A. and B. A. degrees has increased by about a third within the same short period, and is greater than the number conferred by the Calcutta University for many years after its first establishment. The value of the teaching given by the colleges is proved by the high places uniformly gained by their students in the university class lists in spite of disadvantages to which I am about to refer. It is no part of my duty, and it is certainly not in accordance with my inclinations, to detract from the credit due to the Calcutta University for the great impetus it has given to the spread of English education. It was founded 30 years ago, when English education outside Bengal was in the most backward condition, and it sufficed then and for many years to supply the needs of the whole of the Bengal Presidency. But its children are now attaining manhood, and the parental home is becoming too narrow for them. The Punjab has already, by founding a university, started on an independent career, and the Provinces to which the Bill refers are equally qualified and entitled to set up a separate establishment. It is an undoubted hardship to them that the flower of their youth should be guided in their studies and subjected to examination by a university in the management of which they have practically no voice, located in what is to them a distant and a foreign capital, and the great advancement of education in those Provinces and the munificence with which these colleges have been endowed fully justify the establishment there of an institution which shall direct the course of education with a regard, so far as may be, properly had to local peculiarities

and requirements. For it must be remembered that the influence of an Indian university is not confined to its own alumni, but affects in a great degree the teaching in every school within the sphere of its operation. Schoolmasters naturally teach their boys what will tell best in university examinations, and omit from their curriculum subjects which are useless for obtaining university distinctions.

"It is contrary to all experience to expect that a single university can suffice for the 60 millions of Bengal and the 44 millions of the United Provinces, or that a system of studies found adequate and satisfactory in the one case must necessarily be equally applicable to the other.

"Even granting this, and admitting—which is a very large admission—that absolute uniformity in the thousands of schools throughout this great area is desirable, the task of examining and testing the merits of candidates is becoming year by year more and more difficult for the examiners and less and less satisfactory to the public and the candidates themselves. It is impossible to devise any system which will secure equality of marking or uniformity in the standard of excellence where so many as 3,000 candidates have to be dealt with, and this is the number which matriculates annually at the Calcutta University.

"The establishment of a local university will satisfy a general desire of the educated community; it will ensure that the course of study in the schools throughout the North-Western Provinces and Oudh will be directed with greater regard than at present for local requirements; it will afford a stronger guarantee for the careful examination of students during their university career, especially as oral examination, quite impracticable under the existing system, can be constantly resorted to; it will meet an increasing demand for high education among the upper classes of Native society, and may fairly be expected to stimulate such education not merely in the North-Western Provinces and Oudh but in the adjoining districts of the Central Provinces and Rajputana, and to evoke in a still greater degree that liberality in the cause of education in which the inhabitants of Hindustan have not hitherto been found wanting."

The Motion was put and agreed to.

The Hon'ble MR. QUINTON also introduced the Bill.

The Hon'ble MR. QUINTON also moved that the Bill and Statement of Objects and Reasons be published in the North-Western Provinces and Oudh Government Gazette in English and in such other languages as the Local Government thinks fit.

The Motion was put and agreed to.

The Council adjourned to Wednesday, the 29th June, 1887.

SIMLA;
The 10th June, 1887.

Offg Secretary to the Govt of India,
Legislative Department.

GOVERNMENT OF INDIA.
REVENUE AND AGRICULTURAL DEPARTMENT.

MEMORANDUM ON THE HIMALAYAN SNOWFALL FOR THE SEASON 1886-87.

Extract from the Proceedings of the Government of India in the Revenue and Agricultural Department (Meteorology), No. 90 Met.—48-2, dated Simla, the 10th June, 1887.

Read the following :

Memorandum on the Himalayan Snowfall for the Season 1886-87.

In accordance with the practice of recent years, I give a résumé of the snowfall reports that have been received during the north-east monsoon period, November 1886 to April 1887, in the India Meteorological Office. The information is smaller in amount than that of the past three years, but is sufficient to enable the general character of the winter snowfall in the Himalayan region to be estimated.

WESTERN HILL REGIONS—The Political Officer, Khyber Pass, reports that on the 29th of December slight rain fell in the Khyber and Tirah hills, and a fall of $1\frac{1}{2}$ feet of snow was received on the higher peaks. A little snow also fell on the Sarghar Range in January, but it quickly melted. No snow fell in February or March. The Afridis stated that there has been very little snow this year in comparison with previous years.

The Deputy Commissioner, Dera Ismail Khan, says that the season has been excessively dry, and that very strong north-west winds prevailed. There was a slight snowfall on the Takht-i-Suleiman in January, but owing to the continued drought it soon disappeared. The snowfall throughout the mountainous country to the west was also unusually scanty.

The Deputy Commissioner of the Bannu District reports generally that in the hills adjacent to Bannu the snowfall in January, February, and March was below the average of previous years.

The Deputy Commissioner, Kohat District, describes the winter in the Kurram Valley as follows: "The snowfall up to the present time (March 11th) is much less than during the corresponding period of last year. The snow of 1886 melted away completely by September. There was a slight fall in October, and moderately heavy snow in November and December."

The Assistant Commissioner, Thal Outpost, sent the following notes of the snowfall on the Safed Koh and neighbouring mountains :

October.—Slight fall on the 7th and 26th on the Safed Koh, which melted away in a couple of days on each occasion.

November.—Heavy snowfall on the Safed Koh on the 24th.

December.—Snow showers occurred on the 3rd, 11th, 13th, 20th, 21st, 22nd, 26th, and 27th. The depth of the snowfall on the 11th on the maidan of Paiwar was $1\frac{1}{2}$ feet. The fall of the 20th to the 22nd extended down to the lower hills.

January.—There were snowstorms on the 9th, 11th, 12th, 13th, 14th, 24th, and 28th. The snowfall of the 9th, 11th, and 12th was heavy on the Safed Koh. The upper portion of the Safed Koh and of the mountains south of Kurram were covered with snow at the end of the month; but the total fall was less than in January 1886.

February.—Snow fell on the 2nd, 10th, 11th, and 19th in the higher districts. The fall on the 19th averaged 2 feet in depth in the higher mountains. The snowfall of February was small in amount compared with that of February 1886.

March.—Light snow fell on the night of the 14th, 15th, and on the 19th, 20th, and 21st on the Safed Koh and higher mountains.

April.—There was a severe snowstorm on the 5th in the higher mountain districts.

MURREE HILLS.—The Deputy Commissioner, Rawal Pindi District, reports that there was no snow at Murree in December; 4 feet fell in January, 5½ inches in February, 4 inches in March, and none in April. The total fall on the hills adjacent to Kahuta during the same period was only 2 feet 2 inches, and fell in January only. The snowfall in this area was very much smaller than during the three preceding winters. The total fall at Murree from January to April 1886 was 15 feet, as compared with 4 feet 9½ inches during the corresponding period of 1887.

LAHOUL AND KULU.—The Reverend A. W. Heyde, writing from Kailang in Lahoul on the 7th March, says: "Since 1st October 1886 up to the present time we have had scarcely 5 feet of snow, whilst during the same period in the preceding year we had 8½ feet; and the southern slopes of the hills in the neighbourhood of Kailang are now completely free from snow up to a height of 12,500 feet."

The following details of the snowfalls during the past season in Kulu have been contributed by the Assistant Commissioner.

January.—On the 8th, 9th, and 10th heavy snow fell at elevations above 6,000 feet and torrents of rain below that height. Between the 11th and 24th there were frequent light showers of snow, extending down as far as 4,200 feet. From the 24th to the end of the month occasional snow fell on the higher mountains.

February.—The weather was very mild during the whole of the month and quite warm during the latter half. There were slight falls of snow on the 3rd and 5th. There was much less snow lying on the hills at the end of the month than at the end of February 1886.

March.—The weather was very warm until the 13th, when a heavy storm occurred which brought the snow-line down to 5,200 feet. The weather was cold during the remainder of the month, and the snow-line was at 8,500 feet at the end of the month.

April.—There were storms on the 5th, 6th, and 17th of the month. The weather was warm and sunny, and the snow melted very fast in exposed situations. The height of the snow-line at the end of the month was about 11,500 feet.

The Resident Commissioner of Kulu has again sent very full and detailed reports of the thickness of the snow covering on different passes. The following is a summary of the data for some of the chief passes in Kulu and Plach:

Name of Pass.		Elevation.	DEPTH OF SNOW AT END OF THE MONTH.			
			January	February	March.	April.
		Feet.				
Kulu ...	Rotang ...	13,500	15	?	13½	7
	Hamtu	14,500	15	?	14	8
	Bhabbu ...	10,000	10	?	9	4
Plach ...	Basleo	10,500	13½	12	8	1
	Jalori	10,000	13	11	6	½
	Srikhand	15,000	32	36	25	19
	Gargarasan ...	17,000	27	28	20	13

The Commissioner notes that the figures are in the great majority of cases very much exaggerated, and that probably the numbers divided by two would

give fairly correct values. He also states that at the end of the month there was no snow below 10,000 feet, and that many hillsides were clear up to a height of 12,000 feet.

BISSAHIR.—The Deputy Conservator of Forests, Bissahir Division, reports that at Kilba 10 inches of snow fell in December, 5 feet 11 inches in January, 1 foot 10 inches in February, and 1 foot 6 inches in March. He also states that there was a great quantity of snow in the Rupa Barung passes (between the Baspa and Palear valleys) at the beginning of March, but that it was melting very quickly and the passes were expected to be open earlier than usual.

LADAKH.—The Reverend F. Redstob sends the following interesting account of the winter at Leh in Ladakh (elevation 11,500 feet): "We have had scarcely any snow during the month of February. According to information I collected from people coming from Dras and Kargyal in the beginning of February on my side of the Zogi pass, they had also little snow. In Dras, they say, only about 3½ feet fell, and in Kargyal and on the Potola pass (13,400 feet high) not more than 2 feet; and the communication over that pass, which is frequently suspended for two months in winter, has been open almost throughout the whole of the past winter. The snowfall to the north must also have been light, as traders managed to cross the Kailas range from the Yarkhand direction even in the middle of January." In a subsequent letter, dated 30th April, he states that the season was backward and the weather cold. He, however, makes no mention of snowfall or stormy weather.

UPPER SUTLEJ VALLEY.—The Reverend F. Redstob, in his letter of 30th April, says that he had just heard from a friend living in the Upper Sutlej valley that the weather was exceedingly dry in December, January, and February. A heavy fall of snow was recorded in March—as large in amount as had fallen in that month during recent years.

THE HILL STATES OF THE NORTH-WESTERN PROVINCES.—The Civil Surgeon, Mussoorie, states that 1 foot 6½ inches of snow fell, chiefly on the 14th and 20th of January. No snow occurred in either February or March. Two feet 7½ inches of snow were recorded on the 14th and 19th January at Nani Tal and 2 feet in the Sub-Himalayan districts of Garhwal.

The Senior Assistant Commissioner, Kumaon, has sent the following statement of snowfall in the Johar Pass and on the neighbouring mountains.

	November.	December.	January.	February.	March.	April.
	Fect.	Fect.	Fect.	Fect.	Feet.	Feet.
Johar Pass	2½	2	2½	1	<i>Nil</i>	<i>Nil</i>
Neighbouring ranges	3	3	3	2	<i>Nil</i>	<i>Nil</i>

SIKKHIM HIMALAYAS.—The following table gives the reported snowfall at seven passes in the Darjeeling District. The December and April returns have not been received in the Simla Meteorological Office.

Name of Pass.	November.	January.	February.	March.
	Ft. In.	Ft. In.	Ft. In.	Ft. In.
Jelep-La	0 2	6 0	3 6	3 7
Cho-La	0 2½	6 3	3 5	3 6
Gnathui-La	0 1½	5 4	3 7	3 7
Dankhia-La	0 3	6 8	3 4	4 4
Thanku-La	0 2	4 10	3 3	3 3
Giagung	0 1½	6 0	3 5	3 5
Nako-La	0 1½	5 7	2 10	2 11

These amounts are, on the whole, greater than the snowfall of the previous year in the same district.

ASSAM HIMALAYAS.—The Deputy Commissioner of Kamrup states that on the Himalayas to the north of his district the fall of snow appears to have

been unusually heavy. The passes were blocked to such an extent that communication with the plains was not effected for at least a fortnight later than the date at which it takes place in normal years.

The Deputy Commissioner of Durrung writes that the Charduar Bhutia Sât Rajas informed him that the snowfall was much heavier than in the previous year. In consequence of this the Bhutias were later in coming down to Tezpur than usual. The Bhutias stated that the snowfall on the Koriapara side was very heavy, and that in January there was an exceptionally heavy snowfall, which blocked all the passes.

The Assistant Political Officer of Sadiya gives his opinion that the snowfall in the neighbouring mountains during December and January was greater than during the same months of the past four years. The temperature was also much lower than usual. All the hillmen with whom he conversed stated that an unusually heavy fall of snow occurred during the early part of the present year.

SUMMARY.—The snowfall reports of the past cold weather season are consistent, and appear to establish the following facts:

1st.—The snowfall in the hills to the west of the Punjab was unusually small in amount and the season exceptionally dry as compared with recent years.

2nd.—In the Western Himalayas (*i.e.*, the Himalayas of the Punjab and North-West Provinces) the winter snowfall was also much smaller than usual. The snow level in March and April was consequently considerably higher than is generally the case in these months, and the passes were open for traffic earlier than usual. The same appears also to have been the case in Ladakh and in the mountain ranges to the north. Hence generally the snowfall over the large mountain area to the north-east and east of the Punjab was considerably below the average amount of the season.

3rd.—The snowfall in the Eastern Himalayas (*i.e.*, the Himalayas of Sikhim, Bhutan, and Assam) was above the average, and the meteorological conditions and weather in that portion of the mountain area north of India were in marked contrast to those of the area further west. The excess apparently increased in amount eastwards, and the fall was so large as to block the passes and delay traffic across them at least a fortnight. So far as can be judged, the heavy snowfall occurred chiefly during the earlier winter months, November to March, and not in April or May.

According to Mr. Blanford's snowfall theory, heavy snowfall during the winter and spring months in the mountain districts encircling Upper India impresses peculiar conditions on the distribution of pressure and the accompanying air motion, which are antagonistic to the advance of the south-west monsoon current over the area thus affected. The partial failure of the monsoon current to penetrate into Upper India is hence followed by partial or complete drought. Mr. Blanford's theory is useful in that it assigns a physical cause for the effect. But our knowledge of the winter snowfall over the large Himalayan region must be very limited and imperfect for many years to come, and it therefore seems to be more practical and safer to judge of the probable character of the approaching monsoon by the antecedent meteorological conditions in India, as these can be ascertained with approximate accuracy from the observations taken daily throughout India.

That the snowfall of the past season has been much smaller than usual in the Western Himalayas is confirmed by the following peculiarities in the weather in Northern India during the north-east monsoon period, November to May:

1st.—The cold-weather rains in Upper India were very deficient in amount and failed almost entirely in some districts.

2nd.—The cold weather terminated earlier than usual, and the months of April and May were exceptionally warm and dry in Upper India. The mean daily temperature in the Punjab was from 5° to 10° above the average during these two months.

3rd.—Pressure has been very considerably below the average in the Punjab and North-Western Provinces.

4th.—The peculiar features were more exaggerated in May than in the preceding months, and the weather was drier in the plains as well as in the hills during that month than it has been for many years. There was also an unusual absence of thunderstorms in the hill districts.

The heavy snowfall in the Eastern Himalayas accompanied and preceded the following abnormal features in the weather in North-Eastern India:

- (1) The pre-monsoon rains (*i.e.*, from January to May) were unusually heavy in Bengal and Behar.
- (2) The season was remarkably cool throughout Bengal and Assam until the middle of May, and the temperature was occasionally as much as 10° and 15° below the normal.
- (3) An unusual number of cold-weather storms affected Bengal, Behar, and Assam, some of which were exceptionally severe. This was more especially the case in March and January.

The meteorological observations of the past five months furnish evidence of other abnormal conditions, which are of great importance in forecasting the character of the south-west monsoon of 1887. But before stating these, a few general remarks on the south-west monsoon will be of value.

The south-west monsoon current is undoubtedly the prolongation of the south-east trade winds. During the months of April and May, whilst temperature is increasing rapidly in the interior, strong sea winds blow in the coast districts of India. These winds, however, are quite local and do not extend to any great distance out at sea. About the middle or end of May a rapid advance of southerly winds takes place from the equator northwards, and these winds bring up general rain to India. Southerly winds, with more or less easterly, extend up to the equator, and southerly winds, with more or less westerly, to the north of the equator in the Bay of Bengal and Arabian Sea. These winds pass over a large sea area and arrive in India charged with aqueous vapour, which is chiefly condensed and precipitated as rain over Burma and India. The very slightest experience shows that the rainfall is distributed very differently in different years, but that during any one year the larger and more prominent features are generally continued throughout the whole season. For example, last year, 1886, the rainfall was steadily and largely in excess during every month of the south-west monsoon period in Behar, and almost as markedly in defect in the Central Provinces. It is therefore certain that there must have been present before and during the rains of 1886 local peculiarities or abnormal features which determined a larger portion of the monsoon rainfall to South Behar and a smaller portion to the Central Provinces than usual.

The following is a statement of the chief peculiarities or abnormal features in the meteorology of India during the five months antecedent to the south-west monsoon period of the present year, and their probable influence upon the monsoon rainfall:

The whole period, January to May, has been marked by pressure considerably below the average for the whole of India. In January there was an average deficiency of .077 inch, in February a slight excess of .008 inch, in March a deficiency of .045 inch, in April a slight excess of .010 inch, and in May a deficiency of .032 inch. There has been for the whole period an average deficiency of .027 inch. Hence pressure has been below the average, but the tendency has been for the deficiency to diminish in amount. This feature was hence less prominent just before the monsoon than it was in January. General deficiency of pressure during the pre-monsoon period is usually followed by an earlier and stronger monsoon than usual. It may be noted that diminished pressure

usually accompanies deficient snowfall in the hills and a high temperature in Upper India.

In addition to this general feature, there are two local features on the large scale, which will probably have a very considerable influence on the distribution of the monsoon rains. These are :

1st.—Pressure relatively to the general average state has been in defect over the whole of North and North-Eastern India—that is, in the Punjab, North-Western Provinces, Central India, the Central Provinces, Bengal, Assam, and Burmah. This area hence formed a deeper sink or trough than usual into which the moisture-laden southerly winds are beginning to pour. The deficiency was small in Burmah, Bengal, and the eastern portion of the North-Western Provinces, and was large in the Punjab, the western districts of the North-Western Provinces, and some parts of the Central Provinces. Those conditions generally accompany a strong monsoon from the Bay of Bengal and favourable or heavy rains over the whole of Northern India.

2nd.—Pressure has been during the same period as uniformly in excess in West and South-West India (including Sind, Guzerat, Bombay, the western districts of the Central Provinces, the Dekkhan, and the southern districts of the Madras Presidency) as it was in defect in Northern and North-Eastern India. The deficiency is large in the districts represented by the stations of Bombay, Poona, Sholapur, and Belgaum. High pressure in the Bombay coast districts appears to act as a partial barrier to the Bombay monsoon current. It retards its commencement and diminishes the rainfall. This abnormal feature was very marked before and during the Madras Famine of 1876-77. There were, however, unfavourable conditions further north in North-Western India which do not appear to be present this year.

It may also be noted that these features were even more marked in May than they were in January.

The following hence appear to be the chief inferences from the present and previous meteorological conditions of the character of the approaching monsoon :

- (1) The general indications are favourable in North-East and North India and somewhat unfavourable in Southern India.
- (2) The Bay of Bengal monsoon current will probably be stronger than usual, and give early and abundant rainfall to Northern India, and more especially in Upper India.
- (3) The Bombay monsoon current will probably be retarded and perhaps be feebler than usual. It will be late in being established on the Bombay coast, and there is a strong probability that the rains will be more or less deficient in the Poona, Sholapur, Belgaum, and adjacent districts.
- (4) Indications are especially favourable to abundant rain in the Punjab and to a less extent in the Central Provinces, and hence it is probable that the high pressure in the Bombay coast districts will be much less influential than in 1876-77, and that it will not do more than slightly retard the Bombay monsoon and diminish the rainfall in the districts above mentioned.

There are also apparently large local abnormal variations at Khandwa, Gya, and one or two other stations, but it is not possible to determine at present whether they are real or are merely due to inaccurate observation.

JOHN ELIOT,

1st June, 1887.

*Offg. Meteorological Reporter
to the Government of India.*

RESOLUTION.—Resolved, that the Memorandum be published in the Supplement to the *Gazette of India*.

GOVERNMENT OF INDIA.
REVENUE AND AGRICULTURAL DEPARTMENT.

SUMMARY OF THE WEATHER REPORT FOR MAY, 1887

Extract from the Proceedings of the Government of India in the Revenue and Agricultural Department (Meteorology), No. 91 Met.--24-9, dated Simla, the 10th June, 1887.

Read the following :

Weather Summary for May, 1887.

The principal features of interest in the meteorology of the past month have been on the one hand the excessive heat and dryness of Upper India, on the other the progress of a well-marked and moderately intense cyclonic storm from the Bay into North Bengal.

Except during the passage of the abovementioned storm, pressure over India has maintained great uniformity in its general distribution. It has been steadily high on the west coast of the Peninsula, low over Orissa, Northern Bengal, and the east of the Central Provinces, and lowest over the Punjab. Compared with the average of the month, there was a slight excess of pressure at Bhuj, along the west coast of the Peninsula, at a few inland stations in the Peninsula, and at Colombo. Elsewhere pressure has been in defect—most so in the Punjab, where at Sialkot and Rawalpindi the deficiency amounted over a tenth of an inch. The largest excess was at Karwar and Mangalore (+ 0.37 inch), the largest defect at Rawalpindi (— 0.104 inch), so that the amplitude of the variation from the normal throughout the whole of India amounted to 0.141 inch.

The winds have been generally very steady. They have been moderate or light from the westward (north-west to south-west) over the west coast, the Peninsula, and the Central Provinces; strong from the southward (south-west to south-east) over the Bay and Bengal; and variable, but generally south-easterly, up the Gangetic valley. On the whole, the Bay of Bengal branch of the summer monsoon has been much stronger and earlier than that on the West Coast. The latter up to the close of the month was very feeble, neither the rainfall nor the strength of the wind on the Malabar and Konkan Coasts being equal to the average. On the contrary, on the Bengal side the southerly winds were generally strong, on some occasions exceedingly so, and the moisture which they brought up occasioned very heavy rain around the head of Bay and as far north-west as Behar.

In Upper India temperature was much above the average, and the air both on the hills and on the plains was excessively dry. At Murree the moisture in the atmosphere was as much as 26 per cent below the normal on the average of the month, and at nearly all places in North-Western India the deficiency considerably exceeded 10 per cent. At Rawalpindi the mean 10 A.M. temperature of the month was almost 10° above the average, but from this point the amount of the excess gradually decreased till over Bengal, the greater part of the Peninsula, and in Burmah it disappeared and was replaced by a deficiency.

Rainfall was deficient over the greater part of the country, but was slightly in excess in the Berars, Khandesh, Orissa, and Lower Bengal, and largely in excess over Northern Bengal and Behar.

The Cyclone—On 23rd May the wind began to blow strongly from south about Cape Negrais, and stormy squally weather prevailed off the West Pegu Coast. The depression which was causing these unsettled conditions subsequently travelled slowly north-westward towards the head of the Bay; on the 24th it lay between False Point and Akyab, on the 25th between False Point and Suigor Island, and in the early morning of the 26th it apparently crossed the Orissa Coast near Balasore, and by 10 A.M. on that day had reached Midnapore. During its progress up the Bay the wind had blown with a well-marked cyclonic circulation,

and had risen to the force of a strong gale (rates of 60 to 63 miles per hour) over the head of the Bay. From newspaper reports the barometer near the centre of the storm fell as low as 28'200 inches; but the lowest reading given by any of the meteorological stations was 28'42 inches at Balasore at 4-30 on the morning of the 26th. After crossing the coast the storm advanced rather quickly through Chutia Nagpur to South Behar, and then, while drifting slowly northward towards North Behar, gradually filled up and disappeared. It occasioned very heavy rainfall all over Orissa, Chutia Nagpur, Behar, and Central and Northern Bengal, the principal amounts beyond those already quoted in the daily reports being—

District.	Station	Date	Inches.
Cuttack	Jugur	26 h May ..	9 15
	Dhumsala	26 h ..	5 00
Balasore	Bhadrak	26 h ..	7 66

W. L. DALLAS,

S M L A, 5th June, 1887

for Meteorological Reporter to the Government of India.

RESOLUTION—Resolved, that the Summary be published in the Supplement to the *Gazette of India*.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

Weather Review of India for the week ending the 8th June, 1887.

During the past week the Bombay monsoon current has broken on the West Coast. It set in somewhat feebly on the Malabar Coast on the 3rd, where heavy rain fell for the first time this season. Karwar received $6\frac{1}{2}$ inches, and Secunderabad, Mercara, Cochin, and Mangalore between 1 and $1\frac{1}{2}$ inches of rain. On the following day the report showed that the influence of this branch of the monsoon was steadily extending, Karwar receiving 5 inches, Goa 3 inches, and Cochin, Mercara, Salem, and Mangalore between 1 and 2 inches of rain. The report of the 6th showed that the monsoon current had, on the preceding day, extended northward as far as Bombay, where a fall of nearly 5 inches of rain had occurred, the amounts registered along other parts of the coast remaining about the same as those of the 5th. The reports received on the 7th showed little change, beyond a slight extension of the rainfall towards the Central Provinces, where Pachmarhi received moderately heavy rainfall. On the 8th there was a slight falling off in the amount of rainfall, due to the Bombay branch of the monsoon current. During the whole week the West Coast current has been rather feeble, and a slight depression has existed off the Bombay Coast; and as a consequence, while the rainfall along the coast was heavy and the weather squally, the monsoon current extended but a slight distance inland, and the Central Provinces, Deccan, &c., have had but little rainfall.

On the opposite side of the Peninsula and in Northern India there has been a steady change from unsettled conditions towards finer weather. From the 1st to the 3rd strongish monsoon winds were blowing at the head of the Bay, bringing up much cloud and occasioning heavy falls of rain in Burma and Bengal. Among these falls the most important were—

		Inches
Bogra 15.6 on the 1st
Silchar		... 11.25 on the 1st and 2nd.
Serajgunj 10.42 on the 1st.
Dhubri 4.5 on the 1st
Rangoon		... 4.2 on the 1st and 2nd.

After the 3rd the force and the rain-bearing qualities of the Bengal current both decreased. At first local showers occurred in several parts of Bengal and Burmah; but these gradually fell off, and by the 8th an almost complete break in the rains obtained over the whole of Northern India, and the only rainfall pertaining to this branch of the monsoon was in Burmah.

In Upper India the weather was somewhat unsettled at times, and on the 2nd and 3rd thunderstorms occasioned rather heavy falls of rain on and near the hills of the Punjab and the North-Western Provinces.

The mean pressure of the week has been generally about the average of the month; but along the West Coast and also over the Berars and Central Provinces there has been a deficiency, the sudden fall of pressure in these regions being connected with the sudden extension northward of the monsoon current on the West Coast.

Temperature also shows but little departure from the monthly average, except in the case of the Central Provinces and Berars, where there is an excess of 5° . In the Punjab and North-Western Provinces the heat since the previous

week has considerably decreased, though maxima exceeding 110° were still reported from those Provinces, Rajputana, and Sind.

Division.				No. of stations.	Total Rainfall.
Burma	6	28 42
Bengal and Assam	16	43 19
N W Provinces and Oudh	9	4 69
Punjab	9	2 55
Hill Stations	6	6 70
Ceylon	1	4 53
Malabar Coast	5	29 04
Bombay	9	51 21

Sind—Rajputana	6	0 44
Madras	14	8 34

W. L. DALLAS,

for Meteorological Reporter to the Government of India

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 5th JUNE, 1887.

• **GENERAL REMARKS.**—Rain in varying quantities has fallen generally throughout Madras, Bombay, Bengal, Assam, and Mysore; and showers have also occurred in several districts in the North-Western Provinces and Oudh and the Punjab and in parts of Rajputana.

• The rainfall was general in Burma during the fortnight ending 4th June.

Kharif cultivation is progressing in Bombay, the Punjab, the Central Provinces, Berar, and Rajputana. Sowings have commenced in parts of Bombay and Rajputana and in the eastern districts of the North-Western Provinces and Oudh, and continue in the Punjab.

The prospects of the standing crops in Madras and Mysore are good.

The early rice in Bengal and Assam promises well, but the recent heavy rain in Bengal has caused some damage to the crop. Rice sowings are in progress in the Central Provinces and have commenced in Bombay.

Sugarcane is doing well in Bengal, and the crop is being irrigated in the North-Western Provinces and Oudh.

Indigo has suffered from rain in one district in Bengal, but the general condition of the crop is good; the irrigation of the crop continues in the North-Western Provinces and Oudh.

Cholera has increased in the North-Western Provinces and Oudh, and there has been a large mortality from the disease in the Sholapur district of the Bombay Presidency. Fever of a severe type also exists in the Ahmednagar district. In the Central Provinces fever and small-pox are prevalent in most districts. Elsewhere the public health is generally good.

Prices are rising in the North-Western Provinces and Oudh and in parts of Rajputana and the Central Provinces, and fluctuating in the Punjab. Elsewhere they are generally steady.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Madras—(June 8th)		
Bellary	Average last week since revised, '15; this week, '63.	Standing crops generally good. Harvest paddy, yield about average. Cholera increasing in four and cattle-disease also increasing in four taluks.
Kurnool	Average '72	Lands being ploughed for next crop. Small-pox in three, cholera in one, and cattle-disease decreasing in five taluks.
Ganjam	Average '40	Small-pox prevalent. Fever in five divisions. Cholera decreasing, and cattle-disease in one taluk.
Kistna	Average '21	Standing crops good. Slight fever. Cholera decreasing in four and cattle-disease increasing in three taluks.
Chingleput (Madras) .	Average '23	Standing crops fair, but withered to some extent. Harvest paddy, outturn bad. Small-pox in one taluk.
Coimbatore	Average '75	Standing dry crops generally good. Harvest <i>cholum</i> , outturn above average. Fever in one, and cattle-disease increasing in two taluks.
Tanjore	Average '66	Standing crops generally good. Harvest paddy and gingelly, outturn up to average. Very slight cholera.
Madura	Average '32	Health of people and cattle generally good.
Malabar	Average 4'12	Harvest third crop paddy, outturn about average. Fever in two and slight small-pox in nine taluks.
Travancore	3'71	Paddy improving. Small-pox and fever in places.
Bombay—(June 8th)		
Karachi	Nil	River at Kotri on 6th, 9 feet 10 inches against 13 feet 3 inches on same date last year. <i>Kharif</i> transplanting in progress in four talukas. Seedlings injured by high winds in Sakro taluka. Fever in seven talukas. Wheat, red rice and <i>bajri</i> in Karachi 22, 30 and 32 and in Mirpur Batoio 20, 48 and 40 pounds per rupee, respectively.
Hyderabad	Nil	Rabi harvesting continues in four talukas. <i>Kharif</i> cultivation in progress. Fever in three, small-pox in two, and cattle-disease in one taluka. River at Kotri on 6th, 9 feet 10 inches against 13 feet 3 inches on same date last year. Wheat 24, <i>bajri</i> 38, <i>jowari</i> 40, white rice 20, and red rice 30 pounds per rupee.
Ahmedabad	'38	Preparation for <i>kharif</i> cultivation in progress. Public health good. Wheat 28 and <i>bajri</i> 31 pounds per rupee.
Baroda	Public health good. Measles in Amreli. Land under preparation for sowing. <i>Bajri</i> 28, wheat 19 and rice 20 pounds per rupee.
Surat	Nil	Field operations continue. Cattle healthy. Cholera in some villages of Pardi taluka. <i>Jowari</i> 35 and <i>nagli</i> 44 pounds per rupee.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Bombay—contd.		
Nasik	Rain in ten talukas—maximum at Igat-puri, 2·36 and minimum at Malegaon, '01.	Preparation for <i>kharif</i> sowing in progress throughout the district. Cholera at Nasik, 2 attacks, 1 death; at Yeola, 8 attacks, 8 deaths. Appearance of small-pox in one village of Kalwan taluka. Wheat 24½, <i>bajri</i> 36½ and rice 20½ pounds per rupee.
Colaba (Bombay) . .	Rain every day except on 3rd; heavy on 5th and 6th; total of week 7·27, total from 1st January 7·38, being 4·32 above average.	Abnormal temperature <i>nil</i> on the 1st, 1° cool on 2nd, 1° warm on 3rd and 4th, and then gradually fell to 6° cool on 7th. Vapour in air normal. Wind normal from 1st to 5th. Abnormal wind from north-east on 6th and from east (and strong) on 7th. Lightning on 4th Thunderstorm on 5th. Thunder and lightning on 6th.
Poona	Rain throughout the district—maximum at Bhimthari, 1·70 and minimum at Petha Mulshi, '04.	Land is being prepared for cultivation in Indapur, Purandhar, and Bhimthari talukas. Sowing of <i>hundi</i> completed in Petha Baramati and that of <i>moong</i> nearly in progress in Sirur taluka. Public health generally good. Slight cattle-disease in Indapur and Purandhar talukas. <i>Bajri</i> 43 and <i>jowari</i> 54 pounds in the district, and <i>bajri</i> 37 and <i>jowari</i> 48 pounds per rupee in Poona city.
Ahmednagar	Karjat, 2·30; Rahuri, '99; Newasa and Jamkhed, '50; Kopergaon, '47; rain very slight in four and none in two remaining talukas.	Cholera slight in Nagar, Jamkhed, Sheogaon, Rahuri, and Kopargon. Fever severe in Newasa, total attacks 157, deaths 46. <i>Bajri</i> 39 and <i>jowari</i> 53 pounds per rupee.
Sholapur	Sholapur, 1·82; Barsi, 2·46; Madha, '71; Karmala, '62; Pandharpur, 1·37; Sangola, '60, and Malvas, 60.	Cattle-disease in Sholapur, Pandharpur, and Sangola talukas. Cholera partly in all talukas, out of 435 cases, 160 fatal. <i>Jowari</i> 58½ and <i>bajri</i> 50½ pounds per rupee.
Dharwar	Rain throughout the district, except in Kalghatgi—maximum at Mundargi, 3·21 and minimum at Mugud, '20.	Ground being prepared for early crops. Sowing of rice commenced in Bankapur and retarded for want of sufficient rain in other talukas. Scarcity of fodder in Nawalgund and of drinking water in Nawalgund, Gadag, Ranibennur and Kod talukas. Public health generally good. Cholera in Gadag and Ranibennur talukas, cases 35, fatal 14. Cattle-disease in Nargund Petha. Rice 24 and <i>jowari</i> 55½ pounds per rupee.
Kanara	Karwar, 14·87 (total 17·92); Kumpta, '80; Honore, 2·65; Sirsi, '40; Yellapur, '20.	Monsoon set in on 4th. Sowing continues. Seeds sprouted on coast. Common rice in Karwar and district average 12½ seers per rupee.
Rajkot	'90	Small-pox in Virpur. Measles in Rajkot, Samadhiala and Luni. Cattle and foot disease in Kharwa, Luni and Ankhan. Wheat 24 and <i>jowari</i> 29 pounds per rupee.
General Remarks. —More or less rain in parts of thirteen districts of the Presidency Proper. <i>Kharif</i> sowing commenced in a few districts. Fever and small-pox in parts of six, cholera in parts of eight and cattle-disease in parts of nine districts.		
Bengal—(June 8th)		
Chittagong (June 7th)	2·92	Weather hot, with occasional showers. Prospects of <i>aus</i> fair. Out-turn of spring crops 12 annas. Prices stationary. Cholera still reported.
Dacca	2·85	Prospects of crops good. Sowing of <i>aman</i> continues. Rivers rising fast. Public health good.
24-Pergunnahs (Calcutta).	1·18	Early rice and other standing crops prosper. Sowing still continues. Public health fairly good.
Khoolna	2·69	Weather sultry. Storm and rain on night of 4th. Sowing of <i>aus</i> and ploughing of <i>aman</i> going on. <i>Til</i> crops good. Public health good.
Moorshedabad . . .	7·39	Weather still hot, though heavy rain at beginning of week. <i>Bhadoi</i> prospects good. <i>Aman</i> being sown. <i>Boro</i> harvesting over. Public health good.
Pubna	3·08	Crops doing well. Rain has much benefited them. Rivers rising. Public health good.
Dinagepore	6·78	Heavy rain has caused some damage to <i>bhadoi</i> and jute. Cholera reported from Atwari outpost and small-pox from Pirganj.
Rungpore	4·02	Weather cool. Crops somewhat damaged by flood. Cholera diminishing.
Midnapore	0·49	Weather again sultry. Sowing of <i>aman</i> begun.
Burdwan	0·40	Weather sultry. Cultivation in good progress. Public health good. Cattle-pox in Cutwa.
Bhagulpore	0·39	Late heavy rain has done some damage to early rice seedlings and to <i>rabi</i> on threshing floors. <i>Bhadoi</i> prospects good. Indigo doing well. Cholera abating.
Farneah	9·64	Crops doing well, except indigo and <i>moong</i> , which have suffered much from heavy rain. Highlands being ploughed. Public health fair. Rivers rising.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Bengal—contd.		
Durbhanga	1'33	Prospects of early rice and indigo continue satisfactory. <i>Moong</i> considerably injured by late rain. <i>Bhadai</i> sowing begun. Cholera reported from Madhobani.
Chumparun	1'05	Rain very beneficial to indigo. Sowings on lowlands completed. Cholera still prevalent, but rain has diminished number of cases.
Patna	7'01	Weather hot and close. Fields being prepared for <i>bhadai</i> sowings. Prospects of sugarcane fair. Cholera prevalent in Barh and Behar subdivisions.
Gya	Nil	<i>Mukai</i> and <i>marua</i> being sown. Sugarcane doing well. Cholera still reported from south portion of the district. Fever and small-pox also reported.
Hazareebagh . . .	Nil	Weather unsettled and cloudy. Sowings in progress. Sugarcane doing well. General health good.
Cuttack	Nil	Weather hot, but cloudy at times. Sowing of rice in progress. Plants coming up in some places. Public health good. Cyclone of 25th May greatly damaged houses and trees in coast tract. Loss of cattle reported from Kanika estate.
General Remarks. —Weather close. Rain in all districts, except Gya, Hazareebagh, and Cuttack, especially heavy in Northern Bengal districts. Prospects of crops generally good, some loss is reported from excessive rain. <i>Amson</i> cultivation and <i>bhadai</i> sowings are going on. Cholera still prevalent in Patna division. Elsewhere public health is good. The cyclone of 25th May did some damage to trees and houses on coast of Cuttack and Balasore.		
N.-W. Provinces and Oudh—(June 8th)		
Benares (June 7th)	Markets dull. Prices steady. A few cases of cholera, otherwise health good.
Ballia („ 6th)	40 at Sadr	Weather cloudy. <i>Kharif</i> sowing commenced in some places. Isolated cases of cholera reported from the interior.
Gorakhpore („ „)	2'0 at Sadr	Prices stationary. Cholera decreasing.
Fyzabad („ 7th)	Weather cloudy. Supplies plentiful. Prices stationary. Cholera in all tahsils.
Lucknow („ 6th)	60 at Sadr on the 4th.	Weather cloudy. Fields being manured. Markets well supplied. Prices slightly rising. Public health good. No cattle-disease.
Rai Bareilly („ „)	Weather cloudy. Prices slightly rising. Cholera prevailing almost throughout the district.
Partabgarh („ 7th)	Weather hot and cloudy. Prices steady. Cholera continues.
Allahabad („ „)	Weather cloudy and close. Markets full. Prices fairly steady. Cholera still continues in Trans-Ganges and Trans-Jumna tracts, otherwise health good.
Cawnpore („ „)	Slight rain	Weather cloudy. Prices slightly risen. Sporadic cholera in city and cantonments. Fever and small-pox in places.
Banda („ 6th)	20 at Sadr on 4th	Intense heat. Supplies ample. Prices stationary. Cholera in seven tahsils. Cattle-disease in one village.
Farakhabad („ 7th)	Slight rain	Weather hot, but cloudy. Sugarcane and indigo being irrigated. Supplies ample. Prices rising. Health fair. No cattle-disease.
Sitapur („ „)	90 at tahsil Sidhauri	Winds generally easterly. Prices rising. Health of people and cattle good.
Bareilly („ „)	Slight rain	Weather cold. Prices stationary. Slight cholera in tahsil Baheri.
Kumaon („ „)	Slight partial showers	Weather fair, with occasional clouds. <i>Kharif</i> sowings in progress. Prices stationary. Severe cholera in pargana Shor, 47 deaths during the week. Cattle-disease on decrease.
Agra („ 6th)	Weather cloudy. Cane, indigo, &c., being irrigated. Prices rising. Small-pox in city. General health good.
Jhansi („ „)	Weather cloudy and hot. Slight rise in prices. Cholera extending. Some small-pox and cattle-disease prevalent.
Meerut („ 7th)	2'30	Heavy storm on 3rd. Cane and indigo flourishing. Supplies sufficient and prices steady. Fever prevalent.
General Remarks. —Rain has fallen in several districts. The fall was heaviest in Meerut and Gorakhpore. Cane and indigo crops are flourishing. <i>Kharif</i> sowings have begun in the eastern districts. Markets well supplied, but prices are rising. Cholera has increased, and some districts report fever and small-pox. Health of cattle generally good.		
Panjab—(June 8th)		
Hissar (June 7th)	Slight rain	Health good. Prices stationary.
Delhi	40	Health good. Prices fluctuating.
Umballa	1 40	Health fair. Prices stationary. <i>Kharif</i> ploughings commenced.
Jalandur	1 60	Health good. Prices falling. <i>Kharif</i> ploughings commenced.
Ferozepore	10	Health good. Prices stationary.
Amritsar	20	Health good. Prices stationary.
Sialkot	90	Health good. Prices stationary.
Lahore	No report received.
Multan	10	Health good. Prices almost stationary. <i>Rabi</i> crops nearly garnered. <i>Kharif</i> sowings in progress.
Rawalpindi	Slight rain	Health good. Prices rising. <i>Rabi</i> crops reaped.
Shahpur	Nil	Health good. Prices high, but falling. <i>Kharif</i> sowings in progress.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Punjab—contd.		
Dera Ismail Khan	Nil	Health good. <i>Rabi</i> crops nearly harvested, outturn much below average.
Peshawar	Nil	Health fair. Prices falling. Sowings progressing.
		<i>General Remarks.</i> —Rain has fallen in all districts, except Shahpur, Dera Ismail Khan, and Peshawar. Health is good, except in Umballa and Peshawar, where it is fair. Prices are fluctuating in Delhi, falling in Jullundur, Shahpur, and Peshawar, rising in Rawalpindi, elsewhere stationary. <i>Rabi</i> operations nearly completed in Multan, Rawalpindi, and Dera Ismail Khan. In Dera Ismail Khan the outturn is much below average. <i>Kharif</i> ploughings commenced in Umballa and Jullundur and sowings in progress in Multan, Shahpur, and Peshawar.
Central Provinces— (June 8th)		
Nagpur	16	Weather cloudy and hot. Land being prepared for <i>kharif</i> . Fever and small-pox prevalent. Prices steady.
Jubbulpore		Weather cloudy and hot. Cholera still present. Prices steady.
Saugor		Weather hot, cloudy and windy. Ploughing continues. Slight cholera. Fever prevalent. Prices rising.
Seoni		Weather hot, cloudy and windy. Fields prepared for <i>kharif</i> sowings. Small-pox in districts. Prices steady.
Hoshangabad		Weather cloudy and warm. Ploughing in progress. Small-pox in places. Fever prevalent. Prices stationary.
Khandwa		Weather clear and warm. Preparations for <i>kharif</i> sowings continue. Small-pox continues. Prices rising.
Raipur	40	Weather hot and cloudy. Manuring of fields nearly finished. Sowing of <i>dhan</i> broadcast commenced. Cattle-disease in Dhamtan. Prices steady.
Bilaspur	Occasional showers	Weather hot and cloudy. Rice cultivation progressing. Small-pox and cattle-disease prevalent. Prices falling.
		<i>General Remarks.</i> —Weather hot and cloudy, with slight rain in places. Land being prepared for <i>kharif</i> sowings. Rice sowings commenced in Chhatargarh. Fever and small-pox in most districts.
Burma—(June 1st)		
Akyab (May 28th)	1'04 (Total rainfall to date 18'04).	Slight cholera in district, none in town.
Bassein	1'81 (Total rainfall to date 8'42).	
Rangoon	1'38 (Total rainfall to date 13'04).	
Amherst (Moulmein)	2'10	
Tavoy	1'49 (Total rainfall to date 22'63).	
Pegu	2'05 (Total rainfall to date 19'04).	Slight cattle-disease.
Henzada	5'45 (Total rainfall to date 8'16).	
Prome	1'14 (Total rainfall to date 3'19).	
Toungoo	1'61	Prices of paddy rising.
Thayetmayo	1'05	
Shwebo (May 21st)	1'07 (Total rainfall to date 3'31).	Spring crop commenced producing grain.
Kyaukse	5'58	
Myingyan	6'61 (Total rainfall to date 5'91).	Some cases of measles and small-pox. Food-supply sufficient and prices ordinary.
Mandalay	15 (Total rainfall to date 8'75).	Slight increase of measles in town. Reaping of spring crops continues. Transplanting of <i>kaukkyi</i> crops progressing. Food-supply sufficient. Prices ruling high.
		<i>General Remarks.</i> —Public health of Lower Burma satisfactory. Slight cattle-disease prevalent. Ploughing begun on lowlands in Tavoy. Reports received from six Upper Burma districts. Public health generally good.
Burma—(June 8th)		
Akyab (June 4th)	1'08 (Total rainfall to date 19'96).	
Bassein	5'16 (Total rainfall to date 13'58).	Two deaths. Cattle-disease in one township.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Burma— <i>contd.</i>		
Rangoon	6.67 (Total rainfall to date 20.61).	One case of small-pox in town.
Amherst (Moulmein)	5.70 (Total rainfall to date 22.0).	Ploughing commenced.
Tavoy	4.86 (Total rainfall to date 27.49).	Ploughing progressing.
Pegu	5.79 (Total rainfall to date 25.73).	
Henzada	3.82 (Total rainfall to date 11.93).	
Prome	1.73 (Total rainfall to date 4.92).	A case of cholera in one township.
Toungoo	3.94 (Total rainfall to date 11.4).	Prices of paddy rising.
Thayetmayo07 (Total rainfall to date 3.13).	
Swebo (28th May)85 (Total rainfall to date 4.16).	One case of small-pox.
Kvaukse20	Some cases of measles and small-pox. Food-supply sufficient and prices ordinary. Food-supply sufficient. Prices normal. Spring crop harvest commenced. <i>General Remarks.</i> —Cholera prevalent in Thongwa district, otherwise public health generally good. Slight cattle-disease here and there. Reports received from six Upper Burma districts. Public health and crop prospects good.
Myingyan		
Minbu31	
Yamethen55	
Assam—(June 8th)		
Gauhati (June 7th)	6.95	Weather rainy. Public health fair. Cattle-disease still reported from Mouzah Beltola. Prospects of crops good.
Sylhet	25.74	State of crops good. Prospects less favourable than the preceding weeks, owing to sudden and heavy fall of rain.
Cachar	1.22	Weather cloudy, with rain for first five days of the week. Ploughing for <i>sadi</i> crops continues. Common rice 12 seers 4½ chittacks per rupee. Prospects of <i>dumai</i> and <i>murali</i> crops and tea fair. General health good.
Dibrugarh	7.83	Weather rainy. Prospects of <i>ahu</i> good. Ploughing for <i>sadi</i> progressing. Tea doing well. Health fair.
Mysore and Coorg— (June 8th)		
Bangalore	At Mysore, 1.24; more or less rain throughout the State: 9.81	Standing crops in good condition. Prospects of season continue favourable. Public health good. Small-pox and cattle disease prevalent in affected parts. No material change in prices.
Mysore		
Mercara		
Berar and Hyderabad— (June 8th)		
Amraoti		Intense heat. Ploughings for <i>kharif</i> sowings continue. Slight fever in two taluks. Wheat 15 and <i>jowari</i> 26 seers per rupee.
Akola		Weather very warm and sometimes cloudy. Cholera beginning to appear in a few places. Small-pox and cattle-disease prevalent.
Hyderabad	Average .57 (total .72)	Reaping of <i>tubi</i> crop finished. Prices—wheat 13, coarse rice 12, white <i>juar</i> 13½, yellow <i>juar</i> 19½ and <i>tur</i> 14½ seers per current sicca rupee.
Central India States— (June 8th)		
Indore08	Monsoon apparently approaching.
Gwalior		Health good. Intense heat.
Neemuch		Health good. Prices rising. Scarcity of water. Weather seasonable and warm.
Goona		Prices stationary. Health and prospects good.
Sutna		Eleven cases of cholera reported from Rewah in five days, also four cases from Govindgarh, but not epidemic, otherwise health and prospects good.
Agar		Health and prospects fair.
Sehore		Weather hot and cloudy. Health good.
Nowgong		Weather hot during day, but nights cool. Health fair. Prices steady.
Bhopawar		Weather sultry. Health good. Prices stationary.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Rajputana—(June 8th)		
Abu (June 8th)	.50	Weather windy, occasionally cloudy and sultry
Sirohi (" 5th)	Nil	Tanks dry, wells good. Health good. Weather fine and occasionally cloudy. Heat moderate. Westerly wind.
Marwar (" 4th)	Nil	About two months' water in Jodhpore city tanks. Health good. Rabi harvesting over. Winds strong and dusty. Weather less hot. Nights close and hot. Markets tight.
Pertabgurh (" ")	Nil	Little water in wells. Weather good. Prices rising.
Meywar (" ")	Nil	Tanks and wells low. Health good. Prices stationary. Heat somewhat less.
Haroti (" ")	Nil	Weather cloudy and hot. Winds blowing. Health good.
Jhalawar (" 6th)	Showers in places	Health good. Heat great.
Ajmere (" 7th)	Nil	Weather hot. Cattle-disease and small-pox reported in some villages, otherwise health good. Ploughing operations commenced. Wheat 24 and barley and gram 41½ pounds per rupee.
Jesore (" ")	Slight showers on 4th	Weather reasonable. Prices high.
Kerowlee (" 4th)	Nil	Tanks dry, wells drying. Sowings commenced. Small-pox decreasing. Health good. Prices steady. Weather very hot, with storms.
Dholepore (" ")	Nil	Wells drying, tanks almost dry. Sugarcane being irrigated. Fever and small-pox still reported. Prices stationary. Very hot winds.
Bhartpore (" 7th)	Nil	Heat great. Health fair. Wells low. Prices steady.
Ulwar (" ")	Sight rain	Dust-storms. Fever and small-pox continue. Prices steady.
Kotah (" 4th)	Nil	Weather reasonable. Health good.
Kherwara (" 5th)	Nil	Tanks and wells lower. Health good. Prices steady. Weather unchanged.
Bikanir (" 4th)	Slight rain	Fever in four districts and small-pox in one. Prices rising. Weather very hot and stormy.
Nepal—(June 3rd)		
Katmandu (June 2nd)	2.42	Weather close and sultry. Much thunder and heavy showers during the week. Prospects fair.

E. C. BUCK,

Secretary to the Government of India.

GOVERNMENT OF INDIA.
PUBLIC WORKS DEPARTMENT.
RAILWAY TRAFFIC.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY

The Indian Law Reports, published under the authority of the
Governor General in Council, appear in monthly parts, pub-
lished as soon as possible after the first of each month at Cal-
cutta, Madras, Bombay, and Allahabad, and comprise four
series,—one for the Calcutta High Court, a second for the
Madras High Court, a third for the Bombay High Court, and
a fourth for the Allahabad High Court. The cases heard by
the Privy Council on appeal from each High Court are
reported in the series for that High Court. Cases heard by
the Privy Council on appeal from Provinces in India not sub-
ject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, the
copies for subscribers registered by Messrs Thacker, Spink
& Co are distributed by that firm, and the Madras, Bombay
and Allahabad Series are distributed direct from Madras,
Bombay, and Allahabad respectively.

In supersession of previous advertisements, on and from the 1st
January, 1885, the terms of subscription and sale will be as
follows —

Terms of subscription, payable annually in advance
For the complete Series, including postage Rs 22 8

	With out postage Rs 10 0	With postage Rs 12 0

PUBLISHED BY AUTHORITY

CALCUTTA, SATURDAY, JUNE 11, 1887

Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART III.

Advertisements and Notices by Private Individuals and Corporations.

IN THE MATTER OF THE INDIAN COMPANIES ACT, 1882, AND OF THE BEHAR TRAMWAYS COMPANY, LIMITED.

By an order made by the High Court of Judicature at Fort William in Bengal in the above matter, dated the 2nd day of June, 1887, on the petition of the Agra Bank, Limited, it was ordered that the said Behar Tramways Company, Limited, be wound up by the Court under the provisions of the Indian Companies Act, 1882, and it was further ordered that within twelve days from the date thereof that order be advertized once in the *Gazette of India*, once in the *Calcutta Gazette*, once in one of the Calcutta daily papers, and once in a Behar paper, and once in the *Pioneer*, and that three copies of that order be sent to the District Judge of Patna, one to be put up on the notice board of his court, one on the notice board of the Municipal Office, Patna, and one on the notice board of the Subordinate Judge's Court at Patna.

MORGAN & CO,
Petitioners' Attorneys.

PROMISSORY NOTES.

Lost or Stolen.

The Government Promissory Note No. 225114, of the 4 per cent. loan of 1865, for Rs 500, originally standing in the name of the Bank of Bengal, and last endorsed to Dhunjeebhoy Merwanjee Jeejeebhoy, and Peroshaw Merwanjee Jeejeebhoy, the proprietors, by whom it was never endorsed to any other person. Payment of the above note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of a duplicate in favour of the proprietors.

DHUNJEEBHAY PEROSHAW,
MERWANJEE JEEJEEBHAY,

SUPPLEMENT TO
The Gazette of India.

No. 24.]

CALCUTTA, SATURDAY, JUNE 11, 1887

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem fit of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees 12 per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the pages of the GAZETTE must be looked to.

EXTRAORDINARY.

PUBLISHED BY AUTHORITY.

SIMLA, THURSDAY, JUNE 16, 1887.

MILITARY DEPARTMENT.

FIELD OPERATIONS.

Simla, the 16th June, 1887.

No. 434.—His Excellency the Viceroy and Governor-General in Council is pleased to direct the publication of the accompanying letter, dated the 7th May, 1887, from the Adjutant-General in India, forwarding despatches from the General Officers Commanding the Upper Burma Field Force and the Eastern Frontier District, bringing to notice the good services of the troops during the operations which have taken place in Burma since the capture of Mandalay.

The Governor-General in Council, in G. G. O. No. 295 of the 14th May, 1886, placed on record his estimation of the services of the officers and men in the operations at the end of 1885, which resulted in the capture of Mandalay. And in G. G. O. No. 435 of this date His Excellency in Council publishes to the Army an expression of the appreciation shown by the Government of India and by Her Majesty's Government, of the services rendered by Major-General Sir G. S. White, K.C.B., V.C., and the commanders, officers, and men of that portion of the force which occupied Upper Burma during the summer of 1886.

The Governor-General in Council now takes the opportunity of the return to India of a large portion of the field force, to signify the cordial recognition of the Government of India of the distinguished manner in which the Army has acquitted itself during a series of arduous and protracted operations.

His Excellency in Council congratulates the Army upon the spirit which has been shown by all ranks in confronting the difficulties inseparable from a campaign, carried on over a vast extent of country, amidst dense jungles and forests, and under great stress of climate,—conditions which have called forth high military qualities. The difficulties and hardships of the campaign have not been overcome without heavy loss; and the Governor-General in Council

deplores the death of many brave officers and men, in action and from disease, who have fallen in the discharge of their duty to their Queen and Country.

When the lamented death, in October, 1886, of that distinguished soldier, the late Sir Herbert Macpherson, had deprived the Army of one of its best officers, and the State of one of its most trusted servants, the Commander-in-Chief in India proceeded to Burma to assume the chief command.

To General Sir Frederick Roberts, G.C.B., V.C., Commander-in-Chief in India, the Governor-General in Council tenders his sincere and grateful thanks, not only for the skilful plans of operations prescribed by him in that capacity, but also for the able and vigorous manner in which he personally directed and carried out those plans while holding the immediate command of the Army in Burma. His Excellency in Council desires also to express his thorough appreciation of the valuable services rendered in that command by Lieutenant-General Sir Charles Arbuthnot, K.C.B., Commander-in-Chief of the Madras Army, who succeeded to the duty of completing those operations on the return of Sir Frederick Roberts to India,—a duty performed to the entire satisfaction of the Government of India.

The Governor-General in Council fully concurs in the approbation expressed by the Commander-in-Chief in India of the services rendered by the officers of the Head-Quarters of the Army in India, who accompanied His Excellency to Burma, and of the Head-Quarters Staff of the Madras Army employed in that country.

The admirable services rendered by Major-General Sir George White, K.C.B., V.C., in command of the Upper Burma Field Force throughout the whole of the operations,—the skill and capacity with which he exercised the command of the large and widely extended force under his orders during the most trying

season of the year, and subsequently directed the comprehensive operations under the Commander-in-Chief's orders during the past cold season with such marked ability and success,—call for the particular acknowledgment and approbation of the Governor-General in Council. The good services of the officers of the Divisional Staff under Major-General White have also merited the thanks of the Government of India.

The Governor-General in Council highly approves of the judgment and conduct shown in their important commands by Brigadiers-General C. J. East, H. S. Anderson, R. C. Stewart, A. T. Cox, and M. C. Farrington, and of the great vigour and ability displayed by Brigadiers-General R. C. Low, C.B., and W. S. A. Lockhart, C.B., C.S.I., in the extensive field operations carried out by their brigades. The merits of the officers of the Staff of the Brigadiers-General are also recognized by His Excellency in Council.

The thanks of the Government of India are due also to Major-General B. L. Gordon, C.B., Royal Artillery, commanding the Lower Burma Division, for valuable cooperation throughout the campaign, and to Major-General J. J. H. Gordon, C.B., commanding the Eastern Frontier District, for his good work during the field operations connected with the opening up of the country between Manipur and Kandat.

The Governor-General in Council desires to thank the Commanding Royal Engineer, Captain A. R. F. Dorward, D.S.O., Royal Engineers; Lieutenant-Colonel A. F. Laughton, C.B., Principal Commissariat Officer; Captain T. P. Cather, Royal Engineers, Director of Transport; Captain H. F. S. Ramsden, Field Paymaster; and Deputy Surgeon-General G. Farrell, C.B., for the ability and efficiency with which they have conducted their duties, and to express his acknowledgments of the services of the officers and subordinates of their departments or branches. His Excellency in Council recognizes with much satisfaction the excellence of the arrangements made by Colonel H. P. Hawkes, the Commissary-General of the Madras Army, for the supply of the troops, and begs to thank Colonel Hawkes, and the officers of the Commissariat Department at Rangoon, Colonel E. S. Berkeley, Major W. Cooke, and Captain S. C. F. Peile, for their exertions. His Excellency wishes also to express his appreciation of the services of the Medical Department at Rangoon, under Deputy Surgeon-General J. McN Donnelly.

The labours of the Public Works and Telegraph Departments have been of marked value during this campaign. In the former department the names of Mr. H. J. Richard and Mr. E. J. Rumsby have been specially brought to notice; and in the latter Mr. C. P. Landon has merited the particular recognition of the Government of India for his excellent services and for the energy with which his department has worked in aid of the military operations. Mr. C. F. H. Maclean and Mr. R. C. Barker, Assistant Superintendents, are mentioned in high terms by Mr. Landon.

The cooperation of the officers and men of the Royal Navy has been of great value to the Army; and the Governor-General in Council specially acknowledges the services of Captain J. P. Pipon, late of Her Majesty's Ship *Ranger*, and Commander J. Durnford, D.S.O., of Her Majesty's ship *Mariner*. The Indian Marine has also taken a very useful part in the military

operations; and the acknowledgments of the Government of India are due to First Grade Officers C. W. Hewett and H. S. Black, and also to Captain W. J. Powell and First Grade Officer G. J. Baugh.

The Governor-General notices with pleasure the praise bestowed upon Captain H. P. Airey, of the New South Wales Artillery, and Captain J. L. Taylor and Lieutenant C. F. MacCartie, of the Madras Volunteers.

His Excellency takes the present opportunity of specially acknowledging the aid rendered by Sir Charles Bernard and Mr. Crosthwaite, the late and the present Chief Commissioner of Burma, to the military service, and the assistance given by the Governments of Madras and Bombay to the Government of India, in the prosecution of the campaign.

The officers of the Civil Administration in Upper Burma have been intimately associated with the troops in the operations which have taken place. The labours of these officers have materially conduced to the success of Her Majesty's arms; and the Viceroy desires to express his approbation of their work in connection with the Army, and to name—

Mr. G. D. Burgess,
Mr. H. St. G. Tucker,
Mr. F. W. R. Fryer,
Mr. J. J. D. La Touche,
Mr. C. E. Gladstone,
Mr. H. Thirkell White,
Captain C. H. F. Adamson,
Captain B. A. N. Parrott,
Captain F. D. Raikes, C.I.E.,
Mr. A. R. Colquhoun,
Captain G. S. Eyre,
Mr. H. L. Eales,
Mr. W. N. Porter,
Mr. G. M. S. Carter,
Mr. S. H. T. de la Courneuve,

as deserving of commendation.

It has been the pleasing duty of the Governor-General in Council to convey to Her Majesty's Government the high appreciation of the Government of India of the eminent services performed by Sir Frederick Roberts, the Commander-in-Chief in India, and the General Officers, officers, and men, who took part in those operations.

The Viceroy and Governor-General in Council has much gratification in announcing to the Army that Her Majesty the Queen, Empress of India, has been graciously pleased to approve the grant of the India Medal, similar to that conferred for the Second Burmese War, with a clasp inscribed "Burma, 1885-87," in commemoration of the services of the officers, non-commissioned officers and soldiers, British and Native, who have taken part in the military operations in Burma. The medal and clasp will be granted to all the troops who served in the Burma Field Force, and also to such of those belonging to the Lower Burma Division and the Eastern Frontier District as were engaged in active operations, between the 14th November, 1885, and the 30th April, 1887, both days inclusive.

The Governor-General in Council has also the satisfaction to notify that Her Majesty's Government have sanctioned the distribution of a gratuity to all the troops who crossed the old frontier and came under the command of the

General Officer Commanding the Burma Field Force, or who crossed from Manipur territory into Burma. Further instructions will be issued regarding the amount of gratuity to be granted to each rank.

His Excellency the Commander-in-Chief is requested to be good enough to issue the necessary subsidiary orders for the early submission of medal rolls, in accordance with the regulations, of all officers and soldiers who are entitled to the decoration.

From the Adjutant-General in India, to the Secretary to the Government of India, Military Department,—
(No. 3069-A,—*Field Operations*,—dated Simla, the 7th May, 1887).

In continuation of my letters noted in the margin,* I am directed by the Commander-in-Chief in India to submit, for the information of Government, the accompanying despatches† from the General Officers Commanding the Upper Burma Field Force and the Eastern Frontier District, bringing to special notice the good services of the officers and troops, therein detailed, during the operations commencing immediately after the capture of Mandalay and ending with the pacification of the province of Upper Burma.

* No. 3421-A, dated 30th July, 1886.

No. 1465-Camp, dated 3rd February, 1886.

No. 1673-A, dated 28th April, 1886.

† Despatches, (1) dated 10th March, 1887, (2) No. 166-B-C, dated 27th March, 1887; and (3) dated 11th April, 1887, from the General Officer Commanding the Upper Burma Field Force.

Despatch, No. 97-C, dated 21st March, 1887, from the General Officer Commanding the Eastern Frontier District.

2. In forwarding these reports for favorable consideration, and in recording His Excellency's entire concurrence in the recommendations made by Major-General Sir G. S. White, K.C.B., V.C.,‡ and Major-General J. J. H. Gordon, C.B., I am desired very briefly to advert to the course of events in Upper Burma during the past year.

3. The two notes by the Commander-in-Chief on the military situation in Upper Burma† dealt with existing circumstances and requirements at the date of His Excellency's assumption of immediate command, with the measures taken or contemplated for the restoration of order in the disturbed and disaffected areas, and with the course and result of those measures. To render the narrative complete, some reference seems necessary to the unexpected development of disturbance during the early part of last year, the action taken with a view to its repression up to October, 1886, and the progress made in permanently pacifying the country since the Commander-in-Chief's departure from Rangoon.

The capture of Mandalay, the disbanding of the Burmese soldiery, most of whom carried off their arms, and the stoppage of the administrative machinery of the late King's government, produced a state of temporary anarchy which it was at first supposed that the substitution of a settled British administration would remedy without material difficulty or delay.

This anticipation was not fulfilled, mainly on account of the gross misgovernment of Upper Burma during the late King's reign. As already explained by the Commander-in-Chief in His Excellency's second note, most of the local authorities from 1878 to 1885 had been occupied, not in maintaining civil order, but in

conducting a system of organized spoliation for the benefit of themselves, and to satisfy the extravagant demands of the Court. To these ex-officials and their dependents the introduction of any form of settled government was most distasteful, and they did their utmost to thwart and resist British authority. At the same time several pretenders to the throne had sprung up, who were joined by the disbanded soldiery, by such villagers as were disaffected or had been deprived of their means of livelihood by previous misgovernment, and by the criminal classes. Numerous dacoit bands took advantage of the unsettled state of the country, and devastated the districts that were not immediately dominated by an adequate military force.

These disturbing elements, without concentrating into an organized enemy which could have been encountered in the field and overcome once for all, pervaded the greater portion of Upper Burma, rendering abortive all attempts to bring certain districts under a settled administration, and inducing a general feeling of distrust and insecurity.

4. Experience soon proved that the transitory visits of flying columns to the disturbed districts were quite insufficient to restore order, and that the establishment of numerous military posts was essential for the effectual suppression of dacoity, and for the security and encouragement of the well-disposed inhabitants.

In the selection of sites for these posts and in their distribution, the protection of the main lines of communication by road and river, and the support of the Civil power in its efforts to reestablish a settled Government, were kept in view.

5. Climatic and physical conditions in Burma during the hot weather and rains are extremely adverse to active operations in the field,—the extensive swamps, the dense jungle, the heavy rainfall, and the consequent prevalence of malarious fever, not only greatly hampering the movement of troops, but absolutely incapacitating them for further service if subjected to prolonged exposure. It therefore resulted that until reinforcements could be safely despatched to Upper Burma (and the month of October was fixed as the earliest safe time of arrival, having due regard to health and efficiency) the available military strength at the disposal of the General Officer Commanding was insufficient to do more than to garrison the posts and outposts which were being established, to hold the more important centres of trade and population, and to guard the lines of communication.

6. As soon, however, as the cold weather had set in, and a larger force became available, no time was lost in taking the initiative, and in arranging combined movements calculated to bring the whole country under thorough control. The objectives of the military operations undertaken last winter were summarized in the Commander-in-Chief's first note, and need not here be recapitulated. In view of the large augmentation of the force in Burma that took place in October, Government thought it advisable to entrust the immediate direction of operations to the Commander-in-Chief of the Madras Army. The lamented death of the late Sir Herbert Macpherson, the subsequent assumption of the supreme command by the Commander-in-Chief in India, and the appointment of Sir Charles

‡ Not published.

Arbuthnot to the command of the troops in Burma on Sir Frederick Roberts's return to India in February, are matters of too recent occurrence to call for more than a passing reference.

7. The Commander-in-Chief's second note indicated how far the measures taken during the past winter had succeeded in their object up to the date of His Excellency's departure.

The hope then expressed that the permanent pacification of the country had been virtually accomplished, and that although outbreaks of disorder might still be anticipated, such outbreaks would be of a progressively milder type and capable of easier repression, seems likely to be completely realized.

Hla-Oo, after the dispersal of his gang and his own flight to a place of concealment, has been killed by one of his few remaining adherents.

Boh Shwe and Ottama have been repeatedly defeated, their camps captured, their followers scattered, and their influence broken. The dacoit leaders infesting Yemethen, Ningyan, and the Kanle and Pakangyi tracts have been effectually dealt with. The Bhamo district has enjoyed complete quietude since the solitary outbreak in November last. The Ruby Mines tract has been successfully occupied, and is now being connected with the river and Mandalay by means of a good military road. The exploration and pacification of the Chindwin and Kubo valleys have been thoroughly accomplished. The isolated bands of rebels in the neighbourhood of Katha, Shemaga, Mandalay, Kyaukse, Welaung, Popa, Seh, and Wundwin have been brought into complete subjection.

The Tsawbwa of Wuntho has acknowledged the British supremacy, and accepted the terms he had previously rejected. The expedition into the Eastern Shan States has met with trifling opposition, and has succeeded in establishing the friendly relations it was its object to cultivate. A similar result has been achieved by the expedition into the Yau country. Throughout the whole upper province the signs of restored confidence and prosperity are apparent, dacoity and disaffection have been reduced within very narrow limits, and British authority is everywhere predominant.

8. In view to this result the Commander-in-Chief considers that too high praise can hardly be accorded to the Generals Commanding and Staff Officers who have so ably planned and carried out the operations decided on for the pacification of the country, and to the troops of all ranks, whose steadiness and gallantry under exceptionally arduous and trying circumstances have well sustained the reputation of Her Majesty's army.

9. To the late Lieutenant-General Sir Herbert Macpherson was entrusted by the Government of India the duty of directing the cold-weather campaign. The death of this distinguished officer, from disease brought about by exposure while his preparations were still incomplete, placed the direction in other hands; and Sir Frederick Roberts feels that no words of his are required to emphasize this loss to the army of one of its bravest and most devoted leaders.

10. When the cold-weather operations were drawing to a close and a change could be safely effected, Lieutenant-General Sir C. G. Arbuthnot, K.C.B., who had in the meantime been appointed to succeed to the command of the Madras Army, relieved Sir Frederick Roberts from the immediate direction of the campaign in Burma.

The duty of winding up the cold-weather operations has been successfully carried into effect by Sir Charles Arbuthnot to the entire satisfaction of the Commander-in-Chief in India.

11. The executive command in Upper Burma has been held from an early period in 1886 by Major-General Sir G. S. White. On him devolved the arduous task of keeping head against ever-increasing dacoity throughout the hot and unhealthy months of the year; and when the time came that reinforcements could be safely despatched and the force in Upper Burma assumed the proportions of an army, he continued to exercise command over the whole as a General of Division.

In this capacity Sir George White has fully established his skill and ability; and Sir Frederick Roberts trusts that his meritorious services may be recognized in such a manner as may seem proper to Her Majesty.

12. In connection with the operations in Upper Burma, the Commander-in-Chief in India desires to bring to favorable notice the services of the following officers:

Major-General Sir T. D. Baker, K.C.B., late Adjutant-General in India,	
Colonel H. Collett, C.B., late officiating Quartermaster-General in India,	
Major W. G. Nicholson, Assistant Adjutant-General, Royal Engineers,	
Major H. T. Lugard, Brigade Major, Royal Artillery,	
Captain W. B. Wilson, Deputy-Assistant Adjutant-General,	
Captain C. H. H. Beley, Deputy-Assistant Quartermaster-General; and	
His Excellency's Personal Staff:	
Lieutenant Colonel R. Pole-Carew, Military Secretary,	
Major I. S. M. Hamilton, Persian Interpreter,	
Surgeon-Major W. Taylor, Medical Staff,	
Lieutenant C. V. Hume, Royal Artillery,	
Lieutenant W. Maxwell Sherston, Rifle Brigade,	
Lieutenant Henry Rawlinson, King's Royal Rifle Corps,	
Captain the Hon'ble F. E. Allsopp, Royal Artillery,	Aides-de-Camp.

all of whom accompanied Sir Frederick Roberts to Burma with the head-quarters of the Army in India.

Major-General (then Brigadier-General) W. K. Elles, C.B., A.D.C., late Adjutant-General of the Madras Army,

Colonel J. A. Tillard, Assistant Adjutant-General, Royal Artillery, and

Major D. J. S. McLeod, Deputy Quartermaster-General of the Madras Army,—

who accompanied Sir Herbert Macpherson, and afterwards Sir Charles Arbuthnot, to Burma with the Madras Army Head-quarters.

Captain S. B. Beatson, 11th Bengal Lancers, Military Secretary to Sir Herbert Macpherson, also mentioned by Sir George White for subsequent services with the Mounted Infantry; and

Major F. W. Hemming, 5th Dragoon Guards, Military Secretary to Sir Charles Arbuthnot who was also employed in the earlier stages of the campaign.

13. The Commander-in-Chief in India also desires to bring to the favorable notice of Government the services of Major-General B. L. Gordon, C.B., Commanding the Burma Division, and of his Assistant Quartermaster-General Captain M. W. Saunders, Royal Artillery, through whose untiring exertions the laborious duty of landing and despatching the troops to Upper Burma was successfully performed throughout the campaign.

His Excellency would also refer with approval to the services of the troops detached from the Eastern Frontier Command to open up the communications between Assam and Upper Burma, as brought to notice in the despatch from Major-General J. J. H. Gordon, C.B., hereto annexed.

14. The entirely successful working of the Commissariat Department, presided over in the field by Lieutenant-Colonel A. F. Laughton, C.B., under conditions of exceptional difficulty, have been fully brought to notice by Major-General Sir George White; and the Commander-in-Chief, in endorsing the Major-General's remarks, desires to mention the services of Colonel H. P. Hawkes, Officiating Commissary General-in-Chief, on whom, as Commissary General of the Madras Army, was imposed the responsibility of supplying the army in Burma. The efficiency of the Department in the field implies care and forethought at the base; and His Excellency considers that Colonel Hawkes' services have merited the favorable recognition of Government.

15. The successful administration of the Medical Department under Deputy Surgeon-General G. Farrell, C.B., has been amply recognized by Major-General Sir George White.

16. Sir Frederick Roberts further desires to cordially endorse the high terms in which Sir George White refers to the services of the officers and men of the Royal Navy, and to the assistance rendered by them during the operations; and His Excellency also begs to include in this recommendation the officers and men of the Indian Marine, whose exertions throughout the war have contributed in no small degree to the efficiency and order of the river communications. The services of First-Grade-Officers Hewett and Black of the Indian Marine have been particularly brought to notice. Captain Powell and First-Grade-Officer Baugh have also done good service.

17. The thanks of the Commander-in-Chief are also due to the members of the Telegraph Department under Mr. C. P. Landon, through whose exertions many miles of telegraph have been established and kept open for work under great difficulties; and His Excellency fully endorses the praise accorded by Sir George White to the officers named by him for good service in the various departments not already particularized in this despatch.

18. The few officers of the Veterinary Department, including Inspecting Veterinary-Surgeon F. G. Shaw, who could be spared for service in Burma, have also done good and useful work.

19. Attached to this despatch is a schedule* containing the names of the officers and others whom the Commander-in-Chief in India desires to recommend to the Government of India for reward. The list is a long one, but it contains

no name which could be omitted without injustice. The protracted and special nature of the war in Burma must be borne in mind, its character being almost without example as affording to officers of all ranks, and especially the juniors, an opportunity of personal distinction.

The force has frequently been broken up into the smallest bodies acting independently, and the capacity as leaders of very junior officers, who under ordinary circumstances would have remained in a subordinate position, has thus been brought under a severe and trustworthy test. It is a matter of great satisfaction to His Excellency that so many have come through this ordeal with credit, and that the Government of India has now at its disposal so many young officers of proved capacity in the field.

In submitting this list, Sir Frederick Roberts feels that while the names of many deserving officers have been necessarily omitted, none are mentioned who have not fully merited recognition.

It is the late Captain E. B. J. Vaughan, 6th Punjab Infantry, and Lieutenant G. L. Angelo, 23rd Madras Light Infantry, had lived, their names would have been included in the list for good services rendered in Burma.

I.

FROM MAJOR-GENERAL SIR G. S. WHITE, K.C.B., V.C.,
Commanding the Upper Burma Field Force, to the
Adjutant-General in India (through the Adjutant-
General, Madras Army), dated Mandalay, the 10th
March, 1887.

In reply to your letters Nos. 813-M, dated 20th January, and 968-M, dated 31st January, 1887, I have the honor to submit the following list of General and other officers who have rendered specially good service since I have been in command of the Upper Burma Field Force.

2. This force has been actively engaged for a long period. The nature of the operations has necessitated very numerous small columns acting as independent forces. The command of these columns has afforded exceptional opportunities to officers of all ranks of distinguishing themselves. The Brigadier-Generals have therefore sent me long lists of officers who have one and all merited being brought to the notice of the Commander-in-Chief in India; but, while I am in full accord with these recommendations, I have endeavoured in some instances to make special selections.

3. Brigadier-General C. J. East has rendered most important service while in command of the 1st Brigade. His zeal and ability are well known to His Excellency the Commander-in-Chief, and I have to thank him for most valuable counsel and loyal support. In the large and important command which he has held, it has been sufficient for me to know that General East had taken up a question, whatever it might be, to rest assured that the matter would be treated exhaustively and with great judgment and military knowledge.

4. Brigadier-General H. S. Anderson commanded the Mandalay brigade for a short time, and afterwards the Ningyan district, where

* Not published.

every obstacle presented itself to the prosecution of military operations, and where the country was the hotbed of dacoity and rebellion. He has since commanded the 4th Brigade with headquarters at Myingyan, and has exercised these several commands with ability and success.

5. Brigadier-General R. C. Stewart has commanded the 5th Brigade of the Burma Field Force during the recent operations. Early in his command Sir Frederick Roberts recognized the importance of doing all possible to carry the expedition to the Ruby Mines to a successful conclusion. This was an enterprise of much difficulty, involving the most ample preparation and forethought. It was anticipated that this force would encounter the heaviest resistance yet met with in Upper Burma, as the people in possession were rich and were naturally anxious to retain possession of this valuable property. The difficulties of the route were overcome by patient labor. The enemy's positions were ascertained by careful reconnaissances, and the force gained possession of the Ruby Mines without appreciable loss, having proved the hopelessness of resistance to those who had attempted to stop the advance.

6. Brigadier-General A. T. Cox, commanding the 2nd Brigade, has conducted the advance on Wuntho from the north, and has carried out his instructions for the advance on that capital with skill and success.

7. Brigadier-General R. C. Low, C.B., on his first arrival in Upper Burma, assumed command of the Mandalay Brigade,—a charge of exceptional importance and extent. During the hot weather and rainy season of 1886, General Low exercised that command with singular energy and zeal. Always ready, he has proved himself to possess great physical endurance and powers of rapid organization and execution,—gifts which mark him as an officer of exceptional value in the field. Throughout the active operations of the last few months, Brigadier-General Low has commanded in one of the two most turbulent districts in Upper Burma, and his ability, energy, and devotion to duty have been equally valuable and more in evidence than during his former command. All the success possible under the conditions of his command has been attained.

8. Brigadier-General W. S. A. Lockhart, C.B., C.S.I., has shared with Brigadier-General Low the task of dominating the most lawless and difficult tracts in Upper Burma. His enterprise and influence have now become widely known and appreciated. Possessed of great initiative, and never so happy as when personally in command of some difficult operation, he has shown all the gifts of a most promising commander, and by example has instilled much of his enterprise into those serving under him. The changed aspect of the country confided to his command is the best gauge of the value of the service he has rendered to the state.

9. Where officers of exceptional merit and ability have been associated in field operations such as have lately been conducted throughout this country under the orders of His Excellency the Commander-in-Chief, it is difficult to distinguish one above another: while I in no way draw comparisons between the intrinsic qualifications of the able Brigadier-Generals who have been associated with me in carrying out

those orders, yet Brigadier-Generals Low and Lockhart have had the good fortune to have been ordered to undertake the heaviest tasks; and as I am confident they have acquitted themselves to the entire satisfaction of Sir Frederick Roberts and Sir Charles Arbuthnot, I think I am but acting in accordance with military precedent in recommending them for special consideration.

10. In addition to the regularly appointed Brigadier-Generals, I beg leave to bring forward the good service done by Colonel M. E. Farrington, King's Own Light Infantry (now Brigadier-General). In paragraph 5 of this report I have pointed out that Brigadier-General Stewart was detailed for the special charge of the expedition to the Ruby Mines. During the time he was so employed, it became necessary to organize and despatch a force from Shwebo to occupy Wuntho from the south, simultaneously with an advance from the north under Brigadier-General Cox. Colonel Farrington was entrusted with this duty. Shwebo had been depleted of pack transport to supply the more important claims of the Ruby Mines expedition, and little assistance could be given from the field force reserve transport. Colonel Farrington, however, provided the columns with transport from local sources, and carried out the advance on Wuntho with punctuality and success, making his advance answer the double purpose of searching out the country between Shwebo and his objective point with small columns. I have been much impressed by the helpfulness and ability shown by Colonel Farrington in the exercise of this command.

11. Before closing the list of officers of superior rank who have held important commands, I would specially mention to His Excellency the services of Colonel E. Stedman, commanding the 3rd Goorkha Regiment. This officer has proved himself not only a regimental commandant of exceptional capacity, but he has further given evidence of ability in the organization and conduct of operations requiring forethought in preparation and capacity in execution. Colonel Stedman and his Goorkhas have been called upon continuously for hard work. I recommend Colonel Stedman to the consideration of His Excellency the Commander-in-Chief, not only as a due reward for what he has done, but further, because I consider his advancement would be a benefit to the service.

12. Colonel A. C. Toker, 18th Bengal Infantry, has had an anxious and troublesome charge in the command on the Upper Chindwin, which he has carried out with watchfulness and capacity.

13. I will next give the names of officers who have been brought to notice by Brigadier-Generals and officers in superior command.

14. Brigadier-General East mentions the following officers:

Lieutenant-Colonel G. Simpson, Madras Staff Corps, Brigade-Major.

Captain S. A. E. Hickson, Royal Engineers, Deputy-Assistant Adjutant and Quartermaster-General.

Lieutenant-Colonel E. A. Bruce, Executive Commissariat Officer.

Lieutenant J. K. Tod, Royal Irish Fusiliers, Orderly Officer to General East.

Major C. J. Deshon,* Royal Artillery, Commanding 1st, Eastern Division.

* Now Lieutenant-Colonel.

Major W. Aitken, Royal Artillery, Commanding 9-1, Cinque Ports Division.

Captain E. H. Armitage, Royal Artillery, Intelligence Officer.

Captain A. W. Cockburn, Royal Engineers.

Lieutenant J. A. Tanner, Royal Engineers.

Colonel W. K. Leet, v.c., Commanding the Somersetshire Light Infantry.

Lieutenant F. A. Morse, } Somersetshire

Lieutenant L. W. Fox, } Light In-

Lieutenant W. P. Braithwaite, } fantry.

Colonel G. Baker, Commanding the Hampshire Regiment.

Major E. H. C. Braddon, } Hampshire

Captain R. P. Macdonald, } Regiment.

Captain H. W. Smith, } 7th Bengal

Lieutenant R. C. Lye, } Cavalry.

Lieutenant W. H. Trethewy, } 7th Bengal

Colonel R. B. Graham, } Cavalry.

Lieutenant-Colonel J. L. Ferris, } 7th Bengal

Lieutenant W. C. Pollard, } Cavalry.

Lieutenant E. J. P. Warden, 17th Madras

Infantry.

Colonel J. Gabbett, 25th Madras Infantry.

Lieutenant W. N. Campbell, 25th Madras

Infantry.

Lieutenant-Colonel A. Poole, } 5th Bombay

Major R. Hennell, } Infantry.

Lieutenant P. Holland, } 25th Bombay Light

Major R. L. Price, } Infantry.

Lieutenant W. Ayerst, } 25th Bombay Light

Colonel B. Stedman, 3rd Goorkha Regiment.

Major E. B. Bishop, 3rd Goorkha Regiment.

Captain C. Pulley, 3rd Goorkha Regiment.

Major C. McD. Skene, 43rd Goorkha Light

Infantry.

Lieutenant A. L. Barrett,* 43rd Goorkha Light

Infantry.

Lieutenant-Colonel W. P. Symons, South Wales

Borderers,—Commandant, Mounted In-

fantry.

Captain S. B. Beatson, 11th Bengal Lancers.

Lieutenant G. B. Stevens, 4th Madras Pioneers

Lieutenant G. V. Burrows, 14th Madras

Infantry.

Captain G. N. Mayne, King's Own Borderers.

15 Of these officers I beg to bring the following specially to notice :

Lieutenant-Colonel Simpson has done exceptionally hard work as Brigade-Major at Mandalay.

Captain Hickson, Royal Engineers, has also had heavy work as Deputy-Assistant Adjutant and Quartermaster General.

Both these officers worked continuously through the summer of 1886. Lieutenant-Colonel Simpson has received a step of brevet rank, but Captain Hickson has as yet received no recognition of his service.

Major Deshon, Royal Artillery, commanded two expeditions, and did well.

Major Aitken, Royal Artillery, commanding 9-1, Cinque Ports Division, is an able officer, and has been selected for several special commands, and has carried out all duties entrusted to him with ability and success. I recommend him for advancement.

Colonel Leet, v.c., has commanded the Somersetshire Light Infantry throughout the campaign. The excellent service rendered by this battalion is well known to the Commander-in-Chief.

Colonels Kingsley and Baker have in succession commanded the Hampshire Regiment, which has also done most valuable work. Colonel Baker has, besides, commanded several troublesome hill expeditions with uniform success. He also commanded the battalion in the first advance on Mandalay.

* Now Captain.

Major Braddon, Hampshire Regiment, has done much hard service all through the hot weather of last year, and is a most hard working officer. I recommend him for advancement.

Captain Macdonald, Hampshire Regiment, did most valuable work in the pacification of the Sagain district and in the pursuit of Hla-oo.

Captain Smith, Hampshire Regiment, has earned mention by gallant and energetic leading.

Lieutenant Pollard, 7th Bengal Cavalry, has shown high qualities as an officer, and conducted a difficult expedition in the hills with considerable dash and success.

Lieutenant Campbell, 25th Madras Infantry, has earned mention by gallant and energetic leading, and has shown high promise as an officer.

Lieutenant-Colonel A. Poole, 5th Bombay Light Infantry,† has had the command of the Sagain district, and has proved himself a good commander.

Major Hennell, 5th Bombay Light Infantry, was most active and zealous in conducting operations in the Sagain district during the worst season of 1886. His work has been most useful. He has had to quit the command on account of bad health brought on by exposure. I recommend him for advancement.

Lieutenant Holland, 5th Bombay Light Infantry, deserves mention for much good work done in the field.

Captain C. O. Nicholletts, 5th Bombay Light Infantry, is an officer who throughout last summer rendered most important service in the 1st Brigade.

Major Bishop and Captain Pulley of the 3rd Goorkha Regiment have commanded columns, and the latter officer has done much useful work. I recommend both officers for advancement both on a count of their own services and the excellent and continuous work done by the men under their command.

Captain Beatson, 11th Bengal Lancers, has merited mention by the enterprise displayed by him when commanding the mounted infantry in the Sagain district.

16. Brigadier-General Anderson mentions the following officers :

Lieutenant-Colonel J. Gatacre, 23rd Bombay Light Infantry.

Lieutenant-Colonel A. R. Heyland, Commandant, 1st Bombay Lancers.

Major W. W. Egerion, Liverpool Regiment.

Major W. H. F. Sorell, Commanding 8-1,

London Division, Royal Artillery.

Major J. de B. Lynch, 1st Bombay Grenadiers.

Captain H. M. Rose,† 27th Bengal Infantry.

Captain A. Keene, Commanding No. 1, Bombay

Mountain Battery.

Captain J. D. Fullerton, R.F.

Captain C. S. Shephard, Royal Lancaster

Regiment.

Captain A. A. Pearson, Bombay Staff Corps.

Captain A. W. L. Bayly, Bombay Staff Corps.

Surgeon-Major T. W. Patterson, Medical

Staff, Senior Medical Officer, 4th Brigade.

Surgeon-Major F. W. Wright, m.b., Indian

Medical Service.

Captain E. C. Kellic, } 23rd Bombay

Lieutenant W. A. M. Wilson, } Light Infantry.

† Since retired.

‡ Now Major.

Lieutenant F. A. Morse, Somersetshire Light Infantry.

Lieutenant W. Elliot, } Royal Artillery.
Lieutenant T. L. Coxhead, }
No. 38, Sergeant Edwin W. Bath, Somersetshire Light Infantry.

Mr. C. J. A. Duke, Deputy Commissioner.

I support the recommendations of Brigadier-General Anderson, which it will be observed refer to the commands exercised by him at different times over both the 3rd and the 4th Brigades, but reserve the following for special mention:

Lieutenant-Colonel Gatacre commanding the 23rd Bombay Light Infantry. This officer has earned advancement by the discipline and efficiency of the fine regiment which he commands. He has also rendered important service in command of a column which advanced on Kanle, and subsequently into the Yaw country.

Lieutenant-Colonel Heyland, Commandant, 1st Bombay Lancers,—an officer who has done much good service. He has commanded several columns with marked success, and is a most valuable officer.

Major Egerton, Liverpool Regiment, has commanded the post at Hlinedet with singular success, and has since shown much dash in the field. I recommend him for advancement.

I further support Brigadier-General Anderson's recommendations on behalf of his staff officer, Captain Shephard, Royal Lancaster Regiment. The other staff officers I have brought to notice elsewhere.

I also endorse his recommendation of Sergeant Edwin William Bath, Somersetshire Light Infantry, who assumed command of a detachment of that regiment after Lieutenant H T Shubrick had been killed in action.

17. The following officers have been brought to notice by Brigadier-General Stewart, for good service:

Colonel F. B. Middleton, 21st Madras Infantry.
Lieutenant P. G. Huggins,* 21st Madras Infantry.

Colonel C. J. O. FitzGerald, } 3rd Hyderabad
Captain C. E. Gubbins, } Cavalry.

Colonel W. G. Cubitt, v. c., } 43rd Goorkha
Lieutenant-Colonel C. McD. Skene, } Light Infantry.

Major N. F. FitzG. Chamberlain, Deputy-Assistant Adjutant and Quartermaster General
Captain F. B. J. Vaughan, 6th Punjab Infantry
Captain H. Earle, South Yorkshire Regiment.
Captain H. H. Barnet, Royal Engineers
Captain F. J. D. Lugard, Norfolk Regiment.
Lieutenant H. Parkin, Bombay Commissariat Department

Surgeon J. P. Barry, M.B., Indian Medical Service

Lieutenant-Colonel H. W. J. Senior, 1st Bengal Infantry.

Captain W. N. Lloyd, Royal Artillery.

Captain S. C. F. Peile, Commissariat Department

Captain A. L. Barrett, 43rd Goorkha Light Infantry.

Lieutenant C. V. Hume, Royal Artillery.

Lieutenant R. D. Petrie, Royal Engineers.

Lieutenant W. H. M. Burke, South Yorkshire Regiment.

Lieutenant A. W. Abercrombie, South Yorkshire Regiment.

Lieutenant C. Davis, South Yorkshire Regiment.

Lieutenant H. D'U. Keary, 1st Madras Pioneers.

Surgeon W. A. Sykes, Indian Medical Service.

18. I agree in the estimate formed by General Stewart of the good service rendered by the above named officers, but reserve the following for special mention:

Colonel Middleton, commanding the 21st Madras Infantry, has commanded his regiment firmly and well, and has done much valuable service since he has been in the Yeu district.

Lieutenant Huggins, 21st Madras Infantry, has shown himself possessed of singular energy and enterprise, and has been mainly instrumental in the greatly improved condition of the neighbourhoods in which he has been stationed in the Yeu district. I recommend him very favorably for consideration.

Colonel FitzGerald, commanding the 3rd Regiment, Hyderabad Contingent Cavalry, has done much valuable service in quelling dacoity and rebellion in the Tabayin district. He has shown great energy and activity, and his regiment has done most important work.

Captain Gubbins, 3rd Hyderabad Cavalry, is a model leader of cavalry, full of enterprise, and has played a very important part in the pacification of both the north and the south of the Shwebo district, and in the advance of Colonel Farrington's column on Wuntho.

Colonel Cubitt, v. c., has commanded the 43rd Goorkha Light Infantry, a regiment which has rendered much valuable service.

Lieutenant-Colonel Skene, 43rd Goorkha Light Infantry, has been most active from the arrival of the 43rd Goorkha Light Infantry in Mandalay up to the present time. He commanded the advance guard of the Ruby Mines expedition, and has done much to raise the reputation of his corps and his own. I recommend him for consideration.

Major Chamberlain has been the only staff officer with Brigadier-General Stewart throughout the time he has been personally directing the advance on the Ruby Mines. I cordially endorse the Brigadier-General's high estimate of his capacity as a staff officer, and the value of the reconnaissance executed by him at Ingyauk on the 25th December.

The zeal and untiring energy shown by the late Captain Vaughan, 6th Punjab Infantry, have been testified to by Brigadier-General Stewart, and it may be some consolation to his relatives to know that had the life which he spent in the service of his country been spared, he would have been very warmly recommended by me for the special consideration of the Commander-in-Chief.

Captain Barnet, Royal Engineers, has done very hard work with the Ruby Mines expedition, of which he was the pioneer.

Captain Earle, South Yorkshire Regiment, has shown strength and capacity, and I am in full accord with Brigadier-General Stewart's estimate of his promise as a soldier.

Lieutenant Keary, 1st Madras Pioneers, has been most useful since the commencement of the campaign, both in the field and in the Transport Department. I beg to bring him prominently to notice.

19. Brigadier-General Low, C.B., has named the following officers:

Captain B. E. Spragge, King's Own Light Infantry, Deputy-Assistant Adjutant and Quartermaster General.

* Now Captain.

Captain A. G. B. Ternan, 44th Goorkha Light Infantry.
 Lieutenant K. M. Foss, Executive Commissariat Officer.
 Lieutenant A. M. Caulfield, Northumberland Fusiliers, Transport Department.
 Lieutenant T. H. Des V. Wilkinson, Rifle Brigade, Superintendent, Brigade Signalling.
 Surgeon-Major J. F. Supplé, Senior Medical Officer, 6th Brigade.
 Colonel W. H. Deedes, Commanding the 1st Battalion, Rifle Brigade.
 Lieutenant-Colonel H. R. Hope, Commandant 1st Madras Lancers.
 Captain R. K. Golightly, King's Royal Rifle Corps, Commanding Mounted Infantry.
 Major A. J. Stead, Commanding the 11th Bengal Infantry.
 Lieutenant E. D. Pickard-Cambridge, Bedfordshire Regiment.
 Lieutenant H. F. Aplin, R.N., H. M. S. *Ranger*.
 Major J. A. D. Gordon, 2nd Bengal Infantry.
 Major S. E. Rolland, 26th Madras Infantry.
 Lieutenant E. G. Wynyard, Liverpool Regiment.
 Lieutenant W. A. M. Wilson, 23rd Bombay Light Infantry.
 Lieutenant R. M. Rainey, 1st Madras Pioneers.
 Surgeon A. P. Adams, Indian Medical Service.
 Lieutenant H. Armytage, Liverpool Regiment.

20. Considering the time over which the service referred to in these recommendations has extended, and the amount of organization, movement and fighting comprised, I think Brigadier-General Low's recommendations are moderate; but I specially select the following:

Captain Spragge, King's Own Light Infantry, Deputy-Assistant Adjutant and Quartermaster General, is an officer of high capacity, and I gladly support Brigadier-General Low's recommendation of him.

Captain Ternan, 44th Goorkha Light Infantry, has earned the commendation of his Brigadier-General, and I support his nomination.

Lieutenant Wilkinson, Rifle Brigade, has done most excellent service as Superintendent of Signalling in the 6th Brigade. His activity and energy were witnessed by His Excellency the Commander-in-Chief in India, and Brigadier-General Low speaks in the highest terms of the tact and courage displayed by him in working out the system of signalling stations, which has been crowned with such success.

Colonel Deedes has shown high courage and self-abnegation as a leader in the field, and the battalion under his command has done good service.

Brigadier-General Low speaks in high terms of the ability displayed by Lieutenant Colonel Hope, 1st Madras Lancers, in preparing and directing operations against Boh Sawe.

Captain Golightly, King's Royal Rifle Corps, has been conspicuous for good work. I beg most strongly to support General Low's application in his favour. His zeal and activity in the pursuit of Boh Shwe and Ottama, the leaders of rebellion in the Membu district, have been most marked, and no stronger proof can be given of the impracticability of hunting down such leaders in a country in sympathy with them than the fact that Captain Golightly's arrangements, activity, and perseverance have not yet been crowned by the capture of either of them.

Major Stead, Commandant, 11th Bengal Infantry, has deserved mention as commanding

a regiment which, throughout its service in Upper Burma, has been an example of efficiency and good work. He has also done most valuable service in command of columns on the right bank of the Irrawaddy, on two separate occasions, in the Pakhangyi and Yaw districts.

Major Rolland, 26th Madras Infantry, after a period of exceptional sickness and depression, conducted the withdrawal of the garrison of Napeh under great difficulties.

Lieutenant Wynyard, Liverpool Regiment, on the death of Captain W. G. Dunsford, 2nd Bengal Infantry, during the attack on a pagoda near Salen, proved himself to possess a quick appreciation of what was needed on an occasion of considerable danger, and by bold leading converted a critical situation into an assured success.

Lieutenant Rainey, 1st Madras Pioneers, when in command of a post, did most excellent work.

Lieutenant Armytage, Liverpool Regiment, and Lieutenant Westlake, 1st Madras Lancers, have distinguished themselves by energetic and successful expeditions against the dacoit and rebel leaders in their districts.

21. Brigadier-General Cox has brought the following officers to notice:

Captain V. A. Schalch, Bengal Staff Corps.
 Captain R. L. Milne, Liverpool Regiment, Deputy-Assistant Adjutant and Quartermaster General.
 Surgeon-Major J. S. Wilkins, Indian Medical Service.
 Lieutenant W. J. H. Bond, Executive Commissariat Officer.
 Lieutenant F. A. Wilkinson, Royal Fusiliers, Brigade Transport Officer.
 Lieutenant W. A. Cairnes, Royal Engineers.
 Lieutenant F. J. Aylmer, Royal Engineers.
 Lieutenant-Colonel S. B. Home, 5th Bengal Infantry.
 Lieutenant-Colonel E. S. Creek, Royal Welsh Fusiliers.
 Captain E. C. Wace, Royal Artillery, Commanding the Hazara Mountain Battery.
 Captain H. T. Lyle, 1st Battalion, Royal Welsh Fusiliers.
 Captain E. S. Hastings, 25th Madras Infantry.
 Captain G. H. H. Couchman, 2nd Battalion, Somersetshire Light Infantry.
 Lieutenant A. H. C. Birch, Royal Artillery, Hazara Mountain Battery.
 Lieutenant G. F. H. Dillon, 26th Punjab Infantry.

22. I beg to make special mention of the following:

Captain Schalch has been Brigade-Major of the 2nd Brigade since the first occupation of Mandalay.

Captain Milne, Liverpool Regiment, has been Deputy-Assistant Adjutant and Quartermaster General for the same period.

I submit the names of both these officers for advancement.

Captain Wace, Royal Artillery, was in command of the Hazara Mountain Battery until wounded in the first advance on Katran.

Captain Lyle, Royal Welsh Fusiliers, succeeded Captain Wace in the command of the expedition above referred to, when the latter was wounded,—until he himself was wounded.

I recommend both these officers for promotion.

Captain Hastings, 25th Madras Infantry, is an energetic and valuable officer, of much ability and enterprise, who should be pushed on.

Captain Couchman has rendered very good service from the earliest occupation of Bhama, and is an officer of much promise.

23. Brigadier-General Lockhart recommends the following officers for special recognition:

Major P. D. Jeffreys, Connaught Rangers Brigade-Major.

Captain A. A. Pearson, Bombay Staff Corps, Deputy-Assistant Adjutant and Quartermaster General.

Major W. H. F. Sorrell, Royal Artillery.

Lieutenant W. Lamport, Royal Artillery.

Captain H. E. Goodwyn, Royal Engineers.

Colonel W. J. Holt, commanding the 2nd Battalion, Royal West Surrey Regiment.

Lieutenant F. M. Peacock, 2nd Battalion, Somersetshire Light Infantry.

Lieutenant F. A. Morse, 2nd Battalion, Somersetshire Light Infantry.

Captain E. L. Elliot, 1st Bombay Lancers.

Captain A. L. Sinclair, 27th Bombay (Beluch) Light Infantry.

Lieutenant-Colonel G. C. Sartorius, 27th Bombay (Beluch) Light Infantry.

Colonel W. P. Dicken, 3rd Madras Light Infantry.

Captain R. K. Teverham, 3rd Madras Light Infantry.

Lieutenant-Colonel H. S. Elton, 16th Madras Infantry.

I beg to support Brigadier-General Lockhart's recommendations in every instance.

Major Jeffreys has rendered very efficient service as a staff officer, and achieved the most marked success in the capture of the so-called Kemmendine Prince's camp.

Captain Pearson, Bombay Staff Corps, Deputy-Assistant Adjutant and Quartermaster General, has also done excellent work in the field.

Major Sorrell, Royal Artillery, has been most prominent throughout the campaign, both in command of his battery and also of numerous expeditions. I recommend him for some special recognition of his continuous and varied good service.

Lieutenant Lamport, Royal Artillery, is a very forward young officer, who was the first man into Kemmendine Prince's camp when it was attacked by Major Jeffreys on the 1st January. He has been constantly engaged with the enemy, and has acted as orderly officer to Brigadier-General Lockhart in numerous engagements.

Colonel Holt, Royal West Surrey Regiment, has been selected by Brigadier-General Lockhart for frequent commands. He and his regiment have merited the special commendation of the Brigadier-General. I beg to bring him prominently to the notice of His Excellency the Commander-in-Chief.

Lieutenant Peacock, Somersetshire Light Infantry, has been conspicuous for gallant leading.

Lieutenant Morse, Somersetshire Light Infantry, has been brought to my notice on many occasions and by various superior officers under whom he has served as a valuable leader of mounted infantry. I recommend him for special consideration.

Captain Elliot, 1st Bombay Lancers, has proved himself a most efficient leader of cavalry, and has done much by his dash and perseverance to clear the 3rd Brigade district of the gangs of dacoits which have harried it so long. I have much pleasure in supporting Brigadier-

General Lockhart's recommendation in favour of this officer.

Lieutenant-Colonel Sartorius has commanded his regiment in many affairs under Brigadier-General Lockhart, and has also commanded in independent operations, maintaining his high name as a soldier.

Captain Sinclair, 27th Beluch Regiment, has been well reported on as a leader of skill and dash, who has rendered good service in a difficult country.

Colonel Dicken, 3rd Madras Light Infantry. This officer commanded the Nyingyan column on its first advance from Tounghoo, and has since commanded in many affairs and done much important administrative work. I trust His Excellency will support my application in favour of Colonel Dicken, who has earned consideration from the important and difficult command which he so long exercised.

Captain Teverham, 3rd Madras Light Infantry, has been engaged in very numerous affairs against the enemy in the Nyingyan command, and has proved himself a good soldier and promising staff officer.

Lieutenant-Colonel Elton, 16th Madras Infantry, has on several occasions been entrusted with commands of columns, and has acquitted himself well. Brigadier-General Lockhart speaks highly of his work.

24. Brigadier-General Farrington has brought forward the names of the following officers, as having especially assisted him in the advance on Wuntho.

Major W. E. Hilliard, King's Own Light Infantry.

Captain C. E. Gubbins, 3rd Hyderabad Cavalry.

Captain P. W. A. A. Milton, King's Own Light Infantry.

Captain A. B. Fenton, 4th Madras Cavalry, Brigade-Major.

I have already noticed Captain Gubbins' good service, and I recommend Major Hilliard, King's Own Light Infantry, for advancement.

Captain Fenton, as staff officer to Colonel Farrington, did most useful service, and was highly spoken of by his commanding officer.

25. Colonel Toker, commanding on the Chindwin, recommends—

Captain C. A. R. Sage, 18th Bengal Infantry.

Lieutenant L. Fryer, 18th Bengal Infantry.

Lieutenant G. B. Hodson, 23rd Madras Infantry.

Captain Sage has given evidence of the highest qualities as an officer. His conscientious discharge of duty, calm judgment, and enterprise make him a very valuable officer. I recommend him for advancement.

Lieutenant Fryer has proved himself a gallant leader and promising officer.

Lieutenant Hodson, 23rd Madras Infantry, did good service in the Aïon district.

I would also beg to add the name of Major R. H. F. Rennick, 18th Bengal Infantry, who has shown in this campaign the energy and determination so characteristic of his former service, and who has been forced to leave Burma in ill-health consequent on his hard work in the public service. I recommend him for advancement.

26. Amongst officers who have not been under the orders of the Brigadier-Generals from

whom reports have now been received, I may mention the following officers, who have done service worthy of mention:

- Lieutenant-Colonel H. P. Law, and Battalion, Royal Scots Fusiliers.
- Lieutenant F. V. S. Churchill, and Battalion, Royal Scots Fusiliers.
- Lieutenant H. E. Stanton, 9-1, Cinque Ports Division, Royal Artillery.
- Lieutenant T. L. Coxhead, Royal Artillery.
- Lieutenant C. P. Fendall, Royal Artillery.
- Lieutenant W. H. Dobbie, 26th Madras Infantry.

Lieutenant-Colonel Law commanded the important post of Toungdwingyi from the first occupation of Upper Burma until the close of the summer of 1886. He and the officers and men under his command did marked good service, and I would particularly mention Lieutenants Churchill and Dobbie.

27. Before leaving the subject of regimental officers who have done conspicuous work, I would mention the important service rendered by Colonel Tilly and the officers and men of the Royal Welsh Fusiliers. From the commencement of the campaign this regiment has borne a part worthy of its high records, and although at Rhamo it has been somewhat removed from the centres of late action, yet in the earlier stages of the campaign no regiment had harder or more trying work. I would specially mention—

- Colonel J. Tilly.
- Lieutenant A. W. G. L. Cole.
- Lieutenant A. C. King.
- Lieutenant A. P. G. Gough.

28. The number of Royal Engineer officers who have been employed in Upper Burma has been exceptionally large. The Commanding Royal Engineer brings forward the names of the following, who have done special good service:

- Captain W. F. Shone.
- Lieutenant J. A. Tanner.
- Captain (Brevet-Major) C. B. Wilkieson.
- Captain H. H. Barnet.
- Captain J. D. Fullerton.
- Captain M. C. Barton.
- Lieutenant T. F. B. Renny-Tailyour.
- Lieutenant F. Glanville.

I specially beg to recommend—

- Captain Shone.
- Captain Goodwyn.
- Lieutenant Tanner.

Captain Dorward brings to notice the very great assistance rendered to the officers of the Royal Engineers in their work by Messrs H. J. Richard and E. J. Rumsby of the Public Works Department, and I have to request that some mark of the Viceroy's appreciation of their work may be accorded to them.

Captain Dorward also recommends to the favourable consideration of the Commander-in-Chief, Sergeant P. Hay, Royal Engineers, and No. 1753, Color-Havildar Marimootoo,—the former for excellent work in connection with the Field Park, and the latter as a Native non-commissioned officer of quite exceptional ability and worth.

29. The Principal Commissariat Officer has recommended the following officers:

- Lieutenant-Colonel E. A. Bruce, Assistant-Commissary-General.
- Captain S. R. Rawlinson, Sub-Assistant-Commissary-General.

- Lieutenant W. J. H. Bond, Sub-Assistant-Commissary-General.
- Major C. F. Hughes, Sub-Assistant-Commissary-General.
- Captain H. L. Hutchins, Sub-Assistant-Commissary-General.
- Captain S. C. F. Peile, Sub-Assistant-Commissary-General.
- Lieutenant K. M. Foss, Sub-Assistant-Commissary-General.

I very cordially endorse Colonel Laughton's mention of Lieutenant-Colonel Bruce. His capacity and power of work render him an officer of quite exceptional value, and I hope it may be found possible to bestow on him some fitting reward. Captain Rawlinson has earned mention by hard work. Captains Peile and Hutchins have conducted very important commissariat work with ability and success. Lieutenants Foss and Parkin have been brought to notice by Brigadier-Generals Low and Stewart respectively.

Colonel Laughton also calls attention to the efficient service rendered by Major W. Cooke at Rangoon, and Lieutenant G. F. Watson at Tounghoo, to the troops in Upper Burma.

I have also pleasure in endorsing Colonel Laughton's recommendations of—

- Conductor G. Grevelink.
- Sub-Conductor J. Haddock.
- Sub-Conductor E. Stevens.
- Sub-Conductor M. F. Maher.
- Sergeant Gordon.
- Sergeant J. R. Rishworth.
- Sergeant W. E. Keogh.

I have had the honor verbally to represent to His Excellency the Commander-in-Chief the excellent work done by the Commissariat Department since the occupation of Upper Burma; and I cannot too strongly express my hope that the services rendered by the officers and warrant and non-commissioned officers of this Department may be adequately rewarded.

30. The Principal Medical Officer has recommended the following medical officers for special zeal and ability:

- Surgeon-Major R. de la Cour Corbett, M.D., Medical Staff.
- Surgeon R. V. Ash, M.B., Medical Staff.
- Brigade-Surgeon W. H. Roberts, M.D., Madras Medical Service.
- Surgeon-Major T. W. Patterson, Medical Staff.
- Surgeon D. Elcum, Madras Medical Service.
- Surgeon H. K. Fuller, M.B., Madras Medical Service.
- Surgeon-Major E. Fawcett, Madras Medical Service.
- Surgeon-Major J. S. Wilkins, Bombay Medical Service.
- Surgeon-Major W. Venour, Medical Staff.
- Surgeon-Major F. W. Wright, M.B., Bengal Medical Service.
- Surgeon-Major C. E. McVittie, Madras Medical Service.
- Surgeon M. O'C. Drury, Medical Staff.
- Surgeon W. A. Sykes, Bengal Medical Service.
- Surgeon-Major J. F. Supple, Medical Staff.
- Surgeon-Major C. F. Ogilvie, M.D., Bombay Medical Service.
- Surgeon-Major J. T. B. Bookey, Bengal Medical Service.
- Surgeon-Major R. D. Murray, M.D., Bengal Medical Service.
- Surgeon J. Macgregor, M.D., Bombay Medical Service.
- Surgeon W. A. Morris, Medical Staff.
- Surgeon P. F. O'Connor, Bengal Medical Service.
- Surgeon R. E. S. Davis, M.B., Madras Medical Service.
- Surgeon A. P. Adams, Madras Medical Service.

Of these I select the following for special mention:

Surgeon-Major R. de la Cour Corbett, M.D., Medical Staff.
 Surgeon-Major R. V. Ash, M.B., Medical Staff.
 Surgeon-Major T. W. Patterson, Medical Staff.
 Surgeon-Major J. S. Wilkins, Bombay Medical Service.
 Surgeon-Major W. Venour, Medical Staff.
 Surgeon-Major F. W. Wright, M.B., Bengal Medical Service.
 Surgeon W. A. Sykes, Bengal Medical Service.
 Surgeon-Major J. F. Supple, Medical Staff.
 Surgeon A. P. Adams, Madras Medical Service.

I recommend Surgeon-Major Corbett for promotion to the rank of Brigade-Surgeon, as I have formed a high opinion of his zeal and ability, both as an administrative and executive medical officer.

31. The Director of Transport has submitted the following names of officers who have done special good service in the Transport Department. The work done by this Department has been most onerous and most important. As an instance given by Captain Cather, in his report,* of the nature and extent of the work required of it, I would mention that at one station 1,200 carts were on the Transport Officer's books as out on hire at the same time. This was in addition to much pack transport. The labour and responsibility have been altogether abnormal.—

Major J. T. Cummins, 4th Cavalry, Hyderabad Contingent.

Captain F. J. D. Lugard, Norfolk Regiment.
 Lieutenant H. D'U. Keary, 1st Madras Pioneers.
 Lieutenant C. P. Scudamore, Royal Scots Fusiliers.

Lieutenant G. P. Ranken, 24th Punjab Infantry.
 Lieutenant J. Strachey, 11th Bengal Infantry.

I beg to endorse all these nominations, and would recommend Major Cummins, Captain Lugard, and Lieutenant Scudamore to special notice.

Captain Cather further reports very highly on the services of Sub-Conductor A. Mason, Bengal Transport. This warrant officer has performed a very heavy task in taking over piecemeal thousands of sets of gear and large quantities of materials from India. The Director of Transport reports most favourably of his steadiness, untiring energy, and reliable accuracy. I recommend this warrant officer very strongly for advancement to the rank of Conductor.

32. The Officer Commanding the Royal Artillery has brought forward the names of the following officers whom he considers have earned special recognition:

Major W. H. F. Sorell, 8-1, London Division.
 Lieutenant T. L. Coxhead, 8-1, London Division.
 Major W. Aitken, 9-1, Cinque Ports Division.
 Lieutenant H. E. Stanton, 9-1, Cinque Ports Division.
 Lieutenant C. P. Fendall, 3-1, South Irish Division.
 Lieutenant M. B. Bicknell, 7-1, Northern Division.
 Lieutenant A. L. Tisdall, No. 1 Bombay Mountain Battery.
 Lieutenant W. Elliot, No. 1 Bombay Mountain Battery.
 Lieutenant A. H. C. Birch, No. 4 Hazara Mountain Battery.
 Lieutenant W. Lampport, 8-1, London Division.

Lieutenant-Colonel Budgen also mentions the following officers who have been in command of batteries:

Major C. J. Doshon, 1-1, Eastern Division.
 Major W. Aitken, 9-1, Cinque Ports Division.

* Not published.

Major G. T. Carré, 7-1, Northern Division.
 Major F. M. E. Vibant, 3-1, Southern Division.
 Captain A. Keene, No. 1 Bombay Mountain Battery.
 Captain W. J. Honner, No. 4 Hazara Mountain Battery.
 Captain H. C. C. D. Simpson, 7-1, Northern Division.
 Lieutenant J. L. Parker, Adjutant, Royal Artillery, Upper Burma Field Force.
 Captain C. M. Haggard, Brigade-Major, Royal Artillery.

I have already referred to the services of—

Major Sorell,
 Lieutenant Coxhead,
 Major Aitken,
 Lieutenant Stanton,
 Lieutenant Fendall,
 Lieutenant Lampport,
 Major Carré,

and I am glad to support Colonel Budgen's application in favour of Captain Haggard, Brigade-Major.

33. It is now my duty to lay before His Excellency the Commander-in-Chief the names of those officers who have served on the Headquarters Staff of the Upper Burma Field Force:

Colonel M. Protheroe, C.S.I., has been Assistant-Adjutant and Quartermaster General of the Force during the time I have commanded it. His zeal, ability, and untiring powers of work are well known to all the officers of high rank who have commanded in Upper Burma, and have been invaluable to me and to the Force at large. I hope that his excellent service may receive some further mark of approval.

I have also to acknowledge the assistance received from Captain G. Henry, Royal Engineers; Captain J. Sherston, Rifle Brigade; Major A. W. H. Hornsby, 1st Madras Cavalry; and Captain A. W. L. Bayly, Bombay Staff Corps. The work of all these officers has been of great service to me, and has been most important and continuous. I recommend them for consideration.

34. Lieutenant-Colonel W. T. Budgen has commanded the Royal Artillery in Upper Burma during my period of command of the Upper Burma Field Force, and has carried on the duties satisfactorily.

35. Captain A. R. F. Dorward has done constant and very heavy work as Commanding Royal Engineer. The vast amount of field engineering that has been necessary during this long campaign has been conducted under his orders, and the provision of barrack accommodation for the troops has devolved on him. His capacity is well known to the Commander-in-Chief, and I recommend him with confidence to His Excellency's consideration. His promotion would be a benefit to the service.

36. Owing to the nature of the occupation of Upper Burma by very numerous small posts, the commissariat supply of the troops has been a problem of exceptional difficulty. I cannot too highly commend the administrative ability, watchfulness, and resource with which Lieutenant-Colonel A. F. Laughton, as Principal Commissariat Officer, has met and overcome the difficulties of the situation. To him and to the able officers under him has fallen the most responsible and difficult task of the campaign; and I hope the recognition of the services of the Principal Commissariat Officer may be

commensurate with the labour and responsibility of his work.

37. The Transport Department has been directed by Captain T. P. Cather, Royal Engineers, an officer of great energy and administrative ability. In a force cut up into such numerous small bodies; nearly all of which were mobilised, the provision and keeping up of transport has been an exceptionally heavy labour; but the call has been well met by Captain Cather. I am indebted to him for the rapid organization and satisfactory working of the Department, and I hope it may be possible to give Captain Cather rank more suitable to the work he has done. I bracket him with Captain Dorward as an officer whose promotion would be a benefit to the service.

38. The Medical Department has been successfully worked by Deputy Surgeon-General G. Farrell, C.B., who has conducted his heavy duties with zeal and ability. I would also beg to recall the good service rendered by Surgeon-Major H. W. A. Mackinnon when Principal Medical Officer of this force, in case it may now be possible to grant him the promotion to which he was gazetted and which was subsequently cancelled.

39. Major C. H. Sheppard has conducted the duties of Deputy Judge Advocate with great zeal and attention. I recommend him for advancement.

40. Captain H. F. S. Ramsden, Military Accounts Department, has been indefatigable in his labours as Field Paymaster, Upper Burma Field Force, and has rendered invaluable service both to the force and to the public.

41. Captain E. W. Dun, Bengal Staff Corps, has had charge of the Intelligence Branch in Upper Burma, and has been most assiduous and successful in collecting information on all subjects connected with the country and its peoples.

42. Captain J. R. Hobday, in charge of the Survey of Upper Burma, has laboured with success to furnish maps of the country, to facilitate military movements. I beg to bring his valuable work to notice.

43. I have the honor to submit the names of Lieutenant Q. G. K. Agnew, Royal Scots Fusiliers, who was my Aide-de-Camp until invalided, and that of Lieutenant S. C. F. Jackson, Hampshire Regiment, who succeeded him, and who has rendered me the greatest assistance, and is an officer of much promise.

44. The list of officers who have rendered specially good service would be incomplete without the name of Lieutenant-Colonel W. P. Symons, South Wales Borderers, Commandant of Mounted Infantry. The work done by this force has been first-rate, and I am indebted to Lieutenant-Colonel Symons for its organization and the details of its equipment.

45. The list of names submitted is a long one, but I have before referred to the conditions of this protracted campaign; and I venture to hope that the recognition bestowed may be in proportion to the nature of the duties performed by the officers mentioned.

46. I have the honor to forward herewith the reports* of Brigadier-Generals and Heads of Departments. Colonel Stedman's report of

officers who have done specially good service on the expedition to Nyamgwe has not yet been received, but any necessary additions will be telegraphed.

No. 11-C., dated 14th March, 1887.

Forwarded.

(Sd.) C. G. ARBUTHNOT, *Lieut.-Genl.*,
Commander-in-Chief, Madras Army.

II.

From MAJOR-GENERAL SIR G. S. WHITE, K.C.B., V.C.,
Commanding the Upper Burma Field Force, to the
Adjutant-General in India (through the Adjutant-
General, Madras Army), (No. 166-BC, dated
Mandalay, the 27th March, 1887)

The following is forwarded in continuation of my letter of the 10th instant.

I would beg to submit the names of the officers herein mentioned by Brigadier-General Lockhart, and would specially select Major C. E. Ilderton and Major Hughes for special mention.

No. 15-C, dated Mandalay, 1st April, 1887.

Forwarded in continuation of my No. 11-C., dated 14th March, 1887.

(Sd.) C. G. ARBUTHNOT, *Lieut.-Genl.*,
Commander-in-Chief, Madras Army.

From BRIGADIER-GENERAL W. S. A. LOCKHART, C.B.,
C.S.I., Commanding the 3rd Brigade, Upper Burma
Field Force, to the Assistant Adjutant and
Quartermaster General, Upper Burma Field Force,
Head Quarters, Mandalay, (No. 2-A—*Confidential*,—dated Yemethen, the 9th March, 1887).

In compliance with your memorandum No. 989, dated 3rd February 1887, I have the honor to submit an additional list of officers in this command who have rendered good service up to date:

*and Battalion, the Queen's Royal West Surrey
Regiment.*

1. Major C. E. Ilderton—This officer has been very frequently employed in the field since the arrival of his regiment in Burma, and has done well. He has on several occasions been entrusted with the command of a mixed column. I trust his valuable services may be recognized.

2. Captain C. W. Boddam has been employed independently on several occasions, and has done excellent service.

3. Lieutenant F. J. Pink—I am much indebted to Lieutenant Pink, who is my orderly and intelligence officer. His survey work speaks for itself, and in every other respect he has proved of value to me in the field.

1st Bombay Lancers.

4. Lieutenant G. F. N. Tinley.—A very good cavalry officer, who has on every occasion done well in the field.

5. Lieutenant G. E. Staveley.—The same remarks apply to him as to Lieutenant G. F. N. Tinley.

* Not published.

27th Bengal Infantry.

6. Lieutenant C. W. O'Brien has done excellent service with the mounted infantry, always showing enterprise and dash.

Departmental.

7. Major C. F. Hughes, Brigade Commissariat Officer, has shown the greatest devotion to his work, and has never spared himself.

8. Lieutenant J. Ezechiel, Deputy-Assistant Commissary, has also been most zealous and hard-working.

9. Lieutenant C. P. Scudamore, Royal Scots Fusiliers, Brigade Transport Officer, has done very good service with the 3rd Brigade and, according to Colonel Stedman, with the Shan column as well.

Of the Medical Services, the officers whose good work has come under my special notice are:

10. Surgeon W. G. Birrell, M.B., Medical Staff.

11. Surgeon A. W. F. Street, Indian Medical Service.

12. Surgeon P. de Conceição, Indian Medical Service.

The services of the above three officers have been invaluable; and I must here add a tribute to the work rendered by a fourth, now no more, *vis.*—

13. The late Surgeon E. W. Kelsall, of the Medical Staff, whose death from cholera last December was a great public loss.

In conclusion I venture to submit the name of a Foreign officer—

14. First-Lieutenant J. F. Breijer, of the Netherlands Indian Army, who has acted as my extra orderly officer, and at the same time has cooperated with Lieutenant Pink in road surveying. He has been of great use, and has always been anxious to get forward when firing commenced.

III.

From Major-General Sir G. S. WHITE, K.C.B., V.C., Commanding the Upper Burma Field Force, to the Adjutant-General in India (through the Adjutant-General, Madras Army), dated Mandalay, the 11th April, 1887.

In continuation of my despatch dated Mandalay, 10th March, I have the honor to submit, for the consideration of His Excellency the Commander-in-Chief, the names of the following officers who have been mentioned by Colonel Stedman as having rendered specially good service during the operations of the column detailed to advance on Nyaungwe:

Captain A. Mansel, Commanding division of 1-1, Eastern Division, Royal Artillery.

Major A. J. Poole, Commanding half battalion, 2nd Hampshire Regiment.

Major E. H. C. Braddon, 2nd Battalion, Hampshire Regiment.

Major E. B. Bishop, Commanding the 3rd Goorkha Regiment.

Captain C. Pulley, 3rd Goorkha Regiment.

Captain J. D. Fullerton, Royal Engineers.

Lieutenant C. E. Baddeley, Royal Engineers.

Lieutenant C. W. O'Brien, 27th Bengal Infantry, Commanding Mounted Infantry.

Surgeon-Major J. C. G. Carmichael, M.D., 3rd Goorkha Regiment.

Surgeon A. W. F. Street, Bombay Medical Service.

Surgeon P. C. H. Gordon, Medical Staff.

Major W. Clark, Oxfordshire Light Infantry.

Lieutenant K. Cheney, 18th Bengal Lancers.

Lieutenant W. C. Jephson, Executive Commissariat Officer.

Lieutenant E. B. Burton,

17th Bengal Cavalry,

Lieutenant W. Nelson,

20th Madras Infantry,

Captain H. S. Massy, 19th Bengal Lancers,

Signalling Officer.

Lieutenant H. E. Stanton, Royal Artillery, At-

taché, Intelligence Branch.

Transport Officers.

2. Many of these officers have been brought to notice for good service elsewhere, but I beg specially to recommend—

Captain Mansel, 1-1, Eastern Division, Royal Artillery.

Major Poole, 2nd Battalion, Hampshire Regiment.

Major Bishop, Commanding the 3rd Goorkha Regiment.

Major Clark, Oxfordshire Light Infantry.

Lieutenant Stanton, Royal Artillery, Intelligence Branch.

Lieutenant Chesney, 18th Bengal Lancers, orderly officer to the Officer Commanding the Force.

3 I herewith forward Colonel Stedman's report, No 162, dated 18th March,* in which he summarises the result of the operations in the Shan States, which he has so ably conducted.

4 I would beg here to supply an omission in my despatch of the 10th March last, and record the valuable services of Captain Spratt, Royal Engineers, as Director of Signalling to the Field Force. His industry and powers of organization have conducted much to the success which has been achieved in this department.

5 Brigadier-General East asks that the name of Colonel L. B. Bance, 15th Madras Infantry, may be added to the list of officers named by him for specially good service which was forwarded with my former report.

6 I have also to tender my acknowledgments of the continuous and devoted services rendered to the officers and men of this force by—

The Reverend F. Hill, Church of England Chaplain.

The Reverend A. J. Wallace, Roman Catholic Chaplain.

The Reverend Hugh O'Neil, Roman Catholic Chaplain.

7 The name of Captain J. E. Preston, 13th Madras Infantry, was not included in my former despatch. This officer rendered specially good service on several occasions in the summer of 1886, and was severely wounded when in command at Lemaing, a post for the command of which I had selected him on account of his gallantry and ability as an officer. I recommend him for advancement.

8 The officers and men of the Royal Navy who have been employed in Upper Burma have rendered most ready and efficient aid to the sister service, both in land expeditions and in clearing pirates off the rivers. The launches at their disposal have been ill adapted to the service and the accommodation has been limited; but all difficulties have been overcome and hardships made light of with the professional zeal so characteristic of the Royal Navy. I have specially to acknowledge the assistance received from—

Captain J. P. Pipon, late H.M.S. *Ranger*.

Commander J. Durnford, H.M.S. *Mariner*.

* Not published.

Lieutenant C. B. Macdonald, H.M.S. *Ranger*, who was killed leading an assault upon a dacoit stronghold.

Lieutenant J. F. Stuart, H.M.S. *Ranger*.

Lieutenant H. F. Apin, H.M.S. *Ranger*.

Mr. T. Holman, Gunner, H.M.S. *Ranger*.

9. This report would be incomplete without calling attention to the valuable services rendered by Captain H. P. Airey of the New South Wales Artillery. This officer's service with the Field Force has been cut short by a severe wound, received in action when commanding a division of Gatling guns, in an engagement at Hmaw-Hwaing, in the Yewoon district, where Captain Airey behaved with marked gallantry. I beg to recommend him for special consideration.

10. Captain J. L. Taylor, Madras Railway Volunteers, has been mentioned by Brigadier-General Low for excellent service with the mounted infantry of the 6th Brigade, in which he has served with distinction.

11. Lieutenant C. F. MacCartie, Madras Volunteer Guards, has proved himself a mounted infantry officer of the greatest ability and dash. He has volunteered for service wherever the chance of hard work has presented itself, and has been of the greatest use in training young soldiers as mounted infantry.

From Major-General J. J. H. GORDON, C.B., Commanding the Eastern Frontier District, to the Adjutant-General in India, (No. 97-C—*Field Operations*,—dated Camp Golaghat, the 21st March, 1887).

As the field operations connected with the opening up of the country between Manipur and Kendat, and the establishment of direct communication between Assam and Upper Burma, have now been concluded on the withdrawal of the head-quarters of the 44th Goorkha Light Infantry from Kendat to Manipur, and the garrisoning of Pounghbyn and Sitoung on the Upper Chindwin, and Oktong and Tummo in Kubo, with detachments of the 44th, I have the honor to submit, for the information of His Excellency the Command-in-Chief, the following, bringing together in a brief and general form the information scattered through the various reports forwarded by me during the different stages of the operations.

2. Major W. F. Trotter, Political Agent, Manipur, escorted by a detachment of 100 men of the 4th Bengal Infantry, under the command of Major W. Hailes, 4th Bengal Infantry, marched from Tummo for Kendat on the 11th May, 1886. Early on the morning of the 12th May they were treacherously attacked in camp at Pantha, by a large body of rebel Burmese, who had carefully prepared their plans for a sudden blow. They were forced to retire on Tummo. Reinforcements of two companies of the 42nd Goorkha Light Infantry, under Captain H. FitzG. Stevens, were sent from Kohima, and arrangements made for organizing transport under Captain J. Willcocks, Transport Officer.

3. On the 19th June the enemy was attacked at Chanyone, three miles from Tummo; but being too strongly posted and in large numbers, the attack did not succeed. Major Hailes was severely wounded on this occasion, and the command at Tummo devolved on Captain Stevens,

42nd Goorkha Light Infantry, who has commanded in the Kubo valley up to the present.

4. As there was much sickness in the garrison and the heavy rains had set in, Captain Stevens confined himself to harassing the enemy by a judicious use of scouting parties, and placing him on the defensive.

5. Early in June the first of the transport sent from Golaghat reached Manipur, and Captain Willcocks at once organized weekly convoys of supplies from Manipur to Tummo.

6. As the Political Agent, Manipur, had not anticipated any opposition in Kubo, and merely arranged for a short march to Kendat and back, and that no troops beyond the usual Residency escort should remain at Manipur, no premeditated arrangements for supplies for an increased number of troops had been made. Kohima was drawn upon for supplies, medical stores, &c., and local resources were developed.

7. The distance between Manipur and Tummo is 64 miles,—36 of these being over forest and jungle-clad hills rising up to 5,000 feet. The rains had set in, and the path was of the roughest and most trying kind, being a succession of steep ascents and descents. Captain Willcocks by vigorous personal exertion made 24 miles of hill road fit for all kinds of laden animals, while Captain Stevens continued it into Tummo.

8. In the end of August reinforcements of two companies of the 44th Goorkhas from Dibrugarh, and two mountain guns with gun teams, 44th Goorkhas, from Shillong, were ordered to Tummo *via* Cachar, as the Nambhor forest route *via* Kohima at that season was unadvisable from malaria. Heavy floods having destroyed part of the road beyond Cachar delayed the march, but the reinforcements reached Tummo early in October, and on the 10th October Captain Stevens attacked the enemy at their strongly stockaded position of Chanyone, three miles from Tummo, captured it after an hour's fighting, and inflicted severe loss on the rebels.

9. This bold attack, followed up by rapid movements to the strongest stockaded villages, secured the submission of the entire valley in a few days, the leading rebels fled, arms were given up, and the villagers returned to their homes and cultivation.

10. Under Captain Stevens' able administration, confidence in the British Government was speedily instilled. The valley was surveyed, every village visited, lists of the inhabitants made, and village headmen appointed.

11. Orders being received to concentrate the 44th Goorkhas at Tummo, the remainder of the regiment marched *via* Kohima, and the whole was assembled at Tummo on the 15th December. Regimental head-quarters and 400 men proceeded through Kubo and across the Ungoching Hills to Kendat, arriving there on the 25th December.

12. I accompanied the 44th to Kendat, and immediately after arrival there, acting in concert with the Civil and Political authorities, occupied Pounghbyn, an important position on the Chindwin, 60 miles north of Kendat, while a detachment was sent to clear out two noted dacoit villages 30 miles to the east of Kendat. These operations produced the best results. Pounghbyn

secured the unruly Lekayain district, and covered Kubo from inroads from that quarter. Lieutenant H. Daly, Political Assistant, Upper Chindwin, has his head-quarters at Pongbyn. He has traversed the whole of Lekayain and the districts northwards up to the junction of the Ooyoo river with the Chindwin, and brought them under our authority. Revenue is now being paid. Colonel R. G. Woodthorpe, Royal Engineers, has also been enabled to map out this part of the country.

13. Pongbyn was attacked on the 5th February by a body of 200 rebels from Wuntho, who were repulsed with loss.

I crossed the Ungooching range, due east of Tummoo on the 26th January, with a view of determining the best line of communication with the Chindwin. I reported this route, called the Sweja route, as the best in every way, and the shortest to the Chindwin. It strikes it midway between Kendat and Samjok, at a point where there are many villages and much cultivation. Steamers can ascend there throughout the year. The Chief Commissioner, Burma, has adopted this route for the new cart-road between Kubo and the Chindwin. It is now under construction.

14. I sent in a special report to the Quarter-master-General on the 3rd March regarding the communication between Assam and Upper Burma.

15. The existing communication has been greatly improved and opened out, and Upper Burma is now linked on to Assam by a good mule road, which in a great part only requires widening to fit it for carts.

16. The opening out of this route between Kubo and Manipur was followed by trade springing up between these places and Cachar, consequent on the improved road and assured protection and security in Kubo. Traders from India penetrated to Kubo, while the Burmese resorted to Manipur.

17. During December and January several raids were made on Kubo villages by a hill tribe variously called Chins, Loktis, Zatis, and Kamhows, who inhabit the hills to the west of the valley. This is an annual occurrence at that season. Only small villages suffered. Military guards were given to the larger villages, as owing to their being disarmed, they were defenceless.

18. On the 20th January an attack was made by day on Oktong post, in Kubo, by a party of 200 of these raiders, mostly armed with spears only. Their Chief was shot down leading them, and the rest fled at the first volley from the stockade. They evidently came from a distance, and were misled as to their point of attack. Since then no further raids have been made in Kubo.

19. The Kamhow country can best be entered from Manipur territory.

20. These Kamhow raiders on one occasion passed through Manipuri-Kuki villages, and rested there on return with their captives from Kubo. A fuller knowledge of this region would, I think, prove that Manipur was to some extent implicated in the outrage. The Kuki chiefs have since responded to the invitation of Mr. A. J. Primrose, Political Agent, Manipur, to

come and meet him. The result has been that seven Burmese captives taken from Kubo in 1885 have been restored, whom the Manipur authorities had failed to recover. They now know that Kubo is British territory; and friendly relations having been established with them through Mr. Primrose's personal influence, I think they will now see that they have nothing to gain but everything to lose by going against us.

21. Transport convoys were arranged along the line Kohima-Kubo, a distance of 184 miles, and communication maintained during the operations beyond Kubo.

22. On the 23rd February the future of Kubo was fully discussed at Tummoo by Mr. F. W. R. Fryer, Commissioner, Chindwin Division, Captain F. D. Raikes, Deputy Commissioner, Captain Stevens, Mr. Primrose, C.S., Political Agent, Manipur, and myself. All the headmen of Kubo representing the inhabitants, unanimously expressed their wish to be under the direct rule of the British Government, as their best security for life, peace, and property. They said they preferred it to the rule of any Burmese Swabwa, asked for military posts to be left at Oktong and Tummoo as a protection against outsiders, for arms to defend their villages against raiders, and to be allowed for this purpose to re-erect their village stockades. A rough system of border village militia was accordingly improvised, security taken for the safe custody of muskets, and inspection of the same at intervals ordered.

23. On the 15th February orders were received for 400 men of the 44th Goorkhas to be made available for garrisoning Kubo and posts on the Chindwin above Kendat; the head-quarters of the 44th to proceed to Manipur, with the detachment of the 4th Bengal Infantry then at Tummoo.

24. It was found necessary to increase the 400 of the 44th to 450, in order to provide a small post at Sitoung, the river terminus of the new road,—Tummoo-Chindwin. The 450 men and three mountain guns are distributed as follows:

Pongbyn, Upper Chindwin	...	150 men, 1 gun.
Sitoung, Upper Chindwin	...	50 men.
Oktong, Kubo	...	150 men, 1 gun.
Tummoo, Kubo	...	100 men, 1 gun.

25. The head-quarters of the 44th marched from Kendat on the 2nd March, and reached Manipur on the 15th March. The detachment of the 4th Bengal Infantry has been withdrawn from Tummoo to Manipur, and the two companies of the 42nd Goorkhas, which have been in Kubo since June last, are now on the march back to Kohima, to rejoin regimental head-quarters.

26. The total strength of the troops at Manipur is 400, inclusive of the Political Agent's escort.

27. Supply arrangements for the Kubo posts have been made from Manipur, and for the Upper Chindwin posts from Kendat.

28. It is proposed to withdraw the Oktong post garrison on the 1st July, when the flooded streams will protect that part of Kubo from outside dacoits and raiders.

29. Manipur will be connected with India by telegraph in the first week of April; and if my suggestion be adopted for laying a light

temporary wire into Tummoo and the Chindwin, instead of the permanent line now ordered, telegraphic communication might be secured with Tummoo by the middle of June.

30. The postal communication from Cachar and Kohima to Manipur and on to Tummoo has been much improved. To ensure permanent improvement, however, it is absolutely necessary that the system of postal runners through Manipur territory should be conducted on our own lines by paid monthly servants, and not by durbar-provided men, who are frequently changed and unpaid. The Durbar receives the money in a lump sum.

31. I would now beg to bring to the favourable notice of His Excellency the Commander-in-Chief the names of the following officers, for special good services

Captain H. FitzG. Stevens, 42nd Goorkha Light Infantry. He commanded the troops in Kubo from the 19th June, 1886, to the 13th March, 1887, with much spirit and judicious energy. He has displayed high military and administrative abilities. I cannot write too highly of him.

Captain J. Willcocks, Leinster Regiment, Transport Officer, and in charge of field commissariat. An able and enterprising officer, who in face of great difficulties, by persistent energy, threw supplies into Tummoo at a critical time, and enabled Captain Stevens to carry out operations to a successful issue. He joined in the attack on Chanyone on the 10th October and in the following operations, giving valuable aid in the field. He has also acted as Road Commandant.

To the above two officers is mainly due the credit of Tummoo being successfully held during a trying time in the rainy season of 1886.

Major W. Hailes, 4th Bengal Infantry, commanded at Tummoo up to the 19th June, 1886, when he was severely wounded in action. In the attack on the camp at Pantha on the 12th May he acted with much dash and promptly assumed the offensive, thus enabling him to draw off his detachment to Tummoo. He is an able officer.

Lieutenant C. W. Harris, 4th Bengal Infantry, acted with prompt resolution in following up to Manipur a pretender to that Government, and brought him to action, taking him prisoner, and checking the rising insurrection among the Manipuris.

Lieutenant K. P. Burne, 4th Bengal Infantry, commanded the detachment of the 4th Bengal Infantry in the attack on Chanyone on the 10th October with ability and judgment. He is an able and zealous officer and, as Post Commandant at Tummoo during the winter, has displayed good military qualities and much tact.

Surgeon F. A. Rogers, Indian Medical Service, performed excellent and devoted services at Tummoo and in Kubo, which have obtained for him from His Excellency the Commander-in-Chief the reward of permanent medical charge of the 42nd Goorkha Light Infantry.

Lieutenant H. D. Daly, 42nd Goorkha Light Infantry, who has been most energetic in road-making operations; Subadar Kedar Dichhit, 4th Bengal Infantry; Subadar Ramparshad Karki, 42nd Goorkhas; Subadar Gurdial Singh, 44th Goorkhas; and Jemadar Bakhan Sing Thakur, 44th Goorkhas, have all performed marked good services.

Mr. Edward Mitchell, Assistant Engineer, Department of Public Works, Assam, acted as Field Engineer in directing the roadmaking operations across the Sweja route from Tummoo to the Chindwin, and has been engaged since September in surveying for a military road from Manipur to Tummoo. He is an able and enterprising engineer.

Major G. H. C. Dyce, Deputy-Assistant Adjutant-General, Eastern Frontier District. He was my only staff officer in the field. On him fell much varied and severe work, which he has performed in a highly satisfactory manner. He is an excellent officer in every respect.

32. The following non-commissioned officers, hospital-assistants, and transport agent have performed markedly good services in the field

Sergeant T. McCann, Transport Department.
Lalla Dhunput Rai, Rai Bahadur, 1st class
Transport Agent

Havildar Gooman Sing, 44th Goorkhas, Gun-Havildar in command of two mountain guns at the attack on Chanyone, 10th October.

Havildar Judbir Goorung, 42nd Goorkhas, in command of scouts at Tummoo.

Havildar Chubilal Jaisi, 44th Goorkhas, Surveyor.

Havildar Mohun Sing, 4th Bengal Infantry.
Hospital-Assistant, 2nd Grade, Abdul Razak, 42nd Goorkha Light Infantry.

Hospital-Assistant, 3rd Grade, Rajkoomar Pandé, 4th Bengal Infantry.

Hospital-Assistant, 3rd Grade, Shaik Kadir Baksh, 44th Goorkha Light Infantry.

33. I would beg to bring particularly to notice the valuable services of Mr. A. J. Primrose, C. S., Political Agent, Manipur, who has heartily co-operated in the operations connected with the opening up of the route through Manipur to Upper Burma, and judiciously and firmly used his influence to aid me in every way. His decided action with the Manipur-Kuki tribe bordering on Kubo strengthened our position there.

34. Lieutenant H. Daly, Political Assistant, Upper Chindwin, has afforded me valuable information and aid. I would also beg to bring his excellent services particularly to notice. He is judicious, daring, and energetic, and has made the best use of the detachment of the 44th Goorkhas at Pounghyn, by traversing the Lekayain and neighbouring districts, bringing them under control and impressing his personal influence on the people.

No. 435.—The Right Hon'ble the Governor-General in Council is pleased to direct the publication, for general information, of the following extracts from correspondence between the Government of India and the Right Hon'ble the Secretary of State for India

Extract (paras. 1 and 2) of a despatch from the Government of India to the Right Hon'ble the Secretary of State for India, No. 167-A, dated the 18th October, 1887.

1. In continuation of our Military letter No. 103-A, dated the 16th July, 1886, we have the honor to forward the accompanying copy of a report from Major-General G. S. White, C.B., V.C., Commanding the Burma Field Force, of the military operations in Upper Burma from the 1st April last to the end of July, and of the plans proposed by him for the maintenance and extension of British supremacy in Burma.

2. We cordially recognise and desire to commend to the favorable consideration of Her Majesty's Government the good service performed by Major-General White and the troops under his command in Upper Burma under very trying circumstances of health and climate.

Extract (para. 4) of a Military letter from the Right Hon'ble the Secretary of State for India to the Government of India, No. 47, dated 17th February, 1887.

4. I forward for your information copy of the correspondence with the War Office, noted in the margin, from which you will perceive that the Secretary of State for War and His Royal Highness the Field Marshal Commanding-in-Chief concur with me in recognizing the good service performed by Major-General G. S. White, V.C., K.C.B., and the troops under his command, in very trying circumstances in Upper Burma.

Military, INDIA OFFICE,
No. M-11409. London, 15th December, 1886.

To the Under-Secretary of State for War.

SIR,—

I am directed by the Secretary of State for India in Council to forward herewith, for the information of the Secretary of State for War, copies of despatches from the Government of India, with reports by Major-General Sir G. S. White, V.C., K.C.B., Commanding the Burma Field Force, on

No. 167-A, dated 19th October, 1886, with enclosure.

operations in that country from 1st April to 31st July last, and on his plans for the establishment of British supremacy. Copies of narratives received with these despatches also accompany, and a copy of the map mentioned in Major-General White's reports.

With reference to paras. 2 and 3 of the despatch of 18th October, 1886, I am directed to express the concurrence of the Secretary of State for India in Council in the recognition by the Government of India of the good service performed by Major-General White and the troops under his command under very trying circumstances.

I have, &c.,

(Sd) JOHN H. MAYO,
Assistant Military Secretary.

Military,

LEGISLATIVE DEPARTMENT.

NOTIFICATIONS

Simla, the 16th June, 1887.

No. 15.—The following Statute is published for general information —

ARMY (ANNUAL) ACT, 1887.

50 VICT SESS. 2. CH 2.

An Act to provide, during twelve months, for the Discipline and Regulation of the Army.

[28th April, 1887.]

WHEREAS the raising or keeping a standing army within the United Kingdom of Great Britain and Ireland in time of peace, unless it be with the consent of Parliament, is against law:

And whereas it is adjudged necessary by Her Majesty and this present Parliament, that a body of forces should be continued for the safety of the United Kingdom and the defence of the possessions of Her Majesty's Crown, and that the whole number of such forces should consist of one hundred and forty-nine thousand three hundred and ninety-one men, including those to be employed at the depôts in the United Kingdom of Great Britain and Ireland for the training of recruits for service at home and

abroad, but exclusive of the numbers actually serving within Her Majesty's Indian possessions

And whereas it is also judged necessary for the safety of the United Kingdom, and the defence of the possessions of this realm, that a body of Royal Marine forces should be employed in Her Majesty's fleet and naval service, under the direction of the Lord High Admiral of the United Kingdom, or the Commissioners for executing the office of Lord High Admiral aforesaid

And whereas the said marine forces may frequently be quartered or be on shore, or sent to do duty or be on board transport ships or vessels, merchant ships or vessels, or other ships or vessels, or they may be under other circumstances in which they will not be subject to the laws relating to the government of Her Majesty's forces by sea

And whereas no man can be forejudged of life or limb, or subjected in time of peace to any kind of punishment within this realm by martial law, or in any other manner than by the judgment of his peers and according to the known and established laws of this realm; yet nevertheless it being requisite, for the retaining all the before-mentioned forces, and other persons subject to military law, in their duty, that an exact discipline be observed, and that persons belonging to the said forces who mutiny

or stir up sedition, or desert Her Majesty's service, or are guilty of crimes and offences to the prejudice of good order and military discipline, be brought to a more exemplary and speedy punishment than the usual forms of the law will allow:

44 & 45 Vict. c. 58. And whereas the Army Act, 1881, will expire in the year one thousand eight hundred and eighty-seven on the following days:

- (a.) In the United Kingdom, the Channel Islands, and the Isle of Man, on the thirtieth day of April; and
- (b.) Elsewhere in Europe, inclusive of Malta, also in the West Indies and America, on the thirty-first day of July; and
- (c.) Elsewhere, whether within or without Her Majesty's dominions, on the thirty-first day of December:

Be it therefore enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

Short title. 1. This Act may be cited as the Army (Annual) Act, 1887.

2. (1.) The Army Act, 1881, shall be and remain in force during the periods hereinafter mentioned, and no longer, unless otherwise provided by Parliament; that is to say,

- (a.) Within the United Kingdom, the Channel Islands, and the Isle of Man, from the thirtieth day of April one thousand eight hundred and eighty-seven to the thirtieth day of April one thousand eight hundred and eighty-eight, both inclusive; and
- (b.) Elsewhere in Europe, inclusive of Malta, also in the West Indies and America, from the thirty-first day of July one thousand eight hundred and eighty-seven to the thirty-first day of July one thousand eight hundred and eighty-eight, both inclusive; and
- (c.) Elsewhere, whether within or without Her Majesty's dominions, from the thirty-first day of December one thousand eight hundred and eighty-seven to the thirty-first day of December one thousand eight hundred and eighty-eight, both inclusive;

and the day from which the Army Act, 1881, is continued in any place by this Act is in relation to that place referred to in this Act as the commencement of this Act.

44 & 45 Vict. c. 58. (2.) The Army Act, 1881, while in force shall apply to persons subject to military law, whether within or without Her Majesty's dominions.

(3.) A person subject to military law shall not be exempted from the provisions of the Army Act, 1881, by reason only that the number of the forces for the time being in the service of Her Majesty, exclusive of the marine forces, is either greater or less than the number hereinbefore mentioned.

3. There shall be paid to the keeper of a victualling house for the Prices in respect of accommodation provided by him in pursuance of the Army Act, 1881, the prices specified in the Schedule to this Act.

Amendments of Army Act, 1881.

4. Whereas under section forty-one of the Army Act, 1881, as amended by the Army (Annual) Act, 1886, a person subject to military law is by the first four sub-sections liable, if convicted by a court-martial of certain offences in those sub-sections particularly specified, to suffer such punishment as is therein specified for each of such offences, and by the fifth sub-section is liable if convicted of any offence, which when committed in England is punishable by the law of England, to suffer such punishment as might be awarded to him in pursuance of the Army Act, 1881, in respect of an act to the prejudice of good order and military discipline, or to suffer any punishment assigned for such offence by the law of England:

And whereas doubts have arisen as to whether the provision of the fifth sub-section for liability to the punishment that might be awarded in respect of an act to the prejudice of good order and military discipline extends to the offences in the first four sub-sections particularly specified, and it is expedient to remove such doubts: Be it therefore enacted as follows:—

In sub-section five of section forty-one of the Army Act, 1881, the words "not before in this section particularly specified," shall be inserted after the words, "if he is convicted of any offence."

5. Whereas by section fifty-seven of the Army Act, 1881, the authorities therein mentioned have power to commute punishment awarded by a sentence of a court-martial for any less punishment or punishments to which the offender might have been sentenced by the said court-martial:

And whereas in case of murder the only sentence which a court-martial can award is the sentence of death, and doubts may arise as to the power of any authority to commute such sentence, and it is expedient to remove such doubts: Be it therefore enacted as follows:—

In sub-section one of section fifty-seven of the Army Act, 1881, the words "or if such punishment is death awarded for the offence of murder, then for penal servitude or such less punishment as in this Act mentioned" shall be inserted after the words "sentenced by the said court-martial."

In sub-section two of section fifty-seven of the Army Act, 1881, the words "or if such punishment is death awarded for the offence of murder, then for penal servitude or such less punishment as in this Act mentioned" shall be inserted after the words "sentenced by the said court-martial."

SCHEDULE.

Accommodation to be provided.	Maximum Price.
Lodging and attendance for soldier where hot meal furnished.	Two pence half-penny per night.
Hot meal as specified in Part I, of the Second Schedule to the Army Act, 1881.	One shilling and one penny half penny each.
Where no hot meal furnished, lodging and attendance, and candles, vinegar, salt, and the use of fire, and the necessary utensils for dressing and eating his meat.	Four pence per day.
Ten pounds of oats, twelve pounds of hay, and eight pounds of straw per day for each horse.	One shilling and nine pence per day.
Lodging and attendance for officer	Two shillings per night.

NOTE.—An officer shall pay for his food.

The 17th June, 1887.

No. 16.—His Excellency the Governor-General, under the authority vested in him by the Statute 24 and 25 Vic., Cap. 67, Section 10, has been pleased to nominate Nawab Nawazish Ali Khan, C.I.E., to be an Additional Member of the Council of the Governor-General for the purpose of making Laws and Regulations.

S. HARVEY JAMES,

Offg. Secretary to the Government of India.

HOME DEPARTMENT.

NOTIFICATIONS.—PUBLIC.

Simla, the 16th June, 1887.

No. 1341.—The following Despatch from Her Majesty's Secretary of State for India, No. 57 (Public), dated the 28th April, 1887, is published for general information :

No. 57 (Public), dated India Office, London, 28th April, 1887.

From—Her Majesty's Secretary of State for India,

To—His Excellency the Right Honourable the Governor-General of India in Council.

I have laid before the Queen-Empress the letter from Your Excellency's Government, No. 13 (Public), of the 8th March, 1887, transmitting telegrams received from certain individuals and public bodies expressing their congratulations and loyalty on the occasion of the recent celebration in India of the Jubilee of Her Majesty's Reign.

2. In reply, I am commanded to state that Her Majesty has derived much gratification from a perusal of these loyal and dutiful messages, which evince so much good feeling towards Her Person and Throne; and I have to request that Your Excellency in Council will separately inform those from whom the telegrams have been received of Her Majesty's gracious appreciation of the sentiments contained in them.

The 17th June, 1887.

No. 1351.—The following Despatch from Her Majesty's Secretary of State for India, No. 60,

dated the 5th May, 1887, is published for general information :

No. 60 (Public), dated India Office, London, 5th May, 1887.

From—Her Majesty's Secretary of State for India,

To—His Excellency the Right Honourable the Governor-General of India in Council.

I transmit, for the information of Your Excellency in Council, copy of the correspondence noted

India Office to Mr. C. Wilson, dated 26th November, 1886.

Mr. Wilson to India Office, dated 1st December, 1886.

Messrs. Cobbold and Woolley to India Office, dated 30th March, 1887, and enclosures.

India Office to Messrs. Cobbold and Woolley, dated 3rd May, 1887.

in the margin, relating to the assumption and adoption by Mr. Charles Wilson, of the Bengal Civil Service, of the surname of "Stewart-Wilson" in place and stead of the surname of "Wilson."

2. This change of name has been noted in the records of this office.

No. 1353.—The Governor-General in Council is pleased to direct that Tuesday, the 21st of June, be observed as a public holiday throughout British India.

MEDICAL.

The 17th June, 1887.

No. 324.—*Erratum.*—In Home Department Notification No. 241, dated 10th May, 1887, appointing Apothecary O. W. Jones, M.D., of the Madras Subordinate Medical Establishment, to be Civil Surgeon of Basim in the Hyderabad Assigned Districts,

for "First Grade Apothecary" read "Second Grade"

JUDICIAL.

The 16th June, 1887.

No. 980.—The services of Lieutenant R. F. H. Anderson, 3rd Goorkha Regiment, Station Staff Officer, Almora, are placed at the disposal of the Government of the Punjab, for employment as Cantonment Magistrate.

No. 984.—Under the provisions of Section 138 of Act XXVI of 1881 (The Negotiable Instruments Act, 1881), the Governor-General in Council has been pleased to appoint Mr. Abdul Guffoor, an Advocate of the 2nd Class, to be a Notary Public, and to exercise his functions as such within the limits of the town of Moulmein in Lower Burma.

The 17th June, 1887.

No. 48.—In exercise of the power conferred by Section 31 of the Cantonments Act, 1880, the Governor-General in Council is pleased to extend to the town of Mandalay the rules made by the Chief Commissioner of Burma under Section 25 and the 7th Clause of Section 27 of that Act for inspecting and controlling brothels and preventing the spread of venereal disease in the Cantonment of Mandalay.

2. The limits of the town of Mandalay for the purposes of this Notification shall be the limits for the time being of the local area subject to the ordinary original jurisdiction of the Civil Court of Mandalay.

No. 49.—In exercise of the power conferred by Section 32 of the Cantonments Act, 1880, the

Governor-General in Council is pleased to make the following Rules for the imposition of penalties for the breach of the Rules extended to the town of Mandalay by this Department Notification No. 48, dated 17th June, 1887, and for prescribing the manner in which, and the persons by whom, breaches of such Rules shall be enquired into or be cognizable.

Rules.

1. A person convicted of a breach of any of the Rules for inspecting and controlling brothels and preventing the spread of venereal disease in the town of Mandalay shall be punished with fine which may extend to Rs. 50, or with imprisonment for eight days.

2. Any officer in charge of a Police station may take cognizance of and make a preliminary enquiry into any breach of these Rules, subject to the provisions of the Code of Criminal Procedure, 1882, as applied to Upper Burma by the Upper Burma Criminal Justice Regulation, 1886.

PATENTS.

The 13th June, 1887.

"[NOTE. If the period spent by an officer on special duty in England is allowed to count for leave, it is included in the calculation of average salary on the assumption that the officer drew full salary. Otherwise it is excluded in calculating average salary.]"

J. WESTLAND,

Offg. Secretary to the Government of India.

MILITARY DEPARTMENT.

Simla, the 16th June, 1887.

FIELD OPERATIONS.

No. 434.—His Excellency the Viceroy and Governor-General in Council is pleased to direct the publication of the accompanying letter, dated the 7th May, 1887, from the Adjutant-General in India, forwarding despatches from the General Officers Commanding the Upper Burma Field Force and the Eastern Frontier District, bringing to notice the good services of the troops during the operations which have taken place in Burma since the capture of Mandalay.

The Governor-General in Council, in G. G. O. No. 295 of the 14th May, 1886, placed on record his estimation of the services of the officers and men in the operations at the end of 1885, which resulted in the capture of Mandalay. And in G. G. O. No. 435 of this date His Excellency in Council publishes to the Army an expression of the appreciation shown by the Government of India and by Her Majesty's Government, of the services rendered by Major-General Sir G. S. White, K.C.B., V.C., and the commanders, officers, and men of that portion of the force which occupied Upper Burma during the summer of 1886.

The Governor-General in Council now takes the opportunity of the return to India of a large portion of the field force, to signify the cordial recognition of the Government of India of the distinguished manner in which the Army has acquitted itself during a series of arduous and protracted operations.

His Excellency in Council congratulates the Army upon the spirit which has been shown by all ranks in confronting the difficulties inseparable from a campaign, carried on over a vast extent of country, amidst dense jungles and forests, and under great stress of climate,—conditions which have called forth high military qualities. The difficulties and hardships of the campaign have not been overcome without heavy loss, and the Governor-General in Council deplores the death of many brave officers and men, in action and from disease, who have fallen in the discharge of their duty to their Queen and Country.

When the lamented death, in October, 1886, of that distinguished soldier, the late Sir Herbert Macpherson, had deprived the Army of one of its best officers, and the State of one of its most trusted servants, the Commander-in-Chief in India proceeded to Burma to assume the chief command.

To General Sir Frederick Roberts, G.C.B., V.C., Commander-in-Chief in India, the Governor-General in Council tenders his sincere and grateful thanks, not only for the skilful plans of operations prescribed by him in that capacity, but also for the able and vigorous manner in which he personally directed and carried out those plans while holding the immediate command of the Army in Burma. His Excellency in Council desires also to express his thorough appreciation of the valuable services rendered in that command by Lieutenant-General Sir Charles Arlthnot, K.C.B., Commander-in-Chief of the Madras Army, who succeeded to the duty of completing those operations on the return of Sir Frederick Roberts to India,—a duty performed to the entire satisfaction of the Government of India.

The Governor-General in Council fully concurs in the approbation expressed by the Commander-in-Chief in India of the services rendered by the officers of the Head-Quarters of the Army in India, who accompanied His Excellency to Burma, and of the Head-Quarters Staff of the Madras Army employed in that country.

The admirable services rendered by Major-General Sir George White, K.C.B., V.C., in command of the Upper Burma Field Force throughout the whole of the operations,—the skill and capacity with which he exercised the command of the large and widely extended force under his orders during the most trying

season of the year, and subsequently directed the comprehensive operations under the Commander-in-Chief's orders during the past cold season with such marked ability and success,—call for the particular acknowledgment and approbation of the Governor-General in Council. The good services of the officers of the Divisional Staff under Major-General White have also merited the thanks of the Government of India.

The Governor-General in Council highly approves of the judgment and conduct shown in their important commands by Brigadiers-General C. J. East, H. S. Anderson, R. C. Stewart, A. I. Cox, and M. C. Farrington, and of the great vigour and ability displayed by Brigadiers-General R. C. Low, C.B.; and W. S. A. Lockhart, C.B., C.S.I., in the extensive field operations carried out by their brigades. The merits of the officers of the Staff of the Brigadiers-General are also recognized by His Excellency in Council.

The thanks of the Government of India are due also to Major-General B. L. Gordon, C.B., Royal Artillery, commanding the Lower Burma Division, for valuable cooperation throughout the campaign; and to Major-General J. J. H. Gordon, C.B., commanding the Eastern Frontier District, for his good work during the field operations connected with the opening up of the country between Manipur and Kenda.

The Governor-General in Council desires to thank the Commanding Royal Engineer, Captain A. R. F. Dorward, D.S.O., Royal Engineers, Lieutenant-Colonel A. F. Loughton, C.B., Principal Commissariat Officer; Captain T. P. Cather, Royal Engineers, Director of Transport; Captain H. F. S. Ramsden, Field Paymaster; and Deputy Surgeon-General G. Farrell, C.B., for the ability and efficiency with which they have conducted their duties, and to express his acknowledgments of the services of the officers and subordinates of their departments or branches. His Excellency in Council recognizes with much satisfaction the excellence of the arrangements made by Colonel H. P. Hawkes, the Commissary-General of the Madras Army, for the supply of the troops, and begs to thank Colonel Hawkes, and the officers of the Commissariat Department at Rangoon, Colonel E. S. Berkeley, Major W. Cooke and Captain S. C. F. Peile, for their exertions. His Excellency wishes also to express his appreciation of the services of the Medical Department at Rangoon, under Deputy Surgeon-General J. Mc N. Donnelly.

The labours of the Public Works and Telegraph Departments have been of marked value during this campaign. In the former department the names of Mr. H. J. Richard and Mr. E. J. Rumsby have been specially brought to notice; and in the latter Mr. C. P. Landon has merited the particular recognition of the Government of India for his excellent services and for the energy with which his department has worked in aid of the military operations. Mr. C. F. H. Maclean and Mr. R. C. Barker, Assistant Superintendents, are mentioned in high terms by Mr. Landon.

The cooperation of the officers and men of the Royal Navy has been of great value to the Army; and the Governor-General in Council specially acknowledges the services of Captain J. P. Pison, late of Her Majesty's Ship *Ranger*, and Commander J. Durnford, D.S.O., of Her Majesty's ship *Mariner*. The Indian Marine has also taken a very useful part in the military

operations; and the acknowledgments of the Government of India are due to First Grade Officers C. W. Hewett and H. S. Black, and also to Captain W. J. Powell and First Grade Officer G. J. Baugh.

The Governor-General notices with pleasure the praise bestowed upon Captain H. P. Airey, of the New South Wales Artillery, and Captain J. L. Taylor and Lieutenant C. F. MacCartie, of the Madras Volunteers.

His Excellency takes the present opportunity of specially acknowledging the aid rendered by Sir Charles Bernard and Mr. Crosthwaite, the late and the present Chief Commissioner of Burma, to the military service, and the assistance given by the Governments of Madras and Bombay to the Government of India, in the prosecution of the campaign.

The officers of the Civil Administration in Upper Burma have been intimately associated with the troops in the operations which have taken place. The labours of these officers have materially conduced to the success of Her Majesty's arms; and the Viceroy desires to express his approbation of their work in connection with the Army, and to name—

Mr. G. D. Burgess,
Mr. H. St. G. Tucker,
Mr. F. W. R. Fryer,
Mr. J. J. D. La Touche,
Mr. C. E. Gladstone,
Mr. H. Thirkell White,
Captain C. H. F. Adamson,
Captain B. A. N. Parrott,
Captain F. D. Raikes, C.I.E.,
Mr. A. R. Colquhoun,
Captain G. S. Lyre,
Mr. H. L. Eales,
Mr. W. N. Porter,
Mr. G. M. S. Carter,
Mr. S. H. T. de la Courneuve,

as deserving of commendation.

It has been the pleasing duty of the Governor-General in Council to convey to Her Majesty's Government the high appreciation of the Government of India of the eminent services performed by Sir Frederick Roberts, the Commander-in-Chief in India, and the General Officers, officers, and men, who took part in those operations.

The Viceroy and Governor-General in Council has much gratification in announcing to the Army that Her Majesty the Queen, Empress of India, has been graciously pleased to approve the grant of the India Medal, similar to that conferred for the Second Burmese War, with a clasp inscribed "Burma, 1885-87," in commemoration of the services of the officers, non-commissioned officers and soldiers, British and Native, who have taken part in the military operations in Burma. The medal and clasp will be granted to all the troops who served in the Burma Field Force, and also to such of those belonging to the Lower Burma Division and the Eastern Frontier District as were engaged in active operations, between the 14th November, 1885, and the 30th April, 1887, both days inclusive.

The Governor-General in Council has also the satisfaction to notify that Her Majesty's Government have sanctioned the distribution of a gratuity to all the troops who crossed the old frontier and came under the command of the

General Officer Commanding the Burma Field Force, or who crossed from Manipur territory into Burma. Further instructions will be issued regarding the amount of gratuity to be granted to each rank.

His Excellency the Commander-in-Chief is requested to be good enough to issue the necessary subsidiary orders for the early submission of medal rolls, in accordance with the regulations, of all officers and soldiers who are entitled to the decoration.

From the Adjutant-General in India, to the Secretary to the Government of India, Military Department,—
(No. 3069-A,—*Field Operations*,—dated Simla, the 7th May, 1887).

In continuation of my letters noted in the

* No. 3421-A, dated 30th July, 1886.

† Despatches, (1) dated 10th March, 1887; (2) No. 166-B-C, dated 27th March, 1887; and (3) dated 11th April, 1887, from the General Officer Commanding the Upper Burma Field Force.

Despatch, No. 97-C, dated 21st March, 1887, from the General Officer Commanding the Eastern Frontier District.

margin,* I am directed by the Commander-in-Chief in India to submit, for the information of Government, the accompanying despatches† from the General Officers Commanding the Upper Burma Field Force and the Eastern Frontier District, bringing to special notice the good services of the officers and troops, therein detailed, during the operations commencing immediately after the capture of Mandalay and ending with the

pacification of the province of Upper Burma.

2 In forwarding these reports for favorable consideration, and in recording His Excellency's entire concurrence in the recommendations made by Major-General Sir G. S. White, K.C.B., V.C., and Major-General J. J. H. Gordon, C.B., I am desired very briefly to advert to the course of events in Upper Burma during the past year.

3. The two notes by the Commander-in-Chief on the military situation in Upper Burma‡ dealt with existing circumstances and requirements at the date of His Excellency's assumption of immediate command, with the measures taken or contemplated for the restoration of order in the disturbed and disaffected areas, and with the course and result of those measures. To render the narrative complete, some reference seems necessary to the unexpected development of disturbance during the early part of last year, the action taken with a view to its repression up to October, 1886, and the progress made in permanently pacifying the country since the Commander-in-Chief's departure from Rangoon.

The capture of Mandalay, the disbanding of the Burmese soldiery, most of whom carried off their arms, and the stoppage of the administrative machinery of the late King's government, produced a state of temporary anarchy which it was at first supposed that the substitution of a settled British administration would remedy without material difficulty or delay.

This anticipation was not fulfilled, mainly on account of the gross misgovernment of Upper Burma during the late King's reign. As already explained by the Commander-in-Chief in His Excellency's second note, most of the local authorities from 1878 to 1885 had been occupied, not in maintaining civil order, but in

conducting a system of organized spoliation for the benefit of themselves, and to satisfy the extravagant demands of the Court. To these ex-officials and their dependents the introduction of any form of settled government was most distasteful, and they did their utmost to thwart and resist British authority. At the same time several pretenders to the throne had sprung up, who were joined by the disbanded soldiery, by such villagers as were disaffected or had been deprived of their means of livelihood by previous misgovernment, and by the criminal classes. Numerous dacoit bands took advantage of the unsettled state of the country, and devastated the districts that were not immediately dominated by an adequate military force.

These disturbing elements, without concentrating into an organized enemy which could have been encountered in the field and overcome once for all, pervaded the greater portion of Upper Burma, rendering abortive all attempts to bring certain districts under a settled administration, and inducing a general feeling of distrust and insecurity.

4. Experience soon proved that the transitory visits of flying columns to the disturbed districts were quite insufficient to restore order, and that the establishment of numerous military posts was essential for the effectual suppression of dacoity, and for the security and encouragement of the well-disposed inhabitants.

In the selection of sites for these posts and in their distribution, the protection of the main lines of communication by road and river, and the support of the Civil power in its efforts to reestablish a settled Government, were kept in view.

5. Climatic and physical conditions in Burma during the hot weather and rains are extremely adverse to active operations in the field,—the extensive swamps, the dense jungle, the heavy rainfall, and the consequent prevalence of malarious fever, not only greatly hampering the movement of troops, but absolutely incapacitating them for further service if subjected to prolonged exposure. It therefore resulted that until reinforcements could be safely despatched to Upper Burma (and the month of October was fixed as the earliest safe time of arrival, having due regard to health and efficiency) the available military strength at the disposal of the General Officer Commanding was insufficient to do more than to garrison the posts and outposts which were being established, to hold the more important centres of trade and population, and to guard the lines of communication.

6. As soon, however, as the cold weather had set in, and a larger force became available, no time was lost in taking the initiative, and in arranging combined movements calculated to bring the whole country under thorough control. The objectives of the military operations undertaken last winter were summarized in the Commander-in-Chief's first note, and need not here be recapitulated. In view of the large augmentation of the force in Burma that took place in October, Government thought it advisable to entrust the immediate direction of operations to the Commander-in-Chief of the Madras Army. The lamented death of the late Sir Herbert Macpherson, the subsequent assumption of the supreme command by the Commander-in-Chief in India, and the appointment of Sir Charles

‡ Not published.

Arbuthnot to the command of the troops in Burma on Sir Frederick Roberts's return to India in February, are matters of too recent occurrence to call for more than a passing reference.

7. The Commander-in-Chief's second note indicated how far the measures taken during the past winter had succeeded in their object up to the date of His Excellency's departure.

The hope then expressed that the permanent pacification of the country had been virtually accomplished, and that although outbreaks of disorder might still be anticipated, such outbreaks would be of a progressively milder type and capable of easier repression, seems likely to be completely realized.

Hla-Oo, after the dispersal of his gang and his own flight to a place of concealment, has been killed by one of his few remaining adherents.

Boh Shwe and Ottama have been repeatedly defeated, their camps captured, their followers scattered, and their influence broken. The dacoit leaders infesting Yemethen, Ningyan, and the Kanle and Pakangyi tracts have been effectually dealt with. The Bhamo district has enjoyed complete quietude since the solitary outbreak in November last. The Ruby Mines tract has been successfully occupied, and is now being connected with the river and Mandalay by means of a good military road. The exploration and pacification of the Chindwin and Kubo valleys have been thoroughly accomplished. The isolated bands of rebels in the neighbourhood of Katha, Shemaga, Mandalay, Kyaukse, Welaung, Popa, Seh, and Wundwin have been brought into complete subjection.

The Tawbwa of Wunt'o has acknowledged the British supremacy, and accepted the terms he had previously rejected. The expedition into the Eastern Shan States has met with trifling opposition, and has succeeded in establishing the friendly relations it was its object to cultivate. A similar result has been achieved by the expedition into the Yau country. Throughout the whole upper province the signs of restored confidence and prosperity are apparent, dacoity and disaffection have been reduced within very narrow limits, and British authority is everywhere predominant.

8. In view to this result the Commander-in-Chief considers that too high praise can hardly be accorded to the Generals Commanding and Staff Officers who have so ably planned and carried out the operations decided on for the pacification of the country, and to the troops of all ranks, whose steadiness and gallantry under exceptionally arduous and trying circumstances have well sustained the reputation of Her Majesty's army.

9. To the late Lieutenant-General Sir Herbert Macpherson was entrusted by the Government of India the duty of directing the cold-weather campaign. The death of this distinguished officer, from disease brought about by exposure while his preparations were still incomplete, placed the direction in other hands; and Sir Frederick Roberts feels that no words of his are required to emphasize this loss to the army of one of its bravest and most devoted leaders.

10. When the cold-weather operations were drawing to a close and a change could be safely effected, Lieutenant-General Sir C. G. Arbuthnot, K.C.B., who had in the meantime been appointed to succeed to the command of the Madras Army, relieved Sir Frederick Roberts from the immediate direction of the campaign in Burma.

The duty of winding up the cold-weather operations has been successfully carried into effect by Sir Charles Arbuthnot to the entire satisfaction of the Commander-in-Chief in India.

11. The executive command in Upper Burma has been held from an early period in 1886 by Major-General Sir G. S. White. On him devolved the arduous task of keeping head against ever-increasing dacoity throughout the hot and unhealthy months of the year; and when the time came that reinforcements could be safely despatched and the force in Upper Burma assumed the proportions of an army, he continued to exercise command over the whole as a General of Division.

In this capacity Sir George White has fully established his skill and ability; and Sir Frederick Roberts trusts that his meritorious services may be recognized in such a manner as may seem proper to Her Majesty.

12. In connection with the operations in Upper Burma, the Commander-in-Chief in India desires to bring to favorable notice the services of the following officers:

Major-General Sir T. D. Baker, K.C.B., late Adjutant-General in India,
Colonel H. Collett, C.B., late officiating Quartermaster-General in India,
Major W. G. Nicholson, Assistant Adjutant-General, Royal Engineers,
Major H. T. Lugard, Brigade Major, Royal Artillery,
Captain W. B. Wilson, Deputy-Assistant Adjutant-General,
Captain C. H. H. Bell, Deputy-Assistant Quartermaster-General; and
His Excellency's Personal Staff:
Lieutenant-Colonel R. Pole-Carew, Military Secretary,
Major I. S. M. Hamilton, Persian Interpreter,
Surgeon-Major W. Taylor, Medical Staff,
Lieutenant C. V. Hume, Royal Artillery,
Lieutenant W. Maxwell Sherson, Rifle Brigade,
Lieutenant Henry Rawlinson, King's Royal Rifle Corps,
Captain the Hon'ble F. E. Allsopp, Royal Artillery,

Arde-de-Camp.

all of whom accompanied Sir Frederick Roberts to Burma with the head-quarters of the Army in India.

Major-General (then Brigadier-General) W. K. Elles, C.B., A.D.C., late Adjutant-General of the Madras Army,

Colonel J. A. Tillard, Assistant Adjutant-General, Royal Artillery, and

Major D. J. S. McLeod, Deputy Quartermaster-General of the Madras Army,—

who accompanied Sir Herbert Macpherson, and afterwards Sir Charles Arbuthnot, to Burma with the Madras Army Head-quarters.

Captain S. B. Beatson, 11th Bengal Lancers, Military Secretary to Sir Herbert Macpherson, also mentioned by Sir George White for subsequent services with the Mounted Infantry; and

Major F. W. Hemming, 5th Dragoon Guards, Military Secretary to Sir Charles Arbuthnot who was also employed in the earlier stages of the campaign.

13. The Commander-in-Chief in India also desires to bring to the favorable notice of Government the services of Major-General B. L. Gordon, C.B., Commanding the Burma Division, and of his Assistant Quartermaster-General Captain M. W. Saunders, Royal Artillery, through whose untiring exertions the laborious duty of landing and despatching the troops to Upper Burma was successfully performed throughout the campaign.

His Excellency would also refer with approval to the services of the troops detached from the Eastern Frontier Command to open up the communications between Assam and Upper Burma, as brought to notice in the despatch from Major-General J. J. H. Gordon, C.B., hereto annexed.

14. The entirely successful working of the Commissariat Department, presided over in the field by Lieutenant-Colonel A. F. Laughton, C.B., under conditions of exceptional difficulty, have been fully brought to notice by Major-General Sir George White; and the Commander-in-Chief, in endorsing the Major-General's remarks, desires to mention the services of Colonel H. P. Hawkes, Officiating Commissary General-in-Chief, on whom, as Commissary General of the Madras Army, was imposed the responsibility of supplying the army in Burma. The efficiency of the Department in the field implies care and forethought at the base, and His Excellency considers that Colonel Hawkes' services have merited the favorable recognition of Government.

15. The successful administration of the Medical Department under Deputy Surgeon-General G. Farrell, C.B., has been amply recognized by Major-General Sir George White.

16. Sir Frederick Roberts further desires to cordially endorse the high terms in which Sir George White refers to the services of the officers and men of the Royal Navy, and to the assistance rendered by them during the operations; and His Excellency also begs to include in this recommendation the officers and men of the Indian Marine, whose exertions throughout the war have contributed in no small degree to the efficiency and order of the river communications. The services of First-Grade-Officers Hewett and Black of the Indian Marine have been particularly brought to notice. Captain Powell and First-Grade-Officer Baugh have also done good service.

17. The thanks of the Commander-in-Chief are also due to the members of the Telegraph Department under Mr. C. P. Landon, through whose exertions many miles of telegraph have been established and kept open for work under great difficulties; and His Excellency fully endorses the praise accorded by Sir George White to the officers named by him for good service in the various departments not already particularized in this despatch.

18. The few officers of the Veterinary Department, including Inspecting Veterinary-Surgeon F. G. Shaw, who could be spared for service in Burma, have also done good and useful work.

19. Attached to this despatch is a schedule* containing the names of the officers and others whom the Commander-in-Chief in India desires to recommend to the Government of India for reward. The list is a long one, but it contains

no name which could be omitted without injustice. The protracted and special nature of the war in Burma must be borne in mind, its character being almost without example as affording to officers of all ranks, and especially the juniors, an opportunity of personal distinction.

The force has frequently been broken up into the smallest bodies acting independently, and the capacity as leaders of very junior officers, who under ordinary circumstances would have remained in a subordinate position, has thus been brought under a severe and trustworthy test. It is a matter of great satisfaction to His Excellency that so many have come through this ordeal with credit, and that the Government of India has now at its disposal so many young officers of proved capacity in the field.

In submitting this list, Sir Frederick Roberts feels that while the names of many deserving officers have been necessarily omitted, none are mentioned who have not fully merited recognition.

If the late Captain E. B. J. Vaughan, 6th Punjab Infantry, and Lieutenant G. L. Angelo, 23rd Madras Light Infantry, had lived, their names would have been included in the list for good services rendered in Burma.

I.

From MAJOR-GENERAL SIR G. S. WHITE, K.C.B., V.C., Commanding the Upper Burma Field Force, to the Adjutant-General in India (through the Adjutant-General, Madras Army), dated Mandalay, the 10th March, 1887.

In reply to your letters Nos. 813-M, dated 20th January, and 968-M, dated 31st January, 1887, I have the honor to submit the following list of General and other officers who have rendered specially good service since I have been in command of the Upper Burma Field Force.

2. This force has been actively engaged for a long period. The nature of the operations has necessitated very numerous small columns acting as independent forces. The command of these columns has afforded exceptional opportunities to officers of all ranks of distinguishing themselves. The Brigadier-Generals have therefore sent me long lists of officers who have one and all merited being brought to the notice of the Commander-in-Chief in India; but, while I am in full accord with these recommendations, I have endeavoured in some instances to make special selections.

3. Brigadier-General C. J. East has rendered most important service while in command of the 1st Brigade. His zeal and ability are well known to His Excellency the Commander-in-Chief, and I have to thank him for most valuable counsel and loyal support. In the large and important command which he has held, it has been sufficient for me to know that General East had taken up a question, whatever it might be, to rest assured that the matter would be treated exhaustively and with great judgment and military knowledge.

4. Brigadier-General H. S. Anderson commanded the Mandalay brigade for a short time, and afterwards the Ningyan district, where

* Not published.

every obstacle presented itself to the prosecution of military operations, and where the country was the hotbed of dacoity and rebellion. He has since commanded the 4th Brigade with headquarters at Myingyan, and has exercised these several commands with ability and success.

5. Brigadier-General R. C. Stewart has commanded the 5th Brigade of the Burma Field Force during the recent operations. Early in his command Sir Frederick Roberts recognized the importance of doing all possible to carry the expedition to the Ruby Mines to a successful conclusion. This was an enterprise of much difficulty, involving the most ample preparation and forethought. It was anticipated that this force would encounter the heaviest resistance yet met with in Upper Burma, as the people in possession were rich and were naturally anxious to retain possession of this valuable property. The difficulties of the route were overcome by patient labor. The enemy's positions were ascertained by careful reconnaissances, and the force gained possession of the Ruby Mines without appreciable loss, having proved the hopelessness of resistance to those who had attempted to stop the advance.

6. Brigadier-General A. T. Cox, commanding the 2nd Brigade, has conducted the advance on Wuntho from the north, and has carried out his instructions for the advance on that capital with skill and success.

7. Brigadier-General R. C. Low, C.B., on his first arrival in Upper Burma, assumed command of the Mandalay Brigade,—a charge of exceptional importance and extent. During the hot weather and rainy season of 1886, General Low exercised that command with singular energy and zeal. Always ready, he has proved himself to possess great physical endurance and powers of rapid organization and execution,—gifts which mark him as an officer of exceptional value in the field. Throughout the active operations of the last few months, Brigadier-General Low has commanded in one of the two most turbulent districts in Upper Burma, and his ability, energy, and devotion to duty have been equally valuable and more in evidence than during his former command. All the success possible under the conditions of his command has been attained.

8. Brigadier-General W. S. A. Lockhart, C.B., C.S.I., has shared with Brigadier-General Low the task of dominating the most lawless and difficult tracts in Upper Burma. His enterprise and influence have now become widely known and appreciated. Possessed of great initiative, and never so happy as when personally in command of some difficult operation, he has shown all the gifts of a most promising commander, and by example has instilled much of his enterprise into those serving under him. The changed aspect of the country confided to his command is the best gauge of the value of the service he has rendered to the state.

9. Where officers of exceptional merit and ability have been associated in field operations such as have lately been conducted throughout this country under the orders of His Excellency the Commander-in-Chief, it is difficult to distinguish one above another: while I in no way draw comparisons between the intrinsic qualifications of the able Brigadier-Generals who have been associated with me in carrying out

those orders, yet Brigadier-Generals Low and Lockhart have had the good fortune to have been ordered to undertake the heaviest tasks; and as I am confident they have acquitted themselves to the entire satisfaction of Sir Frederick Roberts and Sir Charles Arbuthnot, I think I am but acting in accordance with military precedent in recommending them for special consideration.

10. In addition to the regularly appointed Brigadier-Generals, I beg leave to bring forward the good service done by Colonel M. C. Farrington, King's Own Light Infantry (now Brigadier-General). In paragraph 5 of this report I have pointed out that Brigadier-General Stewart was detailed for the special charge of the expedition to the Ruby Mines. During the time he was so employed, it became necessary to organize and despatch a force from Shwebo to occupy Wuntho from the south, simultaneously with an advance from the north under Brigadier-General Cox. Colonel Farrington was entrusted with this duty. Shwebo had been depleted of pack transport to supply the more important claims of the Ruby Mines expedition, and little assistance could be given from the field force reserve transport. Colonel Farrington, however, provided the columns with transport from local sources, and carried out the advance on Wuntho with punctuality and success, making his advance answer the double purpose of searching out the country between Shwebo and his objective point with small columns. I have been much impressed by the helpfulness and ability shown by Colonel Farrington in the exercise of this command.

11. Before closing the list of officers of superior rank who have held important commands, I would specially mention to His Excellency the services of Colonel E. Stedman, commanding the 3rd Goorkha Regiment. This officer has proved himself not only a regimental commandant of exceptional capacity, but he has further given evidence of ability in the organization and conduct of operations requiring forethought in preparation and capacity in execution. Colonel Stedman and his Goorkhas have been called upon continuously for hard work. I recommend Colonel Stedman to the consideration of His Excellency the Commander-in-Chief, not only as a due reward for what he has done, but further, because I consider his advancement would be a benefit to the service.

12. Colonel A. C. Toker, 18th Bengal Infantry, has had an anxious and troublesome charge in the command on the Upper Chindwin, which he has carried out with watchfulness and capacity.

13. I will next give the names of officers who have been brought to notice by Brigadier-Generals and officers in superior command.

14. Brigadier-General East mentions the following officers:

Lieutenant-Colonel G. Simpson, Madras Staff Corps, Brigade-Major.

Captain S. A. E. Hickson, Royal Engineers, Deputy-Assistant Adjutant and Quartermaster General.

Lieutenant-Colonel E. A. Bruce, Executive Commissariat Officer.

Lieutenant J. K. Tod, Royal Irish Fusiliers, Orderly Officer to General East.

Major C. J. Deshon,* Royal Artillery, Commanding 1st, Eastern Division.

* Now Lieutenant-Colonel.

Major W. Aitken, Royal Artillery, Commanding 9-1, Cinque Ports Division.
 Captain E. H. Armitage, Royal Artillery, Intelligence Officer.
 Captain A. W. Cockburn, Royal Engineers.
 Lieutenant J. A. Tanner, Royal Engineers.
 Colonel W. K. Leet, v.c., Commanding the Somersetshire Light Infantry.
 Lieutenant F. A. Morse, } Somersetshire
 Lieutenant L. W. Fox, } Light In-
 Lieutenant W. P. Braithwaite, } fantry.
 Colonel G. Baker, Commanding the Hampshire Regiment.
 Major F. H. C. Braddon, } Hampshire
 Captain R. P. Macdonald, } Regiment.
 Captain H. W. Smith,
 Lieutenant R. C. Lye,
 Lieutenant W. H. Trethewy,
 Colonel R. B. Graham, } 7th Bengal
 Lieutenant-Colonel J. L. Ferris, } Cavalry.
 Lieutenant W. C. Pollard,
 Lieutenant E. J. P. Warden, 17th Madras Infantry.
 Colonel J. Gabbett, 25th Madras Infantry.
 Lieutenant W. N. Campbell, 25th Madras Infantry.
 Lieutenant-Colonel A. Poole, } 5th Bombay
 Major R. Hennell, } Infantry.
 Lieutenant P. Holland,
 Major R. L. Price, } 25th Bombay Light
 Lieutenant W. Ayerst, } Infantry.
 Colonel E. Stedman, 3rd Goorkha Regiment.
 Major E. B. Bishop, 3rd Goorkha Regiment.
 Captain C. Pulley, 3rd Goorkha Regiment.
 Major C. McD. Skene, 43rd Goorkha Light Infantry.
 Lieutenant A. L. Barrett,* 43rd Goorkha Light Infantry.
 Lieutenant-Colonel W. P. Symons, South Wales Borderers,—Commandant, Mounted Infantry.
 Captain S. B. Beatson, 11th Bengal Lancers.
 Lieutenant G. B. Stevens, 4th Madras Pioneers.
 Lieutenant G. V. Burrows, 14th Madras Infantry.
 Captain G. N. Mayne, King's Own Borderers.

15 Of these officers I beg to bring the following specially to notice :

Lieutenant-Colonel Simpson has done exceptionally hard work as Brigade-Major at Mandalay.

Captain Hickson, Royal Engineers, has also had heavy work as Deputy-Assistant Adjutant and Quartermaster General.

Both these officers worked continuously through the summer of 1886. Lieutenant-Colonel Simpson has received a step of brevet rank, but Captain Hickson has as yet received no recognition of his service.

Major Deshon, Royal Artillery, commanded two expeditions, and did well.

Major Aitken, Royal Artillery, commanding 9-1, Cinque Ports Division, is an able officer, and has been selected for several special commands, and has carried out all duties entrusted to him with ability and success. I recommend him for advancement.

Colonel Leet, v.c., has commanded the Somersetshire Light Infantry throughout the campaign. The excellent service rendered by this battalion is well known to the Commander-in-Chief.

Colonels Kingsley and Baker have in succession commanded the Hampshire Regiment, which has also done most valuable work. Colonel Baker has, besides, commanded several troublesome hill expeditions with uniform success. He also commanded the battalion in the first advance on Mandalay.

* Now Captain.

Major Braddon, Hampshire Regiment, has done much hard service all through the hot weather of last year, and is a most hard working officer. I recommend him for advancement.

Captain Macdonald, Hampshire Regiment, did most valuable work in the pacification of the Sagain district and in the pursuit of Hla-Oo.

Captain Smith, Hampshire Regiment, has earned mention by gallant and energetic leading.

Lieutenant Pollard, 7th Bengal Cavalry, has shown high qualities as an officer, and conducted a difficult expedition in the hills with considerable dash and success.

Lieutenant Campbell, 25th Madras Infantry, has earned mention by gallant and energetic leading, and has shown high promise as an officer.

Lieutenant-Colonel A. Poole 5th Bombay Light Infantry,† has had the command of the Sagain district, and has proved himself a good commander.

Major Hennell, 5th Bombay Light Infantry, was most active and zealous in conducting operations in the Sagain district during the worst season of 1886. His work has been most useful. He has had to quit the command on account of bad health brought on by exposure. I recommend him for advancement.

Lieutenant Holland, 5th Bombay Light Infantry, deserves mention for much good work done in the field.

Captain C. O. Nicholletts, 5th Bombay Light Infantry, is an officer who throughout last summer rendered most important service in the 1st Brigade.

Major Bishop and Captain Pulley of the 3rd Goorkha Regiment have commanded columns, and the latter officer has done much useful work. I recommend both officers for advancement both on a count of their own services and the excellent and continuous work done by the men under their command.

Captain Beatson, 11th Bengal Lancers, has merited mention by the enter rise displayed by him when commanding the mounted infantry in the Sagain district.

16. Brigadier-General Anderson mentions the following officers :

Lieutenant-Colonel J. Gatacre, 23rd Bombay Light Infantry.
 Lieutenant-Colonel A. R. Heyland, Commandant, 1st Bombay Lancers.
 Major W. W. Egerton, Liverpool Regiment.
 Major W. H. F. Sorell, Commanding 8-1, London Division, Royal Artillery.
 Major J. de B. Lynch, 1st Bombay Grenadiers.
 Captain H. M. Rose,‡ 27th Bengal Infantry.
 Captain A. Keene, Commanding No. 1, Bombay Mountain Battery.
 Captain J. D. Fullerton, R.F.
 Captain C. S. Shephard, Royal Lancaster Regiment.
 Captain A. A. Pearson, Bombay Staff Corps.
 Captain A. W. L. Bayly, Bombay Staff Corps.
 Surgeon-Major T. W. Patterson, Medical Staff, Senior Medical Officer, 4th Brigade.
 Surgeon-Major F. W. Wright, M.B., Indian Medical Service.
 Captain E. C. Kelie, } 23rd Bombay
 Lieutenant W. A. M. Wilson, } Light Infantry.

† Since retired.

‡ Now Major.

Lieutenant F. A. Morse, Somersetshire Light Infantry.

Lieutenant W. Elliot, } Royal Artillery.

Lieutenant T. L. Coxhead, } lery.

No. 38, Sergeant Edwin W. Bath, Somersetshire Light Infantry.

Mr. C. J. A. Duke, Deputy Commissioner.

I support the recommendations of Brigadier-General Anderson, which it will be observed refer to the commands exercised by him at different times over both the 3rd and the 4th Brigades, but reserve the following for special mention:

Lieutenant-Colonel Gatacre commanding the 23rd Bombay Light Infantry. This officer has earned advancement by the discipline and efficiency of the fine regiment which he commands. He has also rendered important service in command of a column which advanced on Kanle, and subsequently into the Yaw country.

Lieutenant-Colonel Heyland, Commandant, 1st Bombay Lancers,—an officer who has done much good service. He has commanded several columns with marked success, and is a most valuable officer.

Major Egerton, Liverpool Regiment, has commanded the post at Hinedet with singular success, and has since shown much dash in the field. I recommend him for advancement.

I further support Brigadier-General Anderson's recommendations on behalf of his staff officer, Captain Shephard, Royal Lancaster Regiment. The other staff officers I have brought to notice elsewhere.

I also endorse his recommendation of Sergeant Edwin William Bath, Somersetshire Light Infantry, who assumed command of a detachment of that regiment after Lieutenant H. T. Shubrick had been killed in action.

17. The following officers have been brought to notice by Brigadier-General Stewart, for good service:

Colonel F. B. Middleton, 21st Madras Infantry.
Lieutenant P. G. Huggins,* 21st Madras Infantry.

Colonel C. J. O. FitzGerald, } 3rd Hyderabad Cavalry.

Captain C. E. Gubbins, } Cavalry.

Colonel W. G. Cubitt, V.C., } 43rd Goorkha Light Infantry.

Lieutenant-Colonel C. McD., } Skene.

Major N. F. FitzG. Chamberlain, Deputy-Assistant Adjutant and Quartermaster General.

Captain F. B. J. Vaughan, 6th Punjab Infantry.

Captain H. Earle, South Yorkshire Regiment.

Captain H. H. Barnet, Royal Engineers.

Captain F. J. D. Lugard, Norfolk Regiment.

Lieutenant H. Parkin, Bombay Commissariat Department.

Surgeon J. P. Barry, M.B., Indian Medical Service.

Lieutenant-Colonel H. W. J. Senior, 1st Bengal Infantry.

Captain W. N. Lloyd, Royal Artillery.

Captain S. C. F. Peile, Commissariat Department.

Captain A. L. Barrett, 43rd Goorkha Light Infantry.

Lieutenant C. V. Hume, Royal Artillery.

Lieutenant R. D. Petrie, Royal Engineers.

Lieutenant W. H. M. Burke, South Yorkshire Regiment.

Lieutenant A. W. Abercrombie, South Yorkshire Regiment.

Lieutenant G. Davis, South Yorkshire Regiment.

Lieutenant H. D'U. Keary, 1st Madras Pioneers.

Surgeon W. A. Sykes, Indian Medical Service.

* Now Captain.

18. I agree in the estimate formed by General Stewart of the good service rendered by the above named officers, but reserve the following for special mention:

Colonel Middleton, commanding the 21st Madras Infantry, has commanded his regiment firmly and well, and has done much valuable service since he has been in the Yeu district.

Lieutenant Huggins, 21st Madras Infantry, has shown himself possessed of singular energy and enterprise, and has been mainly instrumental in the greatly improved condition of the neighbourhoods in which he has been stationed in the Yeu district. I recommend him very favorably for consideration.

Colonel FitzGerald, commanding the 3rd Regiment, Hyderabad Contingent Cavalry, has done much valuable service in quelling dacoity and rebellion in the Tabayin district. He has shown great energy and activity, and his regiment has done most important work.

Captain Gubbins, 3rd Hyderabad Cavalry, is a model leader of cavalry, full of enterprise, and has played a very important part in the pacification of both the north and the south of the Shwebo district, and in the advance of Colonel Farrington's column on Wuntho.

Colonel Cubitt, V.C., has commanded the 43rd Goorkha Light Infantry, a regiment which has rendered much valuable service.

Lieutenant-Colonel Skene, 43rd Goorkha Light Infantry, has been most active from the arrival of the 43rd Goorkha Light Infantry in Mandalay up to the present time. He commanded the advance guard of the Ruby Mines expedition, and has done much to raise the reputation of his corps and his own. I recommend him for consideration.

Major Chamberlain has been the only staff officer with Brigadier-General Stewart throughout the time he has been personally directing the advance on the Ruby Mines. I cordially endorse the Brigadier-General's high estimate of his capacity as a staff officer, and the value of the reconnaissance executed by him at Ingyauk on the 25th December.

The zeal and untiring energy shown by the late Captain Vaughan, 6th Punjab Infantry, have been testified to by Brigadier-General Stewart, and it may be some consolation to his relatives to know that had the life which he spent in the service of his country been spared, he would have been very warmly recommended by me for the special consideration of the Commander-in-Chief.

Captain Barnet, Royal Engineers, has done very hard work with the Ruby Mines expedition, of which he was the pioneer.

Captain Earle, South Yorkshire Regiment, has shown strength and capacity, and I am in full accord with Brigadier-General Stewart's estimate of his promise as a soldier.

Lieutenant Keary, 1st Madras Pioneers, has been most useful since the commencement of the campaign, both in the field and in the Transport Department. I beg to bring him prominently to notice.

19. Brigadier-General Low, C.B., has named the following officers:

Captain B. F. Spragge, - King's Own Light Infantry, Deputy-Assistant Adjutant and Quartermaster General.

Captain A. G. B. Ternan, 44th Goorkha Light Infantry.

Lieutenant K. M. Foss, Executive Commissariat Officer.

Lieutenant A. M. Caulfeild, Northumberland Fusiliers, Transport Department.

Lieutenant T. H. Des V. Wilkinson, Rifle Brigade, Superintendent, Brigade Signalling.

Surgeon-Major J. F. Supple, Senior Medical Officer, 6th Brigade.

Colonel W. H. Deedes, Commanding the 1st Battalion, Rifle Brigade.

Lieutenant-Colonel H. R. Hope, Commandant, 1st Madras Lancers.

Captain R. K. Golightly, King's Royal Rifle Corps, Commanding Mounted Infantry.

Major A. J. Stead, Commanding the 11th Bengal Infantry.

Lieutenant E. D. Pickard-Cambridge, Bedfordshire Regiment.

Lieutenant H. F. Aplin, R.N., II M. S. *Ranger*.

Major J. A. D. Gordon, 2nd Bengal Infantry.

Major S. E. Rolland, 26th Madras Infantry.

Lieutenant E. G. Wynyard, Liverpool Regiment.

Lieutenant W. A. M. Wilson, 23rd Bombay Light Infantry.

Lieutenant R. M. Rainey, 1st Madras Pioneers.

Surgeon A. P. Adams, Indian Medical Service.

Lieutenant H. Armytage, Liverpool Regiment.

20. Considering the time over which the service referred to in these recommendations has extended, and the amount of organization, movement and fighting comprised, I think Brigadier-General Low's recommendations are moderate; but I specially select the following:

Captain Spragg, King's Own Light Infantry, Deputy-Assistant Adjutant and Quartermaster General, is an officer of high capacity, and I gladly support Brigadier-General Low's recommendation of him.

Captain Ternan, 44th Goorkha Light Infantry, has earned the commendation of his Brigadier-General, and I support his nomination.

Lieutenant Wilkinson, Rifle Brigade, has done most excellent service as Superintendent of Signalling in the 6th Brigade. His activity and energy were witnessed by His Excellency the Commander-in-Chief in India, and Brigadier-General Low speaks in the highest terms of the tact and courage displayed by him in working out the system of signalling stations, which has been crowned with such success.

Colonel Deedes has shown high courage and self-abnegation as a leader in the field, and the battalion under his command has done good service.

Brigadier-General Low speaks in high terms of the ability displayed by Lieutenant-Colonel Hope, 1st Madras Lancers, in preparing and directing operations against Boh Shwe.

Captain Golightly, King's Royal Rifle Corps, has been conspicuous for good work. I beg most strongly to support General Low's application in his favour. His zeal and activity in the pursuit of Boh Shwe and Ottama, the leaders of rebellion in the Mema district, have been most marked, and no stronger proof can be given of the impracticability of hunting down such leaders in a country in sympathy with them than the fact that Captain Golightly's arrangements, activity, and perseverance have not yet been crowned by the capture of either of them.

Major Stead, Commandant, 11th Bengal Infantry, has deserved mention as commanding

a regiment which, throughout its service in Upper Burma, has been an example of efficiency and good work. He has also done most valuable service in command of columns on the right bank of the Irrawaddy, on two separate occasions, in the Pakhangyi and Yaw districts.

Major Rolland, 26th Madras Infantry, after a period of exceptional sickness and depression, conducted the withdrawal of the garrison of Napeh under great difficulties.

Lieutenant Wynyard, Liverpool Regiment, on the death of Captain W. G. Dunsford, 2nd Bengal Infantry, during the attack on a pagoda near Salen, proved himself to possess a quick appreciation of what was needed on an occasion of considerable danger, and by bold leading converted a critical situation into an assured success.

Lieutenant Rainey, 1st Madras Pioneers, when in command of a post, did most excellent work.

Lieutenant Armytage, Liverpool Regiment, and Lieutenant Westlake, 1st Madras Lancers, have distinguished themselves by energetic and successful expeditions against the dacoit and rebel leaders in their districts.

21. Brigadier-General Cox has brought the following officers to notice:

Captain V. A. Schalch, Bengal Staff Corps.

Captain R. L. Milne, Liverpool Regiment, Deputy-Assistant Adjutant and Quartermaster General.

Surgeon-Major J. S. Wilkins, Indian Medical Service.

Lieutenant W. J. H. Bond, Executive Commissariat Officer.

Lieutenant F. A. Wilkinson, Royal Fusiliers, Brigade Transport Officer.

Lieutenant W. A. Cairnes, Royal Engineers.

Lieutenant F. J. Aylmer, Royal Engineers.

Lieutenant-Colonel S. B. Home, 5th Bengal Infantry.

Lieutenant-Colonel E. S. Creek, Royal Welsh Fusiliers.

Captain E. C. Wace, Royal Artillery, Commanding the Hazara Mountain Battery.

Captain H. T. Lyle, 1st Battalion, Royal Welsh Fusiliers.

Captain E. S. Hastings, 25th Madras Infantry.

Captain G. H. H. Couchman, 2nd Battalion, Somersetshire Light Infantry.

Lieutenant A. H. C. Birch, Royal Artillery, Hazara Mountain Battery.

Lieutenant G. F. H. Dillon, 26th Punjab Infantry.

22. I beg to make special mention of the following:

Captain Schalch has been Brigade-Major of the 2nd Brigade since the first occupation of Mandalay.

Captain Milne, Liverpool Regiment, has been Deputy-Assistant Adjutant and Quartermaster General for the same period.

I submit the names of both these officers for advancement.

Captain Wace, Royal Artillery, was in command of the Hazara Mountain Battery until wounded in the first advance on Katran.

Captain Lyle, Royal Welsh Fusiliers, succeeded Captain Wace in the command of the expedition above referred to, when the latter was wounded,—until he himself was wounded.

I recommend both these officers for promotion.

Captain Hastings, 25th Madras Infantry, is an energetic and valuable officer, of much ability and enterprise, who should be pushed on.

Captain Couchman has rendered very good service from the earliest occupation of Bhamo, and is an officer of much promise.

23. Brigadier-General Lockhart recommends the following officers for special recognition:

Major P. D. Jeffreys, Connaught Rangers, Brigade-Major.
 Captain A. A. Pearson, Bombay Staff Corps, Deputy-Assistant Adjutant and Quartermaster General.
 Major W. H. F. Sorell, Royal Artillery.
 Lieutenant W. Lamport, Royal Artillery.
 Captain H. E. Goodwyn, Royal Engineers.
 Colonel W. J. Holt, commanding the 2nd Battalion, Royal West Surrey Regiment.
 Lieutenant F. M. Peacock, 2nd Battalion, Somersetshire Light Infantry.
 Lieutenant F. A. Morse, 2nd Battalion, Somersetshire Light Infantry.
 Captain E. I. Elliot, 1st Bombay Lancers.
 Captain A. L. Sinclair, 27th Bombay (Beluch) Light Infantry.
 Lieutenant-Colonel G. C. Sartorius, 27th Bombay (Beluch) Light Infantry.
 Colonel W. P. Dicken, 3rd Madras Light Infantry.
 Captain R. K. Teversham, 3rd Madras Light Infantry.
 Lieutenant-Colonel H. S. Elton, 16th Madras Infantry.

I beg to support Brigadier-General Lockhart's recommendations in every instance.

Major Jeffreys has rendered very efficient service as a staff officer, and achieved the most marked success in the capture of the so-called Kemmendine Prince's camp.

Captain Pearson, Bombay Staff Corps, Deputy-Assistant Adjutant and Quartermaster General, has also done excellent work in the field.

Major Sorell, Royal Artillery, has been most prominent throughout the campaign, both in command of his battery and also of numerous expeditions. I recommend him for some special recognition of his continuous and varied good service.

Lieutenant Lamport, Royal Artillery, is a very forward young officer, who was the first man into Kemmendine Prince's camp when it was attacked by Major Jeffreys on the 1st January. He has been constantly engaged with the enemy, and has acted as orderly officer to Brigadier-General Lockhart in numerous engagements.

Colonel Holt, Royal West Surrey Regiment, has been selected by Brigadier-General Lockhart for frequent commands. He and his regiment have merited the special commendation of the Brigadier-General. I beg to bring him prominently to the notice of His Excellency the Commander-in-Chief.

Lieutenant Peacock, Somersetshire Light Infantry, has been conspicuous for gallant leading.

Lieutenant Morse, Somersetshire Light Infantry, has been brought to my notice on many occasions and by various superior officers under whom he has served as a valuable leader of mounted infantry. I recommend him for special consideration.

Captain Elliot, 1st Bombay Lancers, has proved himself a most efficient leader of cavalry, and has done much by his dash and perseverance to clear the 3rd Brigade district of the gangs of dacoits which have harried it so long. I have much pleasure in supporting Brigadier-

General Lockhart's recommendation in favour of this officer.

Lieutenant-Colonel Sartorius has commanded his regiment in many affairs under Brigadier-General Lockhart, and has also commanded in independent operations, maintaining his high name as a soldier.

Captain Sinclair, 27th Beluch Regiment, has been well reported on as a leader of skill and dash, who has rendered good service in a difficult country.

Colonel Dicken, 3rd Madras Light Infantry. This officer commanded the Nyingyan column on its first advance from Tounghoo, and has since commanded in many affairs and done much important administrative work. I trust His Excellency will support my application in favour of Colonel Dicken, who has earned consideration from the important and difficult command which he so long exercised.

Captain Teversham, 3rd Madras Light Infantry, has been engaged in very numerous affairs against the enemy in the Nyingyan command, and has proved himself a good soldier and promising staff officer.

Lieutenant-Colonel Elton, 16th Madras Infantry, has on several occasions been entrusted with commands of columns, and has acquitted himself well. Brigadier-General Lockhart speaks highly of his work.

24. Brigadier-General Farrington has brought forward the names of the following officers, as having especially assisted him in the advance on Wuntho.

Major W. E. Hilliard, King's Own Light Infantry.
 Captain C. E. Gubbins, 3rd Hyderabad Cavalry.
 Captain P. W. A. A. Milton, King's Own Light Infantry.
 Captain A. B. Fenton, 4th Madras Cavalry, Brigade-Major.

I have already noticed Captain Gubbins' good service, and I recommend Major Hilliard, King's Own Light Infantry, for advancement.

Captain Fenton, as staff officer to Colonel Farrington, did most useful service, and was highly spoken of by his commanding officer.

25. Colonel Toker, commanding on the Chindwin, recommends—

Captain C. A. R. Sage, 18th Bengal Infantry.
 Lieutenant L. Fryer, 18th Bengal Infantry.
 Lieutenant G. B. Hodson, 23rd Madras Infantry.

Captain Sage has given evidence of the highest qualities as an officer. His conscientious discharge of duty, calm judgment, and enterprise make him a very valuable officer. I recommend him for advancement.

Lieutenant Fryer has proved himself a gallant leader and promising officer.

Lieutenant Hodson, 23rd Madras Infantry, did good service in the Alon district.

I would also beg to add the name of Major R. H. F. Rennick, 18th Bengal Infantry, who has shown in this campaign the energy and determination so characteristic of his former service, and who has been forced to leave Burma in ill-health consequent on his hard work in the public service. I recommend him for advancement.

26. Amongst officers who have not been under the orders of the Brigadier-Generals from

whom reports have now been received, I may mention the following officers, who have done service worthy of mention :

- Lieutenant-Colonel H. P. Law, 2nd Battalion, Royal Scots Fusiliers.
- Lieutenant F. V. S. Churchill, 2nd Battalion, Royal Scots Fusiliers.
- Lieutenant H. E. Stanton, 9-1, Cinque Ports Division, Royal Artillery.
- Lieutenant T. L. Coxhead, Royal Artillery.
- Lieutenant C. P. Fendall, Royal Artillery.
- Lieutenant W. H. Dobbie, 26th Madras Infantry.

Lieutenant-Colonel Law commanded the important post of Toungdwingyi from the first occupation of Upper Burma until the close of the summer of 1886. He and the officers and men under his command did marked good service, and I would particularly mention Lieutenants Churchill and Dobbie.

27. Before leaving the subject of regimental officers who have done conspicuous work, I would mention the important service rendered by Colonel Tilly and the officers and men of the Royal Welsh Fusiliers. From the commencement of the campaign this regiment has borne a part worthy of its high records, and although at Bhamo it has been somewhat removed from the centres of late action, yet in the earlier stages of the campaign no regiment had harder or more trying work. I would specially mention—

- Colonel J. Tilly.
- Lieutenant A. W. G. L. Cole.
- Lieutenant A. C. King.
- Lieutenant A. P. G. Gough.

28. The number of Royal Engineer officers who have been employed in Upper Burma has been exceptionally large. The Commanding Royal Engineer brings forward the names of the following, who have done special good service :

- Captain W. F. Shone.
- Lieutenant J. A. Tanner.
- Captain (Brevet-Major) C. B. Wilkieson.
- Captain H. H. Barnet.
- Captain J. D. Fullerton.
- Captain M. C. Barton.
- Lieutenant T. F. B. Renny-Tailyour.
- Lieutenant F. Glanville.

I specially beg to recommend—

- Captain Shone.
- Captain Goodwyn.
- Lieutenant Tanner.

Captain Dorward brings to notice the very great assistance rendered to the officers of the Royal Engineers in their work by Messrs. H. J. Richard and E. J. Rumsby of the Public Works Department, and I have to request that some mark of the Viceroy's appreciation of their work may be accorded to them.

Captain Dorward also recommends to the favourable consideration of the Commander-in-Chief, Sergeant P. Hay, Royal Engineers, and No. 1753, Color-Havildar Marimootoo,—the former for excellent work in connection with the Field Park, and the latter as a Native non-commissioned officer of quite exceptional ability and worth.

29. The Principal Commissariat Officer has recommended the following officers :

- Lieutenant-Colonel E. A. Bruce, Assistant-Commissary-General.
- Captain S. R. Rawlinson, Sub-Assistant-Commissary-General.

- Lieutenant W. J. H. Bond, Sub-Assistant-Commissary-General.
- Major C. F. Hughes, Sub-Assistant-Commissary-General.
- Captain H. L. Hutchins, Sub-Assistant-Commissary-General.
- Captain S. C. F. Peile, Sub-Assistant-Commissary-General.
- Lieutenant K. M. Foss, Sub-Assistant-Commissary-General.

I very cordially endorse Colonel Laughton's mention of Lieutenant-Colonel Bruce. His capacity and power of work render him an officer of quite exceptional value, and I hope it may be found possible to bestow on him some fitting reward. Captain Rawlinson has earned mention by hard work. Captains Peile and Hutchins have conducted very important commissariat work with ability and success. Lieutenants Foss and Parkin have been brought to notice by Brigadier-Generals Low and Stewart respectively.

Colonel Laughton also calls attention to the efficient service rendered by Major W. Cooke at Ringoon, and Lieutenant G. F. Watson at Tounghoo, to the troops in Upper Burma.

I have also pleasure in endorsing Colonel Laughton's recommendations of—

- Conductor G. Grevelink.
- Sub-Conductor J. Haddock.
- Sub-Conductor F. Stevens.
- Sub-Conductor M. F. Maher.
- Sergeant Gordon.
- Sergeant J. R. Rishworth.
- Sergeant W. E. Keogh.

I have had the honor verbally to represent to His Excellency the Commander-in-Chief the excellent work done by the Commissariat Department since the occupation of Upper Burma; and I cannot too strongly express my hope that the services rendered by the officers and warrant and non-commissioned officers of this Department may be adequately rewarded.

30. The Principal Medical Officer has recommended the following medical officers for special zeal and ability :

- Surgeon-Major R. de la Cour Corbett, M.D., Medical Staff.
- Surgeon R. V. Ash, M.B., Medical Staff.
- Brigade-Surgeon W. H. Roberts, M.D., Madras Medical Service.
- Surgeon-Major T. W. Patterson, Medical Staff.
- Surgeon D. Elcum, Madras Medical Service.
- Surgeon H. K. Fuller, M.B., Madras Medical Service.
- Surgeon-Major E. Fawcett, Madras Medical Service.
- Surgeon-Major J. S. Wilkins, Bombay Medical Service.
- Surgeon-Major W. Venour, Medical Staff.
- Surgeon-Major F. W. Wright, M.B., Bengal Medical Service.
- Surgeon-Major C. E. McVittie, Madras Medical Service.
- Surgeon M. O'C. Drury, Medical Staff.
- Surgeon W. A. Sykes, Bengal Medical Service.
- Surgeon-Major J. F. Supple, Medical Staff.
- Surgeon-Major C. F. Ogilvie, M.D., Bombay Medical Service.
- Surgeon-Major J. T. B. Booke, Bengal Medical Service.
- Surgeon-Major R. D. Murray, M.D., Bengal Medical Service.
- Surgeon J. Macgregor, M.D., Bombay Medical Service.
- Surgeon W. A. Morris, Medical Staff.
- Surgeon P. F. O'Connor, Bengal Medical Service.
- Surgeon R. E. S. Davis, M.B., Madras Medical Service.
- Surgeon A. P. Adams, Madras Medical Service.

Of these I select the following for special mention :

Surgeon-Major R. de la Cour Corbett, M.D., Medical Staff.
 Surgeon-Major R. V. Ash, M.B., Medical Staff.
 Surgeon-Major T. W. Patterson, Medical Staff.
 Surgeon-Major J. S. Wilkins, Bombay Medical Service.
 Surgeon-Major W. Venour, Medical Staff.
 Surgeon-Major F. W. Wright, M.B., Bengal Medical Service.
 Surgeon W. A. Sykes, Bengal Medical Service.
 Surgeon-Major J. F. Supple, Medical Staff.
 Surgeon A. P. Adams, Madras Medical Service.

I recommend Surgeon-Major Corbett for promotion to the rank of Brigade-Surgeon, as I have formed a high opinion of his zeal and ability, both as an administrative and executive medical officer.

31. The Director of Transport has submitted the following names of officers who have done special good service in the Transport Department. The work done by this Department has been most onerous and most important. As an instance given by Captain Cather, in his report,* of the nature and extent of the work required of it, I would mention that at one station 1,200 carts were on the Transport Officer's books as out on hire at the same time. This was in addition to much pack transport. The labour and responsibility have been altogether abnormal—

Major J. T. Cummins, 4th Cavalry, Hyderabad Contingent.
 Captain F. J. D. Lugard, Norfolk Regiment.
 Lieutenant H. D'O. Keary, 1st Madras Pioneers.
 Lieutenant C. P. Scudamore, Royal Scots Fusiliers.
 Lieutenant G. P. Ranken, 24th Punjab Infantry.
 Lieutenant J. Strachey, 11th Bengal Infantry.

I beg to endorse all these nominations, and would recommend Major Cummins, Captain Lugard, and Lieutenant Scudamore to special notice.

Captain Cather further reports very highly on the services of Sub-Conductor A. Mason, Bengal Transport. This warrant officer has performed a very heavy task in taking over piecemeal thousands of sets of gear and large quantities of materials from India. The Director of Transport reports most favourably of his steadiness, untiring energy, and reliable accuracy. I recommend this warrant officer very strongly for advancement to the rank of Conductor.

32. The Officer Commanding the Royal Artillery has brought forward the names of the following officers whom he considers have earned special recognition :

Major W. H. F. Sorell, 8-1, London Division.
 Lieutenant T. L. Coxhead, 8-1, London Division.
 Major W. Aitken, 9-1, Cinque Ports Division.
 Lieutenant H. E. Stanton, 9-1, Cinque Ports Division.
 Lieutenant C. P. Fendall, 3-1, South Irish Division.
 Lieutenant M. B. Bicknell, 7-1, Northern Division.
 Lieutenant A. L. Tisdall, No. 1 Bombay Mountain Battery.
 Lieutenant W. Elliot, No. 1 Bombay Mountain Battery.
 Lieutenant A. H. C. Birch, No. 4 Hazara Mountain Battery.
 Lieutenant W. Lampert, 8-1, London Division.

Lieutenant-Colonel Budgen also mentions the following officers who have been in command of batteries :

Major C. J. Deshon, 1-1, Eastern Division.
 Major W. Aitken, 9-1, Cinque Ports Division.

* Not published.

Major G. T. Carré, 7-1, Northern Division.
 Major F. M. K. Vibart, 5-1, Southern Division.
 Captain A. Keene, No. 1 Bombay Mountain Battery.
 Captain W. J. Honner, No. 4 Hazara Mountain Battery.
 Captain H. C. C. D. Simpson, 7-1, Northern Division.
 Lieutenant J. L. Parker, Adjutant, Royal Artillery, Upper Burma Field Force.
 Captain C. M. Haggard, Brigade-Major, Royal Artillery.

I have already referred to the services of—

Major Sorell,
 Lieutenant Coxhead,
 Major Aitken,
 Lieutenant Stanton,
 Lieutenant Fendall,
 Lieutenant Lampert,
 Major Carré,

and I am glad to support Colonel Budgen's application in favour of Captain Haggard, Brigade-Major.

33. It is now my duty to lay before His Excellency the Commander-in-Chief the names of those officers who have served on the Headquarters Staff of the Upper Burma Field Force.

Colonel M. Protheroe, C.S.I., has been Assistant-Adjutant and Quartermaster General of the Force during the time I have commanded it. His zeal, ability, and untiring powers of work are well known to all the officers of high rank who have commanded in Upper Burma, and have been invaluable to me and to the Force at large. I hope that his excellent service may receive some further mark of approval.

I have also to acknowledge the assistance received from Captain G. Henry, Royal Engineers; Captain J. Sherston, Rifle Brigade; Major A. W. H. Hornsby, 1st Madras Cavalry; and Captain A. W. L. Bayly, Bombay Staff Corps. The work of all these officers has been of great service to me, and has been most important and continuous. I recommend them for consideration.

34. Lieutenant-Colonel W. T. Budgen has commanded the Royal Artillery in Upper Burma during my period of command of the Upper Burma Field Force, and has carried on the duties satisfactorily.

35. Captain A. R. F. Dorward has done constant and very heavy work as Commanding Royal Engineer. The vast amount of field engineering that has been necessary during this long campaign has been conducted under his orders, and the provision of barrack accommodation for the troops has devolved on him. His capacity is well known to the Commander-in-Chief, and I recommend him with confidence to His Excellency's consideration. His promotion would be a benefit to the service.

36. Owing to the nature of the occupation of Upper Burma by very numerous small posts, the commissariat supply of the troops has been a problem of exceptional difficulty. I cannot too highly commend the administrative ability, watchfulness, and resource with which Lieutenant-Colonel A. F. Laughton, as Principal Commissariat Officer, has met and overcome the difficulties of the situation. To him and to the able officers under him has fallen the most responsible and difficult task of the campaign; and I hope the recognition of the services of the Principal Commissariat Officer may be

commensurate with the labour and responsibility of his work.

37. The Transport Department has been directed by Captain T. P. Cather, Royal Engineers, an officer of great energy and administrative ability. In a force cut up into such numerous small bodies, nearly all of which were mobilised, the provision and keeping up of transport has been an exceptionally heavy labour; but the call has been well met by Captain Cather. I am indebted to him for the rapid organization and satisfactory working of the Department, and I hope it may be possible to give Captain Cather rank more suitable to the work he has done. I bracket him with Captain Dorward as an officer whose promotion would be a benefit to the service.

38. The Medical Department has been successfully worked by Deputy Surgeon-General G. Farrell, C.B., who has conducted his heavy duties with zeal and ability. I would also beg to recall the good service rendered by Surgeon-Major H. W. A. Mackinnon when Principal Medical Officer of this force, in case it may now be possible to grant him the promotion to which he was gazetted and which was subsequently cancelled.

39. Major C. H. Sheppard has conducted the duties of Deputy Judge Advocate with great zeal and attention. I recommend him for advancement.

40. Captain H. F. S. Ramsden, Military Accounts Department, has been indefatigable in his labours as Field Paymaster, Upper Burma Field Force, and has rendered invaluable service both to the force and to the public.

41. Captain E. W. Dun, Bengal Staff Corps, has had charge of the Intelligence Branch in Upper Burma, and has been most assiduous and successful in collecting information on all subjects connected with the country and its peoples.

42. Captain J. R. Hobday, in charge of the Survey of Upper Burma, has laboured with success to furnish maps of the country, to facilitate military movements. I beg to bring his valuable work to notice.

43. I have the honor to submit the names of Lieutenant Q. G. K. Agnew, Royal Scots Fusiliers, who was my Aide-de-Camp until invalided, and that of Lieutenant S. C. F. Jackson, Hampshire Regiment, who succeeded him, and who has rendered me the greatest assistance, and is an officer of much promise.

44. The list of officers who have rendered specially good service would be incomplete without the name of Lieutenant-Colonel W. P. Symons, South Wales Borderers, Commandant of Mounted Infantry. The work done by this force has been first-rate, and I am indebted to Lieutenant-Colonel Symons for its organization and the details of its equipment.

45. The list of names submitted is a long one, but I have before referred to the conditions of this protracted campaign; and I venture to hope that the recognition bestowed may be in proportion to the nature of the duties performed by the officers mentioned.

46. I have the honor to forward herewith the reports* of Brigadier-Generals and Heads of Departments. Colonel Stedman's report of

* Not published.

officers who have done specially good service on the expedition to Nyamgwe has not yet been received, but any necessary additions will be telegraphed.

No. 11-C., dated 14th March, 1887.

Forwarded.

(Sd.) C. G. ARBUTHNOT, *Lieut.-Genl.*,
Commander-in-Chief, Madras Army

II.

From MAJOR-GENERAL SIR G. S. WHITE, K.C.B., V.C.,
Commanding the Upper Burma Field Force, to the
Adjutant-General in India (through the Adjutant-
General, Madras Army), (No. 160-BC, dated
Mandalay, the 27th March, 1887).

The following is forwarded in continuation of my letter of the 10th instant.

I would beg to submit the names of the officers herein mentioned by Brigadier-General Lockhart, and would specially select Major C. E. Ilderton and Major Hughes for special mention.

No. 15-C., dated Mandalay, 1st April, 1887.

Forwarded in continuation of my No. 11-C., dated 14th March, 1887.

(Sd.) C. G. ARBUTHNOT, *Lieut.-Genl.*,
Commander-in-Chief, Madras Army

From BRIGADIER-GENERAL W. S. A. LOCKHART, C.B.,
V.C., Commanding the 3rd Brigade, Upper Burma
Field Force, to the Assistant Adjutant and
Quartermaster General, Upper Burma Field Force,
Head Quarters, Mandalay, (No. 2-A, *Commandant*,
dated Yemethen, the 9th March, 1887).

In compliance with your memorandum No. 99, dated 3rd February 1887, I have the honor to submit an additional list of officers in this command who have rendered good service up to date.

2nd Battalion, the Queen's Royal West Surrey Regiment

1. Major C. E. Ilderton.—This officer has been very frequently employed in the field since the arrival of his regiment in Burma, and has done well. He has on several occasions been entrusted with the command of a mixed column. I trust his valuable services may be recognized.

2. Captain C. W. Boddam has been employed independently on several occasions, and has done excellent service.

3. Lieutenant F. J. Pink.—I am much indebted to Lieutenant Pink, who is my orderly and intelligence officer. His survey work speaks for itself, and in every other respect he has proved of value to me in the field.

1st Bombay Lancers.

4. Lieutenant G. F. N. Tinley.—A very good cavalry officer, who has on every occasion done well in the field.

5. Lieutenant G. E. Staveley.—The same remarks apply to him as to Lieutenant G. F. N. Tinley.

27th Bengal Infantry.

6. Lieutenant C. W. O'Bryen has done excellent service with the mounted infantry, always showing enterprise and dash.

Departmental.

7. Major C. F. Hughes, Brigade Commissariat Officer, has shown the greatest devotion to his work, and has never spared himself.

8. Lieutenant J. Ezechiel, Deputy-Assistant Commissary, has also been most zealous and hard-working.

9. Lieutenant C. P. Scudamore, Royal Scots Fusiliers, Brigade Transport Officer, has done very good service with the 3rd Brigade and, according to Colonel Stedman, with the Shan column as well.

Of the Medical Services, the officers whose good work has come under my special notice are.

10. Surgeon W. G. Birrell, M.B., Medical Staff.

11. Surgeon A. W. F. Street, Indian Medical Service.

12. Surgeon P. de Conceição, Indian Medical Service.

The services of the above three officers have been invaluable; and I must here add a tribute to the work rendered by a fourth, now no more, *vis*,—

13. The late Surgeon E. W. Kelsall, of the Medical Staff, whose death from cholera last December was a great public loss.

In conclusion I venture to submit the name of a Foreign officer—

14. First-Lieutenant J. F. Breijer, of the Netherlands Indian Army, who has acted as my extra orderly officer, and at the same time has cooperated with Lieutenant Pink in road surveying. He has been of great use, and has always been anxious to get forward when firing commenced.

III

From Major-General Sir G. S. WHITE, K.C.B., V.C., Commanding the Upper Burma Field Force, to the Adjutant-General in India (through the Adjutant-General, Madras Army), dated Mandalay, the 11th April, 1887.

In continuation of my despatch dated Mandalay, 10th March, I have the honor to submit, for the consideration of His Excellency the Commander-in-Chief, the names of the following officers who have been mentioned by Colonel Stedman as having rendered specially good service during the operations of the column detailed to advance on Nyaungwe

Captain A. Mansel, Commanding division of 1-1, Eastern Division, Royal Artillery.
Major A. J. Poole, Commanding half battalion, 2nd Hampshire Regiment.
Major E. H. C. Braddon, 2nd Battalion, Hampshire Regiment.
Major E. B. Bishop, Commanding the 3rd Goorkha Regiment.
Captain C. Pulley, 3rd Goorkha Regiment.
Captain J. D. Fullerton, Royal Engineers.
Lieutenant C. E. Baddley, Royal Engineers.
Lieutenant C. W. O'Bryen, 27th Bengal Infantry, Commanding Mounted Infantry.
Surgeon-Major J. C. G. Carmichael, M.D., 3rd Goorkha Regiment.

Surgeon A. W. F. Street, Bombay Medical Service.

Surgeon P. C. H. Gordon, Medical Staff.

Major W. Clark, Oxfordshire Light Infantry.

Lieutenant K. Chesney, 18th Bengal Lancers.

Lieutenant W. C. Jephson, Executive Commissariat Officer.

Lieutenant E. B. Burton,

17th Bengal Cavalry,

Lieutenant W. Nelson,

20th Madras Infantry,

Captain H. S. Massy, 19th Bengal Lancers,

Signalling Officer.

Lieutenant H. K. Stanton, Royal Artillery, Attaché, Intelligence Branch.

2. Many of these officers have been brought to notice for good service elsewhere, but I beg specially to recommend—

Captain Mansel, 1-1, Eastern Division, Royal Artillery.

Major Poole, 2nd Battalion, Hampshire Regiment.

Major Bishop, Commanding the 3rd Goorkha Regiment.

Major Clark, Oxfordshire Light Infantry.

Lieutenant Stanton, Royal Artillery, Intelligence Branch.

Lieutenant Chesney, 18th Bengal Lancers, orderly officer to the Officer Commanding the Force.

3. I herewith forward Colonel Stedman's report, No. 162, dated 18th March,* in which he summarises the result of the operations in the Shan States, which he has so ably conducted.

4. I would beg here to supply an omission in my despatch of the 10th March last, and record the valuable services of Captain Spratt, Royal Engineers, as Director of Signalling to the Field Force. His industry and powers of organization have conducted much to the success which has been achieved in this department.

5. Brigadier-General East asks that the name of Colonel L. B. Bance, 15th Madras Infantry, may be added to the list of officers named by him for specially good service which was forwarded with my former report.

6. I have also to tender my acknowledgments of the continuous and devoted services rendered to the officers and men of this force by—

The Reverend F. Hill, Church of England Chaplain.

The Reverend A. J. Wallace, Roman Catholic Chaplain.

The Reverend Hugh O'Neil, Roman Catholic Chaplain.

7. The name of Captain J. E. Preston, 13th Madras Infantry, was not included in my former despatch. This officer rendered specially good service on several occasions in the summer of 1886, and was severely wounded when in command at Lemaing, a post for the command of which I had selected him on account of his gallantry and ability as an officer. I recommend him for advancement.

8. The officers and men of the Royal Navy who have been employed in Upper Burma have rendered most ready and efficient aid to the sister service, both in land expeditions and in clearing pirates off the rivers. The launches at their disposal have been ill adapted to the service and the accommodation has been limited; but all difficulties have been overcome and hardships made light of with the professional zeal so characteristic of the Royal Navy. I have specially to acknowledge the assistance received from—

Captain J. P. Pipon, late H.M.S. *Ranger*.
Commander J. Durnford, H.M.S. *Murmer*.

* Not published.

Lieutenant C. B. Macdonald, H.M.S. *Ranger*, who was killed leading an assault upon a dacoit stronghold.

Lieutenant J. F. Stuart, H.M.S. *Ranger*.

Lieutenant H. F. Aplin, H.M.S. *Ranger*.

Mr. T. Holman, Gunner, H.M.S. *Ranger*.

9. This report would be incomplete without calling attention to the valuable services rendered by Captain H. P. Airey of the New South Wales Artillery. This officer's service with the Field Force has been cut short by a severe wound, received in action when commanding a division of Gatling guns, in an engagement at Hmaw-Hwaing, in the Yewoon district, where Captain Airey behaved with marked gallantry. I beg to recommend him for special consideration.

10. Captain J. L. Taylor, Madras Railway Volunteers, has been mentioned by Brigadier-General Low for excellent service with the mounted infantry of the 6th Brigade, in which he has served with distinction.

11. Lieutenant C. F. MacCartie, Madras Volunteer Guards, has proved himself a mounted infantry officer of the greatest ability and dash. He has volunteered for service wherever the chance of hard work has presented itself, and has been of the greatest use in training young soldiers as mounted infantry.

From Major-General J. J. H. GORDON, C.B., Commanding the Eastern Frontier District, to the Adjutant-General in India, (No. 67-C—*Field Operations*,—dated Camp Golaghat, the 21st March, 1887).

As the field operations connected with the opening up of the country between Manipur and Kendat, and the establishment of direct communication between Assam and Upper Burma, have now been concluded on the withdrawal of the head-quarters of the 44th Goorkha Light Infantry from Kendat to Manipur, and the garrisoning of Pongbyn and Sitoung on the Upper Chindwin, and Oktong and Tummo in Kubo, with detachments of the 44th, I have the honor to submit, for the information of His Excellency the Commander-in-Chief, the following, bringing together in a brief and general form the information scattered through the various reports forwarded by me during the different stages of the operations.

2. Major W. F. Trotter, Political Agent, Manipur, escorted by a detachment of 100 men of the 4th Bengal Infantry, under the command of Major W. Hailes, 4th Bengal Infantry, marched from Tummo for Kendat on the 11th May, 1886. Early on the morning of the 12th May they were treacherously attacked in camp at Pantha, by a large body of rebel Burmese, who had carefully prepared their plans for a sudden blow. They were forced to retire on Tummo. Reinforcements of two companies of the 42nd Goorkha Light Infantry, under Captain H. FitzG. Stevens, were sent from Kohima, and arrangements made for organizing transport under Captain J. Willcocks, Transport Officer.

3. On the 19th June the enemy was attacked at Chanyone, three miles from Tummo; but being too strongly posted and in large numbers, the attack did not succeed. Major Hailes was severely wounded on this occasion, and the command at Tummo devolved on Captain Stevens,

42nd Goorkha Light Infantry, who has commanded in the Kubo valley up to the present.

4. As there was much sickness in the garrison and the heavy rains had set in, Captain Stevens confined himself to harassing the enemy by a judicious use of scouting parties, and placing him on the defensive.

5. Early in June the first of the transport sent from Golaghat reached Manipur, and Captain Willcocks at once organized weekly convoys of supplies from Manipur to Tummo.

6. As the Political Agent, Manipur, had not anticipated any opposition in Kubo, and merely arranged for a short march to Kendat and back, and that no troops beyond the usual Residency escort should remain at Manipur, no premeditated arrangements for supplies for an increased number of troops had been made. Kohima was drawn upon for supplies, medical stores, &c., and local resources were developed.

7. The distance between Manipur and Tummo is 64 miles,—36 of these being over forest and jungle-clad hills rising up to 5,000 feet. The rains had set in, and the path was of the roughest and most trying kind, being a succession of steep ascents and descents. Captain Willcocks by vigorous personal exertion made 24 miles of hill road fit for all kinds of laden animals, while Captain Stevens continued it into Tummo.

8. In the end of August reinforcements of two companies of the 44th Goorkhas from Dibrugarh, and two mountain guns with gun teams, 44th Goorkhas, from Shillong, were ordered to Tummo *via* Cachar, as the Nambhor forest route *via* Kohima at that season was inadvisable from malaria. Heavy floods having destroyed part of the road beyond Cachar delayed the march, but the reinforcements reached Tummo early in October, and on the 10th October Captain Stevens attacked the enemy at their strongly stockaded position of Chanyone, three miles from Tummo, captured it after an hour's fighting, and inflicted severe loss on the rebels.

9. This bold attack, followed up by rapid movements to the strongest stockaded villages, secured the submission of the entire valley in a few days; the leading rebels fled; arms were given up, and the villagers returned to their homes and cultivation.

10. Under Captain Stevens' able administration, confidence in the British Government was speedily instilled. The valley was surveyed, every village visited, lists of the inhabitants made, and village headmen appointed.

11. Orders being received to concentrate the 44th Goorkhas at Tummo, the remainder of the regiment marched *via* Kohima, and the whole was assembled at Tummo on the 15th December. Regimental head-quarters and 400 men proceeded through Kubo and across the Ungooching Hills to Kendat, arriving there on the 25th December.

12. I accompanied the 44th to Kendat, and immediately after arrival there, acting in concert with the Civil and Political authorities, occupied Pongbyn, an important position on the Chindwin, 60 miles north of Kendat, while a detachment was sent to clear out two noted dacoit villages 30 miles to the east of Kendat. These operations produced the best results. Pongbyn,

secured the unruly Lekayain district, and covered Kubo from inroads from that quarter. Lieutenant H. Daly, Political Assistant, Upper Chindwin, has his head-quarters at Pounghyn. He has traversed the whole of Lekayain and the districts northwards up to the junction of the Ooyoo river with the Chindwin, and brought them under our authority. Revenue is now being paid. Colonel R. G. Woodthorpe, Royal Engineers, has also been enabled to map out this part of the country.

13. Pounghyn was attacked on the 5th February by a body of 200 rebels from Wuntho, who were repulsed with loss.

I crossed the Ungooching range, due east of Tummoo on the 26th January, with a view of determining the best line of communication with the Chindwin. I reported this route, called the Sweja route, as the best in every way, and the shortest to the Chindwin. It strikes it midway between Kendat and Samjok, at a point where there are many villages and much cultivation. Steamers can ascend there throughout the year. The Chief Commissioner, Burma, has adopted this route for the new cart-road between Kubo and the Chindwin. It is now under construction.

14. I sent in a special report to the Quarter-master-General on the 3rd March regarding the communication between Assam and Upper Burma.

15. The existing communication has been greatly improved and opened out, and Upper Burma is now linked on to Assam by a good mule road, which in a great part only requires widening to fit it for carts.

16. The opening out of this route between Kubo and Manipur was followed by trade springing up between these places and Cachar, consequent on the improved road and assured protection and security in Kubo. Traders from India penetrated to Kubo, while the Burmese resorted to Manipur.

17. During December and January several raids were made on Kubo villages by a hill tribe variously called Chins, Looktis, Zatis, and Kamhows, who inhabit the hills to the west of the valley. This is an annual occurrence at that season. Only small villages suffered. Military guards were given to the larger villages, as owing to their being disarmed, they were defenceless.

18. On the 20th January an attack was made by day on Oktong post, in Kubo, by a party of 200 of these raiders, mostly armed with spears only. Their Chief was shot down leading them, and the rest fled at the first volley from the stockade. They evidently came from a distance, and were misled as to their point of attack. Since then no further raids have been made in Kubo.

19. The Kamhow country can best be entered from Manipur territory.

20. These Kamhow raiders on one occasion passed through Manipuri-Kuki villages, and rested there on return with their captives from Kubo. A fuller knowledge of this region would, I think, prove that Manipur was to some extent implicated in the outrage. The Kuki chiefs have since responded to the invitation of Mr. A. J. Primrose, Political Agent, Manipur, to

come and meet him. The result has been that seven Burmese captives taken from Kubo in 1885 have been restored, whom the Manipur authorities had failed to recover. They now know that Kubo is British territory; and friendly relations having been established with them through Mr. Primrose's personal influence, I think they will now see that they have nothing to gain but everything to lose by going against us.

21. Transport convoys were arranged along the line Kohima-Kubo, a distance of 184 miles, and communication maintained during the operations beyond Kubo.

22. On the 23rd February the future of Kubo was fully discussed at Tummoo by Mr. F. W. R. Fryer, Commissioner, Chindwin Division, Captain F. D. Raikes, Deputy Commissioner, Captain Stevens, Mr. Primrose, C.S., Political Agent, Manipur, and myself. All the headmen of Kubo representing the inhabitants, unanimously expressed their wish to be under the direct rule of the British Government, as their best security for life, peace, and property. They said they preferred it to the rule of any Burmese Swabwa, asked for military posts to be left at Oktong and Tummoo as a protection against outsiders, for arms to defend their villages against raiders, and to be allowed for this purpose to re-erect their village stockades. A rough system of border village militia was accordingly improvised, security taken for the safe custody of muskets, and inspection of the same at intervals ordered.

23. On the 15th February orders were received for 400 men of the 44th Goorkhas to be made available for garrisoning Kubo and posts on the Chindwin above Kendat; the head-quarters of the 44th to proceed to Manipur, with the detachment of the 4th Bengal Infantry then at Tummoo.

24. It was found necessary to increase the 400 of the 44th to 450, in order to provide a small post at S.toung, the river terminus of the new road,—Tummoo-Chindwin. The 450 men and three mountain guns are distributed as follows:

Pounghyn, Upper Chindwin	150 men, 1 gun.
S.toung, Upper Chindwin	50 men.
Oktong, Kubo	150 men, 1 gun.
Tummoo, Kubo	100 men, 1 gun.

25. The head-quarters of the 44th marched from Kendat on the 2nd March, and reached Manipur on the 15th March. The detachment of the 4th Bengal Infantry has been withdrawn from Tummoo to Manipur, and the two companies of the 42nd Goorkhas, which have been in Kubo since June last, are now on the march back to Kohima, to rejoin regimental head-quarters.

26. The total strength of the troops at Manipur is 400, inclusive of the Political Agent's escort.

27. Supply arrangements for the Kubo posts have been made from Manipur, and for the Upper Chindwin posts from Kendat.

28. It is proposed to withdraw the Oktong post garrison on the 1st July, when the flooded streams will protect that part of Kubo from outside dacoits and raiders.

29. Manipur will be connected with India by telegraph in the first week of April; and if my suggestion be adopted for laying a light

temporary wire into Tummo and the Chindwin, instead of the permanent line now ordered, telegraphic communication might be secured with Tummo by the middle of June.

30. The postal communication from Cachar and Kohima to Manipur and on to Tummo has been much improved. To ensure permanent improvement, however, it is absolutely necessary that the system of postal runners through Manipur territory should be conducted on our own lines by paid monthly servants, and not by durbar-provided men, who are frequently changed and unpaid. The Durbar receives the money in a lump sum.

31. I would now beg to bring to the favourable notice of His Excellency the Commander-in-Chief the names of the following officers, for special good services.

Captain H. FitzG. Stevens, 42nd Goorkha Light Infantry. He commanded the troops in Kubo from the 19th June, 1886 to the 13th March, 1887, with much spirit and judicious energy. He has displayed high military and administrative abilities. I cannot write too highly of him.

Captain J. Willcocks, Leinster Regiment, Transport Officer, and in charge of field commissariat. An able and enterprising officer, who in face of great difficulties, by persistent energy, threw supplies into Tummo at a critical time, and enabled Captain Stevens to carry out operations to a successful issue. He joined in the attack on Chanyone on the 10th October and in the following operations, giving valuable aid in the field. He has also acted as Road Commandant.

To the above two officers is mainly due the credit of Tummo being successfully held during a trying time in the rainy season of 1886.

Major W. Hailes, 4th Bengal Infantry, commanded at Tummo up to the 19th June, 1886, when he was severely wounded in action. In the attack on the camp at Pantha on the 12th May he acted with much dash and promptly assumed the offensive, thus enabling him to draw off his detachment to Tummo. He is an able officer.

Lieutenant C. W. Harris, 4th Bengal Infantry, acted with prompt resolution in following up to Manipur a pretender to that Government, and brought him to action, taking him prisoner, and checking the rising insurrection among the Manipuris.

Lieutenant K. P. Burne, 4th Bengal Infantry, commanded the detachment of the 4th Bengal Infantry in the attack on Chanyone on the 10th October with ability and judgment. He is an able and zealous officer and, as Post Commandant at Tummo during the winter, has displayed good military qualities and much tact.

Surgeon F. A. Rogers, Indian Medical Service, performed excellent and devoted services at Tummo and in Kubo, which have obtained for him from His Excellency the Commander-in-Chief the reward of permanent medical charge of the 42nd Goorkha Light Infantry.

Lieutenant H. D. Daly, 42nd Goorkha Light Infantry, who has been most energetic in road-making operations; Subadar Kedar Dichhit, 4th Bengal Infantry; Subadar Ramparshad Karki, 42nd Goorkhas; Subadar Gurdial Singh, 44th Goorkhas; and Jemadar Bakhan Sing Thakur, 44th Goorkhas, have all performed marked good services.

Mr. Edward Mitchell, Assistant Engineer, Department of Public Works, Assam, acted as Field Engineer in directing the roadmaking operations across the Sweja route from Tummo to the Chindwin, and has been engaged since September in surveying for a military road from Manipur to Tummo. He is an able and enterprising engineer.

Major G. H. C. Dyce, Deputy-Assistant Adjutant-General, Eastern Frontier District. He was my only staff officer in the field. On him fell much varied and severe work, which he has performed in a highly satisfactory manner. He is an excellent officer in every respect.

32. The following non-commissioned officers, hospital-assistants, and transport agent have performed markedly good services in the field:

Sergeant T. McCann, Transport Department.
Lalla Dhunput Rai, Rai Bahadur, 1st class
Transport Agent

Havildar Gooman Sing, 44th Goorkhas, Gun-Havildar in command of two mountain guns at the attack on Chanyone, 10th October.

Havildar Juddhir Goorung, 42nd Goorkhas, in command of scouts at Tummo.

Havildar Chululal Jaisi, 44th Goorkhas, Surveyor.

Havildar Mohun Sing, 4th Bengal Infantry.

Hospital-Assistant, 2nd Grade, Abdul Razak, 42nd Goorkha Light Infantry.

Hospital-Assistant, 3rd Grade, Rajkoomar Pandé, 4th Bengal Infantry.

Hospital-Assistant, 3rd Grade, Shaik Kadir Baksh, 44th Goorkha Light Infantry.

33. I would beg to bring particularly to notice the valuable services of Mr. A. J. Primrose, C.S., Political Agent, Manipur, who has heartily co-operated in the operations connected with the opening up of the route through Manipur to Upper Burma, and judiciously and firmly used his influence to aid me in every way. His decided action with the Manipur-Kuki tribe bordering on Kubo strengthened our position there.

34. Lieutenant H. Daly, Political Assistant, Upper Chindwin, has afforded me valuable information and aid. I would also beg to bring his excellent services particularly to notice. He is judicious, daring, and energetic, and has made the best use of the detachment of the 44th Goorkhas at Pongbyn, by traversing the Lekayain and neighbouring districts, bringing them under control and impressing his personal influence on the people.

No. 435.—The Right Hon'ble the Governor-General in Council is pleased to direct the publication, for general information, of the following extracts from correspondence between the Government of India and the Right Hon'ble the Secretary of State for India:

Extract (paras. 1 and 2) of a despatch from the Government of India to the Right Hon'ble the Secretary of State for India, No. 167-A, dated the 18th October, 1886.

1. In continuation of our Military letter No. 103-A, dated the 16th July, 1886, we have the honor to forward the accompanying copy of a report from Major-General G. S. White, C.B., V.C., Commanding the Burma Field Force, of the military operations in Upper Burma from the 1st April last to the end of July, and of the plans proposed by him for the maintenance and extension of British supremacy in Burma.

2. We cordially recognize and desire to commend to the favorable consideration of Her Majesty's Government the good service performed by Major-General White and the troops under his command in Upper Burma under very trying circumstances of health and climate.

Extract (para. 4) of a Military letter from the Right Hon'ble the Secretary of State for India to the Government of India, No. 47, dated 17th February, 1887.

4. I forward for your information copy of the correspondence with the War Office, noted in the margin, from which you will perceive that the Secretary of State for War and His Royal Highness the Field Marshal Commanding-in-Chief concur with me in recognizing the good service performed by Major-General G. S. White, V.C., K.C.B., and the troops under his command, in very trying circumstances in Upper Burma.

*Military, INDIA OFFICE;
No. M-11409. London, 15th December, 1886.*

To the Under-Secretary of State for War.

SIR,—

I am directed by the Secretary of State for India in Council to forward herewith, for the information of the Secretary of State for War, copies of despatches from the Government of India, with reports by Major-General Sir G. S. White, V.C., K.C.B., Commanding the Burma Field Force, on operations in that country from 1st April to 31st July last, and on his plans for the establishment of British supremacy. Copies of narratives received with these despatches also accompany, and a copy of the map mentioned in Major-General White's reports.

With reference to paras. 2 and 3 of the despatch of 18th October, 1886, I am directed to express the concurrence of the Secretary of State for India in Council in the recognition by the Government of India of the good service performed by Major-General White and the troops under his command under very trying circumstances.

I have, &c.,

(Sd.) JOHN H. MAYO,
Assistant Military Secretary.

*Military, WAR OFFICE;
No. 9101. 11th January, 1887.*

To the Under-Secretary of State for India.

SIR,—

I am directed to acknowledge the receipt of your letter of 15th ultimo, forwarding copies of despatches from the Government of India, relative to Military operations in Burma from 1st April to 31st July last, and in reply I am to express the concurrence of the Secretary of State for War and the Field Marshal Commanding-in-Chief in the recognition by the Secretary of State for India in Council of the

good service performed by Major-General G. S. White, V.C., K.C.B., and the troops under his command under very trying circumstances.

I have, &c.,
(Sd.) RALPH THOMPSON.

The 17th June, 1887.

APPOINTMENTS.

ADJUTANT-GENERAL'S DEPARTMENT.

SUPPLEMENT TO
The Gazette of India.

No. 25.]

SIMLA, SATURDAY, JUNE 18, 1887.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor-General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

Weather Review of India for the week ending the 15th June, 1887.

The depression which had existed during the previous week over the Arabian Sea off the Bombay Coast disappeared on the 9th, and was followed by strong south-west to west-south-west winds all along the West Coast of India. These strong westerly winds blew steadily throughout the week. They brought heavy rainfall to the Coast districts, the average daily fall for the week being—at Goa and Ratnagiri, 4·2 inches; at Karwar, 3·6 inches; and at Mangalore, 3·3 inches. They carried also much vapour and cloud into the Deccan, the Central Provinces, and Central India, but the accompanying rainfall was during the earlier part of the week generally scanty.

The Bay of Bengal branch of the monsoon current continued feeble from the 9th to the 11th. During those days it was, in fact, practically suspended over Northern India, being replaced by westerly winds bringing drier weather and a higher temperature to the North-Western Provinces and the Punjab. On the 10th the report gave indications of the formation of a small storm over the head of the Bay. On the 11th this disturbance had undergone further development without, however, changing its position; but on the morning of the 12th the centre was approaching Ganjam, and heavy rain was falling on the Madras and Circars Coasts. On the 13th the storm centre lay midway between Gopalpore and Vizagapatam, and moderate rain was falling over Burma, Bengal, Assam, and Orissa, as well as at some of the hill stations in North-Western India. On the morning of the 14th the storm centre was moving across the Central Provinces, and moderate but general rain was falling over the central parts of India and at a few places in the North-West. In the rear of the depression strong monsoon winds set in, which extended across Bengal into the North-Western Provinces. On the 15th both branches of the monsoon were blowing strongly, and rain was falling over a large part of India, though in the North-West the precipitation was light and sporadic.

The mean pressure of the week has differed but little from the average of the month, being slightly above it in the Punjab and Malabar and below it elsewhere.

On the whole, the temperature has been below the average, the amount of cloud and vapour brought up by the increasing strength of the monsoon currents having very considerably mitigated the heat, which during the past few weeks has prevailed over Upper and Central India.

The amount of moisture in the atmosphere has been below the average, except in the west and south.

The rainfall of the Bay branch of the monsoon for the first half of June, as compared with the average of the same period, has been short of the normal on the Arakan Coast, in Bengal Proper, and at the majority of stations in the North-Western Provinces and the Punjab; but above it in Assam, North Bengal, and Behar. The rainfall of the Bombay branch for the same period has exceeded the average along the West Coast (Karwar + 27 inches and Ratnagiri + 20 inches) and over the Central Provinces, but has been short in the Bombay Deccan and apparently in Guzerat, Central India, and Rajputana.

Division.				No. of stations.	Total Rainfall.
Burma	6	26.42
Bengal and Assam	16	37.82
N. W. Provinces and Oudh	8	3.55
Punjab	7	1.71
Hill Stations	5	6.81
Ceylon	1	1.53
Malabar Coast	5	46.62
Bombay	9	105.39
Berars and Central Provinces	10	31.28
Guzerat and Central India	5	1.91
Sind—Rajputana	3	0.82
Madras	13	22.53

W. L. DALLAS,

SIMLA, 17th June, 1887.

for Meteorological Reporter to the Government of India.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 16th JUNE, 1887.

GENERAL REMARKS—Except in the Punjab, rain has been general throughout the country during the week under review. The falls were heaviest in Bombay, Bengal, and Assam.

Kharif ploughings and sowings are now in active progress in most parts of the country. In the Punjab more rain would be beneficial for ploughing operations.

In Madras, Mysore and Coorg the outlook is favourable.

Ploughing and sowing for the rain-weather crops are going on in Bengal, and the crops above ground are generally doing well, though in the Northern Bengal districts some damage was caused by the heavy rain at the end of May.

Rice is being sowed in Bombay, the Central Provinces, and Assam. In Burma ploughing for the rice crop has commenced.

Sugarcane promises well in Bengal, the North-Western Provinces and Oudh, the Central Provinces, and Assam.

Cholera is chiefly prevalent in the North-Western Provinces and Oudh and Bombay, and the mortality from the disease in two districts of the latter—Ahmednagar and Sholapur—has been high. Elsewhere the public health is generally good.

Prices show an upward tendency in the North-Western Provinces and Oudh, and are rising and high in three districts of the Punjab. Elsewhere they are fairly steady.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Madras—(June 15th)		
Bellary	Average last week since revised, '69; this week, '31.	Standing crops generally good. Harvest paddy, yield average. Cholera decreasing in four taluks and cattle-disease also decreasing in one.
Kurnool	Average '25	Agricultural operations progressing for next crop. Small-pox in three, cholera decreasing in one, and cattle-disease increasing in four taluks.
Ganjam	Average '28	Small-pox in five and fever in seven divisions. Cholera decreasing, and cattle-disease in one taluk.
Kistna	Average 1'21	Harvest crops on irrigation channels. River 16 feet over Anicut. Slight fever prevalent. Cholera increasing in four and cattle-disease decreasing in three taluks.
Chingleput (Madras) .	Average '45	Standing crops fair, but withered to some extent. Harvest paddy, outturn middling. Small-pox in one and cattle-disease in three taluks.
Coimbatore	Average 36	Standing dry crops good. Harvest <i>cholum</i> , outturn above average. Fever in one taluk.
Tanjore	Average '66	Standing crops generally good. Harvest paddy, cotton, gingelly, outturn up to average. Cattle-disease in one taluk.
Madura	Average '06	Health of people and cattle generally good.
Malabar	Average 15'92	Harvest third crop paddy, outturn average. Fever in two and slight small-pox in eight taluks.
Travancore	15'79	Paddy thriving. Small-pox and fever in places.
Bombay—(June 15th)		
Karachi	Tatta, '04	Weather hot and cloudy. General health good. River at Kotri on 13th, 12 feet 7 inches against 12 feet 1 inch on same date last year. Fever in six talukas. Wheat, red rice and <i>bajri</i> in Karachi 22, 30 and 32 and in Dadu 30, 42 and 38 pounds per rupee, respectively.
Hyderabad	Badin, '07	<i>Rabi</i> harvesting continues in two talukas. <i>Kharif</i> cultivation in progress. Fever in two, small-pox in one, and cattle-disease in one taluka. River at Kotri on 13th, 12 feet 7 inches against 12 feet 1 inch on same date last year. Wheat 24, <i>bajri</i> 37½, <i>jowari</i> 40, white rice 20, and red rice 30 pounds per rupee.
Ahmedabad	'17; total '55; rain in three talukas—maximum 2'16 in Dholka and minimum '17 in Daskroi.	Preparations for <i>kharif</i> cultivation in progress throughout the district. Public health good. Wheat 28 and <i>bajri</i> 31 pounds per rupee.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Bombay—contd.		
Baroda	Rain general; '63 in Baroda.	Health good. Crops in good condition. <i>Bajri</i> 28, rice 21 and wheat 18 pounds per rupee.
Surat	Rain in all talukas—maximum in Bulsar, 4'96 and minimum in Bardoli, 1'35	Sowing operations commenced. Fever in Bardoli and cholera in some villages of Pardi and Bulsar talukas. <i>Jowari</i> 35 and <i>nagli</i> 41 pounds per rupee.
Nasik		<i>Kharif</i> sowing commenced in Igatpuri and Peint talukas, but retarded in other talukas for want of rain. Small-pox in Yeola and Kalwan talukas. Cholera in Chahdor, Yeola and Malegaon talukas, 56 attacks, 22 deaths. Prices stationary.
Colaba (Bombay) .	Rain every day; heavy on 11th and 14th; total of week, 6'81; total to date, 14'21, being 4'86 above average	Abnormal temperature 3° cool on 8th, fell to 8° cool by the 11th, rose to 2° cool by the 13th and was 5° cool on 14th. Vapour in air detective on 10th and 11th. Normal on all other days. Abnormal wind from south-east (and strong) from 8th to 10th, from east-south-east on 11th, and from north-west on 13th. Wind normal on 12th and 14th.
Poona	Rain throughout the district—maximum 3'38 and minimum '05 in Khed and Bhimthari talukas, respectively.	More rain wanted in Sirur, Purandhar, and Bhimthari talukas. Sowing of rice and <i>nagli</i> in Mawal, portion of Junnar, Khed and Petha Ambegaon, and that of <i>moong</i> in Sirur and Purandhar talukas in progress. Sowing of rice, <i>nagli</i> and <i>jowari</i> completed in Mawal taluka. Public health generally good. Slight cattle-disease in Indapur and Purandhar talukas. <i>Bajri</i> 43 and <i>jowari</i> 52 pounds in the district, and <i>bajri</i> 37 and <i>jowari</i> 48 pounds per rupee in Poona city.
Ahmednagar . . .	Sangamner, 1'45; Newasa, 1'23; Rahuri, '95; Jamkhod, '68; Parner, '65; and Kopergaon and Akola, '52; very slight in others	Cholera in five talukas, attacks 309, deaths 195. <i>Bajri</i> 36 and <i>jowari</i> 51 pounds per rupee. Rain required for <i>kharif</i> sowings.
Sholapur	Rain in all talukas; maximum in Karmala, '87 and minimum in Madha, '07.	Cattle-disease in Sholapur, Pardi, Pandharpur, and Sangola talukas. Slight cholera here and there in all talukas, 529 cases, 244 fatal. <i>Jowari</i> 56½ and <i>bajri</i> 49½ pounds per rupee.
Dharwar	Rain general; maximum 4'0 in Hingal and minimum '04 in Ron.	Sowing of rice commenced in some talukas. Scarcity of fodder in Nawalgund and of drinking-water in Gadag, Kalghatgi, and Kod talukas. Cholera in Ranibennur, cases 44, fatal 23. Slight cattle-disease in Nawalgund and Nargund. Rice 23½ and <i>jowari</i> 55 pounds per rupee.
Kanara	Heavy rain throughout the week; Karwar, 18'41; total 36'33; Honore, 23'94; Sirsi, 7'52, and Haliyal, 4'15.	Slight cattle-disease in Sirsi and small-pox in Mundgod Petha. Common rice in Karwar and district average 12½ seers per rupee.
Rajkot	'44	Weather hot and cloudy. Wheat 23, <i>bajri</i> 24, and <i>jowari</i> 29 pounds per rupee.
Bengal—(June 15th)		
Chittagong (June 14th)	1'92	Weather seasonable, with occasional showers. Early rice being transplanted. Prices stationary. Cholera still reported, public health otherwise good.
Dacca	1'41	Rain has improved prospects, but rivers rising fast and damage in lowlands anticipated. <i>Til</i> (sesamum) being cut. <i>Aman</i> paddy and jute doing well. Public health generally good.
24-Pergunnahs (Calcutta).	'98	Prospects promising. <i>Aus</i> sowing in progress. Public health generally good.
Khoolna	6'01	Weather stormy. Ploughing and sowing continue. Prospects of early rice fair. Public health good.
Moorshedabad . .	9'38	Weather still hot. <i>Bhadoi</i> prospects good. <i>Aman</i> being sown. Jute and sugarcane promising. Public health good.
Pubna	9'40	Weather sultry, with occasional rain. Crops doing well. Public health good.
Dinagapore . . .	1'14	General rain on two days. <i>Bhadoi</i> sowing over. Jute and <i>bhadoi</i> suffered from heavy rain.
Rungpore	'63	Crops generally good, but in some instances damaged by flood. Public health improved.
Midnapore	9'29	Early sowing commenced. Some lands in Tumlook subdivision damaged by overflow of salt-water. Public health good.
Burdwan	'56	Monsoon broke on 12th. Prospects good. Agricultural operations in progress. Public health good.
Bhagulpore . . .	<i>Nil</i>	Weather sultry. Fine weather has done much to right the damage done by previous week's heavy rain. Sowing and cultivation going on. Prospects good. Public health improving.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Bengal—contd.		
Purneah	2.87	All crops, except indigo, doing well. Ploughing and weeding in progress. Public health fair. Rivers falling.
Durbhanga	Nil	Prospects of rice continue satisfactory. <i>Bhadai</i> being sown. Prices rising. Cholera in Madhubani.
Chumparun57	Prospects of indigo and other standing crops favourable. Sowing of <i>bhadai</i> and <i>agham</i> in progress. Prices stationary. Cholera abating.
Patna	1.77	<i>Bhadai</i> sowings going on. Fields being prepared for sowing of paddy. <i>Chitna</i> being sown on <i>diara</i> land. Cholera prevalent in Barh and Behar subdivisions.
Gya	1.16	<i>Bhadai</i> being sown. Sugarcane doing well. Cholera in all subdivision. Fever also reported. Small-pox only in Nowada.
Hazareebagh	Weather rainy. Monsoon appears to have set in. Rice and <i>bhadai</i> crops being sown. Cholera in one village in Gaidih subdivision, otherwise general health good.
Cuttack	2.05	Weather cloudy. Very high winds. Sowing of rice in progress. Price of rice unchanged. Public health good.
General Remarks— Weather sultry. The monsoon winds, which came in rear of the cyclone at the end of May and which brought up heavy rain, slackened at the beginning of the week, and the rainfall of the week has been moderate. More rain is expected. Crops are generally doing well, but some damage has been done, particularly in the Northern Bengal districts by the heavy rain at the end of May. Ploughing and sowing of <i>aman</i> and <i>bhadai</i> crops are going on. Cholera still reported in the Patna division, elsewhere general health is good.		
N.-W. Provinces and Oudh—(June 15th)		
Benares (June 14th)	Slight rain	Markets full. Prices steady. Few cases of cholera in the district, otherwise health good.
Ballia („ 13th)	.	Weather fair, with occasional clouds. Sugarcane being irrigated. Prices steady. Sporadic cholera continues.
Gorakhpore („ „)	2.3 at Sadr	Prices stationary. Cholera considerably decreased.
Fyzabad („ 14th)	1.0 at Sadr	Weather cloudy. Markets well supplied. Cholera in all districts.
Lucknow („ 13th)	.	Weather often cloudy. Supply sufficient. Prices rising gradually. Public health good. No cattle-disease.
Rai Bareilly („ „)	.	Heat intense. Markets well stocked. Prices rising. Cholera all over the district.
Partabgarh („ 14th)	.	Heat excessive. Winds variable. Indigo and sugarcane being irrigated. Prices show a marked rise. Cholera continues. No cattle-disease.
Allahabad („ „)	.	Weather sultry. Clouds gathering. Markets full. Prices rising slightly. Cholera still continues in Trans-Ganges and Trans-Jumna tracts.
Cawnpore („ „)	.	Weather oppressive. Indigo and sugarcane being irrigated. Prices somewhat risen. Sporadic cholera in places. Cattle-disease in two pergunnahs.
Farakhabad („ „)	2.0 at Sadr and believed to be general in the district	Indigo and sugarcane thriving. Muzc sowings commenced. Markets well supplied, but prices high and still rising. Fever and itch in one tahsil, otherwise health good. No cattle-disease.
Sitapur („ „)	3.3 on 14th	Weather close.
Bareilly („ „)	Good rain on 13th	Weather cool. Prices stationary. Slight cholera in tahsil Baheri.
Banda („ 13th)	.	Weather hot. Supplies ample. Prices stationary. Cholera throughout the district. Cattle-disease in one village.
Kumaon („ 14th)	.	Weather occasionally cloudy, with slight rain. <i>Kharif</i> operations in progress. Prices falling. Cholera severe in Shor, 54 deaths in week. Cattle-disease on the decrease.
Agra („ 13th)	.	Weather cloudy. Sugarcane and indigo crops being irrigated. Prices steady. Cholera reported in two tahsils and small-pox in city.
Jhansi („ „)	.	Weather cloudy and close. Prices steady. Cholera bad in pergunnah Moth, and extending to other pergunnahs, 1 case reported from city. Some small-pox and cattle-disease reported.
Meerut („ 14th)	Slight rain in three tahsils on 14th.	Temperature lowered. Prices risen slightly. Health good, except some fever.

SIMLA, MONDAY, JUNE 20, 1887.

MILITARY DEPARTMENT.

No. 459.

Simla, the 20th June, 1887

In commemoration of the Jubilee Anniversary of the Accession of Her Majesty Queen Victoria, Empress of India, the 21st of June, 1887, is appointed to be observed as a holiday by the Armies of India

A Salute of 50 guns will be fired at daybreak of the 21st instant from all Forts and Batteries from which Salutes are usually fired.

As a mark of Royal clemency on this occasion, it will be announced, in the General Orders of His Excellency the Commander-in-Chief in India, that an amnesty will be granted to particular classes of Military offenders in the British Army, and the release of Military prisoners of the British Army will take place, who, on the 21st instant, may be undergoing sentences of imprisonment for the offences specified in the orders of the Commander-in-Chief in India of this date

In the Native Army all soldiers undergoing sentence of Court-Martial in military custody will be released, and all regimental prisoners and defaulters of the British and Native Armies will be excused further punishment.

The Viceroy and Governor-General in Council has much gratification in announcing that, as a token of the appreciation in which the services of the Native Officers of the Army in India are held by Her Majesty the Queen, Empress of India, and in commemoration of Her Jubilee, the Right Hon'ble the Secretary of State has been pleased, on the recommendation of the Government of India, to sanction an

increase to the Order of British India of fifty appointments to the Second Class of the Order. The increased establishment will stand as follows :

						1st Class.	2nd Class.	Total.
Bengal, including Punjab Frontier Force, the Hyderabad Contingent, and the Local Corps	88	118	206

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co. are distributed by that firm; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of previous advertisements, on and from the 1st January, 1885, the terms of subscription and sale will be as follows:—

Terms of subscription, payable annually in advance.

IN THE HIGH COURT OF JUDICATURE AT FORT WILLIAM IN BENGAL, ORDINARY ORIGINAL CIVIL JURISDICTION.

IN THE MATTER OF THE INDIAN COMPANIES
ACT, 1882, AND IN THE MATTER OF THE
BEHAR TRAMWAYS COMPANY,
LIMITED.

Notice is hereby given that the Honorable
Mr Justice Trevelyan has fixed the 30th day of
June, 1887, at 11 o'clock, at the Original Side of
the High Court, Calcutta, as the time and place
for the appointment of an Official Liquidator of
the abovenamed Company. Dated this 14th day
of June, 1887.

R. BELCHAMBERS,
Registrar.

PROMISSORY NOTES.

Lost.

Two Government Promissory Notes No.
044056—037586 of 1859-60, for ₹1,000, and
No. 044057—037587 of 1859-60, for ₹1,000, of
5½ per cent. loan each standing in the name
of the New Bank of Bombay, Limited, and last
endorsed to Ardaseer Nowrojee Pateh, the pro-
prietor, by whom they were never endorsed to
any other person. Payment of the above notes
and the interest thereupon have been stopped
at the Public Debt Office, Banks of Bengal,
Madras, and Bombay, respectively, and appli-
cation is about to be made for the issue of du-
plicate notes in favour of the proprietor.

SIMLA, MONDAY, JUNE 20, 1887.

MILITARY DEPARTMENT.

No. 459.

Simla, the 20th June, 1887

In commemoration of the Jubilee Anniversary of the Accession of Her Majesty Queen Victoria, Empress of India, the 21st of June, 1887, is appointed to be observed as a holiday by the Armies of India.

A Salute of 50 guns will be fired at daybreak of the 21st instant from all Forts and Batteries from which Salutes are usually fired.

As a mark of Royal clemency on this occasion, it will be announced, in the General Orders of His Excellency the Commander-in-Chief in India, that an amnesty will be granted to particular classes of Military offenders in the British Army, and the release of Military prisoners of the British Army will take place, who, on the 21st instant, may be undergoing sentences of imprisonment for the offences specified in the orders of the Commander-in-Chief in India of this date

In the Native Army all soldiers undergoing sentence of Court-Martial in military custody will be released, and all regimental prisoners and defaulters of the British and Native Armies will be excused further punishment.

The Viceroy and Governor-General in Council has much gratification in announcing that, as a token of the appreciation in which the services of the Native Officers of the Army in India are held by Her Majesty the Queen, Empress of India, and in commemoration of Her Jubilee, the Right Hon'ble the Secretary of State has been pleased, on the recommendation of the Government of India, to sanction an

increase to the Order of British India of fifty appointments to the Second Class of the Order. The increased establishment will stand as follows :

	1st Class.	2nd Class.	Total.
Bengal, including Punjab Frontier Force, the Hyderabad Contingent, and the Local Corps	88	118	206
Madras	53	63	116
Bombay	34	44	78
Total ...	175	225	400

By order of the Governor-General in Council,

E. H. H. COLLEN, *Lieut.-Colonel,*
Offg. Secretary to the Government of India.

INDIAN EMPIRE.

NOTIFICATION.

No. 17 I. E.

Simla, the 21st June, 1887.

The Queen-Empress has been graciously pleased, by Letters Patent under the Great Seal of the United Kingdom of Great Britain and Ireland bearing date the first day of June of this year, to make certain alterations in the constitution of the Most Eminent Order of the Indian Empire, which will for the future consist of three classes.

Her Majesty has been pleased to appoint His Excellency the Right Honorable Lord Reay, C.I.E., Governor of Bombay, His Excellency the Right Honorable Lord Connelley, Governor of Madras, His Excellency General Sir Frederick Sleigh Roberts, Baronet, V.C., G.C.B., K.C.I.E., R.A., Commander-in-Chief in India, to be Knights Grand Commanders of the said Order.

The Queen-Empress has further been pleased to nominate His Royal Highness Albert Edward, Prince of Wales, His Royal Highness Alfred Ernest Albert, Duke of Edinburgh, His Royal Highness Arthur William Patrick Albert, Duke of Connaught and Strathearn, and Field-Marshal His Royal Highness George William Frederick Charles, Duke of Cambridge, to be Extra Knights Grand Commanders of the Order.

By Order of the Grand Master,

H. M. DURAND,

*Secretary to the Most Eminent Order
of the Indian Empire.*

HOME DEPARTMENT.

NOTIFICATIONS.—PUBLIC.

Simla, the 23rd June, 1887.

No. 1377.—In modification of the instructions contained in Foreign Department Notification No 1368P., dated the 23rd June, 1873, the Governor-General in Council is pleased to decide that all letters or communications addressed to

Her Majesty the Queen, Empress of India, or to members of the Royal Family, or to high officials of Her Majesty's Government in England by public bodies or associations in British India, or by individuals resident in British India, shall in future be sent, through Local Governments and Administrations, to the Home Department for transmission to their destination

The receipt of letters otherwise transmitted will not be acknowledged

The 24th June, 1887.

No. 1416—The Governor-General in Council is pleased to direct, under Section 2 of "The Indian Explosives Act, 1884," that the said Act shall come into force on the first day of July 1887

No 1417—(1) In exercise of the powers conferred by Section 5 of the Indian Explosives Act, 1884, the Governor-General in Council is pleased to make the following Rules to regulate the transport and importation of explosives.

(2) These Rules extend to the whole of British India, but nothing in the Rules relating to the transport of explosives shall apply in any Port as defined in the Indian Ports Act, 1875, for which the Local Government may have made or may make special rules under the Indian Explosives Act, 1884, to regulate the transport of explosives therein.

PRELIMINARY.

Section 14 of the Indian Explosives Act, IV of 1884:

Nothing in this Act shall apply to the manufacture, possession, use, sale, transport, or importation of any explosive—

(a) by order of the Government, or

(b) by any person employed under the Government in the execution of this Act, or as a keeper of a magazine, artizan, soldier, sailor, policeman or otherwise, or enrolled as a Volunteer under the Indian Volunteers Act, 1869, in the course of his employment or duty as such.

1. For the purposes of these Rules, explosives shall be classified as follows, namely :

Class 1	Gunpowder.
Class 2	Nitrate-mixture.
Class 3	Nitro-compound.
Class 4	Chlorate-mixture.
Class 5	Fulminate.
Class 6	Ammunition.
Class 7	Firework.

And when an explosive falls within the description of more than one class, it shall be deemed to belong exclusively to the latest of the classes within the description of which it falls.

CLASS 1.—*Gunpowder Class.*

The term "gunpowder" means exclusively gunpowder ordinarily so called.

CLASS 2.—*Nitrate-mixture Class.*

The term "nitrate-mixture" means any preparation, other than gunpowder ordinarily so called, formed by the mechanical mixture of a nitrate with any form of carbon or with any carbonaceous substance not possessed of explosive properties, whether sulphur be or be not added to such preparation, and whether such preparation be or be not mechanically mixed with any other explosive substance.

The nitrate-mixture class comprises such explosives as—

Pyrolitho,
Pudrolithe,
Poudre saxifragine,

and any preparation coming within the above definition.

CLASS 3.—*Nitro-compound Class.*

The term "nitro-compound" means any chemical compound possessed of explosive properties, or capable of combining with metals to form an explosive compound, which is produced by the chemical action of nitric acid (whether mixed or not with sulphuric acid) or of a nitrate mixed with sulphuric acid upon any carbonaceous substance, whether such compound is mechanically mixed with other substances or not.

The nitro-compound class has two divisions.

Division 1 comprises such explosives as—

Nitro-glycerine,	Dualine,
Dynamite,	Glyoxiline,
Lithofracteur,	Methylic nitrate,

and any chemical compound or mechanically mixed preparation which consists either wholly or partly of nitro-glycerine or some other liquid nitro-compound.

Division 2 comprises such explosives as—

Guncotton ordinarily so called,	Cotton gunpowder,
Gunpaper,	Schultz's powder,
Xyloidine,	Nitro-mannite,
Gun sawdust,	Picrates,
Nitrated guncotton,	Picric powder,

Tonite (or cotton-powder),

and any nitro-compound as before defined which is not comprised in the first division.

CLASS 4—Chlorate-mixture Class.

The term "chlorate mixture" means any explosive containing a chlorate. The chlorate-mixture class has two divisions.

Division 1 comprises such explosives as—

Horsley's blasting powder,

Brain's blasting powder,

and any chlorate preparation which consists partly of nitro-glycerine or of some other liquid nitro-compound.

Division 2 comprises such explosives as—

Horsley's original blasting powder,

Erhardt's powder,

Reverley's powder,

Hochstadter's blasting charges,

Richen's blasting charges,

Tentonite,

Chlorated gun-cotton,

and any chlorate-mixture as before defined, which is not comprised in the first division.

CLASS 5.—Fulminate Class.

The term "fulminate" means any chemical compound or mechanical mixture, whether included in the foregoing classes or not, which, from its great susceptibility to detonation, is suitable for employment in percussion caps or any other appliances for developing detonation, or which from its extreme sensibility to explosion, and from its great instability (that is to say, readiness to undergo decomposition from very slight exciting causes), is especially dangerous.

This class consists of two divisions.

Division 1 comprises such compounds as the fulminates of silver and of mercury, and preparations of these substances, such as are used in percussion caps, and any preparation consisting of a mixture of a chlorate with phosphorus, or certain descriptions of phosphorus compounds, with or without the addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate with sulphur, or with a sulphurate, with or without carbonaceous matter.

Division 2 comprises such substances as the chloride and the iodide of nitrogen, fulminating gold and silver, diazobenzol, and the nitrate of diazobenzol.

CLASS 6.—Ammunition Class.

The term "ammunition" means an explosive of any of the foregoing classes when enclosed in any case or contrivance, or otherwise adapted or prepared so as to form a cartridge or charge for small arms, cannon, or any other weapon, or for blasting, or to form any safety or other fuze for blasting or for shells, or to form any tube for firing explosives, or to form a percussion cap, a detonator, a fog signal, a shell, a torpedo, a war rocket, or other contrivance other than a firework.

The term "percussion cap" does not include a detonator.

The term "detonator" means a capsule or case which is of such strength and construction, and contains an explosive of the fulminate-explosive class in such quantity that the explosion of one capsule or case will communicate the explosion to other like capsules or cases.

The term "safety fuze" means a fuze for blasting, which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction and contains an explosive in such quantity that the burning of such fuze will not communicate laterally with other like fuzes.

The expression "safety cartridges" means cartridges for small arms of which the case can be extracted from the small arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges.

The ammunition class has three divisions.

Division 1 comprises exclusively—

Safety cartridges,	Railway fog signals,
Safety fuzes for blasting,	Percussion caps.

Division 2 comprises any ammunition as before defined which does not contain its own means of ignition and is not included in Division 1, such as—

Cartridges for small-arms, which are not safety cartridges,
 Cartridges and charges for cannon, shells, mines, blasting, or other like purposes,
 Shells and torpedoes containing any explosive,
 Fuzes for blasting, which are not safety fuzes,
 Fuzes for shells,
 Tubes for firing explosives,
 War rockets,

which do not contain their own means of ignition.

Division 3 comprises any ammunition as before defined which contains its own means of ignition and is not included in Division 1, such as—

Detonators,
 Cartridges for small-arms, which are not safety cartridges,
 Fuzes for blasting, which are not safety fuzes,
 Fuzes for shells,
 Tubes for firing explosives,

which do contain their own means of ignition.

By ammunition containing its own means of ignition is meant ammunition having an arrangement, whether attached to it or forming part of it, which is adapted to explode or fire the same by friction or percussion.

CLASS 7.—*Firework Class.*

The term “firework” comprises firework composition and manufactured fireworks.

Division 1.—The term “firework composition” means any chemical compound or mechanically mixed preparation of an explosive or inflammable nature which is used for the purpose of making manufactured fireworks, and is not included in the former classes of explosives, and also any coloured fire composition.

Division 2.—The term “manufactured firework” means any explosive of the foregoing classes and any firework composition, when such explosive or composition is enclosed in any case or contrivance, or is otherwise manufactured so as to form a squib, cracker, serpent, rocket (other than a war-rocket), maroon, star, lance, wheel, Chinese fire, Roman candle, or other article adapted for the production of pyrotechnic effects or pyrotechnic signals.

TRANSPORT.

(a) *Packing.*

2. The following general rules shall be observed with respect to the packing of explosives for conveyance :

I.—Each class of explosive shall be separately packed.

II.—An explosive, not being an explosive of the 5th (fulminate) class or of the 2nd and 3rd divisions of the 6th (ammunition) class or of the 1st division of the 7th (firework) class, shall, if not exceeding 5 lbs. in quantity, be contained in a substantial case, bag, canister, or other receptacle made and closed so as to prevent the explosive from escaping.

III.—An explosive of the first (gunpowder class), which is intended to be used for blasting purposes, may be carried in barrels covered with waxcloth or gunny.

IV.—In every other case the explosive shall be contained in a double package. The inner package shall be a substantial case, bag, canister, or other receptacle, made and closed so as to prevent the explosive from escaping, and the outer package shall be a box, barrel, or case of wood or metal or other solid

material, and shall be of such strength, construction, and character that will not be broken or accidentally opened, or become defective or insecure whilst being conveyed, and will not allow the explosive to escape. Provided as follows :

- (a) If the explosive is explosive of the 1st or gunpowder class or is explosive of the 2nd (nitrate-mixture) class or is guncotton or other explosive of the 2nd division of the 3rd (nitro-compound) class, the quantity of explosive in any one outer package shall not, in the case of explosive of the first two classes, exceed 100 lbs., and in the case of the last, 50 lbs.; and if the explosive be guncotton, it shall be carried thoroughly saturated with water.
- (b) If the explosive belongs to the 1st division of the 3rd (nitro-compound) class or to the 4th (chlorate-mixture) class, the inner package shall be without any metal in its construction, and the inner or outer package or both shall be thoroughly waterproof. No one of the inner packages shall contain more than 10 lbs., and the aggregate quantity of the explosive in any one outer package shall not exceed 50 lbs.
- (c) If the explosive belongs to the 5th (fulminate) class, it shall be packed in such manner as the Governor-General in Council may specially direct.
- (d) If the explosive belongs to the 1st division of the 6th (ammunition) class or is any explosive of the 2nd division, an outer package shall not be required, but it may be contained in quantity not exceeding 100 lbs., in a single package, which shall be a box, barrel, or case not less than $\frac{3}{4}$ ths of an inch in thickness, of such strength, construction, and character as will not be broken or accidentally opened or become defective or insecure whilst being conveyed, and will not allow the explosive to escape.
- (e) If the explosive belongs to the 3rd division of the 6th (ammunition) class, it shall be packed in a double package. The inner package shall not contain more than 2 lbs. of such explosive, and no more than 50 lbs. shall be contained in the outer package.
- (f) If the explosive belongs to the 1st division of the 7th (firework) class, it shall be contained in a double package. The inner package shall be a substantial canister, case, or other receptacle hermetically closed, and containing no more than 1 lb. of explosive, and no more than 20 lbs. shall be contained in outer package; and
- (g) If the explosive belongs to the 2nd division of the 7th (firework) class, it shall be contained in a box, barrel, or case of wood, metal, or other solid material, and of such strength, construction, and character that it will not be broken or accidentally opened, or become defective or insecure whilst being conveyed, and will not allow any explosive to escape, and the quantity of explosive in any one package shall not exceed 100 lbs.

V.—Whatever be the amount of the explosive, and to whatever class or division of a class it belongs, the following conditions shall be observed :

- (a) The interior of every package, whether single or double, shall be kept free from grit and otherwise clean ;
- (b) every package, whether single or double, when actually used for the packing of explosive, shall not be used for the packing of any other explosive of the same or any other class or for any other purpose ;
- (c) there shall not be any iron or steel in the construction of any such single package or inner or outer package unless the same is effectually covered with tin, zinc, or other suitable material ;
- (d) on the outermost package there shall be affixed, in conspicuous characters, by means of a brand or securely attached label or mark, the word, "Explosive," followed by the name of the explosive or other description of the contents, and the name and address of the owners or sender ; and

- (e) the amount of explosive in any single package, or, if there is a double package, in any one outer package, shall not exceed the amount specified in the foregoing rules, except with the consent of, and under conditions to be approved by, an officer appointed by the Local Government in this behalf.

3 If any person commits a breach of any of the foregoing rules relating to the packing of explosives for conveyance, he shall be punished with fine which may extend to Rs. 1,000.

(b) *Mode of Conveyance.*

4. The following general rules shall be observed with respect to the conveyance of explosives :

I.—No explosive shall be conveyed from place to place unless packed in the manner provided for in the foregoing rules.

II.—There shall not be conveyed in any carriage or vessel, which is being used for the conveyance of an explosive, any explosive of a different class and division, of whatsoever nature, which contains its own means of ignition unless it be sufficiently separated therefrom to prevent any fire or explosion which may take place in one such explosive being communicated to another.

III.—No explosive shall be loaded or unloaded except between sunrise and sunset.

IV.—Whilst the explosive is being loaded on, or unloaded out of any carriage or vessel, no fire or artificial light, nor any article which is liable to cause or communicate fire or explosion (such as charcoal, lucifer matches, articles for striking a light, petroleum to which the Petroleum Act or any Act repealing or amending the same applies, or any spirit or oil or substance that gives forth an inflammable vapour at a temperature below 100° Fahrenheit) shall be, or shall be allowed to be, brought, had, or used dangerously near to such carriage, ship, or boat, and no smoking shall be allowed in, on, or dangerously near to the same: provided that when the use of a light for the purpose of such loading or unloading is unavoidable, a lamp of such construction, position, or character as not to cause any danger from fire or explosion may be used; and no person while handling any explosive (except gunpowder, explosive of division 1, class 6, or explosive of class 7, if packed in accordance with the packing rules) shall wear boots or shoes with iron or steel nails, heels, or tips.

V.—In loading or unloading any explosive, the casks and packages containing the same shall be passed from hand to hand and not rolled upon the ground; they shall not be thrown or dropped down, but shall be carefully deposited and stowed.

VI.—The explosive shall not be conveyed except in the interior of a carriage so enclosed on all sides with wool or metal, or in the hold of a ship or boat having a close deck, so closed as effectually to protect the explosive against accident by fire from without. If the explosive cannot be so secured, it shall be completely covered with painted cloth, tarpaulin, or other suitable material so as to effectually protect it against communication of fire.

VII.—There shall not be any iron or steel in the interior of the portion of the carriage or vessel with which the case containing the explosive is in contact, unless the same be effectually covered with leather, wood, cloth or other suitable material.

VIII.—In the stowing of explosive, due precautions shall be taken by means of a partition or otherwise, and by careful stowing to secure such explosive from being brought into contact with, or endangered by, any other article, or substance conveyed in such carriage or vessel which is liable to cause fire or explosion; and if the explosive is dangerously affected by water, due precautions shall be taken to exclude water from coming into contact with such explosive.

IX.—The amount of explosive conveyed in any one carriage or vessel at any one time shall not exceed 2,000lbs., unless the carriage be so enclosed on all sides with wood or metal, or the vessel have a close deck so closed as

effectually to protect the explosive against accident, by fire from without, in which case the amount of explosive conveyed shall not exceed the following :

In any one carriage on a railway	10 tons.
In any one other carriage	2 „
In any one vessel	2 „

NOTE.—This rule must in the case of dynamite conveyed by railway be read subject to paragraph XII of Rule 6.

X.—Nothing in the foregoing rules (except Rule I) shall apply to any explosive of the 1st division of the 6th (ammunition) class, provided all due precautions are taken for the prevention of accidents.

5. The following rules shall be observed with respect to the conveyance of explosives otherwise than by public railway :

I.—No explosive shall be conveyed in a carriage or boat whilst carrying or plying for public passengers, unless the quantity be less than 5lbs., and notice has been given beforehand to the person in charge of such carriage or boat : provided that there shall not be conveyed in any such carriage or boat any explosive of the 5th (fulminate) class, or any explosive of the 3rd division of the 6th (ammunition) class or of the 1st division of the 3rd (nitro-compound) class, except

- (i) dynamite, which may be carried in the form of cartridges up to the limit of 5lbs., provided that no detonators are carried in the same compartment : and
- (ii) detonators to the number of 200, provided that the amount of fulminate of mercury in the package or packages containing the detonators shall in no case exceed in the aggregate 3oz. (a certificate to this effect being given by the Agent of the Company by whom the detonators are tendered for transport) ; provided also that no dynamite is carried in the same compartment.

II.—With respect to the conveyance by carriage or vessel of explosive of the 5th (fulminate) class, or of the 3rd division of the 6th (ammunition) class, or of the 1st division of the 7th (firework) class, or of larger quantities than 5lbs. of any other explosive, the following regulations shall be observed :

- (1) The person in charge of the carriage or vessel shall not drive or conduct the same in a dangerous or reckless manner, and shall take all due precautions to avoid fire and explosion, and no person shall do any act or thing in relation to the explosive which tends to cause fire or explosion, and is not reasonably necessary for the conveyance of the explosive or for work immediately connected with such conveyance ; and a person who is intoxicated shall not have charge of any carriage or vessel conveying explosive, and shall not be permitted to be in, or on, or attending the same.
- (2) A person shall not forward to any warehouseman or carrier a consignment of explosive, unless he has given notice to such warehouseman or carrier beforehand, stating the name and quantity of the explosive proposed to be conveyed, and the name and address of the proposed consignee, and has had an intimation that the warehouseman or carrier is prepared to receive the consignment ; and a warehouseman or carrier shall not make such an intimation, nor receive such consignment, unless he is prepared to receive it, and forthwith to despatch the same, or to deposit it in a magazine or at a place at which a person is licensed to possess the same.
- (3) The carriage or vessel conveying the explosive shall be in charge of, and constantly attended by, some competent person, or by a sufficient number of competent persons, and such persons shall not, if the amount of explosive conveyed exceed 100 lbs., stop or delay for a longer time than may be reasonably necessary, or stop unnecessarily at any place where such stopping would be attended with special public danger.

6. The following rules shall be observed with respect to the conveyance of explosives by public railway :

I.—No person shall send for carriage upon any railway any consignment of an explosive, unless he has given to the officer in charge of the Railway Station previous notice in writing which, at the option of the Railway Administration, may extend to 48 hours, of his intention to send such consignment, and stating the true name, description, quantity, and mode of packing of the explosive proposed to be conveyed, and his own name and address, and also the name and address of the proposed consignee, and unless he has had an intimation in writing from an authorized officer of the Railway that such consignment will be received.

II.—No explosive which a Railway Administration shall, by any notice or regulation for the time being in force, notify that they will not receive, shall be brought, sent, or forwarded to, or upon, any Railway of the said Railway Administration.

III.—Consignments of explosives shall be sent to the forwarding station and shall be received by the Railway servants, only at such times, between sunrise and sunset, as the Railway Administration may appoint; and every package containing any explosive proposed to be conveyed on any Railway shall immediately on arrival at the station be unloaded and placed in a safe place under the special direction of the officer in charge of the station.

IV.—An explosive must be removed by the consignee from the receiving station during the twelve hours of daylight after arrival : if this condition is not strictly complied with, the Railway Administration may return the consignment to the consignor at his risk and expense. And such packages shall in the meanwhile be kept as far away from the station buildings as possible, in the wagon they were conveyed in, or, if unloaded, shall be completely covered with tarpaulins or other suitable material, and, if necessary, shall be protected by a police guard.

V.—The Railway Administration may refuse to receive any packages which they suspect to contain any explosive packed or sent in contravention of these regulations. And in case any package, which the Railway Administration suspect, shall be upon any Railway, they may open, or require to be opened, any such package, to ascertain the fact, at the risk and expense of the consignor, and may return the explosive contained in the package to the consignor at his risk and expense, keeping the packages pending such return in the manner prescribed in the preceding rule.

VI.—No explosive shall be conveyed by passenger train except of the kinds and in the manner hereinafter specified in this rule :

- (a) Safety cartridges and percussion caps and safety-fuze (for blasting), also fog-signals for railway use, may be conveyed by passenger train, in ordinary wagons or carriages.
- (b) Dynamite may be carried in the form of cartridges up to the limit of 5lbs., provided that no detonators are carried in the same compartment.
- (c) Detonators to the number of 200 may be carried, provided that in no case the amount of fulminate of mercury in the package or packages containing the detonators exceeds in the aggregate 3oz. (a certificate to this effect being given by the Agent of the Company by whom the detonators are tendered for transport), provided also that no dynamite is carried in the same compartment.
- (d) Sporting gunpowder or non-safety cartridges packed in double cases as before provided, so long as the gunpowder is contained in one-pound tin canisters packed in a stout wooden case with an outer covering of tin or zinc completely spark-proof, or in metal-lined cases of a pattern approved by the Railway Administration. But no outer case shall contain more than 25lbs. of gunpowder, and the total consignment of gunpowder or non-safety cartridges by one train shall not exceed 80lbs.

VII.—Not more than five carriages containing explosives shall be loaded or unloaded at any railway station, or be conveyed by any one train at any one time ; and the quantity of explosive to be contained in any one carriage shall not exceed two-thirds of the normal load, unless the carriage shall be specially built and approved of by the Government of India for the conveyance of explosives. But nothing in this clause shall be held to apply to separate consignments of small-arms ammunition.

VIII.—There shall not be conveyed in the same carriage with any explosive, any lucifer or other matches, fuzes, pipelights, acids, naphtha, paraffine, petroleum to which the Petroleum Act or any Act repealing or amending the same applies, or any other volatile spirit or substance liable to give off an inflammable vapour or liable to spontaneous ignition, or to cause or communicate fire or explosion.

IX.—The consignor shall attach to the consignment note a certificate signed by an officer authorized by the Local Government in this behalf that the explosive, if it is guncotton, dynamite, or blasting gelatine, is of the standard purity, and has undergone no deteriorations since its manufacture ; and further in the case of dynamite, that the cartridges have been examined and show no signs of exuded nitro-glycerine. The consignor shall also certify that the cartridges have been packed in this country in accordance with the packing rules.

X.—In the case of dynamite the outer package shall be marked with the date on which the dynamite was packed, and be secured with a leaden seal in token of the inspection having been made.

XI.—The certificate referred to in Rule IX shall be valid for six months after date, if the examination has been made between the 15th October and 31st March ; but any Railway Administration which accepts dynamite for transport may demand a fresh certificate for dynamite presented for conveyance between 1st April and 15th October (both inclusive).

XII.—Packages containing dynamite shall be stowed in one layer only and secured so as to prevent movement during transit. The gross load in any one wagon shall not exceed 3 tons.

XIII.—No explosive belonging to the 5th (fulminate) class or to class VI, division 3, shall be carried in the same train with dynamite, or with any other explosive belonging to class III, division 1.

XIV.—Wagons used for the carriage of explosives shall be examined to see that they are spark-proof, and have been cleaned out before they are loaded. Hair cloth, hides, or other suitable material shall be spread on the floor of the wagon and between each layer of packages, except when the packages are covered with gunny or felt, or contain small-arms ammunition, packed in tin-lined service-pattern boxes.

XV.—Wagons containing explosives shall be loaded and unloaded on sidings distant as far as possible from the station buildings.

XVI.—More than three layers of packages containing explosives shall never be packed one above another, except in the case of small-arms ammunition packed in tin-lined service-pattern boxes, when such a restriction is unnecessary. The loading and unloading of explosives when once begun shall be diligently proceeded with during daylight until the same is completed.

XVII.—When the train is being marshalled, wagons loaded with explosives may be shunted by a locomotive, provided that they are separated from the engine by not less than three wagons containing no explosive nor easily inflammable substance ; this precaution is not necessary with wagons specially constructed for the carriage of explosive. The speed of these movements will be restricted to 5 miles an hour, they will be superintended by a duly authorized officer, who will be held responsible for the observance of these orders. Flying shunts are strictly prohibited.

XVIII.—Wagons containing explosives shall be placed at the end of the train away from the locomotive, and shall be close coupled to one another, as well as to the adjoining wagons, and must be preceded and followed by three wagons not loaded with explosive or other traffic of an inflammable nature.

XIX.—If the wagons employed in the transport of explosive, as well as those immediately adjoining them, are provided with brakes, the brakes shall on no account be worked.

XX.—Wagons must in every case be locked when loaded with explosives.

XXI.—All operations connected with the transshipment of explosives at junction stations shall take place during daylight.

7. If any person commits a breach of any of the foregoing rules relating to the mode of conveyance of explosives, he shall be punished with a fine which may extend to Rs. 1,000.

IMPORTATION.

8. An explosive shall not be imported by sea into British India, except under and in accordance with the conditions of a license to import the explosive granted under these rules:

Provided that any explosive other than an explosive specified in Rule 11 may, previous to the grant of an importation license, if certified to be of British manufacture or, if not of British manufacture, if imported from the United Kingdom and covered by the certificate granted by one of Her Majesty's Inspectors of Explosives in England, be landed in accordance with such regulations as the Local Government may prescribe in this behalf, and be stored in a place set apart by the Local Government for this purpose. The Governor-General in Council may extend this privilege to any such explosive not of British manufacture regarding which he is satisfied that it has been manufactured under adequate official supervision.

Before any explosive is landed under the proviso to this rule, the consignee shall give to the Chief Customs Officer of the Port such undertaking, with or without security, as the said officer thinks sufficient, to obey, in the event of the explosive failing to satisfy the prescribed tests, such directions as to its disposal as the Local Government may see fit to prescribe.

9. If any person imports an explosive in contravention of Rule 8, he shall be punished with fine which may extend to three thousand rupees.

10. An explosive shall not be imported by sea except at the ports of Calcutta, Madras, Bombay, Rangoon, Calicut, Kurrachee, and Aden; but a license to import an explosive by sea from Rangoon into the ports of Akyab, Moulmein, Sandoway, Kyauk-Phyoo, Tavoy, and Mergui may be granted by the Magistrates of the Districts in which these ports are respectively situated. The fee payable in respect of each such license shall be one rupee, and the license shall be in Form A in the Schedule hereto annexed.

11. If the explosive is gunpowder or an explosive of the 1st division of the 6th (ammunition) class or an explosive of the 7th (firework) class, the license to import the same may be granted at the ports of Calcutta, Madras, and Bombay by the Commissioner of Police, and at the ports of Rangoon, Calicut, Kurrachee, and Aden by the District Magistrate.

12. The fee payable in respect of each such license shall be Rs. 10.

13. Licenses for the importation by sea of any explosive other than those specified in Rule 11 shall be granted by the Local Government or by some officer specially authorized by the Local Government in this behalf.

14. No license for the importation of any explosive of the description referred to in Rule 13 shall be granted unless samples of the explosive taken, as hereinafter provided, are certified by the Chemical Examiner, or some other officer appointed by the Local Government in this behalf, to pass the test which may from time to time be prescribed for such explosive by the Government of India.

15. On the arrival in any port at which importation of explosives is lawful of a ship having on board an explosive other than an explosive of the description referred to in Rule 11, such officer as the Chief Customs Officer authorizes in this behalf shall, as soon as may be, proceed on board and obtain samples of the explosive.

The master of the ship shall give to the said officer, without charge, such samples as he may require. The said officer shall affix to each such sample the name of the ship and of the consignee and such other distinguishing marks as

he may think necessary, and shall forward the same to the Chemical Examiner or officer as aforesaid for report.

The Chemical Examiner or officer as aforesaid, after testing the said samples, shall without delay forward to the licensing authority, through the Chief Customs Officer, a report under his signature certifying whether the explosive has satisfied the prescribed test.

16. The period for which a license to import an explosive, granted under Rule 13, shall continue in force shall not exceed such period as may seem necessary to the authority granting the license.

17. The fee payable on a license granted under Rule 13 shall be Rs. 10.

18. Every license granted under Rules 11 and 13 shall be in Form A in the Schedule hereto annexed, and shall be subject to the conditions therein prescribed, and also to such additional conditions with respect to the time and place of unloading, landing, delivery, and conveyance of the explosive, and such other conditions as may in each case be thought by the licensing officer to be necessary for the public safety or in the interests of the State.

19. If any person commits a breach of any condition subject to which a license under Rules 11 and 13 is granted, he shall be punished with fine which may extend to three thousand rupees.

GENERAL.

20. Every license granted under these rules shall be liable to be forfeited on breach of any of the conditions subject to which it is granted.

21. If a person licensed to import an explosive dies or becomes bankrupt, or becomes mentally incapable or otherwise disabled, the person carrying on the business of such licensee shall not be liable to any penalty or forfeiture under the Act or the rules made thereunder for acting under the license during such reasonable time as may be necessary to allow him to make an application to the authority granting the license for a new license in his own name during the currency of the unexpired portion of the original license. Such new license shall be granted on the payment of one rupee.

22. The fees leviable under these rules shall be taken in the shape of "impressed stamps." Ordinarily the applications for license or renewals of licenses shall, if not otherwise provided, be written on "impressed stamps" of value equal to the amount of fee leviable in respect of such licenses or renewals, the licenses themselves being issued on plain paper. But when the licenses themselves are written or printed on impressed stamps, the application may be on plain paper. When an application for license is written on an impressed stamp, and the license is refused, the value of the stamp will on application be refunded to the applicant.

23. When a license granted in accordance with these rules is lost, or accidentally destroyed, a duplicate may be granted to the licensee on payment of a fee of 8 annas.

24. Any person holding a license, or acting under a license, granted in accordance with these rules, shall be bound to produce the same when called upon to do so by any Magistrate, or by any police officer in charge of a police station, or by any police officer of higher rank.

25. All Magistrates or other authorities acting under these rules will perform their duties, subject to the control of their executive superiors and of the Local Government.

26. Any authority empowered to grant a license under the foregoing rules may, if he thinks fit, direct by an order written on the license that it shall have the effect of a like license under the Indian Arms Act, 1878.

27. Any persons lawfully entitled under the Indian Arms Act, 1878, or the rules made thereunder, to possess any explosive coming under the head of ammunition as defined in that Act, may possess or import without license under these rules any such explosive in reasonable quantities for his own private use: but when an explosive is so imported, the Collector of Customs or any other officer empowered by the Local Government in this behalf by name or by virtue of his office may at any time detain such explosive until he receives the orders of the Local Government thereon.

Form A.

(See Rules 11, 13 and 18.)

FEE TEN RUPEES IN STAMPS.

License to import Explosives into the Port of _____

Name, &c., and address of licensee holder.	Number of packages.	EXPLOSIVE.			Purpose for which required.	Destination.	Period for which the license is valid.

Seal.

Conditions.

1. This license is given subject to the provisions of "The Indian Explosives Act, 1884," and the Rules framed thereunder.
2. This license becomes void after expiry of the period named thereon.
3. This license is valid for importation only: if the articles named herein are to be transported to any place outside the Presidency Town, they must be protected by a transport license, to be issued in accordance with the Rules framed under the Indian Arms Act, 1878.
4. On the outside of each package there shall be affixed in conspicuous characters by means of a brand or securely attached label or mark the word "Explosive," followed by the name of the explosive or other description of the contents, and the name and address of the owners or senders.

No. 1418.—With reference to Rule 14 of the Rules to regulate the transport and importation of explosives, published with Home Department Notification No. 1417, dated the 24th June, 1887, the Governor-General in Council is pleased to make the following Rule on the subject of the tests which certain explosives shall be required to pass before their importation is permitted :

Rule.

The following explosives and none others shall be liable to be tested under these Rules :

- (1) All nitro-compounds included in class III, division 1.
 - (2) Nitro-compounds containing guncotton included in class III, division 2.
 - (3) Chlorate-mixtures containing nitro-glycerine included in class IV, division 2.
2. To nitro-compound mixtures included in class III, division 1, except methylic nitrate, the following tests are applicable :
- (a) Heat test for nitro-glycerine contained in dynamite and analogous nitro-glycerine preparations ;
 - (b) Heat test for nitro-glycerine preparations ;
 - (c) Heat test for blasting gelatine and gelatine dynamite ;
 - (d) Test for liquefaction of blasting gelatine and gelatine dynamite ;
 - (e) Test for liability to exudation of blasting gelatine and gelatine dynamite.
3. To those nitro-compound mixtures included in class III, division 2, which contain guncotton, the heat test for nitro-glycerine preparations in clause (b) of the preceding paragraph is applicable.
4. To those chlorate-mixtures contained in class IV, division 2, which contain nitro-glycerine, one or more of the five tests contained in paragraph 2 above are applicable, but the precise test or tests to be applied shall be regulated by the composition of the explosive.
5. The tests specified above shall be applied in the following manner :

**HEAT TEST FOR NITRO-GLYCERINE CONTAINED IN DYNAMITE AND ANALOGOUS
NITRO-GLYCERINE PREPARATIONS.**

Apparatus required.

1. Test-tubes from 5½ inches to 5¼ inches long, and of such diameter that they will hold from 20 to 22 cubic centimetres of water when filled to a height of 5 inches.
2. The test-tubes to be fitted with perforated corks, which should be conical so as to fit all the tubes equally well. The perforations hold glass rods provided with a hook of glass or platinum to hold the test-paper.
3. The heating apparatus, as prescribed with the original Government heat test.* This apparatus is described at p. 112 of the Report of the Special Committee on Gun-cotton, 1871 to 1874.

* A globe of copper or other suitable material may be used instead of the glass globe, and any efficient gas regulator, such as a Page's regulator, may be substituted in place of Schriber's regulator.

Materials required.

a. Test-paper.—The test-paper is prepared as follows:—45 grains of white starch, previously washed with cold water, are added to 8½ ounces of distilled water; the mixture is stirred, heated to boiling, and kept gently boiling for 10 minutes; 15 grains of pure potassium iodide (*i.e.*, which has been re-crystallized from alcohol) are dissolved in 8½ ounces of distilled water. The two solutions are thoroughly mixed and allowed to get cold. Strips or sheets of white English filter paper, previously washed with water and re-dried, are dipped into the solution thus prepared, and allowed to remain in it for not less than 10 seconds; they are then allowed to drain and dry in a place free from laboratory fumes and dust. The upper and lower margins of the strips or sheets are cut off, and the paper is preserved in well stoppered or corked bottles and in the dark. The dimensions of the pieces of test-paper used are about $\frac{1}{10}$ inch by $\frac{1}{10}$ inch (10 mm. by 20 mm.).

b. Standard tint paper.—A solution of caramel in water is made of such concentration that, when diluted one hundred times (10 cc. made up to 1 litre), the tint of this diluted solution equals the tint produced by the Nessler test in 100 cc. water containing 0.000075 grm. of ammonia or 0.00023505 grm. of chloride of ammonium. With this caramel solution lines are drawn on strips of white filter paper* by means of a clean quill-pen. When the marks thus produced are dry, the paper is cut into pieces of the same size as the test-paper previously described, in such a way that each piece has a brown line across it near the middle of its length, and only such strips are preserved in which the brown line has a breadth varying from $\frac{1}{2}$ mm. to 1 mm. ($\frac{1}{60}$ th of an inch to $\frac{1}{36}$ th of an inch).

Preparation of the Sample to be tested.

a. Apparatus required.—A wide-mouthed bottle (*a*) of about 6 oz. capacity, to which is fitted an india-rubber stopper (*b*) having two perforations. Through one of these passes the bent tube (*c*), through the other the filtering tube (*d*). The latter should have sufficient capacity to hold about 500 grains of dynamite. Within the bottle is placed a small test-tube (*e*) to receive the nitro-glycerine filtering through (*d*).

b. Mode of Operation.—About 400 grains of dynamite, finely divided, are placed into the filtering tube (*d*) (small piece of cotton-wool having previously been pushed into the contracted part of the tube), and made to fill it as evenly as possible by shaking and tapping; the upper surface is smoothed by gently pressing with a wooden rammer.

Water is then poured on the top of the dynamite and allowed to sink into it by its own weight until a sufficient quantity of nitro-glycerine has been displaced. The bent tube (*c*) may then be connected with the filtering pump or other means of reducing the pressure in the bottle, the displacement of the nitro-glycerine being thus accelerated.

The nitro-glycerine collects in the tube (*e*), and the operation is stopped before the water reaches the narrow part of the filtering tube.

If any water should have passed through with the nitro-glycerine, it should be removed with a piece of blotting paper, and the nitro-glycerine, if necessary, filtered through a dry paper filter.

*Application of the Test.*

The thermometer is fixed so as to be inserted through the lid of the glass globe into the water (which is to be steadily maintained at a temperature of 160° F.) to a depth of 2½ inches. 50 grains of nitro-glycerine to be tested are weighed into a test-tube in such a way as not to soil the sides of the tube. A test-paper is fixed on the hook of the glass rod, so that, when inserted into the tube, it will be in a vertical position. A sufficient amount of a mixture of half distilled water and half glycerine is now applied to the upper edge of the test-paper by means of a camel's-hair pencil to moisten the upper half of the papers, the cork carrying the rod and paper is fixed into the test-tube, and the position of the paper adjusted, so that its lower edge is about halfway down the tube; the latter is then inserted through one of the perforations of the cover to such a depth that the lower edge of the test-paper is just above the surface of the cover. The test is complete when the faint brown line which after a time makes its appearance at the line of boundary between the dry and moist part of the paper equals in tint the brown line of the standard tint paper.

* This paper must be carefully washed with distilled water in the first instance to remove any traces of bleaching matter, and dried.

The nitro-glycerine under examination will be considered as "thoroughly purified" within the terms of the license, whenever the time necessary to produce the standard tint as above described is *not less* than 15 minutes.

HEAT TEST FOR NITRO-GLYCERINE PREPARATIONS.

Fig. II.

Fig. III.

Fig. IV.

Apparatus required—1. A spherical glass vessel (Fig I) about 8 inches diameter (a), filled with water to within a quarter of an inch of the edge, having a loose cover of sheet tin or copper about 7 inches square (b), rests on a tripod stand about 14 inches high (c), covered with coarse iron-wire gauze (e), and surrounded with a screen of thin sheet copper (d). Within this is placed an Argand burner (f) with glass chimney. Over the glass globe is placed a common green paper lamp shade (m, n). The cover (b) has five holes arranged as seen in Fig II., No. 5 to receive the thermometer; No. 1, the regulator; No. 4, a small funnel; and Nos. 2 and 3, test tubes, containing the guncotton to be tested. Around holes 2 and 3, on the underside of the cover, are soldered 3 pieces of the brass wire with points slightly converging (Fig. III. turned upside down); these, acting as springs, allow the test-tubes to be easily placed in position and removed.

2. Scheibler's temperature regulator.
3. Two cells of Le Clanche's battery No. 1.
4. A few yards of insulated copper wire.
5. Test-tubes about $\frac{3}{8}$ inch diameter, and not less than 5 inches long.
6. Glass rod with a flat head—of sufficient length to reach to the bottom of test-tubes.
7. Corks, fitting the test-tubes and carrying an arrangement for holding the test-paper (a thin glass tube passing through the centre of the cork, drawn out and terminating in a platinum wire hook, Fig. IV.).
8. A thermometer with range not less than from 30° to 212° Fahrenheit.
9. A minute clock.

Materials required.—The *test-paper* is prepared as follows:—45 grains of white starch are added to $8\frac{1}{2}$ ounces of water, and the mixture is stirred and heated to boiling; 15 grains of iodide of potassium are dissolved in $8\frac{1}{2}$ ounces of water. The two solutions are thoroughly mixed together. Strips or sheets of white Swedish filter paper are dipped in the solution thus prepared; they are then allowed to drain and dry. The dimensions of the pieces of test-paper used are about $\frac{1}{4}$ inch by $\frac{3}{8}$ inch. The paper should be preserved in a well stoppered or corked bottle.

Preparation of Samples for Testing.—Half a cartridge of the material (or about 500 grains if it is not supplied in the form of cartridges) is thoroughly rubbed up together, so as to furnish a very uniform sample. If the material is frozen, it should first be thawed.

Application of the Test.—The thermometer is fixed so as to be inserted through the lid of the glass globe into the water (which is to be steadily maintained at a temperature of 160° Fahrenheit to a depth of $2\frac{1}{4}$ inches). 50 grains of the samples to be tested are inserted into the test-tube and gently pressed down to the bottom with a flat-headed glass rod. The test-tube is then inserted through the perforation in the cover, and is immersed in the hot water to the depth of $2\frac{1}{4}$ inches, the tube being closed with a loosely-fitting cork. A test-paper is fixed on the lower extremity of the glass rod, so that, when inserted into the tube, it will be in a vertical position. A drop of distilled water, containing 10 per cent. of pure glycerine, is applied to the upper edge of the test-paper, the quantity used being only sufficient to moisten about *half* of the paper; the first cork is then taken out of the test-tube and replaced by the cork holding the glass rod and test-paper, keeping the test-paper as near the top of the test-tube as possible until the tube has been immersed for about five or six minutes. A ring of moisture will about this time be deposited in the test-tube a little above the cover of the bath; the glass rod must then be lowered until the lower margin of the moistened part of the paper is on a level with the bottom of the ring of moisture in the tube; the paper is now closely watched. The test is complete when a very faint brown coloration makes its appearance at the line of boundary between the dry and moist part of the paper. The interval of time between the first insertion of the tube containing the sample in the water at 160° , and the first appearance of discoloration on the paper, constitutes the test.

HEAT TEST FOR BLASTING GELATINE AND GELATINE DYNAMITE.

Fifty grains of blasting gelatine are to be intimately incorporated with one hundred grains of French chalk. The mixture is to be gradually introduced into a test-tube of the dimensions prescribed in the dynamite heat test, with the aid of gentle tapping upon the table between the introduction of successive portions of the mixture into the tube; so that, when the tube contains all the mixture, it shall be filled to the extent of $1\frac{3}{4}$ inches (one inch and three-quarters) of its height. The test-paper is then to be inserted, and the heat is to be applied in the manner prescribed for the dynamite heat test, and the sample tested is to withstand exposure to 160° Fahrenheit for a period of ten minutes before producing a discoloration of the test-papers corresponding in tint to the standard colour test which is employed for governing the results of the dynamite heat test.

TEST FOR LIQUEFACTION OF BLASTING GELATINE AND GELATINE DYNAMITE.

A cylinder of blasting gelatine to be cut from the cartridge to be tested; the length of the cylinder to be about equal to its diameter, and the ends being cut flat.

The cylinder is to be placed on end on a flat surface without any wrapper, and secured by a pin passing vertically through its centre.

In this condition the cylinder is to be exposed for one hundred and forty-four consecutive hours (six days) to a temperature ranging from 85° to 90° Fahrenheit (inclusive), and during such exposure the cylinder shall not diminish in length by more than one-fourth, and the upper cut surface shall retain its flatness and the sharpness of its edge.

Note.—(If the blasting gelatine and gelatine dynamite to be tested be not made up in a cylindrical form, the above test is to be applied with the necessary modifications.)

TEST FOR LIABILITY TO EXUDATION OF BLASTING GELATINE AND GELATINE DYNAMITE.

There shall be no separation from the general mass of the blasting gelatine or gelatine dynamite of a substance of less consistency than the bulk of the remaining portion of the material under any conditions of storage, transport or use, or when the material is subjected three times in succession to alternate freezing and thawing, or when subjected to the liquefaction test hereinbefore described.

ESTABLISHMENTS.

The 24th June, 1887.

No. 200—With reference to Home Department Notifications Nos. 75 and 94, dated 11th and 16th March, 1887, respectively, the following Despatch from Her Majesty's Secretary of State for India is published for general information:

No. 67 (Public), dated India Office, London, 19th May, 1887.

From—Her Majesty's Secretary of State for India,
To—His Excellency the Right Hon'ble the Governor-General of India in Council.

With reference to your two Despatches, dated the 12th ultimo, Nos. 23 and 24, I have to inform Your Excellency in Council that Her Majesty the Queen, Empress of India, has been pleased to approve the appointment of Sir Stuart Colvin Bayley, K.C.S.I., C.I.E., to be Lieutenant-Governor of the Bengal Division of the Presidency of Fort William.

2. Her Majesty has also been pleased to approve the appointment of Mr. James Broadwood Lyall to be Lieutenant-Governor of the Punjab and its Dependencies.

JUDICIAL.

The 24th June, 1887.

No. 1027.—Under the provisions of Section 138 of Act XXVI of 1881 (The Negotiable Instruments Act, 1881, as amended by Act II of 1885), the Governor-General in Council has been pleased to appoint the undermentioned persons to be Notaries Public and to exercise their functions as such within the limits of the district of Agra in the North-Western Provinces:

M. J. G. Willis.

Pandit Jaggan Nath.

POLICE.

The 23rd June, 1887.

No. 262.—The services of Mr. J. T. Rivett-Carnac, Supernumerary District Superintendent of Police, 4th Grade, Burma, are replaced at the disposal of the Government of Bengal, with effect from the 29th June, 1887.

ECCLESIASTICAL.

The 20th June, 1887.

No. 200.—The Reverend David George Lathom Browne, B.A., has been appointed a Junior Chaplain on the Bengal (Rangoon) Ecclesiastical Establishment to fill an existing vacancy.

No. 202.—The Reverend Gerald Edward Nicolls, B.A., has been appointed a Junior Chaplain on the Bengal (Lahore) Ecclesiastical Establishment to fill an existing vacancy.

The 23rd June, 1887.

No. 205.—The Reverend A. N. Rolfe, B.A., a Junior Chaplain on the Bengal (Calcutta) Ecclesiastical Establishment, reported his arrival at Calcutta on the afternoon of the 9th instant.

No. 207.—The Reverend G. G. Gillan, M.A., Senior Chaplain of the Church of Scotland on the Bengal Establishment, has obtained furlough for one year, with effect from the 12th proximo, or any subsequent date on which he may avail himself of it.

PATENTS.

The 20th June, 1887.

No. 973.—Specifications of the undermentioned inventions have been filed, under the

provisions of Act XV of 1859, in the Office of the Secretary to the Government of India in the Home Department. Copies have been sent to one of the Secretaries to each of the Governments of Bengal, Fort St. George, Bombay, and the North-Western Provinces. A copy of every specification is open to public inspection, at all reasonable hours, at the Office of the Secretary to the Government of India in the Home Department at the Presidency, upon payment of a fee of one Rupee. A certified copy of any specification will be given to any person requiring the same on payment of the expense of copying.—

No. 107 of 1836.—A'fred Buckingham Ibbotson, of Ibbotson Brothers and Company, Limited, Globe Steel Works, Sheffield, England, for improvements in and relating to fastenings for securing railway rails upon their sleepers or at their joints.

No. 200 of 1886.—Frederick Robert Jones, M.I.M.E., Engineer, Nahan, for an elastic press for extracting the juice from the sugarcane without breaking the fibre of the same.

No. 27 of 1887.—Moritz Imrich, of 119, Torriano Avenue, Camden Town, London, in the County of Middlesex, Great Britain, Electrician, for improvements in Electro-Motors and Dynamo-Machines.

No. 86 of 1887.—Theodor Favarger, Engineer, of 21, Rue Royale, Paris, France, for improvements in Guard Cords for the protection of ships and harbours.

A. P. MACDONNELL,

Secretary to the Government of India.

REVENUE AND AGRICULTURAL DEPARTMENT.

NOTIFICATIONS—FORESTS.

Simla, the 24th June, 1887.

No. 559 F.—The following temporary promotions are made among Conservators of Forests during the absence on privilege leave for two months and twenty-eight days of Mr. G. Mann, Conservator of the 3rd (officiating 2nd) Grade in Assam, with effect from the 18th June, 1887, or the subsequent date on which Mr. Mann may avail himself of the leave.

Mr. E. P. Popert, Conservator of the 3rd Grade, Pegu Circle, Burma, to officiate in the 2nd Grade of Conservators.

Mr. J. T. Jellicoe, Deputy Conservator of the 2nd Grade, Assam, to officiate in the 3rd Grade of Conservators, and to have charge of the Forest Department in Assam.

No. 562 F.—Mr. E. E. Fernandez, Officiating Deputy Director of the Forest School at Dehra Dún, is deputed on special duty under the Inspector-General of Forests in connection with the preparation of working-plans, with effect from the date on which he relinquishes charge temporarily of his duties at the Forest School.

Mr. A. Smythies, B.A., Deputy Conservator of Forests of the 4th (officiating 3rd) Grade in the North-Western Provinces and Oudh, is placed in charge of the Office of Deputy Director of the Forest School at Dehra Dún, in addition to his other duties, with effect from the date on which Mr. Fernandez relinquishes charge temporarily of that office.

E. C. BUCK,

Secretary to the Government of India.

INDIAN EMPIRE.

NOTIFICATION.

Simla, the 21st June, 1887.

No. 17 I. E.—The Queen-Empress has been graciously pleased, by Letters Patent under the Great Seal of the United Kingdom of Great Britain and Ireland bearing date the first day of June of this year, to make certain alterations in the constitution of the Most Eminent Order of the Indian Empire, which will for the future consist of three classes.

Her Majesty has been pleased to appoint His Excellency the Right Honorable Lord Reay, C.I.E., Governor of Bombay, His Excellency the Right Honorable Lord Connemara, Governor of Madras, His Excellency General Sir Frederick Sleigh Roberts, Baronet, V.C., G.C.B., K.C.I.E., R.A., Commander-in-Chief in India, to be Knights Grand Commanders of the said Order.

The Queen-Empress has further been pleased to nominate His Royal Highness Albert Edward, Prince of Wales, His Royal Highness Alfred Ernest Albert, Duke of Edinburgh, His Royal Highness Arthur William Patrick Albert, Duke of Connaught and Strathearn, and Field-Marshal His Royal Highness George William Frederick Charles, Duke of Cambridge, to be Extra Knights Grand Commanders of the Order.

By Order of the Grand Master,

H. M. DURAND,

*Secretary to the Most Eminent Order
of the Indian Empire.*

FOREIGN DEPARTMENT.

NOTIFICATIONS.

Simla, the 21st June, 1887.

No. 1132 G.—Lieutenant W. Evans-Gordon, Officiating Political Assistant of the 1st Class, and Attaché in the Foreign Department, is granted privilege leave for three months, with effect from the 21st June, 1887.

The 22nd June, 1887.

No. 1142 G.—Captain W. Hastings, B.S.C., Cantonment Magistrate at Secunderabad, *sub pro tem*, is appointed to be a Special Assistant Commissioner in the Hyderabad Assigned Districts, with effect from the date of assuming charge.

The 23rd June, 1887.

No. 1145 G.—Assistant Surgeon Nripendra Chandra Mukerji, of the North-Western Provinces Establishment, is appointed to officiate as Residency Surgeon in Nipal, with effect from the date of joining, during the absence on special leave of Surgeon G. H. D. Gimlette, or until further orders.

The 24th June, 1887.

No. 1150 G.—Major W. F. Hume, Wing Commander and 2nd-in-Command of the 28th Regiment of Bombay Infantry, is appointed to be the Cantonment Magistrate of the cantonment of Baroda, in addition to his military duties, and with effect from the forenoon of the 12th May, 1887.

No. 1151 G.—The Governor-General in Council is pleased to invest Major W. F. Hume, Cantonment Magistrate of the cantonment of Baroda, with the ordinary powers of a Magistrate of the 1st Class, as described in the Code of Criminal Procedure, and with the additional powers specified in Schedule IV of the Code as powers with which a Magistrate of the 1st Class may be invested by the Local Government, and to direct that the said powers be exercised within the limits of the cantonment of Baroda, this Notification having effect from the forenoon of the 12th May, 1887.

The 21st June, 1887.

No. 2736 I.—The Governor-General in Council has received with much satisfaction the information that the Chief of Mudhol in the Southern Mahratta Country in the Bombay Presidency has abolished imposts upon trade in his territory.

The 24th June, 1887.

J. WESTLAND,

Offg. Secretary to the Government of India.

MILITARY DEPARTMENT.

Simla, the 20th June, 1887.

SPECIAL.

No. 459.—In commemoration of the Jubilee Anniversary of the Accession of Her Majesty Queen Victoria, Empress of India, the 21st of June, 1887, is appointed to be observed as a holiday by the Armies of India.

A Salute of 50 guns will be fired at daybreak of the 21st instant from all Forts and Batteries from which Salutes are usually fired.

As a mark of Royal clemency on this occasion, it will be announced, in the General Orders of His Excellency the Commander-in-Chief in India, that an amnesty will be granted to particular classes of Military offenders in the British Army, and the release of Military prisoners of the British Army will take place, who on the 21st instant may be undergoing sentences of imprisonment for the offences specified in the orders of the Commander-in-Chief in India of this date.

In the Native Army all soldiers undergoing sentence of Court-Martial in military custody will be released, and all regimental prisoners and defaulters of the British and Native Armies will be excused further punishment.

The Viceroy and Governor-General in Council has much gratification in announcing that, as a token of the appreciation in which the services of the Native Officers of the Army in India are held by Her Majesty the Queen, Empress of India, and in commemoration of Her Jubilee, the Right Hon'ble the Secretary of State has

been pleased, on the recommendation of the Government of India, to sanction an increase to the Order of British India of fifty appointments to the Second Class of the Order. The increased establishment will stand as follows :

	1st Class.	2nd Class.	Total.
Bengal, including Punjab Frontier Force, the Hyderabad Contingent, and the Local Corps	88	118	206
Madras	53	63	116
Bombay	34	44	78
Total	175	225	400

The 24th June, 1887.

PUBLIC WORKS DEPARTMENT.

NOTIFICATIONS.

Simla, the 20th June, 1887.

No. 204.—The Governor-General in Council is pleased to notify that on the 21st of June, 1887, which is to be observed as a public holiday in honor of the Jubilee of Her Majesty's Reign, the Offices of the Government Telegraph Department will work as on Sundays and other specified holidays, under the conditions published in Rule 2 of Public Works Department Gazette Notification No. 146, dated 4th June, 1886.

The 23rd June, 1887.

No. 205.—Mr. G. W. Sweet, Deputy Examiner of Accounts, is transferred from the Office of the Examiner of Public Works Accounts, Bengal, to that of the Examiner of Accounts, North-Western Railway.

No. 206.—Mr. H. H. Buckland is appointed on probation to Class III of the Superior Revenue Establishment of State Railways, Locomotive Department.

No. 210.—The Governor-General in Council is pleased to order the following promotion, with effect from the date specified :

Name.	From	To	With effect from
Mr F. E. Robertson	Executive Engineer, 1st Grade	Superintending Engineer, 3rd Class, <i>temporary rank.</i>	10th June, 1887.

No. 211.—The following is published for general information :

No. 1219 G., dated 24th June, 1887.

RESOLUTION—By the Government of India, Public Works Department.

Sind-Pishin Railway.—Grant of a bonus or special leave to the staff employed on its construction.

Read—

Letters from Director-General of Railways, Nos. 724E. and 764E, of 21st and 25th April, 1887, respectively.

OBSERVATIONS.—With the letters read, the Director-General of Railways forwards communications from Brigadier-General J. Browne, C.B., C.S.I., R.E., late Engineer-in-Chief, Sind-Pishin State Railway, reporting that on the 14th March, 1887, the rails were linked throughout from Sibi to Quetta *via* Hurnai, a distance of 155 miles; also throughout the 43 miles from Bostan to Gulistan and Killa Abdulla.

Brigadier-General Browne brings to notice the many hardships cheerfully endured by the staff under him, the great self-sacrifice displayed and the many great and disheartening difficulties successfully overcome under circumstances which, in his opinion, have seldom had a parallel; and for these reasons he asks that the Government of India may be pleased to accord its approval of their exertions by the grant of some fitting recognition of the services of the staff employed. The Director-General of Railways endorses this recommendation.

RESOLUTION.—The Governor-General in Council heartily congratulates Brigadier-General Browne and his staff on the satisfactory completion, in the face of grave difficulties, of this great work, and desires that the thanks of the Government of India may be communicated to him and to the Engineering and Subordinate staff who have been associated with him.

2. The names of the following officers have been brought forward as conspicuously deserving of praise :

Major W. Shepherd, R.E., Superintending Engineer, Class III (*temporary rank*).

Mr. Buckland's services are placed at the disposal of the Director-General of Railways.

No. 207.—Mr. F. K. Cunliffe, Class III, Superior Revenue Establishment of State Railways, Stores Department, is transferred from the Establishment under the control of the Government of Bengal to that under the Director-General of Railways.

No. 208.—Mr. H. A. D. Wathen, Deputy Examiner, held charge of the Office of Examiner of Guaranteed Railway Accounts, Madras, in addition to his own duties, from the 21st April to the 20th May, 1887, both days inclusive, consequent on the departure of Major J. S. Biscoe, S.C., on furlough.

The 24th June, 1887.

No. 209.—His Excellency the Governor-General in Council is pleased to order the abolition of the Office of the Port Storekeeper, State Railway Department, Karachi, with effect from the 30th June, 1887.

Mr. G. G. Hiley, the present Port Storekeeper, is appointed Chief Storekeeper of the North-Western Railway.

Mr. J. Ramsay, Superintending Engineer, Class III (temporary).
Captain C. Hoskins, R.E., Executive Engineer, 2nd Grade (since reverted to Imperial duty).
Captain W. W. B. Whiteford, R.E., Executive Engineer, 2nd Grade.
Captain B. Scott, R.E., Executive Engineer, 3rd Grade.
Captain G. Davidson, R.E., Executive Engineer, 4th Grade (Military Works Department).
Mr. R. J. Woods, Executive Engineer, 4th Grade (temporary rank).
Mr. G. P. Rose, C.E., Executive Engineer, 4th Grade, temporary rank (on leave).
Captain G. K. Scott-Moncrieff, Executive Engineer, 4th Grade, temporary rank (since reverted to Imperial duty).
Mr. F. J. Pope, Executive Engineer, 4th Grade, temporary rank (on leave).
Mr. E. H. Tuck, Executive Engineer, 4th Grade (temporary rank).
Mr. W. A. Johns, Assistant Engineer, 1st Grade.
Mr. C. J. Cole, Assistant Engineer, 1st Grade.
Lieutenant C. H. Cowie, R.E., Assistant Engineer, 1st Grade.
Lieutenant E. J. Capper, R.E., Assistant Engineer, 1st Grade, temporary rank (in Military Works Department).
Lieutenant S. L. Craster, R.E., Assistant Engineer, 2nd Grade.
Lieutenant E. W. Walton, R.E., Assistant Engineer, 2nd Grade.
Surgeon R. R. Weir, I.M.D.

3. As a further mark of appreciation and as an expression of sympathy with the hardships undergone, and in recognition of excellent service rendered, the Secretary of State has, on the recommendation of the Government of India, sanctioned for Brigadier-General Browne, and those of the staff employed under him on construction work who are recommended for it, a bonus at the following rates, *viz.* :

One month's pay to officers, &c, who have served over six months and not more than eighteen months.

Two months' pay to officers, &c, who have served from eighteen months to thirty months.

Three months' pay to officers, &c, who have served over thirty months.

The bonus will be at Frontier rates of pay: or in lieu of the bonus special leave may be granted on the same scale as to periods, on full pay; and in other respects on conditions identical with those granted in the case of the Bolan Railway. The leave must be taken within three months from date of this Order.

ORDER.—Ordered, that a copy of this Resolution be forwarded to the Director-General of Railways for communication to the Engineer-in-Chief, Sind-Pishin Railway, and that it be published in the *Gazette of India*.

R. C. B. PEMBERTON, Colonel, R.E.,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
REVENUE AND AGRICULTURAL DEPARTMENT.

INTERNATIONAL EXHIBITION OF INDUSTRY, SCIENCE AND ART, TO BE HELD
IN GLASGOW IN 1888.

Circular No. $\frac{9Ex.}{7A-22}$

Extract from the Proceedings of the Government of India in the Revenue and Agricultural Department (Museums and Exhibitions),—under date Simla, the 20th June, 1887.

Read the following Despatch, with enclosures, from Her Majesty's Secretary of State for India, regarding the International Exhibition of Industry, Science and Art, to be held in Glasgow during the summer of 1888 :

No. 50 (Statistics and Commerce), dated India Office, London, 28th April, 1887.

From—Her Majesty's Secretary of State for India,

To—His Excellency the Right Honourable the Governor-General of India in Council.

I forward herewith a copy of a letter, and its enclosure, from Sir Archibald Campbell Campbell, Bart., M.P., and the Honourable the Lord-Provost of Glasgow, for the information of Your Excellency, and for such measures as you may see fit to take, with a view to give publicity to the proposal they announce for holding an International Exhibition at Glasgow during the summer of 1888.

No. 488, dated Glasgow, March 1887.

From—Sir Archibald C Campbell, Bart., President, and the Hon'ble James King, Chairman, Executive Council, International Exhibition of Industry, Science and Art, Glasgow,

To—Her Majesty's Secretary of State for India.

We have the honour to inform Your Lordship that an International Exhibition of Industry, Science and Art is to be held in Glasgow during the summer of 1888.

We enclose a list of the Executive Council, from which Your Lordship will see that the project is to be guided by the leading Noblemen and Gentlemen of Scotland, as well as by the most influential of the Citizens of Glasgow.

To show the interest taken in the proposed Exhibition, we may mention that the Guarantee Fund amounts to over £227,000, being larger than that raised by any previous Exhibition.

As Glasgow may be regarded as the Commercial Capital of Scotland, it is of the utmost importance that exhibits of Indian industries and arts should be collected for the information and education of the people.

Recognizing the great advantages which would accrue to the Exhibition through the support of Her Majesty's Government, we beg most respectfully to bring it under Your Lordship's notice, in the hope that you may be pleased to take measures for having the Exhibition made known throughout the Indian Empire by the India Office.

INTERNATIONAL EXHIBITION OF INDUSTRY, SCIENCE AND ART,
KELVINGROVE PARK, GLASGOW, 1888.

Under the patronage of Her Most Gracious Majesty the Queen.

TO PATENTEES.

PATENTS, DESIGNS, AND TRADE MARKS.

46 & 47 VIC., CAP. 57.]

[A.D. 1883.]

An Act to amend and Consolidate the Law relating to Patents for Inventions, Registration of Designs, and of Trade Marks.

* * * * *

PART II.—PATENTS.

39. The Exhibition of an invention at an Industrial or International Exhibition, certified as such by the Board of Trade, or the publication of any description of the invention during the period of the holding of the Exhibition, or the use of the invention for the purpose of the Exhibition in the place where the Exhibition is held, or the use of the invention during the period of the holding of the Exhibition by any person elsewhere without the privity or consent of the inventor, shall not prejudice the right of the inventor or his legal personal representative to apply for and obtain provisional protection and a patent in respect of the invention or the validity of any patent granted on the application, provided that both the following conditions are complied with, namely.

- (a) The Exhibitor must, before exhibiting the invention, give the Comptroller the prescribed notice of his intention to do so; and
- (b) The application for a patent must be made before or within six months from the date of the opening of the Exhibition.

* * * * *

PART III.—DESIGNS.

57. The Exhibition, at an Industrial or International Exhibition, certified as such by the Board of Trade, or the Exhibition elsewhere during the period of the holding of the Exhibition, without the privity or consent of the proprietor, of a design, or of any article to which a design is applied, or the publication, during the holding of any such Exhibition, of a description of a design, shall not prevent the design from being registered or invalidate the registration thereof, provided that both the following conditions are complied with, namely.

- (a) The Exhibitor must, before exhibiting the design or article, or publishing a description of the design, give the Comptroller the prescribed notice of his intention to do so; and
- (b) The application for registration must be made before or within six months from the date of the opening of the Exhibition.

—
"Patents, Designs, and Trade Marks Act, 1883."
 —

"Upon the application of Mr. William M. Cunningham, of 27, St. Vincent Place, Glasgow, made to the Board of Trade on the Eleventh day of March, 1887, the Board of Trade do hereby certify that the INTERNATIONAL EXHIBITION OF INDUSTRY, SCIENCE AND ART, proposed to be held in the year 1888 at Kelvingrove Park, Glasgow, is an International Exhibition.

"Signed by order of the Board of Trade this Fifteenth day of March, 1887.

"COURTENAY BOYLE,

"Assistant Secretary, Board of Trade."

PROSPECTUS.

It has been decided to hold an International Exhibition at Glasgow during the Summer of 1888, and Her Majesty the Queen has been graciously pleased to lend her Royal patronage to the undertaking.

The proposal has been taken up by the Nobility and Gentry of Scotland, and by the Citizens of Glasgow and other Towns, with such general approval that the Guarantee Fund already exceeds £235,000, and is still being increased.

The City of Glasgow is situated in the centre of the Chief Industries of Scotland, and has, including its suburbs, a population of 761,000, and including the surrounding district and neighbouring towns, a population exceeding 1,500,000. Edinburgh and other centres of population are within one hour's journey, and the Tourist routes to the Western Highlands radiate from Glasgow.

The objects of the Exhibition are to promote and foster Industry, Science and Art, by inciting the inventive genius of our people to a still further development in Arts and Manufactures, and to stimulate Commercial Enterprise, by inviting all Nations to exhibit their Products, both in the raw and finished state. Examples of the Manufactures by which Glasgow and the surrounding districts have become famous—Chemical, Iron, and other Mineral Products, Engineering, Shipbuilding, Electrical and Scientific Appliances, and Textile Fabrics—will be exhibited both in process of manufacture and in the finished state.

Similar and more varied Exhibits may be expected from other parts of Great Britain and from the Continent, whilst from America, India, the Canadian, Australian, Cape and other Colonies, promises of substantial support have been received.

A Fine Art Section will form an important part of the Exhibition. For the accommodation of the Art Treasures and Historical Objects a special block of the building will be reserved; and the most ample precautions will be taken for the security of valuable property lent for the purposes of the Exhibition. A special Prospectus, Classification, and series of Regulations will be issued for this Section.

Two Sections—viz., "The Women's Industries Section" and the "Artisan Section"—will be special features, and, in connection with the former, Her Grace the Duchess of Abercorn is Convener for Ireland, the Right Hon. the Countess of Rosebery for England and Wales, and the Hon. Lady Campbell, of Blythswood, and Mrs. King for Scotland, the Colonies, and Foreign Countries.

The site which has been granted by the City Corporation for the Exhibition Buildings extends to 60 acres, and is one of exceptional beauty and convenience. It comprises the Western portion of the Kelvingrove Park and the slopes of Gilmorchill, which are crowned by the University Buildings.

The Buildings which it is proposed to construct will cover about 10 acres, and will be erected according to plans prepared by eminent architects. The ornamental flower plots, pond, and fountains of the Kelvingrove Park will be included in the Exhibition Grounds, and the terraces in front of the University Buildings are well adapted for the effective display of electric lighting and pyrotechnic illuminations, as well as for the enjoyment of musical promenades and other entertainments which it is intended to provide.

The River Kelvin, which intersects the grounds, will be available for the Exhibition of Naval Shipbuilding and Life-Saving Apparatus, either in motion or not. The reach of the river which can be utilised for this purpose has a length of 1,500 feet, a width of 90 feet, and a depth of 6 feet.

The situation of the Exhibition Buildings is specially convenient of access for Exhibitors, as by means of the lines of rails—which can be made use of at night for the passage of railway trucks, and which will, if possible, be carried into the Exhibition Grounds at more than one point—heavy goods can be delivered at a minimum cost and with the least possible amount of risk. In addition to this, the port of Glasgow offers a cheap and ready means for the delivery and redelivery of sea-borne goods.

It is intended to afford full postal, telephonic, telegraphic, and banking facilities within the Exhibition Buildings, so that all necessary business may be conducted by Exhibitors and others without leaving the premises.

The whole arrangements are in the hands of the Executive Council, which has been chosen from the General Council of Guarantors, and has for its Chairman the Hon. the Lord-Provost of Glasgow.

GLASGOW, *April*, 1887.

President :

SIR ARCHIBALD CAMPBELL CAMPBELL, OF BLYTHSWOOD, BARONET, M.P.

Vice-Presidents :

HIS GRACE THE DUKE OF HAMILTON AND BRANDON, K.T.

Regulations for Exhibitors.

1. AN INTERNATIONAL EXHIBITION OF INDUSTRY, SCIENCE AND ART, under the patronage of Her Majesty the Queen, will be held in Glasgow in 1888.
Date.
2. The Exhibition will be opened early in May, and will continue open for a period of about six months.
Opening.
3. The principal objects to be exhibited are comprised in the accompanying Classification, which must not be considered to be exhaustive.
Objects.
4. It is not intended to issue any Awards.
5. Charge will be made for space, except in special cases to be determined by the Executive Council. The charge for space inside the Building will be 2s. per square foot, with a minimum charge of £2 10s. Whatever vacant space Exhibitors require around their Exhibits, beyond the usual passages, will have to be paid for, and Exhibitors requiring

wall-space must mention the fact when making application, when they will be informed on what conditions it will be granted. Space in the grounds will be let at rates to be arranged, by the Committee, but in such cases plans must accompany application, and all surface damage must be made good by the Exhibitor on removal. Payment to the extent of 25 per cent. of the amount payable must accompany the application, and the balance must be forwarded on receipt of the notice of allotment. In no case, however, can the deposit be less than the minimum charge of £2 10s. Exhibits will on no account be allowed to be placed unless payment has been arranged. Spaces not occupied seven days previously to the opening of the Exhibition will be otherwise allotted, and all payments made in respect thereof absolutely forfeited. Exhibitors will have to pay all expenses of conveying, delivering, arranging, fixing, and removing their Exhibits, and also the cost of the erection of all fixtures, screens, and counters when required; and they must personally, or by a representative, superintend the transmission, reception, unpacking, installation, and (at the close of the Exhibition) the removal of their goods. The Executive Council reserve to themselves the right of doing whatever may be considered necessary at the expense of the Exhibitor, unless this regulation is strictly complied with. Should any goods be deposited in the Exhibition premises during the absence of the Exhibitor or his representative, the Executive Council will not be responsible for any loss or damage from whatever cause arising.

6. Motive Power, gas and water, will be supplied by the Executive Council free of charge within certain limits, and subject to certain regulations. Exhibitors requiring motive power must fill up the special Application Form which has been prepared for this Section, and which will be supplied by the Secretary upon application. Exhibitors requiring Counter Shafting, Pulleys, and Belting, must supply these at their own expense.

7. Schedules of Application for space may be had from the Secretary, W. M. Cunningham, 27, St. Vincent Place, Glasgow. Applications to Exhibit These must be filled up and returned on or before 1st October, 1887. The decision of the Space Committee will be notified as soon as possible after that date.

8. The nature of the articles which it is proposed to exhibit must be fully specified in the Form of Application for space.

9. The Executive Council reserve the right to refuse any Exhibit, without stating any reason for so doing.

10. The Foreign and Colonial Commissioners appointed by the respective Governments are invited to communicate with the Secretary. The Executive Council will place at their disposal all information and plans that may be useful to them.

11. Applicants for space from Countries in which no Commissioner has been appointed will correspond directly with the Secretary.

12. The Executive Council will endeavour to obtain from the various Railways and Carriers special terms for the conveyance of Exhibitors' goods to and from the Exhibition, and these arrangements will be communicated to intending Exhibitors.

13. All packages containing goods for Exhibition must have painted on them the

Marks on Packages.

distinctive Mark

together with the

name and address of the Exhibitor, and the allotment number of the space. Labels for this purpose will be supplied to each Exhibitor.

14. Packages from Foreign Countries must likewise have painted on them the distinctive mark.
Marks on Foreign Packages.

They must also be marked in such a way as to show distinctly the name

of the Exhibitor and the country from whence they come, as well as the allotment number of the space.

15. No Case, Counter, Platform, Screen or Partition must (without special permission) exceed the following dimensions :

Dimensions of Cases, &c.	
Show cases and partitions	10 feet above the floor.
Counters	2 feet 6 inches above the floor.
Platforms	1 foot above the floor.

16. Exhibitors may erect Railings around their Stands, and provide Canopies, subject to approval, in every instance these Railings and Canopies must be within the area of the space allotted. In the case of machinery in motion, it is imperative that it be sufficiently railed.
Railings and Canopies.

17. The Flooring must not be altered, removed, or strengthened, except by sanction of the Executive Council, and at the expense of the Exhibitor.
Flooring.

18. No Exhibitor will be permitted to display Exhibits in such a manner as to obstruct the light, or project beyond the space allotted, or impede the view along the open spaces, or occasion injury or inconvenience to other Exhibitors.
Obstructions.

19. In order to insure uniformity of decoration, no Exhibitor will be allowed to put up flags, banners, or other kind of decoration without permission, and for covering counters, screens, or partitions, a material will be selected, which may be bought by Exhibitors at the building.
Decorations.

20. Signs or Name-boards must be placed to the satisfaction of the Space Committee, and must in no case interfere with the lighting. They must be black, with gold letters.
Sign-boards.

21. All Hand-bills, Printed Matter, &c., connected with Exhibits, and intended for gratuitous distribution, must first receive the approval and authority of the Executive Council, which permission may be withdrawn at any time.
Hand-bills.

22. Cases must be unpacked immediately on arrival, and the empty cases removed by the Exhibitors or their Agents. The Executive Council cannot accept any responsibility with reference to empty cases, which must be at once removed from the buildings at the expense of the Exhibitors. The Executive Council reserve to themselves the right of doing whatever may be considered necessary, at the expense of the Exhibitors, unless this rule is strictly complied with.
Empty Cases.

23. Exhibitors will be required to provide all necessary attendance, and to keep their Stands and Exhibits properly cleaned and in good order during the whole period of the Exhibition. The Executive Council reserve the right to impose a penalty for a breach of this regulation, and to order the removal of any Attendant whose behaviour they consider unseemly.
Attendance.

24. No Exhibitor will be allowed to transfer any portion of the space allotted to him, or to allow any other than his own duly-admitted Exhibits to be placed thereon, except by permission of the Executive Council.
Non-transfer of Space.

25. All Goods must be exhibited in the name of the individual or Firm signing the Application Form.
Name.

26. Exhibitors are requested to mark the selling price of the articles exhibited for the information of visitors, to whom they may explain their Exhibits; but they will in all cases be forbidden, unless special permission in writing has been obtained from the Executive Council, to invite or to allow visitors to purchase goods for removal at the time of purchase, the Exhibition being intended for the purposes of display. Orders can be
Selling.

taken within the Exhibition, but the goods must be delivered from establishments outside. Special Regulations will, however, be made with regard to perishable articles manufactured in the Exhibition.

27. No Exhibit or part thereof can be removed before the close of the Exhibition without the special permission of the Executive Council. Exhibits not removed within fifteen

Removal.*

days after the close of the Exhibition will be warehoused at the cost and risk of the owners, and whatever may remain after three months will be sold by auction, and the proceeds applied to defray expenses.

28. No goods will be received prior to March, 1888, without special permission, nor after 20th April, 1888, but prior arrangements may be made for Motors, Boilers, or any

Date of Reception.

Exhibits requiring under-building.

29. Special care will be required by the Executive Council, who may make special regulations, in cases where Fire or Gas is used by Exhibitors, and a responsible officer will be

Fire Risk.

appointed to carry out the injunctions of the Council in this respect. Exhibitors will require to effect their own insurance on their Exhibits.

30. No explosives, or any substances which in the judgment of the Executive are dangerous, will be admitted, but they may be represented by models.

Dangerous Substances.

31. Spirits, oils, corrosive substances, and generally all substances which might spoil other articles or inconvenience the public, can only be exhibited in solid and suitable

Spirits, Oils, &c.

vessels.

32. The Executive Council reserve to themselves the right of examining or testing any of the Exhibits. If any damage or injury shall be occasioned during the Exhibition by

Testing. Damage caused by Exhibits.

any exhibited machine, implement, or article to any visitor or other person, then the Exhibitor to whom such machinery, implement, or article may belong, shall be responsible for in the first instance, and shall besides indemnify and hold harmless the said Council from or against all actions, suits, expenses, and claims on account or in respect of any such damage or injury which may be so caused

33. No article exhibited may be copied, photographed, drawn, or reproduced in any manner without the special permission of the Exhibitor and of the Executive Council.

Photography, &c.

34. Passes to the Exhibition will be granted to Exhibitors and to a reasonable number of attendants. If these Passes be used by any but those to whom they are issued, they will

Passes.

be immediately cancelled.

35. The Executive Council reserve to themselves the sole right of compiling and printing a Catalogue of Exhibits, under Regulations which will be duly notified.

Catalogue.

36. The right to alter, amend, add to, or cancel any of these Rules, is reserved by the Executive Council.

Right to alter Rules.

37. All who become Exhibitors shall be held by so doing to signify their compliance with the whole of these Regulations, together with such other Regulations as the Executive

Rules binding.

Council may issue from time to time.

38. The Executive Council reserve the right to remove the Exhibits of any one who does not conform to the Regulations.

Right of Removal.

39. The Executive Council will not be responsible for loss or damage occurring from any cause whatsoever to any Exhibit or other property belonging to any Exhibitor or

Non-Liability.

any other person.

The following are the Headings of the Classification of Exhibits:

Class I.—Agriculture, Horticulture, and Arboriculture.

Class II.—Mining and Metallurgy; Minerals; Quarrying and Fuel.

Class III.—Civil Engineering, Construction, and Architecture; Sanitary Appliances; Aeronautics.

- Class IV.—Naval Architecture and Engineering.
- Class V.—Prime Movers and means of Distributing their Power; Railway Plant.
- Class VI.—Machinery; Machine Tools; Hydraulic Machines, and Machines for Raising Heavy Weights; Elements of Machines; Furnaces.
- Class VII.—Road Carriages; Bicycles; Tricycles; Ambulance.
- Class VIII.—Cutlery and Ironmongery; Fire Arms; Military Weapons.
- Class IX.—Heating and Cooking Apparatus.
- Class X.—Gas and Illuminants (other than Electricity).
- Class XI.—Electricity.
- Class XII.—Chemistry and Apparatus, Processes, and Appliances connected with Applied Chemistry and Physics; Philosophical Instruments and Apparatus.
- Class XIII.—Food (including Drinks).
- Class XIV.—Textile Fabrics; Leather; India-Rubber and Gutta-Percha; Clothing.
- Class XV.—Paper; Printing; Bookbinding and Stationery.
- Class XVI.—Furniture and Decoration; Fancy Goods.
- Class XVII.—Pottery and Glass.
- Class XVIII.—Jewellery; Clocks, Watches, and other Timekeepers.
- Class XIX.—Fisheries.
- Class XX.—Education, and Apparatus for Physical Training.
- Class XXI.—Music and Musical Instruments.
- Class XXII.—Fine Arts (including Photography, Engraving, &c.).
- Women's Industries Section.
- Artisan Section.

In the Fine Art Section, Women's Industries Section, and Artisan Section, the space will be given free. In all the other Sections, space will be charged for, at the rate of 2s. per square foot.

Read also the following Notification, dated the 22nd April, 1887, issued by Messrs. Finlay, Muir & Co., on behalf of the Glasgow Exhibition Executive Council:

Glasgow International Exhibition.

An International Exhibition will be opened at Glasgow in May, 1888, for which specimens of art-exhibits will be received from private exhibitors.

2. Besides articles which will be displayed at the Exhibition during the whole time it is kept open, extra sets of art-manufactures will be accepted for sale and immediate delivery to purchasers. Stalls will be opened at the Exhibition for the sale of such articles. The price of articles sold either at the Exhibition or in the stalls will be at once realised and remitted to the exhibitors in India every week or fortnight, as it may be found convenient.

3. Articles of inferior workmanship, or articles on which an undue price has been put, will not be accepted.

4. Applications for space should be made in the accompanying form before the 1st of July next. If the exhibits are approved, space will be given free.

5. The Exhibition authorities undertake to pay freight of such exhibits from Calcutta, Bombay, or Madras to Glasgow, and the same of unsold articles returned from Glasgow to the above-mentioned ports. Inland freight in India must be borne by the exhibitor.

6. All exhibits must be despatched from India before the 1st of January, 1888.

7. The authorities of the Glasgow International Exhibition have, with the permission of the Government of India and the Trustees of the Indian Museum, entrusted the general

arrangements of the Indian Section of this Exhibition to Mr. T. N. Mukharji, F.L.S., Assistant Curator, Economic and Art Museum, Calcutta, and the collection of exhibits from the different Provinces of India, except Madras and Bombay, Committees having been appointed to look after the representation of these Presidencies.

For the whole of India the entire working of the following Departments has been left in the hands of Mr. Mukharji:

Products (Raw, &c, Native Shops, &c).

Ethnology (Types, Models, &c.).

Tea, Coffee, and Cigar Rooms.

8. The following are the Committees :

For Madras—

Dr. G. Bidie, M.B, F.L.S., C.I.E, Surgeon-General with the Government of Madras.

Dr. E. Thurston, L.R.C.P., L.R.C.S.E., Superintendent, Central Museum.

Mr. E. B. Havell, Principal, School of Art.

Mr. G. Jackson, of Messrs. Gordon, Woodroffe & Co, to whom all communications should be addressed.

For Bombay—

Hon. Forbes Adam (Chairman).

Sir Jamsetjee Jeejeebhoy.

Mr. Jirazbhoy Peerbhoy.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING 23rd JUNE, 1887.

GENERAL REMARKS.—Except in the Punjab, Madras, and Rajputana, where the rain has been slight, there has been generally a good fall throughout the country during the week under report.

Kharif sowings are most advanced in Bombay and the Central Provinces; in the North-Western Provinces and Oudh, the Punjab, Berar and Hyderabad, and Central India and Rajputana, the preparation of the land for the *kharif* crops is being actively prosecuted.

In Madras, Mysore and Coorg agricultural prospects are good.

The autumn sowings are progressing well in Bengal, where the early rice is also thriving. Rice is being sown in Bombay, the Central Provinces, Coorg, and in Burma ploughing for the crop is well advanced. In Assam three varieties of rice are being reaped, and the cultivation of a fourth is progressing.

Heavy rain in Bengal has done some injury to indigo; but in the North-Western Provinces and Oudh the prospect of the crop is good.

Sugarcane is doing well in the North-Western Provinces and Oudh.

Cotton-sowing has commenced in Berar.

The public health is generally fair, though cholera is more or less prevalent everywhere, but especially in Bombay and the North-Western Provinces and Oudh, where the mortality in a few districts is still high.

Prices continue to rise in the North-Western Provinces and Oudh and in two districts in the Punjab. Elsewhere they are generally stationary.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Madras—(June 22nd)		
Bellary	Average last week since revised, '37; this week, '15.	Standing crops generally good. Cholera decreasing in four and cattle-disease also decreasing in two taluks.
Kurnool	Average last week since revised, '32; this week, '60.	More rain wanted. Agricultural operations progressing. Cholera abating. Small-pox in three, and cattle-disease decreasing in six taluks.
Ganjam	Average 2'12	Small-pox in four and fever in two divisions. Cholera decreasing, and cattle-disease in two taluks.
Kistna	Average 2'36	Harvest crops on sides of irrigation channels, outturn below average. River 12 feet over Anicut. Slight fever prevalent. Cholera decreasing in three and cattle-disease increasing in six taluks.
Chingleput (Madras) .	Average '10	Standing crops fair, but withered to some extent. Harvest wet and dry crops, outturn indifferent. Small-pox prevalent, and cattle-disease decreasing in three taluks.
Coimbatore	Average '28	Standing dry crops good. Harvest <i>chicum</i> and <i>cumbu</i> , outturn above average. Fever and cattle-disease prevalent.
Tanjore	Average '15	Standing crops generally good. Harvest paddy and gingelly, outturn below average. Slight cattle-disease in one taluk.
Madura	Average '07	Slight cattle-disease in one taluk.
Malabar	Average 11'57	Agricultural operations progressing. Fever in two and slight small-pox in eight taluks.
Travancore	5'05	Paddy thriving. Small-pox and fever in places.
Bombay—(June 22nd)		
Karachi		River at Kotri on 19th, 11 feet 6 inches against 11 feet 4 inches on same date last year. Fever in four and cattle-disease in one taluka. Wheat, red rice and <i>bagri</i> in Karachi 22, 30 and 32 and in Tatta 24, 40 and 40 pounds per rupee, respectively.
Hyderabad	Badin, '07	<i>Rabi</i> harvesting continues in two talukas. <i>Kharif</i> cultivation in progress. Fever in three, small-pox in two, and cattle-disease in one taluka. River at Kotri on 19th, 11 feet 6 inches against 11 feet 4 inches on same date last year. Wheat 24, <i>bagri</i> 37½, <i>jowari</i> 40, white rice 20, and red rice 30 pounds per rupee.
Ahmedabad	5'35; total 5'00; rain in all the talukas—maximum 9'10 in Gogha and minimum 1'07 in Dhandhuka.	Ploughing for <i>kharif</i> in progress throughout the district. Public health good. Wheat 29 and <i>bagri</i> 30 pounds per rupee.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Bombay—contd.		
Batoda Surat	Maximum 9 59 in Jalalpure and minimum 3 60 in Choras	No report received. Sowing operations continue. Fever in Bardoli and cholera in some villages of Pardi and Bulsar talukas. <i>Jowari</i> 35 and <i>negli</i> 42 pounds per rupee.
Nasik	Rain throughout the district—maximum 12 74 in Igatpuri and minimum 9 61 in Chandor.	Preparation for <i>kharif</i> sowing in progress throughout the district. Small-pox in Yeola taluka Cholera in Yeola, Malegaon, and Nandgaon talukas, 216 attacks, 91 deaths. Prices stationary.
Colaba (Bombay) . .	Rain on 15th, 16th and 21st, heavy on 15th and 16th, 5 49, total 19 70, being 4 34 above average	Abnormal temperature rose from 6° cool on 15th to 1° cool on 17th, remained 1° cool on 18th, and was <i>nil</i> from 19th to 21st. Vapour in air normal Abnormal wind westerly from 15th to 17th. Wind normal from 18th to 21st
Poona	Rain throughout the district, maximum 5 51 in Petha Mohi and minimum 1 6 in Petha Bara-miti	More rain wanted in Indapur, Sirur, Bhimthari, and Haveli talukas Cholera, 11 cases, 6 fatal Cattle-disease in Indapur and Purandhar talukas <i>Bajri</i> 43 and <i>jowari</i> 53 pounds in the district, and <i>bajri</i> 37 and <i>jowari</i> 48 pounds per rupee in Poona city
Ahmednagar	Rahuri, 1 54, Patner, 90, New 151, 87, Shrogaon, and Kopergaon, 74, Singamner, 49, and Akola, 48, very slight in rest	Rain required for <i>kharif</i> sowings Cholera in seven talukas, attacks 353, deaths 153. <i>Bajri</i> 33 and <i>jowari</i> 54 pounds per rupee
Sholapur	Sholapur, 66, Baisi, 103, Madha, 13, and Pandharpur, 104.	Sowing operations retarded for want of sufficient rain Cattle-disease in Sholapur, Baisi, Pandharpur, and Sangola talukas. Cholera here and there in the whole district, 542 attacks, 221 fatal. <i>Jowari</i> 57 and <i>bajri</i> 49½ pounds per rupee
Dharwar	Rain general, maximum 3 75 in Hingal and minimum 13 in Ron	Sowing of rice commenced in some talukas Scarcity of fodder in Nargund and of drinking-water in Gadag and Kod talukas Cholera in Gadag and Rimbhannur talukas, 56 cases, 28 fatal Slight cattle-disease in Nargund Petha Rice 23½ and <i>jowari</i> 54½ pounds per rupee
Kanara	Karwar, 16 35, total 52 08, Kumpti, 20 06, Honwar, 19 36, Sursi, 11 54, and Haliyal, 4 11 94, total 3 28	Rice plants thriving Slight fever and cattle-disease in Haliyal and Sursi. Common rice in Karwar and district average 12 cuts per rupee
Rajkot		Weather hot and cloudy Measles in some villages in Und and Jetpur Public health generally good Sowing operations commenced in some places Wheat 25, <i>bajri</i> 24 and <i>jowari</i> 29 pounds per rupee <i>General Remarks</i> —Fair rain throughout the Presidency, except Sind, where slight rain fell in parts of two districts More rain wanted for <i>kharif</i> sowings in parts of the Deccan Sowing operations going on in fifteen districts, and completed in the Tanna and Colaba districts Fever in parts of seven, small-pox in parts of five, and cholera and cattle-disease in parts of eleven districts
Bengal—(June 22nd)		
Chittagong (June 21st)	5 80	Weather seasonable Transplantation goes on Extraordinary high tide at end of May damaged some coast lands in Cox's Bazar Prices stationary. Cholera still reported Public health otherwise good
Dacca	2 71	Weather hot and cloudy. <i>Aman</i> paddy and jute doing well. Rivers rising rapidly Public health good
24-Pergunnahs (Calcutta).	4 56	Weather hot, with occasional rain. Prospects promising. <i>Aus</i> sowings in progress Public health generally good
Khoolna	18	Weather rainy and cloudy Ploughing for <i>aman</i> paddy going on. <i>Aus</i> crop doing well Public health good
Moorshedabad . . .	2 02	Weather very hot and cloudy at intervals. <i>Aman</i> being sown. Jute and sugarcane promising Public health good
Pubna	54	Weather rainy and cloudy. Prospects of crops good. General health good
Dinagepore	8 68	Rain on four days. <i>Bhadai</i> crops have suffered to some extent. No cholera
Rungpore	17 67	Crops damaged by flood Public health fair.
Midnapore	1 94	Prospects excellent
Burdwan	78	Prospects of all crops good Prices low and unchanged. Public health good
Bhagulpore	4 47	Sowing and transplanting begun. <i>Moong</i> crop in the north poor, and mango crop everywhere an utter failure Indigo prospects going off a little Cholera fast abating.
Purneah	6 59	Crops doing well, but indigo and to some extent jute have suffered from heavy rain Sowing and weeding in progress. Public health fair Rivers high.

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Bengal—contd.		
Durbhanga	4.50	Prospects of early rice favourable. <i>Bhados</i> sowings in progress. Prices rising. Cholera still reported from interior
Champanun	1.77	<i>Mahas</i> of indigo has commenced <i>Bhados</i> sowings in progress. Prices stationary Cholera decreasing.
Patna	3.46	Weather hot, with occasional showers. Sowing of <i>bhados</i> crops is being pushed on. In some places <i>mahas</i> and <i>kauni</i> have germinated well. Paddy also being sown Sugarcane promising. Cholera still prevalent in Barh and Bihar subdivisions
Gya	4.63	Weather hot <i>Bhados</i> being sown Cholera, fever and small-pox reported from all the subdivisions
Hazareebagh . . .	Rainfall general and ample	Weather seasonable Agricultural operations in full progress, and prospects favourable General health good.
Cuttack	2.73	Weather cloudy, with occasional showers of rain Rice plants growing well Sowing still going on in many places. Public health generally good Cholera and cattle-disease reported from some parts in interior
General Remarks —Weather hot and cloudy throughout the week. Strong monsoon current is now blowing over the Lower Provinces. Rainfall has been general, and in some of the Northern Bengal districts has been very heavy. Jute, early rice and indigo are generally doing well, but too much rain in North Bengal has done some injury. <i>Aman</i> and <i>bhados</i> sowings going on well Cholera has somewhat abated in the Patna division General health is good		
N.-W. Provinces and Oudh—(June 22nd)		
Benares (June 21st)	1.6 in the district	Prices steady Some cases of cholera and cattle-disease reported.
Ballia (" 20th)	Averaging 2.90	<i>Kharif</i> sowings fairly begun Supplies ample Sporadic cholera on the increase
Gorakhpore (" ")	2.50 at Sadr	Rice sowings commenced Prices stationary Cholera decreased considerably
Farrabad (" 21st)	About 2.00 at Sadr	Supplies sufficient Cholera in all tahsils
Lucknow (" 20th)	1.60	Markets well supplied Prices stationary. Public health good A few cases of cholera reported in district.
Rai Bareilly (" ")	4.90 at Sadr on 15th	Supplies abundant Prices rising Cholera prevailing
Partabgarh (" ")	Run on 15th	Prices stationary Cholera continues
Allahabad (" 21st)	Slight rain in three tahsils on 16th and 17th	Markets full Prices rising slightly Cholera still continues in Trans-Ganges and Trans-Jumna tracts A few cases in the city
Cawnpore (" ")	20 in one tahsil	Weeding of indigo in progress Prices stationary. Cholera in places Cattle disease in four pergunahs
Farakhabad (" ")	Averaging about 1.00 in district	Ploughing commenced Maize and cotton being sown Markets well supplied Prices lowering Itch and fever in one tahsil and sporadic cholera in another.
Sitapur (" 22nd)	From 1.30 to 3.30	Fields being prepared for <i>kharif</i> Prices steady Some cases of cholera reported
Bareilly (" 20th)		Rain partial, but on the whole beneficial Ploughings extensively begun Prices continue to show an upward tendency Health of people and cattle good
Banda (" ")	Rain in seven tahsils	Supplies ample Prices rising Cholera throughout the district Cattle-disease in three villages
Kumaon (" ")	Rain every day	Prices stationary Cholera continues Cattle-disease decreasing
Agra (" ")		Weather hot and cloudy Cane and indigo being irrigated Prices steady Cholera in two tahsils. Small-pox in city
Jhansi (" ")	Slight rain in parts of district	Prices rising. Cholera, deaths exceed 100 a day Small-pox continues
Meerut (" 21st)	Slight rain	Cane and indigo flourishing Prices steady
General Remarks —Rainfall general Ploughing for <i>kharif</i> in progress Cane and indigo crops doing well Supplies ample, though prices are rising Cholera continues to be reported and is severe in Jhansi Cattle disease in a few districts		
Punjab - (June 22nd)		
Hissar (June 21st)		Rain much wanted Health good Prices stationary.
Delhi	1.18	More rain wanted Health good A few cases of cholera Prices slightly rising <i>Kharif</i> ploughings commenced
Umballa	1.89	Cholera abating. Prices stationary. <i>Kharif</i> ploughings in progress.
Jullundur	1.50	Health good. Prices stationary <i>Kharif</i> ploughings in progress.
Ferozepore	1.90	Health good. Prices stationary.
Amritsar	1.40	Health good Prices stationary
Sialkot		No report received.
Lahore	1.90	Health good Prices stationary. <i>Kharif</i> ploughings in progress.
Multan	1.90	Health good Prices stationary <i>Kharif</i> sowings in progress
Rawalpindi	20	More rain wanted. Health good. Prices rising. <i>Kharif</i> sowings commenced.
Shahpur	Slight rain	Health good. Prices high and stationary. <i>Kharif</i> sowings in progress
Dera Ismail Khan .	1.57	Health fair Prices stationary. <i>Rabi</i> outturn much below average.

Presidency or Province and District.	Rainfall for week under report	State of agricultural prospects.
Punjab—contd. Peshawar	Rain wanted Health fair. Prices stationary <i>Kharif</i> sowings in progress <i>General Remarks</i> —Rain has fallen in Delhi, Umballa, Jullundur, Ferozepore, Amritsar, Lahore, Multan, Rawalpindi, Shahpur, and Dera Ismail Khan, and is wanted in Hissar and Peshawar. Health is good, except in Dera Ismail Khan and Peshawar, where it is fair. Prices are slightly rising in Delhi, rising in Rawalpindi, high and stationary in Shahpur, and stationary elsewhere. In Dera Ismail Khan the <i>rabi</i> outturn is below average. Fodder is scarce in Shahpur. <i>Kharif</i> ploughings commenced in Delhi and Rawalpindi, and sowings in progress in Umballa, Jullundur, Lahore, Multan, Shahpur, and Peshawar.
Central Provinces— (June 22nd)		
Nagpur	4 26	Weather rainy Ploughing continues Prices stationary Health good
Jubbulpore	4 22	Heavy thunderstorm on 19th <i>Kharif</i> sowings commenced. Cholera prevalent Prices steady
Saugor	3 20	<i>Kharif</i> operations in progress Health good Prices rising
Seoni	5 34	Weather cloudy and cool Sowings commenced 40 cases of cholera, 20 deaths Prices slightly risen
Hoshangabad	Heavy rain	Weather cool Ploughing in progress Fever prevalent Cholera and small-pox in places Prices steady
Khandwa	1 00	Weather cloudy <i>Kharif</i> sowings commenced Health fair Prices rising
Bilaspur	1 19	Rice sowings progressing Sugarcane favourable Cattle-disease disappearing Trade dull Prices rising
Raipur	5 62	Weather cloudy. Rice sowings progressing favourably Prices steady
Sambalpur (June 18th)	16	Weather cloudy and warm. Rain wanted Ploughing and sowing in progress Cholera in interior Prices rising <i>General Remarks</i> —Good rain has fallen in all districts, except Sambalpur. <i>Kharif</i> sowings in progress Cholera in four districts and fever in one. Prices rising in four districts.
Burma—(June 22nd) Akyab (June 18th)	5 94 (Total rainfall to date 26 75)	Some cattle-disease Ploughing progressing
Bassein	6 84 (Total rainfall to date 21 58)	Some cattle-disease in town
Rangoon Amherst (Moulmein)	12 02 (Total rainfall to date 40 49)	Public health and health of cattle good Ploughing and transplanting progressing Prospect good
Tavoy	11 17 (Total rainfall to date 46 48)	Ploughing progressing Sowings commenced
Pegu	4 00 (Total rainfall to date 37 47)	Sowing progressing Ploughing fairly advanced
Henzada	5 59 (Total rainfall to date 20 54)	Ploughing commenced
Prome	1 02 (Total rainfall to date 8 02)	Slight cholera and cattle-disease Ploughing commenced.
Toungoo	3 16 (Total rainfall to date 15 59)	
Thayetmayo	1 08 (Total rainfall to date 4 47)	
Yemethen Kyaukse Myingyan	1 19	Spring harvest progressing Condition of crops good Slight measles and small-pox Food-supply sufficient and prices ordinary <i>General Remarks</i> —Except some cholera and cattle-disease here and there, the health of Lower Burma is good. Ploughing well advanced and sowings begun. Reports received from five Upper Burma districts. Health generally good, and crop prospects satisfactory.
Assam—(June 22nd) Gauhati (June 21st)	1 84	Weather rainy Public health fair Cattle-disease reported from Beltola. <i>Ahu</i> crop in lowlands being harvested Ploughing land for <i>sadi</i> commenced. Prospects of crops good
Sylhet	14 93	State and prospects of the crops good
Cachar	4 07	Weather cloudy with rain Cultivation of <i>sadi</i> and reaping of <i>dumas</i> and <i>murali</i> crops continue Common rice 11 seers 13½ chittacks per rupee 25 deaths from cholera from Sadr reported
Dibrugarh	3 87	Prospects of tea good Weather agreeable Transplanting of <i>sadi</i> progressing <i>Ahu</i> doing well District healthy

Presidency or Province and District.	Rainfall for week under report.	State of agricultural prospects.
Mysore and Coorg— (June 22nd)		
Bangalore	Rainfall good in Shimoga, Kadur, and Hassan districts, and slight in other parts. 10'72	Standing crops in good condition. Prospects of season fair. More rain needed in the Bangalore district for agricultural operations. Public health good. Cattle-disease and small-pox prevailing in parts. Prices slightly risen in the Bangalore and Hassan districts. Sowing of rice lands for <i>kurtika</i> (autumn) crops in active progress. Rains somewhat excessive. Small-pox much abated.
Mysore		
Mercara		
Berar and Hyderabad— (June 22nd)		
Amraoti	4'24	Weather cloudy and rainy. Monsoon apparently commenced. Sowing of cotton in progress. Slight sickness in Amraoti taluk only. Wheat 15 and <i>jowari</i> 25 seers per rupee.
Akola	2'10	Weather cloudy and close. More rain expected. Ploughing continues and sowing has commenced in places. Cattle-disease and small-pox prevalent. Cholera still reported.
Hyderabad (June 23rd)	Average 1'5; total 3'07.	Preparations for <i>kharif</i> sowings in progress. Cholera still prevalent in some places. Prices—wheat 13½, coarse rice 11½, white <i>juar</i> 19, yellow <i>juar</i> 21½, and <i>tur</i> 14½ seers per current sicca rupee.
Central India States— (June 22nd)		
Indore	1'79	Weather oppressive. No rain for several days.
Morar (Gwalior)	'06	Health good. Weather cloudy.
Neemuch	5'04	Weather cold. Health good.
Goonna	'18	Health and prospects good.
Sutna	'77	Cholera has disappeared at Rewa, but is reported at Maihar. Weather cloudy. Health and prospects good.
Agar	3'49	Health fair.
Sehore	1'03	Weather seasonable. Health good.
Nowgong	'51	Weather changing. Prices steady. Cholera reported from Baoni and Chhatarpur.
Bhopawar	'82	Weather cloudy and close. Health good. Prices steady.
Rajputana—(June 22nd)		
Abu (June 22nd)	1'48	Weather cloudy and monsoonish at times, but no steady rain yet, seasonable.
Sirohi (" 19th)	'94	Tanks dry; wells good. Health good. Weather overcast and windy.
Marwar (" 18th)	'04	About two months' water in Jodhpore city tanks. Health good, though unhealthy in some districts. <i>Kharif</i> sowings commenced, where favoured with rain. Weather cloudy. Prices tending to fall.
Pertabgurh (" ")	1'15	Little water in wells. Health good. Prices fluctuating. Weather cloudy.
Meywar (" ")	'88	Tanks and wells low. Health fair. Diarrhoea rather prevalent. Prices steady. Weather cloudy and fairly cool.
Haroti (" ")	Deoli, '88; Tonk, '62; Shahpura, '09.	Weather cloudy. Ploughing commenced. Some cholera in Jeharpore.
Jhallawar (" 19th)	1'45	Weather cloudy and cool. Ploughing commenced.
Ajmere (" 21st)	'88	Weather hot and occasionally cloudy. Seven cases of cholera in Ajmere city, all fatal. Ploughing continues. Prices slightly falling.
Jeypore (" ")	Slight rain	Weather hot and cloudy.
Kerowlee (" 18th)	'34	Tank dry; wells drying. Sugarcane being irrigated. Land being prepared for <i>kharif</i> . Rain wanted. Small-pox among cattle. Prices rising. Weather very hot.
Dholepore (" ")	.	Weather cloudy and sultry. Wells drying; tanks almost dry. Small-pox disappearing. Fever still prevails. Prices rising.
Bhurtapore (" 21st)	.	Weather close. Health fair. Prices rising.
Ulwar (" ")	Slight rain	Ploughing progressing. Few cases of cholera, otherwise health good. Prices rising.
Kotah (" 18th)	1'03	Health good. Weather cloudy.
Kherwara (" 19th)	'50	Tanks and wells low. Ploughing commenced. Health good. Prices steady. Weather showery.
Bikanir (" 18th)	1'25; Reni, '50	Fever in three districts and small-pox in one. Prices rising. Weather very hot and cloudy.
Nepal—(June 17th)		
Katmandu (June 16th)	2'14	Weather seasonable. Prospects fair.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

Weather Review of India for the week ending the 22nd June, 1887.

There has been comparatively little change in the weather during the past week. Both the branches of the monsoon have been intermittent in character, the strength of the wind both on the Bengal and on the Bombay Coasts varying considerably between the commencement and end of the week.

On the 16th the winds were blowing very strongly and steadily along the Bombay Coast, and thence extended inland to the majority of stations in Bombay and the Central Provinces. The rainfall accompanying these winds was smaller than of late, but over the Coast districts the amounts were fairly large, and in the Central Provinces, Central India, and Rajputana were moderate.

On the 17th there were indications of the Bombay current becoming feebler, the winds on the Malabar Coast having fallen lighter; but otherwise there was little change, moderately heavy rain being reported from the West Coast and showers from Central India and the Central Provinces. A further decrease in the strength of the Bombay monsoon was reported on the 18th; but the rainfall continued much the same as on the preceding day.

By the 19th the strength of the winds on the West Coast had fallen below the average, and the rainfall over the districts fed by this branch had correspondingly decreased.

On the 20th, 21st, and 22nd there was practically no change in the West, an unusually feeble monsoon blowing all along that Coast, under the influence of which the rainfall gradually decreased, till at the close of the week a well-marked break in the rains obtained throughout Western India.

On the eastern side of the Peninsula the general changes were the reverse of those obtaining for the Bombay branch. On the 16th two small cyclonic circulations,—one over the Sonthal Pergannahs, the other in Oudh,—gave fairly heavy and general rain to most parts of Bengal; but the monsoon current itself was moderate, and the Coast stations had little or no rain. On the 17th the Bay of Bengal current was even feebler than on the previous day, calms being reported from Behar; and though moderate showers had fallen in Bengal, Assam, and Behar, the weather had become drier and warmer and the skies clearer in the Punjab, North-Western Provinces, Behar, and Rajputana. On the 18th the winds were stronger at the Ceylon stations and at Diamond Island, and the Bengal monsoon current was strengthening generally over the Bay.

On the morning of the 19th a further strengthening of the monsoon was reported, and at the same time a small depression had formed near the head of the Bay. This depression advanced towards Central Behar on the 20th, giving fairly general rain to North-Eastern India and occasioning much damper weather throughout Northern India. By the 21st the disturbance had reached Patna, giving rain to a large part of Northern and North-Eastern India and moderately strong monsoon winds on the Bengal Coast. Subsequently the depression filled up without moving further westward, but the strong monsoon winds it had occasioned brought rain and unusually cool damp weather to most parts of Northern and North-Western India.

Both pressure and temperature have been below the monthly average. In the latter element, the greatest defect was in the Central Provinces and the Berars, where it amounted to as much as 6° ; at the hill stations and in Guzerat the defect was about 4° , and in the Punjab, the North-Western Provinces, and Bombay about 3° .

The rainfall of the Bengal branch for the three weeks June 1st to 22nd is still short, as compared with the average for the same period in Burmah, Lower Bengal, and the greater part of the Punjab, but is above elsewhere; while the rainfall of the Bombay branch is above the average at all stations on the West Coast and at most of those in the Central Provinces, but is short elsewhere. On the West Coast the relative excess is less than it was at the close of the previous week, showing that the rainfall of the past seven days has been deficient. In the Deccan the deficiency is considerable.

Divisions.				No. of Stations.	Total Rainfall
Burmah		6	27 90
Bengal and Assam	16	67 64
N. W. Provinces and Oudh	8	8 98
Punjab	8	6 00
Hill Stations	5	8 71
Ceylon	2	2 51
Malabar Coast	5	33 25
Bombay	8	37 59
Berars and Central Provinces	10	24 74
Guzerat and Central India	6	8 11
Sind—Rajputana	3	2 41
Madras	10	3 17

SURVEY OF INDIA.

NOTIFICATIONS.

Simla, the 15th June, 1887.

No. 619.—Mr. J. T. U. Coxen, Surveyor, 4th grade, Survey of India, having returned from the leave granted in Notification No. 590, dated 17th November, 1886, on the forenoon of the 10th May, 1887, the following reversion is made, with effect from the same date:—

Mr. W. J. Cornelius, Officiating Surveyor, 4th grade, to revert to his substantive appointment of Assistant Surveyor, 1st grade.

No. 620.—Mr. A. Christie, Surveyor, 3rd grade, Survey of India, having been permitted

to return from the furlough granted him in Notification No. 583, dated 10th September, 1886, on the forenoon of the 16th May, 1887, the following reversion is made, with effect from the same date :—

Mr. E. A. Wainright, Officiating Surveyor, 4th grade, to revert to his substantive appointment of Assistant Surveyor, 1st grade.

No. 621.—Mr. J. H. Wilson, Assistant Surveyor, 1st grade, Survey of India, is granted privilege leave for three months, under Chapter X, Section 138, of the Civil Leave Code, with effect from 13th July, 1887, or such subsequent date as his services can be spared.

The 17th June, 1887.

No. 622.—The following reversion and temporary promotion are made, with effect from the forenoon of the 14th May, 1887, the date on which Mr. F. W. Kelly, Assistant Superintendent, 1st grade, returned to duty from leave :—

Lieutenant S. G. Burrard, R.E., Officiating Deputy Superintendent, 4th grade, to revert to his substantive post of Assistant Superintendent, 1st grade.

Mr. F. W. Kelly, Assistant Superintendent, 1st grade, to officiate as Deputy Superintendent, 4th grade.

No. 623.—With reference to the Notification of the Government of India in the Revenue and Agricultural Department, No. 246-15-13 S., dated the 5th May, 1887, placing the services of Lieutenant-Colonel W. Barron, S.C., Deputy Superintendent, 2nd grade, at the temporary disposal of the Government of the Straits Settlements, the following temporary promotions are made, with effect from the afternoon of the 14th May, 1887, the date on which Lieutenant-Colonel Barron made over charge of his duties in India :—

Major J. Hill, R.E., Deputy Superintendent, 3rd grade, to officiate as Deputy Superintendent, 2nd grade.

Mr. E. J. Jackson, Deputy Superintendent, 4th grade, to officiate as Deputy Superintendent, 3rd grade.

Lieutenant S. G. Burrard, R.E., Assistant Superintendent, 1st grade, to officiate as Deputy Superintendent, 4th grade.

No. 624.—Lieutenant-Colonel R. Beavan, S.C., Officiating Deputy Superintendent, 3rd grade, Survey of India, having made over charge of his duties on the afternoon of the 7th June, 1887, preparatory to availing himself of the furlough granted by Military Department Notification No. 240, dated 15th April, 1887, the following temporary promotions are made, with effect from the same date :—

Brevet Major St. G. C. Gore, R.E., Deputy Superintendent, 4th grade, to officiate as Deputy Superintendent, 3rd grade.

Mr. A. D'Souza, Assistant Superintendent, 1st grade, to officiate as Deputy Superintendent, 4th grade.

The 20th June, 1887.

No. 625.—Lieutenant-Colonel J. E. Sandeman, S.C., Officiating Deputy Superintendent, 2nd grade, is granted privilege leave for three

months, under Sections 71 to 74 of Chapter V of the Civil Leave Code, with effect from the 9th July, 1887, or from such subsequent date as he may avail himself thereof.

H. R. THUILLIER, *Lieut.-Col., R.E.,*
Surveyor General of India.

AGENT TO THE GOVERNOR-GENERAL, RAJPUTANA.

NOTIFICATIONS.

KOTRI CEMETERY.

The following monument in the Cemetery at Kotri, Sind, being in a ruinous condition, notice is hereby given, in accordance with Notification No. 103 Ecclesiastical, dated 20th June, 1885, Part 1, Rule XIX, that if the said monument be not repaired by some interested person or persons it will be levelled and the slab it contains will be built into the nearest wall of the Cemetery :—

Name.	Date of Monument.	Portion of Cemetery.
Anne D'Costa, wife of P. M. D'Costa, I.V.S.R.	1878 . . .	Roman Catholic.

F. B. SANDBERG,
Chaplain in charge of the Cemetery.

HYDERABAD, SIND,
The 2nd June, 1887.

SIALKOTE CEMETERY NOTICE.

The monument over the grave of Sergeant James Smith, 52nd Light Infantry, who died 23rd August 1859, aged forty-one years, having fallen out of repair, notice is hereby given that if the aforementioned monument be not repaired before the next repairs, it will be made level with the ground and the tablet placed in the wall of the Cemetery.

R. A. STORRS,
Chaplain.

NOTICE.

Referring to Rule XIX of Government of India, Home Department, No. 103, dated the 20th June, 1885, it is notified that the following monuments in the Cemetery of the Cantonment of Aurangabad (in His Highness the Nizam's territory) need repair as they are in a dilapidated and dangerous state :—

- (1) Tomb in memory of John Zacchens, son of Conductor and Mrs. Stewart, His Highness the Nizam's Army, died on Good Friday, the 25th March, 1842.
- (2) Tomb in memory of Lieutenant Henry Colvin Jackson, of the 45th Regiment, Bengal Native Infantry, died on 9th April, 1842.

Also Henry Bygrave Sutherland Jackson, son of the above and Lucie his wife, born on 3rd October, 1840, and died 13th February, 1842.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The Indian Law Reports, published under the authority of the Governor General in Council, appear in monthly parts, published as soon as possible after the first of each month, at Calcutta, Madras, Bombay, and Allahabad, and comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co. are distributed by that firm; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of previous advertisements, on and from the 1st January, 1885, the terms of subscription and sale will be as follows:—

Terms of subscription, payable annually in advance.		
For the complete Series, including postage		
	Without postage.	With postage.
For the complete Series	R10 0	R12 0
For the Calcutta Series		
" each of the Madras, Bombay and Allahabad Series	" 6 0	" 7 0
" a part of the Calcutta Series purchased separately inclusive of postage in India	" . . .	" 2 0
" a part of the Madras, Bombay and Allahabad Series purchased separately inclusive of postage in India	" . . .	" 1 0

Persons desiring to subscribe for, or purchase, the Report should apply to—

- Messrs. Thacker, Spink & Co., Calcutta.
 " Thacker & Co., Bombay.
 " Higginbotham & Co., Madras.
 The Government Central Book Depot, Bombay.
 " Curator of Government Books, North-Western Provinces and Oudh.
 " Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1885 should be at once remitted.

NOTICE.

Indian Law Reports.

Advertisements will be received for publication on the wrappers of the Indian Law Reports Calcutta Series, by the Calcutta Central Press Company, "Limited," 5-1, Council House Street, at the following rates, payable in advance:—

	One page.	Half page.	Quar. page.

SUPPLEMENT TO
The Gazette of India.

No. 26.}

CALCUTTA, SATURDAY, JUNE 25, 1887.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

TOTAL INUNDATION CANALS	17,477,033	4,252,420	537,461	502,034	35,427	3,596															

(a) The area irrigated by the Lower Sohag and Pira Canal was included in this statement, it has now been taken out and shown separately.
(b) This is the correct average and differs from that shown in the return for 1885.
(c) This is the correct rainfall and differs from that shown in the return for Kharif, 1885.

Area irrigated in 1885	502,034
Ditto 1886	537,461
Net Increase	35,427
